5 3 **Treatment for Exposure** Wash eyes and skin with water

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion** Grade 0 above 10 g/kg

5 7 **Late Toxicity** Causes damage to eye in dogs, pigs, rats and rabbits

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary

5 9 **Liquid or Solid Irritant Characteristics.** Minimum hazard. Repeated or prolonged skin contact may cause drying and reddening of the skin

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** 203 F (OC) 95 C (OC)

6 2 **Flammable Limits in Air**
[illegible]

6 3 **Fire Extinguishing Agents:** Water fog, foam, dry chemical or carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products** Sulfur dioxide, formaldehyde and methane in enclosed areas or confined spaces

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature:** 572 F

6 8 **Electrical Hazard** Not pertinent

6 9 **Burning Rate:** 2.0 mm/min

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity.** 24,500 ppm 48 hr Mosquito Fish in fresh water

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD)** Data not available

8 4 **Food Chain Concentration Potential** None

13 10 **Vapor (Gas) Specific Gravity:** Not pertinent

13 11 **Ratio of Specific Heats of Vapor (Gas)** Not pertinent

13 12 **Latent Heat of Vaporization:** 189 Btu/lb = 105 cal/g = 439 J/g

13 13 **Heat of Combustion:** -10,500 Btu/lb = -5,830 cal/g = -24,400 J/g

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution** -347 Btu/lb = -193 cal/g = -808 J/g

13 16 **Heat of Polymerization.** Not pertinent

NOTES

REVISED 1978

DMT — DIMETHYL TEREPHTHALATE

Common Synonyms	Solid or heated liquid	White solid or colorless liquid	Odorless
Terephthalic acid dimethyl ester	Liquid solidifies	Solid and liquid sink in water	

Fire	Combustible
Exposure	DUST Not harmful LIQUID OR SOLID Heated liquid will burn skin and eyes. Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment (if floating)
Should be removed
Chemical and physical treatment

2. LABELS

No label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Terephthalic acid dimethyl ester

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** $C_6H_4(COOCH_3)_2$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid or liquid

4 2 **Color:** Colorless

4 3 **Odor:** Not appreciable

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Mixed DMT: goggles and head coverings and protective clothing. Solid dust: mask, goggles

5 2 **Symptoms Following Exposure:** Mixed DMT and dust: severe irritation to eyes

5 3 **Treatment for Exposure:** EYES: flush dust from eyes with water. SKIN: wash with soap and water. If burned by molten DMT, flush area immediately with cold water for at least 5 min. Do not apply ice pack for at least 30 min. If molten DMT splashed on skin, do not scrape off DMT that has penetrated, because this will remove underlying skin. Seek prompt medical treatment for significant burns

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion:** Grade 1; oral LD_{50} = 4,100 mg/kg (rats)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Not pertinent

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Not pertinent

NOTES

DMZ — DIMETHYLZINC

Common Synonyms

Zinc dimethyl
Zinc methyl
Methylzinc

Liquid Colorless

IGNITES WHEN EXPOSED TO AIR. Reacts violently with water and produces flammable vapor.

Fire

IGNITES WHEN EXPOSED TO AIR
Irritating gases are produced when heated

Exposure

VAPOR OR MIST
Irritating to eyes, nose and throat
If inhaled will cause headache, nausea, vomiting or difficult breathing

LIQUID
Will burn skin and eyes
If swallowed will cause nausea, or vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Issue warning: high flammability
Keep unnecessary people away
Isolate hazard area

2 LABELS

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Zinc dimethyl
Zinc methyl
Methylzinc

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula.** $(CH_3)_2Zn$

3.4 **IMCO/United Nations Numerical Designation:** 4.2 / 1370

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Not pertinent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Canister type gas mask (approved for use as PVC fire chemical and asbestos eight glass full face shield safety glasses impervious clothing and gloves Do not breathe vapor or mist Avoid contact with liquid and vapor

5.2 **Symptoms Following Exposure:** Inhalation of mist or vapor causes immediate irritation of upper respiratory tract Excessive or prolonged inhalation of fumes may cause metal fume fever Effects may be delayed Symptoms are headache fever chills nausea vomiting muscular aches perspiration sometimes a sweet taste dryness weakness and at times prostration Symptoms usually last 12 24 hrs Eyes are immediately and severely irritated by liquid and vapor Skin contact causes burns Burns are removed with flush of water Chemicals are permanent damage to eyes Skin will undergo chemical and heat burns when chemical reacts with moisture in skin Unless washed quickly no pain may be noticed Treat as above but with the same precautions as concentrated liquid Ingestion of liquid will cause immediate burns at site of contact Nausea vomiting cramps and diarrhea may follow Tissues may ulcerate if not treated

5.3 **Treatment for Exposure:** INHALATION Artificial respiration if vapor either ignites spontaneously or reacts with moisture to form methane and zinc oxide Move victim to clean air and administer mouth to mouth resuscitation if breathing has ceased give oxygen only when authorized by physician keep victim warm and comfortable call physician immediately EYES immediately flush with large amounts of water for at least 15 min holding eyelids apart to insure flushing of entire eye surface use eye irrigation equipment only when directed by physician and do not attempt to neutralize with chemicals get medical attention as soon as possible SKIN immediately flush affected area with large volumes of water do not attempt to neutralize with chemicals get medical attention if irritation persists INGESTION Highly unlikely as liquid or vapor either

Continued on page 4

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent
Ignites upon exposure to air

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Dry chemical, sand, powdered limestone

6.4 **Fire Extinguishing Agents Not to be Used:** Water, foam, halogenated agents, carbon dioxide

6.5 **Special Hazards of Combustion Products:** Smoke contains zinc oxide which can irritate lungs and cause metal fume fever

6.6 **Behavior in Fire:** Reacts spontaneously with air or oxygen and violently with water Highly flammable in contact with water applied to adjacent fires will cause ignition

6.7 **Ignition Temperature:** Below 0°C

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts vigorously generating flammable methane gas

7.2 **Reactivity with Common Materials:** Will react with surface moisture to generate flammable methane

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Not pertinent

8.2 **Waterfowl Toxicity:** Not pertinent

8.3 **Biological Oxygen Demand (BOD):** None

8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

DNB — m-DINITROBENZENE

Common Synonyms

1,3-Dinitrobenzene
1,3-Dinitrobenzol
m-DNB

Solid | Yellow | Slight odor

Sinks in water

AVOID CONTACT WITH SOLID AND DUST
DO NOT SMOKE

Fire

Combustible
May explode if exposed to heat or flames

Exposure

VAPOR OR DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED

SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

2. LABEL

POISON

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1,3-Dinitrobenzene; 1,3-Dinitrobenzol; m-DNB; meta-Dinitrobenzene
3.2 **Coast Guard Compatibility Classification:** To be developed
3.3 **Chemical Formula:** $C_6H_4N_2O_4$
3.4 **IMCO/United Nations Numerical Designation:** 1597

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** Yellow
4.3 **Odor:** Weak

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Use respiratory protection and protective clothing.
5.2 **Symptoms Following Exposure:** Inhalation of dust irritates nose and throat. Causes headache, dizziness, drowsiness and slight cyanosis. Vapor and dust are readily absorbed through skin and cause poisoning. Ingestion causes nausea, vomiting, abdominal pain, and collapse.
5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air; if not breathing, give artificial respiration, preferably mechanical assistance. EYES: flush with plenty of water. SKIN: wash with soap and water. INGESTION: induce vomiting by giving large quantities of water and repeating; call physician immediately.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 1 mg/m³
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 3; oral LD_{50} 42 mg/kg (rats)
5.7 **Late Toxicity:** May cause liver damage; carcinogen

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 2,6-Dinitro-o-cresol
4,6-Dinitro-o-cresol; 4,6-Dinitro-o-cresol

3.2 **Coast Guard Compatibility Classification.** Not listed

3.3 **Chemical Formula:** $C_7H_6N_2O_5$

3.4 **IMCO/United Nations Numerical Designation.** None

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** Yellow

4.3 **Odor:** Data not available

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust mask, goggles or face shield, protective clothing, rubber gloves

5.2 **Symptoms Following Exposure:** Very high fever, sweating, rapid pulse, and collapse following absorption in a fatal dose. Dinitrocresol: Inhalation of dust may cause same symptoms as ingestion. Ingestion: nausea, feeling of heat, weakness, yellow discoloration of skin, increased body metabolism, marked body weight loss, convulsions, coma and death. Contact with skin may cause irritation. Contact with eyes causes irritation and possible damage to eyes. Other toxic effects: None known. Note: Some authorities recommend that dinitrocresol workers have medical exams to determine personal susceptibility before they are assigned to this work. Suggested medical exams: none known.

5.3 **Treatment for Exposure:** INHALATION: apply artificial respiration if breathing has stopped and oxygen if breathing is difficult. INGESTION: induce vomiting (if victim is conscious and not convulsing) by giving two glasses of water and administering ipecac. Get medical attention. EYES: flush with plenty of water for at least 15 minutes, lifting upper and lower lids. SKIN: wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value).** 0.2 mg/m³

5.5 **Short-Term Inhalation Limits.** 1 mg/m³ for 30 min

5.6 **Toxicity by Ingestion:** Grade 4. LD$_{50}$: 30 mg/kg (rat)

5.7 **Late Toxicity:** Data not available

6.1 **Flash Point:** Not pertinent

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents.** Water fog, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:**

6.5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fire

6.6 **Behavior in Fire:** Containers may explode

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:**

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization.** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 96-hour LC$_{50}$ for aquatic organisms: 4.5 ppm (bluegill); 2.5 ppm (goldfish); 0.5 ppm (rainbow trout); 4-day median TL$_m$: 0.5 ppm (fresh water)

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)**
Data not available

8.4 **Food Chain Concentration Potential:**
None

5 HEALTH HAZARDS (Cont'd)

DNP	2,4-DINITROPHENOL

Common Synonyms
Alpha Dinitrophenol
1-Hydroxy-2,4-dinitrobenzene

Solid crystal | Yellow | Sweet metallic odor

Sinks in water

Fire

Combustible
May explode if subjected to heat or flame
POISONOUS GASES PRODUCED WHEN HEATED

Exposure

DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED

SOLID
POISONOUS IF SWALLOWED

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Evacuate area
Keep unnecessary people away
Isolate hazard area and deny entry
Stay upwind
Keep out of low areas
Ventilate closed spaces before entering
Wear self-contained breathing apparatus and full protective clothing
Should be removed
Chemical and physical treatment

2 LABEL

POISON

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Aldifen
Alpha-Dinitrophenol
Hexanitrodiphenylamine

3.2 **Coast Guard Compatibility Classification:**
Not applicable

3.3 **Chemical Formula:**
$HOC_6H_3(NO_2)_2$

3.4 **IMCO United Nations Numerical Designation:** 1599

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** Yellow

4.3 **Odor:** Mildly sweet

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus, Rubber gloves, Rubber boots, Rubber suit

5.2 **Symptoms Following Exposure:** Headache, dizziness, nausea, loss of weight, fever, profuse perspiration, yellow discoloration of skin, cataracts

5.3 **Treatment for Exposure:** Remove victim to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Wash skin with soap and water. Induce vomiting. Call physician. Keep victim warm and quiet.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.2 mg/m³

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 4 Poison. Minimum lethal dose unknown

5.7 **Late Toxicity:** Produces clouding of lens of eye (cataracts) in animals and humans; birth defects in chick embryos

5.8 **Vapor (Gas) Irritant Characteristics:** None known

5.9 **Liquid or Solid Irritant Characteristics:** Causes staining of the skin and first-degree burns on short exposure, may cause second-degree burns on long exposure

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Data not available

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Water, dry chemical, carbon dioxide, foam

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Vapor is toxic

6.6 **Behavior in Fire:** Vapor density increases when heated under confinement

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** Reacts with oxidizing materials and combustibles

7.3 **Stability During Transport:** May decompose when heated under confinement

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 500 ppm is the minimum dose for fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)** Data not available

8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

1. American Mineral Products Inc.
29 McLean Blvd
Paterson, N.J. 07504

2. Mallinckrodt Chemical Works
Mallinckrodt Chemical Division
Charlotte, N.C. 28201

10 SHIPPING INFORMATION

10.1 **Grades of Purity:** Data not available

10.2 **Storage Temperature:** Ambient

10.3 **Inert Atmosphere:** No requirement

10.4 **Venting:** Data not available

11 HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook, CG-446-3

II

12 HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:** Poisonous liquid, Packing Group II

12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

12.3 **NFPA Hazard Classifications:** Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Solid

13.2 **Molecular Weight:** 184

13.3 **Boiling Point at 1 atm:** Not pertinent

13.4 **Freezing Point:** 234.1 to 235.1°C

13.5 **Critical Temperature:** Not pertinent

13.6 **Critical Pressure:** Not pertinent

13.7 **Specific Gravity:** 1.68 at 20°C

13.8 **Liquid Surface Tension:** Not pertinent

13.9 **Liquid-Water Interfacial Tension:** Not pertinent

13.10 **Vapor (Gas) Specific Gravity:** Not pertinent

13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent

13.12 **Latent Heat of Vaporization:** Not pertinent

13.13 **Heat of Combustion:** Not pertinent

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

NOTES

REVISED 1978

DTT — 2,4-DINITROTOLUENE

Common Synonyms

DNT
2,4-Dinitrotoluol
1-Methyl-2,4-Dinitrobenzene

Solid or heated liquid. Yellow to red solid or yellow liquid. Slight odor.

Liquid solidifies. Solid and liquid sink in water.

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
Containers may explode in fire.

Exposure

LIQUID OR SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn skin and eyes.
If swallowed will cause nausea, vomiting or loss of consciousness.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

NOTES

DOA — DIOCTYL ADIPATE

Common Synonyms
Adipic acid bis(2-ethylhexyl) ester
Di(2-ethylhexyl) adipate

Oily liquid | Colorless | Odorless

Floats on water

Stop discharge if possible
Call fire department
Avoid contact with liquid
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with foam, carbon dioxide, dry chemical or water spray
Water may be ineffective on fire

Exposure

CALL FOR MEDICAL AID
LIQUID
Irritating to eyes
Wash skin with soap and water
IN CASE OF CONTACT IMMEDIATELY FLUSH EYES with plenty of water

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Mechanical containment
Chemical and physical treatment

2 LABELS

REVISED 1978

DSS — DIOCTYL SODIUM SULFOSUCCINATE

Common Synonyms
Bis(2-ethylhexyl) sodium sulfosuccinate
Aerosol surfactant
Aerowet D65
Di(2-ethylhexyl) sulfosuccinate sodium salt
Sodium dioctyl sulfosuccinate

Waxy solid or waters solution | Colorless to white | Odorless

Sinks and mixes slowly with water

Fire

Not flammable

Exposure

LIQUID OR SOLID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Disperse and flush

2. LABELS

No label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms** Aerosol Surfactant
AY-100 DSS Base - Di(2-ethylhexyl) sodium sulfosuccinate - Di(2-ethylhexyl) sulfosuccinate sodium salt - Sodium dioctyl sulfosuccinate
3 2 **Coast Guard Compatibility Classification** Not applicable
3 3 **Chemical Formula.** $C_{20}H_{37}OOCCH(SO_3Na)CH_2OOCC_8H_{17}$
3 4 **IMCO United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Waxy solid or water solution
4 2 **Color** Colorless - off white
4 3 **Odor.** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Chemical goggles rubber gloves for respirator
5 2 **Symptoms Following Exposure** Liquid is strong irritant to eyes and mucous membranes, skin by removing natural oils. Ingestion causes diarrhea and intestinal bleeding
5 3 **Treatment for Exposure** EYES irrigate with copious volumes of water for at least 15 minutes and physician SKIN wash off with water INGESTION drink large amounts of water
5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available
5 5 **Short-Term Inhalation Limits** Not pertinent
5 6 **Toxicity by Ingestion** Grade 2 oral LD_{50} = 1900 mg/kg (rat)
5 7 **Late Toxicity** Data not available
5 8 **Vapor (Gas) Irritant Characteristics** Not pertinent
5 9 **Liquid or Solid Irritant Characteristics** Data not available
5 10 **Odor Threshold** Not pertinent

NOTES

DOX	# 1,4-DIOXANE

Common Synonyms			
Dioxane p-Dioxane	Liquid	Colorless	Slight alcohol odor

Sinks and mixes with water. Flammable, irritating vapor is produced. Freezing point is 53° F.

Avoid contact with liquid and vapor. Keep people away.
Wear goggles and self-contained breathing apparatus and rubber protective clothing (including gloves).
Shut off ignition sources; no flares, smoking or flames.
Stop discharge if safe.
Stay upwind and keep out of low areas; ventilate closed spaces before entering.
Isolate and remove leaking container.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Wear goggles, self-contained breathing apparatus and rubber protective clothing (including gloves).
Extinguish with dry chemical, CO2, water spray or foam.
Water may be ineffective.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
Harmful if inhaled.
May cause shock.
If breathing has stopped, give artificial respiration.
Provide fresh air.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing, shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids apart and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water (two glasses at most). Induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do not induce vomiting or give anything by mouth.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-2)

Isolate warning, high flammability.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Diethylene oxide; Dioxan; p-Dioxane
3.2 **Coast Guard Compatibility Classification:** Group 1
3.3 **Chemical Formula.** $C_4H_8O_2$ or $OCH_2CH_2OCH_2CH_2$
3.4 **IMCO United Nations Numerical Designation.** 3.2/1165

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Mild somewhat aromatic ether; faint alcohol ethereal

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Full protective clothing, including gloves. Self-contained breathing apparatus.
5.2 **Symptoms Following Exposure:** No significant acute hazard. Liquid irritating to eyes and skin. Prolonged or repeated exposure may cause skin burns and dermatitis. Vapor irritating to eyes, nose and throat. Headache, dizziness, nausea, vomiting, drowsiness, unconsciousness. Effects may be delayed. Material is readily absorbed through intact skin.
5.3 **Treatment for Exposure:** INHALATION: If victim is conscious, give oxygen. Keep victim warm and quiet. Get medical attention. If victim is not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. INGESTION: Induce vomiting immediately as directed by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention. SKIN AND EYES: Flush with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm
5.5 **Short-Term Inhalation Limits:** 100 ppm for 60 min
5.6 **Toxicity by Ingestion:** Grade 3. LD_{50} (oral, rat) = 4.2 g/kg
5.7 **Late Toxicity:** Causes cancer in rats
5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes slight smarting of eyes and respiratory tract (nose and throat) on prolonged exposure. Data inadequate for rating.
5.9 **Liquid or Solid Irritant Characteristics:** Moderate irritant to eyes, based on tests with rabbits. Prolonged contact with skin may cause dermatitis.
5.10 **Odor Threshold:** 620 mg/m³

6 FIRE HAZARDS

6.1 **Flash Point:** 54°F C.C. 74°F O.C.
6.2 **Flammable Limits in Air:** 2.0% - 22.0% by vol.
6.3 **Fire Extinguishing Agents:** Alcohol foam, carbon dioxide, dry chemical.
6.4 **Fire Extinguishing Agents Not to Be Used:** Not pertinent.
6.5 **Special Hazards of Combustion Products:** Toxic vapors are released when heated.
6.6 **Behavior in Fire:** Vapor may travel to source of ignition and flash back.
6.7 **Ignition Temperature:** 356°F
6.8 **Electrical Hazard:** Not pertinent.
6.9 **Burning Rate:** Data not available.

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity.** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD)** (5 days, 20°C) 1.0 lb/lb
8.4 **Food Chain Concentration Potential:** None

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No label required by Coast Guard
Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** 1-menthene para-Mentha-1,8-diene, Phellandrene, Terpinene, delta-1,8-Terpodiene

3.2 **Coast Guard Compatibility Classification** Olefins (11)

3.3 **Chemical Formula** $C_{10}H_{16}$

3.4 **IMCO/United Nations Numerical Designation** 33 2052

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid

4.2 **Color** Colorless to pale yellow

4.3 **Odor** Pleasant piney lemonlike

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Splash-proof chemical goggles, safety glasses, face shield, self-contained breathing apparatus for high vapor concentrations

5.2 **Symptoms Following Exposure** Liquid irritates eyes, prolonged contact will defat skin, causes irritation. Ingestion causes irritation of gastrointestinal tract

5.3 **Treatment for Exposure** INHALATION: remove victim to fresh air, if not breathing give artificial respiration, if breathing is difficult give oxygen, call physician. EYES: Flush with water for 15 minutes, call physician. SKIN: wash with soap and water. INGESTION: induce vomiting, call physician

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5.5 **Short-Term Inhalation Limits** Data not available

5.6 **Toxicity by Ingestion** Grade 2 oral LD[illegible] [illegible] grams/kg

5.7 **Late Toxicity** Data not available

5.8 **Vapor (Gas) Irritant Characteristics** Vapor concentrations slightly irritating to eyes, nose and throat present in high concentrations. The effects are temporary

5.9 **Liquid or Solid Irritant Characteristics** Minimally hazardous. Repeated or prolonged contact may cause irritation to skin and eyes

5.10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6.1 **Flash Point** 115°F C.C.

6.2 **Flammable Limits in Air** 0.7% to 6.1%

6.3 **Fire Extinguishing Agents** For small fires, dry chemical, carbon dioxide, water spray or fog. For large fires, water spray, fog or foam. Move containers from fire area if possible. Dilute vapors to below explosive levels with water spray. Avoid aiming straight streams directly into liquid pools.

6.4 **Fire Extinguishing Agents Not to be Used** Water may be ineffective

6.5 **Special Hazards of Combustion Products** Not pertinent

6.6 **Behavior in Fire** Containers may explode

6.7 **Ignition Temperature** 458°F

6.8 **Electrical Hazard** Data not available

NOTES

DPD — DIPHENYLDICHLOROSILANE

Common Synonyms

Dichlorodiphenylsilane
Dichlorodiphenylsilicane
Diphenylsilicon dichloride

Liquid Colorless Sharp irritating odor

Reacts with water. Irritating vapor is produced.

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

VAPOR
Irritating to eyes, nose and throat

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-6)

Issue warning. Corrosive water contaminant.
Restrict access.
Dispose and flush with care.

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Dichlorodiphenylsilane; Dichlorodiphenylsilicane; Diphenylsilicon dichloride

3.2 **Coast Guard Compatibility Classification** Not applicable

3.3 **Chemical Formula** $(C_6H_5)_2SiCl_2$

3.4 **IMCO/United Nations Numerical Designation** No. 1769

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Sharp hydrochloric acid like pungency

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Avoid eye, skin exposure to liquid, vapor, mist. Use chemical worker's goggles; wear protective gloves, boots, aprons; use respirator when indicated.

5.2 **Symptoms Following Exposure** Irritation of eyes, skin, mucous membranes. Liquid causes severe burns. Vapor, mist or fumes cause coughing, choking, sore throat.

5.3 **Treatment for Exposure** INHALATION: Remove to fresh air. Apply artificial respiration if not breathing. Call physician if needed. EYES: Flush with water for at least 15 minutes. Call physician immediately. SKIN: Remove contaminated clothing. Wash affected areas with soap and water. INGESTION: Do not induce vomiting. Call physician immediately. Have victim drink water (two glasses at most). Never give anything by mouth to an unconscious person.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5.5 **Short-Term Inhalation Limits** Data not available

5.6 **Toxicity by Ingestion** Grade 4 LD50 (rat) 200 mg/kg

5.7 **Late Toxicity** Data not available

5.8 **Vapor (Gas) Irritant Characteristics** Vapors are highly irritating to eyes, skin, and mucous membranes. Warning properties adequate. Do not remain in area.

5.9 **Liquid or Solid Irritant Characteristics** Severely irritating to eyes, skin, and mucous membranes. Causes burns readily. Wash skin with soap and water. Flush eyes with water.

5.10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6.1 **Flash Point** 288°F O.C.

6.2 **Flammable Limits in Air** Data not available

6.3 **Fire Extinguishing Agents** Dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used** Water and foam

6.5 **Special Hazards of Combustion Products** Hydrochloric acid; dense smoke when involved in fire

6.6 **Behavior in Fire** Difficult to ignite. Will not be recognized as present. Contact with flame or application of direct fire will produce irritating hydrochloric acid fumes.

6.7 **Ignition Temperature** Data not available

6.8 **Electrical Hazard** Data not available

6.9 **Burning Rate** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water.** Reacts with water to generate hydrogen chloride (hydrochloric acid).

7.2 **Reactivity with Common Materials.** Reacts with surface moisture to generate hydrogen chloride which is corrosive to common metals.

7.3 **Stability During Transport** Stable

7.4 **Neutralizing Agents for Acids and Caustics** Flush with water. Rinse with sodium bicarbonate or dilute solution.

7.5 **Polymerization** Not pertinent

7.6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity** Data not available

8.2 **Waterfowl Toxicity** Data not available

NOTES

DPM — DIPHENYLMETHANE DIISOCYANATE

Common Synonyms
MDI
Diphenylmethane-4,4'-diisocyanate

Solid — White to light yellow

Sinks in water

Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible

Wear goggles and self-contained breathing apparatus.
Extinguish with foam, dry chemical or carbon dioxide.

Exposure

CALL FOR MEDICAL AID

SOLID
Irritating to skin and eyes.

Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

Notify local health and wildlife officials.
Notify operators of nearest water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-448-4

Evacuate area of unprotected personnel.
Shut off source.
Clean up and dispose of properly.

2. LABELS

No hazard specific label.
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Diphenylmethane-4,4'-diisocyanate; 4,4'-Methylenebis(phenyl isocyanate); MDI; Methylenebis(4-phenylisocyanate); MDI-50; Methylene diphenyl diisocyanate; Isocyanic acid, methylenedi-4,1-phenylene ester

3.2 **Coast Guard Compatibility Classification** Isocyanate

3.3 **Chemical Formula** $C_{15}H_{10}N_2O_2$

3.4 **IMCO United Nations Numerical Designation.** Not assigned

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Solid

4.2 **Color.** Colorless to light yellow

4.3 **Odor:** Data not available

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Mask with respirator for organic vapors (NIOSH/MSHA approved) or self-contained breathing apparatus. Rubber boots and gloves. Rubber apron. Wear chemical safety goggles or face shield. Eye wash fountain should be provided in work area.

5.2 **Symptoms Following Exposure:** Breathlessness. Irritation of eyes, skin, nose, throat and respiratory tract.

5.3 **Treatment for Exposure:** INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. SKIN CONTACT: Wash with soap and water. Remove contaminated clothing and shoes. EYE CONTACT: Flush with plenty of water for at least 15 minutes. Get medical attention.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** 0.02 ppm

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion** Data not available

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Severe irritation of eyes, nose, throat and respiratory tract. Lacrimation. Coughing. Pulmonary edema.

5.9 **Liquid or Solid Irritant Characteristics** Moderate irritation. Primary irritation to skin with prolonged contact. Slight conjunctivitis.

5.10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6.1 **Flash Point** 425°F O.C.

6.2 **Flammable Limits in Air** Not determined

6.3 **Fire Extinguishing Agents:** Carbon dioxide or dry chemical.

6.4 **Fire Extinguishing Agents Not to be Used** Not determined

6.5 **Special Hazards of Combustion Products.** Toxic vapors are generated when heated.

6.6 **Behavior in Fire** Melts and burns

6.7 **Ignition Temperature** Data not available

6.8 **Electrical Hazard** Not determined

6.9 **Burning Rate** Not determined

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:**
Reacts slowly
Reaction is endothermic

7.2 **Reactivity with Common Materials:**
Data not available

7.3 **Stability During Transport** Stable

7.4 **Neutralizing Agents for Acids and Caustics.** Not determined

7.5 **Polymerization:** May occur slowly
Heat hazardous

7.6 **Inhibitor of Polymerization.**
Not determined

8 WATER POLLUTION

8.1 **Aquatic Toxicity**
Data not available

8.2 **Waterfowl Toxicity** Data not available

8.3 **Biological Oxygen Demand (BOD).**
Data not available

8.4 **Food Chain Concentration Potential**
None

9 SELECTED MANUFACTURERS

NOTES

REVISED 1978

DNA	Di-n-PROPYLAMINE

Common Synonyms			
N-propyl-1-propanamine	Liquid	Colorless	Strong ammonia like odor
	Floats and mixes with water		

Fire

FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache, dizziness, coughing or difficult breathing

LIQUID
Will burn eyes
If swallowed will cause nausea and vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-4

Isolate warning water for ammonia or contaminant; high flammability
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** N-n-Propylpropanamine
3.2 **Coast Guard Compatibility Classification** Not listed
3.3 **Chemical Formula** $(C_3H_7)_2NH$; Not
3.4 **IMCO/United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid
4.2 **Color** Colorless
4.3 **Odor** Strong ammoniacal

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Self-contained breathing apparatus; butyl rubber gloves; butyl rubber apron; face shield
5.2 **Symptoms Following Exposure** Inhalation causes severe cough and chest pain; edema of the passages can cause lung edema; may also cause headache, nausea and anorexia. Ingestion causes irritation and burning in mouth and stomach. Contact causes severe irritation and edema of the tissues. Contact also causes severe irritation
5.3 **Treatment for Exposure** INHALATION: remove victim; if breathing has stopped, give artificial respiration; if breathing is difficult, give oxygen; call a physician. INGESTION: give large amounts of water; get medical attention. EYES: flush with water for 15 minutes; get medical attention. SKIN: flush with water for 15 minutes
5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion** Grade 3; Oral LD_{50} [illegible] mg/kg rats; moderate acute toxicity
5.7 **Late Toxicity** Causes degenerative changes in liver and kidneys in rats and rabbits
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point** 35°F TOC
6.2 **Flammable Limits in Air** Data not available
6.3 **Fire Extinguishing Agents.** Foam, CO2, dry chemical, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fire
6.6 **Behavior in Fire:**
6.7 **Ignition Temperature:** Data not available
6.8 **Electrical Hazard.** Data not available
6.9 **Burning Rate:** [illegible]

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water.** No reaction
7.2 **Reactivity with Common Materials.** May react with some forms of plastic
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

NOTES

REVISED 1978

DOD

DODECENE

Common Synonyms
Propylene tetramer

Watery liquid | Colorless | Pleasant odor

Floats on water

Super Fischer Tropsch
Gulf Oil Chemicals Co
Kerr-McGee Chemical Corp
Union Carbide Corp
Vista Chemical Co

Fire

Combustible.

Use water spray, fog, foam, dry chemical or carbon dioxide.

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin and eyes
Harmful if swallowed
Wear goggles or face shield and rubber gloves
Wash contaminated clothing before reuse
IN CASE OF CONTACT WITH EYES: Flush with plenty of water
IN CASE OF SWALLOWING: If victim is CONSCIOUS have victim drink water or milk
DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms** Dodecene (non linear)
Propylene tetramer
Tetrapropylene

3 2 **Coast Guard Compatibility Classification** Olefin

3 3 **Chemical Formula:** $C_{12}H_{24}$

3 4 **IMCO United Nations Numerical Designation.** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Characteristic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Protective gloves; no respiratory protection needed if ventilation is adequate

5 2 **Symptoms Following Exposure:** No inhalation hazard expected. Aspiration hazard if ingested. Minor skin and eye irritation

5 3 **Treatment for Exposure** INHALATION: Remove victim to fresh air. INGESTION: do NOT induce vomiting. Do NOT lavage. Give vegetable oil and demulcents; call physician. EYE CONTACT: flush with water for 15 min. SKIN CONTACT: wash with soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 200 ppm

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion** Grade 0 LD$_{50}$ above 5 g/kg

5 7 **Late Toxicity** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Slight smarting of eyes and respiratory system at high concentrations. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of skin.

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 120°F C.C. 134°F O.C.

6 2 **Flammable Limits in Air** Data not available

6 3 **Fire Extinguishing Agents:** Water fog, foam, carbon dioxide, dry chemical

6 4 **Fire Extinguishing Agents Not to be Used** Water may be ineffective

6 5 **Special Hazards of Combustion Products** Not pertinent

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature:** 400°F (est.)

6 8 **Electrical Hazard** Not pertinent

6 9 **Burning Rate.** Data not available

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

NOTES

DDB — DODECYLBENZENE

Common Synonyms

1 Phenyldodecane
n-Dodecylbenzene
Laurylbenzene
Detergent alkylate #2
Dodecylbenzene (linear)

Liquid | Colorless | Weak oily odor

Floats on water

[illegible] target if possible. Keep people away.
[illegible]
Avoid contact with liquid.
Isolate discharge material.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

Fire

Combustible
Extinguish with dry chemical, foam or carbon dioxide.
Water may be ineffective on fire.

Exposure

Call for medical aid.
LIQUID
Irritating to skin and eyes.
Harmful if swallowed
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
If IN EYES, lift lids open and flush with plenty of water.
If SWALLOWED and victim CONSCIOUS, have victim drink water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Detergent Alkylate #2, n-Dodecylbenzene, Dodecylbenzene (linear), Laurylbenzene, 1-Phenyldodecane, UCANE Alkylate 12
3 2 **Coast Guard Compatibility Classification.** Aromatic hydrocarbon
3 3 **Chemical Formula:** $C_6H_5(CH_2)_{11}CH_3$
3 4 **IMCO/United Nations Numerical Designation.** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Weak oily

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves
5 2 **Symptoms Following Exposure:** Liquid causes mild irritation of eyes and may cause allergenic responses on repeated contact with skin. Ingestion causes nausea.
5 3 **Treatment for Exposure:** EYES: flush with water for at least 15 min., get medical attention for persistent irritation. SKIN: wash with soap and water. INGESTION: do NOT induce vomiting, get medical attention.
5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available
5 5 **Short-Term Inhalation Limits:** Not pertinent
5 6 **Toxicity by Ingestion:** Grade 1 LD$_{50}$ 5.0 g/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics.** Vapors are nonirritating to eyes and throat
5 9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin.
5 10 **Odor Threshold:** Data not available

NOTES

DCS — DODECYLBENZENESULFONIC ACID, CALCIUM SALT

Common Synonyms
Calcium alkylaromatic sulfonate
Calcium alkylbenzenesulfonate

Liquid | Yellowish brown | Solvent odor

May float or sink in water

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

(SEE FOR MEDICAL AID)
LIQUID
Irritating to skin and eyes
If swallowed will cause nausea

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability
Mechanical containment
Should be removed
Chemical and physical treatment

NOTES

DAI

DODECYLBENZENESULFONIC ACID, ISOPROPYLAMINE SALT

Common Synonyms
Isopropylamine dodecylbenzenesulfonate

Solid — Off white

May float or sink and mix with water

Fire

Combustible

Exposure

SOLID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 448-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Isopropylamine dodecylbenzenesulfonate
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $C_{15}H_{25}C_6H_4SO_3H \cdot NHC_3H_9$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid or viscous liquid
4 2 **Color:** Off white
4 3 **Odor:** Liquid form has sweet petroleum type odor

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves, goggles, mask (for liquid form)
5 2 **Symptoms Following Exposure:** Ingestion causes mild irritation of mouth and stomach. Contact with liquid causes irritation of eyes and to a prolonged contact, mild irritation of skin
5 3 **Treatment for Exposure:** INGESTION: give large amount of water, consult a doctor if large amount was ingested. EYES: flush with water for at least 15 min., consult a doctor if irritation persists. SKIN: flush with water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 3. LD$_{50}$ 1.4 g (gram)

13 16 **Heat of Polymerization:** Not pertinent

(Continued on page 4 and 5)

NOTES

DBS — DODECYLBENZENESULFONIC ACID, TRIETHANOLAMINE SALT

Common Synonyms		
Triethanolamine dodecylbenzenesulfonate	Liquid	Yellowish brown
	Sinks and mixes with water	

Avoid contact with liquid. Keep people away.
Wear protective equipment.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Extinguish with water. Use alcohol foam, carbon dioxide.

Exposure

CALL FOR MEDICAL AID
LIQUID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS
do not give anything by mouth.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and pollution control agencies.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Triethanolamine dodecylbenzenesulfonate
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $C_{12}H_{25}C_6H_4SO_3H \cdot N(CH_2CH_2OH)_3 \cdot H_2O$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Amber
4 3 **Odor:** Data not available

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves, face mask or goggles
5 2 **Symptoms Following Exposure:** Ingestion may cause irritation of mouth and stomach. Contact with eyes or prolonged contact with skin may cause irritation.
5 3 **Treatment for Exposure:** INGESTION: give large amount of water, consult a doctor if large amount was ingested. EYES: flush with water, consult a doctor if irritation persists. SKIN: flush with water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not pertinent
6 2 **Flammable Limits in Air:** Not pertinent
6 3 **Fire Extinguishing Agents:** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen and irritating oxides of sulfur may form in fire
6 6 **Behavior in Fire:**
6 7 **Ignition Temperature:** Not pertinent
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:**
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** Data not available
8 4 **Food Chain Concentration Potential:** None

NOTES

DSD	DODECYL SULFATE, DIETHANOLAMINE SALT

Common Synonyms
Diethanolamine lauryl sulfate solution
Lauryl sulfate, diethanolamine salt solution

Liquid | Clear to pale yellow | Mild odor

May float or sink and mix with water

Avoid contact with liquid. Keep people away.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin and eyes.
If swallowed will cause nausea and vomiting.
Remove contaminated clothing. Shoes
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids apart and flush with plenty of water.
IF SWALLOWED, do not induce vomiting. Have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS
Do not make victim vomit or give anything by mouth.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Diethanolamine lauryl sulfate solution
Lauryl sulfate, diethanolamine salt solution

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:**
$C_{16}H_{33}OSO_3H \cdot (HOCH_2CH_2)_2NH \cdot H_2O$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Clear pale yellow

4.3 **Odor:** Mild fatty

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical goggles or face shield; protective gloves

5.2 **Symptoms Following Exposure:** Ingestion causes mild irritation of stomach. Liquid irritates eyes and causes some corneal damage after prolonged contact. Prolonged contact with skin causes mild irritation.

5.3 **Treatment for Exposure:** INGESTION: consult a doctor if large amount was ingested. EYES: wash well with water; consult a doctor if irritation persists. SKIN: flush with water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short Term Inhalation Limits:** Data not available

NOTES

DDS — DODECYL SULFATE, SODIUM SALT

Common Synonyms
Sodium lauryl sulfate
Lauryl sodium sulfate
Sodium dodecyl sulfate

Solid paste or liquid — White to gray — Mild odor

Sinks and mixes with water

Fire

Not flammable

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing

SOLID OR LIQUID
Will burn eyes
Irritating to eyes
If swallowed will cause nausea and vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes

NOTES

DTC DODECYLTRICHLOROSILANE

Common Synonyms	Liquid Colorless Sharp irritating odor Reacts with water. Irritating gas is produced on contact with water
	[illegible]
Fire	Combustible POISONOUS GASES MAY BE PRODUCED IN FIRE. [illegible] CONTAIN RUNOFF FOR DISPOSAL.
Exposure	[illegible] VAPOR Irritating to eyes, nose and throat [illegible] LIQUID Will burn skin and eyes Harmful if swallowed [illegible]
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes [illegible]

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Issue warning. Eliminate water contamination.

Restrict access.

Dispose of flush with care.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $C_{12}H_{25}SiCl_3$

3.4 **IMCO/United Nations Numerical Designations:** [illegible]

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Sharp and hydrochloric acid; pungent and irritating

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Acid vapor type respirator, protective rubber gloves, chemical worker's goggles, other protective equipment as necessary to prevent eyes and skin contact.

5.2 **Symptoms Following Exposure:** Inhalation irritates the mucous membrane. Contact with liquid causes severe burns to eyes and skin. Ingestion causes severe burns of mouth and stomach.

5.3 **Treatment for Exposure:** INHALATION: remove from exposure, support respiration and physician if needed. EYES: flush with water for 15 minutes, obtain medical attention immediately. SKIN: flush with water, wash with soap, obtain medical attention if irritation persists. INGESTION: induce vomiting, give large amounts of water, then milk or milk of magnesia.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 1 Data: 500 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will avoid high concentrations if practical. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes severe and third degree burns on short contact and is very dangerous to the eyes.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** > 200°F (93°C)

6.2 **Flammable Limits in Air:** Data not available

6.3 **Fire Extinguishing Agents:** Dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water jets

6.5 **Special Hazards of Combustion Products:** Hydrochloric acid and phosgene when heated to high temperatures

6.6 **Behavior in Fire:** Different containers exposed may react. Contact with water applied to adjacent fires produces irritating hydrogen chloride fumes

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Generates hydrogen chloride and hydrochloric acids

7.2 **Reactivity with Common Materials:** Reacts with surface moisture to generate hydrogen chloride which is corrosive to [illegible]

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water. Rinse with sodium bicarbonate or lime solution

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

NOTES

DTH	DOWTHERM

Common Synonyms

Liquid Light to dark brown Fragrant odor

May float or sink in water. Freezing point is 54° F

Fire

Combustible

Exposure

LIQUID
Irritating to skin and eyes.
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - poison - water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1,2,3,4,10,10-Hexachloro-6,7-epoxy-1,4,4a,5,6,7,8,8a-octahydro-endo,endo-1,4,5,8-dimethanonaphthalene, Hexadrin, Mendrin

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** $C_{12}H_8Cl_6O$

3 4 **IMCO/United Nations Numerical Designation:** 6.1/1615

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid (Sometimes shipped as an emulsifiable concentrate in xylene solution)

4 2 **Color:** Colorless to tan

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Respirator for spray, fog or dust, rubber gloves and boots

5 2 **Symptoms Following Exposure:** Inhalation causes moderate irritation of nose and throat prolonged breathing may cause same toxic symptoms as for ingestion. Contact with liquid causes moderate irritation of eyes and skin. Prolonged contact with skin may cause same toxic symptoms as for ingestion. Ingestion causes frothing of the mouth, facial congestion, convulsions, violent muscular contractions, dizziness, weakness, nausea

5 3 **Treatment for Exposure:** Get medical attention after all exposures to this compound. INHALATION: remove from exposure. EYES: flush with water for at least 15 min. SKIN: wash with plenty of soap and water, but do not scrub. INGESTION: remove from the gastrointestinal tract, either by inducing vomiting (unless hydrocarbon solvents are involved and the amount of insecticide is well below the toxic amount) or by gastric lavage with saline solution. Saline cathartics may also be beneficial. Fats and oils should be avoided. Sedation with barbiturates is indicated if signs of CNS irritation are present; patient should have absolute quiet, expert nursing care, and a minimum of external stimuli to reduce danger of convulsions. Epinephrine is contraindicated in view of the danger of precipitating ventricular fibrillation. If material ingested was dissolved in a hydrocarbon solvent, observe patient for possible development of hydrocarbon pneumonitis.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.1 mg/m³

5 5 **Short-Term Inhalation Limits:** 0.5 mg/m³ for 30 min

5 6 **Toxicity by Ingestion:** Grade 4, oral LD_{50} = 3 mg/kg (rat)

5 7 **Late Toxicity:** None known

6 FIRE HAZARDS

6 1 **Flash Point:** Non flammable solid or combustible solution
>80 F O C (xylene)

6 2 **Flammable Limits in Air:**
[illegible] (xylene)

6 3 **Fire Extinguishing Agents** (Solution)
Dry chemical, foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used.**
Water may be ineffective on solution fire

6 5 **Special Hazards of Combustion Products**
Toxic hydrogen chloride and phosgene may be generated when solution burns

6 6 **Behavior in Fire.** Not pertinent

6 7 **Ignition Temperature:** Not pertinent

6 8 **Electrical Hazard.** Not pertinent

6 9 **Burning Rate** 4 mm/min (xylene)

7 CHEMICAL REACTIVITY

EPC EPICHLOROHYDRIN

Common Synonyms
1-Chloro-2,3-epoxypropane
3-Chloro-1,2-propylene oxide

Watery liquid | Colorless | Sweet garlic odor

Sinks and mixes with water
Poisonous, flammable vapor is produced

AVOID CONTACT WITH LIQUID AND VAPOR Keep people away
Wear goggles self contained breathing apparatus and rubber overclothing (including gloves)
Stop discharge if possible
Call fire department
Stay upwind and use water spray to knock down vapor
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
POISONOUS GASES ARE PRODUCED IN FIRE
Vapor may explode if ignited in an enclosed area
Wear goggles self contained breathing apparatus and rubber overclothing (including gloves)
Cool at fires from safe distance or protected location
Extinguish with water, dry chemical, alcohol foam or carbon dioxide
Cool exposed containers with water

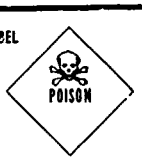
Exposure

CALL FOR MEDICAL AID

VAPOR
POISONOUS IF INHALED
Irritating to eyes
Move to fresh air
If breathing has stopped give artificial respiration
If breathing is difficult give oxygen

LIQUID
POISONOUS IF SWALLOWED
Will burn skin and eyes
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk, and have victim induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do nothing except keep patient warm

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.**
1-Chloro-2,3-epoxypropane
Chloromethyloxirane
gamma-Chloropropylene oxide
3-Chloro-1,2-propylene oxide

3.2 **Coast Guard Compatibility Classification.**
Epichlorohydrin

3.3 **Chemical Formula**
C_3H_5ClO

3.4 **IMCO/United Nations Numerical Designation:** 6.1 2023

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid

4.2 **Color.** Colorless

4.3 **Odor:** Pungent garlic sweet pungent like chloroform

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Air pack or organic canister mask protective gloves and goggles

5.2 **Symptoms Following Exposure:** Vapor is irritating to eyes nose and throat may cause headache nausea vomiting and central nervous system depression Rapidly fatal if swallowed Causes nausea vomiting and collapse Skin contact is irritating

5.3 **Treatment for Exposure:** INHALATION remove victim to fresh air keep him warm and quiet and get medical attention immediately if breathing stops start artificial respiration INGESTION induce vomiting (but only if victim is conscious and without convulsions) and call a physician promptly no specific antidote known EYES OR SKIN immediately flush with water for at least 15 min and get medical attention remove contaminated clothing and wash before reuse

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm

5.5 **Short-Term Inhalation Limits.** 10 ppm for 30 min

5.6 **Toxicity by Ingestion.** Grade 3 LD_{50} 50 to 500 mg/kg

5.7 **Late Toxicity:** Causes cancer in experimental animals

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating such that personnel will usually tolerate moderate or high vapor concentrations

5.9 **Liquid or Solid Irritant Characteristics:** Liquid severe skin irritant May cause pain and second degree burns after a few minutes contact

5.10 **Odor Threshold:** 10 ppm

6. FIRE HAZARDS

6.1 **Flash Point** 92°F O.C. 100°F C.C.

6.2 **Flammable Limits in Air:** 3% - 21.0%

6.3 **Fire Extinguishing Agents:** Alcohol foam dry chemical carbon dioxide water spray

6.4 **Fire Extinguishing Agents Not to be Used** Avoid use of dry chemical if fire occurs in container with confined vent

6.5 **Special Hazards of Combustion Products:** Toxic irritating vapors are generated when heated

6.6 **Behavior in Fire:** Containers may explode in fire because of polymerization

6.7 **Ignition Temperature:** 804°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** 2.6 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Mild reaction not likely to be hazardous

7.2 **Reactivity with Common Materials:** No reaction

3 4 **IMCO United Nations Numerical Designation** 2 0 1035

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):**
Liquid or compressed gas

4 2 **Color** Colorless

4 3 **Odor:** Weak sweetish

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Self contained breathing apparatus for high vapor concentrations

5 2 **Symptoms Following Exposure** In high vapor concentrations can act as simple asphyxiant
Liquid causes severe frostbite

5 3 **Treatment for Exposure.** Remove from exposure support respiration

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Not pertinent

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion** Not pertinent

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors are nonirritating to the eyes and throat

5 9 **Liquid or Solid Irritant Characteristics** No appreciable hazard Practically harmless to the skin because it is very volatile and evaporates quickly

5 10 **Odor Threshold:** 3000 ppm

6 FIRE HAZARDS

6 1 **Flash Point** −211°F

6 2 **Flammable Limits in Air**
2.9% 13.0%

6 3 **Fire Extinguishing Agents:**
Stop flow of gas

6 4 **Fire Extinguishing Agents Not to be Used**
Data not available

6 5 **Special Hazards of Combustion Products**
Not pertinent

6 6 **Behavior in Fire** Not pertinent

6 7 **Ignition Temperature:** 940°F

6 8 **Electrical Hazard** Class I group D

6 9 **Burning Rate:** 3.3 mm/min

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials**
No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7 5 **Polymerization** Not pertinent

7 6 **Inhibitor of Polymerization:**
Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:**
None

8 2 **Waterfowl Toxicity** None

8 3 **Biological Oxygen Demand (BOD).**
None

8 4 **Food Chain Concentration Potential**
None

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Research pure

10 2 **Storage Temperature:** −128°F

10 3 **Inert Atmosphere** No requirement

10 4 **Venting:** Safety relief

11. HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook CG 446 3)

A B C D E F G

12 HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations**
Flammable compressed gas

12 2 **NAS Hazard Rating for Bulk Water Transportation** Not listed

12 3 **NFPA Hazard Classifications** Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm** Gas

13 2 **Molecular Weight:** 30.07

13 3 **Boiling Point at 1 atm**
−127.5°F = −88.6°C = 184.6°K

13 4 **Freezing Point**
−279.9°F = −183.3°C = 89.9°K

13 5 **Critical Temperature**
90.1°F = 32.3°C = 305.5°K

13 6 **Critical Pressure:**
708.0 psia = 48.16 atm = 4.879 MN/m²

13 7 **Specific Gravity** 0.546 at −88°C (liquid)

13 8 **Liquid Surface Tension.**
16 dynes/cm = 0.016 N/m at −88°C

13 9 **Liquid-Water Interfacial Tension:**
(est.) 45 dynes/cm = 0.045 N/m at −88°C

13 10 **Vapor (Gas) Specific Gravity:** 1.1

13 11 **Ratio of Specific Heats of Vapor (Gas).**
1.191

13 12 **Latent Heat of Vaporization**
211 Btu/lb = 117 cal/g = 4.90 × 10⁵ J/kg

13 13 **Heat of Combustion:** −20,293 Btu/lb
= −11,274 cal/g = −472.02 × 10³ J/g

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution.** Not pertinent

13 16 **Heat of Polymerization** Not pertinent

NOTES

REVISED 1978

EHP ETHOXYDIHYDROPYRAN

Common Synonyms
2-Ethoxy-3,4-dihydro-2H-pyran

Liquid Colorless

Floats on water

Fire

Combustible

Exposure

Exposure data not available

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

Not Label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 2-Ethoxy-3,4-dihydro-2H-pyran

3.2 **Coast Guard Compatibility Classification.** Not applicable

3.3 **Chemical Formula:** $C_7H_{12}O_2$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid

4.2 **Color:** Colorless

4.3 **Odor** Data not available

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves

5.2 **Symptoms Following Exposure.** Contact with liquid irritates eyes. Also irritates skin on prolonged contact

5.3 **Treatment for Exposure** EYES flush with water for at least 15 min. SKIN wipe off, wash well with soap and water. INGESTION induce vomiting, get medical attention

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5.5 **Short-Term Inhalation Limits.** Not pertinent

5.6 **Toxicity by Ingestion** Data not available

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point** 98 F O C

6.2 **Flammable Limits in Air** Data not available

6.3 **Fire Extinguishing Agents.** Foam, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used** Water may be ineffective

6.5 **Special Hazards of Combustion Products.** Not pertinent

6.6 **Behavior in Fire** Not pertinent

6.7 **Ignition Temperature** Data not available

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 4.8 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7.5 **Polymerization.** Not pertinent

7.6 **Inhibitor of Polymerization** Not pertinent

NOTES

EOD — ETHOXYLATED DODECANOL

Common Synonyms
Ethoxylated dodecyl alcohol
Ethoxylated lauryl alcohol
Tergitol nonionic TMN

Oily liquid | Colorless to yellow | Pleasant odor

Mixes slowly with water. Freezing point is 61° F

Avoid contact with liquid
Stop discharge if possible
Call fire department
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with water fog, dry chemical, carbon dioxide

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin
Will burn eyes
Harmful if swallowed
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Disperse and flush

2 LABELS

No hazard label required by Code of Federal Regulations

ENP — ETHOXYLATED NONYLPHENOL

Common Synonyms	Liquid or solid	White	Mild odor
	May float or sink in water		

Avoid contact with liquid and solid. Keep people away.
Stop discharge if possible.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Extinguish with dry chemicals, foam, carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

LIQUID OR SOLID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water (two glasses at most).
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do not induce vomiting or give anything by mouth.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Disperse and flush

2 LABELS

No hazard label required by Coast Guard Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification.** Group 1 ether
3 3 **Chemical Formula:** $C_9H_{19}C_6H_4OC_2H_4O_nH$ where n = 4 – 100
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid or solid
4 2 **Color:** White
4 3 **Odor:** Mild aromatic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Gloves and safety glasses
5 2 **Symptoms Following Exposure:** Contact with eyes causes irritation. Prolonged contact with skin causes irritation.
5 3 **Treatment for Exposure:** No treatment required for inhalation or ingestion. EYES: flush with copious quantities of tap water for 15 min. and seek appropriate medical attention. SKIN: wash affected areas with soap and water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion.** Grade 2; oral LD_{50} = 1 310 mg/kg (rats)
5 7 **Late Toxicity:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 470°F O.C.

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Carbon dioxide or dry chemical for small fires; alcohol foam and water for large fires

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

1. BASF Wyandotte Corp.
Industrial Chemicals Group
Wyandotte, Mich. 48192

2. Jefferson Chemical Co.
3376 Richmond Ave.
Houston, Texas 77082

3. Union Carbide Corp.
Chemicals and Plastics Div.
270 Park Ave.
New York, N.Y. 10017

10 SHIPPING INFORMATION

10.1 **Grades of Purity:** Usually 100%

10.2 **Storage Temperature:** Ambient

10.3 **Inert Atmosphere:** No requirement

10.4 **Venting:** Open (flame arrester)

11 HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook, CG-446-3:

NPO

12. HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:** Not listed

12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

12.3 **NFPA Hazard Classifications:** Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid

13.2 **Molecular Weight:** 444

13.3 **Boiling Point at 1 atm:** Very high

13.4 **Freezing Point:** 59°F = 15°C = 288°K

13.5 **Critical Temperature:** Not pertinent

13.6 **Critical Pressure:** Not pertinent

13.7 **Specific Gravity:** 0.9053 at 20°C (liquid)

13.8 **Liquid Surface Tension:** Not pertinent

13.9 **Liquid-Water Interfacial Tension:** Not pertinent

13.10 **Vapor (Gas) Specific Gravity:** Not pertinent

13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent

13.12 **Latent Heat of Vaporization:** Not pertinent

13.13 **Heat of Combustion:** (est.) = -11,000 Btu/lb = -6,200 cal/g = -260 X 10³ J/kg

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** (est.) = 9 Btu/lb = -5 cal/g = -0.2 X 10³ J/kg

13.16 **Heat of Polymerization:** Not pertinent

Continued on page 4

3. CHEMICAL DESIGNATIONS (Cont'd)

3.4 **IMCO United Nations Numerical Designation:** Not listed

ETD	ETHOXYLATED TRIDECANOL

Common Synonyms			
Ethoxylated tridecyl alcohol Tergitol nonionic 3A-6	Liquid	Colorless to yellow	Pleasant odor

Avoid contact with liquid
[illegible]

Fire	Combustible Extinguish with [illegible] carbon dioxide
Exposure	CALL FOR MEDICAL AID LIQUID Irritating to skin Will burn eyes Harmful if swallowed [illegible] SWALLOWED - [illegible] DO NOT induce vomiting
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes [illegible]

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-4

Dispense and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Ethoxylated tridecyl alcohol
Polyoxyethylene tridecyl ether
Tergitol 3-A-6 Nonionic

3.2 **Coast Guard Compatibility Classification:** Alcohol

3.3 **Chemical Formula:**
$C_{13}H_{27}O(CH_2CH_2O)_6CH_2CH_2OH$
(n = 6 (average))

3.4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild pleasant

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Plastic gloves, goggles

5.2 **Symptoms Following Exposure:** Liquid causes eye injury and defats the skin, causing irritation

5.3 **Treatment for Exposure:** In case of contact with eyes, immediately flush with plenty of water for at least 15 min. get medical attention

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent

5.5 **Short-Term Inhalation Limits:** Not pertinent

5.6 **Toxicity by Ingestion:** Grade 2 LD50 (Rat) [illegible] g/kg or ml/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** None

5.9 **Liquid or Solid Irritant Characteristics:** Liquid causes eye injury. Contact with skin may cause irritation

5.10 **Odor Threshold:** Not pertinent

6. FIRE HAZARDS

6.1 **Flash Point:** [illegible] C.C.

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Carbon dioxide or dry chemical for small fires, alcohol foam and water for large fires

6.4 **Fire Extinguishing Agents Not to be Used:** Data not available

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

13.13 **Heat of Combustion:** (est.) = -[illegible] Btu/lb
= -6,200 cal/g = -260 kJ/g

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** (est.) = 50
= 50 cal/g = 210 kJ/g

13.16 **Heat of Polymerization:** Not pertinent

Continued on page 7 and 8

NOTES

ETG — ETHOXY TRIGLYCOL

Common Synonyms			
Ethoxytriethylene glycol Triethylene glycol monoethyl ether	Liquid	Colorless	Odorless
	Sinks and mixes with water		

Stop discharge if possible
Call fire department
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with dry chemical, alcohol foam, carbon dioxide
Water and foam may be ineffective on fire
Cool exposed containers with water

Exposure

Not harmful

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearest water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-2

Dissolve and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Diethylene glycol monoethyl ether
Triethylene glycol monoethyl ether
Triethylene monoethyl ether

3.2 **Coast Guard Compatibility Classification.** Group C

3.3 **Chemical Formula:** $C_2H_5OC_2H_4OC_2H_4OC_2H_4OH$

3.4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Practically odorless characteristic

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical safety goggles and rubber gloves should be worn

5.2 **Symptoms Following Exposure:** No appreciable hazard in ordinary handling of this material

5.3 **Treatment for Exposure:** Wash affected parts with water

5.4 **Toxicity by Inhalation (Threshold Limit Value).** Not pertinent

5.5 **Short-Term Inhalation Limits:** Not pertinent

5.6 **Toxicity by Ingestion:** Grade I [illegible] rating

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are not irritating to the eyes and throat

5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin

5.10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6.1 **Flash Point:** 275°F OC

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents.** Dry chemical, carbon dioxide, or alcohol foam

6.4 **Fire Extinguishing Agents Not to be Used:** Water or foam may cause frothing

NOTES

ETA — ETHYL ACETATE

Common Synonyms
Acetic acid ethyl ester
Acetic ester
Vinegar naphtha

Water: liquid Colorless Pleasant fruity odor

Floats on water. Flammable. Irritating vapor is produced.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause headache, dizziness, nausea or loss of consciousness.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Acetic acid ethyl ester; Acetic ester; Acetic ether; Ethyl acetate
3.2 **Coast Guard Compatibility Classification:** Ester
3.3 **Chemical Formula:** $CH_3COOC_2H_5$
3.4 **IMCO United Nations Numerical Designation:** 1173

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Pleasant fruity

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic vapor canister mask; goggles or face shield
5.2 **Symptoms Following Exposure:** Headache, irritation of eyes, nausea, dizziness, and coma; respiratory failure
5.3 **Treatment for Exposure:** INHALATION: Give oxygen; resuscitate if breathing has stopped; call physician. SKIN: Wash with soap and water. EYES: Flush with water; call physician.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 400 ppm
5.5 **Short-Term Inhalation Limits:** 1000 ppm
5.6 **Toxicity by Ingestion:** Grade 1: LD50 = 4.1 g/kg
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes eye irritation and lacrimation at concentrations above 400 ppm; severe irritation at 1000 ppm.
5.9 **Liquid or Solid Irritant Characteristics:** Moderate irritation of eyes and skin. May cause burning sensation and reddening of skin.
5.10 **Odor Threshold:** 5 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 24°F C.C. (-4°C)
6.2 **Flammable Limits in Air:** 2.2% - 11.5%
6.3 **Fire Extinguishing Agents:** Alcohol foam, carbon dioxide, dry chemical
6.4 **Fire Extinguishing Agents Not to be Used:** Water
6.5 **Special Hazards of Combustion Products:** None
6.6 **Behavior in Fire:** Vapor may explode
6.7 **Ignition Temperature:** 800°F
6.8 **Electrical Hazard:** Class I, Group D
6.9 **Burning Rate:** 3.5 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** No recommendation
7.5 **Polymerization:** Will not occur
7.6 **Inhibitor of Polymerization:** None necessary

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** 1.60 lbs/lb over 5 days
8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

EAA — ETHYL ACETOACETATE

Common Synonyms

Acetoacetic acid ethyl ester
Acetoacetic ester
Diacetic ether
Ethyl beta-ketobutyrate
EAA

Liquid — Colorless — Pleasant fruity odor

Mixes with water

Stop discharge if possible. Keep people away.
Call fire department.
Isolate and remove contained material.
Notify local health and pollution control agencies.

Fire

Combustible

Extinguish with foam, carbon dioxide, dry chemical or water spray.

Exposure

Call physician.

LIQUID

Irritating to eyes.
Harmful if swallowed.

Remove contaminated clothing.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids apart and flush eyes with water.
IF SWALLOWED, induce vomiting. DO NOT induce vomiting unless directed to do so by physician.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Immediately notify cognizant authorities.
Dike area and dam.

2. LABELS

No requirements listed in Federal Regulations.

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Acetoacetic acid ethyl ester; Acetoacetic ester; Diacetic ether; Ethyl beta-ketobutyrate; EAA

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $CH_3COCH_2COOC_2H_5$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Aromatic fruity

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles; face shield; rubber gloves

5.2 **Symptoms Following Exposure:** Liquid may cause mild irritation of eyes

5.3 **Treatment for Exposure:** EYES: flush with water for 15 min.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Rabbit 2 gm/kg LD_{50} [unreported]

(Continued on page 7 and 8)

NOTES

EAC ETHYL ACRYLATE

Common Synonyms
Acrylic acid, ethyl ester
Ethyl 2-propenoate

Liquid | Colorless | Fruity odor

Floats on water. Flammable, irritating vapor is produced.

Fire

FLAMMABLE.
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache or nausea

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
Floating to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

Isolate spill. Keep flammables (-) away.
Restrict access.
Evacuate area.
Dispose of properly.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Acrylic acid, ethyl ester; Ethyl 2-propenoate
3.2 **Coast Guard Compatibility Classification:** Acrylate
3.3 **Chemical Formula:** $CH_2CHCOOC_2H_5$
3.4 **IMCO United Nations Numerical Designation:** 1917

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Characteristic acrylic (or sharp fragrant) and slightly nauseating sharp ester type

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic vapor canister, supplied mask and escape respirator; gloves
5.2 **Symptoms Following Exposure:** May cause irritation and burning to eyes and skin. Exposure to vapor at concentrations greater than 25 ppm may be accompanied by nausea, headache, and irritation of eyes, nose, and throat.
5.3 **Treatment for Exposure:** INHALATION: Remove victim to fresh air and administer artificial respiration if necessary. SKIN AND EYES: Wash with copious quantities of water. Get medical attention.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm
5.5 **Short-Term Inhalation Limits:** Not available
5.6 **Toxicity by Ingestion:** Grade 2. LD_{50} (rat): 1.02 g/kg
5.7 **Late Toxicity:** Repeated exposure may develop sensitivity
5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating to eyes, with lacrimation at 100 ppm; severe irritation at 1000 ppm. Irritation to nose and throat at moderate or high vapor concentrations.
5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the eyes and skin to a degree depending on duration of contact. Prolonged or repeated skin contact may cause dermatitis.
5.10 **Odor Threshold:** 0.00124 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 55°F (O.C.)
6.2 **Flammable Limits in Air:** 1.4% - 14.0% by volume
6.3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Toxic and irritating vapors generated when heated
6.6 **Behavior in Fire:** Vapor travels along surface and is readily ignited. Material will polymerize and generate heat when exposed to fire.
6.7 **Ignition Temperature:** 721°F
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** 4.5 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** May occur; exclude moisture; vent; avoid exposure to high temperatures; oxygen promotes polymerization
7.6 **Inhibitor of Polymerization:** 10-25 ppm monomethyl ether of hydroquinone

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 12 ppm/24 hrs/brine shrimp/TL_m
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** 66% of theoretical in 5 days, freshwater, acclimated seed
8.4 **Food Chain Concentration Potential:** None

(continued on next page)

NOTES

REVISED 1978

EAL — ETHYL ALCOHOL

Common Synonyms
Ethanol
Alcohol
Grain alcohol
Denatured alcohol

Watery liquid | Colorless | Alcohol odor

Floats and mixes with water. Flammable. Irritating vapor is produced.

Stop discharge if possible. Keep people away.
Shut off ignition sources and call fire department.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemical, alcohol foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
Move to fresh air.

LIQUID
Not harmful.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**

Alcohol	Fermentation alcohol
Cologne spirit	Grain alcohol
Denatured alcohol	Spirit
Ethanol	Spirits of wine

3.2 **Coast Guard Compatibility Classification.** Alcohol

3.3 **Chemical Formula:** C_2H_5OH

3.4 **IMCO/United Nations Numerical Designation** 3.2/1170

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild, rather pleasant, like wine or whiskey. (Denatured alcohol may be unpleasant.)

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** All purpose canister, safety goggles. Avoid contact with liquid and inhalation of vapors.

5.2 **Symptoms Following Exposure:** Irritation of eyes, nose and throat. Headache and drowsiness may occur. Liquid causes intoxication.

5.3 **Treatment for Exposure:** INHALATION: if breathing is affected, remove victim to fresh air, call physician, administer oxygen. Speed is of primary importance. EYES OR SKIN: flush with water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 1000 ppm

5.5 **Short-Term Inhalation Limits:** 5000 ppm for 15 min

5.6 **Toxicity by Ingestion:** Grade I. LD_{50} 5 to 15 g/kg

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin.

5.10 **Odor Threshold:** 10 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 55°F C.C., 64°F O.C.

6.2 **Flammable Limits in Air:** 3.3% - 19%

6.3 **Fire Extinguishing Agents:** Carbon dioxide, dry chemical, water spray, alcohol foam.

6.4 **Fire Extinguishing Agents Not to be Used.** None.

6.5 **Special Hazards of Combustion Products:** None.

6.6 **Behavior in Fire.** Not pertinent.

6.7 **Ignition Temperature** 689°F

6.8 **Electrical Hazard:** Class I, Group D

6.9 **Burning Rate:** 3.9 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity**
250 ppm/6 hr goldfish lethal, fresh water

8.2 **Waterfowl Toxicity** Data not available

8.3 **Biological Oxygen Demand (BOD):**
12% 5 days, 44.2% (theor.) 5 days
71.2% (theor.) 20 days

8.4 **Food Chain Concentration Potential:**
None

NOTES

REVISED 1978

EAD ETHYLALUMINUM DICHLORIDE

Common Synonyms

EADC
Aluminum ethyl dichloride

Liquid heated Colorless to light yellow

IGNITES WHEN EXPOSED TO AIR Reacts violently with water Poisonous gas is produced on contact with water Freezing point is 90° F

Call fire department
Wear goggles and self contained breathing apparatus
Stop discharge if possible Keep people away
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

IGNITES WHEN EXPOSED TO AIR
Irritating gases are produced when heated
Extinguish with dry graphite, soda ash, lime or other inert powder
DO NOT USE WATER, FOAM, CARBON DIOXIDE, DRY CHEMICAL OR VAPORIZING LIQUID ON FIRE
DO NOT USE WATER ON ADJACENT FIRES

Exposure

CALL FOR MEDICAL AID

GAS PRODUCED IN REACTION WITH WATER
POISONOUS IF INHALED
Irritating to eyes, nose and throat
Move to fresh air
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

LIQUID (HEATED)
Will burn skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk
DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability, corrosive
Restrict access
Evacuate area

2. LABELS

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Aluminum ethyl dichloride
EADC

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula.** $C_2H_5AlCl_2$

3.4 **IMCO/United Nations Numerical Designation:** 4.2/1924

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid

4.2 **Color:** Colorless to light amber, yellow

4.3 **Odor:** Not pertinent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Full protective clothing, preferably of aluminized glass cloth, goggles, face shield, gloves; in case of fire, all purpose canister or self contained breathing apparatus

5.2 **Symptoms Following Exposure:** Inhalation of smoke from fire causes metal fume fever (flu like symptoms); acid fumes irritate nose and throat. Contact with liquid (which is spontaneously flammable) causes severe burns of eyes and skin

5.3 **Treatment for Exposure:** INHALATION: only fumes from fire need be considered; metal fume fever is not critical and lasts less than 36 hrs; irritation of nose and throat by acid vapors may require treatment by a physician. EYES: flush gently with water for 15 min.; treat burns if fire occurred; get medical attention. SKIN: wash with water; treat burns caused by fire; get medical attention

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5.5 **Short-Term Inhalation Limits:** Not pertinent

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** Metal fume fever can develop after breathing smoke from fire

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics.** Severe skin irritant. Causes second and third degree burns on short contact and is very injurious to the eyes

5.10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6.1 **Flash Point.** Not pertinent (ignites spontaneously)

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents.** Dry chemical, inert dry powders such as sand, limestone

6.4 **Fire Extinguishing Agents Not to be Used** Water, foam, halogenated agents, or carbon dioxide

6.5 **Special Hazards of Combustion Products** Intense smoke may cause metal fume fever. Irritating hydrogen chloride also formed

6.6 **Behavior in Fire:** Contact with water applied to adjacent fires will cause formation of irritating smoke containing aluminum oxide and hydrogen chloride

5.7 **Ignition Temperature:** Ignites spontaneously in air at ambient temperature

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts violently to form hydrogen chloride fumes and flammable ethane gas

7.2 **Reactivity with Common Materials** Reacts with surface moisture to generate hydrogen chloride which is corrosive to common metals

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Rinse with sodium bicarbonate or lime solution

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD).** None

8.4 **Food Chain Concentration Potential** None

NOTES

EAM

ETHYLAMINE

Common Synonyms

Aminoethane
Monoethylamine

Liquid Colorless Strong ammonia like odor

Mixes with water. Boiling point is 62°F. Flammable, irritating vapor is produced

Shut off ignition sources. Call fire department.
Stop discharge if possible.
Evacuate area in case of large discharge.
Stay upwind. Use water spray to knock down vapor.
Dike and recover discharged material.
Notify local health and water pollution control agencies.

Fire

FLAMMABLE
Irritating gases are produced when heated.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemicals, alcohol foam, carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

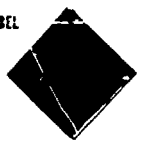
Exposure

Call for medical aid.

VAPOR
Irritating to eyes, nose and throat.
Harmful if inhaled.
Move victim to fresh air.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability and contaminant, water contaminant.
Restrict access.
Evacuate area.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Aminoethane; Monoethylamine
3 2 **Coast Guard Compatibility Classification.** Amines (4)
3 3 **Chemical Formula:** $C_2H_5NH_2$
3 4 **IMCO/United Nations Numerical Designation:** 2 1036

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Pungent, strong ammoniacal

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Amine type or ammonia type mask, plastic gloves, face shield and goggles.
5 2 **Symptoms Following Exposure:** Inhalation causes irritation of respiratory tract and lungs, pulmonary edema may result. Liquid causes severe irritation and burns of eyes and skin, and can permanently injure eyes after 4 seconds contact. Ingestion causes severe burns of mouth and stomach, can be fatal.
5 3 **Treatment for Exposure.** Get prompt medical attention for anyone overcome or injured by exposure to this compound. INHALATION: remove victim to fresh air, keep him warm and administer oxygen until medical help arrives. EYES: wash for 15 min with water, avoid pressure on eyelids. SKIN: wash with soap and water, dry, use ointments for at least 24 hrs, do not cover burned area with dry clothing, keep moist with physiological saline solution. INGESTION: if victim is conscious, give large amount of water, then induce vomiting.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 10 ppm
5 5 **Short-Term Inhalation Limits:** 2 ppm for 30 min
5 6 **Toxicity by Ingestion:** Grade 3, oral LD_{50} = 400 mg/kg (rat)
5 7 **Late Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics.** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high concentrations.
5 9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure and may cause second degree burns on long exposure.
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point.** 0°F, O C
6 2 **Flammable Limits in Air:** 3.5%–14%
6 3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective
6 5 **Special Hazards of Combustion Products.** Irritating and toxic oxides of nitrogen may be formed
6 6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back. Containers may explode when heated.
6 7 **Ignition Temperature:** 724°F
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate:** 3.0 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** Will strip and dissolve paint, dissolves most plastic materials, can cause swelling of rubber by absorption. The reactions are not hazardous.
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics.** Flush with water
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity.** 40 ppm, 24 hr, shub, 11 mi, fresh water

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm.** Liquid
13 2 **Molecular Weight:** 45.1
13 3 **Boiling Point at 1 atm:** 61.7°F = 16.5°C = 289.7°K
13 4 **Freezing Point:** −114°F = −81°C = 192°K
13 5 **Critical Temperature.** 361°F = 183°C = 456°K
13 6 **Critical Pressure:** 827 psia = 56.2 atm = 5.70 MN/m²
13 7 **Specific Gravity:** 0.687 at 15°C (liquid)
13 8 **Liquid Surface Tension** 20.5 dynes/cm = 0.0205 N/m at 15°C
13 9 **Liquid-Water Interfacial Tension:** Not pertinent
13 10 **Vapor (Gas) Specific Gravity:** 1.5
13 11 **Ratio of Specific Heats of Vapor (Gas).** 1.1181
13 12 **Latent Heat of Vaporization** 253 Btu/lb = 146 cal/g = 6.11 × 10⁵ J/kg
13 13 **Heat of Combustion:** −16,180 Btu/lb = −9,990 cal/g = −376 × 10⁵ J/kg
13 14 **Heat of Decomposition** Not pertinent
13 15 **Heat of Solution** Data not available
13 16 **Heat of Polymerization:** Not pertinent

(Continued on pages 5 and 6)

NOTES

ETB — ETHYLBENZENE

Common Synonyms
Phenylethane
EB

Liquid | Colorless | Sweet, gasoline-like odor

Floats on water. Flammable, irritating vapor is produced.

Avoid contact with liquid and vapor. Keep people away.
Wear goggles, self-contained breathing apparatus and rubber protective clothing (including gloves).
Shut off ignition sources and all fire department.
Stop discharge if possible.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Wear goggles, self-contained breathing apparatus and rubber protective clothing (including gloves).
Extinguish with dry chemical, foam or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

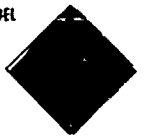
Exposure

CALL FOR MEDICAL AID.

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness or difficult breathing.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Mechanical containment.
Should be removed.
Chemical and physical treatment.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** EB
Phenylethane

3.2 **Coast Guard Compatibility Classification:**
Aromatic hydrocarbon

3.3 **Chemical Formula:** $C_6H_5C_2H_5$

3.4 **IMCO, United Nations Numerical Designation** 3.1, 1175

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Aromatic

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus, safety goggles.

5.2 **Symptoms Following Exposure:** Inhalation may cause irritation of nose, dizziness, depression. Moderate irritation of eye with corneal injury possible. Irritates skin and may cause blisters.

5.3 **Treatment for Exposure:** INHALATION: if ill effects occur, remove victim to fresh air, keep him warm and quiet, and get medical help promptly; if breathing stops, give artificial respiration. INGESTION: induce vomiting only upon physician's approval; material in lung may cause chemical pneumonitis. SKIN AND EYES: promptly flush with plenty of water (15 min. for eyes) and get medical attention; remove and wash contaminated clothing before reuse.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** 100 ppm

5.5 **Short-Term Inhalation Limits:** 200 ppm for 30 min

5.6 **Toxicity by Ingestion:** Grade 2; LD_{50} 0.5 to 5 g/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure; may cause secondary burns on long exposure.

5.10 **Odor Threshold:** 140 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 80°F (O.C.), 59°F (C.C.)

6.2 **Flammable Limits in Air:**
1.0% - 6.7%

6.3 **Fire Extinguishing Agents:** Foam (most effective), water for carbon dioxide or dry chemical.

6.4 **Fire Extinguishing Agents Not to be Used:**
Not pertinent.

6.5 **Special Hazards of Combustion Products:**
Irritating vapors are generated when heated.

6.6 **Behavior in Fire:** Vapor is heavier than air and may travel considerable distance to the source of ignition and flash back.

6.7 **Ignition Temperature:** 810°F

6.8 **Electrical Hazard:** Not pertinent.

6.9 **Burning Rate:** 5.8 mm/min.

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials.**
No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent.

7.5 **Polymerization:** Not pertinent.

7.6 **Inhibitor of Polymerization:**
Not pertinent.

8. WATER POLLUTION

8.1 **Aquatic Toxicity:**
29 ppm/96 hr/bluegill/11 m/fresh water

8.2 **Waterfowl Toxicity:** Data not available.

8.3 **Biological Oxygen Demand (BOD)**
2.8% (theor.), 5 days

8.4 **Food Chain Concentration Potential:**
None

NOTES

EBR

ETHYL BUTYRATE

Common Synonyms
Ethyl butanoate
Butyric acid ethyl ester
Butyric ether

Liquid | Colorless | Fruity odor

Floats on water

Shut off ignition sources. Call fire department.
Avoid contact with liquid and vapor. Keep people away.
Stop discharge if possible.
Stay upwind. Use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemicals, alcohol foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause headache or dizziness.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
If swallowed will cause nausea, vomiting, dizziness or headache.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

NOTES

ECL — ETHYL CHLORIDE

Common Synonyms
Chloroethane
Ether hydrochloric

Liquid | Colorless | Pleasant odor

Floats and may boil on water. Flammable. Irritating vapor is produced. Boiling point is 54° F.

Stop discharge if possible. Keep people away.
Shut off ignition sources and call fire department.
Avoid contact with liquid.
Stay up wind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Wear goggles and self-contained breathing apparatus.
Stop flow of gas or liquid if possible.
Cool exposed containers and men effecting shutoff with water.
Let fire burn.

Exposure

CALL FOR MEDICAL AID.

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness or loss of consciousness.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Will cause frostbite.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
DO NOT RUB AFFECTED AREAS.

Water Pollution

Not harmful to aquatic life.
May be dangerous if it enters water intakes.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability.
Restrict access.
Evacuate area.

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Chloroethane; Monochloroethane
3.2 **Coast Guard Compatibility Classification:** Halogenated hydrocarbon
3.3 **Chemical Formula:** C_2H_5Cl
3.4 **IMCO/United Nations Numerical Designation:** 2.0 1037

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Ethereal, pungent, ethereal ether like

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Neoprene rubber clothing where liquid contact is likely; chemical worker's goggles; RESPIRATORY PROTECTION for 1000 ppm to 2% (or 1/2 hr or less): full face mask and organic vapor canister; for greater levels: self-contained breathing apparatus or equivalent.
5.2 **Symptoms Following Exposure:** Vapor causes drunkenness, anesthesia, possible lung injury. Liquid may cause frostbite on eyes and skin.
5.3 **Treatment for Exposure:** INHALATION: get person to fresh air, keep warm and quiet. Get medical attention. SKIN: treat frostbite.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 1000 ppm
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Not pertinent.
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.
5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.
5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** −58°F C.C.
45°F O.C.
6.2 **Flammable Limits in Air:** 3.6% - 12%
6.3 **Fire Extinguishing Agents:** Water fog, carbon dioxide, dry chemical. For large fires it is best to allow material to burn while cooling surrounding equipment. Stop flow of ethyl chloride.
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Toxic and irritating gases are generated in fires.
6.6 **Behavior in Fire:** Containers may explode.
6.7 **Ignition Temperature:** 966°F
6.8 **Electrical Hazard:** Not pertinent

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Gas
13.2 **Molecular Weight:** 64.52
13.3 **Boiling Point at 1 atm:**
54.0°F = 12.2°C = 285.4°K
13.4 **Freezing Point:**
−217°F = −136°C = 137°K
13.5 **Critical Temperature:**
369°F = 187.2°C = 460.4°K
13.6 **Critical Pressure:**
798 psia = 51.6 atm = 5.23 MN/m²
13.7 **Specific Gravity:** 0.908 at 12.2°C (liquid)
13.8 **Liquid Surface Tension:**
19.5 dynes/cm = 0.0195 N/m at 20°C
13.9 **Liquid-Water Interfacial Tension:**
test 140 dynes/cm = 0.04 N/m at 0°C
13.10 **Vapor (Gas) Specific Gravity:** 2.2
13.11 **Ratio of Specific Heats of Vapor (Gas):**
1.15
13.12 **Latent Heat of Vaporization:**
163 Btu/lb = 90.6 cal/g = 3.79 × 10⁵ J/kg
13.13 **Heat of Combustion:** −5100 Btu/lb
= −5900 cal/g = −494.4 × 10³ J/kg
13.14 **Heat of Decomposition:** Not pertinent
13.15 **Heat of Solution:** Not pertinent
13.16 **Heat of Polymerization:** Not pertinent

NOTES

REVISED 1978

ECA

ETHYL CHLOROACETATE

Common Synonyms
Chloroacetic acid ethyl ester
Ethyl chloracetate
Ethyl chloroethanoate
Monochloroacetic acid ethyl ester
Monochloroethanoic acid ethyl ester

Liquid | Colorless to light brown | Irritating or fruity odor

Sinks in water. Irritating vapor is produced.

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

CALL FOR MEDICAL AID
VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache, or nausea
Move victim to fresh air
Treat symptomatically
LIQUID
POISONOUS IF SWALLOWED
Irritating to skin and eyes.
Remove contaminated clothing
Flush affected areas with plenty of water
IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED induce VOMITING as directed by medical personnel
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do not induce vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Should be removed
Chemical and physical treatment

2. LABELS

No label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Chloroacetic acid, ethyl ester, Ethyl chloracetate, Ethyl chloroethanoate, Monochloroacetic acid ethyl ester, Monochloroethanoic acid ethyl ester
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** $CH_2ClCOOC_2H_5$
3 4 **IMCO/United Nations Numerical Designation:** 3 1181

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless, light straw to tan
4 3 **Odor:** Extremely irritating, fruity, pungent

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Organic canister mask, rubber gloves, chemical goggles
5 2 **Symptoms Following Exposure:** Inhalation causes irritation of mucous membrane, headache and nausea. Contact with liquid causes extreme eye irritation and conjunctivitis, irritates skin if not removed at once. Ingestion causes irritation of mouth and stomach.
5 3 **Treatment for Exposure:** INHALATION remove patient to fresh air, get medical attention. EYES flush with copious quantities of water for at least 15 min, get medical attention if irritation persists. SKIN wash with soap and water. INGESTION give large amounts of water and induce vomiting, get medical attention.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 4 LD_{50} <50 mg/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 129 F (OC) 100 F (CC)
6 2 **Flammable Limits in Air:** Data not available
6 3 **Fire Extinguishing Agents:** Water fog, foam, dry chemical, carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Irritating toxic hydrogen chloride and phosgene may be generated in fires
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature:** Data not available
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate:** 2 mm/min

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Very slow, not hazardous
7 2 **Reactivity with Common Materials:** Slow hydrolysis to acidic products will cause slow corrosion of common metals. No hazard involved
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** Data not available
8 4 **Food Chain Concentration Potential:** None

Continued on pages 3 and 4

NOTES

ECF

ETHYL CHLOROFORMATE

Common Synonyms

Chloroformic acid ethyl ester
Ethyl chlorocarbonate

Liquid | Colorless to light yellow | Irritating odor

Reacts slowly with water. Irritating vapor is produced.

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.
Wear goggles, self-contained breathing apparatus and rubber [illegible]
Shut off ignition sources. Call fire department.
Stop discharge if possible.
Flush water area to reduce fire hazard.
Stay upwind. Use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Wear goggles, self-contained breathing apparatus and rubber overclothing (under Fire Gear).
Extinguish with dry chemical, CO2, or carbon dioxide.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID.

VAPOR
POISONOUS IF INHALED OR IF SKIN IS EXPOSED.
Irritating to eyes, nose and throat.
Move victim to fresh air.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: corrosive, high flammability, poison.
Restrict access.
Disperse and flush.

2. LABELS

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Chloroformic acid ethyl ester, Ethyl chlorocarbonate
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** $C_3H_5ClO_2$
3 4 **IMCO/United Nations Numerical Designation.** 3 2 1182

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless to pale yellow
4 3 **Odor:** Irritating, sharp, like hydrochloric acid

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Air line mask, self-contained breathing apparatus or organic and acid canister mask, full protective clothing
5 2 **Symptoms Following Exposure:** Inhalation causes mucous membrane irritation, coughing and sneezing. Vapor causes severe lachrymation, liquid causes acid type burns of eyes and skin like those of hydrochloric acid. Ingestion causes severe burns of mouth and stomach.
5 3 **Treatment for Exposure:** INHALATION: remove to fresh air, use artificial respiration if breathing has stopped, call a doctor. Keep victim quiet and administer oxygen if needed. EYES: flush with water for at least 15 min., see a doctor. SKIN: wash liberally with water for at least 15 min., then apply dilute solution of sodium bicarbonate or commercially prepared neutralizer. INGESTION: do NOT induce vomiting, give large amount of water, get medical attention.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits.** Data not available
5 6 **Toxicity by Ingestion:** Grade 4, oral LD_{50}: 50 mg/kg (rats)
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately [illegible] such that personnel will not usually tolerate moderate or high concentrations.
5 9 **Liquid or Solid Irritant Characteristics.** Causes smarting of the skin and first degree burns on short exposure and may cause second degree burns on long exposure.
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 82 F (O.C.), 61 F (C.C.)
6 2 **Flammable Limits in Air:** Data not available
6 3 **Fire Extinguishing Agents.** Water, dry chemical, carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used.** Not pertinent
6 5 **Special Hazards of Combustion Products.** Toxic chlorine and phosgene gases may be formed in fires.
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature:** 932 F
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate:** 2.6 mm/min.

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Slow reaction with water evolving hydrogen chloride (hydrochloric acid)
7 2 **Reactivity with Common Materials.** Slow evolution of hydrogen chloride from surface moisture reaction can cause some corrosion
7 3 **Stability During Transport.** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Flush with water, rinse with sodium bicarbonate or lime solution
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD).** Data not available
8 4 **Food Chain Concentration Potential.** None

3 16 **Heat of Polymerization:** Not pertinent

(Continued on page Card)

NOTES

ECS — ETHYLDICHLOROSILANE

Common Synonyms

Liquid | Colorless | Sharp, irritating odor

Reacts violently with water. Irritating gas is produced on contact with water.

Shut off reaction sources. Call fire department.
Avoid contact with liquid. Keep people away.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Water spray may be ineffective. Will react violently with water.
DO NOT USE WATER OR FOAM ON FIRE.

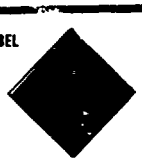
Exposure

Call for medical aid.

VAPOR
Irritating to eyes, nose and throat.
Move victim from area.
Breathing difficult: Give oxygen.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim rinse mouth with water or milk.
DO NOT INDUCE VOMITING.

Water Pollution



Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4)

Issue warning: high flammability and toxicity
Restrict access.
Evacuate area.
Disperse and flush with water.

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** $C_2H_6Cl_2Si$
3 4 **IMCO/United Nations Numerical Designation:** 3 2 1183

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Sharp, hydrochloric acid-like

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Acid vapor type respirator. Protective rubber gloves, chemical worker's goggles, other equipment as necessary to protect skin and eyes.
5 2 **Symptoms Following Exposure:** Inhalation irritates mucous membranes. Contact with liquid causes severe burns of eyes and skin. Ingestion causes severe burns of mouth and stomach.
5 3 **Treatment for Exposure:** Get medical attention following all exposures to this compound. INHALATION: remove to fresh air, give artificial respiration if required. EYES: flush with water at least 15 min. SKIN: flush with water. INGESTION: do NOT induce vomiting; give large amounts of water, followed by milk or milk of magnesia.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 3. LD$_{50}$: 50-500 mg/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.
5 9 **Liquid or Solid Irritant Characteristics.** Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes.
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 5°F OC
6 2 **Flammable Limits in Air:** 2% (LEL)
6 3 **Fire Extinguishing Agents:** Dry chemical
6 4 **Fire Extinguishing Agents Not to be Used:** Water, foam
6 5 **Special Hazards of Combustion Products:** Toxic hydrogen chloride and phosgene gases may be formed.
6 6 **Behavior in Fire:** Difficult to extinguish; re-ignition may occur. Contact with water applied to adjacent fires produces irritating hydrogen chloride fumes and flammable hydrogen gas.
6 7 **Ignition Temperature:** Data not available
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate:** 2 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts vigorously evolving hydrogen chloride (hydrochloric acid)
7 2 **Reactivity with Common Materials.** Reaction with surface moisture will generate hydrogen chloride which corrodes common metals.
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Flood with water; rinse with sodium bicarbonate or lime solution.
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

NOTES

ETL — ETHYLENE

Common Synonyms
Ethene
Olefiant gas

Liquefied compressed gas Colorless Sweet odor

Floats and boils on water. Flammable vapor cloud is produced.

What to Do in Case of Accident or Spill
Notify local health and pollution control agencies.
Keep unnecessary people away; isolate hazard area and deny entry.
Stay upwind; keep out of low areas.
Ventilate closed spaces before entering.
Keep combustibles away; no flares, smoking or flames in hazard area.
Stop leak if you can do it without risk.
Water spray may be useful in controlling vapors.
Use water spray to protect personnel and to flush leaks to safe areas.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
May explode if ignited in an enclosed area.
[illegible]

Exposure

CALL FOR MEDICAL AID

VAPOR
Not irritating to eyes, nose or throat.
If inhaled, will cause headache, dizziness or loss of consciousness.
[illegible]

LIQUID
Will cause frostbite.
[illegible]
DO NOT RUB AFFECTED AREAS.

Water Pollution

Not harmful to aquatic life.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Initial Isolation: Spill/Flammability
Restriction: [illegible]
Evacuation: [illegible]

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Ethene; Olefiant gas
3.2 **Coast Guard Compatibility Classification:** Group 1
3.3 **Chemical Formula:** C_2H_4
3.4 **IMCO United Nations Numerical Designation:** 20 (compressed); 29 (liquefied)

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Colorless gas; liquefied gas
4.2 **Color:** Colorless
4.3 **Odor:** Slightly sweet odor; odor threshold

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Breathing apparatus; protective clothing
5.2 **Symptoms Following Exposure:** Moderate concentrations cause drowsiness, dizziness, and unconsciousness. Other symptoms: headache, nausea, vomiting, weakness
5.3 **Treatment for Exposure:** Remove victim to fresh air; if not breathing, give artificial respiration; keep warm and quiet; get medical attention
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent
5.5 **Short-Term Inhalation Limits:** Not pertinent
5.6 **Toxicity by Ingestion:** Not pertinent
5.7 **Late Toxicity:** None
5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is not irritating to eyes, nose or throat
5.9 **Liquid or Solid Irritant Characteristics:** Liquid may cause frostbite. Not irritating to skin

NOTES

REVISED 1978

ECH — ETHYLENE CHLOROHYDRIN

Common Synonyms

2-Chloroethanol
2-Chloroethanol
2-Chloroethyl alcohol
Ethylene chlorohydrin
Glycol chlorohydrin

Liquid Colorless Faint sweet pleasant odor

Reacts with water (irritating vapor is produced)

Non-flammable liquid when not exposed to heat or flame
Use water spray, fog, or foam
Move container from fire area if this can be done without risk
Keep run-off water out of sewers and water sources
Dike for later disposal

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Fire-exposed containers should be cooled with water from unprotected locations

Exposure

Call a physician
VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
Move victim to fresh air
Call a physician immediately
Administer artificial respiration if victim is not breathing
LIQUID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing
Wash affected areas with plenty of water
IF IN EYES hold eyelids apart and flush with plenty of water for at least 15 minutes
IF SWALLOWED give plenty of water or MILK. Induce vomiting
Call a physician immediately
DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-6)

Isolate and restrict water contamination
Restrict access
Dispose and flush

2. LABEL

POISON

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 2-Chloroethanol
1-Chloro-2-hydroxyethane and 2-Chloroethyl alcohol
Ethylene chlorohydrin; Glycol chlorohydrin
3.2 **Coast Guard Compatibility Classification:** To be developed
3.3 **Chemical Formula:** C_2H_5ClO
3.4 **IMCO/United Nations Numerical Designation:** 1135

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Faint sweet

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic canister mask or self-contained breathing apparatus; goggles or face shield; rubber gloves
5.2 **Symptoms Following Exposure:** Inhalation causes irritation of upper respiratory system; nausea, headache, delirium, coma, collapse. Liquid causes irritation of eyes and skin; prolonged contact with skin may allow penetration into body and cause same symptoms as following ingestion or inhalation. Ingestion causes nausea, headache, delirium, coma, and collapse
5.3 **Treatment for Exposure:** INHALATION: remove victim from exposure, give artificial respiration if breathing has stopped, call physician. EYES: flush with water for at least 15 minutes, get medical attention if irritation persists. SKIN: wash off with copious amounts of water, call physician if irritation has been prolonged. INGESTION: give large amounts of water or milk, induce vomiting, call physician immediately
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 3; oral LD_{50} 71 mg/kg (rats)
5.7 **Late Toxicity:** Damage to central nervous system and liver in humans
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Odorless

6 FIRE HAZARDS

6.1 **Flash Point:** 140°F C.C.
6.2 **Flammable Limits in Air:** 4.9% - 15.9%
6.3 **Fire Extinguishing Agents:** Water, alcohol foam, dry chemical or carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Fumes, hydrogen chloride and phosgene when may be formed
6.6 **Behavior in Fire:** Vapors are heavier than air and may flash back a considerable distance to source of ignition
6.7 **Ignition Temperature:** 797°F
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD)**
Data not available
8.4 **Food Chain Concentration Potential:** None

Roslyn, N.Y. 11576
3. Eastman Kodak Co.
Eastman Organic Chemicals
Rochester, N.Y. 14650

10. SHIPPING INFORMATION

10.1 **Grades of Purity:** 99%
10.2 **Storage Temperature:** Ambient
10.3 **Inert Atmosphere:** No requirement
10.4 **Venting:** Open flame arrester

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-2)

YES

12. HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:** Poison Class B
12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not rated
12.3 **NFPA Hazard Classifications:**

Category	Classification
Health Hazard (Blue)	3
Flammability (Red)	2
Reactivity (Yellow)	1

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid
13.2 **Molecular Weight:** 80.5
13.3 **Boiling Point at 1 atm:**
269.1°F = 131.7°C = 404.8°K
13.4 **Freezing Point:**
-84.7°F = -64.8°C = 208.4°K
13.5 **Critical Temperature:** Not pertinent
13.6 **Critical Pressure:** Not pertinent
13.7 **Specific Gravity:** 1.203 at 20°C (liquid)
13.8 **Liquid Surface Tension:**
Data not available
13.9 **Liquid-Water Interfacial Tension:**
Not pertinent
13.10 **Vapor (Gas) Specific Gravity:** 2.8
13.11 **Ratio of Specific Heats of Vapor (Gas):**
Data not available
13.12 **Latent Heat of Vaporization:** 225 Btu/lb
= 125 cal/g = 5.3 × 10⁵ J/kg
13.13 **Heat of Combustion:** -645 Btu/lb
= -1.4 kcal/g = -59.3 × 10⁵ J/kg
13.14 **Heat of Decomposition:** Not pertinent
13.15 **Heat of Solution:** Not pertinent
13.16 **Heat of Polymerization:** Not pertinent

Continued on page 7 and 8

NOTES

ETC ETHYLENE CYANOHYDRIN

Common Synonyms
Hydracrylonitrile
2-Cyanoethanol
Glycol cyanohydrin
3-Hydroxypropanenitrile

Liquid Colorless to yellow-brown Weak odor to odorless

Sinks and mixes with water

Stop discharge if possible
Call fire department
Avoid contact and contamination of the harmful material
Notify local health and pollution control agencies

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED WHEN HEATED
Wear self-contained breathing apparatus
Extinguish with dry chemical, alcohol foam, carbon dioxide
Water may be ineffective on fire
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID
LIQUID
Irritating to skin and eyes.
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES: Hold eyelids open, flush with plenty of water
IF SWALLOWED and victim CONSCIOUS: Have victim drink water
Induce vomiting
IF SWALLOWED: Do not induce vomiting if victim CONSCIOUS OR HAVING CONVULSIONS
Keep victim warm and quiet

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-6

Dissolve and Flush

2. LABELS

No hazard label required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 2-Cyanoethanol
Glycol cyanohydrin
Hydracrylonitrile
2-Hydroxypropanenitrile
3-Hydroxypropanenitrile

3.2 **Coast Guard Compatibility Classification:** Alcohol

3.3 **Chemical Formula:** HOCH$_2$CH$_2$CN

3.4 **IMCO United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless to yellow-brown

4.3 **Odor:** Practically odorless characteristic

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Wear supplied-air mask, plastic gloves, rubber clothing, rubber boots, goggles

5.2 **Symptoms Following Exposure:** Liquid irritating to eyes and skin. Inhalation may cause irritation of nose and throat

5.3 **Treatment for Exposure:** INGESTION: induce vomiting as directed on label. EYES: wash with plenty of water for 15 minutes. SKIN: flush exposed area with plenty of water

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent

5.5 **Short-Term Inhalation Limits:** Not pertinent

5.6 **Toxicity by Ingestion:** Grade 3 Data Not Available

5.7 **Late Toxicity:** Ingestion of liquid may cause severe kidney damage

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating to eyes and throat

5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically nonirritating to skin

5.10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6.1 **Flash Point:** 265°F CC

6.2 **Flammable Limits in Air:** 2.7% to 22% by volume

6.3 **Fire Extinguishing Agents:** Carbon dioxide, dry chemical, foam, water spray, fog. Use water to keep fire exposed containers cool

6.4 **Fire Extinguishing Agents Not to be Used:** Water in straight stream may cause frothing

6.5 **Special Hazards of Combustion Products:** Toxic gases are generated when heated

6.6 **Behavior in Fire:** Decomposes, producing toxic gas

6.7 **Ignition Temperature:** 421°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

NOTES

REVISED 1978

EDA — ETHYLENEDIAMINE

Common Synonyms
1,2-Diaminoethane
1,2-Ethanediamine

Liquid | Colorless | Mild ammonia odor

Floats and mixes with water. Irritating vapor is produced. Freezing point is 52°F.

Avoid contact with liquid and vapor. Keep people away.
Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves).
Stop discharge if possible.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible.
Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves).
Extinguish with water, dry chemical, alcohol foam, or carbon dioxide.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
Harmful if inhaled.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Dilute and flush.

2 LABELS

No hazard label required by Code of Federal Regulations.

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1,2-Diaminoethane; 1,2-Ethanediamine
3.2 **Coast Guard Compatibility Classification:** Aliphatic amine
3.3 **Chemical Formula:** $NH_2CH_2CH_2NH_2$
3.4 **IMCO/United Nations Numerical Designation:** NO 1604

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Strong ammoniacal odor; ammonia-like; mild and ammoniacal odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Full rubber protective clothing and gloves and boots; chemical worker's goggles; face shield where contact with liquid is likely. If necessary to enter closed area for 1-2 hr or less, wear full faced gas mask with canister approved by Bureau of Standards for use with ammonia.

5.2 **Symptoms Following Exposure.** High concentration of vapor burns eyes and irritates nose and throat. Liquid burns eyes and skin.

5.3 **Treatment for Exposure.** Get medical help immediately. INGESTION: drink large amounts of water or milk quickly; induce vomiting only if instructed by physician. EYES: flush immediately and thoroughly with flowing water for at least 15 min. SKIN: remove clothing and flush affected area with copious amounts of flowing water, then wash with soap and water; severe exposure may require showering.

5.4 **Toxicity by Inhalation (Threshold Limit Value).** 10 ppm

5.5 **Short-Term Inhalation Limits.** 20 ppm for 5 min

5.6 **Toxicity by Ingestion.** Grade 2; LD50: 5 to 5 g/kg (oral, rat)

5.7 **Late Toxicity.** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations.

5.9 **Liquid or Solid Irritant Characteristics.** Fairly severe skin irritant; may cause pain and second degree burns after a few minutes' contact.

5.10 **Odor Threshold:** 10 ppm

6. FIRE HAZARDS

6.1 **Flash Point.** 99°F (O.C.) 100°F (C.C.)
6.2 **Flammable Limits in Air:** 2.5% - 14.3%
6.3 **Fire Extinguishing Agents:** Carbon dioxide, dry chemicals, foam or water.
6.4 **Fire Extinguishing Agents Not to be Used.** Do not use water in case of drum or tank fires.
6.5 **Special Hazards of Combustion Products:** Irritating vapors are generated when heated.
6.6 **Behavior in Fire.** Not pertinent.
6.7 **Ignition Temperature.** 716°F
6.8 **Electrical Hazard:** Not pertinent.
6.9 **Burning Rate.** 2.2 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water.** Gives off heat but reaction is not hazardous.
7.2 **Reactivity with Common Materials.** No reaction.
7.3 **Stability During Transport.** Stable.
7.4 **Neutralizing Agents for Acids and Caustics.** Flush with water.
7.5 **Polymerization.** Not pertinent.
7.6 **Inhibitor of Polymerization.** Not pertinent.

8 WATER POLLUTION

8.1 **Aquatic Toxicity.** 60 ppm/24 hr/shubunkin/killed/fresh water
8.2 **Waterfowl Toxicity.** Data not available
8.3 **Biological Oxygen Demand (BOD).** 75% (theory) 5 days
8.4 **Food Chain Concentration Potential.** None

NOTES

REVISED 1978

EDB — ETHYLENE DIBROMIDE

Common Synonyms
1,2-Dibromoethane
Ethylene bromide

Liquid | Colorless | Sweet odor

Sinks in water. Poisonous vapor is produced.
Freezing point is 50° F.

Stop discharge if possible. Keep people away.
Avoid contact with liquid and vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable.
POISONOUS GASES ARE PRODUCED WHEN HEATED
Wear goggles, self-contained breathing apparatus and rubber overclothing, including gloves.
Extinguish fires with water.

Exposure

CALL FOR MEDICAL AID
VAPOR
POISONOUS IF INHALED
Irritating to eyes, nose and throat
May cause headache
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Irritating to skin and eyes
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED, do not induce VOMITING. Have victim drink water, milk.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify wildlife and fishery agencies.
Notify operators of public water supplies.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4.)

Should be removed.
Chemical and physical treatment.

2 LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Bromofume 1,2-Dibromoethane; Dibromoethane; Dowfume W-10; W-15; W-40; Ethylene bromide; Glycol dibromide
3.2 **Coast Guard Compatibility Classification.** Halogenated hydrocarbon
3.3 **Chemical Formula** $BrCH_2CH_2Br$
3.4 **IMCO United Nations Numerical Designation** 6.1/1605

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color.** Colorless
4.3 **Odor** Mildly sweet, like chloroform

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Canister-type mask or self-contained air mask, neoprene gloves, chemical-safety goggles
5.2 **Symptoms Following Exposure:** Local inflammation, blisters and ulcers on skin; irritation to lungs and bronchitis; injury to liver and kidneys; may be absorbed through skin
5.3 **Treatment for Exposure:** Remove from exposure. Remove contaminated clothing. Wash skin with soap and water. Flush eyes with plenty of water. Consult physician.
5.4 **Toxicity by Inhalation (Threshold Limit Value).** 5 mg/m
5.5 **Short-Term Inhalation Limits:** 50 ppm for 5 min
5.6 **Toxicity by Ingestion** Grade 4. LD 50 to 500 mg/kg
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics.** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.
5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used** Not pertinent
6.5 **Special Hazards of Combustion Products:** Decomposition gases are toxic and irritating
6.6 **Behavior in Fire** Decomposes into toxic, irritating gases. Reacts with hot metals such as aluminum and magnesium
6.7 **Ignition Temperature** Not flammable
6.8 **Electrical Hazard** Not pertinent
6.9 **Burning Rate** Not flammable

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport** Stable
7.4 **Neutralizing Agents for Acids and Caustics** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 18 mg/l/48 hr bluegill/fresh water
8.2 **Waterfowl Toxicity** Data not available
8.3 **Biological Oxygen Demand (BOD).** Data not available
8.4 **Food Chain Concentration Potential** None

NOTES

REVISED 1978

EDC — ETHYLENE DICHLORIDE

Common Synonyms
1,2 Dichloroethane
Ethylene chloride
EDC

Liquid | Colorless | Sweet odor

Sinks in water. Flammable, irritating vapor is produced.

Avoid contact with liquid and vapor. Keep people away.
Wear goggles, self contained breathing apparatus and rubber overclothing (including gloves).
Shut off ignition sources and call fire department.
Stop discharge if possible.
Stay upwind and use water spray to "knock down" vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
POISONOUS GASES ARE PRODUCED IN FIRE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Wear goggles, self contained breathing apparatus, and rubber overclothing (including gloves).
Extinguish with dry chemical, CO2, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

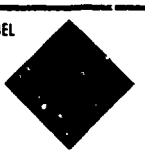
Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause nausea, dizziness or difficult breathing.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk, and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution



Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Isolate, warn of high flammability.
Disperse and flush.

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:**

Bioxide	EDC
1,2 Dichloroethane	Ethylene chloride
Dutch liquid	Glycol dichloride

3 2 **Coast Guard Compatibility Classification:** Halogenated hydrocarbon

3 3 **Chemical Formula:** $ClCH_2CH_2Cl$

3 4 **IMCO United Nations Numerical Designation:** 1184

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor.** Ethereal, chloroform like, other like

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Clean body covering clothing and safety glasses with side shields. Respiratory protection: up to 50 ppm, none; 50 ppm to 2%, 1/2 hr or less, full face mask and canister; greater than 2%, self contained breathing apparatus.

5 2 **Symptoms Following Exposure:** Inhalation of vapors causes nausea, drunkenness, depression. Contact of liquid with eyes may produce corneal injury. Prolonged contact with skin may cause a burn.

5 3 **Treatment for Exposure:** INHALATION: if victim is overcome, remove him to fresh air, keep him quiet and warm, and get medical attention immediately; if breathing stops, give artificial respiration. INGESTION: induce vomiting, call a physician, treat the symptoms. EYES: flush immediately with copious amounts of flowing water for at least 15 min. SKIN: remove clothing and wash skin thoroughly with soap and water, wash contaminated clothing before reuse.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 50 ppm

5 5 **Short-Term Inhalation Limits:** 200 ppm for 5 min during any 3 hour period

5 6 **Toxicity by Ingestion:** Grade 2, LD50 0.5 to 5 g/kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapor may cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics.** Causes smarting of the skin and first degree burns on short exposure; may cause secondary burns on long exposure.

5 10 **Odor Threshold:** 100 ppm

6 FIRE HAZARDS

6 1 **Flash Point:** 56°F (O.C.), 55°F (C.C.)

6 2 **Flammable Limits in Air:** 6.2% - 15.6%

6 3 **Fire Extinguishing Agents.** Foam, carbon dioxide, dry chemical

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** Toxic and irritating gases (hydrogen chloride, phosgene) are generated.

6 6 **Behavior in Fire:** Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back.

6 7 **Ignition Temperature:** 775°F

6 8 **Electrical Hazard:** Class I, Group D

6 9 **Burning Rate:** 1.6 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity.**
150 ppm,* pumpkinseed; 11 ppm,* salt water
*Time period not specified

8 2 **Water Fowl Toxicity.**
Data not available

8 3 **Biological Oxygen Demand (BOD)**
0.002 lb/lb, 5 days

8 4 **Food Chain Concentration Potential**
None

NOTES

REVISED 1978

EGL	# ETHYLENE GLYCOL

Common Synonyms
Glycol
Monoethylene glycol
1,2-Ethanediol

Thick liquid | Colorless | Odorless

Sinks and mixes with water

Stop discharge if possible
Call fire department
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with dry chemical alcohol foam or carbon dioxide
Water may be ineffective on fire
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin and eyes
If swallowed, will cause loss of consciousness
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk and have victim induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do nothing except keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** 1,2-Dihydroxyethane; 1,2-Ethanediol; Ethylene dihydrate; Glycol; Monoethylene glycol

3.2 **Coast Guard Compatibility Classification:** Glycol

3.3 **Chemical Formula:** HOCH$_2$CH$_2$OH

3.4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor.** Slight odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles, shower and eyebath

5.2 **Symptoms Following Exposure:** Inhalation of vapor is not hazardous. Ingestion causes stupor or coma, sometimes leading to fatal kidney injury

5.3 **Treatment for Exposure:** INGESTION: induce vomiting and call a physician. SKIN AND EYES: flush with water

5.4 **Toxicity by Inhalation (Threshold Limit Value)** 100 ppm

5.5 **Short-Term Inhalation Limits:** Not pertinent

5.6 **Toxicity by Ingestion:** Grade 1. LD$_{50}$: 5.9 g/kg (rats; guinea pigs; mouse)

5.7 **Late Toxicity:** Late toxic injury may result if ingested

5.8 **Vapor (Gas) Irritant Characteristics.** Vapors are nonirritating to the eyes and throat

5.9 **Liquid or Solid Irritant Characteristics.** No appreciable hazard; practically harmless to the skin

5.10 **Odor Threshold:** Not pertinent

NOTES

EEE ETHYLENE GLYCOL DIETHYL ETHER

Common Synonyms

Diethyl Cellosolve
1,2 Diethoxyethane

Liquid | Colorless | Mild pleasant odor

Floats and mixes slowly with water. Irritating vapor is produced.

Stop discharge if possible. Keep people away.
Call fire department.
Isolate and evacuate spill or leak area immediately.
Notify local health and water pollution control officials.

Fire

Combustible.
Extinguish with dry chemical, alcohol foam, carbon dioxide.
Water may be ineffective on fire.

Exposure

CALL FOR MEDICAL AID.

VAPOR

Irritating to eyes, nose and throat.
May cause central nervous system depression.

LIQUID

Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED, do not induce VOMITING. Have victim drink water (one quart maximum) or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Floating to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: water contaminant.
Disperse and flush.

2. LABELS

No label required by Code of Federal Regulations.

NOTES

EGD — ETHYLENE GLYCOL DIMETHYL ETHER

Common Synonyms
Monoglyme
1,2-Dimethoxyethane
Dimethyl Cellosolve
Ansul Ether 12

Liquid | Colorless | Fragrant odor

Floats and mixes with water. Irritating vapor is produced

Stop discharge if possible
Caution department
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with dry chemical, alcohol foam, or carbon dioxide
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID

VAPOR
If inhaled, will cause dizziness or difficult breathing
Move to fresh air
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

LIQUID
Not irritating to skin
If swallowed, will cause nausea, vomiting or loss of consciousness
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Evacuate area if highly flammable
Dike as needed

2. LABELS

No hazard label required by Coast Guard Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Monoglyme, 1,2-Dimethoxyethane, Dimethyl Cellosolve, Ansul Ether 12
3 2 **Coast Guard Compatibility Classification:** Glycol ether
3 3 **Chemical Formula:** $CH_3OCH_2CH_2OCH_3$
3 4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Mild ethereal

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Wear chemical safety goggles and rubber gloves
5 2 **Symptoms Following Exposure:** Data not available
5 3 **Treatment for Exposure:** INHALATION: Move to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. INGESTION: Induce vomiting with Ipecac syrup
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade III. Single dose oral LD50 slightly toxic
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** None

Disperse and flush

2 LABELS

No hazard label required by DOT
Coast Guard Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms**
2-Butoxyethanol | Ethylene Glycol Monobutyl Ether
Butyl Cellosolve | Poly-Solv EB
Dowanol EB

3.2 **Coast Guard Compatibility Classification**
Group 1

3.3 **Chemical Formula**
$C_4H_9OCH_2CH_2OH$

3.4 **IMCO United Nations Numerical Designation.** None

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild characteristic; slightly rancid; mild ethereal

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air pack or organic canister respirator; rubber gloves; goggles; clothing to prevent body contact with liquid

5.2 **Symptoms Following Exposure:** Vapors irritate eyes and nose. Ingestion or skin contact causes headache, nausea, and vomiting

5.3 **Treatment for Exposure:** INHALATION: remove to fresh air and call a physician. SKIN OR EYES: immediately flush with plenty of water for 15 minutes; get medical care for eyes

5.4 **Toxicity by Inhalation (Threshold Limit Value)** 50 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2. LD50 (oral, rat) 1.2 g/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Vapor causes slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. Repeated or prolonged contact may cause mild irritation and reddening of the skin.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 165°F TOC, 155°F TCC

6.2 **Flammable Limits in Air:**
1.1 - 10.6%

6.3 **Fire Extinguishing Agents:** Carbon dioxide or dry chemical for small fires; alcohol type foam for large fires

6.4 **Fire Extinguishing Agents Not to be Used**
Data not available

6.5 **Special Hazards of Combustion Products**
Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 472°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** 6.7 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:**
No reaction

Dispersal and dilute

2. LABELS

No hazard label required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Cellosolve acetate
2-Ethoxyethanol acetate
2-Ethoxyethyl acetate
Glycol monoethyl ether acetate
Poly-Sol® EE acetate

3.2 **Coast Guard Compatibility Classification:** Inert

3.3 **Chemical Formula:** $CH_3COOCH_2CH_2OC_2H_5$

3.4 **IMCO United Nations Numerical Designation:** 1172

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild pleasant ester-like

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical safety goggles

5.2 **Symptoms Following Exposure:** Vapor causes irritation of eyes, nose and throat. Liquid causes severe eye damage. Repeated contact causes irritation

5.3 **Treatment for Exposure:** INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. EYES: Flush with plenty of water. Get medical attention. SKIN: Wash exposed area

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion:** Grade 2. LD_{50} = 5.5 g/kg orally

5.7 **Late Toxicity:** Causes kidney damage in laboratory animals. Effects unknown in humans

5.8 **Vapor (Gas) Irritant Characteristics.** Vapor causes slight smarting of eyes and respiratory system if concentration is high. Irritation is not severe at 100 ppm

5.9 **Liquid or Solid Irritant Characteristics.** Minimum hazard. Repeated or prolonged contact may cause smarting and reddening of the skin

5.10 **Odor Threshold:** 0.036 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 124°F CC

REVISED 1978

EME	ETHYLENE GLYCOL MONOMETHYL ETHER

Common Synonyms
Poly-Sol® EM
Dowanol EM
Methyl Cellosolve
Glycol monomethylether
2-Methoxyethanol

Liquid | Colorless | Odorless

Floats and mixes with water

No discharge if possible
Call fire department
Avoid contact with liquid
Evacuate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with dry chemical, alcohol foam, or water spray
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID
LIQUID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES: Hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS: have victim drink water
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

NOTES

REVISED 1976

ETI ETHYLENEIMINE

Common Synonyms
Aziridine

Oily liquid | Colorless | Ammonia odor

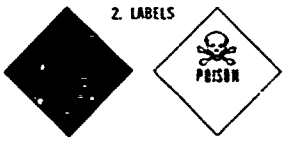
Floats and mixes with water. Poisonous flammable vapor is produced.

Fire

FLAMMABLE.
Containers may explode when heated.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
Irritating to eyes.



LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn eyes.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

5.10 Odor Threshold:

REVISED 1978

EOX ETHYLENE OXIDE

Common Synonyms
Oxirane
1,2-Epoxyethane

Liquefied gas | Colorless | Sweet odor

Floats and mixes with water. Flammable, irritating vapor is produced. Boiling point is 51° F.

Avoid contact with liquid. Keep people away.
Wear goggles, self-contained breathing apparatus and rubber protective clothing (including gloves).
Shut off ignition sources and call fire department.
Stop discharge if it can be done without risk.
Stay upwind and keep out of low areas.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Containers may explode when heated
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Wear goggles, self-contained breathing apparatus and rubber protective clothing (including gloves).
Stop flow of gas if possible.
Combat fire from behind barrier with maximum distance. Avoid direct contact.
Flood discharge area with water.
Cool exposed containers and protect cutoff effort by personnel with water.
Extinguish with alcohol foam, dry chemical, carbon dioxide water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled, will cause nausea, vomiting and difficult breathing
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes.
Flush affected areas with water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED, induce vomiting. DO NOT give liquids to an unconscious person.
If conscious, give large quantities of water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Actions Handbook CG-446-4)
Initial Isolation: 100 meters
Downwind: 0.1 mile

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** 1,2-Epoxyethane; Oxirane
3.2 **Coast Guard Compatibility Classification** Alkylene oxides
3.3 **Chemical Formula** C_2H_4O
3.4 **IMCO United Nations Numerical Designation** 2.0/1040

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid
4.2 **Color** Colorless
4.3 **Odor:** Sweet characteristic ether like

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Air-supplied mask, goggles or face shield, rubber shoes and coveralls.
5.2 **Symptoms Following Exposure** Exposure to low vapor concentrations often results in delayed nausea and vomiting. Higher concentrations produce irritation of eyes, nose and throat, high concentrations have caused pulmonary edema. Critical tissue is skin. Causes blistering on burns.
5.3 **Treatment for Exposure** INHALATION: Remove contaminated victim immediately to fresh air and administer oxygen if breathing is difficult. Call physician. SKIN OR EYES: flush immediately with plenty of water for 15 minutes and seek medical attention.
5.4 **Toxicity by Inhalation (Threshold Limit Value)** 50 ppm
5.5 **Short-Term Inhalation Limits** 500 ppm for 30 min
5.6 **Toxicity by Ingestion** Grade 3, oral rat LD_{50} = 33 g/kg
5.7 **Late Toxicity:** Causes cancer in mice. Effects on humans unknown
5.8 **Vapor (Gas) Irritant Characteristics** Vapor is moderately irritating such that personnel will not readily tolerate moderate concentrations.
5.9 **Liquid or Solid Irritant Characteristics** Liquid will cause severe irritation and may cause painful second degree burns after a few minutes contact.
5.10 **Odor Threshold** 50 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** < 0 F (O.C.)
6.2 **Flammable Limits in Air** 3.0 - 100%
6.3 **Fire Extinguishing Agents** Stop flow of gas. Use water, carbon dioxide, dry chemical or alcohol foam.
6.4 **Fire Extinguishing Agents Not to be Used** Not pertinent
6.5 **Special Hazards of Combustion Products** Irritating vapors generated when heated.
6.6 **Behavior in Fire** Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back. Containers may explode when heated.
6.7 **Ignition Temperature** 804°F
6.8 **Electrical Hazard** Class I, Group B
6.9 **Burning Rate** 3.5 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water** Slow reaction, not hazardous

Continued on next page.

NOTES

EFT ETHYL ETHER

Common Synonyms
Anesthetic ether
Sulfuric ether
Ether
Diethyl ether
Diethyl oxide

Watery liquid | Colorless | Sweet odor

Floats on water. Flammable, irritating vapor is produced. Boiling point is 94° F.

Avoid contact with liquid and vapor. Keep people away.
Wear goggles and self-contained breathing apparatus.
Shut off ignition sources and call fire department.
Stop discharge if possible.
Stay upwind and use water spray to "knock down" vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Wear goggles and self-contained breathing apparatus.
Extinguish with dry chemical, foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause nausea, vomiting, headache, or loss of consciousness.
Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability.
Restrict access.
Evacuate area.

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms**

Anesthesia ether	Ether
Diethyl ether	Ethoxyethane
Diethyl oxide	Sulfuric ether

3.2 **Coast Guard Compatibility Classification** Ether

3.3 **Chemical Formula** $C_4H_{10}O$

3.4 **IMCO United Nations Numerical Designation** 3.1 1155

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Sweet, pungent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Approved organic vapor canister mask, chemical goggles, synthetic rubber or plastic gloves

5.2 **Symptoms Following Exposure.** Vapor inhalation may cause headache, nausea, vomiting, and loss of consciousness. Contact with eyes will be irritating. Skin contact from clothing wet with the chemical may cause burns.

5.3 **Treatment for Exposure.** INHALATION: remove victim to fresh air; if breathing has stopped, apply artificial respiration; if breathing is difficult, give oxygen; call a physician. EYES: flush immediately with water for 15 min.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** 400 ppm

5.5 **Short Term Inhalation Limits** 1000 ppm for 30 min

5.6 **Toxicity by Ingestion:** Grade 2; LD_{50} 0.5 to 5 g/kg

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics.** No appreciable hazard. Practically harmless to the skin because it is very volatile and evaporates quickly.

5.10 **Odor Threshold** 0.83 ppm

6 FIRE HAZARDS

6.1 **Flash Point** −40 F (O.C.) −49 F (C.C.)

6.2 **Flammable Limits in Air**
1.85% - 36%

6.3 **Fire Extinguishing Agents:** Dry chemical, carbon dioxide or foam

6.4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6.5 **Special Hazards of Combustion Products** Not pertinent

6.6 **Behavior in Fire.** Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back. Decomposes violently when heated.

6.7 **Ignition Temperature:** 356 F

6.8 **Electrical Hazard:** Class I, group C

6.9 **Burning Rate:** 0.7 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water** No reaction

7.2 **Reactivity with Common Materials** No reaction

7.3 **Stability During Transport.** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization.** Not pertinent

7.6 **Inhibitor of Polymerization** Not pertinent

NOTES

REVISED 1978

EFM	# ETHYL FORMATE

Common Synonyms

Formic acid ethyl ester
Ethyl formic ester
Ethyl methanoate
Formic ether

Liquid | Colorless | Pleasant odor

Floats and mixes with water. Flammable. Irritating vapor is produced.

Shut off ignition sources. Call fire department.
Stop discharge if possible. Keep people away.
Stay upwind. Use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemicals, alcohol foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

Call for medical aid.

VAPOR

Irritating to eyes, nose and throat.
If inhaled will cause difficult breathing.

Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID

Irritating to skin and eyes.
Harmful if swallowed.

Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
If IN EYES, hold eyelids open and flush with plenty of water.
If SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability, water contaminant.
Restrict access.
Evacuate area.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Ethyl formic ester, Ethyl methanoate, Formic acid ethyl ester, Formic ether

3.2 **Coast Guard Compatibility Classification:** Esters (13)

3.3 **Chemical Formula:** $HCOOC_2H_5$

3.4 **IMCO/United Nations Numerical Designation:** 3.1, 1190

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Characteristic pleasant aromatic

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic canister gas mask, goggles, face shield, rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation of vapor causes slight irritation of the eyes and rapidly increasing irritation of the nose. High concentrations cause deep narcosis within a few minutes, followed by death within a few hours. Contact with liquid causes moderate irritation of eyes and mild irritation of skin. Ingestion causes irritation of mouth and stomach, may cause deep narcosis and death if not treated.

5.3 **Treatment for Exposure:** INHALATION: remove from exposure, begin artificial respiration if breathing has stopped, call physician. EYES: wash with water for 15 min., call physician if needed. SKIN: wash with water for 15 min., call physician if irritation persists. INGESTION: do NOT induce vomiting, get medical attention at once.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 1,850 mg/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effects are temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Fairly severe skin irritant. May cause pain and second degree burns after a few minutes' contact.

5.10 **Odor Threshold:** Data not available.

6. FIRE HAZARDS

6.1 **Flash Point:** 10°F (O.C.) = -4°F (C.C.)

6.2 **Flammable Limits in Air:** 2.8% - 16.0%

6.3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Vapors heavier than air and may travel long distance to a source of ignition and flash back

6.7 **Ignition Temperature:** 851°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 3.6 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** 30% 10 days, 0.8 lb/lb 10 days

8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

EAI 2-ETHYLHEXYL ACRYLATE, INHIBITED

Common Synonyms

Acrylic acid 2-ethylhexylester
2-Ethylhexyl 2-propenoate

Liquid | Colorless | Sharp odor

Floats on water

Stop discharge if possible. Keep people away.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Containers may explode in fire
Combat fires from safe distance. Use protected location.
Extinguish with dry chemicals, carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

Call for medical aid.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flood affected areas with plenty of water.
IF IN EYES: Hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS: have victim drink water or milk and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS: do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: water contaminant
Restrict access
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Acrylic acid 2-ethylhexyl ester; 2-Ethylhexyl 2-propenoate

3.2 **Coast Guard Compatibility Classification.** Acrylate

3.3 **Chemical Formula.**
$CH_2{=}CHCOOCH_2CH(C_2H_5)C_4H_9$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Sharp mild ester type inoffensive

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self contained breathing apparatus; rubber gloves; vapor proof chemical safety goggles; impervious apron and boots.

5.2 **Symptoms Following Exposure:** Inhalation of concentrated vapor causes drowsiness and convulsions. Liquid causes irritation of eyes and may irritate skin on prolonged exposure. Ingestion produces same symptoms as inhalation.

5.3 **Treatment for Exposure:** INHALATION: give artificial respiration and oxygen if necessary; call a physician. EYES: immediately flush with plenty of water for at least 15 min.; get medical attention. SKIN: immediately flush with plenty of water for at least 15 min. INGESTION: induce vomiting and consult a physician.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion** Grade 2; oral rat LD_{50} = 1.540 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Vapors are not irritating to eyes and throat.

5.9 **Liquid or Solid Irritant Characteristics.** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point.** 198 F OC

6.2 **Flammable Limits in Air:** 0.8% - 6.4%

6.3 **Fire Extinguishing Agents** Dry chemical or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used** Water or foam may cause frothing

6.5 **Special Hazards of Combustion Products** Not pertinent

6.6 **Behavior in Fire.** Heat can result in a severe polymerization with rapid release of energy. Sealed containers may rupture explosively if hot.

6.7 **Ignition Temperature.** 496 F

6.8 **Electrical Hazard.** Data not available

6.9 **Burning Rate.** 3.6 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7.5 **Polymerization** Will polymerize in the absence of inhibitor and when heated

7.6 **Inhibitor of Polymerization:** Monomethyl ether of hydroquinone, 100 - 120 ppm
Hydroquinone 90 - 120 ppm

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 22 ppm 24 hr
Tank shrimp TL_m

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)**
97% of theoretical in 5 days, fresh water acclimated seed

8.4 **Food Chain Concentration Potential**
None

NOTES

REVISED 1978

ENB — ETHYLIDENENORBORNENE

Common Synonyms
5-Ethylidenebicyclo (2,2,1) hept-2-ene
Ethylidenenorcamphene
Ethylidenenorbornylene

Liquid | White | Turpentine like odor

Floats on water

[illegible]

Fire

Combustible

[illegible]

Exposure

[illegible]

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache, coughing or difficult breathing

[illegible]

LIQUID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
If swallowed will cause nausea and vomiting

[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline
May be dangerous if it enters water intakes

[illegible]

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Mechanical containment
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
5-Ethylidene-bicyclo-(2,2,1)-hept-2-ene
Ethylidene-norbornene
Ethylidenenorcamphene

3.2 **Coast Guard Compatibility Classification.** Not listed

3.3 **Chemical Formula:** C_9H_{12}

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Like turpentine

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Organic canister mask; supplied mask; gasoline hose; solid rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation: Vapor causes headache, confusion and respiratory distress. Ingestion causes nausea and acute gastrointestinal distress. Contact causes severe pneumatic. Contact with liquid causes irritation to eyes and skin.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air; administer artificial respiration and oxygen if required; call a doctor. INGESTION: give large amounts of water and induce vomiting; get medical attention immediately. EYES: flush with water for at least 5 min. SKIN: wipe off; wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion.** Grade 2; oral LD_{50} = 2.5 g/kg (rats)

5.7 **Late Toxicity:** Causes kidney and liver damage in rabbits and rats at weights of rats

5.8 **Vapor (Gas) Irritant Characteristics.** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high concentrations.

5.9 **Liquid or Solid Irritant Characteristics.** Minimum hazard. If splashed on clothing and allowed to remain, may cause smarting and reddening of skin.

5.10 **Odor Threshold:** [illegible] ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 96°F (O.C.)

6.2 **Flammable Limits in Air:** Data not available

6.3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products.**

6.6 **Behavior in Fire**

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard.** Data not available

6.9 **Burning Rate** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials.**

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Data not available

7.6 **Inhibitor of Polymerization:** Data not available

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)** Data not available

8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

1. Union Carbide Corp.
Chemicals and Plastics Div.
270 Park Avenue
New York, N.Y. 10017

13.11 **Ratio of Specific Heats of Vapor (Gas)** Not pertinent

13.12 **Latent Heat of Vaporization** Data not available

13.13 **Heat of Combustion** [illegible] = -18,900 BTU/lb = -10,450 cal/g = -437 × 10⁵ J/kg

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Data not available

[illegible]

NOTES

ELT — ETHYL LACTATE

Common Synonyms

ethyl α-ethoxyester
Ethyl 2-hydroxypropanoate
Ethyl 2-hydroxypropanoate

Liquid | Colorless | Mild odor

Mixes with water

Fire

Combustible

Exposure

LIQUID
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-4

Issue warning / water-pollutant
Disperse and flush

2 LABELS

No Label Required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Ethyl alpha-hydroxypropionate / Ethyl 2-hydroxypropanoate / Ethyl DL-Lactate / Lactic acid ethyl ester

3.2 **Coast Guard Compatibility Classification.** Not applicable

3.3 **Chemical Formula:** $CH_3CHOHCOOC_2H_5$

3.4 **IMCO/United Nations Numerical Designation:** 3.3 1192

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild characteristic

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles / face shield / rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation of concentrated vapor may cause drowsiness. Contact with liquid causes mild irritation / Vapors and liquid cause irritation. Ingestion may cause nausea

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air / EYES and SKIN: flush with water. INGESTION: induce vomiting / get medical attention

5.4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion.** Moderately toxic. Human systemic effects

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 118 F (OC) 115 F (CC)

6.2 **Flammable Limits in Air:** 1.5 - 11.4

6.3 **Fire Extinguishing Agents.** Water / dry chemical / alcohol foam / carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 752 F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

13.16 **Heat of Polymerization:** Not pertinent

[illegible]

NOTES

EMC — ETHYL MERCAPTAN

Common Synonyms

Ethanethiol
Mercaptoethane
Ethyl sulfhydrate
Thioethyl alcohol

Liquid | Colorless to yellow | Strong skunk-like odor

Floats and mixes slowly with water. Poisonous, flammable vapor is produced. Boiling point is 95° F.

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.
Wear goggles and self-contained breathing apparatus.
Shut off ignition sources; do not flare, smoke or strike any kind of match or flame.
Stop discharge if possible.
Water spray may be useful in controlling vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
POISONOUS GASES ARE PRODUCED IN FIRE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish small fires with dry chemical, CO2, water spray or foam.
Water may be ineffective for fighting fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID.
VAPOR.
POISONOUS IF INHALED.
Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.
LIQUID.
POISONOUS IF SWALLOWED.
IF SWALLOWED and victim is CONSCIOUS, induce vomiting by tickling back of throat or by giving salt water to drink.
IF SWALLOWED and victim is UNCONSCIOUS OR CONVULSING, DO NOTHING BY MOUTH. Call physician immediately.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-6

Immediate Precautionary Measures
Small Spill
Large Spill
Fire
Disposal

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 Synonyms. Ethanethiol; Ethyl Mercaptan; Thioethyl Alcohol
3.2 Coast Guard Compatibility Classification. Not applicable
3.3 Chemical Formula. C_2H_5SH
3.4 IMCO/United Nations Numerical Designation. 1228

4 OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped) Liquid
4.2 Color Colorless
4.3 Odor Strong skunk-like odor

5 HEALTH HAZARDS

5.1 Personal Protective Equipment. Protective clothing; goggles; self-contained breathing apparatus; rubber boots; gloves.
5.2 Symptoms Following Exposure. Inhalation: Headache, nausea, dizziness, unconsciousness. Ingestion: Nausea and vomiting.
5.3 Treatment for Exposure. INHALATION: Remove victim to fresh air. Give oxygen if breathing is difficult. Give artificial respiration if victim is not breathing. EYES: Flush with plenty of water. SKIN: Wash with soap and water. INGESTION: Induce vomiting by tickling back of throat or by giving salt water to drink. Call physician immediately.
5.4 Toxicity by Inhalation (Threshold Limit Value) 10 ppm
5.5 Short-Term Inhalation Limits. Data not available
5.6 Toxicity by Ingestion. Grade 3: Moderately toxic
5.7 Late Toxicity. May cause liver damage.
5.8 Vapor (Gas) Irritant Characteristics. Data not available
5.9 Liquid or Solid Irritant Characteristics. Data not available
5.10 Odor Threshold. 0.19 ppm

6 FIRE HAZARDS

6.1 Flash Point. -50 F (-45 C)
6.2 Flammable Limits in Air. 2.8% to 18.0%
6.3 Fire Extinguishing Agents. Dry chemical, foam, carbon dioxide, water.
6.4 Fire Extinguishing Agents Not to be Used. Water may be ineffective.
6.5 Special Hazards of Combustion Products. Irritating fumes, sulfur dioxide are generated.
6.6 Behavior in Fire. Vapor may travel to source of ignition and flash back; containers may explode in fire. Poisonous fumes are released when heated.
6.7 Ignition Temperature. 570 F (299 C)
6.8 Electrical Hazard. Data not available.
6.9 Burning Rate. Data not available.

7 CHEMICAL REACTIVITY

7.1 Reactivity with Water. No reaction
7.2 Reactivity with Common Materials. No reaction
7.3 Stability During Transport. Stable
7.4 Neutralizing Agents for Acids and Caustics. Not pertinent
7.5 Polymerization. Not pertinent
7.6 Inhibitor of Polymerization. Not pertinent

8 WATER POLLUTION

8.1 Aquatic Toxicity. Data not available
8.2 Waterfowl Toxicity. Data not available
8.3 Biological Oxygen Demand (BOD). Data not available
8.4 Food Chain Concentration Potential. None

NOTES

ETM ETHYL METHACRYLATE

Common Synonyms
Ethyl methacrylate inhibited
Methacrylic acid ethyl ester
Ethyl 2-methacrylate
Ethyl alpha-methylacrylate
Ethyl 2-methyl 2-propenoate

Liquid | Colorless | Sharp unpleasant odor

Floats on water

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

LIQUID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Isolate water for high flammability
Restrict access
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Ethyl 2-methacrylate, Ethyl methacrylate inhibited, Ethyl alpha-methylacrylate, Ethyl 2-methyl 2-propenoate, Methacrylic acid ester

3.2 **Coast Guard Compatibility Classification:** Acrylate

3.3 **Chemical Formula** $CH_2=C(CH_3)COOC_2H_5$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Acrid, sharp

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Impervious gloves, chemical goggles, face shield or hood for breathing apparatus if exposed to vapors or spills

5.2 **Symptoms Following Exposure:** Inhalation may cause irritation to respiratory system and lungs. Ingestion causes irritation with abdominal pain. Contact irritates eyes and skin

5.3 **Treatment for Exposure:** INHALATION remove victim to fresh air, apply artificial respiration and oxygen if indicated. INGESTION induce vomiting, call physician. EYES wash with water for 15 minutes, call physician. SKIN flush with water and wash with soap

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion:** Grade 3; rat LD_{50} 4 g/kg or less

5.7 **Late Toxicity:** Causes birth defects in experimental animals

5.8 **Vapor (Gas) Irritant Characteristics.** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point.** 55°F (C.C.) 50°F (O.C.)

6.2 **Flammable Limits in Air:** 1.8% (LEL)

6.3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:**

6.6 **Behavior in Fire.** Sealed containers may rupture, explosively if heated, can cause violent polymerization reaction with rapid release of energy. Vapors are heavier than air and can travel to source of ignition and flash back

6.7 **Ignition Temperature** 750°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 4.5 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water.** No reaction

7.2 **Reactivity with Common Materials:**

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** If proper concentration of inhibitor is not present or when material is heated, exothermic polymerization reaction can occur

7.6 **Inhibitor of Polymerization.** Oxygen in the air inhibits polymerization

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

Continued on page 4 and 5

NOTES

ETN ETHYL NITRITE

Common Synonyms

Nitrous ether
Sweet spirit of nitre
Spirit of ether nitrite

Liquid | Colorless to light yellow | Pleasant odor

Floats on water. May boil on water. Boiling point in °C [°F]

Shut off flame & sources of all fire department
Stop discharge if possible. Keep people away
Isolate and remove leaking material
Notify authorities if liquid enters sewer

Fire

FLAMMABLE
POISONOUS GASES ARE PRODUCED IN FIRE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Wear goggles and self-contained breathing apparatus
Cool containers from safe distance or protected location
Extinguish with water [illegible]

Exposure

Get medical aid

VAPOR

If inhaled will cause headache, dizziness or loss of consciousness
Move victim to fresh air
If not breathing, give artificial respiration
If breathing is difficult, give oxygen

LIQUID

If swallowed will cause headache or loss of consciousness
IF SWALLOWED [illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-6

Isolate and deny flammability
Remove sources
Evacuate area
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Nitrous ether; Spirit of ether; nitrite; Sweet spirit of nitre
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** C_2H_5ONO
3.4 **IMCO/United Nations Numerical Designation:** [illegible]

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless to pale yellow
4.3 **Odor:** Aromatic, ethereal characteristic

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus; goggles; clothing and rubber gloves
5.2 **Symptoms Following Exposure:** Inhalation of vapor may cause headache, increased pulse rate, decreased blood pressure, and unconsciousness. Contact with liquid or vapor may irritate eyes and skin
5.3 **Treatment of Exposure:** INHALATION: remove victim to fresh air; if not breathing, give artificial respiration; call physician. EYES: flush with water; call physician. SKIN: flush with water; wash with soap and water; call medical attention. INGESTION: do not induce vomiting; call physician
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Data not available
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** -31 [illegible]
6.2 **Flammable Limits in Air:** [illegible]
6.3 **Fire Extinguishing Agents:** Water; dry chemical; foam; carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen are generated
6.6 **Behavior in Fire:** Vapors are heavier than air and may travel a considerable distance to a source of ignition and flash back; containers may explode in fire
6.7 **Ignition Temperature:** 194 [illegible]
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** [illegible]

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable if stored in a cool place and not exposed to strong light
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

Mallinckrodt Chemical Works
22 West Side Avenue
P.O. Box 444
Jersey City, N.J. 07304

Platz and Baus, Inc.
12-04 Northern Boulevard
Flushing, N.Y. 11354

10 SHIPPING INFORMATION

10.1 **Grades of Purity:** Officially specified as 95% and 98% by volume with the balance being ethyl alcohol
10.2 **Storage Temperature:** Cool ambient
10.3 **Inert Atmosphere:** No requirement
10.4 **Venting:** Safety relief

11 HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook CG 446-3

A B C D E [illegible]

12. HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:** Flammable liquid

NOTES

EPS ETHYLPHENYLDICHLOROSILANE

Common Synonyms	Liquid Colorless Sharp irritating odor Reacts with water. Exposure gas is produced on contact with water
	[illegible]
Fire	Combustible POISONOUS GASES MAY BE PRODUCED IN FIRE [illegible]
Exposure	[illegible] GAS PRODUCED IN REACTION WITH WATER POISONOUS IF INHALED Irritating to eyes, nose and throat [illegible] LIQUID Will burn skin and eyes Harmful if swallowed [illegible]
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes [illegible]

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-4

Isolate and keep unnecessary people away from spill
Ventilate area
Disperse and flush with water

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** [illegible]
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** $C_{14}H_{16}Cl_2Si$
3 4 **IMCO/United Nations Numerical Designation:** [illegible]

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Sharp. Like hydrochloric acid

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Acid vapor type respirators or positive pressure type chemical worker's goggles; other equipment as necessary to protect skin and eyes
5 2 **Symptoms Following Exposure:** Inhalation irritates nose and throat. Contact with liquid causes severe burns of eyes and skin. Ingestion causes severe burns of mouth and stomach
5 3 **Treatment for Exposure:** INHALATION: remove victim to fresh air; give artificial respiration if needed; call physician. EYES: flush with water for 15 minutes; obtain medical attention immediately. SKIN: flush with water; obtain medical attention if burning has occurred. INGESTION: if victim is conscious, give large amounts of water; then induce vomiting; get medical attention
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 1 [illegible] mg/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary
5 9 **Liquid or Solid Irritant Characteristics:** Severe eye irritant. Causes second and third degree burns on short contact and is very injurious to the eyes
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** > 200 F OC
6 2 **Flammable Limits in Air:** Data not available
6 3 **Fire Extinguishing Agents:** Dry chemical
6 4 **Fire Extinguishing Agents Not to be Used:** Water jet
6 5 **Special Hazards of Combustion Products:** Toxic hydrogen chloride and phosgene fumes may be formed
6 6 **Behavior in Fire:** Difficult to ignite; if ignited will burn; contact with water applied to adjacent fires may cause generation of toxic hydrogen chloride gas
6 7 **Ignition Temperature:** Data not available
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate:** [illegible]

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts with water to generate hydrogen chloride gas which is corrosive to most metals
7 2 **Reactivity with Common Materials:** Will react with surface moisture to evolve hydrogen chloride which is corrosive to most common metals
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Flush with water; then with sodium bicarbonate or some other base
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** Data not available
8 4 **Food Chain Concentration Potential:** None

(Continued on page 2)

NOTES

EPD	ETHYL PHOSPHONOTHIOIC DICHLORIDE, ANHYDROUS

Common Synonyms

Ethanephosphonothioic dichloride

Liquid | Colorless | Choking odor

Reacts with water. Poisonous gas is produced on contact with water.

May decompose if possible. Keep away from ... Call fire department. Isolate and deny unauthorized access. ... Notify local health and pollution control agencies.

Fire

Combustible.
POISONOUS GASES ARE PRODUCED IN FIRE.
Wear goggles and self-contained breathing apparatus.
Extinguish with dry chemical, carbon dioxide.
DO NOT USE WATER OR FOAM ON FIRE.

Exposure

CALL FOR MEDICAL AID.
GAS PRODUCED IN REACTION WITH WATER.
POISONOUS IF INHALED.
Irritating to eyes, nose and throat.
Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is conscious, induce vomiting.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-1

Immediate precautionary measure: Isolate and deny unauthorized access.
Recommended clean-up procedure: Dispose of by burial in a sanitary landfill.

2 LABEL

3 CHEMICAL DESIGNATION*

3.1* Synonyms: Ethanephosphonothioic dichloride; Ethanephosphonothioyl dichloride

3.2 Coast Guard Compatibility Classification: Not applicable

3.3 Chemical Formula: $C_2H_5PSCl_2$

3.4 IMCO/United Nations Numerical Designation: 1760

4 OBSERVABLE CHARACTERISTICS

4.1* Physical State (as shipped): Liquid

4.2 Color: Colorless

4.3 Odor: Noticeable odor

5 HEALTH HAZARDS

5.1* Personal Protective Equipment: Wear rubber or neoprene gloves, rubber boots, and goggles.

5.2 Symptoms Following Exposure: Inhalation of ... may cause pulmonary edema and severe irritation of the eyes, nose, and throat. Symptoms may be delayed. Allow victim to rest because physical exertion during period of pulmonary edema may be fatal. Contact with liquid causes painful irritation. Eyes and skin may be severely injured. Liquid is absorbed through the skin. Ingestion causes severe irritation of the mouth and stomach.

5.3 Treatment for Exposure: INHALATION: Remove victim to fresh air. If breathing has stopped, ... should be used. If pulmonary edema is present, oxygen should be administered by a physician or other person trained in its use. Because effects may be delayed, 24 hours of observation is recommended. EYES: Flush thoroughly with water and seek medical attention. Apply ... may be dropped in eyes. SKIN: Wash affected areas with soap and water. INGESTION: Give large amounts of water; induce vomiting; get medical attention. Other treatment is symptomatic.

5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available

5.5 Short-Term Inhalation Limits: Data not available

5.6 Toxicity by Ingestion: Grade 2 LD50 (Mouse) 46 mg/kg

5.7 Late Toxicity: Data not available

5.8 Vapor (Gas) Irritant Characteristics: Data not available

5.9 Liquid or Solid Irritant Characteristics: Data not available

5.10 Odor Threshold: Data not available

6 FIRE HAZARDS

6.1 Flash Point: [illegible] F (OC)

6.2 Flammable Limits in Air: Data not available

6.3 Fire Extinguishing Agents: Dry chemical or carbon dioxide

6.4 Fire Extinguishing Agents Not to be Used: Water or foam

6.5 Special Hazards of Combustion Products: Oxides of sulfur, phosphorus, hydrogen chloride and phosgene

6.6 Behavior in Fire: Container may explode in heat of fire

6.7* Ignition Temperature: Data not available

6.8 Electrical Hazard: Data not available

6.9 Burning Rate: Data not available

7 CHEMICAL REACTIVITY

7.1* Reactivity with Water: Reacts with water to give toxic hydrogen chloride (hydrochloric acid) and ...

7.2* Reactivity with Common Materials: Will react with surface moisture to evolve hydrogen chloride which can cause corrosion of metals.

7.3 Stability During Transport: Stable

7.4 Neutralizing Agents for Acids and Caustics: Flood with water, treat with sodium bicarbonate or lime solution.

7.5 Polymerization: Not pertinent

7.6 Inhibitor of Polymerization: Not pertinent

8 WATER POLLUTION

8.1 Aquatic Toxicity: Data not available

8.2 Waterfowl Toxicity: Data not available

8.3 Biological Oxygen Demand (BOD): Data not available

8.4 Food Chain Concentration Potential: None

NOTES

EPP ETHYL PHOSPHORODICHLORIDATE

Common Synonyms

Phosphorodichloridic acid ethyl ester
Ethyl dichlorophosphate

Liquid | Colorless | Choking odor

Reacts with water. Irritating gas is produced on contact with water.

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.
Wear goggles, self contained breathing apparatus and rubber protective clothing (including gloves).
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Fire data not available

Exposure

Call for medical aid.

VAPOR

Irritating to eyes, nose and throat.
Harmful if inhaled.
Move victim to fresh air.
If breathing is difficult, give oxygen.

LIQUID

Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: corrosive water contaminant.
Restrict access.
Disperse and flush with care.

2 LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Ethyl dichlorophosphate; Phosphorodichloridic acid ethyl ester

NOTES

REVISED 1978

ESC ETHYL SILICATE

Common Synonym

Tetraethyl silicate
Silbond
Tetraethyl orthosilicate
Ethyl orthosilicate
Ethyl silicate 40
Ethyl silicate condensed

Waters liquid — Colorless — Mild odor

May float or sink in water. Reacts slowly with water.

Stop discharge if possible. Keep people away.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible.
Extinguish with water fog. Do not get solid stream directly on material.

Exposure

Call for medical aid.
LIQUID.
Irritating to eyes.
If swallowed will cause nausea and vomiting.
Remove contaminated clothing at once.
Flush affected areas with plenty of water.
IF IN EYES hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS have victim drink water (one pint at most) and induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVE CONVULSIONS do not induce vomiting or give anything by mouth.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify owners of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush.

2. LABELS

No label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Ethyl orthosilicate; Ethyl silicate 40; Ethyl silicate condensed; Silbond; Tetraethyl orthosilicate; Tetraethyl silicate

3.2 **Coast Guard Compatibility Classification** Not applicable

3.3 **Chemical Formula.** $C_8H_{20}O_4Si$

3.4 **IMCO/United Nations Numerical Designation** 3.3 / 292

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild and nonresidual fruit

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Rubber or polyethylene gloves; safety glasses or other form of eye protection; self contained breathing apparatus or one that absorbs organic vapors.

5.2 **Symptoms Following Exposure.** Inhalation of vapor can cause eye and nose irritation, unsteadiness, tremors, salivation, respiratory difficulty and unconsciousness. Contact with liquid irritates eyes and may cause dryness, cracking and inflammation of skin. Ingestion may produce nausea, vomiting and cramps.

5.3 **Treatment for Exposure:** INHALATION remove patient from contaminated atmosphere; if his breathing has ceased start mouth to mouth artificial respiration; oxygen if available should be administered only by an experienced person when authorized by a physician; keep patient warm and comfortable; call physician immediately. EYES flush immediately with large quantities of running water for at least 15 min; obtain medical attention if irritation persists. SKIN immediately flush affected areas with large volumes of water; obtain medical attention if irritation persists. INGESTION give large amounts of water or warm salty water and induce vomiting; milk, eggs or olive oil may then be given; obtain medical attention if abdominal discomfort persists.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** 100 ppm

5.5 **Short-Term Inhalation Limits.** 700 ppm for 30 min

5.6 **Toxicity by Ingestion** Data not available

5.7 **Late Toxicity:** Liver, kidney and lung damage may result from severe exposures by inhalation or ingestion.

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

(Continued on page 4)

6 FIRE HAZARDS

6.1 **Flash Point.** 125°F (OC) 99°F (CC)

6.2 **Flammable Limits in Air:** LEL = 2%

6.3 **Fire Extinguishing Agents:** Water, foam, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Data not available

6.5 **Special Hazards of Combustion Products.** Not pertinent

6.6 **Behavior in Fire.** Not pertinent

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate.** 4.4 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts slowly forming non-toxic silica and ethyl alcohol

7.2 **Reactivity with Common Materials.** Causes swelling and hardening of some plastics

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

5 HEALTH HAZARDS (Cont'd.)

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** 85 ppm

ETS ETHYLTRICHLOROSILANE

Common Synonyms

Trichloroethylsilane
Ethylsilicon trichloride
Ethylsilicone trichloride
Trichloroethylsilane

Liquid | Colorless | Sharp irritating odor

Reacts violently with water. Irritating gases produced on contact with water.

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.
Wear goggles, self-contained breathing apparatus and rubber protective clothing (minimum).
Shut off ignition sources. Call fire department.
Stop leak if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
POISONOUS GASES ARE PRODUCED IN FIRE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Wear goggles and self-contained breathing apparatus.
Extinguish with dry chemical, alcohol foam, carbon dioxide.
Water may be ineffective in fire.
Cool exposed containers with water.

Exposure

Call for medical aid.

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause difficult breathing.
Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids apart and flush with plenty of water.
IF SWALLOWED and victim CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and pollution officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability, corrosive.
Restrict access.
Personnel as upwind as feasible.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Ethylsilicon trichloride; Ethylsilicon trichloride; Trichloroethylsilane; Trichloroethylsilicone
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula.** $C_2H_5SiCl_3$
3.4 **IMCO/United Nations Numerical Designation.** 3.2/1196

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Sharp hydrochloric acid like pungent acrid

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Full protective clothing, and vapor type respirators plus rubber gloves, chemical worker's goggles, other equipment as necessary to protect skin and eyes.
5.2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat. Contact with liquid causes severe burns of eyes and skin. Ingestion causes burns of mouth and stomach.
5.3 **Treatment for Exposure:** INHALATION: remove victim from exposure, administer artificial respiration if breathing has stopped, call physician. EYES: flush with water for 15 min., obtain medical attention immediately. SKIN: flush with water, obtain medical attention immediately if irritation persists. INGESTION: give large amounts of water, get medical attention.
5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available
5.5 **Short-Term Inhalation Limits.** Data not available
5.6 **Toxicity by Ingestion:** Grade 2, oral LD_{50} = 1,370 mg/kg (rat)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics.** Vapor causes severe irritation of the eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.
5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes.
5.10 **Odor Threshold.** Data not available

6. FIRE HAZARDS

6.1 **Flash Point.** 90°F C.C.
6.2 **Flammable Limits in Air:** Data not available
6.3 **Fire Extinguishing Agents.** Dry chemical, alcohol foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Toxic hydrogen chloride and phosgene gases will form
6.6 **Behavior in Fire.** Vapors are heavier than air and may travel a considerable distance to a source of ignition and flash back. Difficult to extinguish; re-ignition may occur. Contact with water applied to adjacent fires will produce irritating, hydrogen chloride fumes.
6.7 **Ignition Temperature:** Data not available
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** 2.0 mm/min.

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts vigorously evolving hydrogen chloride (hydrochloric acid)
7.2 **Reactivity with Common Materials:** Reacts with surface moisture to form hydrogen chloride which is corrosive to common metals
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Flood with water, rinse with sodium bicarbonate or lime solution
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization.** Not pertinent

13 15 **Heat of Solution:** (anhydrous) = [illegible]

13 16 **Heat of Polymerization:** Not pertinent

[illegible]

NOTES

FCP

FERRIC GLYCEROPHOSPHATE

Common Synonyms

Solid — Greenish brown to greenish yellow

Sinks and mixes with water

Avoid contact with solid and dust. Keep people away.
Stop discharge if possible.
Isolate and remove uncontaminated material.
Notify local health and pollution control agencies.

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat.
If inhaled will cause coughing or difficult breathing.

If in eyes, hold eyelids open and flush with plenty of water.
If clothing is contaminated, remove it if safe to do so.
If breathing is difficult, give oxygen.

SOLID
Irritating to skin and eyes.
Harmful if swallowed.

Remove contaminated clothing and shoes.
Flush affected area with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have him drink water, milk or milk of magnesia.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Coast Guard or Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** (approx.) $FeC_3H_8O_9PO_4 \cdot H_2O$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Greenish brown to greenish yellow
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, dust mask, rubber gloves
5 2 **Symptoms Following Exposure:** Inhalation of dust may irritate nose and throat. Contact with dust irritates eyes and on prolonged contact skin
5 3 **Treatment for Exposure:** INHALATION: move to fresh air. INGESTION: give large amounts of water, induce vomiting if large amounts have been swallowed. EYES: flush with water for at least 15 min. SKIN: flush with water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 1 mg/m³ (as Fe)
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Not pertinent
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Odorless

NOTES

FNT FERRIC NITRATE

Common Synonyms			
Ferric nitrate nonahydrate Nitric acid, iron(III) salt	Solid	Green, colorless to pale violet	Odorless
	Sinks and mixes with water		

Avoid contact with solid or concentrated solutions
Stop discharge if possible
Isolate and restrict discharge if material
Notify local health and pollution control agencies

Fire

Not flammable
Will increase the intensity of a fire.
Extinguish fires using agent suitable for surrounding fire

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
In case of contact, immediately flush eyes with plenty of water
For prolonged exposure to dust, use an approved respirator
Remove victim to fresh air if effects occur

SOLID
Irritating to skin and eyes
Harmful if swallowed
Avoid any skin contact or inhalation of dust
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, give large amounts of water, induce vomiting
and have victim induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS
Do nothing except keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

NOTES

FXX FLUORINE

Common Synonyms

Liquefied gas Clear to yellow Very irritating odor

Liquid sinks and boils in water Poisonous visible vapor cloud is produced

AVOID CONTACT WITH LIQUID AND VAPOR KEEP PEOPLE AWAY
Wear chemical protective suit
Stop discharge if possible
Evacuate area in case of large discharge
Notify local health and pollution control agencies

Fire

Not flammable
WILL CAUSE FIRE AND REACT VIOLENTLY WITH COMBUSTIBLES
POISONOUS GAS IS PRODUCED IN FIRE
Wear chemical protective suit with self-contained breathing apparatus
Combat fires from behind barricade with unmanned hose holder or monitor nozzle
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID

VAPOR
POISONOUS IF INHALED
Irritating to eyes
Move to fresh air
If breathing has stopped give artificial respiration
If breathing is difficult give oxygen

LIQUID
Will burn skin and eyes
Will cause frostbite
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
DO NOT RUB AFFECTED AREAS

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-7)

Issue warning: poison
Restrict access
Evacuate area

2. LABELS

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula** F_2
3 4 **IMCO, United Nations Numerical Designation** 2.0/1045

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Compressed gas
4 2 **Color.** Pale yellow
4 3 **Odor** Strong irritating odor

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Tight fitting chemical goggles, special clothing not easily penetrated by fluorine gas
5 2 **Symptoms Following Exposure** Severe burning of eyes, skin and respiratory system. The burns may develop slowly after exposure
5 3 **Treatment for Exposure.** Flush all affected parts with water for at least 15 min. Do NOT use ointments. Administer artificial respiration and oxygen if required
5 4 **Toxicity by Inhalation (Threshold Limit Value)** 1 ppm
5 5 **Short-Term Inhalation Limits** 0.3 ppm for 5 min
5 6 **Toxicity by Ingestion:** Not pertinent
5 7 **Late Toxicity:** Severe burns may develop slowly after exposure
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eye and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations
5 9 **Liquid or Solid Irritant Characteristics.** Severe skin irritant. Causes second and third degree burns on short contact and is very injurious to the eyes
5 10 **Odor Threshold** 0.035 ppm

6 FIRE HAZARDS

6 1 **Flash Point** Not flammable
6 2 **Flammable Limits in Air.** Not flammable
6 3 **Fire Extinguishing Agents.** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used** Do not direct water onto fluorine leaks
6 5 **Special Hazards of Combustion Products** Toxic gases generated in fires involving fluorine
6 6 **Behavior in Fire** Dangerously reactive. Ignites most combustibles
6 7 **Ignition Temperature** Not flammable
6 8 **Electrical Hazard.** Not pertinent
6 9 **Burning Rate** Not flammable

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water** Reacts with water to form hydrogen fluoride, oxygen and oxygen difluoride
7 2 **Reactivity with Common Materials:** Reacts violently with all combustible materials except the metal containers in which it is shipped
7 3 **Stability During Transport** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization.** Not pertinent
7 6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity** 2.3 ppm * trout TL_m in water
*Time period not specified
8 2 **Waterfowl Toxicity.** Data not available
8 3 **Biological Oxygen Demand (BOD).** None
8 4 **Food Chain Concentration Potential** None

NOTES

REVISED 1978

FSL

FLUOSILICIC ACID

Common Synonyms
Hydrofluosilicic acid
Hydrogen hexafluorosilicate
Hexafluosilicic acid
Silicofluoric acid
Fluorosilicic acid
Sand acid

Liquid | Colorless | Sharp unpleasant odor

Sinks and mixes with water

Avoid contact with liquid and vapor. Keep people away.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local authorities if spill enters water.

Fire

Not Flammable
Irritating gases may be produced when heated

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

If in eyes, flush with plenty of water for at least 15 minutes, then get medical attention.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes
If swallowed will cause nausea

Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do not induce vomiting or give anything by mouth.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

Notify local authorities if spill enters water.
Notify operators of downstream water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: corrosive
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Hydrogen acid, Hexafluosilicic acid, Hydrofluosilicic acid, Hydrogen hexafluorosilicate, Sand acid, Silicofluoric acid

3.2 **Coast Guard Compatibility Classification** Not listed

3.3 **Chemical Formula** H_2SiF_6

3.4 **IMCO/United Nations Numerical Designation.** 1778

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid

4.2 **Color** Transparent straw colored to colorless

4.3 **Odor** Acrid, sharp

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Rubber gloves, safety glasses, protective clothing

5.2 **Symptoms Following Exposure** Inhalation of vapor produces severe corrosive effect on mucous membrane. Ingestion causes severe burns of mouth and stomach. Contact of liquid or vapor causes severe burns of eyes and skin.

5.3 **Treatment for Exposure** INHALATION: remove victim to fresh air and call physician. INGESTION: give large amounts of water; do NOT induce vomiting. EYES: immediately wash with water for 15 min. call physician. SKIN: wash affected parts with water; treat for hydrogen fluoride burn; wash with benzalkonium chloride soap.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5.5 **Short-Term Inhalation Limits** Data not available

5.6 **Toxicity by Ingestion** Data not available

5.7 **Late Toxicity** Data not available

(Continued on page 5 and 6)

NOTES

FSA FLUOSULFONIC ACID

Common Synonyms
Fluorosulfuric acid
Fluorosulfonic acid

Liquid | Colorless to light yellow | Choking odor

Reacts violently with water. Irritating mist and gas are produced on contact with water.

Fire

Not flammable

Exposure

VAPOR OR MIST
Irritating to eyes, nose and throat
Harmful if inhaled

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Issue warning, corrosive air contaminant, water contaminant
Restrict access
Evacuate area
Disperse and flush with care

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Fluorosulfuric acid, Fluorosulfonic acid
3.2 **Coast Guard Compatibility Classification** Not applicable
3.3 **Chemical Formula** FSO_3H
3.4 **IMCO/United Nations Numerical Designation** 1777

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Somewhat cloudy, colorless to straw yellow
4.3 **Odor** Choking, irritating

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Rubber gloves, shoes and clothing; goggles and face shield; acid type canister mask or air line mask
5.2 **Symptoms Following Exposure** Inhalation of fumes causes severe irritation of nose and throat. Contact of liquid with eyes or skin causes very severe burns. Ingestion causes very severe burns of mouth and stomach.
5.3 **Treatment for Exposure** Get medical attention quickly following all exposure. In case of vapor or mist INHALATION, remove victim to fresh air. If victim is unconscious, give artificial respiration. EYES: flush with water until medical help arrives; SKIN: flush with water until medical help arrives; wash burned area using Epsom salt solution; pay particular attention to skin around fingernails. INGESTION: give large amounts of water.
5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available
5.5 **Short-Term Inhalation Limits** Data not available
5.6 **Toxicity by Ingestion** Data not available
5.7 **Late Toxicity** Data not available
5.8 **Vapor (Gas) Irritant Characteristics** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even in low concentrations.
5.9 **Liquid or Solid Irritant Characteristics** Severe skin burns and eye damage; second- and third-degree burns on short contact and severe injury to the eyes.
5.10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6.1 **Flash Point** Not flammable
6.2 **Flammable Limits in Air** Not flammable
6.3 **Fire Extinguishing Agents** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used** Do not use water or foam on adjacent fires
6.5 **Special Hazards of Combustion Products** Toxic and irritating fumes of hydrogen fluoride and sulfuric acid may form in fires
6.6 **Behavior in Fire** Contact with water or fire in adjacent fires produces toxic and irritating fumes of hydrogen fluoride
6.7 **Ignition Temperature** Not pertinent
6.8 **Electrical Hazard** Not pertinent
6.9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water** Reacts violently with water to generate hydrogen fluoride and sulfuric acid
7.2 **Reactivity with Common Materials** Reacts with metals generating flammable hydrogen
7.3 **Stability During Transport** Stable
7.4 **Neutralizing Agents for Acids and Caustics** Flood with water, rinse with sodium bicarbonate or lime solution
7.5 **Polymerization.** Not pertinent
7.6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity** Data not available
8.2 **Waterfowl Toxicity** Data not available
8.3 **Biological Oxygen Demand (BOD)** Data not available

NOTES

FMS FORMALDEHYDE SOLUTION

Common Synonyms
Formalith
Fyde
Formacin
Formic aldehyde solution
Methanal solution

Watery liquid | Colorless | Irritating odor

Sinks and mixes with water

Vapor forms explosive mixture with air

Wear goggles and self-contained breathing apparatus. Use water spray to reduce vapors or divert vapor cloud drift. Avoid ignition of vapors. Stay upwind. Keep out of low areas. Ventilate closed spaces before entering. Collect for recovery or safe disposal. Emergency responders should wear bunker gear. Do not get water inside containers. Cool containers with flooding quantities of water until well after fire is out. Withdraw immediately in case of rising sound from venting safety device or discoloration of tank. ALWAYS stay away from tanks engulfed in fire.

Fire

Combustible

Water, regular foam or carbon dioxide can be used to extinguish fire. Vapor explosion hazard indoors, outdoors or in sewers. Runoff to sewer may create explosion hazard. Isolate for 1/2 mile in all directions if tank, rail car or truck is involved in fire.

Exposure

CALL FOR MEDICAL AID

LIQUID
Will burn skin and eyes
If swallowed, will cause nausea, vomiting or loss of consciousness

Avoid contact with liquid and vapor. Keep upwind. Ventilate closed spaces before entering. Keep out of low areas. Wear goggles and self-contained breathing apparatus. Remove and isolate contaminated clothing and shoes. In case of contact with substance, immediately flush skin or eyes with plenty of water for at least 15 minutes. For minor skin contact, avoid spreading material on unaffected skin. In case of contact with eyes, flush with water continuously. Get medical attention immediately. If victim is breathing, move victim to fresh air. If victim is not breathing, perform artificial respiration, preferably mouth-to-mouth. If victim has ingested material, induce vomiting by touching back of throat with finger or by giving syrup of ipecac. Get medical attention immediately. Do not leave victim unattended. Do not induce vomiting or give anything by mouth if victim is unconscious or convulsing. Keep victim quiet and maintain normal body temperature. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Wash contaminated clothing before reuse. Call a physician immediately.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

Notify local health and wildlife officials. Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning. Water contaminant. Dispersant flush.

2. LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Formalin, Fyde, Formacin, Methanal, Formic aldehyde

3.2 **Coast Guard Compatibility Classification** Alcohols

3.3 **Chemical Formula** $H_2CHO\ HCOH\ CHOH$

3.4 **IMCO United Nations Numerical Designation** 1198

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Pungent irritating characteristic pungent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus, chemical goggles, protective clothing, synthetic rubber or plastic gloves.

5.2 **Symptoms Following Exposure** INHALATION: Vapor is irritating and will cause coughing, chest pain, nausea and vomiting. INGESTION: Severe nausea, vomiting, abdominal pain and collapse. Contact with skin or eyes causes severe irritation.

5.3 **Treatment for Exposure:** INHALATION: Remove victim to fresh air. If victim is not breathing, administer artificial respiration. If victim is breathing, administer oxygen if breathing is difficult. INGESTION: Induce vomiting. If victim is conscious and not convulsing, have victim drink water. Induce vomiting by touching back of throat with finger or by giving syrup of ipecac. Get medical attention immediately. Do not induce vomiting or give anything by mouth if victim is unconscious or convulsing. Keep victim quiet and maintain normal body temperature. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. SKIN OR EYES: Flush immediately with plenty of water for at least 15 minutes. Remove and isolate contaminated clothing and shoes. Call a physician for eyes. Wash contaminated clothing before reuse.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** 2 ppm

5.5 **Short-Term Inhalation Limits** Approximately 20 ppm for 5 min; Approximately 10 ppm for 30 min; 5 ppm for 1 hr

5.6 **Toxicity by Ingestion** Formaldehyde solution Grade 2; LD_{50} Rat 0.5 to 2 g/kg

5.7 **Late Toxicity.** None

5.8 **Vapor (Gas) Irritant Characteristics** Vapor is moderately irritating to eyes, personnel will withdraw from area at moderate high concentrations.

5.9 **Liquid or Solid Irritant Characteristics.** Causes severe stinging sensation and first degree burns on short exposure. May cause second degree burns on prolonged exposure.

5.10 **Odor Threshold** 0.05 ppm

6 FIRE HAZARDS

6.1 **Flash Point** 15°F (formaldehyde) Methanol (tech) 152°F C.C. 15% methanol 122°F C.C.

6.2 **Flammable Limits in Air** 7.0% - 73%

6.3 **Fire Extinguishing Agents:** Water, dry chemical, carbon dioxide or alcohol foam

6.4 **Fire Extinguishing Agents Not to be Used.** Data not available

6.5 **Special Hazards of Combustion Products** Toxic vapors are generated

6.6 **Behavior in Fire** Not pertinent

6.7 **Ignition Temperature:** 806°F

6.8 **Electrical Hazard** Not pertinent

6.9 **Burning Rate** Not pertinent

NOTES

FMA	# FORMIC ACID

Common Synonyms			
Methanoic acid Formylic acid	Liquid	Colorless	Penetrating odor
	Sinks and mixes with water. Freezing point is 47°F		

AVOID CONTACT WITH LIQUID. Keep people away.
Wear goggles, self-contained breathing apparatus and rubber coveralls (including gloves).
Stop discharge if possible.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible.
Wear goggles, self-contained breathing apparatus and rubber coveralls (including gloves).
Extinguish with water, dry chemical, carbon dioxide or foam.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water (milk).
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do not give anything by mouth.
DO NOT INDUCE VOMITING.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Insure adequate ventilation.
Restrict access.
Dilute and flush.

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.**
Methanoic acid
Formylic acid

3.2 **Coast Guard Compatibility Classification**
Organic acid

3.3 **Chemical Formula.** $HCOOH$

3.4 **IMCO United Nations Numerical Designation** 1779

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Pungent, irritating

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Self-contained breathing apparatus, chemical goggles, face shield, rubber suit, gloves, and boots.

5.2 **Symptoms Following Exposure:** Liquid or vapor contact causes severe burns to skin and eyes. Vapor is extremely irritating to eyes, nose, and respiratory system. Ingestion causes severe burning of mouth, throat, and abdomen.

5.3 **Treatment for Exposure:** INHALATION: Remove victim to fresh air. Keep victim warm and quiet. Get medical attention. INGESTION: DO NOT induce vomiting. Give victim large quantities of water. SKIN OR EYES: Remove victim to safety quickly. Flush affected areas with plenty of water. Get medical attention.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2, oral rat LD_{50} = 1.21 g/kg

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is extremely irritating to eyes, nose, and respiratory system. Exposure to 150 ppm is dangerous after 30 minutes.

5.9 **Liquid or Solid Irritant Characteristics.** Liquid causes severe burns to skin and eyes. Prolonged contact may cause second degree burns. Concentrations greater than 10% are severely irritating to skin.

5.10 **Odor Threshold.** Data not available.

6 FIRE HAZARDS

6.1 **Flash Point.** 156°F OC

6.2 **Flammable Limits in Air.**
Data not available

6.3 **Fire Extinguishing Agents:** Water, carbon dioxide, dry chemical or alcohol foam.

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent.

6.5 **Special Hazards of Combustion Products.** Toxic gases and vapors may be released in a fire involving formic acid.

6.6 **Behavior in Fire:** Not pertinent.

6.7 **Ignition Temperature:** 1004°F

6.8 **Electrical Hazard.** Not pertinent.

6.9 **Burning Rate:** 0.5 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction.

7.2 **Reactivity with Common Materials:** No reaction.

7.3 **Stability During Transport.** Stable.

7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water, then neutralize with lime.

7.5 **Polymerization:** Not pertinent.

7.6 **Inhibitor of Polymerization:** Not pertinent.

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 130 mg/l 24 hr bluegill TL_m fresh water; 120 ppm 48 hr daphnia TL_m fresh water.

8.2 **Waterfowl Toxicity:** Data not available.

8.3 **Biological Oxygen Demand (BOD)**
2 days 40%, other 5 days

8.4 **Food Chain Concentration Potential**
None

NOTES

REVISED 1978

FUM — FUMARIC ACID

Common Synonyms	Solid	White	Odorless
Trans-Butenedioic acid Allomaleic acid Trans-1,2-ethylenedicarboxylic acid Boletic acid Lichenic acid	Sinks and mixes with water		

Stop discharge if possible. Keep ignition sources away.
Shut off ignition sources. Call fire department.
Avoid contact with solid and dust.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Dust cloud may explode if ignited in an enclosed area
Irritating gases may be produced when heated
Extinguish with water fog, foam, or carbon dioxide

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
In case of contact, immediately flush eyes with plenty of water for at least 15 minutes
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

SOLID
Irritating to skin and eyes
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

FAL — FURFURYL ALCOHOL

Common Synonyms
2-Furanmethanol
Furfurakohol
2-Furylcarbinol
2-Hydroxymethylfuran

Liquid | Colorless to light yellow | Mod irritating

Mixes with water

Stop discharge if possible. Keep people away.
Call fire dept. if fire.
Evacuate area if vapor discharged in storage.
No [illegible] and gas [illegible]

Fire

Combustible

[illegible]

Exposure

[illegible]

LIQUID
Irritating to skin and eyes
Harmful if swallowed

[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

[illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contamination
Disperse and flush

2. LABELS

No label required by Coast Guard Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** 2-Furanmethanol
Furfurakohol alpha-Furylcarbinol
2-Furylcarbinol 2-Hydroxymethylfuran

3.2 **Coast Guard Compatibility Classification.** [illegible]

3.3 **Chemical Formula.** $C_5H_6O_2$

3 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless or amber

4.3 **Odor.** Mildly irritating

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Goggles or face shield, rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation causes headache, nausea and irritation of nose and throat. Vapor irritates eyes. Ingestion causes headache, nausea, vomiting, diarrhea. Liquid causes dryness and cracking. Ingestion causes headache, nausea, vomiting, diarrhea, burning of mouth and stomach.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air. Treat for shock if necessary. Call physician at once. If breathing has stopped, give artificial respiration. EYES: irrigate with plenty of water for at least 15 minutes, get medical attention. SKIN: wash promptly with soap and water. INGESTION: induce vomiting if victim is conscious. Give large quantities of water. Never give anything by mouth to an unconscious person. Get medical attention promptly.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** [illegible]

5.5 **Short-Term Inhalation Limits** [illegible]

5.6 **Toxicity by Ingestion** [illegible]

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics** Vapor [illegible] irritation which may progress to [illegible]. Such concentrations are not likely to be encountered. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. Liquid may cause slight to moderate irritation if allowed to remain on skin. Severe smarting and reddening of skin.

5.10 **Odor Threshold.** [illegible] ppm

6 FIRE HAZARDS

6.1 **Flash Point.** [illegible]°F (O.C.) [illegible]°C

6.2 **Flammable Limits in Air:** [illegible]

6.3 **Fire Extinguishing Agents.** Water, dry chemical, foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6.5 **Special Hazards of Combustion Products.** Not pertinent

6.6 **Behavior in Fire** Not pertinent

6.7 **Ignition Temperature** [illegible]

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** [illegible]

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water** No reaction

7.2 **Reactivity with Common Materials** No reaction

7.3 **Stability During Transport** Data on acid forms; water-soluble materials on exposure to air; avoids part[illegible] when hot

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization.** Not pertinent

7.6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity** Data not available

8.2 **Waterfowl Toxicity** Data not available

8.3 **Biological Oxygen Demand (BOD)** Data not available

8.4 **Food Chain Concentration Potential** None

Continued on page 5 and 6

NOTES

GLA GALLIC ACID

Common Synonyms
3,4,5-Trihydroxybenzoic acid
Gallic acid monohydrate

Solid | White | Odorless

Sinks in water

Stop discharge if possible. Keep people away.
Shut off ignition sources. Call fire department.
Avoid contact with solid and dust.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Extinguish with water, dry chemicals, foam, or carbon dioxide.

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat.
If inhaled will cause coughing or difficult breathing.

If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

SOLID
Irritating to skin and eyes.
Harmful if swallowed.

Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.

Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations.

3. CHEMICAL DESIGNATIONS

LIQUID
Harmful if swallowed.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water [illegible]
DO NOT INDUCE VOMITING

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Floating to shoreline
May be dangerous if it enters water intakes.
[illegible]

1. RESPONSE TO DISCHARGE

See Response Methods Handbook. (1-446-4)

Mechanical containment
Should be removed
Physical and chemical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:**
No common synonyms

3 2 **Coast Guard Compatibility Classification:**
Miscellaneous hydrocarbon mixtures

3 3 **Chemical Formula:** Not pertinent (mixture)

3 4 **IMCO-United Nations Numerical Designation:** 3 3 1202 (gas oil)

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Yellow to brown

4 3 **Odor:** Like gasoline and petroleum

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Protective goggles, gloves

5 2 **Symptoms Following Exposure:** INHALATION causes irritation of upper respiratory tract, stimulation, then depression, dizziness, headache, incoordination, anesthesia, coma, respiratory arrest, irregular heartbeat, as complications. ASPIRATION causes severe coughing, gagging, distress, rapid development of pulmonary edema. INGESTION causes irritation of throat and stomach, stimulation, then depression.

5 3 **Treatment for Exposure:** Get medical attention. INHALATION: maintain respiration, administer oxygen if needed. ASPIRATION: enforce bed rest and administer oxygen. INGESTION: give victim water or milk; do NOT induce vomiting; guard against aspiration of vomit. EYES: wash with copious quantities of water. SKIN: remove by wiping, then wash with soap and water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** No single value applicable

5 5 **Short-Term Inhalation Limits:** Not pertinent.

5 6 **Toxicity by Ingestion:** Grade 3. LD50 [illegible] g/kg

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. Repeated or prolonged and allowed to remain may cause smarting and reddening of skin.

5 10 **Odor Threshold:** 0.25 ppm

6 FIRE HAZARDS

6 1 **Flash Point:** [illegible] C C

6 2 **Flammable Limits in Air:**
[illegible]

NOTES

REVISED 1978

GAT GASOLINES: AUTOMOTIVE
(< 4.23g lead/gal)

Common Synonyms

Water: liquid Colorless to pale brown or pink Gasoline odor

Floats on water. Flammable; irritating vapor is produced.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness, headache, difficult breathing or loss of consciousness.

LIQUID
Irritating to skin and eyes.
If swallowed, will cause nausea or vomiting.
DO NOT INDUCE VOMITING.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
Fouling to shoreline.
May be dangerous if it enters water intakes.

REVISED 1978

GAK	GASOLINE BLENDING STOCKS: ALKYLATES

Common Synonyms

Water: liquid Colorless Gasoline odor

Floats on water. Flammable, irritating vapor is produced.

Stop discharge if possible. Keep people away. Shut off ignition sources and all fire detection systems. Stay upwind and ashore. Keep out of water. Ventilate area. Remove discharged material. Notify local health and pollution control agencies.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemical, CO2, water spray or foam.
Water may be ineffective.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness, headache, difficult breathing or loss of consciousness.
Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
If swallowed, will cause nausea and vomiting.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED, do not induce vomiting. Give large quantities of water. Call physician immediately.
DO NOT INDUCE VOMITING.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Foaming in shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

See Water Pollution Hazardous Substances Handbook, CG-446-2

Evacuate area. Keep upwind.
Dike spill.
Dilute with water.

3.2 **Coast Guard Compatibility Classification:** Miscellaneous hydrocarbon mixtures
3.3 **Chemical Formula:** Mixture
3.4 **IMCO United Nations Numerical Designation:** None

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Gasoline odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus. Protective clothing. Gloves.

5.2 **Symptoms Following Exposure:** INHALATION: Irritation of eyes, nose and throat. Dizziness, headache, difficult breathing or loss of consciousness. Nausea and vomiting. ASPIRATION: Irritation of lungs. Pneumonitis. Pulmonary edema. Chemical pneumonitis. Can be fatal. INGESTION: Irritation of mouth, throat and stomach. Nausea and vomiting. Diarrhea. Abdominal pain. Dizziness. Headache. Drowsiness. Loss of consciousness. Can be fatal.

5.3 **Treatment for Exposure:** None. INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. ASPIRATION: Get medical attention immediately. INGESTION: Do not induce vomiting. Give large quantities of water. Get medical attention immediately. EYES: Flush with plenty of water. SKIN: Wash with soap and water. Remove contaminated clothing and shoes.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** None. TLV-TWA: 300 ppm

5.5 **Short Term Inhalation Limits:** 500 ppm for 1 hr

5.6 **Toxicity by Ingestion:** Grade 2: Moderately Toxic

5.7 **Late Toxicity:** None

6 FIRE HAZARDS

6.1 **Flash Point:** (a) -50°F C.C. (b) -45°F C.C.

6.2 **Flammable Limits in Air:** (a) 1.1% (b) 7.1%

6.3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide.

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective.

6.5 **Special Hazards of Combustion Products:** None

6.6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back.

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Class I, group D

6.9 **Burning Rate:** 4 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 96-hour TLm fresh water: Data not available. 96-hour TLm salt water: Data not available.

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

12. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid
13.2 **Molecular Weight:** Not applicable
13.3 **Boiling Point at 1 atm:** 100°F to 400°F
13.4 **Freezing Point:** Not applicable
13.5 **Critical Temperature:** Not applicable
13.6 **Critical Pressure:** Not applicable
13.7 **Specific Gravity:** 0.65 to 0.80 at 60°F/60°F (liquid)
13.8 **Liquid Surface Tension:** Not applicable
13.9 **Liquid-Water Interfacial Tension:** Not applicable
13.10 **Vapor (Gas) Specific Gravity:** 3.4
13.11 **Ratio of Specific Heats of Vapor (Gas):** Not applicable
13.12 **Latent Heat of Vaporization:** 130 BTU/lb. at 60°F
13.13 **Heat of Combustion:** -20,500 BTU/lb.
13.14 **Heat of Decomposition:** Not applicable
13.15 **Heat of Solution:** Not applicable
13.16 **Heat of Polymerization:** Not applicable

5 HEALTH HAZARD (Cont'd)

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes and respiratory system if present in high concentrations. Practically non-irritating.

5.9 **Liquid or Solid Irritant Characteristics:** Moderate hazard. Repeated or prolonged contact may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** 0.5 ppm

REVISED 1978

GRF — GASOLINE BLENDING STOCKS: REFORMATES

Common Synonyms

Watery liquid | Colorless | Gasoline odor

Floats on water. Flammable, irritating vapor is produced.

Stop discharge if possible. Keep people away.
Shut off ignition sources and call fire department.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemical, foam or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause dizziness, headache, difficult breathing or loss of consciousness.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
If swallowed, will cause nausea or vomiting.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
Evacuate area
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Miscellaneous hydrocarbon mixtures
3 3 **Chemical Formula:** Not pertinent
3 4 **IMCO/United Nations Numerical Designation.** 3 1 3 2/1203

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Gasoline

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Protective goggles, gloves.

5 2 **Symptoms Following Exposure:** INHALATION causes irritation of upper respiratory tract, central nervous system stimulation followed by depression of varying degrees ranging from dizziness, headache and incoordination to anesthesia, coma, and respiratory arrest. Irregular heartbeat is dangerous complication. ASPIRATION causes severe lung irritation with coughing, gagging, dyspnea, substernal distress, and rapidly developing pulmonary edema. Later signs of bronchopneumonia and pneumonitis, acute onset of central nervous system followed by depression. INGESTION causes irritation of mucous membranes of throat, esophagus, and stomach, stimulation followed by depression of central nervous system, irregular heartbeat.

5 3 **Treatment for Exposure:** Seek medical attention. INHALATION: maintain respiration, give oxygen if needed. ASPIRATION: enforce bed rest, administer oxygen. INGESTION: do NOT induce vomiting, lavage carefully if appreciable quantity was ingested, guard against aspiration into lungs. EYES: wash with copious quantity of water. SKIN: wipe off and wash with soap and water.

5 4 **Toxicity by Inhalation (Threshold Limit Value).** No single TLV applicable.

5 5 **Short-Term Inhalation Limits:** 500 ppm for 30 min.

5 6 **Toxicity by Ingestion:** Grade 2, LD_{50} 0.5 to 5 g/kg.

5 7 **Late Toxicity:** None.

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS Fouling to shoreline May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - high flammability
Evacuate area
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms

3 2 **Coast Guard Compatibility Classification.** Miscellaneous hydrocarbon mixtures

3 3 **Chemical Formula.** Not pertinent

3 4 **IMCO/United Nations Numerical Designation:** UN 1 2 1203

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Gasoline

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Protective goggles, gloves

5 2 **Symptoms Following Exposure:** INHALATION causes irritation of upper respiratory tract + central nervous system stimulation followed by depression of same degrees ranging from dizziness, headache and incoordination to anesthesia, coma and respiratory arrest, irregular heartbeat is dangerous complication. ASPIRATION causes severe lung irritation with coughing, gagging, dyspnea, substernal distress, and rapidly developing pulmonary edema later signs of bronchopneumonia and pneumonitis, acute onset of central nervous system involvement followed by depression. INGESTION causes irritation of mucous membranes of throat, esophagus and stomach, stimulation followed by depression of central nervous system, irregular heartbeat.

5 3 **Treatment for Exposure:** Seek medical attention. INHALATION maintain respiration, give oxygen if needed. ASPIRATION emergency bed, administer oxygen. INGESTION do NOT induce vomiting, lavage carefully, if appreciable amount was ingested, guard against aspiration into lungs. EYES wash with large quantities water. SKIN wipe off and wash with soap and water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Single TLV applicable

5 5 **Short-Term Inhalation Limits:** 500 ppm (1)

5 6 **Toxicity by Ingestion:** Grade 2 LD(50)

5 7 **Late Toxicity:** None

6 FIRE HAZARDS

6 1 **Flash Point:**
(a) <0°F (-18°C)
(b) 0-73°F (-18 to 23°C)

6 2 **Flammable Limits in Air:**
(a) 1.4% - 7.6%

6 3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** None

6 6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Class I, Group D

6 9 **Burning Rate:** 4 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:**
90 ppm/24 hr/juvenile American shad
TL(m)/fresh water
91 ppm/24 hr/juvenile American shad
TL(m)/salt water

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** 8% 5 days

8 4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

1 Exxon Co
30 Rockefeller Plaza
New York, N.Y. 10020

2 Shell Oil Co
1 Shell Plaza
Houston, Texas 77001

3 Sun Oil Co
St. Davids, Pa. 19087

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Composition varies with range of distillation temperatures used

10 2 **Storage Temperature:** Ambient

10 3 **Inert Atmosphere:** No requirement

10 4 **Venting:** Open flame arrester or pressure vacuum

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-3)

A T L X-W

12 HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations:** Flammable liquid

12 2 **NAS Hazard Rating for Bulk Water Transportation:**

Category	Rating
Fire	3
Health	
Vapor Irritant	1
Liquid or Solid Irritant	1
Poisons	2
Water Pollution	
Human Toxicity	1
Aquatic Toxicity	2
Aesthetic Effect	3
Reactivity	
Other Chemicals	0
Water	0
Self Reaction	0

12 3 **NFPA Hazard Classifications:**

Category	Classification
Health Hazard (Blue)	1
Flammability (Red)	3
Reactivity (Yellow)	0

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Liquid

13 2 **Molecular Weight:** Not pertinent

13 3 **Boiling Point at 1 atm:** 90-220°F = 32-104°C = 305-377°K

13 4 **Freezing Point:** Not pertinent

13 5 **Critical Temperature:** Not pertinent

13 6 **Critical Pressure:** Not pertinent

13 7 **Specific Gravity:** 0.71 - 0.77 at 15°C (liquid)

13 8 **Liquid Surface Tension:** 19-23 dynes/cm = 0.019-0.023 N/m at 20°C

13 9 **Liquid-Water Interfacial Tension:** 49-51 dynes/cm = 0.049-0.051 N/m at 20°C

13 10 **Vapor (Gas) Specific Gravity:** 3-4

13 11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent

13 12 **Latent Heat of Vaporization:** 130-150 Btu/lb = 72-83 cal/gm = 3.0-3.4 × 10⁵ J/kg

13 13 **Heat of Combustion:** -18,720 Btu/lb = -10,400 cal/gm = -43.6 × 10⁵ J/kg

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution:** Not pertinent

13 16 **Heat of Polymerization:** Not pertinent

(Continued on page 5 and 6)

5. HEALTH HAZARDS (Cont'd)

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5 10 **Odor Threshold:** 0.25 ppm

REVISED 1978

GTA GLUTARALDEHYDE SOLUTION

Common Synonyms
1,5-Pentanedial

Liquid Light yellow

Mixes with water

Stop discharge if possible. Keep people away
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Not flammable

Exposure

Call for medical aid

LIQUID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES: hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS: have victim drink water or milk

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: water contaminant
Restrict access
Disperse and flush

2. LABELS

No label required, by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** 1,5-Pentanedial solution
3.2 **Coast Guard Compatibility Classification:** Aldehyde
3.3 **Chemical Formula.** $OHC-(CH_2)_3-CHO$ (in water)
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Pale yellow
4.3 **Odor:** Like rotten apples

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield; rubber gloves
5.2 **Symptoms Following Exposure:** Contact with liquid causes severe irritation of eyes and irritation of skin. Chemical readily penetrates skin in harmful amounts. Ingestion causes irritation of mouth and stomach
5.3 **Treatment for Exposure:** EYES: immediately flush with plenty of water for at least 15 min; get medical attention. SKIN: immediately flush with plenty of water for at least 15 min. INGESTION: give large amounts of water and induce vomiting; get medical attention
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2; oral rat LD_{50} = 1.36 mg/kg
5.7 **Late Toxicity:** Induces contact dermatitis in some people
5.8 **Vapor (Gas) Irritant Characteristics.** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Non flammable solution
6.2 **Flammable Limits in Air:** Not pertinent
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products.** Not pertinent
6.6 **Behavior in Fire:** Not pertinent
6.7 **Ignition Temperature:** Not pertinent
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent.
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD).** Data not available
8.4 **Food Chain Concentration Potential:** None

13.16 **Heat of Polymerization:** Not pertinent

Continued on page 5 and 6

NOTES

GCR

GLYCERINE

Common Synonyms
1,2,3-Propanetriol
1,2,3-Trihydroxypropane
Glycerol

Oily liquid | Colorless | Odorless

Sinks and mixes with water. Freezing point is 64° F

Stop discharge if possible
Call fire department
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with dry chemical, alcohol foam, or carbon dioxide
Water may be ineffective on fire
Cool exposed containers with water

Exposure

Not harmful

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-6

Dispersal and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.**
Glycerol
1,2-Propanetriol
1,2,3-Trihydroxypropane

3.2 **Coast Guard Compatibility Classification.**
Alcohol

3.3 **Chemical Formula:**
$HOCH_2CHOHCH_2OH$

3.4 **IMCO United Nations Numerical Designation.** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Odorless

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber gloves, goggles

5.2 **Symptoms Following Exposure:** No hazard

5.3 **Treatment for Exposure:** No hazard

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent

5.5 **Short-Term Inhalation Limits:** Not pertinent

5.6 **Toxicity by Ingestion:** Adult LD[50] above 5 g/kg

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics.** Vapor is practically nonirritating to eyes and throat

5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to skin

5.10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6.1 **Flash Point:** 160°F (O.C.) 320°F (C.C.)

6.2 **Flammable Limits in Air:**
Not pertinent

6.3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical, carbon dioxide, water fog

6.4 **Fire Extinguishing Agents Not to be Used:**
Water or foam may cause frothing

6.5 **Special Hazards of Combustion Products:**
Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 698°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:**
No reaction

Continued on page 7 under

NOTES

GCM	# GLYCIDYL METHACRYLATE

Common Synonyms
Glycidyl alpha-methyl acrylate
Methacrylic acid 2,3-epoxy propyl ester

Liquid — Colorless — Fruity odor

Floats on water

Avoid contact with liquid. Keep people away.
Wear rubber overclothing including gloves.
Call fire department.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and wild[illegible] officials.

Fire

Combustible
Wear goggles, self-contained breathing apparatus and rubber overclothing including gloves.
Extinguish with foam, dry chemical, carbon dioxide.
Water may be ineffective on fire.

Exposure

CALL FOR MEDICAL AID
LIQUID
Will burn skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wild[illegible] officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-6

Mechanical containment.
Should be removed.
Chemical and physical treatment.

2 LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Glycidyl alpha-methyl acrylate; Methacrylic acid 2,3-epoxypropyl ester
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** $CH_2C(CH_3)COOCH_2CHCH_2O$
3.4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Data not available

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Polyethylene coated apron and gloves and chemical goggles.
5.2 **Symptoms Following Exposure:** The liquid irritates eyes about as much as soap. Prolonged contact with skin produces irritation and dermatitis.
5.3 **Treatment for Exposure:** SKIN: wash thoroughly with soap and water and treat as a chemical burn. EYES: irrigate with clear water for 15 min. and get medical attention.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 25 ppm
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2. LD_{50} 0.5 to 5 g/kg (rats)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is mildly irritating such that personnel will not usually tolerate moderate or high vapor concentrations.
5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and 1st degree burns on short exposure; may cause secondary burns on long exposure. In eyes the irritation is similar to that caused by ordinary soap.
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** [illegible] C
6.2 **Flammable Limits in Air:** Data not available
6.3 **Fire Extinguishing Agents:** Data not available
6.4 **Fire Extinguishing Agents Not to be Used:** Data not available
6.5 **Special Hazards of Combustion Products:** Irritating vapors are generated when heated.
6.6 **Behavior in Fire:** Not pertinent
6.7 **Ignition Temperature:** Data not available
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Heat, peroxides and caustics all cause polymerization; the reaction is not considered hazardous.
7.6 **Inhibitor of Polymerization:** Hydroquinone monomethyl ether; copper

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** None

NOTES

GOS	# GLYOXAL, 40% SOLUTION

Common Synonyms			
Biformyl Diformyl Ethanedial Oxal Oxaldehyde	Liquid	Light yellow	Weak sour odor
	Mixes with water		

Stop discharge if possible. Keep people away.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable

Exposure

Call for medical aid.

LIQUID

Irritating to skin and eyes.
Harmful if swallowed.

Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-6)

Issue warning - water contaminant.
Disperse and flush.

2. LABELS

No label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Biformal, Biformyl, Diformyl, Ethanedial, Oxal, Oxaldehyde

3.2 **Coast Guard Compatibility Classification:** To be developed

3.3 **Chemical Formula:** $C_2H_2O_2$ ($CHOCHO$ in water)

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Pale yellow

4.3 **Odor:** Weak sour

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves.

5.2 **Symptoms Following Exposure:** Inhalation causes some irritation of nose and throat. Contact with liquid irritates eyes, and causes mild irritation of skin; stains skin yellow. (No information available on symptoms of ingestion.)

5.3 **Treatment for Exposure:** INHALATION: remove from exposure. EYES or SKIN: flood with water for 15 min. INGESTION: no information on treatment.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 3; oral rat LD_{50}: 2020 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

NOTES

HTC

HEPTACHLOR

Common Synonyms
1,4,5,6,7,8,8-Heptachloro-3a,4,7,7a-tetrahydro-4,7-methanoindene
1,4,5,6,7,8,8a-Heptachloro-2,3-cyclopentadiene
E3314

Solid White to light tan Camphor-like odor

Sinks in water

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY.
Wear goggles and self-contained eyepiece breathing apparatus.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not Flammable
Irritating gases may be produced when heated

Exposure

DUST
POISONOUS IF INHALED
If inhaled will cause headache or loss of consciousness.
If in eyes, wash with plenty of water.
If breathing has stopped give artificial respiration.
If breathing is difficult give oxygen.

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes.
If swallowed will cause nausea and vomiting.
In case of contact, immediately flush skin or eyes with plenty of water for at least 15 minutes.
Remove contaminated clothing and shoes.
Wash affected areas with plenty of soap and water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is fully conscious, give a cupful of water. DO NOT induce vomiting.
IF SWALLOWED and victim is not fully conscious, or having convulsions, do not give anything by mouth. Keep warm and quiet. Get medical attention immediately.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Isolate warning - water contaminant
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1,4,5,6,7,8,8-Heptachlorodicyclopentadiene; 1,4,5,6,7,8,8-Heptachloro-3a,4,7,7a-tetrahydro-4,7-methanoindene; Velsicol
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** $C_{10}H_5Cl_7$
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** White, light tan
4.3 **Odor:** Camphor-like

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective respirator, rubber gloves, clean clothes
5.2 **Symptoms Following Exposure:** Inhalation of dust causes irritation, tremors, and collapse. Ingestion causes nausea, vomiting, diarrhea, and irritation of the gastrointestinal tract. Contact with dust causes irritation of eyes and moderate irritation of skin.
5.3 **Treatment for Exposure:** *Get medical attention following all severe exposures to heptachlor.* INHALATION: move to fresh air; if exposure to dust was severe, get medical attention. INGESTION: lavage stomach with warm tap water (unless convulsions are imminent); fats and oils should be avoided, as they increase the rate of absorption of all chlorinated hydrocarbons. EYES: wash repeatedly with water. SKIN: flush with water, then wash with soap and water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.5 mg/m³
5.5 **Short-Term Inhalation Limits:** 2 mg/m³ for 30 min
5.6 **Toxicity by Ingestion:** Grade 4; oral LD_{50} = 40 mg/kg (rat)
5.7 **Late Toxicity:** Liver damage may develop
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** 0.02 ppm

6. FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Irritating hydrogen chloride fumes may form in fire
6.6 **Behavior in Fire:**
6.7 **Ignition Temperature:** Not pertinent
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:**
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:**
0.1 ppm/24 hr trout; 80+ bull fresh water
0.230 ppm/96 hr goldfish; 11 m fresh water
0.25 ppm/48 hr/white shrimp; 11 m/salt water
8.2 **Waterfowl Toxicity:** 2000 mg/kg
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** Bioconcentration of up to 17,600 in oysters and 8,200 in bluegills. A spill could cause potential problem with shellfish.

(continued on page 5 and 6)

NOTES

HPT	# HEPTANE

Common Synonyms
n-Heptane

Watery liquid | Colorless | Gasoline-like odor

Floats on water. Flammable vapor is produced.

[illegible] discharge of runoff. Keep people away.
Shut off ignition sources and all fire [illegible]
Stay upwind and use water spray [illegible] vapor.
Isolate and remove discharged material.
[illegible]

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemical, carbon dioxide, water spray, foam.
[illegible]

Exposure

[illegible] MEDICAL AID

VAPOR
Not irritating to eyes, nose or throat.
If inhaled, will cause coughing or difficult breathing.
[illegible]
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
If swallowed, will cause nausea or vomiting.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with a gentle stream of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

Dangerous to aquatic life in high concentrations.
Fouling to shoreline.
May be dangerous if it enters water intakes.
[illegible]

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, 1978, [illegible]

Initial isolation: [illegible] flammability
Evacuation
Dispersal of [illegible]

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** n-Heptane
3.2 **Coast Guard Compatibility Classification:** Paraffin
3.3 **Chemical Formula:** $CH_3(CH_2)_5CH_3$
3.4 **IMCO United Nations Numerical Designation:** [illegible]

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** [illegible]
4.3 **Odor:** [illegible]

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Safety glasses, [illegible]
5.2 **Symptoms Following Exposure:** INHALATION [illegible] irritation, coughing, depression, cardiac arrhythmias. ASPIRATION [illegible] pneumonia, pulmonary edema, mild cyanosis, depression. INGESTION [illegible] irritation, nausea, vomiting, abdominal pain, depression, headache.
5.3 **Treatment for Exposure:** INHALATION [illegible] oxygen. Artificial respiration if not breathing. ASPIRATION [illegible] administer oxygen. INGESTION [illegible] DO NOT induce vomiting. SKIN OR EYES [illegible] contaminated clothing and shoes. Wash skin and eyes with plenty of water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** [illegible] ppm
5.5 **Short-Term Inhalation Limits:** [illegible] ppm for 30 min
5.6 **Toxicity by Ingestion:** Grade 0 [illegible]
5.7 **Late Toxicity:** None
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating to the eyes and nose.
5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard if splashed in the eyes. May cause irritation that is more severe than vapor irritation. Prolonged or repeated skin contact may cause defatting and reddening of the skin.
5.10 **Odor Threshold:** 220 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** [illegible] F (C)
6.2 **Flammable Limits in Air:** [illegible]
6.3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide, water
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

NOTES

REVISED 1978

HTE

1-HEPTENE

Common Synonyms
Heptylene

Water's Iquid | Colorless | Gasoline-like odor

Floats on water. Flammable, irritating vapor is produced.

Stop discharge if possible. Keep people away.
Shut off ignition sources and call fire department.
Stay upwind and use water spray to "knock down" vapor.
Avoid contact with liquid and vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemical, CO2, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

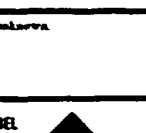
Exposure

CALL FOR MEDICAL AID.

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness or difficult breathing.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution



Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability.
Restrict access.
Evacuate area.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Heptylene

3.2 **Coast Guard Compatibility Classification:**
Olefin

3.3 **Chemical Formula:**
$CH_3(CH_2)_4CH{=}CH_2$

3.4 **IMCO United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Like gasoline

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Safety goggles or face shield; similar to gasoline.
5.2 **Symptoms Following Exposure:** High concentrations may produce slight irritation of eyes and respiratory tract; may also act as simple asphyxiant and depress anesthesia.
5.3 **Treatment for Exposure:** Remove from exposure. Administer artificial respiration if needed.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available.
5.5 **Short-Term Inhalation Limits:** Data not available.
5.6 **Toxicity by Ingestion:** Data not available.
5.7 **Late Toxicity:** Data not available.
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.
5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.
5.10 **Odor Threshold:** Data not available.

6. FIRE HAZARDS

6.1 **Flash Point:** 25°F C.C. (est.)
6.2 **Flammable Limits in Air:**
LEL = 0.9; UEL not listed
6.3 **Fire Extinguishing Agents:** Foam, dry chemical or carbon dioxide.
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent.
6.5 **Special Hazards of Combustion Products:** Not pertinent.
6.6 **Behavior in Fire:** Not pertinent.
6.7 **Ignition Temperature:** 500°F

(Continued on page 5 and 6)

NOTES

REVISED 1978

HCC — HEXACHLOROCYCLOPENTADIENE

Common Synonyms
Perchlorocyclopentadiene

Liquid Greenish yellow Harsh, unpleasant odor

Sinks in water

AVOID CONTACT WITH LIQUID AND VAPOR KEEP PEOPLE AWAY
Wear goggles self contained breathing apparatus and rubber protective clothing (including gloves)
Stop discharge if possible
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Not flammable
Poisonous gases may be produced when heated

Exposure

CALL FOR MEDICAL AID

VAPOR
POISONOUS IF INHALED
If inhaled will cause coughing or difficult breathing
If an eyes hold eyelids open and flush with plenty of water
If breathing has stopped give artificial respiration
If breathing is difficult give oxygen

LIQUID
Will burn skin and eyes.
If swallowed will cause nausea and vomiting.
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk and have victim induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do nothing except keep victim warm

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning poison, water contaminant, air contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

NOTES

H'

HEXADECYL SULFATE, SODIUM SALT

Common Synonyms			
Sodium cetyl sulfate solution Cetyl sodium sulfate	Solid paste or liquid May float or sink in water	White	Mild odor

Stop discharge if possible. Keep people away.
Isolate and remove discharge if natural.
Notify local health and pollution control agencies.

Fire	Not Flammable
Exposure	CALL FOR MEDICAL AID LIQUID OR SOLID Irritating to skin and eyes Harmful if swallowed Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES: hold eyelids open and flush with plenty of water. IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

NOTES

HAC	HEXADECYLTRIMETHYLAMMONIUM CHLORIDE

Common Synonyms
Cetyltrimethylammonium chloride solution

Liquid Clear to pale yellow. Rubbing alcohol odor

Floats or sinks in water

Stop discharge if possible. Keep people away.
Shut off ignition sources. Call fire department.
Avoid contact with liquid and vapor.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
Irritating gases may be produced when heated.
Flashback vapor along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemicals, foam or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID.

VAPOR
Irritating to eyes, nose and throat.
Harmful if inhaled.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: water contaminant.
Disperse and flush.

2. LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Cetyltrimethylammonium chloride solution

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula** $C_{16}H_{33}(CH_3)_3NCl \cdot H_2O \cdot (CH_3)_2CHOH$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Almost clear to pale yellow

4 3 **Odor:** Like rubbing alcohol

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves.

5 2 **Symptoms Following Exposure:** Ingestion may produce toxic effects. Contact with eyes or skin may cause severe damage.

5 3 **Treatment for Exposure:** INGESTION: do NOT induce vomiting; drink large quantities of fluid and call a physician immediately. EYES: flush with water for at least 15 min. and call a physician. SKIN: flush with water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion.** Grade 3. LD_{50} 250 mg/kg(rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 69°F C.C. (for isopropyl alcohol solutions only)

6 2 **Flammable Limits in Air:** 2% - 12% (isopropyl alcohol)

6 3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** Irritating fumes of hydrogen chloride may form in fires.

6 6 **Behavior in Fire:** Solvent vapors are heavier than air and may travel to a source of ignition and flash back.

6 7 **Ignition Temperature:** 750°F (isopropyl alcohol)

6 8 **Electrical Hazard** (for isopropyl alcohol): Class 1, Group D

6 9 **Burning Rate:** (isopropyl alcohol solutions) 2.3 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:**

7 3 **Stability During Transport:** Stable

NOTES

HMD — HEXAMETHYLENEDIAMINE

Common Synonyms
1,6-Hexanediamine
1,6-Diaminohexane

Solid or watery liquid | Colorless | Weak ammonia odor

Floats and mixes with water

Avoid contact with liquid. Keep people away.
Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves).
Stop discharge if possible.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible

Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves).
Extinguish with water, foam, dry chemical, or carbon dioxide.

Exposure

CALL FOR MEDICAL AID

LIQUID OR SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED.
Will burn eyes.

Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: corrosive, water contaminant.
Disperse and flush.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: corrosive, air contaminant, water contaminant
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Azacycloheptane
Hexahydroazepine, Homopiperidine

3 2 **Coast Guard Compatibility Classification:** Aliphatic amine

3 3 **Chemical Formula:**
$CH_2CH_2CH_2CH_2CH_2NH$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless to light yellow

4 3 **Odor:** Ammonia like

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained breathing apparatus, impervious gloves, chemical safety goggles, impervious apron and boots

5 2 **Symptoms Following Exposure:** Inhalation of vapor irritates respiratory tract; high concentrations may cause disturbance of the central nervous system. Ingestion causes burns of mouth and stomach. Contact with concentrated vapor may cause severe eye injury. Contact with liquid causes burns of eyes and skin.

5 3 **Treatment for Exposure:** INHALATION: remove victim to uncontaminated atmosphere, get medical attention. INGESTION: give large amount of water, do NOT induce vomiting, get medical attention if large amount was swallowed. EYES: flush with water for 15 min. and get medical attention. SKIN: flush with water, wash with soap and water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 4, oral LD_{50} = 32 mg/kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 99°F O.C.

6 2 **Flammable Limits in Air:** 1.6% - 2.3%

6 3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fire

6 6 **Behavior in Fire:** Vapor is heavier than air and may travel to a source of ignition and flash back

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:**

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

1 Celanese Chemical Company
245 Park Avenue
New York, N.Y. 10017

2 Aldrich Chemical Co.
940 W. Saint Paul Ave.
Milwaukee, Wis. 53233

NOTES

HMT — HEXAMETHYLENETETRAMINE

Common Synonyms
HEXA
Urotropin
Hexamine
Methenamine
Ammonoformaldehyde

Solid crystals or powder — White — Mild ammonia odor

Sinks and mixes with water

Avoid contact with solid
Call fire department
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with water foam dry chemical or carbon dioxide
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID
SOLID
Irritating to skin and eyes
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Aminoform
Ammonium
Hexamine
Methenamine
Urotropin
3 2 **Coast Guard Compatibility Classification** Aldehyde or amine
3 3 **Chemical Formula:** $C_6H_{12}N_4$
3 4 **IMCO United Nations Numerical Designation.** 4 1 1 3 2 5

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Solid
4 2 **Color:** White
4 3 **Odor:** Mild ammonia like

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Gloves for dusty or unventilated conditions use dust filter respirator and goggles
5 2 **Symptoms Following Exposure** Prolonged and repeated contact may cause skin irritation
5 3 **Treatment for Exposure** Wash skin or eyes thoroughly with water Call a physician
5 4 **Toxicity by Inhalation (Threshold Limit Value).** Not pertinent
5 5 **Short-Term Inhalation Limits.** Not pertinent
5 6 **Toxicity by Ingestion** Grade 2 LD$_{50}$ 0.5 to 5 g/kg (human)
5 7 **Late Toxicity** None
5 8 **Vapor (Gas) Irritant Characteristics** Vapors are not irritating to the eyes and throat
5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard If spilled on clothing and allowed to remain may cause smarting and reddening of the skin
5 10 **Odor Threshold** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point:** 482°F C C
6 2 **Flammable Limits in Air:** Not pertinent
6 3 **Fire Extinguishing Agents:** Water foam carbon dioxide dry chemical
6 4 **Fire Extinguishing Agents Not to be Used.** Not pertinent
6 5 **Special Hazards of Combustion Products.** Formaldehyde gas and ammonia may be given off when hot
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature** >700°F

NOTES

HXA	# HEXANE

Common Synonyms
n-Hexane

Watery liquid Colorless Gasoline-like odor

Floats on water. Flammable, irritating vapor is produced.

Stop discharge if possible. Keep people away.
Shut off ignition sources and call fire department.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemical, foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to nose and throat.
If inhaled, will cause coughing or dizziness.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
If swallowed, will cause nausea or vomiting.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability.
Evacuate area.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Paraffin
3 3 **Chemical Formula:** C_6H_{14} or $CH_3(CH_2)_4CH_3$
3 4 **IMCO/United Nations Numerical Designation:** 3 / 1208

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Like gasoline

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Eye protection (like gasoline)
5 2 **Symptoms Following Exposure:** INHALATION causes irritation of respiratory tract, cough, mild depression, cardiac arrhythmias. ASPIRATION causes severe lung irritation, coughing, pulmonary edema, extremities followed by depression. INGESTION causes nausea, vomiting, swelling of abdomen, headache, depression.
5 3 **Treatment for Exposure:** Call a doctor. INHALATION: maintain respiration, give oxygen if needed. ASPIRATION: enforce bed rest, give oxygen if needed. INGESTION: do NOT induce vomiting. SKIN OR EYES: wipe off, wash skin with soap and water, wash eyes with copious amounts of water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 500 ppm
5 5 **Short-Term Inhalation Limits:** 500 ppm for 30 min
5 6 **Toxicity by Ingestion:** Very slight
5 7 **Late Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating to the eyes and throat.
5 9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin.
5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** −7°F (C.C.)
6 2 **Flammable Limits in Air:** 1.2% - 7.7%
6 3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Not pertinent
6 6 **Behavior in Fire:** Vapors may explode
6 7 **Ignition Temperature:** 437°F
6 8 **Electrical Hazard:** Class I, group D
6 9 **Burning Rate:** 7.4 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** 0% (theor.) 7 days
8 4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

HXN	# HEXANOL

Common Synonyms
1-Hexanol
n-Hexyl alcohol
n-Amylcarbinol

Clear liquid | Colorless | Sweet odor

Floats on water

No discharge is permitted. Keep people away.
Call fire department.
Avoid contact with liquid.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible.
Extinguish with dry chemical, alcohol foam, carbon dioxide.
Water may be ineffective on fire.

Exposure

CALL FOR MEDICAL AID

LIQUID
Will burn eyes.
Harmful if swallowed
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Floating to shoreline.
May be dangerous if it enters water intakes.
Notify local health and pollution control agencies.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Mechanical containment
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Amyl carbinol
1-Hexanol
Hexyl alcohol
1-Hydroxyhexane

3.2 **Coast Guard Compatibility Classification:** Alcohol

3.3 **Chemical Formula:** $CH_3(CH_2)_5OH$

3.4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Sweet, mild

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical gloves, chemical goggles

5.2 **Symptoms Following Exposure:** Liquid causes eye burns and skin irritation. Breathing vapors is not expected to cause systemic illness.

5.3 **Treatment for Exposure:** In case of contact, immediately flush skin and eyes with plenty of water. Wash eyes at least 15 min and get medical care.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2 [Dog 0.5 to 5 g/kg (oral)]

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics.** Causes smarting of the skin and first degree burns on short exposure; may cause second-degree burns on long exposure

5.10 **Odor Threshold:** Data not available

(Continued on page 7-HXN)

NOTES

REVISED 1978

HXE — 1-HEXENE

Common Synonyms
alpha-Hexene
Hexylene

Watery liquid | Colorless | Mild pleasant odor

Floats on water. Flammable, irritating vapor is produced

Stop discharge if possible. Keep people away.
Shut off ignition sources and call fire department.
Avoid contact with liquid and vapor.
Stay upwind and use water spray to "knock down" vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemical, foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

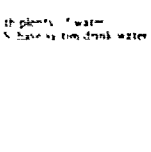
Exposure

CALL FOR MEDICAL AID

VAPOR
If inhaled, will cause dizziness, difficult breathing, or loss of consciousness.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have him drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution



Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-4

Issue warning: high flammability.
Evacuate area.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** alpha Hexene
3.2 **Coast Guard Compatibility Classification:** Olefin
3.3 **Chemical Formula:** $CH_3(CH_2)_3CH{=}CH_2$

NOTES

REVISED 1978

HXG HEXYLENE GLYCOL

Common Synonyms
2-Methyl-
2,4-pentanediol

Oily liquid | Colorless | Mild sweet odor

Floats and mixes slowly with water

Stop discharge if possible
Call fire department
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with dry chemical, alcohol foam, or carbon dioxide
Water may be ineffective on fire
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin and eyes
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability
Corrosive
Restrict access
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** None commonly used
3.2 **Coast Guard Compatibility Classification:** Glycol
3.3 **Chemical Formula:** $C_6H_{14}O_2$
3.4 **IMCO United Nations Numerical Designation:** NO 2080

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Ammonia like

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Ammonia type gas mask, self-contained breathing apparatus (pressure-demand), rubber gloves, clothes, and open-type safety shower must be available

5.2 **Symptoms Following Exposure:** Vapors cause itching, swelling, and blistering of eyelids, nose, and throat; symptoms may be delayed for several hours. Temporary blindness may occur. Liquid causes a caustic burn if not washed off at once. Ingestion or absorption through skin causes nausea, dizziness, headache. Severe exposure may cause death

5.3 **Treatment for Exposure:** Call a doctor at once. INHALATION: remove to fresh air; observe for development of delayed symptoms. Keep quiet. INGESTION: do NOT induce vomiting; give egg whites or other emollient. SKIN OR EYES: wash with large amounts of water for at least 15 min

5.4 **Toxicity by Inhalation (Threshold Limit Value):** ppm

5.5 **Short-Term Inhalation Limits:** ppm for minutes

5.6 **Toxicity by Ingestion:** Grade 1 LD$_{50}$ 500 to 5000 mg/kg (rats)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations

5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact. Very irritating to the eyes

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 200 F (93 C)
6.2 **Flammable Limits in Air:** 1.2% (Vol.)
6.3 **Fire Extinguishing Agents:** Water, alcohol foam, carbon dioxide, or dry chemical
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Irritating fumes generated when heated
6.6 **Behavior in Fire:** May explode if heated
6.7 **Ignition Temperature:** May ignite spontaneously (glass)
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** 1 mm/min (est.)

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** Can catalyze when in contact with porous materials such as wood, asbestos, cloth, earth, and rusty metals
7.3 **Stability During Transport:** Stable at ordinary temperatures. When heated can decompose to nitrogen and ammonia gases, but decomposition is not hazardous unless material is confined
7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water. Neutralize the resulting solution with calcium hypochlorite (HTH), with peroxide, or hydrazine
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 146 ppm/48 hr/rainbow trout/dist. fresh water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** 100%
8.4 **Food Chain Concentration Potential:** None

13.13 **Heat of Combustion:** −8345 Btu/lb = −4636 cal/g = −194.1 × 10³ J/kg
13.14 **Heat of Decomposition:** Not pertinent
13.15 **Heat of Solution:** −218 Btu/lb = −121 cal/g = −5.07 × 10³ J/kg
13.16 **Heat of Polymerization:** Not pertinent

(continued on page 5 and 6)

NOTES

REVISED 1978

HDZ HYDRAZINE

Common Synonyms

Watery liquid | Colorless | Ammonia odor

Mixes with water. Poisonous, flammable vapor is produced. Freezing point is 35° F.

AVOID CONTACT WITH LIQUID AND VAPOR. Keep people away.
Wear chemical protective suit with self-contained breathing apparatus.
Stop discharge if possible. Call fire department.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Wear chemical protective suit with self-contained breathing apparatus.
Combat fires from safe distance or protected location.
Flood discharge area with water.
Extinguish with dry chemical, alcohol foam, or carbon dioxide.
Cool exposed containers with water.
Continue cooling after fire has been extinguished.

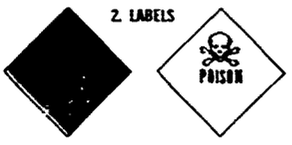
Exposure

CALL FOR MEDICAL AID

VAPOR
POISONOUS IF INHALED OR IF SKIN IS EXPOSED.
Irritating to eyes.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn eyes.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability, corrosive.
Restrict access.
Chemical and physical treatment.

2. LABELS

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** N_2H_4
3.4 **IMCO United Nations Numerical Designation:** UN 2030

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Ammonia-like

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Ammonia-type gas mask, self-contained breathing apparatus, plastic-coated or rubber gloves, clothes, and apron; safety shower must be available.
5.2 **Symptoms Following Exposure:** Vapors cause itching, swelling, and blistering of eyelids; nose and throat symptoms may be delayed for several hours. Temporary blindness may occur. Liquid causes a caustic-like burn if not washed off at once. Ingestion or absorption through skin causes nausea, dizziness, headache. Severe exposure may cause death.
5.3 **Treatment for Exposure:** Call a doctor at once. INHALATION: remove to fresh air; observe for development of delayed symptoms. Keep quiet. INGESTION: do NOT induce vomiting; give egg whites or other emollients. SKIN OR EYES: wash with large amounts of water for at least 15 min.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 1 ppm
5.5 **Short-Term Inhalation Limits:** 1 ppm for 30 min
5.6 **Toxicity by Ingestion:** Grade 3. LD_{50} to 500 mg/kg (rat)
5.7 **Late Toxicity:** Causes lung cancer in mice
5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating such that personnel will not usually tolerate moderate to high vapor concentrations.
5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact; very injurious to the eyes.
5.10 **Odor Threshold:** 3 - 4 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 100°F (38°C)
6.2 **Flammable Limits in Air:** 4.7% - 100%
6.3 **Fire Extinguishing Agents:** Water, alcohol foam, carbon dioxide, or dry chemical
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Toxic vapors generated when heated
6.6 **Behavior in Fire:** May explode; stressed
6.7 **Ignition Temperature:** May ignite spontaneously [illegible]
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** [illegible]

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** Can catalyze when in contact with porous materials such as wood, asbestos, cloth, earth, and rust; metal
7.3 **Stability During Transport:** Stable at ordinary temperatures. When heated can decompose to nitrogen and ammonia gases, but decomposition not hazardous unless materials are confined
7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water. Neutralize the resulting solution with calcium hypochlorite (HTH): 1 lb per lb of hydrazine
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 1.6 ppm/96 hr (rainbow trout, dilute fresh water)
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** 100%
8.4 **Food Chain Concentration Potential:** None

Continued on page 3

NOTES

REVISED 1978

HCL — HYDROCHLORIC ACID

Common Synonyms			
Muriatic Acid	Watery liquid	Colorless	Sharp, irritating odor

Sinks and mixes with water. Irritating vapor is produced.

AVOID CONTACT WITH LIQUID AND VAPOR. Keep people away.
Wear chemical protective suit with self-contained breathing apparatus.
Stop discharge if possible.
Stay upwind and use water spray to "knock down" vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable.
Flammable gas may be produced on contact with metals.
Wear chemical protective suit with self-contained breathing apparatus.

Exposure

CALL FOR MEDICAL AID.

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause coughing or difficult breathing.
Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with copious quantities of water.
IF SWALLOWED and victim is CONSCIOUS, have victim dilute acid by drinking water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Neutralize with lime, soda ash or caustic soda.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Issue warning - corrosive
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Muriatic acid
3.2 **Coast Guard Compatibility Classification:** Non-oxidizing mineral acid
3.3 **Chemical Formula:** HCl · H_2O
3.4 **IMCO United Nations Numerical Designation:** 1.0 1789

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless to light yellow
4.3 **Odor:** Pungent, sharp, pungent irritating

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing equipment; air line mask or industrial gas mask (type gas mask, rubber or rubber coated gloves, apron, coat, overalls, shoes).

5.2 **Symptoms Following Exposure:** Inhalation of fumes results in coughing and choking sensation and irritation of nose and lungs. Liquid causes burns.

5.3 **Treatment for Exposure:** INHALATION: remove person to fresh air; keep him warm and quiet and get medical attention immediately; start artificial respiration if breathing stops. INGESTION: have person drink water or milk; do NOT induce vomiting. EYES: immediately flush with plenty of water for at least 5 min. and get medical attention; continue flushing; flush another 5 min. if physician does not arrive promptly. SKIN: immediately flush with water; removing contaminated clothing; get medical attention promptly; use soap and wash area for at least 15 min.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm

5.5 **Short-Term Inhalation Limits:** 5 ppm for 5 min.

5.6 **Toxicity by Ingestion:** Data not available.

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Liquid is severe skin irritant; may cause pain and second degree burns after a few minutes' contact.

5.10 **Odor Threshold:** 1.1 ppm

6. FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Toxic and irritating vapors are generated when heated.
6.6 **Behavior in Fire:** Not pertinent
6.7 **Ignition Temperature:** Not flammable
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Non-flammable

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** Corrosive to most metals with evolution of hydrogen gas which may form explosive mixtures with air.
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water; apply powdered limestone, slaked lime, soda ash or sodium bicarbonate.
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 282 ppm/96 hr mosquito fish; 11 mg/l fresh water; 100-330 ppm/48 hr shrimp; 10 mg/l salt water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** None
8.4 **Food Chain Concentration Potential:** None

IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Issue warning: corrosive.
Restrict access.
Disperse and flush.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms.
3.2 **Coast Guard Compatibility Classification:** Non-oxidizing mineral acid
3.3 **Chemical Formula:** HF H_2O
3.4 **IMCO United Nations Numerical Designation:** 8.0 1790

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless to slightly yellow
4.3 **Odor:** Pungent, irritating

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Proper protective clothing must be worn that encompasses the body, including the face. All persons handling this product must be familiar with and must observe all the precautions contained in the Manufacturing Chemists' Association Chemical Safety Data Sheet SD-25. A shower and an eye wash must be available.
5.2 **Symptoms Following Exposure:** Severe and painful burns of eyes and skin.
5.3 **Treatment for Exposure:** INGESTION: have victim drink water or milk; do NOT induce vomiting. SKIN: if victim has come in contact with liquid or vapor, put him in a shower and call a physician. EYES: flush with water for at least 15 min. and consult physician.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 3 ppm
5.5 **Short-Term Inhalation Limits:** 50 ppm for 60 min.
5.6 **Toxicity by Ingestion:** Data not available.
5.7 **Late Toxicity:** Data not available.
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eye and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.
5.9 **Liquid or Solid Irritant Characteristics:** Severe tissue irritant. Causes second- and third-degree burns on short contact; very dangerous to the eyes.
5.10 **Odor Threshold:** Data not available.

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to Be Used:** Not pertinent

13 PHYSICAL AND CHEMICAL PROPERTIES*

13.1 **Physical State at 15°C and 1 atm:** Liquid
13.2 **Molecular Weight:** None
13.3 **Boiling Point at 1 atm:** 67 F = 19 C = 292 K
13.4 **Freezing Point:** None
13.5 **Critical Temperature:** None
13.6 **Critical Pressure:** None
13.7 **Specific Gravity:** 1.15 at 20 C (liquid)
13.8 **Liquid Surface Tension:** None
13.9 **Liquid-Water Interfacial Tension:** Not pertinent
13.10 **Vapor (Gas) Specific Gravity:** Not pertinent
13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent
13.12 **Latent Heat of Vaporization:** 649 Btu lb = 360 cal/g = 15.1 × 10^3 J/kg
13.13 **Heat of Combustion:** None
13.14 **Heat of Decomposition:** None
13.15 **Heat of Solution:** -66.6 Btu lb = 37.0 cal/g = -1.55 × 10^3 J kg
13.16 **Heat of Polymerization:** None

*Physical properties are for anhydrous HF

(continued on page 5)

NOTES

REVISED 1978

HBR — HYDROGEN BROMIDE

Common Synonyms
Hydrobromic Acid anhydrous

Liquefied compressed gas | Colorless | Irritating odor

Sinks and mixes with water | Poisonous visible vapor cloud is produced

AVOID CONTACT WITH LIQUID AND VAPOR. Keep people away.
Wear chemical protective suit with self-contained breathing apparatus.
Stop discharge if possible.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable
Flammable gas may be produced on contact with metals
Use chemical protective clothing with self-contained breathing apparatus.

Exposure

CALL FOR MEDICAL AID
VAPOR
POISONOUS IF INHALED
Irritating to eyes, nose and throat
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.
LIQUID
POISONOUS IF SWALLOWED
Will burn skin and eyes
Will cause frostbite
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.
DO NOT RUB AFFECTED AREAS.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison, corrosive air contaminant
Restrict access
Evacuate area
*Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Hydrobromic acid anhydrous, Hydrogen bromide anhydrous
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** HBr
3 4 **IMCO/United Nations Numerical Designation:** 2/1048

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Compressed liquefied gas
4 2 **Color:** Colorless
4 3 **Odor:** Sharp pungent irritating

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Full face mask and acid gas canister, self contained breathing apparatus, chemical goggles, rubber apron and gloves, acid-proof clothing, safety shower
5 2 **Symptoms Following Exposure:** Inhalation causes severe irritation of nose and upper respiratory tract, lung injury. Ingestion causes burns of mouth and stomach. Contact with eyes causes severe irritation and burns. Contact with skin causes irritation and burns.
5 3 **Treatment for Exposure:** *Get medical attention after all overexposures to this chemical.* INHALATION: move victim to fresh air and keep him warm and quiet; if a qualified person is available to give oxygen, such treatment may be helpful. INGESTION: give large amounts of water or milk; do NOT induce vomiting. EYES: flush with water for at least 15 min. SKIN: flush with water; treat acid burns.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 3 ppm
5 5 **Short-Term Inhalation Limits.** 5 ppm for 5 min
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics.** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents.** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products.** Not pertinent
6 6 **Behavior in Fire:** Pressurized container may explode and release toxic, irritating vapor
6 7 **Ignition Temperature:** Not pertinent
6 8 **Electrical Hazard.** Not pertinent
6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Moderate reaction with evolution of heat
7 2 **Reactivity with Common Materials:** Rapidly absorbs moisture forming hydrobromic acid. Highly corrosive to most metals with evolution of flammable hydrogen gas
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Flush with water, apply powdered limestone, slaked lime, soda ash or sodium bicarbonate
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 10–100 ppm/96 hr */TL$_m$/*
*Species and water type not specified
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD).** None
8 4 **Food Chain Concentration Potential:** None

13 13 **Heat of Combustion:** Not pertinent
13 14 **Heat of Decomposition:** Not pertinent
13 15 **Heat of Solution:** 445 Btu/lb = 247 cal/g = 10.3 × 10^5 J/kg
13 16 **Heat of Polymerization.** Not pertinent

(Continued on pages 5 and 6)

NOTES

HDC — HYDROGEN CHLORIDE

Common Synonyms
Hydrochloric Acid, anhydrous

Liquefied compressed gas — Colorless to slightly yellow — Irritating odor

Sinks and mixes with water. Poisonous visible vapor cloud is produced.

AVOID CONTACT WITH LIQUID AND VAPOR. Keep people away.
Wear chemical protective suit with self-contained breathing apparatus.
Stop discharge if possible.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable.
Flammable gas may be produced on contact with metals.
Wear chemical protective suit with self-contained breathing apparatus.

Exposure

CALL FOR MEDICAL AID.

VAPOR
POISONOUS IF INHALED
Irritating to eyes, nose and throat.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
POISONOUS IF SWALLOWED
Will burn skin and eyes.
Will cause frostbite.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.
DO NOT RUB AFFECTED AREAS.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: poison, corrosive, air contaminant.
Restrict access.
Evacuate area.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Hydrochloric acid, anhydrous
3 2 **Coast Guard Compatibility Classification:** Inorganic acid
3 3 **Chemical Formula:** HCl
3 4 **IMCO/United Nations Numerical Designation:** 2.0/1050

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Compressed liquefied gas
4 2 **Color:** Colorless to slightly yellow
4 3 **Odor:** Sharp pungent irritating

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Full face mask and acid gas canister, self contained breathing apparatus, chemical goggles, rubber apron and gloves, acid-proof clothing, safety shower.
5 2 **Symptoms Following Exposure:** Severely irritating to nose and upper respiratory tract, lung injury.
5 3 **Treatment for Exposure:** INHALATION: immediately remove patient to fresh air, keep him warm and quiet, and call a physician immediately; if a qualified person is available to give oxygen, such treatment may be helpful. INGESTION: have victim drink water or milk; do NOT induce vomiting. EYES OR SKIN: immediately flush with plenty of water for at least 15 min; for eyes, get medical attention promptly; air contaminated clothing and wash before reuse.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm
5 5 **Short-Term Inhalation Limits:** 5 ppm for 5 min
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eye and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.
5 9 **Liquid or Solid Irritant Characteristics:** Fairly severe skin irritant; may cause pain and second degree burns after a few minutes' contact.
5 10 **Odor Threshold:** 1-5 ppm

6. FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable

NOTES

REVISED 1978

HCN — HYDROGEN CYANIDE

Common Synonyms
Hydrocyanic acid
Prussic acid

Watery liquid, or gas — Colorless — Bitter almond odor

Sinks and mixes with water. Poisonous, flammable vapor is produced and rises. Boiling point is 78° F

AVOID CONTACT WITH LIQUID AND VAPOR. EVACUATE AREA.
WEAR CHEMICAL PROTECTIVE SUIT WITH SELF-CONTAINED BREATHING APPARATUS.
Stop discharge if possible. Call fire department.
Shut off ignition sources.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

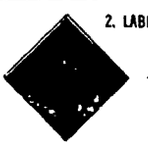
Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
WEAR CHEMICAL PROTECTIVE SUIT WITH SELF-CONTAINED BREATHING APPARATUS.
Stop discharge if possible.
Cool exposed containers and protect men effecting shutoff with water.
Let fire burn.

Exposure

CALL FOR MEDICAL AID
VAPOR
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
Irritating to eyes.
Move to fresh air.
If breathing has stopped, give artificial respiration (but NOT mouth to mouth).
If breathing is difficult, give oxygen.
LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Irritating to eyes.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability, water contaminant
Restrict access.
Evacuate area.

2. LABELS

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Hydrocyanic acid, Prussic acid
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** HCN
3.4 **IMCO/United Nations Numerical Designation:** 2.0/1051

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless to bluish white
4.3 **Odor:** Characteristic sweetish, like almond

5 HEALTH HAZARDS

CAUTION: Class A poison; a fatal dose can be caused by ingestion, inhalation, or absorption of liquid or vapor through skin, particularly eyes, mucous membranes, and feet.

5.1 **Personal Protective Equipment:** Escape purposes only: air escape mask with 5-minute air cylinder. Work purposes: vapor proof emergency suit or vinyl coated coverall, plus air mask with clear view facepiece, speaking diaphragm, demand regulator, and 30-minute air cylinder. Rubber gloves, chemical safety goggles, quick opening safety shower.

5.2 **Symptoms Following Exposure:** Irritation of throat, perspiration, difficult breathing, reddening of eyes, salivation, nausea, headache, weakness of arms and legs, giddiness, followed by collapse and convulsions.

5.3 **Treatment for Exposure:** Call a doctor. If breathing has stopped, give artificial respiration until doctor arrives. INHALATION: remove patient to fresh air. SKIN CONTACT: remove contaminated clothing and wash skin thoroughly with copious quantities of water and soap. EYE CONTACT: hold eyelids apart and wash eye with continuous gentle stream of water for at least 15 min.
If patient is unconscious, administer amyl nitrite by crushing a pearl (ampule) in a cloth and holding this under patient's nose for 15 seconds in every minute. Do not interrupt artificial respiration. Replace amyl nitrite pearl when its strength is spent. Continue treatment until patient's condition improves or doctor arrives.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 10 ppm
5.5 **Short-Term Inhalation Limits:** 20 ppm for 30 min
5.6 **Toxicity by Ingestion:** Grade 4; Probably less than 50 mg/kg

(Continued on page 4)

6 FIRE HAZARDS

6.1 **Flash Point.** 0 F C.C.
6.2 **Flammable Limits in Air:** 5.6% - 40.0%
6.3 **Fire Extinguishing Agents:** Stop flow of gas.
6.4 **Fire Extinguishing Agents Not to be Used:** None.
6.5 **Special Hazards of Combustion Products:** Extremely toxic vapors are generated even at ordinary temperatures.
6.6 **Behavior in Fire.** Containers may explode with ignition of contents.
6.7 **Ignition Temperature:** 1000°F
6.8 **Electrical Hazard:** Data not available.
6.9 **Burning Rate:** 1.5 mm/min.

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Dissolves with a moderate reaction.
7.2 **Reactivity with Common Materials:** None.
7.3 **Stability During Transport.** May become unstable and subject to explosion if stored for extended time or exposed to high temp. and pressure.
7.4 **Neutralizing Agents for Acids and Caustics:** The weak acidity can be neutralized by slaked lime, but this does not destroy the poisonous property.
7.5 **Polymerization.** Not pertinent.
7.6 **Inhibitor of Polymerization:** Not pertinent.

8. WATER POLLUTION

8.1 **Aquatic Toxicity:**
0.16 ppm/72 hr/young bass/TLm/fresh water
0.069 ppm/24 hr/pin perch/TLm/salt water
8.2 **Waterfowl Toxicity:** Data not available.
8.3 **Biological Oxygen Demand (BOD):** Data not available.
8.4 **Food Chain Concentration Potential.** None.

5.10 **Odor Threshold:** 1 mg/m³

REVISED 1978

HFX — HYDROGEN FLUORIDE

Common Synonyms
Hydrofluoric acid anhydrous

Liquid | Colorless | Sharp irritating odor

Sinks and mixes with water. Poisonous vapor is produced and slowly rises. Boiling point is 67° F

AVOID CONTACT WITH LIQUID AND VAPOR. Keep people away.
Wear chemical protective suit including self-contained breathing apparatus.
Stop discharge if possible.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable.
Flammable gas may be produced on contact with metals.
Wear chemical protective suit including self-contained breathing apparatus.

Exposure

CALL FOR MEDICAL AID

VAPOR
POISONOUS IF INHALED
Irritating to eyes, nose and throat
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
POISONOUS IF SWALLOWED
Will burn skin and eyes
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison, corrosive.
Restrict access.
Evacuate area.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Hydrofluoric acid, anhydrous
3.2 **Coast Guard Compatibility Classification:** Inorganic acid
3.3 **Chemical Formula:** HF
3.4 **IMCO/United Nations Numerical Designation:** 2.0/1052

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Pungent, irritating

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Acid resistant hat, safety goggles, face shield, jacket, overalls, gauntlet type gloves, and boots. The goggles and face shield must have plastic lenses. There must be a shower and an eye wash. Observe all precautions contained in the Manufacturing Chemists' Association Chemical Safety Data Sheet SD-25.

5.2 **Symptoms Following Exposure:** Serious and painful burns of eyes, skin and respiratory tract, pulmonary edema.

5.3 **Treatment for Exposure:** INGESTION: have victim drink water or milk, do NOT induce vomiting. SKIN: flush with water, consult physician. EYES: flush with water for at least 15 min., consult physician.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 3 ppm

5.5 **Short-Term Inhalation Limits.** 4 ppm for 15 min.

5.6 **Toxicity by Ingestion:** Oral LDL_0 = 80 mg/kg (guinea pig)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eye and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact; very injurious to the eyes.

5.10 **Odor Threshold:** 0.03 mg/m³

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used.** Not pertinent
6.5 **Special Hazards of Combustion Products:** Toxic and irritating vapors are generated when heated
6.6 **Behavior in Fire:** Not pertinent
6.7 **Ignition Temperature:** Not flammable
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not flammable

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Dissolves with liberation of heat
7.2 **Reactivity with Common Materials:** Will attack glass, concrete and certain metals, especially those containing silica, such as cast iron. Will attack natural rubber, leather, and many organic materials. May generate flammable hydrogen gas in contact with some metals.
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics.** Flush with water, apply powdered limestone, slaked lime, soda ash, or sodium bicarbonate.
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 60 ppm * fish lethal fresh water
*Time period not specified
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD).** None
8.4 **Food Chain Concentration Potential:** None

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid
13.2 **Molecular Weight.** 20.01
13.3 **Boiling Point at 1 atm.** 67.1°F = 19.5°C = 292.7°K
13.4 **Freezing Point:** −134°F = −92.2°C = 181.0°K
13.5 **Critical Temperature:** 447°F = 230.6°C = 503.8°K
13.6 **Critical Pressure:** 1400 psia = 94 atm = 9.5 MN/m²
13.7 **Specific Gravity:** 0.992 at 19°C (liquid)
13.8 **Liquid Surface Tension.** Not pertinent
13.9 **Liquid-Water Interfacial Tension:** Not pertinent
13.10 **Vapor (Gas) Specific Gravity:** 0.7
13.11 **Ratio of Specific Heats of Vapor (Gas)** 1.369
13.12 **Latent Heat of Vaporization:** 145 Btu/lb = 80.5 cal/g = 3.37 × 10⁵ J/kg
13.13 **Heat of Combustion.** Not pertinent
13.14 **Heat of Decomposition:** Not pertinent
13.15 **Heat of Solution** −1322 Btu/lb = −734.6 cal/g = −30.76 × 10⁵ J/kg
13.16 **Heat of Polymerization.** Not pertinent

Continued on next card.

NOTES

REVISED 1978

HXX HYDROGEN, LIQUEFIED

Common Synonyms

Liquid hydrogen

Liquefied compressed gas Colorless Odorless

Floats and boils on water Flammable visible vapor cloud is produced

Shut off ignition sources Call fire department
Avoid contact with liquid Keep people away
Stop discharge if possible
Stay upwind Use water spray to knock down vapor

Fire

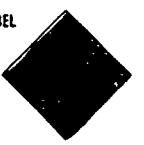
FLAMMABLE
Flame is almost invisible
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Evacuate surrounding area
Stop flow of gas if possible
Cool exposed containers and protect men effecting shutoff with water

Exposure

VAPOR
If inhaled in high concentrations will cause difficult breathing or loss of consciousness
Move victim to fresh air
If breathing has stopped give artificial respiration

LIQUID
Will cause frostbite
Flush affected areas with plenty of water
DO NOT RUB AFFECTED AREAS

Water Pollution



Not harmful to aquatic life

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning high flammability
Restrict access
Evacuate area

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Liquid hydrogen
para Hydrogen

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** H

3 4 **IMCO/United Nations Numerical Designation** 2 1966

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Safety goggles or face shield insulated gloves and long sleeves cuffless trousers worn outside boots or over high top shoes to shed spilled liquid self-contained breathing apparatus containing air (never use oxygen)

5 2 **Symptoms Following Exposure:** If atmosphere does not contain enough oxygen inhalation can cause dizziness unconsciousness or even death Contact of liquid with eyes or skin causes freezing similar to a burn

5 3 **Treatment for Exposure.** The only effect of exposure to liquid hydrogen is that caused by its unusually low temperature and its action as a simple asphyxiant INHALATION if victim is unconscious (due to oxygen deficiency) move him to fresh air and apply resuscitation methods call physician EYES treat for frostbite SKIN treat for frostbite, soak in lukewarm water get medical attention if burn is severe

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Gas is non poisonous but can act as a simple asphyxiant

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion.** Not pertinent (gas with low boiling point)

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics.** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point.** Not pertinent

6 2 **Flammable Limits in Air:** 4.0% - 7.0%

6 3 **Fire Extinguishing Agents:** Let fire burn shut off gas supply

6 4 **Fire Extinguishing Agents Not to be Used:** Carbon dioxide

6 5 **Special Hazards of Combustion Products.** Not pertinent

6 6 **Behavior in Fire:** Burns with an almost invisible flame

6 7 **Ignition Temperature.** 1,065°F

6 8 **Electrical Hazard:** Class I Group B

6 9 **Burning Rate:** 9.9 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Ambient temperature of water will cause vigorous vaporization of hydrogen

7 2 **Reactivity with Common Materials:** No chemical reaction, but low temperature causes most materials to become very brittle

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** None

8 2 **Waterfowl Toxicity:** None

8 3 **Biological Oxygen Demand (BOD)** None

8 4 **Food Chain Concentration Potential.** None

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Gas

13 2 **Molecular Weight:** 2.0

13 3 **Boiling Point at 1 atm:** −422°F = −253°C = 20°K

13 4 **Freezing Point:** −435°F = −259°C = 14°K

13 5 **Critical Temperature:** −400°F = −240°C = 33°K

13 6 **Critical Pressure:** 188 psia = 12.8 atm = 1.30 MN/m

13 7 **Specific Gravity:** 0.071 at −253°C (liquid)

13 8 **Liquid Surface Tension** 2.3 dynes/cm = 0.023 N/m at −255°C

13 9 **Liquid-Water Interfacial Tension.** Not pertinent

13 10 **Vapor (Gas) Specific Gravity:** 0.067

13 11 **Ratio of Specific Heats of Vapor (Gas).** 1.3962

13 12 **Latent Heat of Vaporization:** 190.5 Btu/lb = 105.8 cal/g = 4.427 × 10⁵ J/kg

13 13 **Heat of Combustion:** −9,080 Btu/lb = −2,523 cal/g = −1164.1 × 10⁵ J/kg

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution:** Not pertinent

13 16 **Heat of Polymerization.** Not pertinent

(Continued on pages 5 and 6)

NOTES

HPO HYDROGEN PEROXIDE

Common Synonyms
Peroxide
Albone
Superoxol

Watery liquid | Colorless | Slightly sharp odor

Sinks and mixes with water | Irritating vapor is produced

AVOID CONTACT WITH LIQUID AND VAPOR. Keep people away.
Wear chemical protective suit including self-contained breathing apparatus.
Stop discharge if possible. Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable.
May cause fire and explode on contact with combustibles and metals.
Containers may explode when heated.
Wear chemical protective suit including self-contained breathing apparatus.
Flood discharge area with water.

Exposure

CALL FOR MEDICAL AID.
VAPOR
Irritating to eyes, nose and throat.
Harmful if inhaled.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.
LIQUID
Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Toxic warning: corrosive.
Restrict access.
Disperse and flush.

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Peroxide, Albone, Superoxol
3 2 **Coast Guard Compatibility Classification.** Not applicable
3 3 **Chemical Formula:** H_2O_2
3 4 **IMCO United Nations Numerical Designation:** 8 1 2015

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Slightly sharp

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Protective garments: both outer and inner made of a woven polyester fabric or of modacrylic or polyvinylidene fabrics impermeable apron made of polyvinyl chloride or polyethylene film; neoprene gloves and boots; goggles.
5 2 **Symptoms Following Exposure:** Although solutions and vapors are nontoxic, they are irritating. Vapor causes discomfort of eyes and nose. Moderately concentrated liquid can cause whitening of the skin and severe stinging sensation. In most cases the stinging subsides quickly and the skin gradually returns to normal without any damage. Highly concentrated liquid can cause blistering of skin if left on for any length of time; can also cause eye damage.
5 3 **Treatment for Exposure:** Contact should be avoided, but immediate flushing with water will prevent any reaction in case of accidental contact.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 1 ppm
5 5 **Short-Term Inhalation Limits:** Data not available.
5 6 **Toxicity by Ingestion:** Data not available.
5 7 **Late Toxicity:** None.
5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.
5 9 **Liquid or Solid Irritant Characteristics:** Fairly severe skin irritant. May cause pain and second degree burns after a few minutes' contact.
5 10 **Odor Threshold:** Not pertinent.

6 FIRE HAZARDS

6 1 **Flash Point.** Not flammable but may cause fire and react violently on contact with combustibles and metals.
6 2 **Flammable Limits in Air:** Not flammable.
6 3 **Fire Extinguishing Agents:** Water for fires resulting from spillage.
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent.
6 5 **Special Hazards of Combustion Products:** Not pertinent.
6 6 **Behavior in Fire:** May explode in fire.
6 7 **Ignition Temperature:** Not flammable.
6 8 **Electrical Hazard:** Not pertinent.
6 9 **Burning Rate:** Not flammable.

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction.
7 2 **Reactivity with Common Materials:** Dirt and many metals cause a rapid decomposition with liberation of oxygen gas; occurs particularly if concentration is above 40%.
7 3 **Stability During Transport:** Pure grades are quite stable, but contamination with metals or dirt can cause rapid or violent decomposition.
7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent.
7 5 **Polymerization:** Not pertinent.
7 6 **Inhibitor of Polymerization:** Not pertinent.

8 WATER POLLUTION

9 1 **Aquatic Toxicity:** > 40 ppm *(fingerling trout, fresh water; fingerling trout, salt water)
* Time period not specified
9 2 **Waterfowl Toxicity:** Data not available.
8 3 **Biological Oxygen Demand (BOD):** None.
8 4 **Food Chain Concentration Potential:** None.

NOTES

REVISED 1978

HDS HYDROGEN SULFIDE

Common Synonyms:
Sulphuretted hydrogen

Liquefied compressed gas Colorless Rotten egg odor, but odorless at poisonous concentrations

Sinks and boils in water. Poisonous, flammable, visible vapor cloud is produced

[illegible] with gas. Keep people away.
Wear goggles and self-contained breathing apparatus.
Shut off gas. Let vapor burn.
Stop flow of gas.
[illegible]
[illegible]
Notify local health and pollution control agencies.

Fire

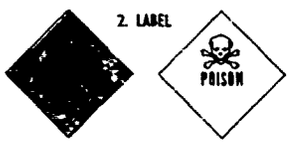
FLAMMABLE.
Flashback along vapor trail may occur.
May explode if ignited in an enclosed area.
Wear goggles and self-contained breathing apparatus.
Stop flow of gas if possible.
[illegible]
[illegible]

Exposure

ALL FOR MEDICAL AID

VAPOR
POISONOUS IF INHALED
Irritating to eyes
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.
IN EYES: Hold eyelids apart and flush with plenty of water.

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
[illegible]
[illegible]

1. GESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability, poison
Restrict access
Evacuate area

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Sulfuretted hydrogen
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** H_2S
3.4 **IMCO/United Nations Numerical Designation:** 2.0 1053

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid under pressure
4.2 **Color:** Colorless
4.3 **Odor:** Offensive odor like rotten eggs

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber framed goggles, approved respirators, protective
5.2 **Symptoms Following Exposure:** Irritation of eyes, nose and throat. If high concentrations are inhaled, hyperpnea and respiratory paralysis may occur. Very high concentrations may produce pulmonary edema.
5.3 **Treatment for Exposure:** INHALATION: remove victim from exposure, if breathing has stopped, give artificial respiration, administer oxygen if needed, consult physician. EYES: wash with plenty of water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 10 ppm
5.5 **Short-Term Inhalation Limits:** 200 ppm for 10 min., 100 ppm for 30 min., and 50 ppm for 60 min.
5.6 **Toxicity by Ingestion:** Hydrogen sulfide is present as a gas at room temperature, so ingestion not likely
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations.
5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.
5.10 **Odor Threshold:** 0.0047 ppm

6. FIRE HAZARDS

6.1 **Flash Point:** Flammable gas
6.2 **Flammable Limits in Air:** 4.3% - 45%
6.3 **Fire Extinguishing Agents:** Stop flow of gas
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Toxic gases are generated in fires
6.6 **Behavior in Fire:** Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back
6.7 **Ignition Temperature:** 500°F
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** 2.3 mm/min (Liquid)

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction

NOTES

REVISED 1978

HDQ	# HYDROQUINONE

Common Synonyms
1,4-Benzenediol
p-Dihydroxybenzene
Hydroquinol
Pyrogentisic acid
Quinol

Solid White light tan to gray

Sinks and mixes with water

Avoid contact with solid and dust Keep people away
Shut off ignition sources Call fire department
Stop discharge if possible
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
Dust cloud may explode if ignited in an enclosed area
Extinguish with water dry chemicals foam or carbon dioxide

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes nose and throat
Harmful if inhaled
If in eyes hold eyelids open and flush with plenty of water
If breathing has stopped give artificial respiration
If breathing is difficult give oxygen

SOLID
Will burn eyes
Irritating to eyes
If swallowed will cause headache, dizziness, nausea, vomiting or loss of consciousness

Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk and have victim induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do nothing except keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1,4-Benzenediol, p-Dihydroxybenzene Hydroquinol, Pyrogentisic acid Quinol

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula.** $1,4\text{-}C_6H_4(OH)_2$

NOTES

HAI	2-HYDROXYETHYL ACRYLATE, INHIBITED

Common Synonyms

beta-hydroxyethyl acrylate
2-Hydroxyethyl 2-propenoate

Liquid | Colorless | Sweet pleasant odor

Mixes with water

[illegible]

Fire

Combustible
Containers may explode in fire

[illegible]

Exposure

CAUTION! Medical and

LIQUID
Will burn skin and eyes
Harmful if swallowed

Remove contaminated clothing and shoes
FLUSH affected area with plenty of water
IF IN EYES, [illegible] and flush with plenty of water
IF SWALLOWED [illegible] CONSULT a poison control center
DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning - water contaminant
Restrict access
Disperse and flush

2. LABELS

No label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** beta Hydroxyethyl acrylate
2 Hydroxyethyl 2 propenoate

3 2 **Coast Guard Compatibility Classification:** Monomers (14)

3 3 **Chemical Formula:**
$CH_2{=}CHCOOCH_2CH_2OH$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Sweet, pleasant

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves

5 2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat. Contact with liquid irritates eyes and skin

5 3 **Treatment for Exposure:** INHALATION: remove victim from exposure, support respiration, call physician if needed. EYES: wash with large amounts of water for 15 min., call physician. SKIN: flush with water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2, oral LD_{50} = 1.0 g/kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations

5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second and third-degree burns on short contact and is very injurious to the eyes

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 220°F OC

6 2 **Flammable Limits in Air:** Data not available

6 3 **Fire Extinguishing Agents:** Water, dry chemical, alcohol foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products:** Not pertinent

6 6 **Behavior in Fire:** Containers may explode

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** 2.0 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** In the absence of inhibitor, polymerization will occur, especially when heated

7 6 **Inhibitor of Polymerization:** Monomethyl ether of hydroquinone, 400 ppm

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

NOTES

HAS — HYDROXYLAMINE SULFATE

Common Synonyms			
Oxammonium sulfate	Solid	White	Odorless
	Sinks and mixes with water		

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY
Stop discharge if possible
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Not Flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause difficult breathing or loss of consciousness
If in eyes, hold eyelids open and flush with plenty of water
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
If swallowed will cause nausea or loss of consciousness
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

NOTES

HPA — HYDROXYPROPYL ACRYLATE

Common Synonyms
Propylene glycol mono-acrylate
1,2 Propanediol-1-acrylate

Liquid | Colorless | Faint unpleasant odor

May float or sink in water

Avoid contact with liquid and vapor. Keep people away.
Shut off ignition sources. Call fire department.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
CONTAINERS MAY EXPLODE IN FIRE
Extinguish with dry chemicals, foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.
COMBAT FIRE FROM SAFE DISTANCE OR PROTECTED LOCATION.

Exposure

CALL FOR MEDICAL AID
VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause coughing or difficult breathing.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.
LIQUID
Will burn skin and eyes.
If swallowed will cause nausea.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearest water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning - water contaminant
Restrict access
Disperse and flush

2. LABELS

No Hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1,2-Propanediol-1-acrylate; Propylene glycol mono-acrylate
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** $CH_2OHCHOHCH_2OCOCH{=}CH_2$
3.4 **IMCO/United Nations Numerical Designation.** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Slightly acrylic

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber gloves, apron and boots; worker's goggles or face shield
5.2 **Symptoms Following Exposure:** Inhalation irritates nose and throat and causes coughing; lung injury may occur. Ingestion causes irritation and burning of mouth and stomach. Vapor irritates eyes. Contact with liquid causes severe burns of eyes and burns of skin.
5.3 **Treatment for Exposure:** INHALATION: if ill effects occur, get patient to fresh air, keep him quiet and warm, and get medical attention if breathing stops, start artificial respiration. INGESTION: force milk or water immediately, induce vomiting only at physician's recommendation. EYES: promptly flush with plenty of water and get medical attention. SKIN: promptly flush with plenty of water, get medical attention if burning occurs.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 1,230 mg/kg (rat)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high concentrations.
5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second and third degree burns on short contact and is very injurious to the eyes.
5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** 212°F OC
6.2 **Flammable Limits in Air:** 1.8% (LEL)
6.3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:**
6.6 **Behavior in Fire:**
6.7 **Ignition Temperature:** Data not available
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:**
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** May occur, avoid exposure to high temperatures, ultraviolet light, free radical initiators
7.6 **Inhibitor of Polymerization:** 200 ppm hydroquinone

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (30D):** Data not available
8.4 **Food Chain Concentration Potential:** None

NOTES

IAA

ISOAMYL ALCOHOL

Common Synonyms
Fusel oil
Fermentation amyl alcohol
Impentyl alcohol
3-Methyl-1-butanol

Liquid | Colorless | Mild, choking alcohol odor

Floats and mixes with water. Irritating vapor is produced.

Stop discharge if possible. Keep people away.
Call fire department.
Avoid contact with liquid.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible.
Extinguish with water fog, carbon dioxide, dry chemical, alcohol foam or carbon dioxide.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose, and throat
Harmful if inhaled
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to eyes.
IF IN EYES, hold eyelids open and flush with plenty of water.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water supplies.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Disperse and flush.

2. LABELS

No hazard label required by Code of Federal Regulations.

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Fermentation amyl alcohol; Fusel oil; Isobutylcarbinol; Isopentyl alcohol; 3-Methyl-1-butanol; Pentyl alcohol; sec-Amyl alcohol

3.2 **Coast Guard Compatibility Classification:** Xylene

3.3 **Chemical Formula:** $(CH_3)_2CHCH_2CH_2OH$

3.4 **IMCO United Nations Numerical Designations:** 1.3 (no. 1.2.120)

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild odor, alcoholic, non-resinous

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Face shield to avoid splash.

5.2 **Symptoms Following Exposure:** Very high vapor concentrations irritate eyes and upper respiratory tract. Continued contact with skin may cause irritation.

5.3 **Treatment of Exposure:** EYES: immediately flush with plenty of water for at least 15 minutes, get medical attention. SKIN: Wash with water, wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2; LD$_{50}$: 0.5 to 5 g/kg

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Liquid may cause irritation.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 114°F (O.C.)

6.2 **Flammable Limits in Air:** 1.2% - 9.0% (112°F)

Category	Classification
Health Hazard (Blue)	1
Flammability (Red)	2
Reactivity (Yellow)	0

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid

13.2 **Molecular Weight:** 88.15

13.3 **Boiling Point at 1 atm:** 270°F = 132°C = 405°K

13.4 **Freezing Point:** Not pertinent

13.5 **Critical Temperature:** 584°F = 307°C = 580°K

13.6 **Critical Pressure:** Not pertinent

13.7 **Specific Gravity:** 0.81 at 20°C (liquid)

13.8 **Liquid Surface Tension:** 23.6 dynes/cm = 0.0236 N/m at 20°C

13.9 **Liquid-Water Interfacial Tension:** 5 dynes/cm = 0.005 N/m at 19°C

13.10 **Vapor (Gas) Specific Gravity:** Not pertinent

13.11 **Ratio of Specific Heats of Vapor (Gas):** 1.052 at 1 atm

13.12 **Latent Heat of Vaporization:** 2.5 x 10^2 Btu/lb = 139 cal/g = 5.81 x 10^5 J/kg

13.13 **Heat of Combustion:** -14,200 Btu/lb = -7900 cal/g = -330.7 x 10^5 J/kg

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** -47.1 Btu/lb = -26.2 cal/g = -1.11 x 10^5 J/kg

13.16 **Heat of Polymerization:** Not pertinent

Continued on page 7 and 8

NOTES

IBT	# ISOBUTANE

Common Synonyms
2-Methylpropane

Liquefied compressed gas Colorless Odorless

Floats and boils on water Flammable vapor cloud is produced

Stop discharge if possible Keep people away
Shut off ignition sources and call fire department
Use [illegible] water spray Dilute and disperse
Dike for containment Notify local health and pollution control agencies

Fire

FLAMMABLE.
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Stop flow of gas if possible
Use [illegible] water

Exposure

CALL FOR MEDICAL AID
VAPOR
Irritating to eyes.
If inhaled, will cause dizziness, difficult breathing or loss of consciousness
Move victim to fresh air
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen
IN EYES: Immediately wash eyes out with plenty of water

Water Pollution

Not harmful to aquatic life.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-6)

Issue warning: high flammability
Restrict access
Evacuate area

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 2-Methylpropane
3 2 **Coast Guard Compatibility Classification:** Paraffin
3 3 **Chemical Formula:** C_4H_{10} or $CH(CH_3)_3$
3 4 **IMCO United Nations Numerical Designation:** 2.0 1969

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquefied under pressure
4 2 **Color:** Colorless
4 3 **Odor:** Faint gasoline

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self-contained breathing apparatus; safety goggles
5 2 **Symptoms Following Exposure:** Central nervous system depression ranging from dizziness and stupefaction to anesthesia and respiratory arrest, dependent on concentration and extent of inhalation. Irregular heartbeat may be a dangerous concomitant to anesthetic action.
5 3 **Treatment for Exposure:** INHALATION: proper victim removal with use of self-contained breathing apparatus by person outfitted or anesthetized; apply artificial respiration if breathing has stopped; avoid administration of epinephrine or other sympathomimetic amines; prevent aspiration of vomitus by proper positioning of head; give symptomatic and supportive treatment. INGESTION OR ASPIRATION: no treatment required
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Not pertinent
5 7 **Late Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics:** None
5 9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to skin because it is very volatile and evaporates quickly. Some frostbite possible.
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** [illegible] °C CC
6 2 **Flammable Limits in Air:** [illegible]
6 3 **Fire Extinguishing Agents:** Stop flow of gas
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Not pertinent
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature:** [illegible]°F
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** [illegible] mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** None
8 2 **Waterfowl Toxicity:** None
8 3 **Biological Oxygen Demand (BOD):** None
8 4 **Food Chain Concentration Potential:** None

(continued on page 7 and 8)

NOTES

REVISED 1978

IBA — ISOBUTYL ACETATE

Common Synonyms
Acetic acid, isobutyl ester

Watery liquid | Colorless | Pleasant fruity odor

Floats on water. Flammable, irritating vapor is produced

Fire

FLAMMABLE
Flashback along vapor trail may occur
May explode if ignited in an enclosed area

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled, will cause nausea, vomiting, dizziness or loss of consciousness

LIQUID
Irritating to skin and eyes

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - high flammability
Evacuate area
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms** Acetic acid isobutyl ester
2 Methyl-1 propyl acetate
Beta Methylpropyl ethanoate

3 2 **Coast Guard Compatibility Classification** 1 star

3 3 **Chemical Formula** $CH_3COOCH_2CH(CH_3)_2$

3 4 **IMCO/United Nations Numerical Designation** 3.2, 1213

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color** Colorless

4 3 **Odor:** Agreeable fruity odor in low concentrations, disagreeable in higher concentrations, mild characteristic ester, nonresidual

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Air pack or organic canister mask, chemical goggles

5 2 **Symptoms Following Exposure:** Vapor may irritate upper respiratory tract and cause nausea, vomiting, dizziness and loss of consciousness. Liquid irritates eyes and may irritate skin

5 3 **Treatment for Exposure** INHALATION - remove from exposure, if breathing is irregular or has stopped, start resuscitation and give oxygen, call a doctor. EYES - flush with water for at least 15 minutes

5 4 **Toxicity by Inhalation (Threshold Limit Value)** 150 ppm

5 5 **Short-Term Inhalation Limit:** Data not available

5 6 **Toxicity by Ingestion.** Data not available

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin

5 10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 62°F C.C., 85°F O.C.

6 2 **Flammable Limits in Air:** 2.4% - 10.5%

6 3 **Fire Extinguishing Agents:** Foam, carbon dioxide and dry chemical

6 4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** Not pertinent

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature:** 793°F

6 8 **Electrical Hazard.** Class I, group D

6 9 **Burning Rate** Data not available

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** Softens and dissolves many plastics

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** 1200 ppm/24 hr/brine shrimp/TLm

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** 47% of theoretical in 5 days, freshwater, acclimated seed

8 4 **Food Chain Concentration Potential.** None

NOTES

REVISED 1978

IAL

ISOBUTYL ALCOHOL

Common Synonyms
Isobutanol
Isopropylcarbinol
2-Methyl-1-propanol

Oily liquid | Colorless | Mild alcohol, choking odor

Floats and mixes slowly with water. Irritating vapor is produced.

Stop discharge if possible.
Call fire department.
Avoid contact with liquid and vapor.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemical, foam, carbon dioxide.
Water may be ineffective.
Cool exposed containers with water.

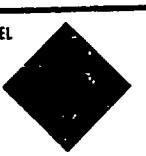
Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause nausea, dizziness or headache.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to eyes.
Harmful if swallowed.
IF IN EYES: Hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution



Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Isobutanol
Isopropylcarbinol
2 methyl 1-propanol
Fermentation butyl alcohol

3 2 **Coast Guard Compatibility Classification:** Alcohol

NOTES

REVISED 1978

IAM ISOBUTYLAMINE

Common Synonyms
Monoisobutylamine
1-Amino-2-methylpropane

Liquid | Colorless | Strong ammonia odor

Floats and mixes with water

Stop discharge if possible. Keep people away.
Shut off ignition sources. Call fire department.
Avoid contact with liquid and vapor.
Isolate and ventilate area.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Wear goggles and self-contained breathing apparatus.
Extinguish with dry chemicals, alcohol foam, carbon dioxide.
Water may be ineffective.
Cool exposed containers with water.

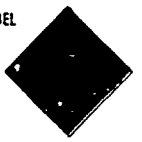
Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing, difficult breathing or loss of consciousness
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes
If swallowed will cause nausea or loss of consciousness
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is CONSCIOUS, induce vomiting by drinking water or milk and then sticking finger down throat.

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials.
Notify operators of downstream water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability, air contaminant, water contaminant
Restrict access
Evacuate area
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1-Amino-2-methylpropane; Iso Butylamine; Monoisobutylamine
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** $(CH_3)_2CHCH_2NH_2$
3.4 **IMCO/United Nations Numerical Designation:** 3.2/1214

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Strong ammoniacal

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self contained breathing apparatus, butyl rubber gloves, chemical face shield, butyl rubber apron
5.2 **Symptoms Following Exposure:** Inhalation causes severe coughing and chest pain due to irritation of air passages, can cause lung edema. Compound is sympathomimetic and is also a cardiac depressant, and convulsant. Ingestion causes nausea and profuse salivation. Contact with eyes causes severe irritation and edema of the cornea. Contact with skin causes severe irritation.
5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air, if he is not breathing, give artificial respiration, if breathing is difficult, give oxygen, call a physician. INGESTION: give large amount of water followed by dilute vinegar or lemon juice, keep patient warm. EYES: flush with water for 15 min. SKIN: flush with water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 3; oral LD_{50} = 120 mg/kg (rabbit); 250 mg/kg (rat)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high concentrations
5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second and third degree burns on short contact and is very injurious to the eyes
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 15°F C.C.
6.2 **Flammable Limits in Air:** 1.8% - 9%
6.3 **Fire Extinguishing Agents:** Dry chemical, "alcohol" foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may be formed in fire
6.6 **Behavior in Fire.** Vapor is heavier than air and may travel to a source of ignition and flash back. Containers may explode.
6.7 **Ignition Temperature:** 712°F
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** 6.03 mm/min

(Continued on pages 5 and 6)

NOTES

IBL

ISOBUTYLENE

Common Synonyms
Isobutene
2-Methylpropene

Liquefied compressed gas Colorless Sweet gasoline like odor

Floats and boils on water. Flammable visible vapor cloud is produced

No ignition sources (No flares, smoking or flames in hazard area). Shut off ignition sources and all fire department apparatus. Stay upwind and keep water spray on knock down vapors. Avoid contact with liquid. Isolate and remove leaking gas container if safe to do so. Notify local fire and police authorities.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Stop flow of gas if possible.
Cool exposed containers with water. Fog fire. Use dry chemical, carbon dioxide, or water.
Let fire burn.
Extinguish small fires with water, dry chemical, carbon dioxide, or foam.

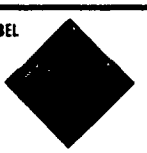
Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose, and throat.
If inhaled, will cause dizziness or loss of consciousness.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will cause frostbite.
Flush affected areas with plenty of water.
DO NOT RUB AFFECTED AREAS.

Water Pollution



Not harmful to aquatic life.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: highly flammable.
Restrict access.
Evacuate area.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Isobutene
2-Methylpropene

3.2 **Coast Guard Compatibility Classification**
Olefin

3.3 **Chemical Formula:** $(CH_3)_2C=CH_2$

3.4 **IMCO/United Nations Numerical Designation:** 2 1055

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid under pressure

4.2 **Color:** Colorless

4.3 **Odor:** Mild sweetish

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical gloves and eye protection, organic vapor canister or self-contained breathing apparatus.

5.2 **Symptoms Following Exposure:** Inhalation of moderate concentrations causes dizziness, drowsiness and unconsciousness. Contact with eyes or skin may cause irritation. The liquid may cause frostbite.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air and apply resuscitation; call a physician promptly if victim is unconscious. EYES: if irritated, wash with water. SKIN: if irritated, wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 1000 ppm (8 hr)

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion:** Not pertinent

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are non-irritating to eyes and throat.

5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to skin because it is very volatile and evaporates quickly. May cause frostbite.

5.10 **Odor Threshold:** Data not available

FIRE HAZARDS

6.1 **Flash Point:** −105°F C.C.

6.2 **Flammable Limits in Air**
1.8% 9.6%

Fire Extinguishing Agents: Let fire burn; stop flow of gas. Water fog, dry chemical or carbon dioxide, may be used for small fires.

6.4 **Fire Extinguishing Agents Not to be Used.** Not pertinent

6.5 **Special Hazards of Combustion Products.** Not pertinent

6.6 **Behavior in Fire.** Containers may explode in fire. Vapor is heavier than air and may travel a long distance to a source of ignition and flash back.

6.7 **Ignition Temperature:** 869°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials.** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization**
Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
None

8.2 **Waterfowl Toxicity:** None

8.3 **Biological Oxygen Demand (BOD).**
None

8.4 **Food Chain Concentration Potential**
None

NOTES

IBR

ISOBUTYRIC ACID

Common Synonyms			
Dimethylacetic acid Isopropylformic acid 2 Methylpropanoic acid Propane-2-carboxylic acid	Liquid	Colorless	Unpleasant, acrid odor
	Floats and mixes with water		

Avoid contact with liquid and vapor. Keep people away.
Wear goggles, self contained breathing apparatus and rubber protective clothing including gloves.
Stop discharge if possible.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Extinguish with dry chemicals, alcohol foam, or carbon dioxide. Not
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID
VAPOR
Irritating to eyes, nose and throat
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.
LIQUID
Will burn skin and eyes.
Harmful if swallowed
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.
Notify local health and pollution control agencies.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: corrosive
Restrict access
Disperse and flush

NOTES

REVISED 1978

IAI ISODECYL ACRYLATE, INHIBITED

Common Synonyms
Isodecyl acrylate

Liquid | Colorless | Weak odor

Floats on water

Stop discharge if possible. Keep people away.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Extinguish with dry chemicals, CO2, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

Call for medical aid.

LIQUID
Irritating to skin and eyes.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids apart and flush with plenty of water.
IF SWALLOWED, do not induce vomiting. If conscious, have victim drink water.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: water contaminant
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** iso Decyl acrylate
3 2 **Coast Guard Compatibility Classification:** Monomers (14)
3 3 **Chemical Formula:** $CH_2=CHCOOC_{10}H_{21}$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Weak acrylate

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves
5 2 **Symptoms Following Exposure:** Inhalation causes mild irritation of nose and throat. Eyes are mildly irritated by vapor, more severely by liquid. Prolonged contact of liquid with skin may cause irritation.
5 3 **Treatment for Exposure:** INHALATION: move to fresh air. EYES: flush with water for at least 15 min. after contact with liquid. SKIN: wipe off, wash well with soap and water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 1. LD50 5 to 15 g/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.
5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.
5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** 240°F O.C.
6 2 **Flammable Limits in Air:** Data not available
6 3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6 5 **Special Hazards of Combustion Products:** Not pertinent
6 6 **Behavior in Fire:** May polymerize to gummy solid. Reaction is not violent.
6 7 **Ignition Temperature:** Data not available
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport:** Stable if inhibited
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** In the absence of inhibitor polymerization will occur, especially when heated.
7 6 **Inhibitor of Polymerization:** Monomethyl ether of hydroquinone, 25 ppm

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** Data not available
8 4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

Union Carbide Corporation

NOTES

REVISED 1978

IHA

ISOHEXANE

Common Synonyms
* Methylpentane

Watery liquid

Gasoline-like odor

Floats on water. Flammable, irritating vapor is produced

Fire

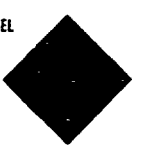
FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause dizziness, headache, difficult breathing or loss of consciousness

LIQUID
Irritating to skin and eyes
If swallowed will cause nausea or vomiting

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
Evacuate area
Disperse and flush

2 LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 2 Methylpentane
3 2 **Coast Guard Compatibility Classification:** Paraffin
3 3 **Chemical Formula:** $CH_3CH(CH_3)CH_2CH_3$
3 4 **IMCO/United Nations Numerical Designation:** 3 1/1208

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Gasoline

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Eye protection (as for gasoline)
5 2 **Symptoms Following Exposure:** Inhalation causes irritation of respiratory tract, cough, mild depression, cardiac arrhythmias. Aspiration causes severe lung irritation, coughing, pulmonary edema, excitement followed by depression. Ingestion causes nausea, vomiting, swelling of abdomen, headache, depression
5 3 **Treatment for Exposure:** INHALATION: maintain respiration, give oxygen if needed. ASPIRATION: enforce bed rest, give oxygen. INGESTION: do NOT induce vomiting, call a doctor. EYES: wash with copious amount of water. SKIN: wipe off, wash with soap and water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limit:** Data not available
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are nonirritating to the eyes and throat
5 9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** −20°F C.C.
6 2 **Flammable Limits in Air:** 1.2% - 7.7%

NOTES

REVISED 1978

IPH	ISOPHORONE

Common Synonyms			
3,5,5-Trimethyl-2-cyclohexene-1-one	Liquid	Colorless	Camphor-like odor
	Floats and mixes slowly with water		

Fire	Combustible
Exposure	LIQUID Irritating to skin and eyes Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown Floating to shoreline May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Boat spotting
Personnel
Mechanical containment
Should be removed
Chemical and physical properties

2. LABELS

Not specifically listed by Code
Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 3,5,5-Trimethyl-2-cyclohexene-1-one

3.2 **Coast Guard Compatibility Classification:** Ketone

3.3 **Chemical Formula:** $C_9H_{14}O$ or $(CH_3)_2C_6H_7(O)CH_3$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Camphor-like

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Not specifically listed; Self-contained breathing apparatus; Protective clothing; Other gear

5.2 **Symptoms Following Exposure:** Inhalation irritates eyes, nose and throat, causes central depression and has some anesthetic effect. Contact: Liquid with eyes causes severe irritations and possible corneal damage. Not absorbed by liquid and may cause dermatitis. Ingestion: Irritation of mouth and stomach.

Treatment for Exposure: INHALATION: Remove victim to uncontaminated atmosphere. If breathing has stopped, give artificial respiration and oxygen. EYES: Flush with water. Obtain medical attention. SKIN: Wash with soap. INGESTION: DO NOT induce vomiting. Call a doctor.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 25 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 3; oral LD_{50} = 2.0 g/kg for rats

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation of eyes and nose; personnel will find high concentrations unpleasant. The effects are temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Causes reddening of the skin and 1st degree burns on short exposure; may cause second degree burns on long exposure.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 205°F (OC); 96°F (CC)

6.2 **Flammable Limits in Air:** 1.1% - 3.8%

6.3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 460°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 4.0 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Not reactive

7.2 **Reactivity with Common Materials:** Not reactive

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 48 hr ppm LC50 marine shrimp: 1.1

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

NOTES

IPL

ISOPHTHALIC ACID

Common Synonyms
benzene 1,3-dicarboxylic acid
m-Phthalic acid

Solid | White | Slight unpleasant odor

Sinks in water

Avoid contact with solid and dust. Keep people away.
Stop discharge if possible.
Shut off ignition sources. Call fire department.
Isolate and recover discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Dust cloud may explode if ignited in an enclosed area.
Extinguish with water, dry chemicals, foam, or carbon dioxide.

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat.
If inhaled will cause coughing or difficult breathing.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

SOLID
Irritating to skin and eyes.
If swallowed will cause nausea.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR IS HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Method, Handbook CG 446-4)

Should be removed.
Chemical and physical treatment.

2. LABELS

No hazard label required by Code of Federal Regulations.

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Benzene 1,3-dicarboxylic acid; m-Phthalic acid
3.2 **Coast Guard Compatibility Classification.** Not listed
3.3 **Chemical Formula**
1,3 $C_6H_4(COOH)_2$
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** White
4.3 **Odor:** Slightly acrid

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** If without adequate ventilation, use respirator with dust filter, goggles, and gloves.
5.2 **Symptoms Following Exposure.** May cause slight to moderate irritation of eyes, skin, and mucous membranes on prolonged contact. Ingestion may cause gastrointestinal irritation.
5.3 **Treatment for Exposure:** INHALATION: remove victim to uncontaminated area; get medical attention if complications arise. INGESTION: get medical attention if complications arise. EYES: flush with large amounts of water for 15 min; get prompt medical attention. SKIN: wash with water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits.** Data not available
5.6 **Toxicity by Ingestion:** Grade 1. LD_{50}: 12.2 g/kg (rat)
5.7 **Late Toxicity:** Data not available

(Continued on pages 5 and 6)

NOTES

IPR

ISOPRENE

Common Synonyms
2-Methyl-1 3-butadiene
beta-Methylbutenyl

Watery liquid | Colorless | Mild odor

Floats on water. Flammable. Irritating vapor is formed.
Boiling point is 93°F

Stop discharge if possible. Keep away from vapors.
Shut off ignition sources and call fire department.
Stay upwind. Flow water spray to knock down vapor.
Avoid contact with liquid and vapor.
Evacuate nonessential personnel.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Containers may explode in fire.
Vapor may explode if ignited in an enclosed area.
Wear self-contained breathing apparatus.
Combat fire from behind barricade or protected location.
Extinguish with dry chemical, CO2, foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
Move to fresh air.
If breathing has ceased, apply artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Remove contaminated clothing and shoes.
Flush affected area with plenty of water.
IN EYES, hold eyelids apart and flush with plenty of water.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability.
Restrict access.
Evacuate area.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** beta-Methylbutenyl
2 Methyl 1, 3 butadiene

3.2 **Coast Guard Compatibility Classification:** Olefin

3.3 **Chemical Formula:**
$CH_2=C(CH_3)CH=CH_2$

3.4 **IMCO/United Nations Numerical Designation:** 3 1/1218

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild aromatic

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Vapor proof goggles, self contained breathing apparatus, leather or rubber safety shoes, rubber gloves.

5.2 **Symptoms Following Exposure:** Vapor produces no effects other than slight irritation of the eyes and upper respiratory tract. Liquid may irritate eyes, like gasoline.

5.3 **Treatment for Exposure:** INHALATION: remove victim promptly from irritating or asphyxiating atmosphere; if symptoms of aspiration persist, administer artificial respiration and oxygen; treat symptomatically thereafter; call a physician. EYES: flush with water for at least 15 min.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain it may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** 0.005 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** −65°F C.C.

6.2 **Flammable Limits in Air:** 2% - 9%

6.3 **Fire Extinguishing Agents:** Dry chemical, foam, or carbon dioxide.

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective.

6.5 **Special Hazards of Combustion Products:** Toxic vapors are generated when heated.

6.6 **Behavior in Fire:** May polymerize in containers and explode.

6.7 **Ignition Temperature:** 428°F

6.8 **Electrical Hazard:** Class I, Group C.

6.9 **Burning Rate:** 8.6 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction.

7.2 **Reactivity with Common Materials:** No reaction.

7.3 **Stability During Transport:** Stable.

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent.

7.5 **Polymerization:** Polymerization is accelerated by heat and by oxygen, even by the presence of rusty iron. Iron surfaces should be treated with a suitable reducing agent such as sodium nitrite before they are placed into isoprene service.

7.6 **Inhibitor of Polymerization:** Tertiary butyl catechol (0.06%). Di n butylamine, phenyl beta-naphthyl amine and phenyl alpha naphthylamine are also used. IPR must be inhibited when transported interstate.

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 75 ppm/96 hr/fathead minnow/TL m/ fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

IAC

ISOPROPYL ACETATE

Common Synonyms

Acetic acid isopropyl ester
2-Propyl acetate

Watery liquid Colorless Pleasant fruity odor

Floats and mixes slowly with water. Flammable. Irritating vapor is produced.

Stop discharge if possible. Keep people away.
Shut off ignition sources and call fire department.
Stay upwind and use water spray to knock down vapor.
Avoid contact with liquid and vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Extinguish with dry chemical, foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID
VAPOR
Irritating to eyes, nose and throat.

Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.
LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Remove contaminated clothing.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, give two drinks of water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability.
Evacuate area.
Disperse and flush.

2 LABEL

13.2 **Molecular Weight** 102.13

13.3 **Boiling Point at 1 atm.** 191.3°F = 88.5°C = 361.7°K

13.4 **Freezing Point** −92.7°F = −69.3°C = 203.9°K

13.5 **Critical Temperature.** 500°F = 260°C = 533°K

13.6 **Critical Pressure** 529 psia = 36 atm = 3.65 MN/m

13.7 **Specific Gravity:** 0.874 at 20°C (liquid)

13.8 **Liquid Surface Tension:** 26 dynes/cm = 0.026 N/m at 20°C

13.9 **Liquid-Water Interfacial Tension** Data not available

13.10 **Vapor (Gas) Specific Gravity:** 3.5

13.11 **Ratio of Specific Heats of Vapor (Gas):** (est.) 1.024

13.12 **Latent Heat of Vaporization** 150 Btu/lb = 83 cal/g = 3.5 × 10^5 J/kg

13.13 **Heat of Combustion:** -9420 Btu/lb = -5230 cal/g = -219 × 10^5 J/kg

13.14 **Heat of Decomposition** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

(Continued on page 5 and A)

NOTES

REVISED 1978

IPA — ISOPROPYL ALCOHOL

Common Synonyms
Isopropanol
2-Propanol
Dimethylcarbinol
sec. Propyl Alcohol
Rubbing alcohol

Waters liquid | Colorless | Unpleasant alcohol odor like rubbing alcohol

Floats and mixes with water. Flammable. Irritating vapor is produced.

Stop discharge if possible. Keep people away.
Small: If ignition sources, call fire department.
Stay upwind and use water spray to knock down vapor.
Avoid contact with liquid and vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Explosion hazard indoors, outdoors or in sewers.
Water may be ineffective.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID.

VAPOR
Irritating to eyes, nose and throat.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to eyes.
Harmful if swallowed.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of downstream water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-4

Issue warning. High flammability.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.**
Dimethylcarbinol | 2-Propanol
Isopropanol | sec. Propyl alcohol
Petrohol | Rubbing alcohol

3.2 **Coast Guard Compatibility Classification**
Alcohol

3.3 **Chemical Formula:**
$CH_3CHOHCH_3$

3.4 **IMCO United Nations Numerical Designation:** 3.2/1219

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Like ethyl alcohol but somewhat less pungent; characteristic rubbing alcohol odor.

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic vapor canister mask approved for isopropyl alcohol; goggles or face splash shield.

5.2 **Symptoms Following Exposure.** Vapor causes mild irritation of eyes and upper respiratory tract; high concentrations may be narcotic. Liquid is irritating to eyes and mucous membranes; harmless to skin. Ingested causes drunkenness and vomiting.

5.3 **Treatment for Exposure.** INHALATION: if victim is conscious, he may be given oxygen to breathe from exposure to an approved self-contained breathing apparatus. If breathing is irregular or has stopped, artificial respiration should be administered by trained personnel, preferably with oxygen. EYES: Flush with water for at least 15 min.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 400 ppm

5.5 **Short-Term Inhalation Limits:** 400 ppm for 10 min

5.6 **Toxicity by Ingestion:** Grade 1 LD$_{50}$: 5.0 to 16 g/kg (oral rat) LD$_{50}$: 3.6 to 6.4 g/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Vapor causes slight smarting of the eyes and respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically no effect on the skin.

5.10 **Odor Threshold:** 90 mg/m³

6 FIRE HAZARDS

6.1 **Flash Point:** 60°F (O.C.) 53°F (C.C.)

6.2 **Flammable Limits in Air**
2.5% - 12.7%

6.3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical or carbon dioxide.

6.4 **Fire Extinguishing Agents Not to be Used**
Water may be ineffective.

6.5 **Special Hazards of Combustion Products.**
Not pertinent.

6.6 **Behavior in Fire:** Not pertinent.

6.7 **Ignition Temperature:** 750°F

6.8 **Electrical Hazard:** Class I, Group D

6.9 **Burning Rate:** 2.0 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials**
No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization.**
Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity.**
9600-11,000 ppm/24 hr/shiner/Texas/fresh water

8.2 **Waterfowl Toxicity:**
Data not available

8.3 **Biological Oxygen Demand (BOD)**
1.19, 5 days

8.4 **Food Chain Concentration Potential**
None

13.13 **Heat of Combustion:** -13,900 Btu/lb
= -7731 cal/g = -32.40 kJ/g

13.14 **Heat of Decomposition.** Not pertinent

13.15 **Heat of Solution:** Completely miscible
= 19.1 cal/g = 79.9 kJ/g

13.16 **Heat of Polymerization.** Not pertinent

Continued on next page

NOTES

IPP	# ISOPROPYLAMINE

Common Synonyms
2-Aminopropane
Monoisopropylamine

Liquid Colorless Strong ammonia odor

Floats and mixes with water
Flammable irritating vapor is produced
Boiling point is 91°F

Stop discharge if possible Keep people away
Shut off ignition sources call fire department
Stay upwind Use water spray to knock down vapor
Avoid contact with liquid and vapor
Isolate area until gas has dispersed
Notify local health and pollution control agencies

Fire

FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Wear goggles and self-contained breathing apparatus
Extinguish with dry chemicals, CO2, water spray or alcohol foam
Water may be ineffective
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing, difficult breathing or loss of consciousness

For eyes: Hold eyelids apart and flush with plenty of water
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

LIQUID
Will burn skin and eyes
If swallowed will cause nausea

Remove contaminated clothing
Flush affected areas with plenty of water
IF IN EYES: Hold eyelids apart and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, give large quantities of water
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS
Do not induce vomiting
Do not give anything by mouth

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-4

Issue warning: high flammability
Turn off all pilot lights
Keep unnecessary people away
Ventilate area
Evacuate area
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** 2-Aminopropane; Monoisopropylamine; 2-Propylamine
3.2 **Coast Guard Compatibility Classification.** Data not available
3.3 **Chemical Formula** $(CH_3)_2CHNH_2$
3.4 **IMCO/United Nations Numerical Designation** UN 1221

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid
4.2 **Color** Colorless
4.3 **Odor** Strong ammoniacal pungent; resembling typical amine

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Self-contained breathing apparatus; butyl rubber gloves and apron; chemical face shield or vapor goggles
5.2 **Symptoms Following Exposure** Inhalation causes nose and throat irritation, severe coughing and chest pain due to irritation of air passages, can cause lung edema and loss of consciousness. Ingestion causes nausea, salivation and severe irritation of mouth and stomach. Contact with eyes causes severe irritation and possible edema of the cornea. Contact with skin causes severe irritation.
5.3 **Treatment for Exposure:** INHALATION remove victim to fresh air; if he is not breathing give artificial respiration; if breathing is difficult give oxygen; call a physician. INGESTION call a physician immediately; encourage the drinking of large quantities of water followed by dilute vinegar (lemon juice, cider or other weak acids); keep patient warm. EYES flush with water for 15 minutes holding eyelids apart; call physician as soon as possible, preferably an eye specialist. SKIN flush with water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm
5.5 **Short-Term Inhalation Limits.** Data not available
5.6 **Toxicity by Ingestion:** [illegible] rated TLD, [illegible] dosage used
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics.** Vapors are moderately irritating, such that personnel will not usually tolerate moderate or high concentrations
5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first-degree burns on short exposure; may cause second-degree burns on long exposure
5.10 **Odor Threshold** 5 ppm

6 FIRE HAZARDS

6.1 **Flash Point** −15°F OC
6.2 **Flammable Limits in Air** 2.0% - 12%
6.3 **Fire Extinguishing Agents** Dry chemical, alcohol foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fire
6.6 **Behavior in Fire** Burning isopropylamine is difficult to control because of the ease of ignition of the vapor. Vapors are heavier than air and may travel to a source of ignition and flash back. Containers may explode.
6.7 **Ignition Temperature** 756°F
6.8 **Electrical Hazard.** Data not available
6.9 **Burning Rate** 0.33 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials**
7.3 **Stability During Transport** Stable
7.4 **Neutralizing Agents for Acids and Caustics** Not pertinent
7.5 **Polymerization** Not pertinent
7.6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity** 30 - 89 ppm/24 hr/creek chub/critical range/fresh water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD).** Data not available
8.4 **Food Chain Concentration Potential** None

9. SELECTED MANUFACTURERS

NOTES

IPE — ISOPROPYL ETHER

Common Synonyms

Diisopropyl ether
Diisopropyl oxide
2 Isopropoxypropane

Liquid | Colorless | Sweet odor

Floats and mixes slowly with water Flammable irritating vapor is produced

Shut off ignition sources Call fire department
Stop discharge if possible Keep people away
Stay upwind Use water spray to "knock down" vapor
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Extinguish with dry chemicals alcohol foam or carbon dioxide
Water may be ineffective on fire
Cool exposed containers with water

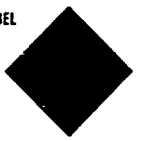
Exposure

Call for medical aid

VAPOR
Irritating to eyes nose and throat
If inhaled will cause headache dizziness or nausea
Move victim to fresh air
If breathing has stopped give artificial respiration
If breathing is difficult give oxygen

LIQUID
Irritating to skin and eyes
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES Hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk

Water Pollution



Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning high flammability
Restrict access
Evacuate area
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Diisopropyl ether
Diisopropyl oxide
2 Isopropoxypropane

3 2 **Coast Guard Compatibility Classification.** Ethers (21)

3 3 **Chemical Formula:** $(CH_3)_2CHOCH(CH_3)_2$

3 4 **IMCO/United Nations Numerical Designation:** 33 1159

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Sweet slightly sharp characteristic pungent ethereal, like camphor and ethyl ether

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Air pack or organic canister mask rubber gloves goggles

5 2 **Symptoms Following Exposure:** Inhalation causes anesthesia nausea headache dizziness and irritation of the eyes and nose Contact of liquid with eyes causes only minor injury repeated contact with skin will remove natural oils and may cause dermatitis

5 3 **Treatment for Exposure:** INHALATION remove victim to fresh air and obtain medical attention immediately keep him warm and at rest and give artificial respiration if breathing stops maintain an open airway EYES flush with water for 15 min SKIN flush with water INGESTION do NOT induce vomiting get medical attention

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 250 ppm (tentative)

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion:** Grade 1 oral LD_{50} 8470 mg/kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations The effect is temporary

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard If spilled on clothing and allowed to remain may cause smarting and reddening of the skin

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** −18°F O C −18°F C C

6 2 **Flammable Limits in Air** 1 4% 7 9%

6 3 **Fire Extinguishing Agents** Dry chemical alcohol foam carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** Not pertinent

6 6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back Containers may explode when heated

6 7 **Ignition Temperature:** 830°F

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate** 4 0 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials** No reaction

7 3 **Stability During Transport:** Unstable peroxides may form on long standing in contact with air these may explode spontaneously or when heated

NOTES

IPM — ISOPROPYL MERCAPTAN

Common Synonyms
2 Propanethiol
Propane-2 thiol

Liquid | White | Strong Skunk Odor

Floats and mixes with water. Flammable, irritating vapor is produced

Shut off leak if it can be done without risk
Stop discharge if possible. Keep people away
Avoid contact with liquid and vapor
Stay upwind. Keep out of low areas. Ventilate closed spaces before entering
Isolate and remove discarded material
Notify local health and pollution control agencies

Fire

FLAMMABLE.
Irritating gases may be produced when heated
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Extinguish with dry chemical, alcohol foam, or carbon dioxide
Water may be ineffective to fight fire
Cool exposed containers with water

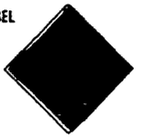
Exposure

AVOID CONTACT AND INHALATION

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause difficult breathing, or loss of consciousness
Poisonous gas produced when mixed with large amounts of water
Positive pressure breathing apparatus may be necessary
Remove victim to fresh air

LIQUID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting
Remove victim to fresh air. Physical Injury
Evacuate for at least 1/2 mile in all directions if spill is in water
IN EYES: Flush with plenty of water for at least 15 minutes. Get medical attention
IF SWALLOWED and victim is CONSCIOUS, dilute with large amounts of water or milk and induce vomiting
IF SWALLOWED and victim is NOT CONSCIOUS OR HAVING CONVULSIONS: Do not induce vomiting. Do not give anything by mouth

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify owners of public water supplies

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-6)

Issue warning: high flammability, air contaminant, water contaminant
Restrict access
Evacuate area
Disperse and flush

NOTES

IPC	# ISOPROPYL PERCARBONATE

Common Synonyms	
Peroxydicarbonic acid diisopropyl ester Diisopropyl percarbonate Diisopropyl peroxydicarbonate Isopropyl peroxydicarbonate Peroxydicarbonic acid bis(1-methylethyl) ester	Solid (Packed in Dry Ice) White Sharp Unpleasant Odor Sinks in water Freezing point is 45°F

Stop discharge if possible. Keep people away.
Shut off ignition sources. Call fire department.
Avoid contact with solid and vapor.
Isolate area from the immediate hazard area.
Notify local health and pollution control agencies.

Fire

COMBUSTIBLE
May cause fire on contact with combustibles
Will increase the intensity of a fire
Containers may explode in fire

DO NOT USE DRY CHEMICAL OR CARBON DIOXIDE ON FIRE.
Flood fire area with water from a protected location.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

Remove to fresh air.
If not breathing, give artificial respiration.
If breathing is difficult, give oxygen.

SOLID
Irritating to skin and eyes
Harmful if swallowed

Remove contaminated clothing.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids apart and flush with plenty of water.
IF SWALLOWED, do NOT induce vomiting.
IF SWALLOWED, do NOT induce vomiting. GIVE LARGE QUANTITIES OF WATER. CALL A PHYSICIAN IMMEDIATELY.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

No information is available on the effect of this material on marine life.
No information is available on the biological oxygen demand (BOD) and the chemical oxygen demand (COD).

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Isolate hazard area. Keep unauthorized personnel away.
Keep combustible material away.
Remove sources of ignition.
Should be removed.
Chemical and physical treatment.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Diisopropyl percarbonate
Diisopropyl peroxydicarbonate
Isopropyl peroxydicarbonate, Peroxydicarbonic acid bis(1-methylethyl) ester
Peroxydicarbonic acid diisopropyl ester

3.2 **Coast Guard Compatibility Classification.** Not listed

3.3 **Chemical Formula** $C_8H_{14}O_6$ OR $C_8H_{14}O_6$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Solid (contents packed in Dry Ice)

4.2 **Color:** White

4.3 **Odor:** Disagreeable ester

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Rubber gloves and chemical goggles. Rubber aprons and rubber or plastic aprons. Respirator (independent of other wearing).

5.2 **Symptoms Following Exposure:** Inhalation of concentrations of particles but prolonged exposure may cause pulmonary edema. Contact with eyes may cause severe irritation. Solution may cause severe irritation.

5.3 **Treatment for Exposure.** INHALATION: If not breathing, give artificial respiration. If breathing is difficult, give oxygen. EYES: Flush with plenty of water. SKIN: Wash with plenty of water. INGESTION: Induce vomiting as directed by medical personnel.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2 Poison. Oral rat LD50: 1,000 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Data not available

5.9 **Liquid or Solid Irritant Characteristics.** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point.** Not pertinent (combustible solid)

6.2 **Flammable Limits in Air.** Not pertinent

6.3 **Fire Extinguishing Agents.** Water

6.4 **Fire Extinguishing Agents Not to be Used.** All extinguishing agents may be ineffective

6.5 **Special Hazards of Combustion Products.** Flammable and toxic gases in fire. Gases may include acetone, isopropyl alcohol, acetaldehyde and ethane.

6.6 **Behavior in Fire.** Explosive vapor/air mixtures may be generated. Decomposition may lead to self-ignition. Container may explode in fire. Decomposition is very difficult to stop. Water in large quantities may be needed.

6.7 **Ignition Temperature.** Data not available

6.8 **Electrical Hazard.** Not pertinent

6.9 **Burning Rate.** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** May decompose with formation of oxygen when in contact with metals

7.3 **Stability During Transport:** Unstable above 0°F with formation of oxygen gas

7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity.** Data not available

8.2 **Waterfowl Toxicity.** Data not available

8.3 **Biological Oxygen Demand (BOD).** Data not available

8.4 **Food Chain Concentration Potential.** None

9 SELECTED MANUFACTURERS

*13.12 **Latent Heat of Vaporization.** Not pertinent

13.13 **Heat of Combustion.** -4,500 Btu/lb = -4,500 cal/g = -188.3 kJ/g

13.14 **Heat of Decomposition.** -470 Btu/lb = -261 cal/g = -10.9 kJ/g

*13.15 **Heat of Solution.** Not pertinent

*13.16 **Heat of Polymerization:** Not pertinent

Heat of vaporization

NOTES

IVA

ISOVALERALDEHYDE

Common Synonyms

3-Methylbutyraldehyde
Isovaleric aldehyde
Isovalral
3-Methylbutanal

Liquid Colorless Weak suffocating odor

Floats on water Flammable Irritating vapors is produced

Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache, nausea, vomiting or difficult breathing

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
Floats on shoreline
May be dangerous if it enters water intakes

NOTES

JPO	# JET FUELS: JP-1

Common Synonyms
Kerosene
Range oil
Fuel Oil No. 1

Water Insol — Colorless — Fuel oil odor

Floats on water

S.G. discharge if possible
Call fire department
Avoid spreading liquid
Evacuate and remove to safe area
Notify supervisor and Police Department

Fire

Combustible

Extinguish with foam, dry chemical or carbon dioxide
Water may be ineffective
Cool exposed surfaces

Exposure

ALL FORMS OF MEDICAL AID

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Avoid contact with liquid and vapor
Keep upwind and use with adequate ventilation
IF IN EYES: Flush with plenty of water for at least 15 minutes
IF SWALLOWED: DO NOT induce vomiting
Get medical attention
DO NOT INDUCE VOMITING

Water Pollution

Dangerous to aquatic life in high concentrations
Floating to shoreline
May be dangerous if enters water intakes

Notify supervisor and Police Department
Notify supervisor and Police Department

NOTES

REVISED 1978

LTA LACTIC ACID

Common Synonyms
2-Hydroxypropanoic acid
Racemic lactic acid
Milk acid
Alpha Hydroxypropionic acid

Thick Liquid Colorless to Yellow Weak Unpleasant Odor

Sinks and Mixes with water

Avoid contact with liquid and vapor
Stop discharge if possible
Isolate and remove discharge if spilled
Notify local health and pollution control agencies

Fire

Combustible

Extinguish with water fog, chemicals, carbon dioxide

Exposure

CALL FOR MEDICAL AID
VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
If in eyes hold lids open and flush with plenty of water
If breathing has stopped give artificial respiration
If breathing is difficult give oxygen
LIQUID
Will burn skin and eyes
If swallowed will cause nausea
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold lids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water milk
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do nothing except keep victim warm

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2 LABELS

No hazard label required by Coast Guard Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 2-Hydroxypropanoic acid, alpha Hydroxypropionic acid, Milk acid, Racemic lactic acid

3 2 **Coast Guard Compatibility Classification** Not listed

3 3 **Chemical Formula** $CH_3CHOHCOOH \cdot H_2O$

3 4 **IMCO/United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Syrupy liquid

4 2 **Color** Yellow to colorless

4 3 **Odor:** None or weak acidic

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves, goggles, self contained breathing apparatus where high concentrations of mist are present

5 2 **Symptoms Following Exposure:** Inhalation of mist causes coughing and irritation of mucous membranes. Ingestion even of diluted preparations has corrosive effect on the esophagus and stomach. Contact with concentrated solutions can cause severe burns of skin or eye

5 3 **Treatment for Exposure** INHALATION move to fresh air. INGESTION give large amounts water. EYES flush with water for at least 15 min. SKIN flush with water, wash well with soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion:** Grade Oral LD_{50} 1.810 mg/kg (mice, rats)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** 4.0×10^{-2} ppm

6 FIRE HAZARDS

6 1 **Flash Point.** Not pertinent (not flammable or burns with difficulty)

6 2 **Flammable Limits in Air.** Not pertinent

6 3 **Fire Extinguishing Agents:** Water, foam, dry chemical, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:**

6 5 **Special Hazards of Combustion Products:**

6 6 **Behavior in Fire**

6 7 **Ignition Temperature** Not pertinent

6 8 **Electrical Hazard** Not pertinent

6 9 **Burning Rate** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** Slowly corrodes most metals

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics** Dilute with water, rinse with sodium bicarbonate or lime solution

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:**
>30 ppm/>100 hr/goldfish/no effect, fresh water
694 ppm/6 hr/mosquito fish, killed, fresh water

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):**
72% 5 days

8 4 **Food Chain Concentration Potential**
None

NOTES

.LS

LATEX, LIQUID SYNTHETIC

Common Synonyms
Plastic latex
Synthetic rubber latex

Liquid White

Mixes with water

[illegible] if possible
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Not flammable
Combustible solid is produced when heated

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to eyes
IF IN EYES Hold eyelids open and flush with plenty of water

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of canal water systems

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-6

Disperse and flush if not coagulated
Should be removed if coagulated
Chemical and physical treatment

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Plastic latex
Synthetic rubber latex

3 2 **Coast Guard Compatibility Classification**
Miscellaneous water solutions

3 3 **Chemical Formula:** Not pertinent

3 4 **IMCO-United Nations Numerical Designation.** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid

4 2 **Color:** Milky

4 3 **Odor:** Each type has a characteristic odor

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment** Chemical goggles or face shield

5 2 **Symptoms Following Exposure:** Irritation of eyes

5 3 **Treatment for Exposure:** Flush eyes with water for at least 15 min

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics** None

5 9 **Liquid or Solid Irritant Characteristics:** Contact with eyes may cause irritation

5 10 **Odor Threshold** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable unless coagulated

6 2 **Flammable Limits in Air:** Not flammable

6 3 **Fire Extinguishing Agents** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products** If the latex dries out and then burns hydrochloric acid hydrogen cyanide and benzene gases may be evolved All are irritating and poisonous

6 6 **Behavior in Fire:** Heat may coagulate the latex and form sticky plastic lumps which may burn

6 7 **Ignition Temperature:** Not flammable

6 8 **Electrical Hazard** Data not available

6 9 **Burning Rate** Not flammable

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport** Coagulated by heat and acids to gummy flammable material

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization.** Not pertinent

7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity** Data not available

8 2 **Waterfowl Toxicity** Data not available

8 3 **Biological Oxygen Demand (BOD)** Low class

8 4 **Food Chain Concentration Potential** None

NOTES

REVISED 1978

LPO — LAUROYL PEROXIDE

Common Synonyms

Dilauroyl peroxide
Dodecanoyl peroxide

Solid — White — Faint soapy odor

Floats on water

Call fire department
Keep people away
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
May cause fire on contact with combustibles
Containers may explode in fire
May explode if exposed to heat or flames

Control fires from behind barrier
Flood discharge area with water
Cool exposed containers with water

Exposure

Call for medical aid

SOLID

Irritating to skin and eyes.
Harmful if swallowed

Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk — do not have victim induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do not pour anything into victim's mouth; keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning — oxidizing material
water contaminant
Mechanical containment
Should be removed
Chemical and physical treatment

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Dilauroyl peroxide
Dodecanoyl peroxide

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula** $[CH_3(CH_2)_{10}COO]_2$

3 4 **IMCO/United Nations Numerical Designation:** NZ 1430

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Solid

4 2 **Color:** White

4 3 **Odor:** Faint pungent, bland soapy

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Protective gloves, goggles

5 2 **Symptoms Following Exposure:** Contact with liquid irritates eyes and skin. Ingestion causes irritation of mouth and stomach

5 3 **Treatment for Exposure:** EYES wash with plenty of water for 15 min. and get medical attention. SKIN wash with plenty of soap and water. INGESTION administer inert emetic to induce vomiting and call a physician

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** Weak carcinogen in mice

5 8 **Vapor (Gas) Irritant Characteristics** Data not available

5 9 **Liquid or Solid Irritant Characteristics** Data not available

5 10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6 **Flash Point:** Not pertinent
(oxidizing combustible solid)

6 2 **Flammable Limits In Air:** Not pertinent

6 3 **Fire Extinguishing Agents:** Water, dry chemical, foam, or carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products:** Not pertinent

6 6 **Behavior in Fire:** Can increase the severity of a fire. Becomes sensitive to shock when hot. Containers may explode in fire. May ignite or explode spontaneously if mixed with flammable materials

NOTES

LRM — LAURYL MERCAPTAN

Common Synonyms
1-Dodecanethiol
Dodecyl mercaptan

Oily liquid | Colorless | Mild skunk odor

Floats on water. Freezing point is 19°F

Fire

Combusti
POISONOUS GASES ARE PRODUCED IN FIRE

Exposure

CALL FOR MEDICAL AID
LIQUID OR SOLID
Irritating to skin and eyes
If swallowed, will cause nausea

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Dodecanethiol
Dodecyl mercaptan

3.2 **Coast Guard Compatibility Classification**
Not applicable

3.3 **Chemical Formula:** $CH_3(CH_2)_{11}SH$

3.4 **IMCO United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color** Colorless

4.3 **Odor.** Mild skunk

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Respirator when mist is present, rubber or vinyl gloves, chemical goggles, rubber shoes and apron

5.2 **Symptoms Following Exposure:** Liquid is irritating to skin, eyes and mucous membranes. Ingestion may cause nausea. Repeated exposure may cause dermatitis and may produce a sensitizing effect

5.3 **Treatment for Exposure.** Get medical attention for all eye exposures and all other serious exposures. INHALATION (mist): rinse mouth, respirate with cold water, treatment is symptomatic. INGESTION: dilute by drinking water, if vomiting occurs, drink more water, do not induce vomiting. EYES: flush thoroughly with water, ventilation by electric fan is helpful in removing last traces, especially around eyes and eyelids. SKIN: remove contaminated clothing, flush skin with water, wash exposed area with soap and water

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5.5 **Short-Term Inhalation Limits** Data not available

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** Causes decline in kidney and liver function in rats

5.8 **Vapor (Gas) Irritant Characteristics.** Irritating concentration of vapor unlikely, but mist can cause irritation of eyes and upper respiratory tract

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin

5.10 **Odor Threshold:** 4 mg/m^3

6. FIRE HAZARDS

6.1 **Flash Point** 262°F O.C.

6.2 **Flammable Limits in Air**
Data not available

6.3 **Fire Extinguishing Agents:** Dry chemical, foam, or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used**
Water or foam may cause frothing

6.5 **Special Hazards of Combustion Products.**
Poisonous and irritating gases (e.g. sulfur dioxide) are generated in fires

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard.** Not pertinent

6.9 **Burning Rate** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water** No reaction

7.2 **Reactivity with Common Materials:**

REVISED 1978

LAC	# LEAD ACETATE

Common Synonyms
Lead acetate trihydrate
Neutral Lead acetate
Normal lead acetate

Solid White Odorless

Sinks and mixes with water

[illegible] ONLY [illegible] KEEP PEOPLE AWAY
[illegible]

Fire

[illegible] FLAMMABLE

Exposure

CALL FOR MEDICAL AID
DUST
POISONOUS IF INHALED
If inhaled will cause dizziness or loss of consciousness
[illegible]
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen
SOLID
Irritating to skin and eyes
If swallowed will cause nausea, vomiting or loss of consciousness
[illegible]
Flush eyes with plenty of water
IN EYES [illegible] plenty of water
IF SWALLOWED [illegible] CONSCIOUS [illegible] water [illegible] and induce vomiting
IF SWALLOWED [illegible] NO CONSCIOUS PERSON, GIVING CONVULSIONS [illegible]

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes
[illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: water contaminant
Restrict access
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Lead acetate trihydrate, Neutral lead acetate, Normal lead acetate, Salt of Saturn, Sugar of lead
3 2 **Coast Guard Compatibility Classification.** Not listed
3 3 **Chemical Formula:** $Pb(C_2H_3O_2)_2 \cdot 3H_2O$
3 4 **IMCO/United Nations Numerical Designation:** 9, 1616

4 OBSERVABLE CHARACTERISTIC

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White (commercial grades are frequently brown or grey lumps)
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Dust mask and protective gloves
5 2 **Symptoms Following Exposure** Early symptoms of lead intoxication via inhalation or ingestion are most commonly gastrointestinal disorders, colic, constipation, etc., weakness, which may go on to paralysis, chiefly of the extensor muscles of the wrists and less often of the ankles. Noticeable in chronic serious cases. Ingestion of a large amount causes loss of alimentary tract pain, leg cramps, muscle weakness, paresthesias, depression, coma, and death may follow in 1 or 2 days. Contact with eyes causes irritation
5 3 **Treatment for Exposure.** Remove at once all cases of lead intoxication from further exposure until the blood level is reduced to a safe value; immediately place the individual under medical care. INGESTION: give gastric lavage using 1% solution of sodium or magnesium sulfate. Leave 15–30 gm magnesium sulfate in ½ cup of water in the stomach as antidote and cathartic. Egg white, milk, and tannin are useful demulcents. Atropine sulfate and other antispasmodics may relieve abdominal pain, but morphine may be necessary. EYE or SKIN: flush with water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.2 mg/m³ (as Pb)
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 2, LD₅₀ = 5 g/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics** Data not available
5 10 **Odor Threshold.** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air.** Not flammable
6 3 **Fire Extinguishing Agents** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent
6 5 **Special Hazards of Combustion Products** Irritating acid fumes may be formed in fires

NOTES

LAR — LEAD ARSENATE

Common Synonyms
Lead arsenate acid
Plumbous arsenate

Solid | White | Odorless

Sinks in water

AVOID CONTACT WITH SOLID. Keep people away.
Notify local health and pollution control agencies.
Protect water intakes.
Notify operators of canals, reservoirs, and other water supplies.

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID
SOLID
POISONOUS IF SWALLOWED
IF SWALLOWED and victim is CONSCIOUS, have victim drink water, milk, and induce vomiting.
SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS: Do not induce vomiting. Keep victim warm.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intake.
Notify operators of canals, reservoirs, and other water supplies.
Notify local health and wildlife officials.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

In case of fire, keep drums, containers, and surroundings cool with water spray.
Should be removed.
Chemical and physical treatment.

2. LABEL

POISON

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Lead arsenate acid
Plumbous arsenate

3.2 **Coast Guard Compatibility Classification**
Not applicable

3.3 **Chemical Formula:** $PbHAsO_4$

3.4 **IMCO United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White

4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Dust respirator, protective clothing to prevent skin contamination or ingestion. Eye protection.

5.2 **Symptoms Following Exposure** Inhalation or ingestion causes dizziness, headache, pain in joints, cramps, and paralysis, coma. Subacute dose causes inability, loss of weight, anemia, constipation. Blue line and urine concentrations of lead in case.

5.3 **Treatment for Exposure** Vapor: no medical treatment is used for exposure to this chemical. Call a physician immediately. Give victim a tablespoon of salt in glass of warm water and repeat until vomit is clear. Then give two tablespoons of epsom salt in milk of magnesia in half a glass of water. Have victim lie down and keep quiet.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Not established

5.5 **Short-Term Inhalation Limits:** Not determined

5.6 **Toxicity by Ingestion** Grade 4. Probable oral lethal dose (human) 5 to 50 grams / kg

5.7 **Late Toxicity** Lead poisoning

5.8 **Vapor (Gas) Irritant Characteristics.** Not pertinent

5.9 **Liquid or Solid Irritant Characteristics.** None

5.10 **Odor Threshold:** Not determined

6 FIRE HAZARDS

Evacuate unnecessary personnel
Ventilate closed spaces before entering
Remove all sources of ignition
Dike for containment
Recover free liquid
Dispose of absorbent

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Nitrate of lead; Plumbi nitrate
3.2 **Coast Guard Compatibility Classification:** Not Listed
3.3 **Chemical Formula:** $Pb(NO_3)_2$
3.4 **IMCO/United Nations Numerical Designation:** 1469

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Solid
4.2 **Color:** White
4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust mask and protective gloves
5.2 **Symptoms Following Exposure:** Early symptoms of lead intoxication via inhalation or ingestion are nonspecific, commonly gastrointestinal in nature, and consist of nausea, vomiting, colic, constipation or diarrhea, anorexia which may be accompanied by a sweet taste. In the extreme cases of the nervous and kidney dysfunction may be noticeable. The nervous system is the target and most characteristic effect is encephalopathy. Early symptoms may be insomnia, irritability, headache, dizziness, fatigue and muscle weakness, paresthesias, depression, coma and death may follow. Chronic exposure may cause anemia, loss of appetite, constipation, abdominal pain, colic, vomiting, and severe weight loss. Lead is a cumulative poison. Acute exposure may cause severe abdominal pain, bloody diarrhea, nausea, vomiting, and shock. Lead can cause severe kidney damage. Skin or eye exposure may cause irritation.
5.3 **Treatment for Exposure:** Remove victim to fresh air. Keep victim calm. Avoid physical exertion. If victim is not breathing, clear airway and apply artificial respiration, preferably with a demand valve resuscitator, such as inhalator or pulmotor. Do not use direct mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Call a physician immediately. Keep victim under medical observation and in bed. Keep victim warm and quiet. Have victim rinse mouth thoroughly with water. If victim is conscious and alert, induce vomiting by having victim drink two glasses of water or milk. Induce vomiting by touching back of throat with finger or by giving an emetic. Repeat until vomitus is clear. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention. Remove victim immediately to hospital. Call a physician. Keep victim under observation and in bed. Keep victim calm and

LTT — LEAD TETRAACETATE

Common Synonyms
Lead IV acetate

Wet Crystals — Lavender Pink — Vinegar like Odor

Reacts with water

[illegible]

Fire

Not flammable
Will increase the intensity of a fire

Exposure

CAUTION [illegible]
LIQUID SOLID
Irritating to skin and eyes
If swallowed will cause nausea vomiting or loss of consciousness
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
[illegible]

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-6

[illegible]
Restrict access
Dispose and flush

2 LABEL

OXIDIZER

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Lead IV acetate
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** $Pb(CH_3COO)_4$ CH_3COOH
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Crystals with a [illegible] acetic acid
4.2 **Color:** [illegible]
4.3 **Odor:** [illegible] vinegar

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield rubber gloves
5.2 **Symptoms Following Exposure:** Early symptoms of lead [illegible] are [illegible] gastrointestinal disorders [illegible] paralysis chiefly of the extensor muscles of the wrists and less often of the ankles is noticeable in the most serious cases. Ingestion of a large amount causes [illegible] [illegible] [illegible]

LTC — LEAD THIOCYANATE

Common Synonyms			
Lead sulfocyanate	Solid	White	Odorless
	Sinks and mixes with water		

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED WHEN HEATED

Exposure

DUST
POISONOUS IF INHALED
If inhaled will cause dizziness or loss of consciousness

SOLID
Irritating to skin and eyes
If swallowed will cause nausea, vomiting or loss of consciousness

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

POISON

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Lead sulfocyanate
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $Pb(SCN)_2$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles or face shield, rubber gloves

5 2 **Symptoms Following Exposure:** Early symptoms of lead intoxication by inhalation or ingestion are most commonly gastrointestinal disorders, colic, constipation, etc., weakness which may progress to paralysis of the extensor muscles of the wrists and less often of the ankles. In the most serious cases, ingestion of a large amount can cause loss of the sensory and motor faculties, muscle weakness, paresthesias, depression, coma and death may follow in a few days. Contact causes transient eye and mild irritation of skin.

5 3 **Treatment for Exposure:** Remove all contaminated clothing. Flush contamination from eyes or skin with water. If exposure is by inhalation, the individual should be taken to fresh air immediately. If breathing has stopped, artificial respiration should be administered. If the individual is conscious, medical aid should be obtained immediately. If ingestion has occurred, induce vomiting by giving a tablespoonful of salt in a glass of warm water. Repeat until vomit fluid is clear. Then give a solution of sodium or magnesium sulfate (one tablespoonful of salt or magnesium sulfate to a glass of water) to induce catharsis. Do not give stimulants such as caffeine and barbiturates (eg, phenobarbital) and tranquilizers such as chlordiazepoxide. Antispasmodics may relieve abdominal pain, but morphine may be necessary. EYES: flush with water for at least 15 min. SKIN: wash well with soap and water.

NOTES

LNG	# LIQUEFIED NATURAL GAS

Common Synonyms
LNG

Liquefied gas | Colorless | Odorless or weak skunk odor

Floats and boils on water. Flammable vapor cloud is produced.

Fire

FLAMMABLE
Flashback of the vapor trail may occur
May explode if ignited in confined area

Exposure

VAPOR
Not irritating to eyes, nose or throat
If inhaled, will cause dizziness, difficult breathing or loss of consciousness

LIQUID
Will cause frostbite

Water Pollution

Not harmful to aquatic life

NOTES

REVISED 1978

LPG — LIQUEFIED PETROLEUM GAS

Common Synonyms
Propane-butane(propylene)
Petrogas
LPG

Liquefied compressed gas Colorless Weak odor may have skunk odor added

Floats and boils on water. Flammable vapor cloud is produced

Stop discharge if possible. Keep people away.
Most fumigants are flammable. Keep upwind and avoid all water sources. Keep unnecessary people away; isolate hazard area and deny entry. Stay out of low areas. Ventilate closed spaces before entering. Keep out of water supply. Notify local health and pollution control officials.

Fire

FLAMMABLE
Flashback along vapor trail may occur
Containers may explode in fire
May explode if ignited in an enclosed area

Stop flow if possible.
Use water to keep fire exposed containers cool and disperse vapors. Let fire burn.

Exposure

VAPOR
Not irritating to eyes, nose and throat.
If inhaled, will cause dizziness, difficult breathing or loss of consciousness.

CALL FOR MEDICAL AID.

LIQUID
Will cause frostbite.

Wear protective clothing when risk of exposure.
Wash with soap and water.
Remove and isolate contaminated clothing and shoes.
For severe exposure, call a doctor.

Flush affected areas with plenty of water.
DO NOT RUB AFFECTED AREAS.

Water Pollution

Not harmful to aquatic life.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, Cg 446-4

Evacuate personnel.
Remove sources of ignition.
Ventilate area.

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 Synonyms Butane; Propane; Propylene; Butylene; LP-Gas; LPG
3.2 Coast Guard Compatibility Classification Paraffin or olefin
3.3 Chemical Formula C_3H_8; C_4H_{10}; C_3H_6; C_4H_8
3.4 IMCO United Nations Numerical Designation None

4 OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped) Liquefied compressed gas
4.2 Color Colorless
4.3 Odor Mild petroleum odor; LPG's are normally odorless but commercial grades usually have an added odorant

5 HEALTH HAZARDS

5.1 Personal Protective Equipment Self-contained breathing apparatus; Neoprene gloves
5.2 Symptoms Following Exposure Vapor irritating to eyes, nose and throat. Inhaled vapor causes dizziness, difficult breathing or loss of consciousness. Liquid causes frostbite.
5.3 Treatment of Exposure Remove victim to fresh air; apply artificial respiration if not breathing; keep warm and quiet; get medical attention.
5.4 Toxicity by Inhalation (Threshold Limit Value) 1000 ppm
5.5 Short-Term Inhalation Limits Data lacking
5.6 Toxicity by Ingestion Not toxic
5.7 Late Toxicity None
5.8 Vapor (Gas) Irritant Characteristics Vapor causes irritation of eyes, nose and throat.
5.9 Liquid or Solid Irritant Characteristics. Liquid causes frostbite. Prolonged contact with skin may cause irritation. Wash with soap and water. Wear protective clothing when risk of exposure.
5.10 Odor Threshold 1000 ppm

6 FIRE HAZARDS

6.1 Flash Point Propane -156°F (CC); -104°F (OC); Butane -76°F (CC); -60°F (OC)
6.2 Flammable Limits in Air. Propane 2.37 - 9.5 volume percent; Butane 1.86 - 8.4 volume percent
6.3 Fire Extinguishing Agents Water may not be effective as an extinguishing agent but should be used to cool containers exposed to fire. Water fog is preferred.
6.4 Fire Extinguishing Agents Not to be Used Water directly in containers
6.5 Special Hazards of Combustion Products Not pertinent
6.6 Behavior in Fire Containers may explode in fire. Vapor may travel to source of ignition and flash back. Containers should be cooled with water from unmanned hose holders or monitor nozzles.

NOTES

LAH — LITHIUM ALUMINUM HYDRIDE

Common Synonyms
LAH

Solid powder | White to gray | Odorless

Reacts violently with water. Flammable gas is produced.

Avoid contact with solid and dust
Wear protective clothing including gloves
Stop leak if possible. Keep people away
Shut off ignition sources and call fire department
Isolate area until gas has dispersed
Notify local health and pollution control agencies

Fire

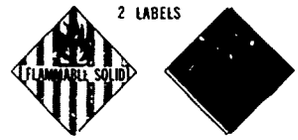
FLAMMABLE
Flammable gas is released on contact with water, metals or acids
Wear rubber gloves, clothing, and footwear
DO NOT USE WATER, DRY CHEMICAL, CARBON DIOXIDE OR FOAM
Extinguish with powdered limestone or powdered graphite

Exposure

CALL FOR MEDICAL AID

SOLID
Will burn skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES: Hold eyelids apart. Flush with plenty of water
IF SWALLOWED and victim CONSCIOUS: Induce vomiting; give water

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

3.2 **Coast Guard Compatibility Classification** Not applicable
3.3 **Chemical Formula** $LiAlH_4$
3.4 **IMCO United Nations Numerical Designation** 4.3/1410

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Solid
4.2 **Color** White to gray
4.3 **Odor** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Rubber gloves, full face shield
5.2 **Symptoms Following Exposure** Contact with solid and dust causes severe burns to eyes, skin and mucous membranes; ingestion causes severe caustic burns
5.3 **Treatment for Exposure** Do not induce vomiting. Wash skin with soap and water. Wash affected areas with large amounts of water. Provide artificial respiration if necessary
5.4 **Toxicity by Inhalation (Threshold Limit Value)** Not established
5.5 **Short-Term Inhalation Limits** Not established
5.6 **Toxicity by Ingestion** Data not available
5.7 **Late Toxicity** Data not available
5.8 **Vapor (Gas) Irritant Characteristics** Not pertinent
5.9 **Liquid or Solid Irritant Characteristics** Moisture on eyes will cause severe burns
5.10 **Odor Threshold** Not established

6. FIRE HAZARDS

6.1 **Flash Point** Solid
6.2 **Flammable Limits in Air** Not pertinent
6.3 **Fire Extinguishing Agents.** Powdered graphite, powdered salt or powdered limestone
6.4 **Fire Extinguishing Agents Not to be Used** Do NOT use water, sodium acid carbonate, carbon dioxide or dry chemical
6.5 **Special Hazards of Combustion Products** Data not available
6.6 **Behavior in Fire.** Decomposes at 257°F to form hydrogen. The hydrogen generated may ignite and/or explode
6.7 **Ignition Temperature** Data not available
6.8 **Electrical Hazard** Class I, Group B
6.9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water.** Reacts violently with water as a solid or when dissolved in ether. The hydrogen produced by the reaction with water is a major hazard and necessitates adequate ventilation
7.2 **Reactivity with Common Materials:** Can burn in heated or moist air
7.3 **Stability During Transport** Normally stable, unstable at high temperatures
7.4 **Neutralizing Agents for Acids and Caustics** Not pertinent
7.5 **Polymerization** Not pertinent
7.6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity** Data not available
8.2 **Waterfowl Toxicity** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential** None

NOTES

REVISED 1978

LHD	# LITHIUM HYDRIDE

Common Synonyms

Solid Crystals are gray or blue; powder is white Odorless

Reacts violently with water
Flammable gas is produced

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY.
Wear full eye protection and full protective clothing.
Stay upwind.
Isolate spill or leak area for at least
Notify local health and pollution control agencies.

Fire

Combustible
Irritating flammable gas may be produced when heated.
Extinguish with dry chemical powder or burrow powder.
DO NOT USE WATER, FOAM, CARBON DIOXIDE OR OTHER CHEMICALS ON FIRE OR ADJACENT AREA.

Exposure

ALL FORMS MEDICAL AID

DUST
POISONOUS IF INHALED
If inhaled will cause coughing or difficult breathing
Remove victim to fresh air; if not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, trained personnel should give oxygen. Keep victim warm and quiet. Get medical attention.

SOLID
Will burn skin and eyes
If swallowed will cause nausea or loss of consciousness
Remove victim to fresh air.
Flush eyes with plenty of water.
IF IN EYES: Hold eyelids apart and flush with plenty of water.
IF SWALLOWED: Induce VOMITING as directed by medical personnel.
IF SWALLOWED by victim UNCONSCIOUS OR HAVING CONVULSIONS: Do not induce vomiting. Get medical attention.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4.

Isolate, warning, hazard, flammability, corrosive.
Restrict access.
Dike, and flush with water.

2 LABELS

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** No common synonyms
3.2 **Coast Guard Compatibility Classification** Not listed
3.3 **Chemical Formula** LiH
3.4 **IMCO/United Nations Numerical Designation** 1414

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Solid
4.2 **Color** Gray, blue crystalline material; fine powder and material ranges in color from white to gray
4.3 **Odor** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Gloves, boots, and full protective clothing. Breathing apparatus if dusty.
5.2 **Symptoms Following Exposure** Irritation of eyes, nose, throat, and lungs. Severe burns of skin and eyes. Exposure to dust may cause coughing, difficult breathing, and loss of consciousness. Contact with moisture on skin, eyes, or mucous membranes causes irritation.
5.3 **Treatment for Exposure** *Victim should not be left unattended.* Remove victim to fresh air; if not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, trained personnel should give oxygen. Get medical attention. INHALATION: Keep victim warm and quiet. Get medical attention as soon as possible. INGESTION: Do not induce vomiting unless directed by medical personnel. EYES: Flush with plenty of water for at least 15 minutes. Get medical attention. SKIN: Wash with plenty of water.
5.4 **Toxicity by Inhalation (Threshold Limit Value)** 0.025 mg/m³
5.5 **Short-Term Inhalation Limits** Data not available
5.6 **Toxicity by Ingestion** Not established
5.7 **Late Toxicity** Data not available
5.8 **Vapor (Gas) Irritant Characteristics** Data not available
5.9 **Liquid or Solid Irritant Characteristics** Data not available
5.10 **Odor Threshold** Does not stand alone

6 FIRE HAZARDS

6.1 **Flash Point** Not pertinent (combustible solid)
6.2 **Flammable Limits in Air** Not pertinent
6.3 **Fire Extinguishing Agents** Dry chemical, graphite or lithium chloride
6.4 **Fire Extinguishing Agents Not to be Used** Never use water, foam, carbon dioxide, halogenated hydrocarbons, or vaporizing liquids
6.5 **Special Hazards of Combustion Products** Irritating flammable gas may be produced
6.6 **Behavior in Fire** Material decomposes when heated to produce flammable hydrogen gas. Reacts violently with water to produce heat and flammable gas which may explode or burn
6.7 **Ignition Temperature** 392°F
6.8 **Electrical Hazard** Not pertinent
6.9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water** Reacts violently with water to form flammable hydrogen gas and strong caustic solution; ignition may occur, especially with powder
7.2 **Reactivity with Common Materials** May ignite combustibles (wood, paper, oil, etc.) if they are damp
7.3 **Stability During Transport** Stable if dry and moisture is excluded
7.4 **Neutralizing Agents for Acids and Caustics** Residues should be washed with water, then treated with dilute acetic acid
7.5 **Polymerization** Not pertinent
7.6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity** Data not available
8.2 **Waterfowl Toxicity** Data not available
8.3 **Biological Oxygen Demand (BOD)** Not pertinent
8.4 **Food Chain Concentration Potential** None

Use back of page for notes.

NOTES

LTM	# LITHIUM, METALLIC

Common Synonyms

Soft solid | White to light silver | Odorless

Reacts violently with water
Flammable gas is produced

AVOID CONTACT WITH SOLID. KEEP PEOPLE AWAY.
Wear protective clothing including eyes
Call fire department
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
Irritating gases may be produced when heated

Wear goggles and self-contained breathing apparatus
Extinguish with dry graphite, sodium chloride or special powder
DO NOT USE WATER, FOAM, DRY CHEMICALS OR CARBON DIOXIDE ON FIRE
DO NOT USE WATER OR FOAM ON ADJACENT FIRES

Exposure

CALL FOR MEDICAL AID
SOLID
Will burn skin and eyes
Harmful if swallowed

Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES: Hold eyelids apart and flush with plenty of water
IF SWALLOWED: Induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS or having CONVULSIONS: Do nothing; keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

Notify local health and wildlife officials
Notify operators of nearest water intakes

1 RESPONSE TO DISCHARGE

Remove all sources of ignition
Use clean, non-sparking tools to collect spilled material
Place in loosely covered plastic container for later disposal
Flush area with flooding amounts of water

2 LABELS

3 CHEMICAL DESIGNATIONS

- Synonyms: None
- Coast Guard Compatibility Classification: None
- Chemical Formula: Li
- IMCO/United Nations Numerical Designation: 1415

4 OBSERVABLE CHARACTERISTICS

- Physical State (as shipped): Solid
- Color: Silvery white
- Odor: None

5 HEALTH HAZARDS

Personal Protective Equipment: Goggles, self-contained breathing apparatus, protective clothing

Symptoms Following Exposure: Irritation of eyes, skin, nose, throat; burns; nausea; vomiting; convulsions

Treatment for Exposure: Call for medical aid. Remove contaminated clothing and shoes. Flush affected areas with plenty of water. IF IN EYES: Hold eyelids apart and flush with plenty of water. IF SWALLOWED: Induce vomiting. IF SWALLOWED and victim is UNCONSCIOUS or having CONVULSIONS: Do nothing; keep victim warm.

Toxicity by Inhalation (Threshold Limit Value): Not established

Short Term Inhalation Limits: Not established

Toxicity by Ingestion: Moderately toxic

Late Toxicity: Not established

Vapor (Gas) Irritant Characteristics: Not established

Liquid or Solid Irritant Characteristics: Solid is irritating to eyes, skin, nose, throat

Odor Threshold: Not established

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent
Combustible solid

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Graphite, sodium chloride

6.4 **Fire Extinguishing Agents Not to be Used:** Water, sand, halogenated hydrocarbons, carbon dioxide, soda acid or dry chemical

6.5 **Special Hazards of Combustion Products:** Strongly alkaline fumes are released in fire

6.6 **Behavior in Fire:** Molten lithium is quite easily ignited and is then difficult to extinguish. Hot or burning lithium will react with all gases except those of the helium group. It also reacts violently with water, wood, asphalt, sand, asbestos, and in fact can cause ignition of organic materials. Does not react with aluminum. Hydrogen is produced in reaction with water.

Continued on page 4

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water.** Reacts violently to form flammable hydrogen gas and strong caustic solution. Ignition usually occurs

7.2 **Reactivity with Common Materials.** May ignite combustible materials if they are dry

7.3 **Stability During Transport:** Stable if dry and moisture are excluded

7.4 **Neutralizing Agents for Acids and Caustics:** Residues should be flushed with water, then rinsed with dilute acetic acid

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** None

8.4 **Food Chain Concentration Potential:** None

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** 31 500 Btu/lb = 17 500 cal/g = 733×10^8 J/kg

13.16 **Heat of Polymerization:** Not pertinent

6 FIRE HAZARDS (Cont'd)

6.7 **Ignition Temperature:** 180°C

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

MGX	# MAGNESIUM

Common Synonyms	Solid	Silvery	Odorless
	Sinks in water		

Call fire department
Stop discharge if possible Keep people away
Isolate and deny entry (evacuate if necessary)
Notify local health and pollution control agencies

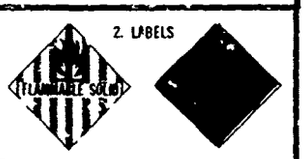
Fire

FLAMMABLE
Extinguish with dry graphite sodium chloride dry inert powder
DO NOT USE WATER FOAM CARBON DIOXIDE DRY CHEMICALS OR VAPORIZING LIQUID ON FIRE

Exposure

Call for medical aid
SOLID
Irritating to eyes
Harmful if swallowed
IF IN EYES Hold eyes open and flush with plenty of water
IF SWALLOWED If victim is CONSCIOUS give water drink water or milk

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
Should not be moved
Chemical and physical treatment

2. LABELS

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** No common synonyms
3.2 **Coast Guard Compatibility Classification** Not applicable
3.3 **Chemical Formula** Mg
3.4 **IMCO/United Nations Numerical Designation:**
Pellet, turnings or ribbon 4.1 1869
Powder, non pyrophoric 4.3 1418

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Solid
4.2 **Color** Silvery looks like aluminum
4.3 **Odor** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Eye protection
5.2 **Symptoms Following Exposure.** Dust irritates eyes in same way as any foreign material Penetration of skin by fragments of metal is likely to produce local irritation blisters and ulcers which may become infected
5.3 **Treatment for Exposure** EYES flush with water to remove dust SKIN treat as any puncture
5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available
5.5 **Short-Term Inhalation Limits** Not pertinent
5.6 **Toxicity by Ingestion** Minimum LDL (lowest lethal dose) = 230 mg/kg (rat)
5.7 **Late Toxicity** Data not available
5.8 **Vapor (Gas) Irritant Characteristics.** Not pertinent
5.9 **Liquid or Solid Irritant Characteristics.** Data not available
5.10 **Odor Threshold** Not pertinent

6 FIRE HAZARDS

6.1 **Flash Point** Not pertinent (solid)
Flammable when in the form of fine chips or powder
6.2 **Flammable Limits in Air** Not pertinent
6.3 **Fire Extinguishing Agents** Inert dry powders (e.g. graphite limestone salt)
6.4 **Fire Extinguishing Agents Not to be Used.** Water foam halogenated agents carbon dioxide
6.5 **Special Hazards of Combustion Products** Not pertinent
6.6 **Behavior in Fire** Burns with dense white smoke Flame is very bright
6.7 **Ignition Temperature.** 883°F
6.8 **Electrical Hazard.** Class I Group B
6.9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water.** In finely divided form reacts with water and acids to release flammable hydrogen gas
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport.** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization.** Not pertinent
7.6 **Inhibitor of Polymerization** Not pertinent

NOTES

MPC	# MAGNESIUM PERCHLORATE

Common Synonyms	Solid	White	Odorless
Anhydrone Dehydrite Magnesium perchlorate anhydrous Magnesium perchlorate hexahydrate	Sinks and mixes with water		

[illegible] contact with [illegible] and [illegible] keep people away.
Stop discharge if possible.
Isolate and remove spilled material [illegible].
Notify [illegible] personnel [illegible].

Fire

Not flammable
May cause fire on contact with combustibles
Will increase the intensity of a fire
[illegible]

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause difficult breathing
[illegible] with plenty of water
[illegible] get medical attention
[illegible]

SOLID
Irritating to skin and eyes
If swallowed will cause nausea, vomiting or loss of consciousness
Remove contaminated clothing at once
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water, milk or other non-toxic liquid
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS [illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4)

Issue warning - oxidizing material
Restrict access
Disperse and flush

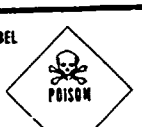
Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: poison / water contaminant
Restrict access
Spill should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** CYTHION Insecticide
S-[1,2-Bis(ethoxycarbonyl) ethyl] O,O-dimethyl phosphorodithioate

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $C_{10}H_{19}O_6PS_2$

3.4 **IMCO/United Nations Numerical Designation:** 6.1/1893

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Yellow to dark brown

4.3 **Odor:** Characteristic skunk like mercaptan

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Wear self-contained breathing apparatus (or respirator for organophosphate pesticides) and rubber clothing while fighting fires of malathion with chlorine bleach solution. All clothing contaminated by fumes and vapors must be decontaminated.

5.2 **Symptoms Following Exposure:** Exposure to fumes from a fire or to liquid causes headache, blurred vision, constricted pupils of the eyes, weakness, nausea, cramps, diarrhea and tightness in the chest. Muscles twitch and convulsions may follow. The symptoms may develop over a period of 8 hours.

5.3 **Treatment for Exposure:** *Speed is essential.* INHALATION: In the nonbreathing victim *immediately* institute artificial respiration, using the mouth-to-mouth, the mouth-to-nose or the mouth-to-oropharyngeal method. *Call physician!* INGESTION: administer milk, water or salt water and induce vomiting repeatedly. SKIN OR EYE CONTACT: flood and wash exposed skin areas *thoroughly* with water. Remove contaminated clothing under a shower. Administer atropine, 2 mg (1/30 gr) intramuscularly or intravenously as soon as any local or systemic signs or symptoms of an intoxication are noted; repeat the administration of atropine every 3-8 min. until signs of atropinization (mydriasis, dry mouth, rapid pulse, hot and dry skin) occur. Initiate treatment in children with 1 mg of atropine. Watch respiration and remove bronchial secretions if they appear to be obstructing the airways; intubate if necessary. Give 2-PAM (Pralidoxime, *Protopam*) 2.5 gm in 100 ml of sterile water or in 5% dextrose and water intravenously slowly in 15-30 min. If sufficient fluid is not available, give 1 gm of 2-PAM in 3 ml of distilled water by deep intramuscular injection; repeat this every half hour if respiration weakens or if muscle fasciculation or convulsions recur.

6. FIRE HAZARDS

6.1 **Flash Point:** >325°F

6.2 **Flammable Limits in Air:** Data not available

6.3 **Fire Extinguishing Agents:** Dry chemical, carbon dioxide, water spray, foam

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Vapors and fumes from fires are hazardous. They include sulfur dioxide and phosphoric acid.

6.6 **Behavior in Fire:** Gives off hazardous fumes. Area surrounding fire should be diked to prevent water runoff.

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** None

7.2 **Reactivity with Common Materials:** No hazardous reaction

7.3 **Stability During Transport:** Not pertinent

7.4 **Neutralizing Agents for Acids and Caustics.** Liquid bleach solution for decontamination

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:**
0.09 ppm/96 hr/bluegill/TL_m/fresh water
0.033-0.083 ppm/96 hr/marine crustacean/LC_{50}

8.2 **Waterfowl Toxicity:** LD_{50}=1485 mg/kg

8.3 **Biological Oxygen Demand (BOD)** Data not available

8.4 **Food Chain Concentration Potential** None

9 SELECTED MANUFACTURERS

American Cyanamid Co.
Agricultural Division
P.O. Box 400
Princeton, N.J. 08540

10 SHIPPING INFORMATION

10.1 **Grades or Purity:** CYTHION Insecticide, Malathion ULV Concentrate Insecticide. Many powders, dusts and sprays solutions are sold under a variety of trade names.

10.2 **Storage Temperature:** Below 120°F. Decomposition (non hazardous) occurs at higher temperatures.

10.3 **Inert Atmosphere:** Data not available

10.4 **Venting:** Data not available

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 446-3)

A-X-1

12. HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:** Poisonous liquid or solid, Class B

12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

12.3 **NFPA Hazard Classifications.** Not listed

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid

13.2 **Molecular Weight:** 330.36

13.3 **Boiling Point at 1 atm.** Very high

13.4 **Freezing Point.** 37°F = 2.9°C = 276°K

13.5 **Critical Temperature:** Not pertinent

13.6 **Critical Pressure:** Not pertinent

13.7 **Specific Gravity:** 1.234 at 25°C (liquid)

13.8 **Liquid Surface Tension.** 37.1 dynes/cm = 0.0371 N/m at 24°C

13.9 **Liquid-Water Interfacial Tension:** 19 dynes/cm = 0.019 N/m at 24°C

13.10 **Vapor (Gas) Specific Gravity** Not pertinent

13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent

13.12 **Latent Heat of Vaporization:** Not pertinent

13.13 **Heat of Combustion:** Data not available

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution.** Not pertinent

13.16 **Heat of Polymerization.** Not pertinent

(Continued on pages 5 and 6)

5. HEALTH HAZARDS (Cont'd.)

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 10 mg/m³

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion:** Grade 2, LD_{50} 5 to 15 g/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** None likely

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** Data not available

NOTES

MLA — MALEIC ANHYDRIDE

Common Synonyms Toxilic anhydride cis-Butenedioic anhydride	Molten, or solid crystals or tablets Colorless Choking odor Sinks and mixes slowly with water

Avoid contact with solid and liquid. Keep people away.
Wear goggles with self-contained breathing apparatus and rubber coveralls including gloves.
Stop discharge if possible.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible.
Dust cloud may be ignited by spark or flame.
Wear goggles with self-contained breathing apparatus and rubber coveralls including gloves.
Extinguish with dry chemical, alcohol foam, carbon dioxide.
Water may be ineffective on fire.

Exposure

CALL FOR MEDICAL AID.

LIQUID OR SOLID
Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is conscious, have victim drink water (two glasses).

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4.

Disperse and flush.

2. LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** cis-Butenedioic anhydride
2,5-Furanedione
Toxilic anhydride

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $C_4O_3H_2$

3.4 **IMCO United Nations Numerical Designation.** 9.0

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Solid or liquid

4.2 **Color:** Colorless

4.3 **Odor:** Acrid, choking

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Approved organic vapor-acid gas canister, chemical goggles and face shield, rubber gloves and boots, coveralls, rubber apron.

5.2 **Symptoms Following Exposure:** Inhalation causes coughing, sneezing, throat irritation. Skin contact causes irritation and redness. Vapors cause severe eye irritation, photophobia and double vision may occur.

5.3 **Treatment for Exposure:** INHALATION: give oxygen. EYE OR SKIN CONTACT: flush with large amounts of water for at least 15 min; for eyes, call a physician. For solid, molten: burns require water and treat as chemical and thermal burn.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.25 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2; LD50 = 0.5 g/kg

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics.** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure; may cause secondary burns on long exposure.

5.10 **Odor Threshold:** 1.3 - 2.9 mg/m^3

6 FIRE HAZARDS

6.1 **Flash Point:** (Liquid) 215°F C.C., 240°F O.C.

6.2 **Flammable Limits in Air:** 1.4% - ?%

6.3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical or carbon dioxide.

6.4 **Fire Extinguishing Agents Not to be Used:** Water or foam may cause frothing.

6.5 **Special Hazards of Combustion Products:** Not pertinent.

6.6 **Behavior in Fire:** When heated above 400°F in the presence of various materials may generate heat and carbon dioxide will explode if confined.

6.7 **Ignition Temperature:** 890°F

6.8 **Electrical Hazard:** Class I, Group D

6.9 **Burning Rate:** 1.4 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Hot water may cause boiling. Reacts with cold water to form acid and is hazardous.

7.2 **Reactivity with Common Materials.** No reaction.

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Solid spills, if any, should be covered before any significant reaction with water occurs. Flush area of spill with water.

7.5 **Polymerization:** Very unlikely at ordinary temperatures, even in the molten state.

7.6 **Inhibitor of Polymerization.** None

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 150 ppm/24 hr/sunfish/TL$_m$/fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** 50% theory

8.4 **Food Chain Concentration Potential:** None

POISON

3 CHEMICAL DESIGNATIONS

3.1 Synonyms: Mercuric ammonium chloride, Ammoniated mercury, Mercuric chloride, ammoniated, Mercuric ammonium chloride, Mercuric chloride, ammoniated
3.2 Coast Guard Compatibility Classification: Not applicable
3.3 Chemical Formula: $HgNH_2Cl$
3.4 IMCO/United Nations Numerical Designation: Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped): Solid
4.2 Color: White
4.3 Odor: None

5 HEALTH HAZARDS

5.1 Personal Protective Equipment: Gloves, goggles, respirator
5.2 Symptoms Following Exposure: The general symptoms [illegible] developing rapidly after ingestion [illegible] severe gastroenteritis [illegible] and ulceration. Skin contact may cause [illegible] Ingestion causes a strong metallic taste and burning in mouth, throat, and upper abdomen
5.3 Treatment for Exposure: Have person seek medical attention promptly. EYES OR SKIN: flush with water. INGESTION: call a physician immediately. Induce vomiting with water, keep also warm. Call in glass of water repeatedly. Induce vomiting with white of egg
5.4 Toxicity by Inhalation (Threshold Limit Value): [illegible]
5.5 Short-Term Inhalation Limits: Data not available
5.6 Toxicity by Ingestion: Data not available
5.7 Late Toxicity: Internal bleeding and kidney damage may develop
5.8 Vapor (Gas) Irritant Characteristics: Data not available
5.9 Liquid or Solid Irritant Characteristics: Data not available
5.10 Odor Threshold: Not pertinent

6 FIRE HAZARDS

6.1 Flash Point: Not flammable
6.2 Flammable Limits in Air: Not flammable
6.3 Fire Extinguishing Agents: Not pertinent
6.4 Fire Extinguishing Agents Not to be Used: Not pertinent
6.5 Special Hazards of Combustion Products: Smoke may contain toxic mercury compounds
6.6 Behavior in Fire: Not pertinent
6.7 Ignition Temperature: Not pertinent
6.8 Electrical Hazard: Not pertinent
6.9 Burning Rate: Not pertinent

7. CHEMICAL REACTIVITY

7.1 Reactivity with Water: No reaction
7.2 Reactivity with Common Materials: No reaction
7.3 Stability During Transport: Stable
7.4 Neutralizing Agents for Acids and Caustics: Not pertinent
7.5 Polymerization: Not pertinent
7.6 Inhibitor of Polymerization: Not pertinent

8. WATER POLLUTION

8.1 Aquatic Toxicity:
0.2 ppm 2 hr. minnow lethal fresh water
0.323 ppm * bivalve larvae lethal salt water
*Time period not specified
8.2 Waterfowl Toxicity: Data not available
8.3 Biological Oxygen Demand (BOD): Not pertinent
8.4 Food Chain Concentration Potential: Data not available

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** $HgCl_2$

3.4 **IMCO/United Nations Numerical Designation:** 9 / 1624

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White crystals

4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Be Water approved airline respirator, personnel not appropriate except for escape

5.2 **Symptoms Following Exposure:** Effects of exposure to this compound are believed to be cumulative, irreversible in man for fatal within a few minutes, but death is generally preceded by several days. Acute poisoning has resulted from inhaling dust concentrations of [illegible] mg/m³ of air; symptoms include tightness and pain in chest, coughing and difficulty in breathing. Ingestion causes severe pain, vomiting and severe purging; as little as 0.3 gm can be fatal. Contact with eyes causes inflammation of conjunctiva and cornea. Contact with skin causes irritation and possible dermatitis; systemic poisoning can occur by absorption through skin.

5.3 **Treatment for Exposure:** Get prompt [illegible] if eyes exposed, flush for [illegible] minutes, determine the proper [illegible]. INHALATION remove victim to fresh air, get medical attention. INGESTION give egg white, milk or activated charcoal, induce vomiting, consult physician. EYES or SKIN wash with water for 15 min.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.1 mg/m³

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 4, Rat LD_{50} = [illegible] mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Heat of fire may cause material to form fumes of mercuric chloride which are toxic

6.6 **Behavior in Fire:**

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:**

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
0.42 ppm 7 days Goldfish TL$_m$ fresh water
0.05 gm 48 hr punkinseed TL$_m$ salt water
0.2 ppm 48 hr oyster TL$_m$ sea water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** None

8.4 **Food Chain Concentration Potential:** Many organisms are capable of accumulating mercury from water. Bioconcentrating up to 10,000-fold

Issue warning: poison water contaminant
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Cianurina, Mercury cyanide, Mercury (II) cyanide
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $Hg(CN)_2$
3 4 **IMCO/United Nations Numerical Designation:** 6 1/1636

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Colorless or white
4 3 **Odor:** None

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment** Dust mask, goggles or face shield, rubber gloves

5 2 **Symptoms Following Exposure:** Symptoms of both cyanide and mercury intoxication can occur. Acute poisoning has resulted from inhaling dust concentrations of 1.2 - 8.5 mg/m³ of air. symptoms include tightness and pain in chest, coughing, and difficulty in breathing. cyanide poisoning can cause anxiety, confusion, dizziness, and shortness of breath with possible unconsciousness, convulsions, and paralysis. breath may smell like bitter almonds. Ingestion causes necrosis, pain, vomiting, and severe purging, plus the above symptoms. Contact with eyes causes ulceration of conjunctiva and cornea. Contact with skin causes irritation and possible dermatitis. systemic poisoning can occur by absorption through skin.

5 3 **Treatment for Exposure:** *Act quickly, call physician.* INHALATION: if victim has stopped breathing, start artificial respiration immediately. using amyl nitrite pearls, administer amyl nitrite by inhalation for 15 - 30 seconds of every minute while sodium nitrite solution is being prepared. discontinue amyl nitrite and immediately inject intravenously 10 ml of a 3% solution of sodium nitrite (nonsterile if necessary) over a period of 2 - 4 min., without removing needle, infuse intravenously 50 ml of a 25% aqueous solution of sodium thiosulfate. injection should take about 10 min. (concentrations of 5 - 50% may be used, but keep total dose approx. 12 gm). Oxygen therapy may be helpful in combination with the above. INGESTION: *alimentary absorption is very rapid; action during first 10 - 15 min. determines prognosis.* Give egg whites, milk, or activated charcoal and induce vomiting. treat for cyanide poisoning as above. EYES: wash with water for 15 min.

5 4 **Toxicity by Inhalation (Threshold Limit Value)** 0.05 mg/m³ (as mercury)

5 5 **Short-Term Inhalation Limits:** Data not available

(Continued on page 4)

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents:** Not pertinent

NOTES

MOX

MERCURIC OXIDE

Common Synonyms
Mercuric oxide, red
Mercuric oxide yellow
Mercury oxide

Solid | Red orange or yellow | Odorless

Sinks in water

AVOID CONTACT WITH SOLID AND DUST KEEP PEOPLE AWAY
Wear dust respirator and rubber overclothing including gloves
Stop discharge if possible
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Not flammable
Will increase the intensity of a fire
POISONOUS GASES MAY BE PRODUCED WHEN HEATED

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
If inhaled will cause coughing or difficult breathing
If in eyes hold eyelids open flush with plenty of water
If breathing has stopped give artificial respiration
If breathing is difficult give oxygen

SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Irritating to skin and eyes
If swallowed will cause nausea or vomiting

Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk and have victim induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do not induce vomiting keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

Notify local health and wildlife
Notify operators of nearby water [illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning poison water contaminan
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Mercuric oxide, red (Red precipitate) Mercuric oxide yellow (Yellow precipitate) Mercury oxide

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** HgO

3 4 **IMCO/United Nations Numerical Designation:** 6 1 1641

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Solid

4 2 **Color:** Red orange or yellow

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles or face shield protective gloves

5 2 **Symptoms Following Exposure:** *Acute systemic poisoning may be fatal within a few minutes death by uremic poisoning usually delayed 5 12 days* Acute poisoning has resulted from inhaling dust concentrations of 1 2 8 5 mg m³ of air symptoms include tightness and pain in chest coughing and difficulty in breathing Ingestion causes necrosis pain, vomiting and severe purging Contact with eyes causes ulceration of conjunctiva and cornea Contact with skin causes irritation and possible dermatitis systemic poisoning can occur by absorption through skin

5 3 **Treatment for Exposure:** INHALATION remove victim to fresh air, get medical attention INGESTION alimentary absorption is very rapid action during first 10 15 min determines prognosis Give egg whites milk or activated charcoal and induce vomiting, consult physician EYES flush with water for at least 15 min SKIN wash with soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0 05 mg m³ (as mercury)

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion** Cited 4 oral LD_{50} 18 mg kg (rat)

5 7 **Late Toxicity:** Cancerogen in rats

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:**

NOTES

MSF MERCURIC SULFIDE

Common Synonyms	Solid	Red or black	Odorless
Mercuric sulfide black Ethiops mineral Mercuric sulfide red Vermilion Artificial cinnabar Chinese red	Sinks in water		

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY.
Wear dust respirator and rubber overclothing including gloves.
Stop discharge if possible.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Wear goggles and self-contained breathing apparatus.
Extinguish with water, foam, or sand.
Other extinguishing agents may be ineffective on fire.

Exposure

CALL FOR MEDICAL AID.

DUST.
POISONOUS IF INHALED OR IF SKIN IS EXPOSED.
If inhaled will cause coughing or difficult breathing.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, artificial respiration.
If breathing is difficult, give oxygen.

SOLID.
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED.
Irritating to skin and eyes.
If swallowed will cause coughing, nausea and vomiting.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: water contaminant.
Should be removed.
Chemical and physical treatment.

2. LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Mercuric sulfide black (Ethiops mineral), Mercuric sulfide, red (Vermilion, Artificial cinnabar, Chinese red)

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** HgS

3.4 **IMCO/United Nations Numerical Designation:** 0.1/2024

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** Red or black

4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust mask, goggles or face shield, protective gloves.

5.2 **Symptoms Following Exposure:** Acute poisoning can result from inhaling dust concentrations of 1.2–8.5 mg m³ in air; symptoms include pain and tightness in chest, coughing, and difficulty in breathing. If ingested, toxicity depends on release of the Hg^{++} ion; chronic mercuric poisoning can cause kidney, mental, and nervous disturbances. Dust irritates eyes and frequently causes allergic dermatitis; absorption through skin can cause systemic poisoning.

5.3 **Treatment for Exposure:** INHALATION: remove to fresh air, give artificial respiration if breathing has stopped. INGESTION: give egg whites, milk, or activated charcoal, induce vomiting, consult physician. EYES: flush with water. SKIN: wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.05 mg m³ (as Hg) (skin)

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** Central nervous system affects, tremors, psychological disturbances in humans

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Odorless

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent (combustible solid)

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Water, foam, sand

6.4 **Fire Extinguishing Agents Not to be Used:** Other agents may be ineffective

6.5 **Special Hazards of Combustion Products:** Smoke from fire contains poisonous mercuric vapor and irritating sulfur dioxide gas

6.6 **Behavior in Fire:** Changes color when hot. Decomposes at burning temperature. The black form may soften, and molten sulfur may flow out and burn.

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:**

3 4 **IMCO/United Nations Numerical Designation:** 6 1/2024

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles or face shield, protective gloves

5 2 **Symptoms Following Exposure:** Acute poisoning can result from inhaling dust concentrations of 1.2 - 8.5 mg/m³ in air, symptoms include pain and tightness in chest, cough, eg, and difficulty in breathing. Compound is an irritant, cathartic, or purgative agent. "Calomel sickness" a benign reaction with fever and rash, appears after about 1 week, seldom causes systemic poisoning. May be fatal if retained to 30 - 40 mg/kg. Contact with eyes causes mild irritation.

5 3 **Treatment for Exposure:** INHALATION remove to fresh air, give artificial respiration if breathing has stopped. INGESTION give egg whites, milk, or activated charcoal, induce vomiting, consult physician. EYES flush with water. SKIN wash with soap and water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.05 mg/m³ (as mercury)

5 5 **Short-Term Inhalation Limits:** Data not available

MCR	# MERCURY

Common Synonyms			
Quicksilver	Liquid	Silver	Odoriess
	Sinks in water		

Fire	Not flammable
Exposure	LIQUID Effects of exposure may be delayed
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Quicksilver
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** Hg
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Silvery
4 3 **Odor:** None

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Avoid contact of liquid with skin For vapor use chemical cartridge (Hopcalite) respirator
5 2 **Symptoms Following Exposure:** No immediate symptoms As poisoning becomes established slight muscular tremor, loss of appetite, nausea, and diarrhea are observed Psyche, kidneys, and cardiovascular disturbances may occur
5 3 **Treatment for Exposure:** Consult a doctor
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0 05 mg m³
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** No immediate toxicity
5 7 **Late Toxicity:** Development of mercury poisoning
5 8 **Vapor (Gas) Irritant Characteristics:** None
5 9 **Liquid or Solid Irritant Characteristics:** None
5 10 **Odor Threshold:** Not pertinent

6. FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents:** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Not pertinent
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature:** Not flammable
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Not flammable

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:**
0 5 1 ppm/48 hr/carassius ardium/TL m/ fresh water
0 29 ppm/48 hr/marine fish/TL m salt water
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** None
8 4 **Food Chain Concentration Potential:** Mercury concentrates in liver and kidneys of ducks and geese to levels above FDA limit of 0 5 ppm Muscle tissue usually well below the limit

9. SELECTED MANUFACTURERS

1 Belmont Smelting and Refining Works, Inc
330 Belmont Ave
Brooklyn, N Y 11207

2 Engelhard Minerals and Chemical Corp
Philipp Bros Division
299 Park Ave
New York, N Y 10017

3 NL Industries
Goldsmith Division
900 W 18th St
Chicago, Ill 60608

10. SHIPPING INFORMATION

10 1 **Grades or Purity:** Pure
10 2 **Storage Temperature:** Ambient
10 3 **Inert Atmosphere:** No requirement
10 4 **Venting:** Open

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-3)

A-X

12. HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations:** ORM B
12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed
12 3 **NFPA Hazard Classifications:** Not listed

13. PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Liquid
13 2 **Molecular Weight:** 200 59
13 3 **Boiling Point at 1 atm:**
674°F = 357°C = 630°K
13 4 **Freezing Point:**
−38 0°F = −38 9°C = 234 3°K
13 5 **Critical Temperature:**
2664°F = 1462°C = 1735°K
13 6 **Critical Pressure:**
23,300 psia = 1587 atm = 160 8 MN/m²
13 7 **Specific Gravity:** 13 55 at 20°C (liquid)
13 8 **Liquid Surface Tension:**
470 dynes/cm = 0 470 N/m at 20°C
13 9 **Liquid-Water Interfacial Tension:**
375 dynes/cm = 0 375 N/m at 20°C
13 10 **Vapor (Gas) Specific Gravity:** Not pertinent
13 11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent
13 12 **Latent Heat of Vaporization:** Not pertinent
13 13 **Heat of Combustion:** Not pertinent
13 14 **Heat of Decomposition:** Not pertinent
13 15 **Heat of Solution:** Not pertinent
13 16 **Heat of Polymerization:** Not pertinent

(Continued on pages 3 and 4)

NOTES

REVISED 1978

MSO — MESITYL OXIDE

Common Synonyms

4-methyl-3-pent-en-2-one
Isopropylideneacetone
Methyl isobutenyl ketone

Liquid | Colorless to light yellow | Strong peppermint or honey odor

Floats and mixes with water. Flammable. Irritating vapor is produced.

Fire

FLAMMABLE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause headache, dizziness or difficult breathing.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Floating to shoreline.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-4:

Issue warning: water contaminant
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Isobutenyl methyl ketone, Isopropylideneacetone, Methyl isobutenyl ketone, 4-Methyl-3-pentene-2-one
3.2 **Coast Guard Compatibility Classification:** Ketone
3.3 **Chemical Formula:** $CH_3COCH{=}C(CH_3)_2$
3.4 **IMCO/United Nations Numerical Designation:** 9 / 1229

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless to slightly yellow
4.3 **Odor:** Strong, peppermint, honey-like

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air pack or organic canister mask, rubber gloves, goggles
5.2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat, headache, dizziness, difficult breathing. Contact with liquid or concentrated vapor causes severe eye irritation. Liquid irritates skin. Ingestion causes irritation of mouth and stomach.
5.3 **Treatment for Exposure:** INHALATION: move victim to fresh air and restore breathing, call physician. EYES: immediately flush with plenty of water for at least 15 min. SKIN: wash with water. INGESTION: give large amount of water, call physician.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 25 ppm
5.5 **Short-Term Inhalation Limits:** 1 000 ppm for 60 min
5.6 **Toxicity by Ingestion:** Female 2 rat LD_{50} = 1 120 mg/kg (rats)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.
5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first-degree burns on short exposure; may cause second-degree burns on long exposure.
5.10 **Odor Threshold:** 12 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 84°F O.C., 73°F C.C.
6.2 **Flammable Limits in Air:** Data not available
6.3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Not pertinent
6.6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back
6.7 **Ignition Temperature:** 652°F
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** 4.2 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** None

(Continued on page 1 and 6)

NOTES

MCL

METHALLYL CHLORIDE

Common Synonyms

3-Chloro-2-methylpropene
gamma-Chloroisobutylene
beta-Methallyl chloride
beta-Methylallyl chloride

Liquid | Colorless to yellow | Sharp penetrating odor

Floats on water | Flammable, irritating vapor is produced

Fire

FLAMMABLE
Irritating gases may be produced when heated
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
[illegible] with dry chemicals, [illegible]
or may be ineffective [illegible]
exposed containers [illegible]

Exposure

[illegible] medical aid

VAPOR
Harmful if inhaled
[illegible]
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

LIQUID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing promptly
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, give two glasses of water or milk and have victim induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS OR CONVULSING, DO NOTHING EXCEPT KEEP VICTIM WARM

Water Pollution

Effect of low concentrations on aquatic life is unknown
Floating to shoreline
May be dangerous if it enters water intakes
[illegible] aquatic life
[illegible] water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Issue warning: high flammability
Restrict access
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** gamma-Chloroisobutylene, 3-Chloro-2-methylpropene,beta Methallyl chloride, beta Methallyl chloride

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $CH_2=C(CH_3)CH_2Cl$

3.4 **NIOO/United Nations Numerical Designation:** [illegible] 1993

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless to straw

4.3 **Odor:** Pungent, penetrating

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic canister mask, goggles, rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat. Contact of vapor or liquid with eyes causes irritation. Liquid irritates skin. Ingestion causes irritation of mouth and stomach.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air. If breathing stops, give artificial respiration and oxygen. Subsequent treatment is symptomatic and supportive. EYES: flush with water for at least 15 min., get medical attention if exposure has been to liquid. SKIN: flush with water, get medical attention if skin is burned. INGESTION: induce vomiting and follow with gastric lavage, demulcents, and saline cathartics, get medical attention.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Data not available

13.16 **Heat of Polymerization:** Not pertinent

(Continued on page 3 and 4)

NOTES

MTH — METHANE

Common Synonyms
Marsh gas
Natural gas

Liquid or gas — Colorless — Weak odor

Liquid floats and boils on water. Flammable visible vapor cloud is produced.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
May explode if ignited in an enclosed area.

Exposure

VAPOR
Not irritating to eyes, nose or throat.
If inhaled, will cause dizziness, difficult breathing, and loss of consciousness.

LIQUID
Will cause frostbite.

Water Pollution

Not harmful to aquatic life.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-2

Issue warning: high flammables
Restrict access
Evacuate area

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Marsh gas
3.2 **Coast Guard Compatibility Classification:** Paraffin
3.3 **Chemical Formula:** CH_4
3.4 **IMCO United Nations Numerical Designation:** 2.0 (9)

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquefied gas
4.2 **Color:** Colorless
4.3 **Odor:** Weak odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus; chemical protective clothing if exposed to liquid
5.2 **Symptoms Following Exposure:** High concentrations may cause asphyxiation. No systemic effects even at 5% concentration in air
5.3 **Treatment for Exposure:** Remove to fresh air. Support respiration
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent (methane is an asphyxiant, and limiting factor is available oxygen)
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Not pertinent
5.7 **Late Toxicity:** None
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are nonirritating to the eyes and throat
5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless in brief contact because of rapid evaporation; however, prolonged contact may cause some frostbite
5.10 **Odor Threshold:** 2000 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** Flammable gas
6.2 **Flammable Limits in Air:** 5.0% – 15.0%
6.3 **Fire Extinguishing Agents:** Stop flow of gas
6.4 **Fire Extinguishing Agents Not to be Used:** Water
6.5 **Special Hazards of Combustion Products:** None
6.6 **Behavior in Fire:** Not pertinent
6.7 **Ignition Temperature:** 1004°F
6.8 **Electrical Hazard:** Class I Group D
6.9 **Burning Rate:** 12 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** None
8.2 **Waterfowl Toxicity:** None
8.3 **Biological Oxygen Demand (BOD):** None
8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

MSA	METHANEARSONIC ACID, SODIUM SALTS

Common Synonyms Disodium methane arsonate Monosodium methane arsonate MSMA DSMA	Solid or water solution. Colorless solid solution may be red or green. Odorless. Solid may float or sink in water; solid and solution mix with water.
[illegible]	
Fire	Not flammable. POISONOUS GASES ARE PRODUCED WHEN HEATED [illegible]
Exposure	[illegible] SOLID OR SOLUTION Irritating to skin and eyes. If swallowed, will cause nausea, vomiting, or loss of consciousness. [illegible]
Water Pollution	Dangerous to aquatic life in high concentrations. May be dangerous if it enters water intakes. [illegible]

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Treat as drinking [illegible] water contaminant.
Should be removed.
Chemical and physical treatment.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Disodium methanearsonate
Disodium methyl arsonate
DSMA
Monosodium methanearsonate
Monosodium methyl arsonate
MSMA

3.2 **Coast Guard Compatibility Classification:** Not applicable

Continued on page 4

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid or water solution

4.2 **Color:** Colorless; solutions may contain red or green dyes

4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective clothing to prevent contact with skin. chemical goggles.

5.2 **Symptoms Following Exposure:** Subacute poisoning by arsenicals causes salty taste, burning in throat and stomach, and intestinal pain. Acute poisoning indicated by headache, vomiting, slight convulsions, paralysis. About 1 ounce to 1 pound must be taken to cause these symptoms.

5.3 **Treatment for Exposure:** INGESTION: cause vomiting, give water and repeat; give a saline cathartic such as sodium sulfate (NaSO4); wash with soap and water. EYES: wash out with water, consult physician if irritation remains.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent

5.5 **Short-Term Inhalation Limits:** Not pertinent

5.6 **Toxicity by Ingestion:** Grade 2; LD50 = 700 mg/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** None

5.9 **Liquid or Solid Irritant Characteristics:** Repeated contact may cause skin irritations

5.10 **Odor Threshold:** Not pertinent

6. FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Toxic gases may be generated in fires.

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** Not flammable

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not flammable

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** None

7.2 **Reactivity with Common Materials:** None

MOC

METHOXYCHLOR

Common Synonyms	Solid	White to light yellow	Mild fruity odor
2,2 Di(p-anisyl)-1,1,1 trichloroethane DMDT Methoxy DDT 2,2 Bis(p-methoxyphenyl)-1,1,1 trichloroethane	Sinks in water		

AVOID CONTACT WITH SOLID AND DUST KEEP PEOPLE AWAY
Wear goggles and dust respirator
Call fire department
Stay upwind use water spray to knock down dust
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
Extinguish with water dry chemicals foam or carbon dioxide

Exposure

CALL FOR MEDICAL AID
DUST
POISONOUS IF INHALED
Move victim to fresh air
If in eyes hold eyelids open and flush with plenty of water
If breathing is difficult give oxygen
SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes.
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have vict m drink water or milk

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning poison water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 2,2 Bis(p-methoxyphenyl)-1,1,1 trichloroethane, 2,2-Di (p-anisyl) 1,1,1 trichloroethane, DMDT, Marlate 50, Methoxy DDT

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** $C_{16}H_{15}Cl_3O_2$

3 4 **IMCO/United Nations Numerical Designation.** 6 1/1615

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Solid

4 2 **Color:** Light cream, white to light yellow

4 3 **Odor:** Slightly fruity

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust respirator if needed, gloves and goggles

5 2 **Symptoms Following Exposure:** Toxicity is relatively low Inhalation or ingestion causes generalized depression

5 3 **Treatment for Exposure:** EYES flush with water if irritated SKIN wash well with soap and water INGESTION consult physician

5 4 **Toxicity by Inhalation (Threshold Limit Value).** 10 mg/m³

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion** Grade 1, LD_{50} 5 to 15 g/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics.** Data not available

5 10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point** Burns only at high temperatures For liquid forms, see Kerosene

6 2 **Flammable Limits in Air** Not pertinent

6 3 **Fire Extinguishing Agents.** Water, foam dry chemical carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6 5 **Special Hazards of Combustion Products** Irritating and toxic hydrogen chloride gas may be formed in fire

(Continued on pages 5 and 6)

NOTES

MTT

METHYL ACETATE

Common Synonyms

Acetic acid methyl ester

Liquid | Colorless | Mild sweet odor

Mixes with water. Flammable, irritating vapor is produced

Shut off source of leak if safe to do so
Stop discharge if possible. Keep people away
Stay upwind. Use water spray to reduce vapor
Isolate hazard area and deny entry
Notify local health and pollution control agencies

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Extinguish with dry chemicals, alcohol foam, carbon dioxide
Water may be ineffective
Cool exposed containers with water

Exposure

Call for medical aid

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache, or dizziness
Move victim to fresh air
If breathing has stopped, give artificial respiration
If bleeding, control bleeding

LIQUID
Irritating to skin and eyes
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED do not induce VOMITING. Give plenty of water to drink
Get medical aid

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of downstream water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
Restrict access
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Acetic acid, methyl ester
3.2 **Coast Guard Compatibility Classification:** Esters (13)
3.3 **Chemical Formula:** CH_3COOCH_3
3.4 **IMCO/United Nations Numerical Designation:** 3.2/1231

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Slightly acrid sweet, fragrant

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air mask or organic canister mask, goggles or face shield
5.2 **Symptoms Following Exposure:** (Very similar to those of methyl alcohol, which constitutes 20% of commercial grade.) Inhalation causes headache, fatigue, and drowsiness; high concentrations can produce central nervous system depression and optic nerve damage. Liquid irritates eyes and may cause defatting and cracking of skin. Ingestion causes headache, dizziness, drowsiness, fatigue, may cause severe eye damage
5.3 **Treatment for Exposure:** INHALATION: remove victim from affected area; if breathing has ceased, apply artificial respiration, call doctor. EYES: irrigate thoroughly with water for 15 min and call doctor. SKIN: wash affected area with water. INGESTION: get medical attention for methyl alcohol poisoning.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 200 ppm
5.5 **Short-Term Inhalation Limits:** 400 ppm for 5 min
5.6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 3,700 mg/kg (rabbit)
5.7 **Late Toxicity:** Optic nerve may be damaged following overexposure to vapor or liquid
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary
5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 22°F O.C., 14°F C.C.
6.2 **Flammable Limits in Air:** 3.1% - 16%
6.3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Not pertinent
6.6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back
6.7 **Ignition Temperature:** 935°F
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** 3.7 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts slowly to form acetic acid and methyl alcohol; the reaction is not violent
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** None

(Continued on pages 5 and 6)

NOTES

MAP — METHYL ACETYLENE - PROPADIENE MIXTURE

Common Synonyms

Liquified compressed gas Colorless Garlic-like odor

*Floats and boils on water Flammable visible vapor cloud is produced

Shut off ignition sources Call fire department
Avoid contact with liquid Keep people away
Stop discharge if possible
Evacuate area of vessel of large discharge
Notify local health and pollution control agencies

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Let fire burn
Stop flow of gas if possible
Cool exposed containers and protect men in fire, shut off with water

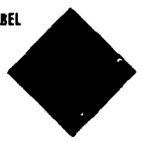
Exposure

Call for medical aid

VAPOR
If inhaled will cause difficult breathing
Move victim to fresh air
If breathing is difficult give oxygen

LIQUID
Will cause frostbite
Flush affected areas with plenty of water
DO NOT RUB AFFECTED AREAS

Water Pollution



Not harmful to aquatic life

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning high flammability
Restrict access
Evacuate area

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Allene methylacetylene mixture MAPP gas Methylacetylene allene mixture Propadiene methylacetylene mixture

NOTES

REVISED 1978

MAL

METHYL ALCOHOL

Common Synonyms
Methanol
Wood alcohol
Wood naphtha
Wood spirit
Pyroxylic spirit

Watery liquid | Colorless | Alcohol odor

Floats and mixes with water. Flammable, irritating vapor is produced

[illegible]

Fire

FLAMMABLE
Vapor may explode if ignited in an enclosed area
Flashback along vapor trail may occur
Extinguish with dry chemical, alcohol foam, carbon dioxide, sand
Water may be ineffective on fire
Cool exposed containers with water

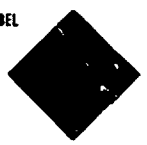
Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled, will cause dizziness, headache, difficult breathing or loss of consciousness
Move to fresh air
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

LIQUID
POISONOUS IF SWALLOWED
Irritating to skin and eyes.
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim vomit
IF SWALLOWED and victim is UNCONSCIOUS OR CONVULSING, DO NOTHING except keep victim warm

Water Pollution



Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
Restrict access
Evacuate area
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Colonial spirit, Wood alcohol, Columbian spirit, Wood naphtha, Methanol, Wood spirit

3 2 **Coast Guard Compatibility Classification:** Alcohol

3 3 **Chemical Formula:** CH_3OH

3 4 **IMCO/United Nations Numerical Designation:** 3 2/1230

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Faint alcohol, like ethyl alcohol, faintly sweet, characteristic pungent

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Approved canister mask for high vapor concentrations; safety goggles; rubber gloves

5 2 **Symptoms Following Exposure:** Exposure to excessive vapor causes eye irritation, headache, fatigue and drowsiness. High concentrations can produce central nervous system depression and optic nerve damage. 50 000 ppm will probably cause death in 1 to 2 hrs. Can be absorbed through skin. Swallowing may cause death or eye damage.

5 3 **Treatment for Exposure:** Remove victim from exposure and apply artifical respiration if breathing has ceased. INGESTION: induce vomiting, then give 2 teaspoons of baking soda in glass of water, call a physician. SKIN OR EYES: flush with water for ≥5 min.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 200 ppm

5 5 **Short-Term Inhalation Limits:** 260 mg/m^3 for 60 min

5 6 **Toxicity by Ingestion:** Grade 1, 5 to 15 g/kg (rat)

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of the skin.

5 10 **Odor Threshold:** 100 ppm

6 FIRE HAZARDS

6 1 **Flash Point:** 54°F C C, 61°F O C

6 2 **Flammable Limits in Air:** 6 0% - 36 5%

6 3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical or carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** Not pertinent

6 6 **Behavior in Fire:** Containers may explode

6 7 **Ignition Temperature:** 867°F

6 8 **Electrical Hazard:** Class I, Group D

6 9 **Burning Rate:** 1 7 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** 250 ppm/11 hr/goldfish/died/fresh water

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD)** 0 6 to 1 12 lb/lb in 5 days

8 4 **Food Chain Concentration Potential.** None

NOTES

REVISED 1978

MTA

METHYLAMINE

Common Synonyms

Aminomethane
Monomethylamine
Mercurialin

Liquefied compressed gas Colorless Ammonia-like odor

Mixes with water and boils

[illegible] sources. Call fire department.
[illegible] with fog. Cool containers with flooding quantities of water. Apply water from as far distance as possible. Use water spray or fog for cooling exposed containers. Keep people away.
[illegible] Ventilate. Shut off gas supply if safe to do so. Water spray may be useful in minimizing or deflecting vapor cloud. Isolate area until gas has dispersed.
[illegible] Stop leak if safe to do so. Water spray may be useful in minimizing or deflecting vapor cloud. Isolate area until gas has dispersed.

Fire

FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Wear goggles and self-contained breathing apparatus [illegible]
Stop flow of gas if [illegible]
Cool exposed containers and protect [illegible] with water

Exposure

Call for medical aid

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
Move victim to fresh air
If breathing has stopped, administer resuscitation
If breathing is difficult, administer oxygen

LIQUID
Will burn skin and eyes
Remove clothing immediately
Flood affected parts with water
IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED, DO NOT INDUCE VOMITING. Give large amounts of water
DO NOT INDUCE VOMITING

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify owners of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability, air contaminant, water contaminant
Restrict access
Evacuate area
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Aminomethane
Mercurialin, Monomethylamine, anhydrous

3.2 **Coast Guard Compatibility Classification:** Amines (4)

3.3 **Chemical Formula.** CH_3NH_2

3.4 **IMCO/United Nations Numerical Designation.** Anhydrous 2.1061
Aqueous soln 3.1.1235

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquefied compressed gas

4.2 **Color:** Colorless

4.3 **Odor:** Like ammonia, pungent, fishy, suffocating

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face mask, rubber suit, apron, sleeves, and/or gloves, rubber or leather safety shoes, air line mask, positive pressure hose mask, self-contained breathing apparatus, or industrial canister type gas mask

5.2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat, followed by violent sneezing, burning sensation in throat, coughing, constriction of larynx, and difficulty in breathing, pulmonary congestion, edema of the lungs, and conjunctivitis. Contact with liquid burns skin and eyes. Severe exposure may cause blindness. Vapors may cause dermatitis. Ingestion causes burns of the mouth, throat, and esophagus.

5.3 **Treatment for Exposure:** Get medical attention for anyone overcome or injured by exposure to this compound. INHALATION: remove victim to fresh air at once; apply artificial respiration if breathing has stopped; administer oxygen. EYES: flush with water for at least 15 min. SKIN: flush with water; if skin is burned, do not use ointments or cover for 24 hours. INGESTION: do NOT induce vomiting; give large amount of water.

5.4 **Toxicity by Inhalation (Threshold Limit Value).** 10 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2; LD_{50}: 0.5 to 5 g/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Vapors are moderately irritating, such that personnel will not usually tolerate moderate or high concentrations.

Continued on page 4

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent (flammable liquefied compressed gas)

6.2 **Flammable Limits in Air:** 4.9 – 21

6.3 **Fire Extinguishing Agents:** Let gas fire burn, stop flow of gas. Extinguish solution fires with dry chemical, alcohol foam, or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used.** Not pertinent

6.5 **Special Hazards of Combustion Products:** Toxic nitrogen oxides may be formed

6.6 **Behavior in Fire.** Vapors are heavier than air and may travel considerable distance to a source of ignition and flash back

6.7 **Ignition Temperature:** 806°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Dissolves completely

7.2 **Reactivity with Common Materials:** Corrosive to copper, copper alloys, zinc alloys, aluminum, and galvanized surfaces

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** > 10 and < 30 ppm 24 Hr Creek chub TL_m

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD).** 0.8% of theoretical in 14 days

8.4 **Food Chain Concentration Potential:** None

MAA METHYL AMYL ALCOHOL

Common Synonyms
Isobutylmethylcarbinol
4-Methyl-2-pentanol
Methylisobutylcarbinol

Oily liquid | Colorless | Mild alcohol odor

Floats on water. Irritating vapors is produced.

Stop discharge if possible. Keep people away.
Notify fire department.
Avoid [illegible] with liquid and vapor.
[illegible] Discharged material.
[illegible]

Fire

Combustible.
Extinguish with dry [illegible]
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness or difficult breathing.
Harmful if skin is exposed.
[illegible]
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Wash affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED, do not induce vomiting. Give large amounts of water.
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Floating to shoreline.
May be dangerous if it enters water intakes.

Extinguish with dry chemicals, foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID.
LIQUID.
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do not give anything; keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning; poison; water contaminant.
Restrict access.
Mechanical containment.
Should be removed.
Chemical and physical treatment.

2. LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Anilomethane, N-Methylaminobenzene, Methylaniline (mono), Methylphenylamine
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $C_7H_9NHCH_3$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Yellow to light brown
4 3 **Odor:** Moderate aniline type

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Approved respirator, rubber gloves, splash proof goggles.
5 2 **Symptoms Following Exposure:** Inhalation causes dizziness and headache. Ingestion causes blush discoloration to cartilage of lips, ear lobes, and innermost beds. Liquid irritates eyes. Absorption through skin produces same symptoms as ingestion.
5 3 **Treatment for Exposure:** INHALATION: remove victim to fresh air and call a physician at once; administer oxygen until physician arrives. INGESTION: give large amount of water; get medical attention at once. EYES or SKIN: flush with plenty of water for at least 15 min; if eyes are irritated, see physician. Remove any contaminated clothing.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold.** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 175°F C.C.
6 2 **Flammable Limits in Air:** Data not available
6 3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6 5 **Special Hazards of Combustion Products:** Toxic vapors are generated when heated
6 6 **Behavior in Fire:**
6 7 **Ignition Temperature:** Data not available
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate:** 3.6 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** May attack some forms of plastics
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** Data not available
8 4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

1 American Cyanamid Co
Bound Brook, N J 08805
2 Eastman Organic Chemicals
Rochester, N Y 14650
3 Aldrich Chemical Co
940 W Saint Paul Ave
Milwaukee, Wis 53233

10. SHIPPING INFORMATION

10 1 **Grades or Purity:** Technical, Pure 99+%
10 2 **Storage Temperature:** Ambient
10 3 **Inert Atmosphere:** No requirement
10 4 **Venting:** Open

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 446-2)

A T C-X-Y

12. HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations:** Not Listed
12 2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed
12 3 **NFPA Hazard Classifications:** Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Liquid
13 2 **Molecular Weight:** 107.2
13 3 **Boiling Point at 1 atm:** 384.6°F = 195.9°C = 469.1°K
13 4 **Freezing Point:** −71°F = −57°C = 216°K
13 5 **Critical Temperature:** 802°F = 428°C = 701°K
13 6 **Critical Pressure:** 784 psia = 51 atm = 5.20 MN/m
13 7 **Specific Gravity:** 0.989 at 20°C (liquid)
13 8 **Liquid Surface Tension:** 39 dynes/cm = 0.0396 N/m at 20°C
13 9 **Liquid-Water Interfacial Tension:** Data not available
13 10 **Vapor (Gas) Specific Gravity:** 3.70
13 11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent
13 12 **Latent Heat of Vaporization:** 150 Btu/lb = 100 cal/g = 4.20 × 10⁵ J/kg
13 13 **Heat of Combustion:** −16,350 Btu/lb = −9,085 cal/g = −380.1 × 10⁵ J/kg
13 14 **Heat of Decomposition:** Not pertinent
13 15 **Heat of Solution:** Not pertinent
13 16 **Heat of Polymerization:** Not pertinent

Continued on page 4 and 5

NOTES

MTB METHYL BROMIDE

Common Synonyms
Bromomethane
Embafume

Liquefied gas Colorless Odorless to sweet odor

Sinks and boils in water. Poisonous vapor cloud is formed.
Boiling point is 39° F

Fire

Combustible
POISONOUS AND IRRITATING GASES ARE PRODUCED IN FIRE

Exposure

VAPOR
POISONOUS IF INHALED
Irritating to eyes.

LIQUID
Will burn skin and eyes.
Harmful if swallowed

Water Pollution

Not harmful to aquatic life
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison
Restrict access

2. LABEL

POISON

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Bromomethane
Embafume
M-B-C Fumigant
Monobromomethane

3.2 **Coast Guard Compatibility Classification:** Halogenated hydrocarbon

3.3 **Chemical Formula:** CH_3Br

3.4 **IMCO/United Nations Numerical Designation:** 2.0/1062

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquefied gas

4.2 **Color:** Colorless

4.3 **Odor:** Relatively odorless sweet, chloroform-like

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus, goggles

5.2 **Symptoms Following Exposure:** Inhalation of vapor causes lung congestion and pulmonary edema. Higher concentrations cause rapid narcosis and death. Contact with liquid irritates eyes and burns skin.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air, give artificial respiration if needed. SKIN OR EYES: flush with water for at least 15 min.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 15 ppm

5.5 **Short-Term Inhalation Limits:** 20 ppm for 5 min

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Fairly severe skin irritant; may cause pain and second-degree burns after a few minutes' contact.

5.10 **Odor Threshold:** Odorless

6. FIRE HAZARDS

6.1 **Flash Point:** Practically not flammable

6.2 **Flammable Limits in Air:** 10% - 15%

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Toxic and irritating gases are generated when exposed to fire or heat.

6.6 **Behavior in Fire:** Containers may explode

6.7 **Ignition Temperature:** 999° F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** None

8.2 **Waterfowl Toxicity:** None

8.3 **Biological Oxygen Demand (BOD):** None

8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

MBK — METHYL n-BUTYL KETONE

Common Synonyms
2-Hexanone
n-Butyl methyl ketone

Liquid | Clear | Disagreeable Odor

Floats and mixes with water

[illegible]

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

[illegible]

Exposure

[illegible]

VAPOR
Irritating to eyes, nose and throat
Harmful if inhaled

[illegible]

LIQUID
Irritating to skin and eyes
Harmful if swallowed

[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

[illegible]

1. RESPONSE TO DISCHARGE

(See Personnel Protection Handbook CG-446-4)

Issue warning - air contaminant, water contaminant, high flammability
Restrict access
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** n-Butyl methyl ketone, 2-Hexanone
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** $CH_3(CH_2)_3COCH_3$
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Clear
4.3 **Odor:** Characteristic strong disagreeable odor resembling acetone

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective gloves, goggles or face shield, approved respirator (for major spills)

5.2 **Symptoms Following Exposure:** Inhalation of high concentrations of vapor may result in narcosis; peripheral neuropathy may develop. Ingestion of large amounts may cause severe systemic injury. Contact with eyes causes mild to moderate irritation. Liquid irritates skin; prolonged or repeated contact may cause defatting of the skin with resultant dermatitis.

5.3 **Treatment for Exposure:** INHALATION: move to uncontaminated atmosphere and treat symptomatically; alert physician to possible development of peripheral neuropathy. INGESTION: give large amount of water and induce vomiting. EYES: irrigate immediately and thoroughly with water for 15 min. and get medical attention. SKIN: flush exposed areas thoroughly with water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 2,590 mg/kg (rat)

5.7 **Late Toxicity:** Peripheral neuropathy in experimental animals and man; disease of motor and of sensory nerves

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

(Continued on reverse side)

NOTES

MTC

METHYL CHLORIDE

Common Synonyms
Chloromethane

Liquefied compressed gas Colorless Ether or sweet odor

Floats and boils on water. Flammable visible vapor cloud is formed.

Fire

FLAMMABLE.
POISONOUS GASES ARE PRODUCED IN FIRE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Not irritating to eyes, nose or throat.
If inhaled, will cause nausea, vomiting, headache, difficult breathing, or loss of consciousness.

LIQUID
Will cause frostbite.

Water Pollution

Not harmful to aquatic life.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning by flammability, air contaminant.
Restrict access.
Evacuate area.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Arcton, Chloromethane

3.2 **Coast Guard Compatibility Classification:** Halogenated hydrocarbon

3.3 **Chemical Formula:** CH_3Cl

3.4 **IMCO, United Nations Numerical Designation:** 2.0 1063

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquefied gas

4.2 **Color:** Colorless

4.3 **Odor:** Faint sweet, non irritating, faint ether like

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Approved canister mask, leather or vinyl gloves, goggles or face shield

5.2 **Symptoms Following Exposure:** Inhalation causes nausea, vomiting, weakness, headache, emotional disturbances, high concentrations cause mental confusion, eye disturbances, muscular tremors, cyanosis, convulsions. Contact of liquid with skin may cause frostbite.

5.3 **Treatment for Exposure:** Remove to fresh air. Call a doctor and have patient hospitalized for observation of unusually developing symptoms.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm.

5.5 **Short-Term Inhalation Limits:** 100 ppm for 5 min.

5.6 **Toxicity by Ingestion:** Not pertinent.

5.7 **Late Toxicity:** None.

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are nonirritating to the eyes and throat.

5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin because it evaporates quickly. May cause frostbite.

5.10 **Odor Threshold:** Data not available.

6. FIRE HAZARDS

6.1 **Flash Point:** < 32°F (< 0°C)

6.2 **Flammable Limits in Air:** 8.1% - 17.2%

6.3 **Fire Extinguishing Agents:** Dry chemical or carbon dioxide. Stop flow of gas.

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent.

6.5 **Special Hazards of Combustion Products:** Toxic acids and gases are generated in fires.

6.6 **Behavior in Fire:** Container may explode.

6.7 **Ignition Temperature:** 1170°F (632°C)

6.8 **Electrical Hazard:** Not pertinent.

6.9 **Burning Rate:** 2.2 mm/min.

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** Reacts with zinc, aluminum, magnesium, and their alloys, reaction is not violent.

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent.

7.5 **Polymerization:** Not pertinent.

7.6 **Inhibitor of Polymerization:** Not pertinent.

NOTES

REVISED 1978

METHYL CHLOROFORMATE

Common Synonyms

Chloroformic acid methyl ester
Methyl chlorocarbonate

Liquid | Colorless to light yellow | Unpleasant odor

Sinks and reacts in water. Flammable, irritating vapor is produced.

Fire

FLAMMABLE.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause difficult breathing.

LIQUID
POISONOUS IF SWALLOWED.
Will burn skin and eyes.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

Issue warning. Corrosive fumes.
High flammability.
Restrict access.
Dike near and flush.

2. LABELS

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Chloroformic acid, methyl ester; monochloroformic acid, methyl ester; Methyl chlorocarbonate

3.2 **Coast Guard Commodity Classification:** Not applicable

3.3 **Chemical Formula:** CH_3OCOCl

3.4 **IMCO/United Nations Numerical Designation:** 2.2 1238

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless to light yellow

4.3 **Odor:** Acrid

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Avoid contact. Wear self-contained breathing apparatus, goggles or face shield, plastic gloves.

5.2 **Symptoms Following Exposure:** Inhalation of vapor irritates nose and throat and can cause delayed pulmonary edema. Liquid irritates eyes and causes severe skin burns. Fatal if allowed to remain. Ingestion causes burns, stomach and intestinal.

5.3 **Treatment for Exposure:** INHALATION: Remove victim from exposure, if breathing stops, administer artificial respiration, call physician. EYES: Irrigate with copious amounts of water for at least 15 min., call physician if needed. SKIN: Flush with water for 15 min, get medical attention for burns. INGESTION: Never give anything by mouth to an unconscious victim, get medical attention.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 4, Oral LD_{50} 50 mg/kg (rats)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** 50°F (OC) 72°F (CC)

6.2 **Flammable Limits in Air:** 11.2 vol %

6.3 **Fire Extinguishing Agents:** Water, dry chemical, foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Irritating and toxic hydrogen chloride and phosgene may be formed

6.6 **Behavior in Fire:** Vapor is heavier than air and can travel a considerable distance to a source of ignition and flash back

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 2.0 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts slowly evolving hydrochloric acid. Reaction can be hazardous if water is hot

7.2 **Reactivity with Common Materials:** Corrosive to most metals

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Flood with water, then with sodium bicarbonate or lime solution

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

(Continued on page 7 and 8)

NOTES

MCP METHYL CYCLOPENTANE

Common Synonyms

Cyclopentane, methyl

Liquid | Colorless | Gasoline-like odor

Floats on water. Flammable, irritating vapor is produced.

Shut off ignition sources. Call fire department.
Stop discharge if possible. Keep people away.
Isolate and remove leaked material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemicals, foam, carbon dioxide.
Water may be ineffective.
Cool exposed containers with water.

Exposure

Call for medical aid.

VAPOR

If inhaled will cause dizziness or difficult breathing.
Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID

Irritating to skin and eyes.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 448-4)

Issue warning: high flammability
Evacuate area
Mechanical containment
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Cyclopentane, methyl
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula.** C_6H_{12}
3.4 **IMCO/United Nations Numerical Designation:** 1.1/1241

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Like gasoline

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus, goggles or face shield, rubber gloves.

5.2 **Symptoms Following Exposure:** Inhalation causes dizziness, nausea and vomiting; concentrated vapor may cause unconsciousness and collapse. Liquid causes irritation of eyes and mild irritation of skin if allowed to remain. Ingestion causes irritation of stomach. Aspiration causes severe lung irritation, rapidly developing pulmonary edema, and central nervous system excitement followed by depression.

5.3 **Treatment for Exposure:** INHALATION: remove victim from exposure; if breathing has stopped, begin artificial respiration; call physician. EYES: flush with water for 15 min; call physician. SKIN: flush well with water, then wash with soap and water. INGESTION: do NOT induce vomiting; guard against aspiration into lungs. ASPIRATION: enforce bed rest, give oxygen, get medical attention.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** 300 ppm for 60 min

5.6 **Toxicity by Ingestion:** Grade 1: LD_{50} 5 to 15 g/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is nonirritating to eyes and throat.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of skin.

5.10 **Odor Threshold:** Data not available.

6. FIRE HAZARDS

6.1 **Flash Point:** <0°F C.C.
6.2 **Flammable Limits in Air:** 1.1% - 8.7% (approx.)
6.3 **Fire Extinguishing Agents.** Dry chemical, foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products.** Not pertinent
6.6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back.
6.7 **Ignition Temperature:** 624°F
6.8 **Electrical Hazard.** Data not available
6.9 **Burning Rate:** 7.1 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity.** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** None

NOTES

MCS — METHYLDICHLOROSILANE

Common Synonyms	Liquid	Colorless	Sharp irritating odor
	Reacts violently with water. Irritating gas is produced on contact with water.		

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.
Wear goggles and self-contained breathing apparatus.
Shut off ignition sources. Call fire department.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemicals or carbon dioxide.
DO NOT USE WATER OR FOAM ON FIRE.
DO NOT USE WATER OR FOAM ON ADJACENT FIRES.

Exposure

Call for medical aid.

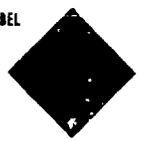
VAPOR

Irritating to eyes, nose and throat.
If inhaled will cause difficult breathing.
Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID

Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution



Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability.
Restrict access.
Evacuate area.
Disperse and flush with care.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms

3.2 **Coast Guard Compatibility Classification.** Not applicable

3.3 **Chemical Formula:** CH_3SiHCl_2

3.4 **IMCO/United Nations Numerical Designation.** 3.2/1242

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Acrid, sharp, hydrochloric acid like

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Full protective clothing, acid vapor type respirators, protection, rubber gloves, chemical worker's goggles, other protective equipment as necessary to protect skin and eyes.

5.2 **Symptoms Following Exposure.** Inhalation causes irritation of respiratory tract; heavy exposure can cause pulmonary edema. Contact of liquid with skin or eyes causes severe burns. Ingestion causes burns of mouth and stomach.

5.3 **Treatment for Exposure:** Get medical attention following all exposures to this compound. INHALATION: remove victim from exposure; if breathing has stopped, begin artificial respiration. EYES: flush with water for 15 min. SKIN: flush with water. INGESTION: do NOT induce vomiting, give large amounts of water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion:** Grade 3. LD_{50} 50 to 500 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes.

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** −14°F O.C.

6.2 **Flammable Limits in Air:** 6% - 55%

6.3 **Fire Extinguishing Agents:** Dry chemical or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water, foam

6.5 **Special Hazards of Combustion Products.** Toxic hydrogen chloride and phosgene gases may be formed.

6.6 **Behavior in Fire:** Difficult to extinguish; re-ignition may occur. Contact with water applied to adjacent fires will generate irritating hydrogen chloride gas.

6.7 **Ignition Temperature:** > 600°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 30 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts violently to form hydrogen chloride (hydrochloric acid)

7.2 **Reactivity with Common Materials.** Reacts with surface moisture to evolve hydrogen chloride which is corrosive to common metals.

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Flood with water and rinse with sodium bicarbonate or lime solution.

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization.** Not pertinent

NOTES

MEK — METHYL ETHYL KETONE

Common Synonyms
MEK
2 Butanone
Ethyl methyl ketone

Liquid | Colorless | Sweet odor

Floats and mixes with water. Flammable, irritating vapor is produced.

Stop discharge if possible. Keep people away.
Shut off ignition sources and call fire department.
Stay upwind and use water spray to knock down vapors.
Avoid contact with liquid and vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

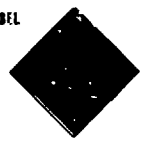
Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemical, alcohol foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID
VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause nausea, vomiting, headache, dizziness, difficult breathing, or loss of consciousness.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.
LIQUID
Will burn eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution



Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 2 Butanone; Ethyl methyl ketone; MEK
3 2 **Coast Guard Compatibility Classification:** Ketone
3 3 **Chemical Formula:** $CH_3COCH_2CH_3$

NOTES

REVISED 1978

MEP — METHYLETHYLPYRIDINE

Common Synonyms
5-Ethyl 2-methyl pyridine
5-Ethyl-2-picoline
MEP

Liquid | Colorless | Sharp odor

Floats on water

Avoid contact with liquid. Keep people away.
Wear goggles, self-contained breathing apparatus and rubber overclothing.
Stop discharge if possible.
Collect for reuse or disposal.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible

Wear goggles, self-contained breathing apparatus and rubber overclothing (including gauntlets).
Extinguish with water, dry chemical, alcohol foam, carbon dioxide.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

LIQUID
Will burn skin and eyes
Harmful if swallowed

Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.

Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 448-4)

Mechanical containment
should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Aldehyde-collidine
Aldehydine
5-Ethyl 2-methylpyridine
5-Ethyl 2-picoline
MEP

3.2 **Coast Guard Compatibility Classification:** Aromatic amine

3.3 **Chemical Formula.** $C_8H_{11}N$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Sharp penetrating

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air supplied mask for high vapor concentrations, plastic gloves, goggles or face shield

5.2 **Symptoms Following Exposure:** Breathing of vapors will cause vomiting and chest discomfort. Contact with liquid causes skin and eye burns.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air, give oxygen if breathing is difficult, call a physician. SKIN OR EYES: immediately flush with plenty of water for at least 15 min., get medical care for eyes.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 1700 ppm 3.7 hr lethal(rat)

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2, LD$_{50}$ 0.5 to 5 g/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure; may cause secondary burns on long exposure.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 155°F O.C.

6.2 **Flammable Limits in Air:** 1.1% - 6.6%

6.3 **Fire Extinguishing Agents:** Foam, carbon dioxide, dry chemical

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Irritating vapors are generated when heated

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 939°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

NOTES

REVISED 1978

MTF METHYL FORMAL

Common Synonyms
Methylal
Methylene dimethyl ether
Dimethoxymethane
Dimethoxymethane
Formaldehyde dimethylacetal

Liquid | Colorless | Mild sweet odor

Mixes with water. Flammable, irritating vapor is produced.

Shut off ignition sources. Call fire department.
Stop discharge if possible. Keep people away.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Irritating gases may be produced when heated.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Extinguish with dry chemicals, foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

Call for medical aid.

VAPOR
Irritating to eyes, nose and throat.
Harmful if inhaled.

Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
If IN EYES, hold eyelids open and flush with plenty of water.
If SWALLOWED and victim is CONSCIOUS, having victim drink water, milk and have victim induce vomiting.
If SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability.
water contaminant
Restrict access.
Disperse and flush.

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Dimethoxymethane, Dimethylformal, Formaldehyde dimethylacetal, Methylal, Methylene dimethyl ether

3 2 **Coast Guard Compatibility Classification:** Ether

3 3 **Chemical Formula:** $CH_2(OCH_3)_2$

3 4 **IMCO/United Nations Numerical Designation:** 3 1/1234

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Mild ethereal chloroform like

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self-contained breathing apparatus or all purpose canister mask, rubber gloves, chemical safety goggles, impervious apron and boots.

5 2 **Symptoms Following Exposure:** Inhalation causes irritation of respiratory system and depression of central nervous system. Liquid causes irritation of eyes and will irritate skin if allowed to remain. Ingestion causes depression of central nervous system.

5 3 **Treatment for Exposure:** INHALATION: remove victim from contaminated area and administer artificial respiration and oxygen if necessary. EYES: flush with plenty of water, get medical attention. SKIN: flush with plenty of water. INGESTION: induce vomiting, administer gastric lavage and saline cathartics, subsequent treatment is symptomatic and supportive.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 1000 ppm

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 1: 1 Dose 5 to 15 g/kg

5 7 **Late Toxicity:** Liver and kidney injury may follow high exposures.

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory if present in high concentrations. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** 0°F, O C.

6 2 **Flammable Limits in Air:** 1 6% - 17 6%

NOTES

MFM METHYL FORMATE

Common Synonyms

Formic acid, methyl ester

Liquid | Colorless | Pleasant odor

Mixes with water. Flammable, irritating vapor is produced. Boiling point is 88° F

Shut off ignition sources. Call fire department.
[illegible] possible. Keep people away.
[illegible] spilled material.
[illegible] pollution [illegible] authorities.

Fire

FLAMMABLE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
[illegible] with dry chemicals, [illegible] foam.
Water may be ineffective for fire.
[illegible] containers with water.

Exposure

Call for medical aid.

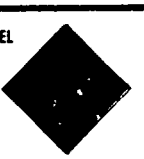
VAPOR

Irritating to eyes, nose and throat.
Harmful if inhaled.
[illegible]
[illegible]
[illegible]

LIQUID

Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, [illegible]
[illegible]
IF SWALLOWED and victim is UNCONSCIOUS OR HAS NO CONVULSIONS, induce vomiting.
[illegible]

Water Pollution



Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
[illegible]
Notify [illegible] if [illegible] enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability, water contaminant
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Formic acid, methyl ester
3 2 **Coast Guard Compatibility Classification:** Esters (13)
3 3 **Chemical Formula:** HCOOCH3
3 4 **IMCO/United Nations Numerical Designation:** 3 1/1243

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Pleasant, agreeable

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or safety glasses; self-contained breathing apparatus; rubber gloves
5 2 **Symptoms Following Exposure:** Inhalation causes irritation of mucous membrane. Prolonged inhalation can produce narcosis and central nervous symptoms, including some temporary visual disturbance. Contact with liquid irritates eyes and may irritate skin if allowed to remain. Ingestion causes irritation of mouth and stomach and central nervous system depression including visual disturbances.
5 3 **Treatment for Exposure:** INHALATION: move to fresh air and rest; if pulmonary edema develops, administer oxygen; call physician. EYES: irrigate with water for 15 min. SKIN: wash thoroughly with soap and water. INGESTION: do NOT induce vomiting; get medical attention.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 1: LD_{50} 5 to 15 g/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high concentrations.
5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** −26°F C.C.
6 2 **Flammable Limits in Air:** [illegible]% 22.7%
6 3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6 5 **Special Hazards of Combustion Products:** Not pertinent
6 6 **Behavior in Fire:** Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back
6 7 **Ignition Temperature:** 853°F
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate:** 2.6 mm/min

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Slow reaction to form formic acid and methyl alcohol; reaction is not hazardous
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

(Continued on page 5 and 6)

NOTES

MHZ METHYLHYDRAZINE

Common Synonyms

Monomethylhydrazine
MMH

Liquid Colorless Ammonia-like odor

Mixes with water Poisonous flammable vapor is produced

AVOID CONTACT WITH LIQUID AND VAPOR KEEP PEOPLE AWAY
Wear Self-Contained Breathing Apparatus
Wear Rubber Boots and Gloves
Notify Local Health and Pollution Control Agencies
Keep Combustibles (Wood, Paper, Oil, etc) Away
Stop Leak if You Can Do It Without Risk
Isolate Area Until Gas Has Dispersed
Use Water Spray to Reduce Vapors or Divert Vapor Cloud Drift
Do Not Get Water Inside Container
Do Not Touch or Walk Through Spilled Material
Stop Leak if You Can Do It Without Risk
Prevent Entry into Waterways, Sewers, Basements or Confined Areas
Isolate Area Until Gas Has Dispersed
Use Water Spray to Reduce Vapors or Divert Vapor Cloud Drift
Do Not Get Water Inside Container
Do Not Touch or Walk Through Spilled Material
Prevent Entry into Waterways, Sewers, Basements or Confined Areas
Wear Self-Contained Breathing Apparatus
Wear Rubber Boots and Gloves
Notify Local Health and Pollution Control Agencies
Keep Combustibles (Wood, Paper, Oil, etc) Away

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
May explode if exposed to heat or flames
Fight fire from explosion proof area or distance or use unmanned hose holder or monitor nozzles
Water spray may be ineffective
Fight fire from protected location or safe distance
Apply water from as far a distance as possible
Use water spray to cool fire exposed containers
Use water spray to disperse vapors and protect men stopping the leak
Do not get water inside containers
Cool containers with flooding quantities of water until well after fire is out
Withdraw immediately in case of rising sound from venting safety device or discoloration of tank
ALWAYS stay away from ends of tanks

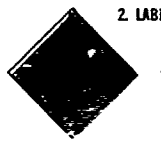
Exposure

CALL FOR MEDICAL AID

VAPOR
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
Irritating to eyes, nose and throat
Move victim to fresh air
Call emergency squad or physician
Administer oxygen if breathing is difficult
Give artificial respiration if victim is not breathing
Flush eyes with water immediately
Wash skin with soap and water
Cover burns with sterile dressing
Give nothing by mouth
Keep victim warm and quiet
Get medical attention as soon as possible

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn skin and eyes
Remove victim immediately to hospital
Call physician immediately
IN CASE OF CONTACT IMMEDIATELY FLUSH SKIN OR EYES with plenty of water for at least 15 minutes
IF SWALLOWED and victim is CONSCIOUS induce vomiting by having victim drink two glasses of water and touching back of throat with finger
DO NOT induce vomiting or give anything by mouth to an unconscious person
Keep victim warm and quiet
Get medical attention as soon as possible

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-6)

Issue warning: poison, high flammability, water contaminant, air contaminant
Restrict access
Evacuate area
Disperse and flush

2. LABELS

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Monomethylhydrazine, MMH
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** CH_3NHNH_2
3 4 **IMCO/United Nations Numerical Designation:** 3 2/1244

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Like ammonia

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Organic canister mask or self-contained breathing apparatus, goggles or face shield, rubber gloves, protective clothing

5 2 **Symptoms Following Exposure:** Tremors and convulsions follow absorption by any route. Inhalation causes local irritation of respiratory tract, respiratory distress, and systemic effect. Contact of liquid with eyes or skin causes irritation and burns. Ingestion causes irritation of mouth and stomach.

5 3 **Treatment for Exposure:** Get medical attention at once following all exposures to this compound. INHALATION: move victim to fresh air and keep him quiet, give artificial respiration if breathing stops. EYES: flush for at least 15 min. with large quantities of water. SKIN: immediately wash with large quantities of water and treat as for alkali burn. INGESTION: give egg whites or other emollient, followed by a 5% salt solution or other mild emetic. Keep patient as quiet as possible. To control convulsions, short acting barbituates may be administered parenterally by a physician with due regard for depression of respiration.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.2 ppm

5 5 **Short-Term Inhalation Limits:** 90 ppm for 10 min., 30 ppm for 30 min., 15 ppm for 60 min.

5 6 **Toxicity by Ingestion:** Grade 4, oral LD_{50} = 33 mg/kg (rat)

5 7 **Late Toxicity:** Hemolytic anemia may result from large doses by any route

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high concentrations.

(Continued on page 4)

6. FIRE HAZARDS

6 1 **Flash Point:** 62°F O C

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Liquid
13 2 **Molecular Weight:** 46.1
13 3 **Boiling Point at 1 atm:** 189.5°F = 87.5°C = 360.7°K
13 4 **Freezing Point:** −62.3°F = −52.4°C = 220.8°K
13 5 **Critical Temperature:** 594°F = 312°C = 585°K
13 6 **Critical Pressure:** 1195 psia = 81.3 atm = 8.25 MN/m²
13 7 **Specific Gravity:** 0.878 at 20°C (liquid)
13 8 **Liquid Surface Tension:** 34.3 dynes/cm = 0.0343 N/m at 20°C
13 9 **Liquid-Water Interfacial Tension:** Not pertinent
13 10 **Vapor (Gas) Specific Gravity:** 1.39
13 11 **Ratio of Specific Heats of Vapor (Gas):** 1.1326
13 12 **Latent Heat of Vaporization:** 376 Btu/lb = 209 cal/g = 8.75 × 10⁵ J/kg
13 13 **Heat of Combustion:** −12,178 Btu/lb = −6,766 cal/g = −283.1 × 10⁵ J/kg
13 14 **Heat of Decomposition:** Not pertinent
13 15 **Heat of Solution:** Not pertinent
13 16 **Heat of Polymerization:** Not pertinent

(Continued on pages 5 and 6)

5 HEALTH HAZARDS (Cont'd)

5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes.

5 10 **Odor Threshold:** 1.3 ppm

MIC METHYL ISOBUTYL CARBINOL

Common Synonyms
Methylamyl alcohol
4-Methyl-2-pentanol
Isobutylmethylcarbinol

Oily liquid — Colorless — Mild alcohol odor

Floats on water. Irritating vapor is produced

[illegible]

Fire

Combustible
Extinguish with dry chemical, alcohol foam, carbon dioxide
[illegible]

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
Harmful if skin is exposed
If inhaled, will cause dizziness or difficult breathing
[illegible]

LIQUID
Irritating to skin and eyes
Harmful if swallowed
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

2.1 **Synonyms:** Isobutylmethylcarbinol, Methylamyl Alcohol, MAOH, 4-Methyl-2-pentanol, MIBC, MIC

3.2 **Coast Guard Compatibility Classification:** Alcohol

3.3 **Chemical Formula:** $(CH_3)_2CHCH_2CHOHCH_3$

3.4 **IMCO, United Nations Numerical Designation:** 1.1/2053

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild, sharp, non-residual

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air pack or organic canister mask, rubber gloves, goggles or face shield

5.2 **Symptoms Following Exposure:** Vapor irritates eyes and nose, may cause anesthesia. Prolonged contact with liquid causes irritation and cracking of skin, also irritates eyes

5.3 **Treatment for Exposure:** INHALATION: remove to fresh air, give artificial respiration if needed, call a doctor. SKIN: flush with water. EYES: flush with water for at least 15 min, consult a doctor

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 25 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2, LD_{50} 0.5 to 5 g/kg (rat)

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** 120-130°F O.C. 106°F C.C.

6.2 **Flammable Limits in Air:** 1.0% - 5.5%

6.3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 370 ppm/24 hr/brine shrimp/TL_m

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** 50% of theoretical in 5 days, freshwater

8.4 **Food Chain Concentration Potential:** None

(Continued on pages 5 and 6)

NOTES

REVISED 1978

MIK — METHYL ISOBUTYL KETONE

Common Synonyms
4-Methyl-2-pentanone
Isohexyl methyl Ketone
MIBK

Watery liquid | Colorless | Mild pleasant odor

Floats and mixes slowly with water. Flammable irritating vapor is produced.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness or loss of consciousness.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 448-4)

Issue warning: high flammability
Evacuate area
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Hexone; Isobutyl methyl ketone; Isopropylacetone; 4-Methyl-2 pentanone, MIBK, MIK
3.2 **Coast Guard Compatibility Classification:** Ketone
3.3 **Chemical Formula:** $(CH_3)_2CHCH_2COCH_3$
3.4 **IMCO/United Nations Numerical Designation:** 3.2/1245

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Pleasant mild characteristic, sharp non residual, ketonic

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic canister or air pack, rubber gloves, goggles or face shield
5.2 **Symptoms Following Exposure:** Vapor causes irritation of eyes and nose, high concentrations cause anesthesia and depression. Liquid dries out skin and may cause dermatitis, irritates eyes but does not injure them.
5.3 **Treatment for Exposure:** INHALATION: remove to fresh air, give artificial respiration if needed, call a doctor. SKIN OR EYES: wash eyes thoroughly with water, wash skin with water until irritation stops.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm
5.5 **Short-Term Inhalation Limits:** 100 ppm for 60 min.
5.6 **Toxicity by Ingestion:** Grade 2, LD_{50} 0.5 to 5 g/kg (rat)
5.7 **Late Toxicity:** None
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.
5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.
5.10 **Odor Threshold:** 0.47 ppm

6. FIRE HAZARDS

6.1 **Flash Point:** 73°F C.C., 75°F O.C.
6.2 **Flammable Limits in Air:** 1.4% - 7.5%
6.3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical, or carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Irritating vapors are generated when heated
6.6 **Behavior in Fire:** Vapors may travel a considerable distance and ignite
6.7 **Ignition Temperature:** 854°F
6.8 **Electrical Hazard:** Class I, Group D
6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable

(Continued on pages 3 and 6)

NOTES

REVISED 1978

MPK — METHYL ISOPROPENYL KETONE, INHIBITED

Common Synonyms

2 Methyl-1-butene-3-one

Liquid | Colorless | Sweet pleasant odor

Floats on water | Flammable | Irritating vapor is produced

Shut off ignition sources | Call fire department | Stop discharge if possible | Keep people away
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Control fires from safe distance or protected location
Extinguish with dry chemicals, foam or carbon dioxide
Water may be ineffective on fire
Cool exposed containers with water

Exposure

Call for medical aid

VAPOR

Irritating to eyes, nose and throat.
Move victim to fresh air
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

LIQUID

Irritating to skin and eyes.
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do not induce vomiting; keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes.
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability, water contaminant
Restrict access
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Isopropenyl methyl ketone; 2 Methyl-1-butene-3-one

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $CH_2C(CH_3)=CH-$

3.4 **IMCO/United Nations Numerical Designation:** 3.2/1246

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Very pungent, pleasant sweet

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield; rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat. Liquid may cause severe damage to eyes, resulting possibly in some permanent impairment of vision; vapor produces tears. If not removed promptly from skin, liquid may cause delayed pain and blistering. Ingestion causes irritation of mouth and stomach.

5.3 **Treatment for Exposure:** INHALATION: remove victim from exposure, give artificial respiration if needed, call physician. EYES: immediately irrigate with copious amounts of water for 15 min, call physician. SKIN: wash off skin with large volumes of water for 15 min, call physician if burn has occurred. INGESTION: induce vomiting, call physician.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 3, oral LD_{50} = 180 mg/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting and first degree burns on short exposure; may cause second-degree burns on long exposure.

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** <71°F (C.C.)

6.2 **Flammable Limits in Air:** 1.8% - 9.0%

6.3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** May polymerize and explode

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 4.7 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Will polymerize in the absence of inhibitor, especially when heated

7.6 **Inhibitor of Polymerization:** Typically hydroquinone

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

= −210 cal/g = −8.8 × 10⁵ J/kg

Continued on pages 5 and 6

NOTES

MMC

METHYL MERCAPTAN

Common Synonyms

Methanethiol
Mercaptomethane
Thiomethyl alcohol
Methyl sulfhydrate

Liquefied compressed gas Colorless Strong garlic odor

Floats and boils on water. Poisonous flammable vapor is produced.

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.
Wear goggles, self-contained breathing apparatus and rubber overclothing (including gloves).
Shut off ignition sources; call fire department.
Stop discharge if possible.
Evacuate area in case of large discharge.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
POISONOUS GASES ARE PRODUCED IN FIRE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Wear goggles and self-contained breathing apparatus.
Let fire burn.
Stop flow of gas if possible.
Cool exposed containers and protect personnel effectively with water.

Exposure

CALL FOR MEDICAL AID.

VAPOR

POISONOUS IF INHALED.
Irritating to eyes, nose and throat.
Move victim to fresh air.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID

POISONOUS IF SWALLOWED.
Irritating to skin and eyes.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability, water contaminant, air contaminant.
Restrict access.
Evacuate area.
Disperse and flush.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Mercaptomethane, Methanethiol, Methyl sulfhydrate, Thiomethyl alcohol

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** CH_4S

3.4 **IMCO/United Nations Numerical Designation:** 2.1/1064

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquefied compressed gas

4.2 **Color:** Colorless

4.3 **Odor:** Garlic, foul, strong, penetrating

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber gloves, goggles or face shield, air line or self-contained breathing apparatus.

5.2 **Symptoms Following Exposure:** Inhalation causes irritation of respiratory system, nausea, paralysis, unconsciousness; death may follow respiratory paralysis. Contact with liquid irritates eyes and skin; ingestion causes irritation of mouth and stomach, plus symptoms described for inhalation.

5.3 **Treatment, for Exposure:** INHALATION: remove patient immediately from the contaminated area; keep him warm and at complete rest; if necessary, give artificial respiration until medical assistance can be obtained; oxygen or oxygen-CO_2 inhalation is recommended, continuing after spontaneous breathing has returned. EYES: for exposure to vapor, apply hot and cold compresses to reduce pain of conjunctivitis; for exposure to liquid, wash with water and obtain medical assistance. SKIN: wash with water. INGESTION: induce vomiting and follow with gastric lavage.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0 ppm

5.5 **Short-Term Inhalation Limits:** 20 ppm for 5 min

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** 0.0021 ppm

6. FIRE HAZARDS

6.1 **Flash Point:** Not pertinent (flammable liquefied compressed gas)

6.2 **Flammable Limits in Air:** 3.9% - 21.8%

6.3 **Fire Extinguishing Agents:** Preferably let fire burn, stop gas flow. Fires may be extinguished with dry chemical, foam or carbon dioxide.

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective.

6.5 **Special Hazards of Combustion Products:** Irritating sulfur dioxide is produced.

6.6 **Behavior in Fire:** Containers may explode.

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 3.8 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Gas

13.2 **Molecular Weight:** 48.1

13.3 **Boiling Point at 1 atm:** 43.2°F = 6.2°C = 279.4°K

13.4 **Freezing Point:** −189°F = −123°C = 150°K

13.5 **Critical Temperature:** 386.2°F = 196.8°C = 470.0°K

13.6 **Critical Pressure:** 1,050 psia = 71.4 atm = 7.25 MN/m²

13.7 **Specific Gravity:** 0.892 at 0°C (liquid)

13.8 **Liquid Surface Tension:** 31 dynes/cm = 0.031 N/m at 5°C

13.9 **Liquid-Water Interfacial Tension:** Not pertinent

13.10 **Vapor (Gas) Specific Gravity:** 1.66

13.11 **Ratio of Specific Heats of Vapor (Gas):** 1.1938

13.12 **Latent Heat of Vaporization:** 220 Btu/lb = 122 cal/g = 5.10 × 10⁵ J/kg

13.13 **Heat of Combustion:** −11,054 Btu/lb = −6,141 cal/g = −257.0 × 10⁵ J/kg

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

(Continued on page 5 and 6)

NOTES

MMM

METHYL METHACRYLATE

Common Synonyms
Methacrylic acid methyl ester

Liquid | Colorless | Pleasant sharp odor

Floats on water. Flammable, irritating vapor is produced

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Containers may explode when heated.
Vapor may explode if ignited in an enclosed area.

Exposure

SEE FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness, headache, difficult breathing or loss of consciousness.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.

Water Pollution

Dangerous to aquatic life in high concentrations.
Fouling to shoreline.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability
Evacuate area
Disperse and flash

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Methacrylate monomer; Methacrylic acid, methyl ester; Methyl α-methylacrylate; Methyl 2-methyl 2 propenoate

3.2 **Coast Guard Compatibility Classification:** Acrylate

3.3 **Chemical Formula:** $CH_2=C(CH_3)COOCH_3$

3.4 **IMCO/United Nations Numerical Designation:** 3 2/1247

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Sharp, fragrant, pleasant smelling pungent ester

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air mask, plastic gloves, goggles

5.2 **Symptoms Following Exposure:** Irritation of eyes, nose, and throat. Nausea and vomiting. Liquid may cause skin irritation.

5.3 **Treatment for Exposure:** INHALATION: remove to fresh air, apply artificial respiration and oxygen if needed, refer to physician. SKIN OR EYES: flush with plenty of water for 15 min., refer to physician for eye exposure.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 1, LD_{50} 5 to 15 g/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first-degree burns on short exposure; may cause secondary burns on long exposure.

5.10 **Odor Threshold:** 0.05 ppm

6. FIRE HAZARDS

6.1 **Flash Point:** 50°F O.C.

6.2 **Flammable Limits in Air:** 2.1% - 12.5%

6.3 **Fire Extinguishing Agents:** Foam, carbon dioxide, dry chemical

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back. Containers may explode in fire or when heated because of polymerization.

6.7 **Ignition Temperature:** 790°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** 2.5 mm/min.

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Heat, oxidizing agents, and ultraviolet light may cause polymerization

7.6 **Inhibitor of Polymerization:** Hydroquinone, 22-65 ppm, hydroquinone methyl ether, 22-120 ppm, dimethyl tert-butylphenol, 45-65 ppm

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 250 ppm/96 hr/bluegill/TL_m/fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** (theor.) 1.4 lb/lb, 10 days

8.4 **Food Chain Concentration Potential:** None

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid

13.2 **Molecular Weight:** 100.12

13.3 **Boiling Point at 1 atm:** 214°F = 101°C = 374°K

13.4 **Freezing Point:** -54°F = -48°C = 225°K

13.5 **Critical Temperature:** 561°F = 294°C = 567°K

13.6 **Critical Pressure:** 485 psia = 33 atm = 3.3 MN/m²

13.7 **Specific Gravity:** 0.945 at 20°C (liquid)

13.8 **Liquid Surface Tension:** 28 dynes/cm = 0.028 N/m at 20°C

13.9 **Liquid-Water Interfacial Tension:** 14.3 dynes/cm = 0.0143 N/m at 22.7°C

13.10 **Vapor (Gas) Specific Gravity:** Not pertinent

13.11 **Ratio of Specific Heats of Vapor (Gas):** 1.050

13.12 **Latent Heat of Vaporization:** 140 Btu/lb = 77 cal/g = 3.2 × 10⁵ J/kg

13.13 **Heat of Combustion:** (est.) = 11,400 Btu/lb = -6,310 cal/g = -264 × 10⁵ J/kg

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** -248 Btu/lb = -138 cal/g = -5.78 × 10⁵ J/kg

(Continued on pages 3 and 4)

NOTES

REVISED 1978

MPT	# METHYL PARATHION

Common Synonyms
Metron
MPT
Parathol
Alkron
Nitron
Wofatox

Solid crystals or liquid or solution — White solid or brown liquid — Rotten eggs or garlic odor

Solid and liquid not in water, solution floats on water
Melting (freezing) point is 65° F

[illegible]

Fire

Combustible
POISONOUS GASES ARE PRODUCED IN FIRE AND WHEN HEATED
Containers may explode in fire

[illegible]

Exposure

[illegible]
LIQUID OR SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Irritating to eyes

[illegible]

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Solution is foaming to shoreline
May be dangerous if it enters water intakes.

[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 448-4)

Issue warning - poison, water contaminant
Restrict access
Shoreline should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** MPT, O,O-Dimethyl O-(p-Nitrophenyl) Phosphorothioate, O,O-Dimethyl O-p-Nitrophenyl Thiophosphate, Parathion-methyl

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $(CH_3O)_2PSOC_6H_4NO_2$

3.4 **IMCO/United Nations Numerical Designation:** 6.1/1658

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid or liquid

4.2 **Color:** Colorless solid or brownish liquid

4.3 **Odor:** Characteristic; like rotten eggs or garlic

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Approved mask or respirator, natural rubber gloves, over shoes, protective clothing, goggles

5.2 **Symptoms Following Exposure:** Exposure to fumes from a fire, or to the liquid, causes headache, blurred vision, constricted pupils of the eyes, weakness, nausea, cramps, diarrhea, and tightness in the chest. Muscle twitch and convulsions may follow. Symptoms may develop over a period of 8 hrs.

5.3 **Treatment for Exposure:** *Speed is essential.* INGESTION: call a doctor. If victim is not breathing, immediately institute artificial respiration by mouth-to-mouth, mouth-to-nose, or mouth-to-oropharyngeal method, when victim is conscious, give milk, water, or salt water and induce vomiting repeatedly. SKIN OR EYES: flood and wash exposed areas thoroughly with water. remove contaminated clothing under a shower.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.2 mg/m³ (vapor); 100 ppm (solution)

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 4. LD_{50} below 50 mg/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Not pertinent

5.9 **Liquid or Solid Irritant Characteristics:** Poisonous when absorbed through skin

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** 115°F O.C.

6.2 **Flammable Limits in Air:** Data not available

6.3 **Fire Extinguishing Agents:** Water

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Toxic gases are produced in fires

6.6 **Behavior in Fire:** Drums may rupture violently

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Half decomposed in 8 days at 40°C

7.2 **Reactivity with Common Materials:** Is absorbed by wood, etc., which must be replaced to eliminate poison hazard

7.3 **Stability During Transport:** Decomposes above 50°C with possible explosive force

7.4 **Neutralizing Agents for Acids and Caustics:** Apply caustic or soda ash slurry until yellow stains disappear

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:**
1.9 ppm/96 hr/bluegill/TL$_m$/fresh water
8.3 ppm/96 hr/fathead/TL$_m$/fresh water

8.2 **Waterfowl Toxicity:** LD_{50}=10 mg/kg

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** Data not available

NOTES

REVISED 1978

MPD — METHYL PHOSPHONOTHIOIC DICHLORIDE (ANHYD)

Common Synonym	Liquid	Colorless	Sharp Unpleasant Odor
MPTD	Sinks and reacts violently with water		

Fire

Combustible
Irritating gases may be produced when heated

Exposure

AVOID CONTACT OF ALL FORMS WITH THE BODY

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

LIQUID
Will burn skin and eyes
If swallowed will cause nausea and vomiting.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Issue warning - corrosive water contaminant
Restrict access
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** MPTD
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** CH_3PSCl_2
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Clear
4.3 **Odor:** Acrid

5. HEALTH HAZARDS

Use extreme care when handling this compound. Avoid any contact with liquid or vapor

5.1 **Personal Protective Equipment:** Rubber or neoprene gloves, respirator, protective goggles
5.2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat; effects are quite similar to those of phosgene. Ingestion causes irritation of mouth and stomach. Delayed painful eye irritation may occur from exposure to vapor. Liquid causes severe irritation; contact with skin causes irritation and burns.
5.3 **Treatment for Exposure:** *Get medical attention after all exposures to this compound.* INHALATION: remove victim to fresh air; alert physician to delayed effects similar to those of phosgene. INGESTION: give large amount of water and induce vomiting. EYES: flush with water for at least 15 min. SKIN: flush with water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Data not available
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available

NOTES

MPY 1-METHYLPYRROLIDONE

Common Synonyms
N-Methylpyrrolidone
1 Methyl-2 pyrrolidinone
N-Methylpyrrolidinone
N-Methyl-alpha-pyrrolidone

Liquid | White | Mild Fishy odor

May float or sink in water

As a fire contact with liquid Keep people away
Stop discharge if possible
Call fire department
Isolate and remove unburned material
Notify local health and wildlife officials

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED WHEN HEATED.
Wear goggles and self-contained breathing apparatus
Extinguish with dry chemicals foam or carbon dioxide
Water may be ineffective on fire
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin and eyes.
If swallowed will cause nausea and vomiting
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS induce victim to drink water, milk or honey in small quantities
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do nothing except keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

NOTES

MSR	# alpha-METHYLSTYRENE

Common Synonyms
Isopropenylbenzene
Phenylpropylene
1-Methyl-1-phenylethylene

Liquid Colorless

Floats on water.

Avoid contact with liquid. Keep people away.
Stop discharge if possible.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Extinguish with dry chemicals, foam or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

LIQUID
Will burn skin and eyes
If swallowed will cause nausea and vomiting

Avoid contact. Keep victim calm and warm.
Remove contaminated clothing and shoes.
Flush skin with plenty of water.
IF IN EYES hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.
DO NOT INDUCE VOMITING.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Fouling to shoreline
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Isopropenylbenzene
1-Methyl-1-phenylethylene
Phenylpropylene

3 2 **Coast Guard Compatibility Classification:** Olefin

3 3 **Chemical Formula.** $C_6H_5C(CH_3)=CH_2$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Characteristic

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Neoprene gloves, splashproof goggles or face shield

5 2 **Symptoms Following Exposure:** Inhalation causes irritation of respiratory tract, headache, dizziness, light headedness and breathlessness. Ingestion causes irritation of mouth and stomach. Contact with liquid irritates eyes. Prolonged skin contact can cause severe rashes, swelling and blistering.

5 3 **Treatment for Exposure:** INHALATION: remove victim to fresh air, if he is not breathing, give artificial respiration, contact a physician, keep victim quiet and warm. INGESTION: do NOT induce vomiting, call physician. EYES: flush with water for at least 15 min., get medical attention. SKIN: wash area with soap and water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm

5 5 **Short-Term Inhalation Limits:** 100 ppm, 30 min.

5 6 **Toxicity by Ingestion:** Grade 2, LD_{50}: 5 g/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** <10 ppm

6. FIRE HAZARDS

6 1 **Flash Point:** 137°F C.C.

6 2 **Flammable Limits in Air:** 1.9% - 6.1%

6 3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products:**

6 6 **Behavior in Fire:**

6 7 **Ignition Temperature:** 1065°F

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials.** May attack some forms of plastics

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7 5 **Polymerization:** Hazardous polymerization unlikely to occur except when in contact with alkali metals or metallo-organic compounds

7 6 **Inhibitor of Polymerization:** 10 - 20 ppm tert-butylcatechol

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 10 ppm, 96 hr/fathead minnow/TLm

8 2 **Waterfowl Toxicity.** Data not available

8 3 **Biological Oxygen Demand (BOD)** Data not available

8 4 **Food Chain Concentration Potential** None

13. PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm** Liquid

13 2 **Molecular Weight:** 118.17

13 3 **Boiling Point at 1 atm.** 329°F = 165°C = 438°K

13 4 **Freezing Point:** −9.8°F = −23.2°C = 250.0°K

13 5 **Critical Temperature:** 719.1°F = 381.7°C = 654.9°K

13 6 **Critical Pressure:** 494 psia = 33.6 atm = 3.41 MN/m

13 7 **Specific Gravity:** 0.91 at 20°C (liquid)

13 8 **Liquid Surface Tension:** 33.88 dynes/cm. = 0.03386 N/m at 20°C

13 9 **Liquid-Water Interfacial Tension.** Data not available

13 10 **Vapor (Gas) Specific Gravity:** 4.08

13 11 **Ratio of Specific Heats of Vapor (Gas)** 1.060 at 27°C

13 12 **Latent Heat of Vaporization:** 140.4 Btu/lb = 78.0 cal/g = 3.26×10^5 J/kg

13 13 **Heat of Combustion:** −17,690 Btu/lb = −9,830 cal/g = -411×10^5 J/kg

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution.** Not pertinent

13 16 **Heat of Polymerization:** Data not available

(Continued on pages 5 and 6)

NOTES

MTS

METHYLTRICHLOROSILANE

Common Synonyms

Liquid Colorless Sharp irritating odor

Reacts violently with water Irritating gas is produced on contact with water

AVOID CONTACT WITH LIQUID AND VAPOR KEEP UPWIND
Wear goggles Use self-contained breathing apparatus
Wear rubber clothing Rubber gloves
Stop flow of gas if possible
Is fire small enough for dry chemical or CO2?
Notify local health and pollution control agencies

Fire

FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Wear goggles and self-contained breathing apparatus
Extinguish with dry chemicals, carbon dioxide
DO NOT USE WATER OR FOAM ON FIRE
DO NOT USE WATER OR FOAM ON ADJACENT FIRES

Exposure

Call for medical aid

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause difficult breathing
Move victim to fresh air
If not breathing, give artificial respiration
If breathing is difficult, give oxygen

LIQUID
Will burn skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk
DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
air contaminant
Restrict access
Evacuate area
Disperse and flush with care

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Trichloromethylsilane

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula.** CH_3SiCl_3

3.4 **IMCO/United Nations Numerical Designation:** 3.2/1250

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Acrid, sharp, like hydrochloric acid

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Full protective clothing, acid vapor type respiratory protection, rubber gloves, chemical worker's goggles, other protective equipment as necessary to protect skin and eyes

5.2 **Symptoms Following Exposure:** Inhalation causes irritation of mucous membrane. Contact with liquid causes severe burns of eyes and skin. Ingestion causes severe burns of mouth and stomach

5.3 **Treatment of Exposure:** Get medical attention at once following all exposures to this compound. INHALATION: remove victim from exposure, give artificial respiration if breathing has ceased. EYES: flush with water for 15 min. SKIN: flush with water. INGESTION: do NOT induce vomiting, give large amounts of water

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 3. LD_{50} to 560 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations

5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes

5.10 **Odor Threshold:** Decomposes in moist air, creating HCl with odor threshold of 1 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 45°F (7°C) (15°F (-9°C))

6.2 **Flammable Limits in Air:** <1% >20%

6.3 **Fire Extinguishing Agents:** Dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used.** Water, foam

6.5 **Special Hazards of Combustion Products.** Toxic hydrogen chloride and phosgene gases may form in fire

6.6 **Behavior in Fire:** Difficult to extinguish; reignition may occur. Contact with water applied to adjacent fires produces irritating hydrogen chloride

6.7 **Ignition Temperature** >760°F

6.8 **Electrical Hazard** Data not available

6.9 **Burning Rate:** 1.9 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts violently to form hydrogen chloride (hydrochloric acid)

7.2 **Reactivity with Common Materials:** Reacts with surface moisture to evolve hydrogen chloride, which is corrosive to metals

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Flood with water, rinse with sodium bicarbonate or lime solution

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity** Data not available

8.2 **Waterfowl Toxicity** Data not available

8.3 **Biological Oxygen Demand (BOD)** Data not available

Continued on pages 5 and 6

NOTES

MVK METHYL VINYL KETONE

Common Synonyms

3 Buten 2-one

Liquid | Colorless to light yellow | Strong irritating odor

Mixes with water. Irritating vapor is produced

AVOID CONTACT WITH LIQUID. KEEP PEOPLE AWAY
Wear self-contained breathing apparatus and protective clothing
Shut off ignition sources; call fire department
Stop leak if no hazard
Stay upwind. Use water spray to knock down vapor
In case of fire, use foam on flammable material
Notify local health and pollution control agencies

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Extinguish with dry chemical, alcohol foam, or carbon dioxide
Water may be ineffective on fire
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID
VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

Move victim to fresh air
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen
LIQUID
POISONOUS IF SWALLOWED
Will burn skin and eyes

Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim CONSCIOUS, have him drink water or milk
DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability, water contaminant
Restrict access
Evacuate area
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 3 Buten 2-one
3.2 **Coast Guard Compatibility Classification.** Not applicable
3.3 **Chemical Formula:** $CH_3COCH{=}CH_2$
3.4 **IMCO/United Nations Numerical Designation.** 3.2/1251

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless to light yellow
4.3 **Odor:** Powerfully irritating

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Self contained breathing apparatus with full face piece, rubber gloves, chemical goggles or face piece of breathing apparatus
5.2 **Symptoms Following Exposure.** Inhalation causes irritation of nose and throat. Vapor causes tears; contact with liquid can burn eyes. Liquid irritates skin and will cause burn if not removed at once. Ingestion causes irritation of mouth and stomach
5.3 **Treatment for Exposure.** Get medical attention for all exposures to this compound. INHALATION: move victim to fresh air; administer artificial respiration if necessary. EYES or SKIN: flush with copious quantity of water for 15 min. INGESTION: do NOT induce vomiting
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits.** Data not available
5.6 **Toxicity by Ingestion.** Grade 4, LD_{50} < 50 mg/kg
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations
5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes
5.10 **Odor Threshold.** 0.5 mg/m³

6 FIRE HAZARDS

6.1 **Flash Point:** 30°F (0°C) (CC)
6.2 **Flammable Limits in Air:** 2.1 - 15.6%
6.3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Not pertinent
6.6 **Behavior in Fire.** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back. At elevated temperatures (fire conditions) polymerization may take place in containers, causing violent rupture. Unburned vapors are very irritating
6.7 **Ignition Temperature:** 918°F
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** 4.5 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent
7.5 **Polymerization.** Polymerizes spontaneously upon exposure to heat or sunlight
7.6 **Inhibitor of Polymerization.** 1 ppt to 1% hydroquinone

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD).** Data not available
8.4 **Food Chain Concentration Potential:** None

NOTES

MCA	# MONOCHLOROACETIC ACID

Common Synonyms	Solid or heated liquid	Cloudy white solid, liquid is colorless to light yellow	Strong vinegar-like odor
Chloroacetic acid Chloracetic acid	Mixes with water		

Avoid contact with liquid. Keep people away.
See discharge. Eye solids.
[illegible]
[illegible]
No [illegible]

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
[illegible] water

Exposure

Call for medical aid
LIQUID OR SOLID
Will burn skin and eyes.
Harmful if swallowed
[illegible]
IF IN EYES, [illegible] with water
IF SWALLOWED [illegible]
[illegible]
DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.
Notify [illegible]
Notify [illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: corrosive
Restrict access
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Chloracetic acid
Chloroacetic acid

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $ClCH_2COOH$

3 4 **IMCO/United Nations Numerical Designation:** Liquid 8/1750
Solid 8/1751

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid or solid

4 2 **Color:** Solid: translucent white
Liquid: clear to light amber

4 3 **Odor:** Characteristic penetrating odor similar to vinegar

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self-contained breathing apparatus, vinyl or neoprene rubber gloves, goggles and protective face shield, rubberized or acid resistant clothing

5 2 **Symptoms Following Exposure:** Inhalation causes mucous membrane irritation. Contact with liquid causes severe irritation and burns of the eyes and irritation and burns of skin. Ingestion causes burns of mouth and stomach

5 3 **Treatment for Exposure:** Get medical attention for all exposures to this compound. INHALATION: remove victim to fresh air and enforce rest until medical attention is obtained. EYES: flush with running water for 15 min. SKIN: flush with water, get treatment for burns. INGESTION: give large amount of water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 3, oral LD_{50} 76.2 mg/kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.

5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes.

5 10 **Odor Threshold:** 0.15 mg/m³

6. FIRE HAZARDS

6 1 **Flash Point:** (almost nonflammable) 259°F C.C.

6 2 **Flammable Limits in Air:** n/a (LEL)

6 3 **Fire Extinguishing Agents:** Dry chemical, carbon dioxide, water

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products:** Hydrogen chloride and phosgene may be generated

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature:** (Data not available) difficult to ignite

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** Causes mild corrosion of common metals

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Flush with water, rinse with sodium bicarbonate or lime solution

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD)** Data not available

8 4 **Food Chain Concentration Potential:** None

13 16 **Heat of Polymerization:** Not pertinent

Continued on page 5 and 6

NOTES

MCF — MONOCHLORODIFLUOROMETHANE

Common Synonyms
Freon 22
Genetron 22
Isotron 22
Ucon 22

Liquefied compressed gas Colorless Faint odor

Liquid sinks and boils in water. Visible vapor cloud is formed.

Fire

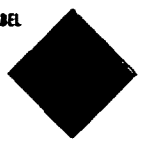
Not flammable
POISONOUS GASES ARE PRODUCED WHEN HEATED

Exposure

VAPOR
Not irritating to eyes, nose or throat
If inhaled, will cause dizziness or loss of consciousness

LIQUID
Will cause frostbite

Water Pollution



Not harmful to aquatic life

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Chlorodifluoromethane
Eskimon 22 — Genetron 22
I 22 — Isotron 22
Freon 22 — Ucon 22

3 2 **Coast Guard Compatibility Classification:** Halogenated hydrocarbon

3 3 **Chemical Formula:** $CHClF_2$

3 4 **IMCO United Nations Numerical Designation:** 2 0 -018

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquefied gas

4 2 **Color:** Colorless

4 3 **Odor:** Faint ethereal like carbon tetrachloride

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves, goggles

5 2 **Symptoms Following Exposure:** Inhalation at greater than 10% concentration in air may cause narcosis. Liquid may cause frostbite

5 3 **Treatment for Exposure:** Remove victim to non-contaminated area and apply artificial respiration if breathing has stopped. Call a physician immediately. Oxygen inhalation may be utilized

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 1000 ppm

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Not pertinent

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are nonirritating to the eyes and throat

5 9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin because it evaporates quickly. Liquid may cause frostbite

5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air:** Not flammable

NOTES

REVISED 1978

MEA — MONOETHANOLAMINE

Common Synonyms
beta-Aminoethyl alcohol
2-Hydroxyethylamine
Ethanolamine
2-Aminoethanol

Oily liquid | Colorless | Slight ammonia odor

Sinks and mixes with water. Freezing point is 51°F.

Fire

Combustible

Exposure

LIQUID OR SOLID
Irritating to skin and eyes.
Harmful if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Dispose and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 2-Aminoethanol
beta-Aminoethyl alcohol
Ethanolamine
2-Hydroxyethylamine

3.2 **Coast Guard Compatibility Classification:** Alkanolamines

NOTES

REVISED 1978

MPL	# MORPHOLINE

Common Synonyms
Tetrahydro-2H-1,4-oxazine
Tetrahydro-p-oxazine

Oily liquid | Colorless | Fishy, ammonia odor

Floats and mixes with water. Irritating vapor is produced

Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

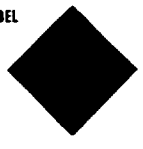
Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled, will cause nausea, headache, or difficult breathing

LIQUID
Irritating to skin and eyes

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Diethylenimide oxide
Diethylene imidoxide
Diethylene oximide
Tetrahydro-2H-1,4-oxazine
Tetrahydro-p-oxazine

3.2 **Coast Guard Compatibility Classification:** Aliphatic amine

3.3 **Chemical Formula:** $OCH_2CH_2NHCH_2CH_2$

2.4 **IMCO/United Nations Numerical Designation:** 3.3/2054

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Fishy ammoniacal

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic vapor canister or self-contained breathing apparatus, rubber boots and gloves, goggles or face shield

5.2 **Symptoms Following Exposure:** Liquid causes skin and eye burns. Breathing vapors or absorption through skin may cause nausea and headache

5.3 **Treatment for Exposure:** INHALATION: if all effects occur, move patient to fresh air, keep him quiet and warm, and call a physician; if breathing stops, start artificial respiration. INGESTION: force milk or water; then immediately induce vomiting; treat symptomatically. No known antidote. SKIN OR EYES: immediately flush with plenty of water for at least 15 min; for eyes get medical attention promptly.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 20 ppm

5.5 **Short Term Inhalation Limits:** 20 ppm for 15 min

5.6 **Toxicity by Ingestion:** Grade 2; LD_{50} 0.5 to 5 g/kg (guinea pig, rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** 0.01 ppm

6. FIRE HAZARDS

6.1 **Flash Point:** 100°F O.C.

6.2 **Flammable Limits in Air:** 1.8% - 10.8%

6.3 **Fire Extinguishing Agents:** Water fog, alcohol foam, dry chemical, or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Irritating vapors are generated when heated

6.6 **Behavior in Fire:** Vapor is heavier than air and may travel some distance to source of ignition and flash back

6.7 **Ignition Temperature:** 590°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** 1.9 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** (theor.) 0.9%, 5 days; 5.1%, 20 days

8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

MFA — MOTOR FUEL ANTI-KNOCK COMPOUNDS CONTAINING LEAD ALKYLS

Common Synonyms

Oily liquid Dyed red, orange or blue Sweet fruity odor

Sinks in water

AVOID CONTACT WITH LIQUID AND VAPOR

Fire

Combustible
POISONOUS GASES ARE PRODUCED IN FIRE
Container may explode when heated

Exposure

CALL FOR MEDICAL AID
LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn eyes

IF SWALLOWED

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning person
Restrict access
Evacuate area
Should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms
3.2 **Coast Guard Compatibility Classification:** Motor fuel antiknock compound
3.3 **Chemical Formula:** Not applicable
3.4 **IMCO/United Nations Numerical Designation:** 6.1/1649

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Red, orange, or blue
4.3 **Odor:** Sweet, musty fruity odor

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic vapor cartridge type face mask for emergencies of short duration, fresh air mask for longer duration, impervious protective gloves, goggles as required, boots and light-colored clothing

5.2 **Symptoms Following Exposure:** Increased urinary output of lead. Large degree of absorption from inhalation or skin contact may cause insomnia, excitability, delirium, coma and death

5.3 **Treatment for Exposure:** Call a physician for any exposure. INHALATION: remove from exposure. INGESTION: no specific antidote. EYES: flush with plenty of water for about 15 min. SKIN: flush with kerosine, wash with soap and water

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.1 - 0.15 mg/m³ (as lead)

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** Lead poisoning

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of the skin. Toxic absorption through skin may occur

5.10 **Odor Th...** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** 89°F = 265°F O.C.
6.2 **Flammable Limits in Air:** None established
6.3 **Fire Extinguishing Agents:** Water, foam, dry chemical, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Toxic lead-containing gases are generated in fires
6.6 **Behavior in Fire:** containers may explode
6.7 **Ignition Temperature:** Begins to decompose above 212°F
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** Reacts with oxidizing materials, active metals and rust, but not considered hazardous
7.3 **Stability During Transport:** A self sustaining decomposition occurs if the temperature of the bulk liquid is above 212°F and a flame or hot metal surface serves to ignite the mass. The presence of ethylene dibromide makes the compound stable at 300°F for 15 hrs.
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** See Tetraethyl Lead
8.2 **Waterfowl Toxicity:** ...ta not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** Data not available

NOTES

NCT	NAPHTHA: COAL TAR

Common Synonyms
Mixture of coal tar hydrocarbons

Watery liquid Colorless to pale yellow Gasoline-like odor

Floats on water. Irritating vapor is produced.

Fire

Combustible

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness, headache, difficult breathing or loss of consciousness.

LIQUID
Irritating to skin and eyes.
If swallowed, will cause nausea or vomiting.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Floating to form surface.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

Mechanical containment.
Should be removed.
Chemical and physical treatment.

2. LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Mixture of benzene, toluene and xylenes
3.2 **Coast Guard Compatibility Classification:** Miscellaneous hydrocarbon mixtures
3.3 **Chemical Formula:** Not applicable
3.4 **IMCO United Nations Numerical Designation:**

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless to pale yellow
4.3 **Odor:** Like benzene, toluene and xylene

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Wear self-contained breathing apparatus and full protective clothing.
5.2 **Symptoms Following Exposure:** Primarily a narcotic causing drowsiness at high concentrations. The symptoms of acute benzene poisoning are the same as those produced by the aromatic hydrocarbons in coal tar naphtha.
5.3 **Treatment for Exposure:** Remove victim to fresh air. Support respiration if necessary. Call physician.
5.4 **Toxicity by Inhalation (Threshold Limit Value):**
5.5 **Short-Term Inhalation Limits:**
5.6 **Toxicity by Ingestion:**
5.7 **Late Toxicity:**
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes and respiratory tract. The effects are temporary.
5.9 **Liquid or Solid Irritant Characteristics:** Moderate hazard. If spilled in confined area, the vapors may cause dizziness and asphyxiation.
5.10 **Odor Threshold:**

6 FIRE HAZARDS

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color** Colorless
4 3 **Odor:** Like kerosene and gasoline

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Goggles or face shield (as for gasoline)
5 2 **Symptoms Following Exposure:** High concentration of vapors may cause intoxication. If liquid is swallowed it may get into lungs by aspiration, not very irritating to skin or eyes
5 3 **Treatment for Exposure.** INHALATION: remove to fresh air, treat symptoms. INGESTION: do NOT induce vomiting, call a doctor. EYES: flush with water for 15 min. SKIN: wipe off, wash with soap and water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 200 ppm
5 5 **Short-Term Inhalation Limits:** 500 ppm for 30 min
5 6 **Toxicity by Ingestion:** Grade 2 LD$_{50}$ 0.5 to 5 g/kg
5 7 **Late Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are nonirritating to eyes and throat
5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain may cause stinging and reddening of skin
5 10 **Odor Threshold.** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** >100°F C C
6 2 **Flammable Limits in Air:** 0.8% - 5.0%
6 3 **Fire Extinguishing Agents:** Foam, carbon dioxide, or dry chemical
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products.** Not pertinent
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature** 444°F
6 8 **Electrical Hazard.** Class I, Group D
6 9 **Burning Rate:** 4 mm/min

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent
7 5 **Polymerization.** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity.** Data not available
8 3 **Biological Oxygen Demand (BOD):** Data not available
8 4 **Food Chain Concentration Potential** None

NOTES

REVISED 1978

NVM

NAPHTHA: VM & P

(75% NAPHTHA)

Common Synonyms
Petroleum solvent
Light naphtha

Watery liquid | Colorless | Gasoline-like odor

Floats on water. Flammable, irritating vapor is produced

Stop discharge if possible. Keep people away.
Shut off ignition sources and call fire department.
Stay out of low areas; ventilate closed spaces before entering.
Stay upwind and use water spray to knock down vapor.
Avoid contact with liquid and vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with foam, dry chemical, carbon dioxide.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness or loss of consciousness.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
If swallowed, will cause nausea or vomiting.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability.
Evacuate area.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Light naphtha; Painter's naphtha; Petroleum solvent
3 2 **Coast Guard Compatibility Classification:** Miscellaneous hydrocarbon mixtures
3 3 **Chemical Formula:** Not applicable
3 4 **IMCO/United Nations Numerical Designation:** 3 2 1255

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Like gasoline

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield (as for gasoline)
5 2 **Symptoms Following Exposure:** Vapor irritates respiratory tract, causes coughing and mild depression. Aspiration causes severe lung irritation with coughing, gagging and rapidly developing pulmonary edema. Ingestion irritates mouth and stomach, causes nausea, vomiting, swelling of abdomen, cardiac arrhythmias.
5 3 **Treatment for Exposure:** INHALATION: maintain respiration if required. INGESTION: do NOT induce vomiting; observe for pneumonia; support if central nervous system depression occurs. ASPIRATION: enforce rest; administer oxygen; call a doctor. EYES: flush with water for at least 15 min. SKIN: wipe off, wash with soap and water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** 500 ppm for 30 min
5 6 **Toxicity by Ingestion:** Grade 1 LD$_{50}$ 5 to 15 g/kg
5 7 **Late Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.
5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.
5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** 20–58°F, C.C.
6 2 **Flammable Limits in Air:** 0.9% – 6.7%
6 3 **Fire Extinguishing Agents:** Foam, carbon dioxide or dry chemical
6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6 5 **Special Hazards of Combustion Products:** Not pertinent
6 6 **Behavior in Fire:** Vapor is heavier than air and may travel long distances to a source of ignition and flash back
6 7 **Ignition Temperature:** 450°F
6 8 **Electrical Hazard:** Class I, Group D
6 9 **Burning Rate:** 4 mm/min

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

NOTES

REVISED 1978

NTI

NAPHTHENIC ACIDS

Common Synonyms	Liquid	Gold to black
	May float or sink in water	

Avoid contact with liquid and vapor. Keep people away.
Stop discharge if possible.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Combustible

Extinguish with dry chemicals, foam or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes
If swallowed will cause nausea

Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do not give liquid. Seek medical aid.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Fouling to shoreline
May be dangerous if it enters water intakes

Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** No common synonyms.

3 2 **Coast Guard Compatibility Classification** Not listed

3 3 **Chemical Formula**

$R\text{-}(CR_2CR_2CR_2\text{-}C)R(CH_{in}COOH$

where n = 2 6

3 4 **IMCO/United Nations Numerical Designation.** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid

4 2 **Color:** Golden to black

4 3 **Odor:** Data not available

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Safety glasses or face mask.

5 2 **Symptoms Following Exposure:** Principal effect is that of mild primary irritation when encountered in high concentrations. Inhalation of vapor causes coughing. Liquid is moderately irritating to eyes and slightly to moderately irritating to skin; excessive exposure could result in dermatitis.

5 3 **Treatment for Exposure:** INHALATION: remove to fresh air. INGESTION: give large amounts of water. EYES: flush with water until irritation subsides. SKIN: wash with soap and water; remove contaminated clothing and launder before reuse.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 10 mg/m

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion.** Oral LD_{50} = 1000 mg/kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of skin.

5 10 **Odor Threshold.** Odorless

6 FIRE HAZARDS

6 1 **Flash Point:** 300°F OC

6 2 **Flammable Limits in Air:** 1 0% (LEL)

6 3 **Fire Extinguishing Agents:** Foam, dry chemical or carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

(Continued on pages 5 and 6)

NOTES

NAO	# 1-NAPHTHYLAMINE

Common Synonyms			
1-Aminonaphthalene alpha-Naphthylamine	Solid	Light to dark brown	Weak ammonia-like odor
	Sinks in water		

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY
Wear face shield and self-contained breathing apparatus (pressure-demand)
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
POISONOUS GASES ARE PRODUCED IN FIRE
Irritating gases are produced when heated
Extinguish with water

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
Irritating to eyes
Wear self-contained breathing apparatus (pressure-demand)
Full protective clothing including gloves
IF INHALED Remove victim to fresh air
IF SWALLOWED Do not induce vomiting Give water
Induce vomiting and have victim drink water
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS Do not induce vomiting Keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison, water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABELS

None required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1-Aminonaphthalene; alpha-Naphthylamine
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** $C_{10}H_9N$
3 4 **IMCO/United Nations Numerical Designation:** 6.1 1650

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Tan to brown, darkens on storage
4 3 **Odor:** Characteristic amine

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Complete protection for respirators, system, eyes and skin
5 2 **Symptoms Following Exposure:** Inhalation may cause cyanosis (blue color in lips and under finger nails). Contact with liquid causes local irritation of eyes. Neither ingestion nor contact with skin produces any recognized immediate effects.
5 3 **Treatment for Exposure:** *Persons undergoing severe exposure to this compound should have continuing medical attention for possible development of cancer.* INHALATION: obtain medical attention for cyanosis. EYES: flush with water for at least 15 min. SKIN: wash carefully with soap and water. INGESTION: get medical attention.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 779 mg/kg (rat); 4,000 mg/kg (mammal)
5 7 **Late Toxicity:** Considered cancer producing particularly since it may contain up to 0.5% of 2-naphthylamine
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available

(Continued on page 1 and 4)

NOTES

NHX — NEOHEXANE

Common Synonyms

2,2-Dimethylbutane

Liquid | Colorless | Gasoline like odor

Floats on water. Flammable. Irritating vapor is produced.

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause dizziness, coughing, or difficult breathing

LIQUID
Irritating to skin and eyes.
If swallowed will cause nausea or vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability
Restrict access
Evacuate area
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 2,2-Dimethylbutane

3.2 **Coast Guard Compatibility Classification.** Not applicable

3.3 **Chemical Formula.** $CH_3C(CH_3)_2CH_2CH_3$

3.4 **IMCO/United Nations Numerical Designation:** 3.1/1208

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Like gasoline

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air supplied apparatus or organic vapor cartridge, goggles or face shield, rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation causes dizziness, nausea and vomiting; concentrated vapor may cause unconsciousness and collapse. Contact with liquid causes irritation of eyes; repeated contact may produce irritation of skin. Ingestion causes irritation of stomach. Aspiration causes severe lung irritation; rapidly developing pulmonary edema and central nervous system excitement followed by depression.

5.3 **Treatment for Exposure:** INHALATION: remove from exposure; if breathing has stopped, begin artificial respiration; call a physician. EYES: flush with water for 15 min.; call physician if needed. SKIN: flush well with water; then wash with soap and water. INGESTION: do NOT induce vomiting; guard against aspiration into lungs; call a doctor. ASPIRATION: enforce bed rest; give oxygen; get medical attention.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** −54°F C.C.

6.2 **Flammable Limits in Air:** 1.2% - 7.0%

6.3 **Fire Extinguishing Agents.** Dry chemical, foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire.** Not pertinent

6.7 **Ignition Temperature:** 797°F

6.8 **Electrical Hazard.** Data not available

6.9 **Burning Rate:** 9.2 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD).** Data not available

8.4 **Food Chain Concentration Potential:** None

(Continued on page C-446-4)

NOTES

NKA NICKEL ACETATE

Common Synonyms
Nickel acetate tetrahydrate
Acetic acid, Nickel (II) salt
Nickelous acetate

Solid | Dull green | Odorless

Sinks and mixes slowly with water

Avoid contact with solid and dust. Keep people away.
No discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat.
If inhaled will cause coughing or difficult breathing.
If in eyes, hold eyelids apart and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

SOLID
Irritating to skin and eyes.
If swallowed will cause nausea and vomiting.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES: hold eyelids apart and flush with plenty of water.
IF SWALLOWED: and victim is CONSCIOUS, have victim drink water (two glasses).
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS: do not induce vomiting.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4.

Disperse and flush.

2. LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Acetic acid, nickel(2+) salt
Nickel acetate tetrahydrate
Nickelous acetate

3.2 **Coast Guard Compatibility Classification.** Not listed.

NOTES

NBR	# NICKEL BROMIDE

Common Synonyms			
Nickel bromide trihydrate	Solid	Yellowish-green	Odorless
	Sinks and mixes with water		

Fire

Not flammable
Irritating gases may be produced when heated

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing and difficult breathing

SOLID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

NOTES

NKC	# NICKEL CARBONYL

Common Synonyms

Nickel tetracarbonyl

Liquid Colorless to yellow Musty, stale odor

Sinks in water. Poisonous flammable vapor is produced.

Fire

FLAMMABLE.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
POISONOUS IF INHALED
Irritating to eyes, nose and throat.

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn skin and eyes.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning. Poison. High flammability.
If contaminant: Water contaminant.
Restrict access.
Evacuate area.
Should be removed.
Chemical and physical treatment.

2 LABELS

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Nickel tetracarbonyl
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** $Ni(CO)_4$
3 4 **IMCO/United Nations Numerical Designation:** UN 1259

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless to yellow
4 3 **Odor:** Musty characteristic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self-contained breathing apparatus; complete protective clothing.

5 2 **Symptoms Following Exposure:** Inhalation causes giddiness, headache, shortness of breath, vomiting. If victim is removed from exposure, symptoms may disappear but recur 12-36 hours later along with blue pallor of skin, fever and cough; death may occur. Ingestion or contact with skin may also produce these symptoms. Abnormal nickel content of urine and blood is a measure of the severity of exposure. Contact of liquid with eyes causes severe irritation.

5 3 **Treatment for Exposure:** *Medical help must be obtained following any exposures to vapor or liquid.* INHALATION: oral administration of sodium diethyldithiocarbamate trihydrate (Dithiocarb); complete bed rest and positive pressure oxygen are indicated for pulmonary edema; treatment otherwise is symptomatic. EYES: flush with water for at least 15 min. SKIN: wipe off, wash with soap and water. INGESTION: do NOT induce vomiting.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.001 ppm

5 5 **Short-Term Inhalation Limits:** 0.04 ppm for 5 min

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** May produce cancer

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.

5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes.

5 10 **Odor Threshold:** 1 ppm

6 FIRE HAZARDS

6 1 **Flash Point:** < −4°F (C)
6 2 **Flammable Limits in Air:** 2- (11)
6 3 **Fire Extinguishing Agents:** Water
6 4 **Fire Extinguishing Agents Not to be Used:** Data not available

13. PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Liquid
13 2 **Molecular Weight:** 170.7
13 3 **Boiling Point at 1 atm:** 109°F = 43°C = 316°K
13 4 **Freezing Point:** −13°F = −25°C = 248°K
13 5 **Critical Temperature:** Not pertinent
13 6 **Critical Pressure:** Not pertinent
13 7 **Specific Gravity:** 1.322 at 17°C (liquid)
13 8 **Liquid Surface Tension:** 15.9 dynes/cm = 0.0159 N/m at 20°C
13 9 **Liquid-Water Interfacial Tension:** Data not available
13 10 **Vapor (Gas) Specific Gravity:** 5.9
13 11 **Ratio of Specific Heats of Vapor (Gas):** Data not available
13 12 **Latent Heat of Vaporization:** 72 Btu/lb = 40 cal/g = 1.7 × 10⁵ J/kg
13 13 **Heat of Combustion:** −2970 Btu/lb = −1650 cal/g = −69.0 × 10⁵ J/kg
13 14 **Heat of Decomposition:** Not pertinent
13 15 **Heat of Solution:** Not pertinent
13 16 **Heat of Polymerization:** Not pertinent

(Continued on pages 5 and 6)

NOTES

NCL	# NICKEL CHLORIDE

Common Synonyms			
Nickel chloride hexahydrate	Solid	Green	Odorless
	Sinks and mixes with water		

[illegible]

Fire

Not flammable

Exposure

[illegible] FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
[illegible]

SOLID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting
[illegible]

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Nickel chloride hexahydrate
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $NiCl_2 \cdot 6H_2O$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Green
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, protective gloves, Bu. Mines approved respirator, protective clothing
5 2 **Symptoms Following Exposure:** Inhalation of dust causes irritation of nose and throat. Ingestion causes vomiting. Dust irritates eyes and may cause dermatitis in contact with skin
5 3 **Treatment for Exposure:** INHALATION: move to fresh air, get medical attention if exposure has been severe. INGESTION: give large amount of water. EYES: flush with copious of water for at least 15 min. SKIN: flush with water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** [illegible] mg/m³ (as nickel)
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 2 LD$_{50}$ 0.5 g/kg
5 7 **Late Toxicity:** Possible lung cancer
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable

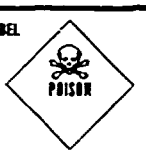
(Continued on page 5 and 6)

NOTES

NCN	# NICKEL CYANIDE



Common Synonyms	Solid — Light green or yellow-brown — Weak almond odor Sinks in water
	[illegible]
Fire	Not flammable
Exposure	[illegible] DUST POISONOUS IF INHALED Irritating to eyes, nose and throat [illegible] SOLID POISONOUS IF SWALLOWED Irritating to skin and eyes [illegible]
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes [illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-6)

Issue warning: prevent water contact
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** $Ni(CN)_2 \cdot nH_2O$ n=0,2,4
3 4 **IMCO/United Nations Numerical Designation:** 1653

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Anhydrous yellow-brown, hydrates pale green
4 3 **Odor:** Weak characteristic cyanide

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, rubber gloves, goggles
5 2 **Symptoms Following Exposure:** Inhalation of dust or ingestion may produce nose irritation, salivation, numbness of throat, anxiety, irregular respiration, rapid pulse, convulsions, loss of consciousness, paralysis, death
5 3 **Treatment for Exposure:** Get medical help; first aid treatment must be prompt; the compound is much less toxic than sodium or potassium cyanides. No cyanide poisoning is a postulate. EYES or SKIN: flush with water; avoid getting solution in mouth. INGESTION: start artificial respiration if breathing has stopped; inhalation of amyl nitrite and intravenous doses of sodium nitrite and sodium thiosulfate should be administered by physician
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** 5 mg/m³ for 30 min (as cyanide)
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Not pertinent

NOTES

NNT NICKEL NITRATE

Common Synonyms
Nickel nitrate hexahydrate

Solid | Green | Odorless

Sinks and mixes with water

Avoid contact with solid and dust. Keep people away.
Stop leak if no fire.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable
Will increase the intensity of a fire
POISONOUS GASES MAY BE PRODUCED WHEN HEATED
Runoff to sewer may cause pollution

Exposure

CALL FOR MEDICAL AID
DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
If in eyes, hold eyelids open and flush with plenty of water
If not breathing, has stopped, give artificial respiration
If breathing is difficult, give oxygen
SOLID
Irritating to eyes
If swallowed, may cause nausea and vomiting
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS
Do not induce vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify operators of downstream water intakes

1 RESPONSE TO DISCHARGE

NOTES

NIC — NICOTINE

Common Synonyms			
1-Methyl-2-(3-pyridyl) pyrrolidine 3-(1-methyl-2-pyrrolidyl) pyridine	Liquid	Colorless to brown	Fishy odor
	Mixes with water		

[illegible]

Fire

Combustible
POISONOUS GASES ARE PRODUCED WHEN HEATED
[illegible]

Exposure

[illegible] FOR MEDICAL AID
LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Irritating to eyes
[illegible]
IF SWALLOWED [illegible]
IF SWALLOWED [illegible]

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
[illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: poison, water contaminant
Restrict access
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** 1-Methyl-2-(3-pyridyl) pyrrolidine; 3-(1-Methyl-2-pyrrolidyl) pyridine

3.2 **Coast Guard Compatibility Classification.** Not applicable

3.3 **Chemical Formula.** [illegible]

3.4 **IMCO/United Nations Numerical Designation.** 6.1/1654

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless to brown

4.3 **Odor.** Fishy; develops a pyridine or tobacco-like odor on exposure to air

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Goggles or face shield; rubber gloves; protective clothing

5.2 **Symptoms Following Exposure:** Inhalation: [illegible] burning sensation in mouth and throat; nausea; headache; [illegible]. Contact with liquid irritates eyes and causes local irritation of skin. Can be absorbed through skin in toxic amounts. Ingestion causes burning of mouth and stomach; vomiting; excitement; faintness; paralysis of lungs.

5.3 **Treatment for Exposure.** *Speed of treatment is important following exposure to this compound. Ingestion of as little as 40 mg can be fatal.* EYES: flush with water for at least 15 min. SKIN: wash thoroughly and immediately with cold water. INGESTION: call for physician at once; give 6 tablespoons of activated charcoal as a slurry in water; give artificial respiration if breathing has stopped.

5.4 **Toxicity by Inhalation (Threshold Limit Value).** [illegible]

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Oral [illegible] LD_{50} = 53 mg/kg (rat); 1 mg/kg (human)

5.7 **Late Toxicity:** Birth defects (experimental animals)

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are nonirritating to eyes and throat

5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically [illegible] to the skin

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point.** Data not available

6.2 **Flammable Limits in Air.** [illegible]

6.3 **Fire Extinguishing Agents.** Dry chemical, alcohol foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used.** Water or foam may cause frothing

6.5 **Special Hazards of Combustion Products.** Smoke may contain toxic vapors of unburned compound

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature.** 471°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water.** No reaction

7.2 **Reactivity with Common Materials.** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity.** 3.29 ppm/* fish/toxic/fresh water
*Time period not specified

8.2 **Waterfowl Toxicity:** LD_{50} = 987 mg/kg

8.3 **Biological Oxygen Demand (BOD).** Data not available

8.4 **Food Chain Concentration Potential.** None

NOTES

NTL — NITRALIN

Common Synonyms

4-(Methylsulfonyl)-2,6-dinitro-N,N-dipropylaniline
Planavin

Solid | Light yellow to orange | Mild odor

Sinks in water

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY
Wear goggles, self-contained breathing apparatus, and rubber suit
Notify local health and pollution control agencies
Keep chemical from entering water intakes
Isolate and remove discarded material
Notify local health and pollution control agencies

Fire

Combustible
Irritating gases are produced when heated
Containers may explode in fire
Use water spray to keep fire-exposed containers cool
Dike and collect water used to fight fire

Exposure

CALL FOR MEDICAL AID

DUST

POISONOUS IF INHALED

Wear dust respirator
Wear protective clothing

SOLID

POISONOUS IF SWALLOWED
Irritating to skin and eyes

Wear dust respirator
Wear protective clothing
EYES: Immediately flush with plenty of water for at least 15 minutes. Get medical attention.
SWALLOWED: Induce vomiting by giving two glasses of water or milk and sticking finger down throat. Get medical attention.
SWALLOWED: Do not induce vomiting. Seek medical attention.
SKIN CONTACT: Wash with soap and water

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Issue warning: poison water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABELS

No label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** 4-(methylsulfonyl)-2,6-dinitro-N,N-dipropylaniline Planavin

NOTES

NAC	# NITRIC ACID

Common Synonyms

Watery liquid Colorless to light brown Choking odor

Sinks and mixes with water. Harmful vapor is produced.

AVOID CONTACT WITH LIQUID AND VAPOR.

Fire

Not flammable
May cause fire on contact with combustibles
Flammable gas may be formed on contact with metals
Poisonous gases are produced when heated

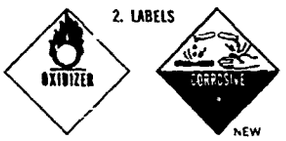
Exposure

CALL FOR MEDICAL AID

VAPOR
Will burn eyes, nose and throat.
If inhaled, will cause difficult breathing or loss of consciousness.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Isolate water for corrosive
Restrict access
Evacuate area
Disperse and flush

2. LABELS

NEW

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms
3.2 **Coast Guard Compatibility Classification:** Nitric acid
3.3 **Chemical Formula:** HNO_3
3.4 **IMCO United Nations Numerical Designation:** NO 2031

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Acrid, sweet to acrid

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air mask, rubber acid suit, hood, boots and gloves, chemical goggles, safety shower and eye bath
5.2 **Symptoms Following Exposure:** Vapors irritate eyes and respiratory tract; lung injury may not become apparent for several hours following exposure. Liquid may cause severe burns to eyes and skin.
5.3 **Treatment for Exposure:** INHALATION: remove to fresh air, administer oxygen if breathing is difficult, give artificial respiration if required. INGESTION: drink large volumes of water, do NOT induce vomiting. SKIN OR EYES: flush with water for at least 15 min.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 2 ppm
5.5 **Short-Term Inhalation Limits:** 10 ppm for 30 min
5.6 **Toxicity by Ingestion:** Grade 3. LD$_{50}$: 430 mg/kg
5.7 **Late Toxicity:** None
5.8 **Vapor (Gas) Irritant Characteristics:** 5 to 885. Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations. 99+. Vapors cause severe irritation of eye and throat and can cause eye and lung injury. Does not accumulate even at low concentrations.
5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and is very dangerous to the eyes.
5.10 **Odor Threshold:** Data not available.

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Use water on adjacent fires
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** May give off poisonous oxides of nitrogen and acid fumes when heated in fires.
6.6 **Behavior in Fire:** Decomposes and gives off poisonous oxides of nitrogen
6.7 **Ignition Temperature:** Not flammable
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not flammable

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** May heat up on mixing, but explosion or formation of steam unlikely.
7.2 **Reactivity with Common Materials:** Very corrosive to wood, paper, cloth and most metals. Toxic red oxides of nitrogen are formed.
7.3 **Stability During Transport:** When heated may give off toxic red oxides of nitrogen.
7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water.
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 72 ppm 96 hr mosquito fish TL$_m$ fresh water; 180-1000 ppm 48 hr oceanic IC$_{50}$ salt water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** None
8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

NTX	# NITRIC OXIDE

Common Synonyms

Mononitrogen monoxide
Nitrogen monoxide

Compressed gas Colorless Sharp unpleasant odor

Reacts with water. Poisonous red brown vapor cloud is produced

Fire

Not flammable

Exposure

VAPOR
POISONOUS IF INHALED
Irritating to eyes, nose and throat

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison, air contaminant
Restrict access
Evacuate area

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Mononitrogen monoxide
Nitrogen monoxide

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** NO

3 4 **IMCO/United Nations Numerical Designation:** 2 1660

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Compressed gas

4 2 **Color:** Colorless but becomes red brown on contact with air because of formation of nitrogen tetroxide

4 3 **Odor:** (nitrogen tetroxide) Pungent acrid mildly irritating

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self-contained breathing apparatus or gas mask with universal canister

5 2 **Symptoms Following Exposure:** Continued inhalation of low concentrations causes chronic irritation, cough, headache, corrosion of teeth, loss of strength, symptoms from overexposure to higher concentrations which may be delayed for 6–24 hours include irritation of nose and throat, tightness in chest, difficult breathing, pallor, loss of consciousness, and death. pulmonary edema occurs. If patient recovers, pneumonia may develop

5 3 **Treatment for Exposure:** *Get medical attention at once following inhalation of this gas.* INHALATION: if breathing has stopped, give artificial respiration with 100% oxygen, keep victim quiet and warm. Keep head and chest lower than hips, to aid in drainage from lungs. Alert physician to possibility of delayed pulmonary edema during 6–24 hours.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 25 ppm

5 5 **Short-Term Inhalation Limits:** ≤100 ppm: 60 min.; ≤150 ppm: 30 min.; ≤200 ppm: 5 min.

5 6 **Toxicity by Ingestion:** Not pertinent (gas at normal temperatures)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not pertinent (nonflammable compressed gas)

6 2 **Flammable Limits in Air:** Not pertinent

6 3 **Fire Extinguishing Agents:** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products:** Not pertinent

6 6 **Behavior in Fire:** Supports combustion so all fires burn more vigorously

6 7 **Ignition Temperature:** Not pertinent

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts with water to form nitrous acid. The reaction is not violent

7 2 **Reactivity with Common Materials:** Reacts rapidly with air to form nitrogen tetroxide; see this compound

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Flood with water; rinse with sodium bicarbonate or lime solution

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Not pertinent

8 4 **Food Chain Concentration Potential:** None

NOTES

NAA	NITRILOTRIACETIC ACID AND SALTS

Common Synonyms
Triglycine
NTA
Disodium nitrilotriacetate
Trisodium nitrilotriacetate

Solid | White | Odorless

Sinks and mixes with water

Fire

Not flammable

Exposure

DUST
Irritating to eyes, nose and throat

SOLID
Irritating to skin and eyes

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if [illegible] waters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Disodium nitrilotriacetate, NTA Triglycine, Trisodium nitrilotriacetate

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $C_6H_9O_6N$ Acid; $C_6H_7O_6NNa_2$; $C_6H_6O_6N_2$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, rubber gloves, chemical safety goggles

5 2 **Symptoms Following Exposure:** Toxicity and health hazard of these compounds are low. Contact with eyes causes irritation

5 3 **Treatment for Exposure:** EYES: flush with plenty of water, treat as mild alkaline irritation with boric acid solution, if eyes are irritated, get medical attention. SKIN: flush with plenty of water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2, LD50: 5 g/kg Disodium Grade 2, LD50: 2 g/kg rats Trisodium Grade 2, LD50: 4 g/kg rats

5 7 **Late Toxicity:** Data not available

NOTES

NTA — 2-NITROANILINE

Common Synonyms	Solid	Orange	Musty odor
o-Nitroaniline 1-Amino-2-nitrobenzene o-Nitraniline Azoic Diazo Component 6	Sinks and mixes slowly with water		

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause headache, dizziness or loss of consciousness

SOLID
Irritating to skin and eyes
If swallowed will cause headache, dizziness, nausea, vomiting or loss of consciousness

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Issue warning - poison - water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

POISON

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1-Amino-2-nitrobenzene, Azoic Diazo Component 6, o-Nitraniline, o-Nitroaniline, ONA

3 2 **Coast Guard Compatibility Classification:** Not Listed

3 3 **Chemical Formula:** $1,2\text{-}C_6H_6N_2O_2$

3 4 **IMCO/United Nations Numerical Designation:** 6.1 1661

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** Orange

4 3 **Odor:** Musty

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self-contained breathing apparatus, neoprene gauntlets, safety goggles, rubber or neoprene sealed tongue work shoes and apron, close weave cotton coveralls capable of closing at wrist and ankle

5 2 **Symptoms Following Exposure:** Inhalation or ingestion causes headache, nausea, methemoglobinemia, vomiting, weakness and stupor; cyanosis caused by contact usually develops in 4-6 hrs; prolonged and excessive exposures may also cause liver damage. Contact with eyes or skin causes irritation; continued exposure may cause same symptoms as inhalation or ingestion

5 3 **Treatment for Exposure:** INHALATION: remove victim to fresh air, administer [illegible] if required, get medical attention. INGESTION: induce vomiting, get medical attention. EYES: flush with water for at least 15 min. SKIN: flush with water, wash with soap and water. In case of solid, remove as much as possible, wash with soap and water. Be sure to remove solid from areas such as under fingernails or in hair.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade [illegible] 0.5 g/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** Not pertinent (combustible solid)

6 2 **Flammable Limits in Air:** Not pertinent

6 3 **Fire Extinguishing Agents:** Water, foam, dry chemical, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:**

6 5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fire

6 6 **Behavior in Fire:**

6 7 **Ignition Temperature:** 970°F

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

NTB

NITROBENZENE

Common Synonyms
Nitrobenzol

Oily liquid Light yellow to brown Almond or shoe polish odor

Sinks in water Freezing point is 41° F

Fire

Combustible
POISONOUS VAPOR IS PRODUCED WHEN HEATED

Exposure

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn eyes

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-2

Issue warning - poison
Restrict access
Shields be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Essence of Mirbane
Nitrobenzol
Oil of Mirbane

3 2 **Coast Guard Compatibility Classification:** Nitrocompounds

3 3 **Chemical Formula:** $C_6H_5NO_2$

3 4 **IMCO United Nations Numerical Designation:** 6 1662

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Light green to yellow

4 3 **Odor:** Like shoe polish

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Respirator approved by U S Bureau of Mines for organic vapors, rubber gloves, splashproof goggles, coveralls, boots, safety shower and medical oxygen supply

5 2 **Symptoms Following Exposure:** If gets into skin, absorbed through skin; may be fatal if vapor or swallowed. First symptoms are blue skin, lips, fingernails and ears; headache, dizziness, drowsiness, headache, giddiness, weakness, nausea, vomiting and coma

5 3 **Treatment for Exposure:** Remove to fresh air and call physician at once. In case of skin exposure immediately flush skin with copious quantities of water for at least 15 minutes while removing contaminated clothing and shoes. Wash with soap and warm water with special attention to nails and hair. Administer oxygen and physician at once

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 1 ppm

5 5 **Short-Term Inhalation Limits:** 10 ppm for 1 hour

5 6 **Toxicity by Ingestion:** Grade 3 Moderate poison

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating to eyes, but persons will not usually tolerate moderate or high vapor concentrations

5 9 **Liquid or Solid Irritant Characteristics:** Causes smarting on the skin and first degree burns on short exposure; may cause secondary burns on long exposure

5 10 **Odor Threshold:** 0.94 ppm

6 FIRE HAZARDS

6 1 **Flash Point.** 171°F (77°C) (closed cup)

6 2 **Flammable Limits in Air:** 1.8% - 11.5% by volume (11.5% may not be reliable)

6 3 **Fire Extinguishing Agents.** Water fog, foam, carbon dioxide or dry chemical

6 4 **Fire Extinguishing Agents Not to be Used.** Not pertinent

NTE

NITROETHANE

Common Synonyms	Liquid	Colorless	Fruity Odor
	May float or sink in water		

Fire	Combustible POISONOUS GASES MAY BE PRODUCED IN FIRE. Containers may explode in fire Flashback along vapor trail may occur Vapor may explode if ignited in an enclosed area
Exposure	VAPOR Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing LIQUID Irritating to skin and eyes If swallowed will cause nausea and vomiting
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - high flammability
Restrict access
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** $C_2H_5NO_2$
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Mild fruity somewhat disagreeable odor(fingernail-like)

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Supplied air or self-contained respirator, goggles or face shield, rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation causes moderate irritation of respiratory tract. Ingestion causes irritation of mouth and stomach. Contact with liquid causes irritation of eyes and mild irritation of skin.

5.3 **Treatment of Exposure:** INHALATION: in case of pulmonary symptoms, give bed rest and oxygen, obtain medical attention at once. INGESTION: give large amount of water. EYES or SKIN: flush with water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 700 mg/kg for mouse

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will find high concentrations unpleasant. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of skin.

5.10 **Odor Threshold:** 1000 ppm

6. FIRE HAZARDS

6.1 **Flash Point:** 109°F (OC), 95°F (CC)
6.2 **Flammable Limits in Air:** 3.4% - 11.4%
6.3 **Fire Extinguishing Agents:** Water, carbon dioxide, or dry chemical
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective on fire; foam is not effective
6.5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fire
6.6 **Behavior in Fire:**
6.7 **Ignition Temperature:** 778°F
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** May attack some forms of plastics
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

Commercial Solvents Corp
245 Park Avenue

13 PHYSICAL AND CHEMICAL PROPERTIES

*13.1 **Physical State at 15°C and 1 atm:** Liquid
13.2 **Molecular Weight:** 75.07
*13.3 **Boiling Point at 1 atm:** 237°F = 114°C = 387 K
13.4 **Freezing Point:** -130°F = -90°C = 183 K
13.5 **Critical Temperature:** Data not available
13.6 **Critical Pressure:** Data not available
13.7 **Specific Gravity:** 1.05 at 20°C (liquid)
13.8 **Liquid Surface Tension:** 31 dynes/cm = 0.0213 lb/ft at 20°C
13.9 **Liquid-Water Interfacial Tension:** Not pertinent
*13.10 **Vapor (Gas) Specific Gravity:** 2.6
*13.11 **Ratio of Specific Heats of Vapor (Gas):** 1.113 at 20°C
13.12 **Latent Heat of Vaporization:** 237 Btu/lb = 132 cal/g = 5.53 kJ/g
*13.13 **Heat of Combustion:** -11,720 Btu/lb = -6,511 cal/g = -272.6 kJ/g
13.14 **Heat of Decomposition:** Not pertinent
*13.15 **Heat of Solution:** Not pertinent
13.16 **Heat of Polymerization:** Not pertinent

(continued on page 2)

NOTES

NXX	# NITROGEN, LIQUEFIED

Common Synonyms	Liquefied gas	Colorless	Odorless
	Floats and boils on water		

Fire	Not flammable
Exposure	VAPOR Not harmful In high concentrations may cause dizziness, difficult breathing or loss of consciousness LIQUID Will cause frostbite
Water Pollution	Not harmful to aquatic life

1 RESPONSE TO DISCHARGE

2 LABEL

3 CHEMICAL DESIGNATIONS

- 3.1 **Synonyms:** Liquid nitrogen
- 3.2 **Coast Guard Compatibility Classification:** Not applicable
- 3.3 **Chemical Formula:** N_2
- 3.4 **IMCO/United Nations Numerical Designation:** 1066

4 OBSERVABLE CHARACTERISTICS

- 4.1 **Physical State (as shipped):** Liquefied gas
- 4.2 **Color:** Colorless and odorless
- 4.3 **Odor:** None

5 HEALTH HAZARDS

- 5.1 **Personal Protective Equipment:** Safety glasses or face shield, insulated gloves, and cotton clothing without cuffs should be worn when transferring liquid. Self-contained breathing apparatus should be worn in confined areas.
- 5.2 **Symptoms Following Exposure:** Inhalation of a high concentration of this gas can cause rapid suffocation because of oxygen deficiency. Symptoms include dizziness, nausea, vomiting, and unconsciousness. Contact with liquid can cause cryogenic burns or frostbite.
- 5.3 **Treatment for Exposure:** INHALATION: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breathing has stopped, trained personnel should immediately begin artificial respiration. If heart has stopped, trained personnel should immediately begin cardiopulmonary resuscitation (CPR). EYES: Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention. SKIN: Flush affected areas with plenty of lukewarm water. If frostbite has occurred, immediately soak affected parts in lukewarm water (105°F to 115°F; 41°C to 46°C). Do not rub affected areas. Get medical attention.
- 5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not applicable
- 5.5 **Short-Term Inhalation Limits:** Not established
- 5.6 **Toxicity by Ingestion:** Not pertinent
- 5.7 **Late Toxicity:** None
- 5.8 **Vapor (Gas) Irritant Characteristics:** None
- 5.9 **Liquid or Solid Irritant Characteristics:** Frostbite
- 5.10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

- 6.1 **Flash Point:** Not pertinent. Nonflammable compressed gas
- 6.2 **Flammable Limits in Air:** Not pertinent
- 6.3 **Fire Extinguishing Agents:** Not pertinent
- 6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
- 6.5 **Special Hazards of Combustion Products:** Not pertinent
- 6.6 **Behavior in Fire:** Container may explode when heated
- 6.7 **Ignition Temperature:** Not pertinent
- 6.8 **Electrical Hazard:** Not pertinent
- 6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** Heat of water will vaporize liquid nitrogen
- 7.2 **Reactivity with Common Materials:** No reaction. Low temperature may cause brittleness in rubber and plastic
- 7.3 **Stability During Transport:** Stable
- 7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
- 7.5 **Polymerization:** Not pertinent
- 7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

- 8.1 **Aquatic Toxicity:** None
- 8.2 **Waterfowl Toxicity:** None
- 8.3 **Biological Oxygen Demand (BOD):** None
- 8.4 **Food Chain Concentration Potential:** None

NOTES

NOX	# NITROGEN TETROXIDE

Common Synonyms
Nitrogen peroxide
Nitrogen dioxide
Red oxide of nitrogen
Oxides of nitrogen
Dinitrogen tetroxide

Liquefied compressed gas Red-brown Sharp unpleasant chemical odor

Sinks and reacts with water. Poisonous brown vapor is produced

AVOID CONTACT WITH LIQUID AND VAPOR. Keep upwind.
Wear goggles, self-contained breathing apparatus and rubber protective clothing.
Stop flow of gas if possible.
Evacuate area of unprotected persons.
Notify local health and pollution control agencies.

Fire

Not flammable
May cause fire and explode on contact with combustibles
POISONOUS GASES ARE PRODUCED IN FIRE AND WHEN HEATED
Wear goggles, self-contained breathing apparatus and rubber protective clothing.
Flood dust area with water.
Stop flow of gas if safe to do.
Dike and dilute runoffs with water.

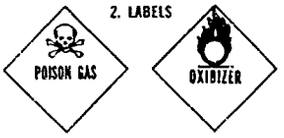
Exposure

CALL FOR MEDICAL AID

VAPOR
POISONOUS IF INHALED
Irritating to eyes
Move victim to fresh air.
Perform artificial respiration if breathing has stopped. Give oxygen if breathing is difficult. Give CPR if heart action has stopped.

LIQUID
Will burn skin and eyes
POISONOUS IF SWALLOWED
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flood with plenty of water.
IF SWALLOWED, induce vomiting. DO NOT induce vomiting if victim is convulsing or unconscious. Give large quantities of water. Never give anything by mouth to an unconscious person. Get medical attention.
DO NOT INDUCE VOMITING

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of downstream water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-6)

Issue warning. Poison or contaminant. Water contaminant. Corrosive.
Restrict access.
Evacuate area.

2. LABELS

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Dinitrogen tetroxide, Nitrogen peroxide, Nitrogen dioxide, Oxide of nitrogen, Red oxide of nitrogen
3.2 **Coast Guard Compatibility Classification** Not applicable
3.3 **Chemical Formula** N_2O_4
3.4 **IMCO/United Nations Numerical Designation** 2.1067

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid
4.2 **Color** Red-brown at ambient temperatures; colorless below about 14°F
4.3 **Odor** Pungent, acrid, suffocating

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber gloves, safety goggles and face shield, protective clothing as dictated by water reactivity, respirator or self-contained breathing apparatus.
5.2 **Symptoms Following Exposure:** Very concentrated fumes produce coughing, choking, headache, nausea, pain in chest and abdomen; otherwise, few symptoms appear at time of exposure. After symptom-free period of 5–72 hours, pulmonary edema gradually develops, causing fatigue, restlessness, coughing, difficulty in breathing, frothy expectoration, mental confusion, lethargy, bluish skin and weak, rapid pulse. Since NOX interferes with gas exchange in lungs, unconsciousness and death by asphyxiation can result, usually within a few hours after onset of pulmonary edema.
5.3 **Treatment for Exposure.** INHALATION: remove patient to fresh air and have him breathe as deeply as possible; call a physician; enforce complete rest for 24–48 hours. Keep warm, give oxygen if coughing or tightness develops. A physician may administer morphine (10 mg.). EYES AND SKIN: flush with water for at least 15 min.
5.4 **Toxicity by Inhalation (Threshold Limit Value)** 5 ppm
5.5 **Short-Term Inhalation Limits** 25 ppm for 5 min
5.6 **Toxicity by Ingestion.** Data not available
5.7 **Late Toxicity.** Data not available
5.8 **Vapor (Gas) Irritant Characteristics** Vapors cause severe irritation of eyes and throat, and can cause eye and lung injury. They cannot be tolerated even at low concentrations.
5.9 **Liquid or Solid Irritant Characteristics.** Severe skin irritant. Causes second- and third-degree burns on short contact, and severe injuries to the eyes.
5.10 **Odor Threshold:** 5 ppm

6. FIRE HAZARDS

6.1 **Flash Point** Not flammable
6.2 **Flammable Limits in Air.** Not flammable
6.3 **Fire Extinguishing Agents** Stop flow of gas
6.4 **Fire Extinguishing Agents Not to be Used** Not pertinent
6.5 **Special Hazards of Combustion Products** Produces toxic gas when heated
6.6 **Behavior in Fire:** Does not burn, but supports combustion of combustible materials such as wood. May cause fire or explode on contact with other materials.
6.7 **Ignition Temperature.** Not flammable
6.8 **Electrical Hazard** Data not available
6.9 **Burning Rate** Not flammable

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Dissolves to form nitric acid and nitric oxide. Nitric oxide reacts with air to form more nitrogen tetroxide.
7.2 **Reactivity with Common Materials** Very corrosive to metals when wet. Reacts vigorously with combustible materials such as wood.
7.3 **Stability During Transport** Stable
7.4 **Neutralizing Agents for Acids and Caustics** Flush with water, then use soda ash or lime.
7.5 **Polymerization** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity**
72 ppm/96 hr mosquito fish TL$_m$ fresh water
330–1,000 ppm/48 hr cockle TL$_m$ salt water
8.2 **Waterfowl Toxicity.** Data not available
8.3 **Biological Oxygen Demand (BOD)** None
8.4 **Food Chain Concentration Potential** None

9 SELECTED MANUFACTURERS

Hercules Inc.
Explosives and Chemical Propulsion Dept.
Hercules Cu 1 94547

10. SHIPPING INFORMATION

10.1 **Grades of Purity:**
10.2 **Storage Temperature.** Ambient. Storage and transfer structures shall be equipped with mechanical ventilation systems.
10.3 **Inert Atmosphere:** No requirement
10.4 **Venting** Pressure relief valves on containers

13.12 **Latent Heat of Vaporization** 178 Btu/lb = 99.1 cal/g = 4.15 × 10^5 J/kg
13.13 **Heat of Combustion.** Not pertinent
13.14 **Heat of Decomposition** Not pertinent
13.15 **Heat of Solution:** Data not available
13.16 **Heat of Polymerization** Not pertinent

(Continued on pages 4 and 5)

NOTES

REVISED 1978

NMT NITROMETHANE

Common Synonyms
Nitrocarbol

Watery liquid | Colorless | Strong odor

Sinks and mixes slowly with water. Irritating vapor is produced.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
Harmful if inhaled.

LIQUID
No appreciable harm to skin or eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Dispose and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Nitrocarbol
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** CH_3NO_2
3.4 **IMCO/United Nations Numerical Designation:** 3.3 1261

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Fairly strong characteristic

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air mask (do NOT use organic canister); goggles
5.2 **Symptoms Following Exposure:** Liquid may dry out skin and cause irritation
5.3 **Treatment for Exposure:** EYES: flush with water for at least 15 min. SKIN: flush with water
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2; LD$_{50}$ 0.5–5.0 g/kg (rat)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes slight smarting of the eyes or respiratory system if present in high concentration. The effect is temporary.
5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin.
5.10 **Odor Threshold:** Less than 200 ppm

6 FIRE HAZARDS

6.1 **Flash Point.** 110°F (O.C.), 95°F (C.C.)
6.2 **Flammable Limits in Air:** 7.3% (U.E.L.)
6.3 **Fire Extinguishing Agents:** Water, foam, dry chemical, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products.** Not pertinent
6.6 **Behavior in Fire:** Containers may explode
6.7 **Ignition Temperature.** 785°F
6.8 **Electrical Hazard.** Not pertinent
6.9 **Burning Rate:** 1.1 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** Wet material corrodes steel and copper; dry the reaction is slow
7.3 **Stability During Transport.** Considered stable, but may become sensitized by organic bases (amines) and some metal oxides such as lead pigments
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity.** Data not available
8.2 **Waterfowl Toxicity.** Data not available

NOTES

REVISED 1978

NTP

2-NITROPHENOL

Common Synonyms
o-Nitrophenol
2-Hydroxynitrobenzene
ONP

Solid Yellow

Sinks and mixes slowly with water

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause headache or loss of consciousness

SOLID
Irritating to skin and eyes
If swallowed will cause headache, nausea, or loss of consciousness

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Toxic warning: water contaminant
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 2-Hydroxynitrobenzene; o-Nitrophenol; ONP

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $C_6H_5NO_3$

3 4 **IMCO/United Nations Numerical Designation:** 6.1/1663

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** Yellow

4 3 **Odor:** Peculiar aromatic

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self-contained breathing apparatus; rubber gloves; goggles

5 2 **Symptoms Following Exposure:** Inhalation or ingestion causes headache, drowsiness, nausea and blue color in lips, ears and fingernails (cyanosis). Contact with eyes causes irritation. Can be absorbed through the intact skin to give same symptoms as for inhalation.

5 3 **Treatment for Exposure.** INHALATION or INGESTION: remove victim to fresh air; give artificial respiration; call doctor if symptoms persist. EYES: flush with water for at least 15 min.; get medical attention. SKIN: cleanse thoroughly with soap and water.

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 1,297 mg/kg (rat)

NOTES

NPH	# 4-NITROPHENOL

Common Synonyms
p-Nitrophenol
4-Hydroxynitrobenzene
PNP

Solid Yellow to [illegible] Sweet odor

Sinks and mixes with water

[illegible]

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
[illegible]

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause headache or loss of consciousness
[illegible]

SOLID
Irritating to skin and eyes
If swallowed will cause headache, nausea or loss of consciousness
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** 4-Hydroxynitrobenzene
p-Nitrophenol PNP

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula.** $C_6H_5NO_3$

3 4 **IMCO/United Nations Numerical Designation:** 6.1 1663

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** Yellow to brown

4 3 **Odor:** Slight characteristic sweet

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Butyl rubber gloves, side shield safety glasses, dust mask or self contained breathing apparatus

5 2 **Symptoms Following Exposure:** Inhalation or ingestion causes headache, drowsiness, nausea and blue color in lips, ears and fingernails (cyanosis). Contact with eyes or skin causes irritation and can be absorbed through skin to give same symptoms as for inhalation

5 3 **Treatment for Exposure:** INHALATION or INGESTION: remove victim to fresh air, give artificial respiration, call a doctor if symptoms persist. EYES: flush with water for at least 15 min, get medical attention. SKIN: flush with water and wash well with soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion.** Grade 3 LD$_{50}$ 500 mg/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics** Data not available

5 10 **Odor Threshold** Odorless

6 FIRE HAZARDS

6 1 **Flash Point:** Not pertinent (combustible solid)

6 2 **Flammable Limits in Air** Not pertinent

6 3 **Fire Extinguishing Agents.** Water, foam, dry chemical, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used.**

6 5 **Special Hazards of Combustion Products** Toxic oxides of nitrogen and fumes of unburned material may form in fires

6 6 **Behavior in Fire:** Decomposes violently at 279°C and will burn even in absence of air

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard** Not pertinent

6 9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials**

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD)** Data not available

8 4 **Food Chain Concentration Potential.** None

9 SELECTED MANUFACTURERS

1 E I du Pont de Nemours & Co Inc
Wilmington Del 19898

2 Monsanto Company
800 North Lindbergh Blvd
St Louis Mo 63166

3 Aldrich Chemical Co
940 W Saint Paul Ave
Milwaukee Wis 53233

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Technical Pure

Reactivity (Yellow)	0

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Solid

13 2 **Molecular Weight:** 139.1

13 3 **Boiling Point at 1 atm:** Not pertinent (decomposes)

13 4 **Freezing Point.** 235°F = 113°C = 386°K

13 5 **Critical Temperature:** Not pertinent

13 6 **Critical Pressure:** Not pertinent

13 7 **Specific Gravity:** 1.48 at 20 °C (solid)

13 8 **Liquid Surface Tension:** Not pertinent

13 9 **Liquid-Water Interfacial Tension:** Not pertinent

13 10 **Vapor (Gas) Specific Gravity:** Not pertinent

13 11 **Ratio of Specific Heats of Vapor (Gas)** Not pertinent

13 12 **Latent Heat of Vaporization.** Not pertinent

13 13 **Heat of Combustion:** −8,370 Btu/lb = −4,930 cal/g = −206 × 10^5 J/kg

13 14 **Heat of Decomposition** Not pertinent

13 15 **Heat of Solution** Not pertinent

13 16 **Heat of Polymerization** Not pertinent

Continued on next page

NOTES

NPP

2-NITROPROPANE

Common Synonyms
Isonitropropane
2NP
sec-Nitropropane

Liquid | Colorless | Mild, fruity odor

May float or sink in water

[illegible]

Fire

Combustible
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
[illegible]
Water may be ineffective on fire
[illegible]

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache, dizziness, coughing, or difficult breathing
[illegible]

LIQUID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting
[illegible]
IF IN EYES [illegible]
IF SWALLOWED [illegible] CONSCIOUS [illegible]
IF SWALLOWED [illegible] UNCONSCIOUS OR HAVING CONVULSIONS [illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to Shoreline
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - high flammability
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Isonitropropane
sec-Nitropropane 2-NP
3 2 **Coast Guard Compatibility Classification.** Nitrocompound
3 3 **Chemical Formula** $CH_3CHNO_2CH_3$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Mild fruity

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained breathing apparatus goggles or face shield rubber gloves
5 2 **Symptoms Following Exposure** Inhalation causes respiratory tract irritation headache dizziness nausea and diarrhea Ingestion causes irritation of mouth and stomach Contact with liquid irritates eyes and causes mild irritation of skin
5 3 **Treatment for Exposure** INHALATION in case of pulmonary symptoms enforce bed rest and give oxygen get medical attention at once INGESTION give water, induce vomiting EYES or SKIN flush with water
5 4 **Toxicity by Inhalation (Threshold Limit Value)** 25 ppm
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion.** Grade 2 oral rat LD_{50} [illegible] mg/kg
5 7 **Late Toxicity** Causes liver cancer in rats
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations The effect is temporary
5 9 **Liquid or Solid Irritant Characteristics** Minimum hazard If spilled on clothing and allowed to remain may cause smarting and reddening of skin
5 10 **Odor Threshold** 300 ppm

6 FIRE HAZARDS

6 1 **Flash Point.** 100°F OC 82°F CC
6 2 **Flammable Limits in Air** 2 6% (UEL)
6 3 **Fire Extinguishing Agents.** Foam dry chemical carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used** Alcohol foam water may be ineffective
6 5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fire
6 6 **Behavior in Fire**
6 7 **Ignition Temperature:** 692°F
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate** Data not available

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water** No reaction
7 2 **Reactivity with Common Materials:** May attack some forms of plastics
7 3 **Stability During Transport** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization.** Not pertinent
7 6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD)** Data not available
8 4 **Food Chain Concentration Potential:** None

13 16 **Heat of Polymerization:** Not pertinent

Continued on pages 5 and 6

NOTES

NTC

NITROSYL CHLORIDE

Common Synonyms	Liquefied compressed gas Orange red Choking odor Liquid sinks and reacts with water. Poisonous visible vapor cloud is produced

Fire

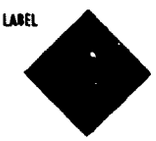
Not flammable
POISONOUS GASES ARE PRODUCED WHEN HEATED

Exposure

VAPOR
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
Irritating to eyes

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Irritating to eyes

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning poison
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** NOCl
3 4 **IMCO/United Nations Numerical Designation.** 2 0 1089

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquefied gas
4 2 **Color:** Yellow to red
4 3 **Odor:** Irritating, choking

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained breathing apparatus (approved mask may be used for short exposures only); rubberized clothing; gloves; shoes; chemical goggles
5 2 **Symptoms Following Exposure:** Gas is highly toxic. Inhalation causes severe irritation of respiratory tract and damage to mucous membranes. Delayed effects, which include severe pulmonary edema, may not be apparent for several hours.
5 3 **Treatment for Exposure:** INHALATION: remove victim to fresh air; call a doctor; enforce complete rest; artificial respiration if necessary; oxygen if available; keep at least 24 hours because of delayed effects. SKIN OR EYES: Flush with water for at least 15 min.; consult physician.
5 4 **Toxicity by Inhalation (Threshold Limit Value)** [Upper recommended]
5 5 **Short-Term Inhalation Limits.** Data not available
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause severe irritation of eye and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.
5 9 **Liquid or Solid Irritant Characteristics.** Severe burns to eyes and skin.
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents:** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Very toxic gases are generated when heated
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature:** Not flammable
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Not flammable

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Dissolves and reacts to form acid solution and toxic oxides of nitrogen
7 2 **Reactivity with Common Materials.** Corrosive to most metals but reaction is not hazardous
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics.** Flush with water. Residual acid may be neutralized with soda ash.
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity.** Data not available
8 3 **Biological Oxygen Demand (BOD).** Data not available
8 4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

NTO

NITROUS OXIDE

Common Synonyms

Laughing gas
Dinitrogen monoxide

Liquefied compressed gas Colorless Odorless or mild sweet odor

Sinks and boils in water. Visible vapor cloud is produced

Fire

Not flammable but will intensify fires

Exposure

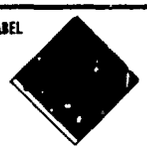
VAPOR

If inhaled will cause dizziness, difficult breathing or loss of consciousness.

LIQUID

Will cause frostbite

Water Pollution



Not harmful to aquatic life

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-1)

Restrict access

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Dinitrogen monoxide
Laughing gas

3 2 **Coast Guard Compatibility Classification**
Not applicable

3 3 **Chemical Formula:** N_2O

3 4 **IMCO/United Nations Numerical Designation:** 2 1070

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquefied compressed gas

4 2 **Color:** Colorless

4 3 **Odor:** None, slightly sweetish

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Self contained breathing apparatus for high vapor concentrations

5 2 **Symptoms Following Exposure.** Inhalation causes intense analgesia, concentrations of over 40 - 80% cause loss of consciousness preceded by hysteria. Contact of liquid with eyes or skin causes frostbite burn

5 3 **Treatment for Exposure:** INHALATION remove to fresh air. EYES get medical attention for frostbite burn. SKIN treat frostbite burn, soak in lukewarm water

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5 5 **Short-Term Inhalation Limits:** 50,000 ppm for 10 min

5 6 **Toxicity by Ingestion:** Grade 0 LD$_{50}$ > 15 g/kg

5 7 **Late Toxicity:** Causes birth defects in rats, can cause lethal effects in chick eggs

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are nonirritating to eyes and throat

5 9 **Liquid or Solid Irritant Characteristics.** No appreciable hazard, product calls harmless to the skin

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not pertinent (nonflammable compressed gas)

6 2 **Flammable Limits in Air** Not pertinent

6 3 **Fire Extinguishing Agents:** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6 5 **Special Hazards of Combustion Products** Not pertinent

6 6 **Behavior in Fire** Will support combustion and may increase intensity of fire. Containers may explode when heated

6 7 **Ignition Temperature:** Not pertinent

6 8 **Electrical Hazard.** Not pertinent

6 9 **Burning Rate** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** Supports combustion but does not cause spontaneous ignition

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** None

8 2 **Waterfowl Toxicity:** None

8 3 **Biological Oxygen Demand (BOD)** None

8 4 **Food Chain Concentration Potential:** None

(See Personnel Protection Handbook CG 446-4)

Method of containment
Should be removed
Chemical and physical treatment

2. LABELS

No label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms** n-Nonane

3 2 **Coast Guard Compatibility Classification** Paraffin

3 3 **Chemical Formula** C_9H_{20}

3 4 **IMCO/United Nations Numerical Designation** UN 1920

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid

4 2 **Color** Colorless

4 3 **Odor** Like gasoline

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Self-contained breathing apparatus for high vapor concentrations; goggles or face shield; rubber gloves

5 2 **Symptoms Following Exposure** Inhalation of concentrated vapor causes depression, irritation of respiratory tract and pulmonary edema. Liquid can irritate eyes and on prolonged contact skin. Ingestion causes irritation of mouth and stomach. Aspiration causes severe lung irritation, rapidly developing pulmonary edema and central nervous system involvement followed by depression

5 3 **Treatment for Exposure** INHALATION: remove victim from exposure, give artificial respiration if needed. EYES: irrigate with large amounts of water for 15 min. SKIN: flush with water, wash with soap; and water. INGESTION: do NOT induce vomiting, call physician. ASPIRATION: enforce bed rest, give oxygen, get medical attention

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion** Grade 0 LD$_{50}$ > 15 g/kg

5 7 **Late Toxicity** Data not available

5 8 **Vapor (Gas) Irritant Characteristics** Vapors are moderately irritating to eyes and throat

5 9 **Liquid or Solid Irritant Characteristics** No appreciable hazard. Practically harmless to the skin

5 10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** 88°F C.C.

6 2 **Flammable Limits in Air** 0.85% - 2.9%

6 3 **Fire Extinguishing Agents** Dry chemical, foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used** Water may be ineffective

6 5 **Special Hazards of Combustion Products** Not pertinent

6 6 **Behavior in Fire** Not pertinent

6 7 **Ignition Temperature** 401°F

6 8 **Electrical Hazard** Class I, Group D

6 9 **Burning Rate** 3.5 mm/min

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water** No reaction

7 2 **Reactivity with Common Materials** No reaction

7 3 **Stability During Transport** Stable

7 4 **Neutralizing Agents for Acids and Caustics** Not pertinent

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm** Liquid

13 2 **Molecular Weight** 128.3

13 3 **Boiling Point at 1 atm** 304°F = 151°C = 424 K

13 4 **Freezing Point** -64.3°F = -53.5°C = 219.7 K

13 5 **Critical Temperature** 610.5°F = 321.4°C = 594.6 K

13 6 **Critical Pressure** 335 psia = 22 Satm = 2.31 MN/m²

13 7 **Specific Gravity** 0.718 at 20°C (liquid)

13 8 **Liquid Surface Tension** 22.9 dynes/cm = 0.0229 N/m = 1.20 [illegible]

13 9 **Liquid-Water Interfacial Tension** [illegible] dynes/cm = 0.048 N/m at 20°C

13 10 **Vapor (Gas) Specific Gravity** 4.4

13 11 **Ratio of Specific Heats of Vapor (Gas)** 1.042 at 16°C

13 12 **Latent Heat of Vaporization** 127 Btu/lb = 70 cal/g = 2.93 × 10⁵ J/kg

13 13 **Heat of Combustion** -19,167 Btu/lb = -10,593 cal/g = -443.2 × 10⁵ J/kg

13 14 **Heat of Decomposition** Not pertinent

13 15 **Heat of Solution** Not pertinent

13 16 **Heat of Polymerization** Not pertinent

Continued on next page

NOTES

NNN — NONANOL

Common Synonyms
1-Nonanol
Nonyl alcohol
Octylcarbinol

Liquid | Colorless | Rose or fruity odor

Floats on water. Freezing point is 23°F.

Fire

Combustible

Exposure

LIQUID
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-4.

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
1-Nonanol — Octylcarbinol
Nonyl alcohol — Pelargonic alcohol

3.2 **Coast Guard Compatibility Classification:** Alcohol

3.3 **Chemical Formula.** $CH_3(CH_2)_7CH_2OH$

3.4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Rose or fruity

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Goggles or face shield; rubber gloves

5.2 **Symptoms Following Exposure:** Liquid irritates eyes

5.3 **Treatment for Exposure:** Flush eyes and skin with water for at least 15 min.

5.4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion:** Grade 1 on rat acute scale

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor irritating to the eyes and throat

5.9 **Liquid or Solid Irritant Characteristics.** Not expected to be a hazard. Practically harmless to the skin

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 210°F (C.C.) 165°F (C.C.)

6.2 **Flammable Limits in Air:** 0.8% – 6.1%

6.3 **Fire Extinguishing Agents.** Alcohol foam, dry chemical or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)** 1 lb/lb in 5 days

8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

Geraudan Corp.
Aroma Chemical Division
125 Delawanna Ave.
Clifton, N.J. 07014

10 SHIPPING INFORMATION

10.1 **Grades or Purity:** 95%

10.2 **Storage Temperature.** Ambient

10.3 **Inert Atmosphere:** No requirement

10.4 **Venting:** Open flame arrester

11 HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook, CG 446-3.

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid

13.2 **Molecular Weight.** 144.25

13.3 **Boiling Point at 1 atm**
415.1°F = 213°C = 486°K

13.4 **Freezing Point:** 23°F = -5°C = 268°K

13.5 **Critical Temperature:**
750°F = 399°C = 672°K

13.6 **Critical Pressure:**
350 psia = 24 atm = 2.4 MN/m²

13.7 **Specific Gravity:** 0.827 at 20°C (liquid)

13.8 **Liquid Surface Tension:** 28 dynes/cm = 0.028 N/m at 24°C

13.9 **Liquid-Water Interfacial Tension:**
9.0 dynes/cm = 0.0090 N/m at 21.3°C

13.10 **Vapor (Gas) Specific Gravity:** Not pertinent

13.11 **Ratio of Specific Heats of Vapor (Gas).** 1.03

13.12 **Latent Heat of Vaporization**
72 Btu/lb = 39.9 cal/g = 1.67 × 10⁵ J/kg

13.13 **Heat of Combustion:** -17,800 Btu/lb = -9360 cal/g = -413 × 10³ J/kg

13.14 **Heat of Decomposition** Not pertinent

13.15 **Heat of Solution** Not pertinent

13.16 **Heat of Polymerization** Not pertinent

Liquid and Vapor Density

NOTES

REVISED 1978

NON	NONENE

Common Synonyms
Propylene trimer
Nonene (non linear)

Liquid | Colorless | Gasoline-like odor

Floats on water. Flammable. Irritating vapor is produced.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness or loss of consciousness.

LIQUID
Irritating to skin and eyes.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Mechanical containment.
Should be removed.
Chemical and physical treatment.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Nonene (non linear)
Propylene trimer
Tripropylene

3.2 **Coast Guard Compatibility Classification:** Olefin

3.3 **Chemical Formula:** C_9H_{18}

3.4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Characteristic, like gasoline

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Respirator (gas + vapor canister or air supplied mask). Use splash shield.

5.2 **Symptoms Following Exposure:** High vapor concentrations irritate eyes and respiratory tract and act as an anesthetic.

5.3 **Treatment for Exposure:** INHALATION: remove patient to fresh air; if not breathing, stop apply artificial respiration and administer oxygen if available; do NOT use mouth-to-mouth method if victim ingested or inhaled the substance. INGESTION: DO NOT induce vomiting because aspiration hazard.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes slight smarting of eyes, nose and respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If pooled on clothing and allowed to remain, may cause smarting and reddening of skin.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 75°F (C.C.)

6.2 **Flammable Limits in Air:** 0.7% - 7% (by volume)

6.3 **Fire Extinguishing Agents:** Foam, carbon dioxide or dry chemical.

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective.

6.5 **Special Hazards of Combustion Products:** Not pertinent.

6.6 **Behavior in Fire:** Not pertinent.

6.7 **Ignition Temperature:** Data not available.

6.8 **Electrical Hazard:** Not pertinent.

6.9 **Burning Rate:** 6.0 mm/min.

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

(Continued on next sheet)

NOTES

REVISED 1978

NNE	1-NONENE

Common Synonyms
1-Nonylene
n-Heptylethylene

Liquid | Colorless | Gasoline-like odor

Floats on water. Flammable. Irritating vapor is produced.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause dizziness, headache, difficult breathing or loss of consciousness.

LIQUID
Irritating to skin and eyes.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Mechanical containment.
Shoreline cleanup.
Chemical and physical treatment.

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** n-Heptylethylene; n-Nonylene

3.2 **Coast Guard Compatibility Classification:** Oleic

3.3 **Chemical Formula:** $CH_3(CH_2)_6CH{=}CH_2$

3.4 **IMCO United Nations Numerical Designation:** Not assigned

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Hydrocarbon odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Respiratory protection: self-contained breathing apparatus and full protective clothing.

5.2 **Symptoms Following Exposure:** Headache, dizziness, nausea, loss of consciousness and anesthesia.

5.3 **Treatment for Exposure:** INHALATION: Remove victim to fresh air. Keep victim warm and quiet. Get medical attention. If breathing has stopped, give artificial respiration. If heart has stopped, trained personnel should immediately begin cardiopulmonary resuscitation (CPR). DO NOT INDUCE VOMITING. INGESTION: Call a physician immediately. Induce vomiting as directed by medical personnel. Never give anything by mouth to an unconscious person. If swallowed, do not induce vomiting because aspiration hazard.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor can cause irritation to eyes, nose, throat and respiratory system. Repeated exposure may cause bronchitis.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. Liquid may cause mild irritation to skin. Prolonged exposure may cause reddening and blistering of skin.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point.** Data not available

6.2 **Flammable Limits in Air:** Data not available

NOTES

REVISED 1978

OAN OCTANE

Common Synonyms
• Octane

Liquid Colorless Gasoline like odor

Floats on water. Flammable irritating vapor is produced.

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache, dizziness, difficult breathing or loss of consciousness

LIQUID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-6.

Common Synonyms
1-Octanol
Octyl alcohol
Heptylcarbinol

Thick liquid | Colorless | Sweet odor

Floats on water

Fire

Combustible

Exposure

LIQUID
Irritating to skin
Will burn eyes

Water Pollution

Effect of low concentrations on aquatic life is unknown
Irritating to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Mechanical Containment
Should not be flushed
Chemical Containment Not Practical

2 LABELS

Not Regulated (Non-Flammable)
Combustible Liquid

3 CHEMICAL DESIGNATIONS

3.1 Synonyms: Not Found
Heptylcarbinol
Octyl
Octyl alcohol

3.2 Coast Guard Compatibility Classification: Not Assigned

3.3 Chemical Formula: $CH_3(CH_2)_6CH_2OH$

3.4 IMCO United Nations Numerical Designation: Not Assigned

4 OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped): Liquid

4.2 Color: Colorless

4.3 Odor: Sweet odor

5 HEALTH HAZARDS

5.1 Personal Protective Equipment: Chemical goggles and face shield

5.2 Symptoms Following Exposure: Irritation of eyes

5.3 Treatment for Exposure: Flush eyes with water for 15 minutes

5.4 Toxicity by Inhalation (Threshold Limit Value): Data

5.5 Short-Term Inhalation Limits: Data

5.6 Toxicity by Ingestion: Grade 1, oral rat LD_{50} 3.2 g/kg

5.7 Late Toxicity: None

5.8 Vapor (Gas) Irritant Characteristics: Vapor irritating to eyes and respiratory system

5.9 Liquid or Solid Irritant Characteristics: Liquid irritating to eyes and skin

5.10 Odor Threshold: 0.49 ppm

6 FIRE HAZARDS

6.1 Flash Point: 178°F C.C.

6.2 Flammable Limits in Air: Data

6.3 Fire Extinguishing Agents: Foam
Use water to cool containers

6.4 Fire Extinguishing Agents Not to be Used: Not pertinent

6.5 Special Hazards of Combustion Products: Not pertinent

6.6 Behavior in Fire: Not reported

6.7 Ignition Temperature: Data

6.8 Electrical Hazard: Not reported

6.9 Burning Rate: Data

7 CHEMICAL REACTIVITY

7.1 Reactivity with Water: Not reported

7.2 Reactivity with Common Materials: Not reported

7.3 Stability During Transport: Not reported

7.4 Neutralizing Agents for Acids and Caustics: Not pertinent

7.5 Polymerization: Not pertinent

7.6 Inhibitor of Polymerization: Not pertinent

8 WATER POLLUTION

8.1 Aquatic Toxicity: Data

8.2 Waterfowl Toxicity: Data

8.3 Biological Oxygen Demand (BOD)
Data

8.4 Food Chain Concentration Potential: None

NOTES

REVISED 1978

OTE

1-OCTENE

Common Synonyms
Caprylene
alpha-Octylene

Liquid Colorless Gasoline-like odor

Floats on water Flammable, harmful vapor is produced

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
If inhaled, will cause dizziness

LIQUID
Irritating to skin and eyes
If swallowed, will cause nausea or vomiting

DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning high flammability
Evacuate area
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Caprylene
alpha-Octylene

3 2 **Coast Guard Compatibility Classification.** Olefin

3 3 **Chemical Formula:** $CH_3(CH_2)_5CH{=}CH_2$

3 4 **IMCO/United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Like gasoline

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Organic vapor canister goggles or face shield

5 2 **Symptoms Following Exposure** Generally low toxicity Mildly anesthetic at high vapor concentrations May irritate eyes

5 3 **Treatment for Exposure** INHALATION remove from exposure support respiration INGESTION do NOT induce vomiting

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause a slight smarting of the eyes or respiratory system if present at high concentrations The effects temporary

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard If spilled on clothing and allowed to remain may cause smarting and reddening of the skin

5 10 **Odor Threshold.** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** 70°F O C

6 2 **Flammable Limits in Air:** 0 9 % (LEL)

NOTES

REVISED 1978

OET — OCTYL EPOXY TALLATE

Common Synonyms			
Epoxidized tall oil, octyl ester	Liquid	Pale yellow	Mild odor
	Floats on water		

Avoid contact with liquid. Keep people away.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Extinguish with CO2, dry chemical, or foam.
Water may be ineffective.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing.
Flush eyes with water.
IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes.
IF SWALLOWED: Induce VOMITING.
IF VAPOR INHALED: Move victim to fresh air.
IF VAPOR INHALED or SWALLOWED and VICTIM UNCONSCIOUS OR CONVULSING: DO NOT induce vomiting. Keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Epoxidized tall oil octyl ester
3 2 **Coast Guard Compatibility Classification:** Ester
3 3 **Chemical Formula.** Mixture
3 4 **IMCO/United Nations Numerical Designation.** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Pale yellow
4 3 **Odor:** Mild

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Chemical goggles, face shield, oil resistant gloves
5 2 **Symptoms Following Exposure:** Contact with eyes causes mild inflammation. Contact with skin may produce allergic response
5 3 **Treatment for Exposure:** EYES or SKIN: remove excess oil with cloth or absorbent paper, then wash with soapy water and flush with clear water; consult a physician
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits.** Data not available
5 6 **Toxicity by Ingestion:** Grade 0, LD_{50} > 15 g/kg

NOTES

REVISED 1978

OPM OILS, EDIBLE: PALM

Common Synonyms			
Palm fruit oil Palm butter Palm oil	Liquid or solid Floats on water	Orange red	Pleasant odor

Fire	Combustible
Exposure	LIQUID OR SOLID Not harmful
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Mechanical containment
Should be recovered
Chemical and physical treatment

2. LABELS

No label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Palm butter, Palm fruit oil
3.2 **Coast Guard Compatibility Classification:** Ester
3.3 **Chemical Formula:** Not applicable
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Semi-solid to liquid
4.2 **Color:** Orange red
4.3 **Odor:** Pleasant characteristic

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves
5.2 **Symptoms Following Exposure:** Oil is essentially a vesicant, may cause mild irritation of eyes
5.3 **Treatment for Exposure:** EYES: flush with water for at least 15 min. INGESTION: do NOT induce vomiting
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Not pertinent
5.6 **Toxicity by Ingestion:** Data not available
5.7 **Late Toxicity:** None
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Not pertinent

NOTES

REVISED 1978

OSX OILS, FUEL: 6

Common Synonyms
Bunker C oil
Residual fuel oil
No. 6

Thick liquid Black Tar odor

Usually floats on water

Fire

Combustible

Exposure

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations
Fouling to shoreline
May be dangerous if it enters water intakes

6 FIRE HAZARDS

6.1 **Flash Point:** > 150°F C.C.

6.2 **Flammable Limits in Air:** [illegible]

6.3 **Fire Extinguishing Agents:** Dry chemical, foam, or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 765°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** 4 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
24 hr open, 48 hr juvenile American shad
11 mg/l fresh water
24-72 mg/l 48 hr juvenile American shad
11 mg/l salt water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** Data not available

NOTES

REVISED 1978

OTW	# OILS, FUEL: 2

Common Synonyms Home heating oil	Oily liquid Yellow to brown Lube or fuel oil odor Floats on water
Fire	Combustible
Exposure	LIQUID Irritating to skin and eyes If swallowed will cause nausea vomiting
Water Pollution	Dangerous to aquatic life in high concentrations Fouling to shoreline May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Home heating oil
3 2 **Coast Guard Compatibility Classification:** Miscellaneous hydrocarbon mixtures
3 3 **Chemical Formula:** Not applicable
3 4 **IMCO United Nations Numerical Designation:** 33 1223

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Light brown
4 3 **Odor:** Distinctive characteristic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Protective clothing, goggles or face shield
5 2 **Symptoms Following Exposure:** INHALATION causes headache and slight giddiness INGESTION causes nausea vomiting and cramps, depression of central nervous system ranging from mild headache to anesthesia, coma and death, pulmonary irritation, convulsions, convulsions, convulsions

OFR

OILS, FUEL: 4

Common Synonyms Residual fuel oil No 4	Oily liquid Dark Like or fuel oil odor Floats on water
Fire	Combustible
Exposure	LIQUID Irritating to skin and eyes Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes

NOTES

REVISED 1978

OON	# OILS, FUEL: NO. 1

Common Synonyms
Kerosene
Kerosene
Range oil
JP-1

Water: liquid Color: ... Kerosene odor

Floats on water

Fire

Combustible

Exposure

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Mechanical containment
Should be removed
Chemical and physical evaporation

2. LABELS

No hazard label required
Coast Guard Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** JP
Kerosene
Kerosene
Range oil

3.2 **Coast Guard Compatibility Classification:** Miscellaneous hydrocarbon mixtures

3.3 **Chemical Formula:** Not applicable

3.4 **IMCO United Nations Numerical Designation:** ... 1223

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** ... (Standard light brown)

4.3 **Odor:** (Characteristic)

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective clothing, goggles or face shield

5.2 **Symptoms Following Exposure:** INGESTION causes irritation and gastrointestinal problems, such as nausea, vomiting, diarrhea and cramps. ASPIRATION causes eye irritation with coughing, gagging, dyspnea, pulmonary edema, chemical pneumonia and health developing pulmonary edema, gangrene, hemorrhage, consolidation and pneumonia appearing. Inhalation of vapor causes narcosis and depression.

5.3 **Treatment for Exposure:** INGESTION do NOT induce vomiting call physician. ASPIRATION get to fresh air, administer oxygen, call physician. EYES wash with plenty of water. SKIN wipe off and wash with soap & water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 200 ppm (recommended)

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 1 LD50 > 5 g/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes and respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** ... ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 100°F C.C.

6.2 **Flammable Limits in Air:** ... %

6.3 **Fire Extinguishing Agents:** Dry chemical, foam or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 444°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Moderate

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 24 ppm (96 hours) Flow-through

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** 70% / 5 days

8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

Atlantic Richfield
... Penn Ave
New York, N.Y. 10022

Shell Oil Co
One Shell Plaza
Houston, Tex. 77002

Sun Oil Co
Sun Oil Bldg
Philadelphia, Pa. 19103

10 SHIPPING INFORMATION

10.1 **Grade or Purity:** Light hydrocarbon distillate (100%)

10.2 **Storage Temperature:** Ambient

10.3 **Inert Atmosphere:** No requirement

10.4 **Venting:** Open or flame arrester

11 HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook, CG-446-3

NFI

NOTES

REVISED 1978

OAS — OILS, MISCELLANEOUS: ABSORPTION

Common Synonyms
Absorbent oil

Liquid | Colorless to pale yellow | Fuel oil odor

Floats on water

Fire

Combustible

Exposure

LIQUID
Irritating to skin and eyes
Hazardous if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
Floating to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by
Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Absorbent oil
3.2 **Coast Guard Compatibility Classification:** Miscellaneous hydrocarbon mixtures
3.3 **Chemical Formula:** Not applicable
3.4 **IMCO United Nations Numerical Designation:** 1270

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Pale yellow to colorless
4.3 **Odor:** Fuel oil odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective gloves, goggles or face shield
5.2 **Symptoms Following Exposure:** INGESTION: irritation of stomach. INHALATION: pulmonary irritation is normally minimal but may become more severe several hours after exposure. Delayed development can be detected by serial chest x-rays.
5.3 **Treatment for Exposure:** INGESTION: have victim drink water or milk; do NOT induce vomiting. EYES: wash with copious amounts of water. SKIN: wipe off and wash with soap and water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent
5.5 **Short-Term Inhalation Limits:** Not pertinent
5.6 **Toxicity by Ingestion:** Grade 1 [illegible]
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** None
5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of skin.

NOTES

REVISED 1978

OCT	OILS, MISCELLANEOUS: COAL TAR

Common Synonyms
Light oil

Liquid | Colorless to yellow | Pleasant odor

Floats on water. Flammable irritating vapor is produced.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Foaming at shoreline.
May be dangerous if it enters water intakes.

OCR

OILS, MISCELLANEOUS: CROTON

Common Synonyms

Croton tiglium oil
Croton oil

Liquid | Dark | Unpleasant odor

Floats on water

AVOID CONTACT WITH LIQUID KEEP PEOPLE AWAY
Stop discharge if possible
Shut off dependents
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible

Extinguish with dry chemical, CO2, foam, carbon dioxide, or sand
Water may be ineffective on fire

Exposure

CALL FOR MEDICAL AID

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Irritating to skin and eyes

Remove contaminated clothes and shoes
Flush affected eyes with plenty of water
IF IN EYES hold lids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk
DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes.

Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Croonoil, *Croton tiglium L.* oil
3 2 **Coast Guard Compatibility Classification** Esters (13)
3 3 **Chemical Formula:** Not applicable
3 4 **IMCO/United Nations Numerical Designation.** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid
4 2 **Color:** Dark
4 3 **Odor:** Unpleasant acrid

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Goggles or face shield, rubber gloves and any other protective clothing to prevent contact with skin

5 2 **Symptoms Following Exposure** Contact of liquid with eyes causes severe irritation. May induce severe skin irritation, inflammation, swelling, and pustule formation. Absorption through the skin may cause purging. Ingestion causes burning of the mouth and stomach and drastic purging, possibly leading to collapse and death. Small doses have a strong laxative effect

5 3 **Treatment for Exposure:** EYES flush with water and 2% hydrocortisone ointment is recommended. SKIN remove as much liquid as possible, from skin by use of a good solvent such as acetone or alcohol, wash with soap and water. INGESTION for gastrointestinal symptoms use demulcents, further treatment is symptomatic, do NOT induce vomiting

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 4, LD_{50} <50 mg/kg

5 7 **Late Toxicity:** Has been used in cancer research as a promoter for other compounds that cause skin cancer

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold** Data not available

Motor oil
Transmission oil

3 2 **Coast Guard Compatibility Classification** Miscellaneous hydrocarbon mixtures

3 3 **Chemical Formula:** Not applicable

3 4 **IMCO United Nations Numerical Designation** 3 3/1270

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Yellow fluorescent

4 3 **Odor:** Characteristic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Protective gloves goggles or face shield

5 2 **Symptoms Following Exposure:** INGESTION minimally gastrointestinal tract irritation increased frequency of bowel passage may occur ASPIRATION pulmonary irritation is normally minimal but may become more severe several hours after exposure

5 3 **Treatment for Exposure** INGESTION do NOT induce vomiting ASPIRATION treatment probably not required delayed development of pulmonary irritation can be detected by serial chest x-rays EYES wash with copious quantities of water SKIN wipe off and wash with soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 1 LD50 5 to 15 g/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations The effect is temporary

5 9 **Liquid or Solid Irritant Characteristics.** Minimum hazard If spilled on clothing and allowed to remain may cause smarting and reddening of the skin

5 10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** 300°F-450°F C C

6 2 **Flammable Limits in Air** Data not available

6 3 **Fire Extinguishing Agents:** Dry chemical foam or carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used** Water or foam may cause frothing

6 5 **Special Hazards of Combustion Products** Not pertinent

6 6 **Behavior in Fire** Not pertinent

6 7 **Ignition Temperature** 500°F 700°F

6 8 **Electrical Hazard.** Not pertinent

6 9 **Burning Rate:** 4 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water.** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport** Stable

(Continued on pages 5 and 6)

NOTES

REVISED 1978

OMN — OILS, MISCELLANEOUS: MINERAL

Common Synonyms
White oil
Liquid Petrolatum

Oily liquid — Colorless — Odorless

Floats on water

Stop discharge if possible
Call fire department
Avoid contact with liquid
Isolate and restrain discharged material
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with dry chemical, foam or carbon dioxide
Water may be ineffective in fire
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin and eyes
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids apart and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk
DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes.
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Long time burning oil
Mineral colza oil
300° oil
Signal oil

3.2 **Coast Guard Compatibility Classification.** Miscellaneous hydrocarbon mixtures

3.3 **Chemical Formula** Not applicable

3.4 **IMCO United Nations Numerical Designation** 3.3/1270

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless to light brown

4.3 **Odor:** Like kerosene

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective gloves, goggles or face shield

5.2 **Symptoms Following Exposure** Vapors cause slight irritation of eyes and nose. Liquid irritates stomach; if taken in lungs causes coughing, distress, and rapidly developing pulmonary edema

5.2 **Treatment for Exposure:** ASPIRATION enforced bed rest, administer oxygen, call a doctor. INGESTION: do NOT induce vomiting, have victim drink water or milk. EYES wash with copious amounts of water. SKIN wipe off, wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** 200 ppm

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion** Grade 2, LD_{50} 0.5 to 5 g/kg

5.7 **Late Toxicity** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Vapor cause slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of the skin.

5.10 **Odor Threshold.** 1 ppm

ORG	OILS, MISCELLANEOUS: RANGE

Common Synonyms
Kerosene
Kerosene
Fuel oil No. 1
JP-1

Waters liquid | Colorless | Kerosene odor

Floats on water

Fire

Combustible

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations
Fouling to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 448-4

Mechanical containment
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by
Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms.** No. 1 Fuel Oil
JP-1
Kerosene
Kerosine

3 2 **Coast Guard Compatibility Classification:** Miscellaneous hydrocarbon mixtures

3 3 **Chemical Formula:** Not applicable

3 4 **IMCO/United Nations Numerical Designation:** 1223

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor.** Like kerosene

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Protective gloves, goggles or face shield

5 2 **Symptoms Following Exposure:** Vapor causes slight irritation to eyes and nose. Liquid irritates stomach if taken internally; causes coughing, distress and rapidly developing pulmonary edema

5 3 **Treatment for Exposure.** ASPIRATION: Keep patient quiet; administer oxygen; call a doctor. INGESTION: do NOT induce vomiting; call a doctor. EYES: wash with copious amounts of water. SKIN: wipe off and wash with soap and water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 200 ppm

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 1 LD$_{50}$ > 5 g/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause slight smarting of eyes and respiratory system if present in high concentrations. The effects are rapid.

5 9 **Liquid or Solid Irritant Characteristics:** Mild hazard. Repeated washing and allowed to remain may cause smarting and reddening of the skin.

5 10 **Odor Threshold:** 1 ppm

6 FIRE HAZARDS

6 1 **Flash Point** 100°F C.C.

6 2 **Flammable Limits in Air.** 0.7% - 5%

6 3 **Fire Extinguishing Agents** Foam, dry chemical or carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products** Not pertinent

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature** 444°F

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate** Average rate

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials** No reaction

3 1 **Synonyms:** Liquid asphalt
Petroleum asphalt
Slow-curing asphalt

3 2 **Coast Guard Compatibility Classification:** Miscellaneous hydrocarbon mixtures

3 3 **Chemical Formula:** Not applicable

3 4 **IMCO United Nations Numerical Designation:** 3 2 1999 3 3 1999

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Dark brown to black

4 3 **Odor:** Tarry

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Protective clothing for hot asphalt, face and eye protection when hot

5 2 **Symptoms Following Exposure:** Contact with skin may cause dermatitis. Inhalation of vapors may cause moderate irritation of nose and throat. Hot liquid burns skin.

5 3 **Treatment for Exposure:** Severe burns may result from hot liquid. Cool the skin at once with water. Cover burn with sterile dressing and seek medical attention.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Some oil

5 5 **Short-Term Inhalation Limit:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2 [illegible]

5 7 **Late Toxicity:** None observed

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure; may cause secondary burns on long exposure.

5 10 **Odor Threshold:** Data not available

NOTES

REVISED 1978

OSD — OILS, MISCELLANEOUS: SPINDLE

Common Synonyms
High speed bearing oil
Bearing oil

Oily liquid — Light brown — Weak kerosene-like odor

Floats on water

[illegible]

Fire

Combustible

[illegible]

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin and eyes
Harmful if swallowed

[illegible]

Water Pollution

Dangerous to aquatic life in high concentrations
Fouling to shoreline
May be dangerous if it enters water intakes

[illegible]

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-448-4

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by
Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Bearing oil
High speed bearing oil

3.2 **Coast Guard Compatibility Classification:** Miscellaneous hydrocarbon mixtures

3.3 **Chemical Formula:** Not applicable

3.4 **IMCO United Nations Numerical Designation:** [illegible]

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Light brown

4.3 **Odor:** Weak kerosene-like

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective glasses, goggles or face shield

5.2 **Symptoms Following Exposure:** Vapor causes slight irritation of eyes and nose. Liquid irritates stomach. Upset stomach, causes coughing, distress and rapidly developing pulmonary edema

5.3 **Treatment for Exposure:** INHALATION remove victim to fresh air. Call a doctor. INGESTION do NOT induce vomiting. Call a doctor. EYES wash with copious amounts of water. SKIN wipe off and wash with soap and water

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade [illegible]

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of eyes and nose; respiratory system if present in high concentrations. The effect is temporary

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of skin

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** [illegible]

6.2 **Flammable Limits in Air:** Data not available

6.3 **Fire Extinguishing Agents:** Foam, dry chemical or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 450°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
[illegible] ppm in 24 hr Bioassay [illegible] fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):**
[illegible] 5 days

8.4 **Food Chain Concentration Potential:**
None

NOTES

REVISED 1978

OSY — OILS, MISCELLANEOUS: SPRAY

Common Synonyms			
Plant spray oil Dormant oil Foliage oil	Oily liquid	Light brown	Kerosene-like odor

Stop discharge if possible
Call fire department
Avoid contact with liquid
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with foam, dry chemical, carbon dioxide
Water may be ineffective on fire

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing. Use gloves
Flush affected areas with plenty of water
If IN EYES, hold eyelids open and flush with plenty of water
If SWALLOWED, and victim is CONSCIOUS, have victim drink milk or milk of magnesia
DO NOT INDUCE VOMITING

Water Pollution

Dangerous to aquatic life in high concentrations
Fouling to shoreline
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Dormant oil
Foliage oil
Kerosene, heavy
Plant spray oil

3 2 **Coast Guard Compatibility Classification:** Miscellaneous hydrocarbon mixtures

3 3 **Chemical Formula** Not applicable

3 4 **IMCO/United Nations Numerical Designation:** 3.3/1270

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid

4 2 **Color:** Colorless to light brown

4 3 **Odor** Like kerosene, like fuel oil

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Protective gloves, goggles or face shield

5 2 **Symptoms Following Exposure:** Vapor causes slight irritation of eyes and nose. Liquid irritates stomach. If taken into lungs, causes coughing, distress, and rapidly developing edema

5 3 **Treatment for Exposure:** ASPIRATION, enforce bed rest, administer oxygen, call a doctor. INGESTION, do NOT induce vomiting, call a doctor. EYES, wash with copious amounts of water. SKIN, wipe off and wash with soap and water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 200 ppm

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion** Grade 2, LD_{50} 0.5 to 5 g/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5 10 **Odor Threshold:** 1 ppm

6 FIRE HAZARDS

6 1 **Flash Point:** 140°F (min) CC

6 2 **Flammable Limits in Air** 0.6% - 4.6%

6 3 **Fire Extinguishing Agents:** Foam, dry chemical or carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** Not pertinent

6 6 **Behavior in Fire** Not pertinent

6 7 **Ignition Temperature:** 475°F

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate** 4 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials.** No reaction

7 3 **Stability During Transport.** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 500 ppm/* salmon fingerling lethal fresh water
*Time period not specified

8 2 **Waterfowl Toxicity.** Data not available

8 3 **Biological Oxygen Demand (BOD)** 53% 5 days

8 4 **Food Chain Concentration Potential** None

NOTES

OAP OLEIC ACID, POTASSIUM SALT

Common Synonyms			
Potassium oleate	Solid or liquid	Brown	Soapy odor
	Sinks and mixes slowly with water		

Avoid contact with liquid and solid. Keep people away.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Extinguish with water, dry chemicals, CO_2, foam, or carbon dioxide.

Exposure

CALL FOR MEDICAL AID

LIQUID OR SOLID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Disperse and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Potassium oleate
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** $C_{17}H_{33}COOK$

NOTES

OLM

OLEUM

Common Synonyms
Fuming sulfuric acid

Oily liquid Colorless to cloudy Sharp choking odor

Mixes and reacts with water producing heat Irritating mist is produced

AVOID CONTACT WITH LIQUID AND MIST. Keep people away.
Wear protective equipment with self-contained breathing apparatus.
Stop leak if possible.
Notify local authorities if spill enters water.
Isolate hazard area and deny entry.
Keep unnecessary people away; isolate hazard area and deny entry.
Ventilate closed spaces before entering.
Keep combustibles away from spilled material.

Fire

Not flammable
May cause fire on contact with combustibles
Flammable gas may be produced on contact with metals
Use dry chemical, CO2, water spray or foam to extinguish surrounding fire.
DO NOT USE WATER ON ADJACENT FIRES.

Exposure

CALL FOR MEDICAL AID

MIST
Irritating to eyes, nose and throat.
If inhaled will cause coughing or difficult breathing.
Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED, and victim is CONSCIOUS, give water to drink.
Induce vomiting.
DO NOT INDUCE VOMITING.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify public if on navigable waters.
Notify agencies if on navigable waters.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-4

Issue warning; isolate.
Restrict access.
Chemical and physical treatment.
Disperse and flush.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Fuming sulfuric acid
3.2 **Coast Guard Compatibility Classification:** Inorganic acid
3.3 **Chemical Formula:** $SO_3 \cdot H_2SO_4$
3.4 **IMCO United Nations Numerical Designation:** NO DATA

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless to cloudy
4.3 **Odor:** Sharp penetrating choking

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Respirator approved by U.S. Bureau of Mines for acid mists, rubber gloves, plastic apron, eye wash, quick drench shower, rubber footwear, face shield.

5.2 **Symptoms Following Exposure:** Vapor irritating to eyes, nose and throat. Liquid causes severe burns to skin and eyes.

5.3 **Treatment for Exposure:** INGESTION: Induce vomiting as directed. Do NOT induce vomiting if victim is convulsing. EYES: Flush with plenty of water for at least 15 minutes. Call a doctor. SKIN: Flush with plenty of water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** [illegible]

5.5 **Short-Term Inhalation Limits:** [illegible]

5.6 **Toxicity by Ingestion:** Severe burns. Death and stomach perforation.

5.7 **Late Toxicity:** None.

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. Effects cannot be detected even at low concentrations.

5.9 **Liquid or Solid Irritant Characteristics.** Severe skin irritant. Causes second and third degree burns on short contact. Very irritating to the eyes.

5.10 **Odor Threshold:** [illegible]

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used:** Avoid use of water on adjacent fires.
6.5 **Special Hazards of Combustion Products:** Toxic and irritating vapors are generated.
6.6 **Behavior in Fire:** Not pertinent
6.7 **Ignition Temperature:** Not flammable
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not flammable

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Vigorous reaction with water; spatter.
7.2 **Reactivity with Common Materials.** May react with cast iron with explosive violence. Attacks many metals releasing flammable hydrogen gas. Capable of igniting finely divided combustible material on contact. Forms mild hazardous reaction with many materials.
7.3 **Stability During Transport:** Normally stable.
7.4 **Neutralizing Agents for Acids and Caustics.** Cautious dilution with water with precaution against violent spattering. Diluted acid may be neutralized with lime or soda ash.
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
24 ppm 24 hr bluegill lethal fresh water
42 ppm 48 hr grass EC cat salt water
8.2 **Waterfowl Toxicity:** Data not available

NOTES

REVISED 1978

OXA — OXALIC ACID

Common Synonyms
Ethanedioic acid

Solid crystals | White | Odorless

Sinks and mixes with water

Fire

Not flammable
Poisonous gases are produced in fire

Exposure

ALL FOR SHORT TERM

DUST
Will burn eyes, nose and throat
If inhaled will cause difficult breathing

SOLID
Will burn skin and eyes
If swallowed will cause nausea or loss of consciousness

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook (CG-446-1)

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 Synonyms: Ethanedioic acid
3.2 Coast Guard Compatibility Classification: Not applicable
3.3 Chemical Formula: $C_2H_2O_4$
3.4 IMCO United Nations Numerical Designation: Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped): Solid
4.2 Color: White
4.3 Odor: Odorless

5 HEALTH HAZARDS

5.1 Personal Protective Equipment: Protective clothing, gloves, goggles or face shield, and respirator should be worn when handling this material.

5.2 Symptoms Following Exposure: Vapor or dust irritating to eyes, nose and throat. Inhalation of dust may cause difficult breathing. Ingestion may cause nausea or loss of consciousness.

5.3 Treatment for Exposure: Get medical attention. INHALATION: Remove victim to fresh air. Give artificial respiration if not breathing. Keep victim warm and quiet. INGESTION: Induce vomiting by giving large amounts of water. Never give anything by mouth to an unconscious person. Get medical attention. NOTE TO PHYSICIAN: EYES AND SKIN: Flush with plenty of water for at least 15 minutes.

5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent
5.5 Short-Term Inhalation Limits: Not pertinent
5.6 Toxicity by Ingestion: Grade 1 LD50 Not determined
5.7 Late Toxicity: Data not available
5.8 Vapor (Gas) Irritant Characteristics: Not pertinent
5.9 Liquid or Solid Irritant Characteristics: Not pertinent. Dust and solutions irritating to eyes, nose and throat.
5.10 Odor Threshold: Not pertinent

13.15 Heat of Solution: Not pertinent
13.16 Heat of Polymerization: Not pertinent

NOTES

REVISED 1978

OXY — OXYGEN, LIQUEFIED

Common Synonyms
Liquid oxygen
LOX

Liquefied gas | Light blue | Odorless

Sinks and boils in water

[redacted]

Fire

Not flammable
Containers may explode in fire

Exposure

VAPOR
If inhaled will cause dizziness or difficult breathing

LIQUID
Will cause frostbite

Water Pollution

Not harmful to aquatic life

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-4

Protect ass[illegible]

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Liquid oxygen LOX
3.2 **Coast Guard Compatibility Classification** Not applicable
3.3 **Chemical Formula.** O_2
3.4 **IMCO/United Nations Numerical Designation.** 1072

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquefied gas
4.2 **Color:** Light blue
4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Safety goggles or face shield or splash glasses; long sleeves; gloves worn outside pants or vent flap down to shoe; short spats; liquid
5.2 **Symptoms Following Exposure:** Inhalation of oxygen can cause nausea, dizziness, irritation, lungs, pulmonary edema, pneumonia, collapse, liquid may cause [illegible] eyes and skin
5.3 **Treatment for Exposure:** INHALATION: Assure the victim adequate ventilation; if respiration is irregular or stopped, give artificial respiration; if breathing is difficult, oxygen by trained personnel only; keep victim warm and quiet; medical attention should be obtained immediately. EYES: Immediately flush eyes with plenty of water for at least 15 minutes, then get medical attention. SKIN: Flush with plenty of water; if frostbite occurs, get medical attention.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent
5.5 **Short-Term Inhalation Limits:** Not pertinent
5.6 **Toxicity by Ingestion:** Not pertinent
5.7 **Late Toxicity:** Not pertinent
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable, but supports combustion
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Not pertinent
6.6 **Behavior in Fire:** Increases intensity of any fire. Mixtures of liquid oxygen and any fuel are highly explosive
6.7 **Ignition Temperature:** Not pertinent
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts with water will vigorously vaporize, releasing oxygen
7.2 **Reactivity with Common Materials.** Avoid organic and combustible materials such as wood, grease, coal dust, etc. Ignited such mixtures can explode. The low temperature may cause brittleness in some materials
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** None
8.2 **Waterfowl Toxicity:** None
8.3 **Biological Oxygen Demand (BOD):** None
8.4 **Food Chain Concentration Potential:** None

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Gas
13.2 **Molecular Weight.** 32.0
13.3 **Boiling Point at 1 atm:**
−297°F = −182.9°C = 90.3°K
13.4 **Freezing Point:**
−361°F = −218°C = 55°K
13.5 **Critical Temperature:**
−180°F = −118°C = 155°K
13.6 **Critical Pressure:**
730 psia = 50 atm = 5.0 MN/m²
13.7 **Specific Gravity:** 1.14 at −183°C (liquid)
13.8 **Liquid Surface Tension.**
13.4 dynes/cm = 0.0134 N/m at −183°C
13.9 **Liquid-Water Interfacial Tension:** Not pertinent
13.10 **Vapor (Gas) Specific Gravity:** 1.1
13.11 **Ratio of Specific Heats of Vapor (Gas):** 1.40
13.12 **Latent Heat of Vaporization:** 91.6 Btu/lb = 50 cal/g = 2.13 × 10³ J/kg
13.13 **Heat of Combustion:** Not pertinent
13.14 **Heat of Decomposition:** Not pertinent
13.15 **Heat of Solution:** Not pertinent
13.16 **Heat of Polymerization:** Not pertinent

Continued on page 5A

NOTES

PFA	# PARAFORMALDEHYDE

Common Synonyms
Polyformaldehyde
Polyoxymethylene
Formaldehyde polymer

Solid powder | White | Irritating odor

Sinks and mixes with water

Fire

Combustible

Exposure

DUST
Irritating to eyes, nose and throat
Harmful if inhaled

SOLID
Irritating to skin and eyes
If swallowed will cause nausea, vomiting or loss of consciousness

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Dispose and flush

2. LABELS

No Para Label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Formaldehyde polymer
Polyformaldehyde
Polyoxymethylene
Polyoxymethylene glycol

3.2 **Coast Guard Compatibility Classification:** Aldehyde

3.3 **Chemical Formula:** $HOCH_2OH$

3.4 **IMCO United Nations Numerical Designation:** 9.0

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White

4.3 **Odor:** Pungent and irritating like formaldehyde

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield, protective clothing

5.2 **Symptoms Following Exposure:** Vapors may irritate eyes, mucous membranes and skin, may cause dermatitis. Ingestion may cause irritation of mouth, throat and stomach and may cause death

5.3 **Treatment for Exposure:** INGESTION: give milk or white of egg, then water, induce vomiting. SKIN OR EYES: wash with copious amounts of water

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 1 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 3 LD$_{50}$ (rat) 800 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors moderately irritating, but have not been known to cause damage after short exposure

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of the skin

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 199°F (approx 93°C) (90°F (approx 32°C))

6.2 **Flammable Limits in Air:** Formaldehyde gas 7 to 73 vol %

6.3 **Fire Extinguishing Agents:** Water, foam, dry chemical or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Data not available

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Changes to formaldehyde gas which is highly flammable

6.7 **Ignition Temperature:** 572°F (300°C)

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Forms water solution of formaldehyde

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable, decomposes to formaldehyde gas

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 32 ppm 24 hr catfish TL$_m$, fresh water (100-300 ppm 48 hr flagfish TL$_m$, salt water)

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD,** 37% 5 days (theor. 64% 5 days)

8.4 **Food Chain Concentration Potential:** None

13.11 **Ratio of Specific Heats of Vapor (Gas)** Not pertinent

13.12 **Latent Heat of Vaporization:** Not pertinent

13.13 **Heat of Combustion.** (solid) -6.45 x 10^3 Btu/lb, -3.58 x 10^3 cal/g, -14.98 x 10^6 J/kg

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** (100 Hg) 25 cal/g, 45 Btu/lb, 0.1 kg

13.16 **Heat of Polymerization.** Not pertinent

(Continued on page 7-xx)

NOTES

PTO PARATHION, LIQUID

Common Synonyms
Ethyl parathion
Phosphorothioic acid, O,O-diethyl O-p-nitrophenyl ester
O,O-Diethyl O-p-nitrophenyl phosphorothioate
O,O-diethyl O-p-nitrophenyl thiophosphate

Liquid — Light to dark brown

Sinks in water. Freezing point is 43°F.

Fire

Not flammable
POISONOUS GASES ARE PRODUCED WHEN HEATED

Exposure

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

POISON

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** O,O-Diethyl O-p-nitrophenyl thiophosphate; O,O-Diethyl O-p-nitrophenyl monothiophosphate; Ethyl Parathion; Phosphorothioic acid, O,O-diethyl O-p-nitrophenyl ester

3.2 **Coast Guard Compatibility Classification**

3.3 **Chemical Formula:** $C_{10}H_{14}NO_5PS$

3.4 **IMCO/United Nations Numerical Designation:**

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid

4.2 **Color:** Dark to light brown

4.3 **Odor:**

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Neoprene coated gloves; aprons; boots; coveralls; and rubber gloves; goggles; respirator or mask approved for toxic dusts and organic vapors.

5.2 **Symptoms Following Exposure:** Inhalation, ingestion, and absorption through the skin cause effects such as impaired vision, contraction of the pupils, headache and tightness of the chest. Nausea, vomiting, abdominal cramps, diarrhea, muscular twitchings, convulsions and possible death may follow. Acute exposure may also be fatal to certain animals which would cause pulmonary edema. Chronic exposure causes cholinesterase inhibition.

5.3 **Treatment for Exposure:** Call a doctor in all cases of exposure. IMMEDIATELY remove victim from exposure, immediately take pulse, respiration, temperature and blood pressure. Give 2 PAM tablets and proceed by physician. EYES: flush with water immediately after contact for at least 5 min. SKIN: remove all clothing and shoes immediately; quickly wipe off the affected area with cotton, cloth, rubber or rubberized gloves; drench the area with water. Do not use soap. Wash the affected area separately with soap and water. INGESTION: Induce vomiting immediately and repeat until vomit fluid is clear. Have victim drink plenty of water. Have victim lie down and keep quiet.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.1 mg/m³

5.5 **Short-Term Inhalation Limits.** 0.3 mg/m³ for 30 min

5.6 **Toxicity by Ingestion:** Grade 4; LD_{50} 2 mg/kg rats

5.7 **Late Toxicity:** Both brain and spinal cord damage

5.8 **Vapor (Gas) Irritant Characteristics.** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

(continued on page 4)

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Water or alcohol foam

6.4 **Fire Extinguishing Agents Not to be Used:** High pressure water jets may scatter parathion or be ineffective; may be hazardous in confined areas

6.5 **Special Hazards of Combustion Products.** Fumes from decomposing material may contain oxides of sulfur and nitrogen

6.6 **Behavior in Fire:** Containers may explode when heated

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

*7.1 **Reactivity with Water.** Slow reaction; not considered hazardous

*7.2 **Reactivity with Common Materials.** Not reactive

*7.3 **Stability During Transport:** Stable

*7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

*7.5 **Polymerization.** Not pertinent

*7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 4 ppm/96 hr minnow TLm; 0.65 ppm/24 hr/brook trout/running water/static water

8.2 **Waterfowl Toxicity:** LD[illegible] mg/kg

8.3 **Biological Oxygen Demand (BOD)** Data not available

8.4 **Food Chain Concentration Potential** Not biodegradable; food chain

9 SELECTED MANUFACTURERS

[illegible] Chemical Plastics Company, Agricultural Division, 600 North Lindbergh Boulevard, St. Louis, Missouri

[illegible] Stauffer Chemical Co., Agricultural Chemical Division, Westport, Connecticut

10 SHIPPING INFORMATION

10.1 **Grades of Purity:** 99.5%
Some mixes distributed as wettable powders

10.2 **Storage Temperature:** Ambient

5 HEALTH HAZARDS (Cont'd.)

5.10 **Odor Threshold:** [illegible] ppm

PTB — PENTABORANE

Common Synonyms

(9) Pentaborane nonahydride

Liquid | Colorless | Strong sour milk odor

Ignites when exposed to air. Floats on water

Fire

IGNITES WHEN EXPOSED TO AIR

Exposure

HAZARD IS FROM PRODUCTS OF COMBUSTION

VAPOR

POISONOUS IF INHALED

LIQUID

POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED

Irritating to eyes

Water Pollution

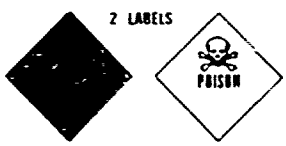
Effect of low concentrations on aquatic life is unknown.

May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-1

Issue warning. High flammability.



Keep out of water.

Restrict access.

Evacuate area.

Disperse and flush.

2 LABELS

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** (9) Pentaborane nonahydride

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** B_5H_9

3.4 **IMCO/United Nations Numerical Designation:** 2.2 Gas

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Characteristic, sickly pungent, sour milk odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus; chemical goggles; acid-resistant rubber gloves and protective clothing.

5.2 **Symptoms Following Exposure:** Inhalation of vapor may cause dizziness, nausea, headache, convulsions, higher concentrations also cause irritation of the respiratory tract, lung damage, pulmonary edema, shortness of breath, difficult breathing, pain beneath the sternum, tightness of chest, cyanosis, unconsciousness, and coma. Liquid may cause irritation, pain, and redness of the eyes. Contact with skin causes irritation, redness and burning. Can be absorbed through the skin. Symptoms may be delayed because of the anesthetic properties of the material.

5.3 **Treatment for Exposure:** Get medical attention following any exposure. Give oxygen. INHALATION: remove victim to fresh air and if not breathing give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. EYES: wash with copious quantities of water for at least 15 minutes. Hold eyes lids apart to wash thoroughly. SKIN: wash immediately with soap and water. Remove affected area with a 5% ammonia solution followed by additional flushing with water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.005 ppm

5.5 **Short-Term Inhalation Limits:** 2 ppm for 8 hr; 2 ppm for 1 hr; 2 ppm for 30 min; 2 ppm for 10 min

5.6 **Toxicity by Ingestion:** Grade 4. Dangerous

5.7 **Late Toxicity:** Data not available

Continued on page 4

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Preferably dry chemical and/or fire-fighting foam; or agent suitable for surrounding fire

6.4 **Fire Extinguishing Agents Not to be Used:** Halogenated hydrocarbons

6.5 **Special Hazards of Combustion Products:** Toxic fumes may be formed

6.6 **Behavior in Fire:** Tends to explode; reacts with water; upon contact with water upon adjacent fires produces flammable and toxic gas

6.7 **Ignition Temperature:** Spontaneously flammable; ignites upon exposure to air at ambient temperature

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts with water to form flammable and toxic gas. Reaction with hazardous amounts of water unless initiated

7.2 **Reactivity with Common Materials:** Corrosive to rubber, plastics, other synthetics; attacks some greases and some lubricants

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

5 HEALTH HAZARDS (Cont'd)

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** 0.5 ppm

PCP — PENTACHLOROPHENOL

Common Synonyms
Dowicide 7
Penta
Santophen 20

Solid beads or flakes White to light brown

Sinks in water

Avoid contact with solid and dust Keep people away
Wear goggles and self-contained breathing apparatus
Stop discharge if possible
Isolate and remove discharged material
Notify local health and pollution control officials

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
Move to fresh air
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

SOLID
POISONOUS IF SWALLOWED
Will burn skin and eyes
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim CONSCIOUS have victim drink water or milk and have vomiting induced
if SWALLOWED and victim UNCONSCIOUS OR HAVING CONVULSIONS do not induce vomiting and get victim to hospital ASAP

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-6

Issue warning - poison
Restrict access
Should be removed

4 1 **Physical State (as shipped)** Solid

4 2 **Color** Colorless to light brown

4 3 **Odor** Very weak

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Respirator for dust, goggles, protective clothing

5 2 **Symptoms Following Exposure** Dust or vapor irritates skin and mucous membranes causing coughing and sneezing Ingestion causes loss of appetite, nausea, respiratory difficulties, anesthesia, sweating, vomiting Overexposure can cause death

5 3 **Treatment for Exposure** Call a doctor INGESTION induce vomiting if conscious EYES wash with water for 15-30 min SKIN wash well with soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value)** 0.5 mg/m

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion** Grade 3 LD_{50} 50 to 500 mg/kg (rat)

5 7 **Late Toxicity** Data not available

5 8 **Vapor (Gas) Irritant Characteristics** Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations

5 9 **Liquid or Solid Irritant Characteristics** Causes smarting of the skin and light reddening on brief exposure, may cause second-degree burns on long exposure

5 10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air:** Not flammable

6 3 **Fire Extinguishing Agents:** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6 5 **Special Hazards of Combustion Products.** Gives off toxic and irritating vapors

6 6 **Behavior in Fire** Not pertinent

6 7 **Ignition Temperature:** Not flammable

6 8 **Electrical Hazard** Not pertinent

6 9 **Burning Rate** Not flammable

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7 5 **Polymerization** Not pertinent

7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 5 ppm 48-hr trout lethal fresh water

8 2 **Waterfowl Toxicity** 4500 ppm/1 LC_{50}/mallards

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential** Data not available

NOTES

REVISED 1978

PDC

PENTADECANOL

Common Synonyms

Liquid | Colorless | Faint alcohol odor

Floats on water

[illegible]

Fire

Combustible
Extinguish with foam, dry chemical or carbon dioxide
Water may be ineffective on fire
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID
LIQUID
Irritating to skin and eyes
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids apart and flush with plenty of water

Water Pollution

Harmful to fish and water fowl
Fouling to shoreline
May be dangerous if it enters water intakes
Notify local health and pollution control officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed

2 LABELS

No hazard label required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** 1-Pentadecanol
Pentadecyl alcohol

3 2 **Coast Guard Compatibility Classification**
Alcohol

3 3 **Chemical Formula:** $CH_3(CH_2)_{13}CH_2OH$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Weak alcoholic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield

5 2 **Symptoms Following Exposure.** Low toxicity. Excessive exposure produces some central nervous system depression. Prolonged contact produces skin irritation.

5 3 **Treatment for Exposure:** INHALATION if necessary, support respiration. INGESTION induce vomiting and call a doctor. SKIN OR EYES wash with copious amounts of water.

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion.** Data not available

5 7 **Late Toxicity.** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

NOTES

REVISED 1978

PAA — PERACETIC ACID

Common Synonyms
Peroxyacetic acid
Acetyl hydroperoxide

Liquid | Colorless | Strong odor

Mixes with water. Flammable. Irritating vapor is produced.

Fire

Combustible.
May cause fire on contact with combustibles.
Containers may explode in fire.

Exposure

VAPOR
Irritating to eyes, nose and throat.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning. Oxidizing material.
Avoid contamination of water.
Restrict access.
Disperse and flush.

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Acetyl hydroperoxide
Peroxyacetic acid

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:**
CH_3COOOH CH_3COOH

3.4 **IMCO/United Nations Numerical Designation.** 2.1.1932

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color.** Colorless

4.3 **Odor:** Pungent, acrid.

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Self-contained breathing apparatus. Full protective clothing, goggles, rubber gloves, etc.

5.2 **Symptoms Following Exposure.** Inhalation causes severe irritation of nose and throat. Contact with liquid causes severe irritation of eyes and skin. Ingestion also causes distress including burns of mouth and stomach.

5.3 **Treatment for Exposure.** INHALATION: remove victim to fresh air, check breathing, apply artificial respiration and oxygen if indicated. EYES: flush with water for at least 15 min. call doctor. SKIN: flush with water and treat burns. INGESTION: give plenty of water, call doctor.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion.** Grade I and II: Fatal dosage is a teaspoonful or more.

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold.** Data not available.

6 FIRE HAZARDS

6.1 **Flash Point.** 104°F C.C.

6.2 **Flammable Limits in Air.** Data not available

6.3 **Fire Extinguishing Agents:** Water

6.4 **Fire Extinguishing Agents Not to be Used.** Not pertinent

6.5 **Special Hazards of Combustion Products.** Not pertinent

6.6 **Behavior in Fire.** Vapors are flammable and explosive. Liquid will detonate if concentration is above 56% because of evaporation of acetic acid.

6.7 **Ignition Temperature.** 392°F

6.8 **Electrical Hazard.** Not pertinent

6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** May cause fire in contact with organic matter, also as an oxidizer. Corrosive to iron, metal including aluminum.

7.3 **Stability During Transport.** Stable. If peroxide and other chemicals, such as metals. At 40°C concentration decreases about 1% each month.

7.4 **Neutralizing Agents for Acids and Caustics.** Flush with water.

7.5 **Polymerization.** Not pertinent

7.6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD).** Data not available

8.4 **Food Chain Concentration Potential.** None

(Continued on page 5 and 6)

NOTES

PCL	# PERCHLORIC ACID

Common Synonyms Diotonium perchlorate solution	Liquid	Colorless	Odorless
	Sinks and mixes with water		

Fire

Not flammable
Will increase the intensity of a fire
May cause fire on contact with combustibles
Containers may explode in fire
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

LIQUID
Will burn skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4)

Issue warning - corrosive, oxidizing material
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Diotonium perchlorate solution; Perchloric acid solution
3 2 **Coast Guard Compatibility Classification** Not listed
3 3 **Chemical Formula** $HClO_4 \cdot H_2O$
3 4 **IMCO/United Nations Numerical Designation** UN 1873 (50 - 72% acid) UN 1802 (less than 50% acid)

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves; face shield or vapor tight chemical type safety goggles; rubber apron; rubber boots or shoes
5 2 **Symptoms Following Exposure:** Inhalation of vapors or mist causes burning sensation, sneezing and throat and lung irritation with coughing; prolonged or excessive exposure could cause vomiting and severe shock. Ingestion causes blistering and burns of mouth and stomach. Contact with eyes or skin causes blistering and burns.
5 3 **Treatment for Exposure:** *Get medical attention as indicating all exposures other than simple and* INHALATION: move to fresh air, give oxygen if necessary. INGESTION: give large amounts of water. EYES: flush with water for at least 15 min. SKIN: flush with water.
5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Data not available.
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics** Data not available
5 9 **Liquid or Solid Irritant Characteristics** Data not available
5 10 **Odor Threshold:** Odorless

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable. Not may explode in fire
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents.** Water from protected area
6 4 **Fire Extinguishing Agents Not to be Used**
6 5 **Special Hazards of Combustion Products:**
6 6 **Behavior in Fire** Above 160°C (320°F) will react with combustible material and increase intensity. Fire Containers may explode
6 7 **Ignition Temperature:** Not pertinent
6 8 **Electrical Hazard** Not pertinent
6 9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** Contact with most combustible materials may cause fires and explosions. Corrosive to most metals with formation of flammable hydrogen gas which may collect in confined spaces
7 3 **Stability During Transport** Unstable if heated
7 4 **Neutralizing Agents for Acids and Caustics:** Flush with water and rinse with dilute sodium bicarbonate or soda ash solution
7 5 **Polymerization.** Not pertinent
7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity** Data not available

NOTES

PCM — PERCHLOROMETHYL MERCAPTAN

Common Synonyms

Trichloromethyl sulfur chloride
Thiocarbonyl tetrachloride
Trichloromethyl sulfochloride
Trichloromethane sulfenyl chloride

Liquid | Yellow to orange red | Strong unpleasant odor

Sinks in water. Poisonous vapor is produced.

Fire

Not flammable.
POISONOUS GASES MAY BE PRODUCED WHEN HEATED.

Exposure

VAPOR
POISONOUS IF INHALED.
Irritating to eyes, nose and throat.

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED.
Irritating to eyes.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Issue warning: poison, water contaminant, air contaminant.
Restrict access.
Disperse and flush.

2 LABEL

POISON

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Trichloromethanesulfenyl chloride, Trichloromethane sulphenyl chloride, Trichloromethyl sulphochloride, Trichloromethylsulfur chloride

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** CCl_3SCl

3.4 **IMCO/United Nations Numerical Designation:** 1670

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Bright yellow, pale yellow, orange-red

4.3 **Odor:** In vessels unpleasant, strong, unbearable, strongly acrid

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic and acid spec. canister mask, self-contained breathing apparatus, goggles or face shield, rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation may cause severe irritation of upper respiratory tract; brief exposure to low concentrations may produce central nervous system depression and lung liver and heart congestion. Severe exposures may be fatal. Contact of liquid with eyes causes immediate excoriation and severe pain. Action of vapors may produce severe corneal damage may result. Liquid also causes severe skin irritation. May be absorbed through skin in quantities sufficient to produce systemic poisoning. Ingestion may cause damage to the membranes of the mouth, throat, and gastro-intestinal tract. Pain and burning of the mouth and throat, nausea, vomiting, cramps and diarrhea may occur. In severe cases, tissue ulceration and central nervous system depression may result.

5.3 **Treatment for Exposure:** Get medical attention at once following all exposures to this compound. INHALATION: remove victim to fresh air, give mouth to mouth resuscitation if needed. EYES: flush with water for 15 min. physician's aid if available. If skin is affected, flush with water. INGESTION: give large amounts of water, then induce vomiting until vomitus is clear, give milk, eggs, stomach tube.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.1 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 3; LD_{50} = 75 mg/kg (rats)

5.7 **Late Toxicity:** Data not available

Continued on page 4

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Very irritating vapors formed from hot material. May form toxic phosgene gas, hydrogen chloride and sulfur dioxide.

6.6 **Behavior in Fire:** At elevated temperatures will decompose to carbon tetrachloride, sulfur chloride and heavy oily polymer.

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts only when hot to give carbon dioxide, hydrochloric acid and sulfur

7.2 **Reactivity with Common Materials:** Reacts with iron or steel, evolving carbon tetrachloride. Corrosive to most metals

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Flood with water, rinse with dilute sodium bicarbonate or lime solution

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

PTN	PETROLEUM NAPHTHA

Common Synonyms
Petroleum spirit

Liquid | Colorless | Gasoline odor

Floats on water. Flammable vapor is produced.

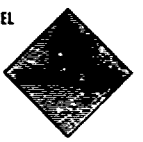
Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Not irritating to eyes, nose or throat.

LIQUID
Harmful if swallowed.



Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.

Phenol

3.3 **Chemical Formula:** C_6H_5OH

3.4 **IMCO United Nations Numerical Designation.** 1671

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Solid

4.2 **Color:** Colorless to pink

4.3 **Odor** Sickening sweet tarry odor detectable at very low concentrations

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective clothing and gloves

5.2 **Symptoms Following Exposure:** Weakness, pallor, and blue skin color; dark urine; and death

5.3 **Treatment for Exposure:** INHALATION: Victim should be moved to fresh air; keep him quiet and warm and administer oxygen if breathing is difficult. Give artificial respiration if breathing has stopped. INGESTION: Do NOT induce vomiting. Give large quantities of water. Immediately transport to hospital. Do not leave victim unattended. EYES: Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention. SKIN: Immediately remove contaminated clothing. Wash skin with soap and water. Get medical attention.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** 5 ppm

5.5 **Short-Term Inhalation Limits:** Data unavailable

5.6 **Toxicity by Ingestion:** Grade 3 LD$_{50}$ 500 mg/kg

5.7 **Late Toxicity:** Carcinogenic in laboratory animals

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes severe irritation to eyes and respiratory tract. Effects may be delayed.

5.9 **Liquid or Solid Irritant Characteristics:** Causes severe burns. May cause permanent damage if not washed off immediately.

5.10 **Odor Threshold:** 0.05 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 175°F C.C.

FDL	PHENYLDICHLOROARSINE, LIQUID

Common Synonyms

Fenylarsenic dichloride

Liquid | Colorless to yellow | Weak unpleasant odor

Sinks in water

Fire

Fire data not available
POISONOUS GASES ARE PRODUCED WHEN HEATED

Exposure

LIQUID
POISONOUS IF SWALLOWED
Will burn skin and eyes.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook (CG 446-4)

Isolate hazard area, deny entry
Keep unnecessary people away; stay upwind
Restrict access
Disperse and flush

2. LABEL

POISON

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Phenylarsenic dichloride
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** $C_6H_5AsCl_2$
3.4 **IMCO/United Nations Numerical Designation:** 1556

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless to yellow
4.3 **Odor:** Weak, but very unpleasant

5 HEALTH HAZARDS

5 **Personal Protective Equipment:** Full protective clothing, including self-contained breathing apparatus

5.2 **Symptoms Following Exposure:** Inhalation of vapors or mist may cause pain, nausea, vomiting, and edema. Vapor or liquid causes severe burns; eyes and/or eyelids may be severely burned. Liquid may cause severe burns and/or ulceration. Skin burns may be severe and slow to heal.

5.3 **Treatment of Exposure:** Get medical attention immediately following all exposures to this compound. INHALATION: remove victim to fresh air; if not breathing, give artificial respiration; if breathing has ceased, trained personnel may administer oxygen. EYES: immediately wash with large amounts of water for at least 15 min. SKIN: flush with water and wash well with soap and water. Remove contaminated clothing, shoes, and leather goods (e.g., watchbands, belts). INGESTION: if victim is conscious, induce vomiting by touching back of throat with finger or by giving syrup of ipecac. Do not induce vomiting or give anything by mouth to an unconscious person. Call a physician immediately in all cases of exposure.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Data not available
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Data not available
6.2 **Flammable Limits in Air:** Data not available
6.3 **Fire Extinguishing Agents:** Not known
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Highly toxic gases are produced when heated
6.6 **Behavior in Fire:** Data not available
6.7 **Ignition Temperature:** Data not available
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** Not known

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts slowly to produce toxic and hazardous fumes of HCl and arsenic oxides
7.2 **Reactivity with Common Materials:** Corrodes metals because of HCl fumes
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

1. Stauffer Chemicals Inc
Westport, Connecticut
Ansul Products Division
Marinette, Wisconsin
Berry Metal Co
Kansas City, Kansas

10 SHIPPING INFORMATION

10.1 **Grades or Purity:** Commercial
10.2 **Storage Temperature:** Ambient
10.3 **Inert Atmosphere:** No requirement
10.4 **Venting:** Pressure-vacuum

11 HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook (CG 446-3)

4 4 X

12 HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:** Poison, Class B
12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed
12.3 **NFPA Hazard Classifications:** Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid
13.2 **Molecular Weight:** 222.9
13.3 **Boiling Point at 1 atm:** 569°F = 298°C = 571°K
13.4 **Freezing Point:** 32°F = 0°C = 273°K
13.5 **Critical Temperature:** Not pertinent
13.6 **Critical Pressure:** Not pertinent
13.7 **Specific Gravity:** 1.67 at 20°C (liquid)
13.8 **Liquid Surface Tension:** 44 dynes/cm = 0.044 N/m at 25°C
13.9 **Liquid-Water Interfacial Tension:** Not pertinent
13.10 **Vapor (Gas) Specific Gravity:** Not pertinent
13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent
13.12 **Latent Heat of Vaporization:** 98 Btu/lb = 54.5 cal/g = 2.3 × 10⁵ J/kg
13.13 **Heat of Combustion:** -8,450 Btu/lb = -4,690 cal/g = -196.3 × 10⁵ J/kg
13.14 **Heat of Decomposition:** Not pertinent
13.15 **Heat of Solution:** Not pertinent
13.16 **Heat of Polymerization:** Not pertinent

NOTES

PHH PHENYLHYDRAZINE HYDROCHLORIDE

Common Synonyms	Solid	White to tan	Weak odor
Phenylhydrazine chloride	Sinks and mixes with water		

Fire	Combustible POISONOUS GASES MAY BE PRODUCED IN FIRE
	DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing SOLID POISONOUS IF SWALLOWED If swallowed will cause nausea
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

If material is in water:
Contain material
Recover if possible
Dispose of safely

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Phenylhydrazine chloride

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** $C_6H_5NHNH_2 \cdot HCl$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White to tan

4.3 **Odor:** Weak odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust respirator, rubber gloves, goggles

5.2 **Symptoms Following Exposure:** Inhalation of dust of material may cause severe irritation of eyes, nose and throat. Phenylhydrazine and its salts are considered dangerous poisons and ingestion of even small amounts may cause severe anemia and liver injury. Contact with eyes may cause severe irritation and possible corneal injury. Contact with skin may cause irritation and dermatitis.

5.3 **Treatment for Exposure:** INHALATION: If victim is not breathing, get medical attention. Post SKIN: Immediately give large amount of water. Remove contaminated clothing, get medical attention if irritation persists. EYES: Flush with water for at least 15 min. Continue flushing and repeat if irritation persists. SKIN: Flush with water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** Cancer suspect agent

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Water fog, dry chemical, carbon dioxide, foam

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Irritating fumes and oxides of nitrogen and hydrochloride may form in fire

6.6 **Behavior in Fire:** Decomposes with flame and deposits white solid

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** May be corrosive to metals

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

See page 2 of this PHH

NOTES

PHG	PHOSGENE

Common Synonyms
Carbonyl chloride

Liquefied compressed gas. Colorless gas or light yellow liquid. Sweet or sharp odor.

Liquid sinks in water. Poisonous vapor is produced. Boiling point is 47°F.

Fire

Not flammable.
POISONOUS GASES ARE PRODUCED WHEN HEATED.

Exposure

VAPOR
POISONOUS IF INHALED.
Irritating to eyes, nose and throat.
Effects may be delayed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, 1978.

PAC	# PHOSPHORIC ACID

Common Synonyms Orthophosphoric acid	Thick liquid Colorless Odorless Sinks and mixes with water
Fire	Not flammable Flammable gas is formed on contact with metals
Exposure	LIQUID Will burn skin and eyes If swallowed, will cause nausea, vomiting, or loss of consciousness
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - corrosive
Restrict access
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms** Orthophosphoric acid
3 2 **Coast Guard Compatibility Classification** Non-oxidizing mineral acid
3 3 **Chemical Formula** H_3PO_4
3 4 **IMCO/United Nations Numerical Designation** 9 0 1805

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Odorless

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Goggles or face shield, rubber gloves and protective clothing.
5 2 **Symptoms Following Exposure.** Burns on mouth and lips, sour acrid taste, severe gastrointestinal irritation, nausea, vomiting, bloody diarrhea, difficult swallowing, severe abdominal pains, thirst, tenderness, difficult breathing, convulsions, collapse, shock, death.
5 3 **Treatment for Exposure:** INGESTION: do NOT induce vomiting; give water, milk or vegetable oil; SKIN OR EYE CONTACT: flush with water for at least 15 min.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 1.0 mg/m³
5 5 **Short-Term Inhalation Limits:** Not pertinent.
5 6 **Toxicity by Ingestion:** Grade 3 LD_{50} 50 to 500 mg/kg
5 7 **Late Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics:** Not volatile
5 9 **Liquid or Solid Irritant Characteristics:** Fairly severe skin irritant; may cause pain and second degree burns after a few minutes contact.
5 10 **Odor Threshold:** Not pertinent.

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable

NOTES

REVISED 1978

PPO PHOSPHORUS OXYCHLORIDE

Common Synonyms	Oily liquid Colorless to light yellow Musty odor Fumes in air sinks and reacts with water Poisonous gas is produced Freezing point is 34°F
Fire	Not flammable
[illegible]	VAPOR Irritating to eyes nose or throat Harmful if inhaled LIQUID Will burn skin and eyes Harmful if swallowed
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4)

Issue warning - corrosive
Restrict access
Disperse and flush with care

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Phosphoryl chloride
3 2 **Coast Guard Compatibility Classification** Not applicable
3 3 **Chemical Formula:** $POCl_3$
3 4 **IMCO-United Nations Numerical Designation.** 8 0 1810

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid
4 2 **Color:** Colorless to pale yellow
4 3 **Odor:** Pungent and musty disagreeable and lingering

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Chemical-safety goggles Face shield self contained or air line respirator hard hat foot protection rubber gloves and clothing
5 2 **Symptoms Following Exposure:** Vapors burn eyes and respiratory tract Liquid is very corrosive to body tissues because of reaction with water to form hydrochloric and phosphoric acids
5 3 **Treatment for Exposure.** *CAUTION persons doing treatment should protect themselves against exposure* INHALATION remove victim from contaminated area at once if breathing has stopped start artificial respiration call a doctor INGESTION give water or milk do NOT induce vomiting SKIN remove contaminated clothing and flush exposed skin surfaces with water EYES retract eyelids and wash with water for at least 15 min call a doctor
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0 5 ppm
5 5 **Short-Term Inhalation Limits.** Data not available
5 6 **Toxicity by Ingestion** Grade 3, oral rat LD_{50} = 380 mg/kg
5 7 **Late Toxicity** Data not available
5 8 **Vapor (Gas) Irritant Characteristics** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury Eyes cannot be tolerated even at low concentrations
5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant Causes second and third degree burns on short contact and is very injurious to the eyes
5 10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** Not flammable
6 2 **Flammable Limits in Air** Not flammable
6 3 **Fire Extinguishing Agents** Sand and carbon dioxide on adjacent fires
6 4 **Fire Extinguishing Agents Not to be Used** Water
6 5 **Special Hazards of Combustion Products** Not pertinent
6 6 **Behavior in Fire** Poisonous corrosive irritating gases are generated when heated or when in contact with water
6 7 **Ignition Temperature.** Not flammable
6 8 **Electrical Hazard** Not pertinent
6 9 **Burning Rate.** Not flammable

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Vigorous reaction with evolution of hydrogen chloride fumes
7 2 **Reactivity with Common Materials** Corrosive to most metals except zinc and lead Products of its reaction with water rapidly corrode steel and most metals with formation of flammable hydrogen gas
7 3 **Stability During Transport** Stable
7 4 **Neutralizing Agents for Acids and Caustics** Flush with water neutralize acids or mix with lime or soda ash
7 5 **Polymerization** Not pertinent
7 6 **Inhibitor of Polymerization** Not pertinent

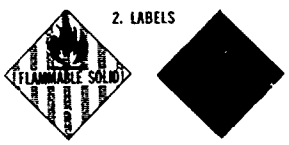
NOTES

REVISED 1978

PPP

PHOSPHORUS PENTASULFIDE



Common Synonyms	Solid flakes or powder. Yellow to green. Odorless or rotten egg odor. Sinks and reacts with water. Poisonous gas is produced.
Fire	FLAMMABLE MAY BE IGNITED BY SPARK, FRICTION OR STATIC DISCHARGE. Containers may explode in fire. POISONOUS IRRITATING GASES ARE PRODUCED IN FIRE.
Exposure	DUST Irritating to eyes, nose and throat. SOLID Irritating to skin and eyes. Harmful if swallowed.
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS. May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-4

Issue warning: high flammability, poison.
Restrict access.
Evacuate area.
Should be removed.

2. LABELS

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Phosphoric sulfide; Phosphorus persulfide; Thiophosphoric anhydride

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** P_4S_{10}

3.4 **IMCO/United Nations Numerical Designation:** 4.1/1340

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** Light greenish yellow; greenish gray

4.3 **Odor:** Like rotten eggs. High (lethal) concentrations can paralyze the sense of smell.

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Chemical safety goggles; plastic gloves; should self-contained or air line respirator.

5.2 **Symptoms Following Exposure.** Hydrogen sulfide gas formed by reaction with moisture can cause death by respiratory failure. The gas also irritates eyes and respiratory system. The solid irritates skin and eyes; the symptoms may be delayed several hours.

5.3 **Treatment for Exposure:** INHALATION: remove victim from contaminated area; if breathing has stopped, begin artificial respiration. INGESTION: induce vomiting; call physician. SKIN: remove contaminated clothing and wash area with large amounts of water. EYES: flush with large amounts of water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 10 ppm (hydrogen sulfide)

5.5 **Short-Term Inhalation Limits:** 20 ppm for 5 min (hydrogen sulfide)

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Hydrogen sulfide gas formed by reaction with moisture causes severe irritation of eyes and throat and can cause eye and lung injury; it cannot be tolerated even at low concentrations.

5.9 **Liquid or Solid Irritant Characteristics.** Minimum hazard. If spilled on clothing and allowed to remain may cause scarring and reddening of the skin.

5.10 **Odor Threshold:** 0.0047 ppm (hydrogen sulfide). See discussion, par. 4.3.

6 FIRE HAZARDS

6.1 **Flash Point:** Flammable solid.

6.2 **Flammable Limits in Air:** Not pertinent.

6.3 **Fire Extinguishing Agents:** Sand and carbon dioxide.

6.4 **Fire Extinguishing Agents Not to be Used:** Water.

6.5 **Special Hazards of Combustion Products:** Products of combustion include sulfur dioxide and phosphorus pentoxide, which are irritating to eyes, nose, throat.

6.6 **Behavior in Fire:** Not pertinent.

6.7 **Ignition Temperature:** 527°F (liquid).

6.8 **Electrical Hazard:** Not pertinent.

6.9 **Burning Rate:** Not pertinent.

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts with liquid water or atmospheric moisture to liberate toxic hydrogen sulfide gas.

7.2 **Reactivity with Common Material:** No reaction.

7.3 **Stability During Transport:** Can be ignited by friction.

7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent.

7.5 **Polymerization:** Not pertinent.

7.6 **Inhibitor of Polymerization:** Not pertinent.

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available.

8.2 **Waterfowl Toxicity:** Data not available.

8.3 **Biological Oxygen Demand (BOD):** Data not available.

8.4 **Food Chain Concentration Potential.** None.

Health Hazard (Blue)	2
Flammability (Red)	1
Reactivity (Yellow)	2
	W

*First column refers to non-fire situation.

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Solid.

13.2 **Molecular Weight:** 222.27.

13.3 **Boiling Point at 1 atm.**
959°F = 515°C = 788°K.

13.4 **Freezing Point.** 527°F = 275°C = 548°K.

13.5 **Critical Temperature.** Not pertinent.

13.6 **Critical Pressure.** Not pertinent.

13.7 **Specific Gravity:** 2.03 at 26°C (solid).

13.8 **Liquid Surface Tension.** Not pertinent.

13.9 **Liquid-Water Interfacial Tension.** Not pertinent.

13.10 **Vapor (Gas) Specific Gravity:** Not pertinent.

13.11 **Ratio of Specific Heats of Vapor (Gas).** Not pertinent.

13.12 **Latent Heat of Vaporization.**
184 Btu/lb = 102 cal/g = 4.27×10^5 J/kg.

13.13 **Heat of Combustion.** −10,900 Btu/lb = −6,050 cal/g = -253×10^5 J/kg.

13.14 **Heat of Decomposition.** Not pertinent.

13.15 **Heat of Solution.** (est.) −20 Btu/lb = −12 cal/g = -0.5×10^5 J/kg.

13.16 **Heat of Polymerization.** Not pertinent.

(Continued on page 5-443)

NOTES

REVISED 1978

PPR — PHOSPHORUS, RED

Common Synonyms: Amorphous phosphorus	Solid powder Sinks in water	Reddish brown	Odorless

Fire

FLAMMABLE
POISONOUS IRRITATING AND FLAMMABLE GASES ARE PRODUCED IN FIRE

Exposure

SOLID
Will burn eyes
Harmful if swallowed

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - high flammability
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Amorphous phosphorus
3 2 **Coast Guard Compatibility Classification.** Phosphorus elemental
3 3 **Chemical Formula:** P
3 4 **IMCO United Nations Numerical Designation:** 4 1 1338

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Solid
4 2 **Color:** Reddish brown
4 3 **Odor:** Odorless

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, gloves of rubber or vinyl, chemical safety glasses, rubber shoes
5 2 **Symptoms Following Exposure:** Physically irritating to eyes, otherwise essentially harmless and not toxic unless contaminated by highly toxic yellow phosphorus as an impurity
5 3 **Treatment for Exposure** EYES: flush thoroughly with water and get medical attention. SKIN: flush with water and wash with soap and water. CAUTION: *Avoid brushing as it can mix gentle material on skin or clothing*
5 4 **Toxicity by Inhalation (Threshold Limit Value)** Not pertinent
5 5 **Short-Term Inhalation Limits:** Not pertinent
5 6 **Toxicity by Ingestion.** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Nonvolatile
5 9 **Liquid or Solid Irritant Characteristics** Data not available

NOTES

REVISED 1978

PBR PHOSPHORUS TRIBROMIDE

Common Synonyms
Phosphorus bromide

Liquid Colorless to pale yellow Sharp, penetrating odor

Sinks and mixes violently with water

Fire

Not flammable
Irritating gases may be produced when heated

Exposure

LIQUID
Will burn skin and eyes.
If swallowed will cause nausea

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Issue warning corrosive air contaminant water contaminant
Restrict access
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Phosphorus bromide
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula** PBr3
3 4 **IMCO/United Nations Numerical Designation** 1808

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless or slightly yellow
4 3 **Odor:** Pungent sharp penetrating

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Acid gas canister type mask (full face type for emergency), chemical safety goggles, rubber gloves, clothing and safety shoes all made from rubber
5 2 **Symptoms Following Exposure:** Inhalation causes severe irritation of nose, throat and lungs. Ingestion causes burns of mouth and stomach. Contact with eyes or skin causes severe burns
5 3 **Treatment for Exposure** INHALATION remove victim to clear air, if necessary apply artificial respiration and or administer oxygen INGESTION dilute by drinking water, then neutralize with milk of magnesia, egg white, etc. do not use sodium bicarbonate EYES immediately flush with large amounts of water for at least 15 min SKIN immediately flush with large amounts of water, remove contaminated clothing
5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available
5 5 **Short-Term Inhalation Limits.** Data not available
5 6 **Toxicity by Ingestion.** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritan. Characteristics** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** Not flammable
6 2 **Flammable Limits in Air** Not flammable
6 3 **Fire Extinguishing Agents** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Do not use water on adjacent fires
6 5 **Special Hazards of Combustion Products:** Irritating hydrogen bromide and phosphoric acid vapors may form in fire
6 6 **Behavior in Fire** Acids formed by reaction with water will attack metals and generate flammable hydrogen gas which may form explosive mixtures in enclosed spaces
6 7 **Ignition Temperature.** Not pertinent
6 8 **Electrical Hazard** Not pertinent
6 9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts violently with water evolving hydrogen bromide an irritating and corrosive gas apparent as white fumes
7 2 **Reactivity with Common Materials.** In the presence of moisture, highly corrosive to most metals except lead and nickel
7 3 **Stability During Transport:** Unstable if heated
7 4 **Neutralizing Agents for Acids and Caustics** Flush with water and rinse with dilute aqueous sodium bicarbonate or soda ash
7 5 **Polymerization** Not pertinent
7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity** Data not available
8 3 **Biological Oxygen Demand (BOD).** Data not available

(Continued on next page)

NOTES

PPT

PHOSPHORUS TRICHLORIDE

Common Synonyms

Liquid | Colorless to slightly yellow | Sharp irritating odor

Fumes in air | sinks and reacts with water | Harmful vapor is produced

Fire

Not flammable

Exposure

VAPOR
Irritating to eyes, nose and throat
Harmful if inhaled

LIQUID
Will burn skin and eyes
Poisonous if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - corrosive
Restrict access
Disperse and flush with care

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula.** PCl_3

3 4 **IMCO/United Nations Numerical Designation.** NO 1809

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid

4 2 **Color:** Colorless to slightly yellow

4 3 **Odor:** Pungent, irritating, like HCl and chloric acid

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Chemical safety goggles, plastic face shield, self-contained or air line respirator, safety hat, rubber gloves and protective clothing

5 2 **Symptoms Following Exposure:** Vapor causes severe irritation of eyes and respiratory tract. Liquid burns eyes and skin.

5 3 **Treatment for Exposure:** *CAUTION: Persons doing treatment should protect themselves.* INHALATION: remove victim from contaminated area; if breathing has stopped, start artificial respiration; call a doctor. INGESTION: if victim is conscious, give large quantities of water; do NOT induce vomiting; call a doctor. EYES: retract eyelids and wash eye with water for at least 15 min.; call a doctor. SKIN: remove contaminated clothing and wash exposed skin with water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.5 ppm

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion:** Grade 2, oral rat LD_{50} = 550 mg/kg

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics:** Vapor causes severe irritation of eyes and nose and can cause eye and lung injury. Effects cannot be incriminated even at low concentrations.

5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and is severely injurious to the eyes.

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Non-flammable

6 2 **Flammable Limits in Air:** Non-flammable

6 3 **Fire Extinguishing Agents:** Sand, carbon dioxide and dry chemicals on adjacent fires

6 4 **Fire Extinguishing Agents Not to be Used:** Water

6 5 **Special Hazards of Combustion Products:** Not pertinent

6 6 **Behavior in Fire.** Generates toxic heating gases

6 7 **Ignition Temperature:** Not flammable

6 8 **Electrical Hazard.** Not pertinent

6 9 **Burning Rate:** Non-flammable

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts violently and may cause flashes of fire. Hydrochloric acid fumes are formed in the reaction.

7 2 **Reactivity with Common Materials:** Corrodes most common construction material. Reacts with water to form hydrochloric acid which reacts with most metals to form flammable hydrogen gas.

7 3 **Stability During Transport.** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Flush with water, neutralize acids formed with lime or soda ash.

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available. See 5.6

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD)** None

8 4 **Food Chain Concentration Potential** None

Cal per mole per °mole

NOTES

REVISED 1978

PAN	# PHTHALIC ANHYDRIDE

Common Synonyms
Phthalic acid anhydride
PAN

Solid flakes or liquid (heated) | Colorless or pale yellow | Choking odor

Solid sinks in water; liquid solidifies and sinks in water

Fire

Combustible

Exposure

DUST
Irritating to eyes, nose, and throat
If inhaled, will cause coughing

LIQUID OR SOLID
Will burn skin or eyes
Harmful if swallowed

Water Pollution

Effect of low concentration on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Dispose and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1,2-Benzenedicarboxylic acid anhydride; 1,3-Dioxophthalan; PAN; Phthalandione; Phthalic acid anhydride

3.2 **Coast Guard Compatibility Classification:** Organic anhydride

3.3 **Chemical Formula:** $C_8H_4O_3$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid (flakes) or liquid

4.2 **Color:** Colorless or pale yellow

4.3 **Odor:** Characteristic choking odor; irritating acrid

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Coveralls and/or rubber apron; rubber shoes or boots; chemical goggles and/or face shield; Bureau of Mines organic vapor respirator (Type C) for gauntlet type leather or rubber gloves

5.2 **Symptoms Following Exposure:** Solid irritates skin and eyes, causing coughing and sneezing. Liquid causes severe thermal burns.

5.3 **Treatment for Exposure:** INHALATION: gargle with water and use a sedative cough mixture. INGESTION: induce vomiting and give water, milk, or vegetable oil. SKIN OR EYE CONTACT: Flush with water for at least 5 min. If burned by molten material, remove as much solid as possible; wash off the remainder in cold water and then treat the burn.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 2 ppm

5.5 **Short-Term Inhalation Limits:** 4 ppm for 5 min

5.6 **Toxicity by Ingestion:** Grade 2; LD$_{50}$: 0.5 to 5 g/kg (rats)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations

5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the eyes and first degree burns on short exposure; may cause secondary burns on long exposure

5.10 **Odor Threshold:** 0.33 - 0.72 mg/m^3

6 FIRE HAZARDS

6.1 **Flash Point:** 329°F (O.C.); 305°F (C.C.)

6.2 **Flammable Limits in Air:** 1.7 - 10.5%

6.3 **Fire Extinguishing Agents:** Water fog, dry chemical, carbon dioxide, or foam

6.4 **Fire Extinguishing Agents Not to be Used:** Water may cause frothing

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 1098°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Solid has very slow reaction; no hazard. Liquid spatters when in contact with water

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Water and sodium bicarbonate

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** None

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** > Stoppers 96 hr TL$_m$ (flathead minnow) 12 ppm fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** 1060 % 5 days

8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

PPZ

PIPERAZINE

Common Synonyms
Hexahydro-1 4-diazine
Hexahydropyrazine
Diethylenediamine
Lumbrical
Piperazidine
Pyrazine hexahydride

Solid | White | Mild fishy odor

Sinks and mixes with water

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Will burn eyes
Irritating to eyes.
If swallowed will cause nausea and vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Disperse and flash

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Diethylenediamine Hexahydro-1 4-diazine, Hexahydropyrazine Lumbrical Piperazidine, Pyrazine hexahydride

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula.** $NHCH_2CH_2NHCH_2CH_2$

3 4 **IMCO/United Nations Numerical Designation.** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White

4 3 **Odor:** Mild amine like

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Monogoggles or face shield rubber gloves dust mask

5 2 **Symptoms Following Exposure:** Inhalation of dust irritates nose and throat Ingestion causes irritation of mouth and stomach, has been known to cause severe allergic reaction Contact with eyes causes burns Repeated contact with skin may cause irritation and sensitization

5 3 **Treatment for Exposure:** INHALATION move to fresh air INGESTION give large amount of water induce vomiting get medical attention EYES flush with plenty of water for at least 15 min get medical attention SKIN wash with soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion:** Grade 2 LD50 0 5 g kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Data not available

5 9 **Liquid or Solid Irritant Characteristics.** Data not available

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 295°F O C (molten solid)

6 2 **Flammable Limits in Air:** Not pertinent

6 3 **Fire Extinguishing Agents.** Water dry chemical alcohol foam carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may cause flashing

6 5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fires

6 6 **Behavior in Fire:**

6 7 **Ignition Temperature:** 311°F

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials.** May be corrosive to aluminum magnesium and zinc

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Flush with water

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

PCB — POLYCHLORINATED BIPHENYL

Common Synonyms PCB Chlorinated biphenyl Aroclor	Oily liquid to solid powder Light yellow liquid or white powder Weak odor Sinks in water
Fire	Combustible
Exposure	LIQUID OR SOLID Irritating to skin and eyes
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-1

Isolate spill or leak area immediately. Notify persons downwind of spill or leak. Keep unnecessary people away; stay upwind. Ventilate closed spaces before entering. Wear self-contained breathing apparatus and rubber protective clothing. Stop leak if you can do it without risk. Prevent entry into waterways, sewers, basements or confined areas. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Use clean, non-sparking tools to collect absorbed material. Large Spills: Dike far ahead of liquid spill for later disposal. Water spray may reduce vapor; but may not prevent ignition in closed spaces. Drain and flush with water.

2. LABELS

No hazard label required by DOT. Coast Guard Regulations require "Poison" label.

3 CHEMICAL DESIGNATIONS

- 3.1 **Synonyms:** Aroclor, Chlorinated biphenyl, Halogenated aromatic, PCB, Polychlorobiphenyls
- 3.2 **Coast Guard Compatibility Classification.** Not applicable
- 3.3 **Chemical Formula:** $C_{12}H_{(10-n)}Cl_n$
- 3.4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

- 4.1 **Physical State (as shipped):** Liquid or solid
- 4.2 **Color:** Pale yellow (liquid) to white (solid)
- 4.3 **Odor:** Practically odorless

5 HEALTH HAZARDS

- 5.1 **Personal Protective Equipment.** Gloves and protective garments
- 5.2 **Symptoms Following Exposure:** Acne-form eruptions
- 5.3 **Treatment for Exposure:** SKIN: wash with soap and water
- 5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.5 to 1.0 mg/m³
- 5.5 **Short-Term Inhalation Limits.** Data not available
- 5.6 **Toxicity by Ingestion:** Grade 2, oral rat LD_{50} = 1010 mg/kg
- 5.7 **Late Toxicity:** Causes chromosomal abnormalities in rats, birth defects in birds
- 5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and cause eye and lung injury. They cannot be tolerated even at low concentrations
- 5.9 **Liquid or Solid Irritant Characteristics.** Contact with skin may cause irritation
- 5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

- 6.1 **Flash Point:** >286°F
- 6.2 **Flammable Limits in Air:** Data not available
- 6.3 **Fire Extinguishing Agents:** Water, dry chemical or carbon dioxide
- 6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
- 6.5 **Special Hazards of Combustion Products.** Irritating and poisonous gases produced
- 6.6 **Behavior in Fire:** Not pertinent
- 6.7 **Ignition Temperature:** Data not available
- 6.8 **Electrical Hazard:** Not pertinent
- 6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** No reaction
- 7.2 **Reactivity with Common Materials:** No reaction
- 7.3 **Stability During Transport:** Stable
- 7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent
- 7.5 **Polymerization.** Not pertinent
- 7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

- 8.1 **Aquatic Toxicity:** 0.23 ppm/96 hours / Flow-through / Fresh water; 0.140 ppm/96 hours / Flow-through / Salt water
- 8.2 **Waterfowl Toxicity:** LD₅₀ 5 gm/kg or mg/kg/day
- 8.3 **Biological Oxygen Demand (BOD).** None
- 8.4 **Food Chain Concentration Potential.** High

9 SELECTED MANUFACTURERS

Monsanto Industrial Chemicals Co.
800 North Lindbergh Blvd.
St. Louis, Missouri

10 SHIPPING INFORMATION

- 10.1 **Grades or Purity:** Technical grade is a mixture of several chlorinated biphenyls primarily the tetra-, penta-, and hexa-chlorobiphenyl. Mixtures by weight
- 10.2 **Storage Temperature:** Ambient
- 10.3 **Inert Atmosphere:** No requirement
- 10.4 **Venting.** Open

NOTES

REVISED 1978

PPI — POLYMETHYLENE POLYPHENYL ISOCYANATE

Common Synonyms			
PAPI	Liquid	Dark brown	Weak odor
	Sinks in water		

Fire

Combustible
Containers may explode in fire

Exposure

LIQUID
POISONOUS IF SWALLOWED
Irritating to skin and eyes

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Issue warning: poison, water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2 LABEL

POISON

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** PAPI

3.2 **Coast Guard Compatibility Classification:** Isocyanate

3 **Chemical Formula:** $C_8H_6NOCH_2C_6H_3NCO$ and polymer

3.4 **IMCO/United Nations Numerical Designation.** None

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Dark brown

4.3 **Odor:** Very weak

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Avoid contact. Wear chemical cartridge mask, goggles, face shield, rubber gloves and chemical protective clothing.

5.2 **Symptoms Following Exposure:** Inhalation causes headache, shortness of breath and reduced pulmonary function, wheezing, cough and sputum production. Contact with eyes irritates eyes and skin. Ingestion causes gastrointestinal upset and death.

5.3 **Treatment for Exposure:** *Get medical attention immediately for all exposures to this compound.* INHALATION: remove victim to fresh air and clear throat and respiratory passages; oxygen can be given by qualified personnel if victim is not breathing. If victim has stopped breathing, give artificial respiration. Three to eight hours may be required. EYES: immediately wash with large amounts of water, at least 5 min. SKIN: flush immediately with water, remove contaminated clothing, shoes and leather goods and wash skin with soap and water. INGESTION: induce vomiting at least 3 times by giving water and then tablespoon of salt per cup. Follow with aqueous suspension of activated charcoal. Treat as indicated.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.02 ppm

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion.** Grade III. LD_{50} = 2.2 g/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Vapor is considered irritating such that personnel will not usually tolerate moderate or high vapor exposures.

5.9 **Liquid or Solid Irritant Characteristics.** Causes smarting of the skin and first degree burns on short exposure; may cause second-degree burns on prolonged exposure.

Odor Threshold: Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 405°F COC

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents.** Dry chemical or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used.** Not pertinent

6.5 **Special Hazards of Combustion Products.** Not pertinent

6.6 **Behavior in Fire:** Containers may explode

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts to form heavy solid and liberates carbon dioxide gas. Dangerous pressures can build up if container is sealed.

7.2 **Reactivity with Common Materials.** Not hazardous reaction when mixed with wet

7.3 **Stability During Transport:** Stable if kept sealed and dry

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)** Data not available

8.4 **Food Chain Concentration Potential** None

13.15 Heat of Solution: [illegible]

13.16 Heat of Polymerization: [illegible]

[illegible]

NOTES

REVISED 1978

PLP	**POLYPROPYLENE**

Common Synonyms			
Propene polymer	Solid	Tan to white	Odorless
	Floats on water		

Fire	Combustible
Exposure	DUST Not harmful SOLID Not harmful
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Manual, Spill Control Actions

Mechanical containment

2 LABELS

No hazard labels required by U.S. Coast Guard, Federal Register, 1965

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Propene polymer

3.2 **Coast Guard Compatibility Classification:** Inert

3.3 **Chemical Formula:** $(C_3H_6)_n$ where n is large

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** Translucent white

4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Eye goggles

5.2 **Symptoms Following Exposure:** No adverse effects

5.3 **Treatment for Exposure:** None required

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** Cancer studies have not been performed on this material

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent (combustible solid)

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:**

6.6 **Behavior in Fire:**

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Not reactive

7.2 **Reactivity with Common Materials:**

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** None

8.2 **Waterfowl Toxicity:** None

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

12 HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:** Not listed

12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

12.3 **NFPA Hazard Classifications:** Not rated

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Solid

13.2 **Molecular Weight:** Mixture

13.3 **Boiling Point at 1 atm:** Not pertinent (decomposes)

13.4 **Freezing Point:** Not pertinent

13.5 **Critical Temperature:** Not pertinent

13.6 **Critical Pressure:** Not pertinent

13.7 **Specific Gravity:** 0.90 at 20°C (water)

13.8 **Liquid Surface Tension:** Not pertinent

13.9 **Liquid-Water Interfacial Tension:** Not pertinent

13.10 **Vapor (Gas) Specific Gravity:** Not pertinent

13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent

13.12 **Latent Heat of Vaporization:** Not pertinent

13.13 **Heat of Combustion:** (Solid) -19,900 Btu/lb = -11,060 cal/g = -463.0 kJ/mole

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

(Continued on page 2 and 3)

NOTES

PGC POLYPROPYLENE GLYCOL

Common Synonyms Polyoxypropylene glycol Polyoxypropylene glycol Pluriol polyol	Liquid May float or sink in water	Colorless	Odorless or mild sweet odor

Fire	Combustible
Exposure	LIQUID Irritating to eyes Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-6)

Issue warning - water contaminant
Mechanical containment
Should be removed
Disperse and flush

2 LABELS

No label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Polyoxypropylene glycol Polyoxypropylene ether PPG Pluriol polyol Polypropylene glycols P400 to P4000 Thanol PPG

3 2 **Coast Guard Compatibility Classification** Alcohols (6)

3 3 **Chemical Formula** $HOCH(CH_3)CH_2O[CH(CH_3)CH_2O]_nH$ n averages 2 – 68

Continued on page 4

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid

4 2 **Color** Color varies clear lights colored

4 3 **Odor** None slight sweet faint ether like

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Safety glasses or face shield rubber gloves

5 2 **Symptoms Following Exposure** The compound has very low toxicity few if any symptoms will be observed Contact of liquid with eyes causes slight transient pain and irritation similar to that caused by a mild soap

5 3 **Treatment for Exposure** EYES flush with water until mild irritation is gone

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits** Not pertinent

5 6 **Toxicity by Ingestion** (depends on molecular wt)
Grade 1 oral LD_{50} 5 150 mg/kg (rats)
Grade 1 LD_{50} 5 1 5 g/kg
Grade 0 $LD_{50} > 15$ g/kg

5 7 **Late Toxicity** Data not available

5 8 **Vapor (Gas) Irritant Characteristics** Data not available

5 9 **Liquid or Solid Irritant Characteristics** Data not available

5 10 **Odor Threshold.** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point** 300 495 F O C

6 2 **Flammable Limits in Air** Not pertinent

6 3 **Fire Extinguishing Agents** Water dry chemical foam carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6 5 **Special Hazards of Combustion Products** Not pertinent

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature** Data not available

6 8 **Electrical Hazard** Not pertinent

6 9 **Burning Rate** Data not available

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials.** No reaction

7 3 **Stability During Transport** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization** not pertinent

7 6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity.** Data not available

8 2 **Waterfowl Toxicity** Data not available

8 3 **Biological Oxygen Demand (BOD)** Data not available

8 4 **Food Chain Concentration Potential** Data not available

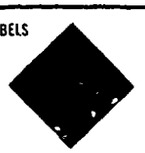
NOTES

REVISED 1978

PTM	POTASSIUM, METALLIC

Common Synonyms	Solid	Silver white	Odorless
	Reacts violently with water Flammable gas is produced		

Fire	Combustible IGNITES WHEN EXPOSED TO WATER OR MOISTURE Flammable gas is produced on contact with water
Exposure	SOLID Will burn skin and eyes
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes



1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
corrosive
Restrict access
Disperse and flush

2. LABELS

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula.** K
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Silvery white
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Goggles or face shield rubber gloves
5 2 **Symptoms Following Exposure:** Contact with eyes or skin causes severe burn
5 3 **Treatment for Exposure:** EYES or SKIN: flush with water; treat caustic burns
5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available
5 5 **Short-Term Inhalation Limits:** Not pertinent
5 6 **Toxicity by Ingestion.** Not pertinent
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics.** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Not pertinent

6. FIRE HAZARDS

6 1 **Flash Point.** Not pertinent (combustible solid)
6 2 **Flammable Limits in Air.** Not pertinent
6 3 **Fire Extinguishing Agents** Graphite sand sodium chloride
6 4 **Fire Extinguishing Agents Not to be Used** Water foam carbon dioxide or halogenated hydrocarbons
6 5 **Special Hazards of Combustion Products**
6 6 **Behavior in Fire.** Reacts violently with water forming flammable and explosive hydrogen gas May ignite spontaneously in air
6 7 **Ignition Temperature** Data not available
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts violently to form flammable hydrogen gas and a strong caustic solution
7 2 **Reactivity with Common Materials:** May ignite combustible materials if they are dry
7 3 **Stability During Transport:** Stable if protected from air and moisture
7 4 **Neutralizing Agents for Acids and Caustics** Caustic formed by reaction with water should be flushed with water; then area can be rinsed with dilute acetic acid
7 5 **Polymerization.** Not pertinent
7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity** 80 ppm/24 hr mosquito fish 11 m fresh water
8 2 **Waterfowl Toxicity** Data not available
8 3 **Biological Oxygen Demand (BOD).** None
8 4 **Food Chain Concentration Potential** none

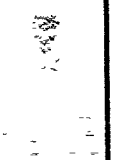
NOTES

PAS POTASSIUM ARSENATE



Common Synonyms
Macquer's Salt
Potassium acid arsenate
Potassium dihydrogen arsenate

Solid | White | Odorless

Mixes with water

Fire

Not flammable

DUST
POISONOUS IF INHALED OR SWALLOWED
Irritating to eyes, nose and throat

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446 4)

Issue warning, poison water contaminant
Restrict access
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Macquer's salt, Potassium acid arsenate, Potassium dihydrogen arsenate

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** KH_2AsO_4

3 4 **IMCO/United Nations Numerical Designation:** 6 1 1677

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Solid

4 2 **Color.** White

4 3 **Odor** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Dust respirator, rubber gloves

5 2 **Symptoms Following Exposure:** Dust may irritate eyes. Ingestion or severe exposure by inhalation can cause burning of throat and mouth, abdominal pain, vomiting, diarrhea with hemorrhage, dehydration, jaundice, and collapse

5 3 **Treatment for Exposure** EYES: flush with water to remove dust. INGESTION: immediately induce vomiting of intestinal tract by inducing vomiting, using gastric lavage and saline, cathartic, see physician at once, consider possible development of arsenic poisoning.

5 4 **Toxicity by Inhalation (Threshold Limit Value).** 0.5 mg/m³ (as arsenic)

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion** Data not available

5 7 **Late Toxicity:** May be carcinogenic, arsenic poisoning may develop

5 8 **Vapor (Gas) Irritant Characteristics** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

NOTES

PCR — POTASSIUM CHLORATE

Common Synonyms
Potcrate
Chlorate of potassium
Chlorate of potash

Solid | White | Odorless

Mixes with water

Fire

Not flammable
May cause fire on contact with combustibles
POISONOUS GASES ARE PRODUCED IN FIRE

Exposure

DUST
Irritating to eyes nose and throat

SOLID
Irritating to skin and eyes
If swallowed will cause nausea vomiting or loss of consciousness

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning on drinking material
water contaminant
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Chlorate of potash
Chlorate of potassium potcrate

3 2 **Coast Guard Compatibility Classification.** Not applicable

3 3 **Chemical Formula.** $KClO_3$

3 4 **IMCO/United Nations Numerical Designation.** No 1485

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Solid

4 2 **Color** White

4 3 **Odor** None

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment** Dust mask rubber gloves goggles protective clothing to prevent contact with skin

5 2 **Symptoms Following Exposure** Inhalation of dust can irritate nose and throat Contact with eyes or skin causes irritation Ingestion causes abdominal pain nausea vomiting convulsions collapse

5 3 **Treatment for Exposure** EYES flush with water for at least 15 min SKIN wash with soap and water INGESTION dilute by drinking soaps or salty water to induce vomiting Get physician

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion** Grade 2 LD$_{50}$ 0 5 to 5 g kg

5 7 **Late Toxicity** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Data not available

5 9 **Liquid or Solid Irritant Characteristics** Data not available

5 10 **Odor Threshold** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point** Not flammable but may cause fire upon contact with combustibles

6 2 **Flammable Limits in Air** Not pertinent

6 3 **Fire Extinguishing Agents** Water on adjacent fires

6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6 5 **Special Hazards of Combustion Products.** Toxic fumes are formed in fires

6 6 **Behavior in Fire** Decomposes when hot to form oxygen which increases severity of fire

6 7 **Ignition Temperature** Not pertinent

6 8 **Electrical Hazard.** Not pertinent

6 9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water** No reaction

7 2 **Reactivity with Common Materials** Contact with combustible material may cause fire

7 3 **Stability During Transport** Stable

7 4 **Neutralizing Agents for Acids and Caustics** Not pertinent

7 5 **Polymerization** Not pertinent

7 6 **Inhibitor of Polymerization** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity.** Data not available

8 2 **Waterfowl Toxicity** Data not available

8 3 **Biological Oxygen Demand (BOD)** None

8 4 **Food Chain Concentration Potential** None

Continued on page 5 and 6

NOTES

PCH	# POTASSIUM CHROMATE

Common Synonyms
Potassium chromate (VI)
Neutral potassium chromate

Solid — Bright yellow — Odorless

Sinks and mixes with water

Fire

Not flammable
Will increase the intensity of a fire
May cause fire on contact with combustibles

Exposure

DUST
Irritating to eyes nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
If swallowed will cause nausea vomiting or loss of consciousness

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-6)

Disperse and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Neutral potassium chromate Potassium chromate (VI)
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula** K_2CrO_4
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Solid
4 2 **Color:** Bright yellow
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Bur. of Mines approved filter type respirator, chemical safety goggles, rubber boots and apron, safety hat, face shield.

5 2 **Symptoms Following Exposure** Inhalation causes local irritation of mucous membranes continuing nose irritation can result in perforation of nasal septum. Ingestion may cause violent gastroenteritis, circulatory collapse, vertigo, coma and toxic nephritis; ingestion of excessive quantities can be fatal. Contact with eyes causes severe irritation and conjunctivitis. Repeated or prolonged exposure to dust, mist or solutions may cause dermatitis; contact with breaks in the skin may cause chrome sore, appearing as slow healing hard raised ulcers which leave the area vulnerable to infection.

5 3 **Treatment for Exposure** INHALATION move to fresh air. INGESTION give large amounts of water, induce vomiting, treat for peripheral vascular shock, gotten to get medical attention. EYES flush with water for at least 15 min., get medical attention. SKIN flush with water if irritation persists, get medical attention.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.1 mg/m³ as K_2CrO_4
5 5 **Short-Term Inhalation Limits** Data not available
5 6 **Toxicity by Ingestion** Grade 3 LD_{50} 50-500 mg/kg
5 7 **Late Toxicity:** Lung cancer may occur
5 8 **Vapor (Gas) Irritant Characteristics** Data not available
5 9 **Liquid or Solid Irritant Characteristics** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** Not flammable but may stress fire
6 2 **Flammable Limits in Air** Not flammable
6 3 **Fire Extinguishing Agents:** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent
6 5 **Special Hazards of Combustion Products.** Not pertinent
6 6 **Behavior in Fire** May increase intensity of fire if in contact with combustible materials. Coat containers and piled materials with plenty of water.
6 7 **Ignition Temperature** Not pertinent
6 8 **Electrical Hazard** Not pertinent
6 9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** In contact with combustible materials may cause fire
7 3 **Stability During Transport.** Stable
7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:**
48-96ppm 96-hr fathead minnow TL_m soft water
1-5ppm* silver salmon, toxic salt water
*Time period not specified
8 2 **Waterfowl Toxicity** Data not available
8 3 **Biological Oxygen Demand (BOD).** None
8 4 **Food Chain Concentration Potential:** Plants can absorb compound from water and pass it on up the food chain. Bioconcentrative up to 2,000 fold. Not likely to be a problem in a spill situation.

NOTES

PTC

POTASSIUM CYANIDE

Common Synonyms	Solid crystals	White	Almond odor
	Sinks and mixes with water		

Fire	Not flammable
Exposure	DUST POISONOUS IF INHALED OR IF SKIN IS EXPOSED SOLID POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED Irritating to eyes
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, Guide 4

Isolate spill area
Ventilate area
Evacuate area
Chemical reaction not violent

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Cyanide

3.2 **Coast Guard Compatibility Classification** Not applicable

3.3 **Chemical Formula** KCN

3.4 **IMCO United Nations Numerical Designation:** 1680

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Solid

4.2 **Color:** White

4.3 **Odor:** Like bitter almonds or peach pits

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Wear clothing as specified in S.R. Guide Manual provided. Keep away from heat and flame. When handling, keep container closed. Wash hands and face thoroughly after handling.

5.2 **Symptoms Following Exposure:** Inhalation of dust or ingestion of solid or solution may be fatal. Dust irritating to eyes, nose and throat. Solution on skin may be absorbed in poisonous amounts. Solution irritating to skin. Symptoms of exposure may include weakness, headache, confusion, nausea, vomiting, shortness of breath, collapse, convulsions, coma.

5.3 **Treatment for Exposure:** INGESTION: Induce vomiting by giving 2 glasses of water and finger down throat. Repeat. If conscious, give 1 teaspoon sodium thiosulfate in water. Repeat. Call physician immediately. Keep patient warm and quiet. Do not induce vomiting if patient is unconscious, convulsing or having severe spasms. INHALATION: Remove victim to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call physician immediately. SKIN: Wash with soap and water. Remove contaminated clothing and shoes. EYES: Wash with plenty of water for at least 15 minutes. Call physician immediately.

* Emergency personnel should avoid direct contact and breathing the vapors. Wear self-contained breathing apparatus.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** No data

5.5 **Short-Term Inhalation Limits.** No data

5.6 **Toxicity by Ingestion:** Grade 4 (Extremely hazardous)

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** Not flammable

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not flammable

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** When potassium cyanide dissolves in water a mild reaction occurs and some poisonous hydrogen cyanide gas is released. This gas is not hazardous except in an enclosed space. If the water is acidic, however, toxic amounts of the gas will form at once.

7.2 **Reactivity with Common Materials.** Contact with even weak acids causes formation of deadly hydrogen cyanide gas.

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 96-hr ppm TLm/96 hrs. Bluegill: 0.49 ppm 48-hr TLm/96 hrs. saltwater

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)** 0% of theoretical in 7 days

8.4 **Food Chain Concentration Potential:** None

13.16 **Heat of Polymerization:** Not pertinent

5 HEALTH HAZARDS (Cont'd.)

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Solutions may be moderately irritating to eyes and skin. Dust irritating to eyes, nose and throat.

5.9 **Liquid or Solid Irritant Characteristics.** Moderately irritating to eyes, nose and throat. Solutions may cause dermatitis upon prolonged contact with skin.

5.10 **Odor Threshold:** No data

REVISED 1978

PDT	POTASSIUM DICHLORO-s-TRIAZINETRIONE

Common Synonyms

Potassium dichloroisocyanurate

Solid White Chlorine-like odor

Mixes with water

Fire

Not flammable
May cause fire on contact with combustibles
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Issue warning - oxidizing material in water contaminant
Restrict access
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Potassium dichloroisocyanurate

3.2 **Coast Guard Compatibility Classification** Not applicable

3.3 **Chemical Formula:** $KC_3N_3O_3Cl_2$

3 CHEMICAL DESIGNATIONS

3.1 Synonyms: None
3.2 Coast Guard Compatibility Classification: Not applicable
3.3 Chemical Formula: KI
3.4 IMCO United Nations Numerical Designation: None

4 OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped): Solid
4.2 Color: White
4.3 Odor: Odorless

5 HEALTH HAZARDS

5.1 Personal Protective Equipment: Gloves, goggles
5.2 Symptoms Following Exposure: May be harmful if swallowed
5.3 Treatment for Exposure: Induce vomiting if swallowed
5.4 Toxicity by Inhalation (Threshold Limit Value): None
5.5 Short-Term Inhalation Limits: None
5.6 Toxicity by Ingestion: Harmful if swallowed
5.7 Late Toxicity: Data lacking
5.8 Vapor (Gas) Irritant Characteristics: None
5.9 Liquid or Solid Irritant Characteristics: None
5.10 Odor Threshold: None

6 FIRE HAZARDS

6.1 Flash Point: None
6.2 Flammable Limits in Air: None
6.3 Fire Extinguishing Agents: None
6.4 Fire Extinguishing Agents Not to be Used: None
6.5 Special Hazards of Combustion Products: None
6.6 Behavior in Fire: None
6.7 Ignition Temperature: None
6.8 Electrical Hazard: None
6.9 Burning Rate: None

7 CHEMICAL REACTIVITY

7.1 Reactivity with Water: None
7.2 Reactivity with Common Materials: Corrosive to aluminum, copper, lead, mercury, and their alloys
7.3 Stability During Transport: Stable
7.4 Neutralizing Agents for Acids and Caustics: Not pertinent
7.5 Polymerization: Not pertinent
7.6 Inhibitor of Polymerization: None

8 WATER POLLUTION

8.1 Aquatic Toxicity: Data lacking
8.2 Waterfowl Toxicity: Data lacking
8.3 Biological Oxygen Demand (BOD): None
8.4 Food Chain Concentration Potential: None

NOTES

PTS

POTASSIUM OXALATE

Common Synonyms			
Potassium oxalate monohydrate	Solid	White	Odorless
	Sinks and mixes with water		

Fire	Not flammable
Exposure	DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing SOLID POISONOUS IF SWALLOWED Irritating to skin and eyes If swallowed will cause nausea, vomiting or loss of consciousness
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Issue warning. Isolate contaminated area.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Potassium oxalate monohydrate

3.2 **Coast Guard Compatibility Classification.** Not listed

3.3 **Chemical Formula:** $K_2C_2O_4 \cdot H_2O$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Solid

4.2 **Color:** Colorless

4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Approved respirator, chemical safety goggles, rubber gloves, rubber boots, and rubber clothing.

5.2 **Symptoms Following Exposure:** Inhalation of dust can cause irritation to the nose and throat. Ingestion can cause burning pain in the throat, esophagus, and stomach, corrosion of these membranes, nausea, vomiting, severe prostration, weak pulse and cardiovascular collapse may occur. Death may occur from neuromuscular symptoms developing. Contact with eyes may cause irritation.

5.3 **Treatment for Exposure:** For victims of INHALATION remove victim from further exposure. Give artificial respiration if victim is not breathing. If victim is conscious and not severely prostrated give 1 tbsp. calcium lactate in a glass of water. Repeat in a few minutes. For large amounts of dust, do not induce vomiting. Have victim rinse mouth with water, then drink 1 or 2 glasses of water. Call a physician immediately. If victim is conscious and not severely prostrated, induce vomiting by touching back of throat with finger or by giving a tablespoonful of mustard in a glass of warm water. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person. Call a physician immediately. For victims of EYE CONTACT flush eyes with water for 15 minutes. Call a physician. For victims of SKIN CONTACT wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion** Not established. Moderately toxic.

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Odorless

6 FIRE HAZARDS

6.1 **Flash Point** Not applicable

6.2 **Flammable Limits in Air** Not flammable

6.3 **Fire Extinguishing Agents** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6.5 **Special Hazards of Combustion Products.**

6.6 **Behavior in Fire** Not flammable. Exposed containers may rupture from the heat of fire.

6.7 **Ignition Temperature** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water** Not reactive

7.2 **Reactivity with Common Materials**

NOTES

REVISED 1978

POP

POTASSIUM PEROXIDE

Common Synonyms			
Potassium superoxide	Solid (powder)	Yellow	Odorless
	Sinks and mixes violently with water		

Fire

Not flammable
Will increase the intensity of a fire
May cause fire on contact with combustibles

Exposure

DUST
Irritating to eyes nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Will burn skin and eyes.
If swallowed will cause nausea

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 448-4)

Issue warning oxidizing material
Restrict access
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Potassium superoxide
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula.** K_2O_4
3 4 **IMCO/United Nations Numerical Designation:** 5 1, 1491

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Powder
4 2 **Color:** Yellow
4 3 **Odor:** None

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles or face shield, protective gloves
5 2 **Symptoms Following Exposure.** Inhalation causes respiratory irritation Ingestion causes severe burns of mouth and stomach Contact with eyes or skin causes irritation and caustic burns
5 3 **Treatment for Exposure:** INHALATION remove from exposure support respiration
INGESTION give large amount of water do NOT induce vomiting get medical attention
EYES irrigate with large quantities of water for at least 15 min get medical attention for caustic burns SKIN flush with water, treat caustic burns
5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available
5 5 **Short-Term Inhalation Limits.** Data not available
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

Continued on page 5048-A

NOTES

PRP

PROPANE

Common Synonyms

Liquefied compressed gas. Colorless. Odorless—may have skunk odor added.

Liquid floats and boils on water. Flammable stable vapor cloud is produced.

Fire

FLAMMABLE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

SEE FORMULA AT TOP

VAPOR
Not irritating to eyes, nose or throat.
If inhaled, will cause dizziness, difficult breathing or loss of consciousness.

LIQUID
May cause frostbite.

DO NOT RUB AFFECTED AREA

Water Pollution

Not harmful to aquatic life.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook. CG 446-4)

Issue warning: high flammability.
Restrict access.
Evacuate area.

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Dimethylmethane

3 2 **Coast Guard Compatibility Classification:** Paraffin

3 3 **Chemical Formula:** $CH_3CH_2CH_3$

3 4 **IMCO/United Nations Numerical Designation:** 2.0 1075

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquefied compressed gas

4 2 **Color:** Colorless

4 3 **Odor:** Faint gassy

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained breathing apparatus for high concentrations of gas.

5 2 **Symptoms Following Exposure:** Vaporizing liquid may cause frostbite. Concentrations in air greater than 10% cause dizziness in a few minutes. Higher concentrations give the same effect in 10 min. High concentrations cause asphyxiation.

5 3 **Treatment for Exposure:** Remove to open air. If victim is overcome by gas, apply artificial respiration. Guard against self-injury if confused.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 1000 ppm

5 5 **Short-Term Inhalation Limits.** Data not available.

5 6 **Toxicity by Ingestion.** Not pertinent.

5 7 **Late Toxicity:** None.

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors are not irritating to the eyes and throat.

5 9 **Liquid or Solid Irritant Characteristics.** No appreciable hazard. Practically harmless to the skin because it evaporates quickly.

5 10 **Odor Threshold.** 5000 - 20,000 ppm

6 FIRE HAZARDS

6 1 **Flash Point:** -156 F C C

6 2 **Flammable Limits in Air:** 2.1 - 9.5

6 3 **Fire Extinguishing Agents:** Stop flow of gas. For small fires use dry chemicals, CO2, halogenated agents, water spray.

6 4 **Fire Extinguishing Agents Not to be Used:** Water.

6 5 **Special Hazards of Combustion Products:** Not pertinent.

6 6 **Behavior in Fire:** Containers may explode. Vapor is heavier than air and may travel a long distance to source of ignition and flash back.

6 7 **Ignition Temperature:** 842 F

6 8 **Electrical Hazard:** Class I, Group D

6 9 **Burning Rate:** Not Given

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water.** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity.** None

8 2 **Waterfowl Toxicity.** None

8 3 **Biological Oxygen Demand (BOD).** None

8 4 **Food Chain Concentration Potential.** None

NOTES

REVISED 1978

PLT

beta-PROPIOLACTONE

Common Synonyms

beta Propiolactone
Betaprone
Propanolide
2 Oxetanone
Hydracrylic acid beta-lactone

Liquid | Colorless | Irritating odor

Mixes with water

Fire

Combustible
Containers may explode in fire

Exposure

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Irritating to skin and eyes.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

POISON

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Betaprone, Hydracrylic acid, beta-lactone, 2 Oxetanone, Propanolide, beta Propiolactone

3 2 **Coast Guard Compatibility Classification:** Monomers (14)

3 3 **Chemical Formula** OCH_2CH_2CO

3 4 **IMCO/United Nations Numerical Designation:** 6 1

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Pungent, acrid, irritating

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Air mask or organic canister mask, goggles or face shield, rubber gloves, protective clothing to prevent all contact with skin

5 2 **Symptoms Following Exposure:** Inhalation causes irritation of nose, throat, and respiratory tract. Contact of liquid with eyes causes irritation and tears. Contact with skin causes irritation and blistering. Ingestion causes burns of mouth and stomach.

5 3 **Treatment for Exposure:** *Get medical attention following all exposures to this compound.* INHALATION: move victim to fresh air; if breathing has stopped, give artificial respiration. EYES: flush continuously with water for at least 15 min. SKIN: flush with water; if blistering occurs, alert physician to fact that fluid from blister will cause additional blistering of adjacent skin. INGESTION: give large amount of water and induce vomiting.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.0 ppm. Because of the high incidence of cancer either in man or animals, no exposure or contact by any route (respiratory, oral or skin) should be permitted.

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 3, oral LD[1] = 50 mg/kg (rat)

5 7 **Late Toxicity:** Because of the high incidence of cancer either in man or animals, no exposure or contact by any route (respiratory, oral or skin) should be permitted.

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high concentrations.

5 9 **Liquid or Solid Irritant Characteristics:** Fairly severe skin irritant. May cause pain and second degree burns after a few minutes' contact.

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 165 F C.C.

6 2 **Flammable Limits in Air:** 2.9% (LEL)

6 3 **Fire Extinguishing Agents:** Water, dry chemical, foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products:** Vapors of unburned material are very toxic.

6 6 **Behavior in Fire:** Containers may explode

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Slow, non hazardous reaction to form beta hydroxy propionic acid

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Can polymerize and rupture container, especially at elevated temperatures. At 22 C, 0.04% polymerizes each day.

7 6 **Inhibitor of Polymerization:** None used

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** None

NOTES

PAD	PROPIONALDEHYDE

Common Synonyms
Propionaldehyde
Propionic aldehyde
Methyl acetaldehyde
Propanal
Propylic aldehyde

Liquid Colorless Suffocating unpleasant odor

Floats and mixes slowly with water Flammable irritating vapor is produced

Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause nausea or vomiting

LIQUID
Irritating to skin and eyes
Harmful if swallowed

IN EYES

Water Pollution

Effect of low concentrations on marine life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-4)

Issue warning - high flammability
Evacuate area

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Methylacetaldehyde, Propaldehyde, Propanal, Propionic aldehyde, Propylaldehyde

3 2 **Coast Guard Compatibility Classification** Aldehyde

3 3 **Chemical Formula:** C_3H_6O

3 4 **IMCO United Nations Numerical Designation:** 3 2 1275

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Pungent, unpleasant, suffocating

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Air supplied mask for high vapor concentrations, plastic gloves, goggles

5 2 **Symptoms Following Exposure:** Vapors will irritate eyes and throat and has caused nausea and vomiting. Liquid causes severe irritation

5 3 **Treatment for Exposure** INHALATION remove victim to fresh air, if not breathing give artificial respiration, if breathing is difficult call a physician EYES flush with plenty of water for at least 15 minutes and call a physician SKIN flush with water

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion.** Grade 3 LD$_{50}$ 0.5 to 5 g/kg rat

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics** Vapor causes moderate irritation with tearing of eyes and high concentrations cause pulmonary edema. The effect is temporary

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. Repeated or prolonged contact may cause defatting of the skin, which may lead to dermatitis

5 10 **Odor Threshold**

6 FIRE HAZARDS

6 1 **Flash Point** −22°F (−30°C)

6 2 **Flammable Limits in Air** 2.6% to 17.1%

6 3 **Fire Extinguishing Agents** Carbon dioxide or dry chemical for small fires, alcohol type foam for large fires

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products** Not pertinent

6 6 **Behavior in Fire:** Vapor is heavier than air and may travel considerable distance to source of ignition and flash back

6 7 **Ignition Temperature** 405°F (207°C)

6 8 **Electrical Hazard** Not applicable

6 9 **Burning Rate.** 4.4 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water** No reaction

7 2 **Reactivity with Common Materials** No reaction

7 3 **Stability During Transport.** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7 5 **Polymerization:** May occur in presence of acids or caustics

7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

NOTES

REVISED 1978

PNA	# PROPIONIC ACID

Common Synonyms
Propanoic acid
Ethanecarboxylic acid

Liquid Colorless Sharp rancid odor

Mixes with water. Irritating vapor is produced.

Fire

Combustible

Exposure

VAPOR
Irritating to eyes, nose and throat

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Dispense and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Ethanecarboxylic acid
Methylacetic acid
Propanoic acid

3.2 **Coast Guard Compatibility Classification:** Organic acid

3.3 **Chemical Formula:** CH_3CH_2COOH

3.4 **IMCO United Nations Numerical Designation:** NO 1848

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Sharp irritating slightly pungent rancid

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air supplied mask for high vapor concentrations. Plastic gloves, goggles or face shield.

5.2 **Symptoms Following Exposure:** Liquid causes skin and eye burns. Vapors may irritate eyes, nose and throat, but should not cause systemic illness.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air. INGESTION: have victim drink water or milk; do NOT induce vomiting. SKIN OR EYE CONTACT: immediately flush with plenty of water for at least 15 minutes; get medical care for eyes. Remove contaminated clothing.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 10 ppm

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion:** Grade 2, oral rat LD_{50} = 2.6 g/kg

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause mild eye irritation such that a normal individual can detect high concentrations unpleasant. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics.** Liquid severely irritates skin, causes pain and second degree burns after a few minutes' contact.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 134°F (57°C) (ASTM D 56)

6.2 **Flammable Limits in Air:** 2.9% (calc.) 14.8% (est.)

6.3 **Fire Extinguishing Agents:** Water, carbon dioxide, dry chemical or alcohol foam

NOTES

PAT

n-PROPYL ACETATE

Common Synonyms
Acetic acid n-propyl ester

Liquid | Colorless | Mild odor

Floats on water. Flammable. Irritating vapor is produced.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause nausea, vomiting, dizziness or loss of consciousness.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning; high flammability.
Evacuate area.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Acetic acid propyl ester
3.2 **Coast Guard Compatibility Classification:** Ester
3.3 **Chemical Formula:** $CH_3COOCH_2CH_2CH_3$
3.4 **IMCO United Nations Numerical Designation:** 1.2.12%

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Mild ester

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Air-supplied mask in chemical cartridge respirator; shield; protective gloves.
5.2 **Symptoms Following Exposure:** Contact with skin and eyes causes irritation. High vapor concentrations will be irritating and will cause nausea, vomiting and dizziness, with final loss of consciousness.
5.3 **Treatment for Exposure:** INHALATION: Remove victim to fresh air; give artificial respiration if breathing has stopped; give oxygen if breathing is difficult. SKIN: Wash with soap and water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 200 ppm
5.5 **Short-Term Inhalation Limits.** 200 ppm for 60 min
5.6 **Toxicity by Ingestion:** Grade 3. LD$_{50}$: 3 g/kg
5.7 **Late Toxicity:** None
5.8 **Vapor (Gas) Irritant Characteristics.** Vapors cause slight smarting of the eyes and respiratory system if present in high concentrations. The effect is temporary.
5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If left on skin and allowed to remain, may cause smarting and reddening of the skin.
5.10 **Odor Threshold:** 70 mg/m^3

6 FIRE HAZARDS

6.1 **Flash Point.** 55°F C.C. or 60°F O.C.
6.2 **Flammable Limits in Air:** 2.0% to 8.0%
6.3 **Fire Extinguishing Agents:** Carbon dioxide, water, dry chemical or regular foam or alcohol foam for large fires.
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective.
6.5 **Special Hazards of Combustion Products:** None known.
6.6 **Behavior in Fire:** No change.
6.7 **Ignition Temperature:** 842°F
6.8 **Electrical Hazard:** No data.
6.9 **Burning Rate:** Data not available.

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport.** Stable

NOTES

REVISED 1978

PAL

n-PROPYL ALCOHOL

Common Synonyms
Propyl alcohol
1-Propanol

Liquid | colorless | Alcohol odor

Mixes with water. Flammable. Irritating vapor is produced.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause nausea, dizziness or headache.

LIQUID
Will burn eyes.
Harmful if swallowed.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning. High flammability.
Dike and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** 1-Propanol
1-Propanol
Propyl alcohol

3.2 **Coast Guard Compatibility Classification:** Alcohol

3.3 **Chemical Formula:** $CH_3CH_2CH_2OH$

3.4 **IMCO United Nations Numerical Designation:** 12 1274

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Resembles that of ethyl alcohol

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air-supplied respirator for high concentrations; goggles or face shield; plastic gloves.

5.2 **Symptoms Following Exposure:** Contact with eyes vapor causes burning and may cause burns. Vapor irritates nose and throat. In high concentrations, may cause nausea, dizziness, headache and stupor.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air; call physician. SKIN OR EYE CONTACT: flush at once with plenty of water; get medical care for eyes.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 500 ppm

5.5 **Short-Term Inhalation Limits.** 400 ppm for 30 min.

5.6 **Toxicity by Ingestion:** Grade 2. Dangerous if taken.

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics.** Vapor causes eye burning. Exposure to vapor at concentrations greatly exceeding the TLV may cause lung damage. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to skin.

5.10 **Odor Threshold:** 30 ppm

6. FIRE HAZARDS

6.1 **Flash Point:** 59°F (O.C.) 77°F (C.C.)

6.2 **Flammable Limits in Air:** 2.1% - 13.5%

6.3 **Fire Extinguishing Agents.** Carbon dioxide or dry chemical for small fires; alcohol foam for large fires.

6.4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective.

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 700°F

6.8 **Electrical Hazard:** Class I, Group D

6.9 **Burning Rate.** 2.9 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7.5 **Polymerization:** Not pertinent.

7.6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 500 ppm/ 24 hr/ goldfish/ died/ fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD).** 0.47 LSlb lb/ 5 days

8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

PPL	# PROPYLENE

Common Synonyms
Propene
Methylethylene

Liquefied compressed gas — Colorless — Mild odor

Floats and boils on water. Flammable visible vapor cloud is produced.

Fire

FLAMMABLE
Container may explode in fire
Flashback along vapor trail may occur
May explode if ignited in an enclosed area

Exposure

VAPOR
If inhaled will cause dizziness or loss of consciousness

LIQUID
Will cause frostbite

Water Pollution

Not harmful to aquatic life

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Isolate hazard area. High flammability. Evacuate area.

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Methylethylene
Propene

3 2 **Coast Guard Compatibility Classification:** Group

3 3 **Chemical Formula:** $CH_3CH{=}CH_2$

3 4 **IMCO United Nations Numerical Designation:** 2.1/1077

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquefied gas

4 2 **Color:** Colorless

4 3 **Odor:** Mild odor

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Organic vapor canister or air supply, self-contained breathing apparatus should be used for escape. Chemical goggles.

5 2 **Symptoms Following Exposure:** Moderate concentrations cause dizziness and unconsciousness. Contact with liquid may cause frostbite.

5 3 **Treatment for Exposure:** INHALATION: remove victim to fresh air. If breathing has stopped, start resuscitation. give oxygen as indicated.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Unknown

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion:** Not pertinent

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors are mildly irritating when concentrated.

5 9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Prolonged contact may cause frostbite.

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** −162.2°C

6 2 **Flammable Limits in Air:** 2.0 - 11

6 3 **Fire Extinguishing Agents.** Stop flow of gas

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products.** Not pertinent

6 6 **Behavior in Fire:** Containers may explode. Vapor is heavier than air and can travel considerable distance. Flashback ignition and flashback.

6 7 **Ignition Temperature:** 497°C

6 8 **Electrical Hazard:** Class I Group D

6 9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport.** Stable

REVISED 1978

POX

PROPYLENE OXIDE

Common Synonyms
Methyloxirane
1, 2 Epoxypropane
Propene oxide

Liquid | Colorless | Sweet, alcohol odor

Mixes with water. Flammable, irritat[illegible] vapors produced

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose, and throat
If inhaled, will cause headache, nausea, vomiting, or loss of consciousness

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
Restrict access
Evacuate area

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms** 1,2 Epoxypropane
Methyloxirane
Propene oxide

3 2 **Coast Guard Compatibility Classification** Alkylene oxide

3 3 **Chemical Formula** CH_3CHCH_2O

3 4 **IMCO/United Nations Numerical Designation.** 3 1 1280

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Ethereal characteristic sweet alcoholic, like natural gas

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Air supplied mask; rubber or plastic gloves; vapor proof goggles

5 2 **Symptoms Following Exposure:** Inhalation may produce headache, nausea, vomiting, and unconsciousness; mild depression of central nervous system; lung irritation. Slightly irritating to skin but covered contact may cause burn. Very irritating to eyes

5 3 **Treatment for Exposure:** INHALATION: remove person to fresh air immediately, keep quiet and warm; call a physician; if breathing stops, start artificial respiration. SKIN OR EYE CONTACT: immediately flush with plenty of water for at least 15 min; immediately remove contaminated clothing; wash hands; [illegible] etc. to prevent confining product to skin; for eyes get medical attention

5 4 **Toxicity by Inhalation (Threshold Limit Value)** 100 ppm

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2 LD50 [illegible] to 5 gm/kg (rat)

5 7 **Late Toxicity.** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Vapor is moderately irritating such that personnel will not usually tolerate moderate or higher vapor concentrations

5 9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure; may cause secondary burns on long exposure

5 10 **Odor Threshold** 200 ppm

5. FIRE HAZARDS

6 1 **Flash Point** 35 [illegible] C = −20°F [illegible]

6 2 **Flammable Limits in Air:** 2 1 [illegible] 38 5

6 3 **Fire Extinguishing Agents:** Carbon dioxide or dry chemical for small fires; alcohol or polymer foam for large fires

6 4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective

6 5 **Special Hazards of Combustion Products** Not pertinent

6 6 **Behavior in Fire** Container may explode. Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back

6 7 **Ignition Temperature** 869 F

6 8 **Electrical Hazard** Class I Group B

6 9 **Burning Rate** 4 3 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water** No reaction

7 2 **Reactivity with Common Materials** No reaction

7 3 **Stability During Transport** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization** May occur due to high temperatures, contamination with alkalies, aqueous acid, amines, and acidic alcohols

7 6 **Inhibitor of Polymerization** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD)** Data not available

8 4 **Food Chain Concentration Potential.** None

PTT PROPYLENE TETRAMER

Common Synonyms
Dodecene (non-linear)
Tetrapropylene

Liquid Colorless

Floats on water

Fire

Combustible

Exposure

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Dodecene (nonlinear)
Tetrapropylene

3 2 **Coast Guard Compatibility Classification**
Oleon

3 3 **Chemical Formula** $C_{12}H_{24}$

3 4 **IMCO/United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Data not available

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield

5 2 **Symptoms Following Exposure.** No inhalation hazard expected. Aspiration hazard if ingested. Low skin and eye irritation

5 3 **Treatment for Exposure:** INHALATION remove victim to fresh air. INGESTION do NOT lavage or induce vomiting; give aspirin, oil and demulcents; call physician. EYES flush with water for 15 min. SKIN wash with soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value)** 200 ppm

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion:** Grade 0 LD$_{50}$ above 15 g/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5 10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** 120 F (C.C.) 134 F (O.C.)

PII

PROPYLENEIMINE, INHIBITED

Common Synonyms

Propyleneimine
2 Methylaziridine
2 Methylethyleneimine

Liquid | Colorless | Strong ammonia like odor

Mixes with water. Flammable, irritating vapor is produced

[illegible]

Fire

FLAMMABLE
Irritating gases are produced when heated
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

[illegible]

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause nausea, vomiting or difficult breathing

[illegible]

LIQUID
POISONOUS IF SWALLOWED
Will burn skin and eyes.

[illegible]

IF SWALLOWED [illegible]

DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.

[illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446 4)

Issue warning: high flammability, water contaminant, air contaminant
Restrict access
Evacuate area
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 2 Methylaziridine, 2 Methylethylenimine, Propyleneimine
3 2 **Coast Guard Compatibility Classification** Not applicable
3 3 **Chemical Formula:** CH_3CHCH_2NH
3 4 **IMCO/United Nations Numerical Designation.** 3 2/1921

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Strong ammonia like

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Self-contained breathing apparatus, goggles or face shield, rubber gloves

5 2 **Symptoms Following Exposure.** Inhalation causes vomiting, breathing difficulty, and irritation of eyes, nose, and throat; on prolonged exposure, vapors tend to redden the whites of the eyes. Contact with liquid causes eye irritation, like that caused by strong ammonia. Liquid causes skin burns, which are slow to heal. Ingestion causes burns of mouth and stomach.

5 3 **Treatment for Exposure.** INHALATION: move victim to fresh air, if he is not breathing, apply artificial respiration, oxygen if breathing is difficult, administer oxygen, call physician. EYES: flush with plenty of water for at least 30 min. and obtain prompt medical attention. SKIN: remove all contaminated clothing and flush with water, rinse with vinegar and water. INGESTION: drink large amounts of milk or water, get prompt medical attention.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 2 ppm

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion:** Grade 4, oral LD_{50} = 19 mg/kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 25°F O C

6 2 **Flammable Limits in Air:** Data not available

6 3 **Fire Extinguishing Agents:** Dry chemical or carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water or foam may be ineffective

6 5 **Special Hazards of Combustion Products:** Irritating nitrogen oxides are produced

6 6 **Behavior in Fire:** Containers may explode

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** 4 1 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts slowly to form propanolamine. The reaction is not hazardous

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport.** Stable if kept in contact with solid caustic soda (sodium hydroxide)

7 4 **Neutralizing Agents for Acids and Caustics:** Dilute with water, rinse with vinegar

7 5 **Polymerization:** Polymerizes explosively when in contact with any acid

7 6 **Inhibitor of Polymerization:** Solid sodium hydroxide (caustic soda)

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential.** None

NOTES

PRD

PYRIDINE

Common Synonyms

Liquid Colorless to yellow Sharp nauseating odor

Mixes with water. Poisonous flammable vapor is produced

AVOID CONTACT WITH LIQUID AND VAPOR

Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

CALL FOR MEDICAL AID

VAPOR
Poisonous if inhaled or if skin is exposed
Irritating to eyes, nose and throat

LIQUID
Poisonous if swallowed or if skin is exposed
Will burn eyes

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446 4)

Isolate hazard area, deny entry
Remove source
Evacuate area
Dispose of liquid

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification** Aromatic amine
3 3 **Chemical Formula** C_5H_5N
3 4 **IMCO United Nations Numerical Designation:** 3 2 1282

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid
4 2 **Color:** Yellow to colorless
4 3 **Odor:** Detectable at 5 to 12 ppm; unpleasant, characteristic, slightly pungent, sharp, somewhat fishy or ammoniacal

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Air-supplied mask or organic vapor canister mask; protective gloves, rubber gloves and protective clothing

5 2 **Symptoms Following Exposure:** Vapor irritates eyes and nose. Liquid irritates skin and is absorbed through skin. Overexposure causes nausea, headache, nervousness, pains, increased urine frequency

5 3 **Treatment for Exposure** INHALATION: Give individual plenty of fresh air. If not breathing, give artificial respiration and oxygen if necessary. Call physician immediately. INGESTION: Induce vomiting and follow with gastric lavage. SKIN: Wash thoroughly with large amounts of water. EYES: Flush with water for at least 15 minutes

5 4 **Toxicity by Inhalation (Threshold Limit Value)** 5 ppm

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion** Grade 2 LD50 (oral, rat) 1 g/kg

5 7 **Late Toxicity:** Liver and kidney damage after ingestion

5 8 **Vapor (Gas) Irritant Characteristics:** Vapor causes moderate eye irritation at 5 ppm for 5 minutes and high concentrations may cause corneal damage. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics** Causes severe irritation of the skin and liquid can cause burns on short exposure. Causes severe irritation on long exposure.

5 10 **Odor Threshold** 0.02 ppm

6 FIRE HAZARDS

6 1 **Flash Point** 68°F (20°C)
6 2 **Flammable Limits in Air.** LEL = 1.8 %
6 3 **Fire Extinguishing Agents** Alcohol foam, dry chemical or carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used** Water may be ineffective
6 5 **Special Hazards of Combustion Products** Not pertinent
6 6 **Behavior in Fire** Vapor is heavier than air and may travel considerable distance to source of ignition and flash back
6 7 **Ignition Temperature.** 900°F (482°C)
6 8 **Electrical Hazard.** Class I, Group D
6 9 **Burning Rate.** 4.3 mm/min

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials** None
7 3 **Stability During Transport.** Stable
7 4 **Neutralizing Agents for Acids and Caustics** Flush with water
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity** 1350 mg/l 96-hr fish TLm (fresh water)
8 2 **Waterfowl Toxicity** Data not available
8 3 **Biological Oxygen Demand (BOD):** 1.1% 1.42 lb lb 5 day
8 4 **Food Chain Concentration Potential.** None

NOTES

REVISED 1978

PGA PYROGALLIC ACID

Common Synonyms
Pyrogallol
1,2,3-Benzenetriol
1,2,3-Trihydroxybenzene

Solid | White to Gray | Odorless

Sinks and mixes with water

Fire

Combustible

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
If swallowed will cause nausea, vomiting or loss of consciousness

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Disperse and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1,2,3-Benzenetriol
Pyrogallol 1,2,3-Trihydroxybenzene

3.2 **Coast Guard Compatibility Classification.** Not listed

3.3 **Chemical Formula** $C_6H_3(OH)_3$

3.4 **IMCO/United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Solid

4.2 **Color:** White to gray

4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber gloves, safety goggles, dust mask

5.2 **Symptoms Following Exposure:** Inhalation of dust causes irritation of nose and throat. Ingestion may cause severe gastrointestinal irritation, convulsions, circulatory collapse, and death. Contact with eyes causes irritation. Skin contact can cause local discoloration, irritation, eczema, and death; repeated contact can cause sensitization.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air. INGESTION: give large amounts of water, induce vomiting immediately, consult a physician. EYES: flush with water for at least 15 min., consult a physician. SKIN: wash immediately with soap and water, consult a physician if exposure has been severe.

5.4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion.** Grade 2; oral LD_{50} = 750 mg/kg (rats)

5.7 **Late Toxicity:** Depresses growth in chicks

5.8 **Vapor (Gas) Irritant Characteristics.** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Odorless

6 FIRE HAZARDS

6.1 **Flash Point.** Not pertinent (combustible solids)

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents.** Water, foam, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:**

6.5 **Special Hazards of Combustion Products:**

6.6 **Behavior in Fire:**

6.7 **Ignition Temperature.** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:**

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization.** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 1b ppm/48 hr/goldfish; 11 m/fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** 1.63, 5 days

8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

NOTES

QNL

QUINOLINE

Common Synonyms
1 Benzazine
Benzopyridine
Chinoline
1 Azanaphthalene

Liquid | Colorless to brown | Strong unpleasant odor

Sinks in water

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE.

Exposure

LIQUID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Fouling to shoreline
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446 4)

Issue warning - water contaminant
Restrict access
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1 Azanaphthalene
1 Benzazine Benzopyridine
Chinoline Leucol

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** C_9H_7N

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid

4 2 **Color:** Colorless to brown

4 3 **Odor:** Strong unpleasant

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** U S Bu Mines approved vapor and chemical safety goggles face shield rubber gloves coveralls and rubber apron rubber shoes and boots

5 2 **Symptoms Following Exposure:** Vapors are irritating to nose and throat and may cause headaches dizziness, and nausea if inhaled Ingestion causes irritation of mouth and stomach vomiting may occur Contact with eyes or skin causes irritation

5 3 **Treatment for Exposure.** INHALATION remove victim to fresh air INGESTION give large amount of water induce vomiting get medical attention EYES flush immediately with plenty of water for at least 15 min , call physician SKIN flush with water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion:** Grade 3 oral LD_{50} = 460 mg kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold.** 71 ppm

6 FIRE HAZARDS

6 1 **Flash Point.** 220 F C C

6 2 **Flammable Limits in Air** Data not available

6 3 **Fire Extinguishing Agents** Water dry chemical foam carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used**

6 5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fires

6 6 **Behavior in Fire:** Heat exposure may cause pressure build up in closed containers

6 7 **Ignition Temperature:** 896 F

6 8 **Electrical Hazard** Data not available

6 9 **Burning Rate** 4 06 mm min

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water** No reaction

7 2 **Reactivity with Common Materials.** May attack some forms of plastics

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

NOTES

RSC

RESORCINOL

Common Synonyms
1,3 Benzenediol
m-Dihydroxybenzene
Resorcin
1,3-Dihydroxybenzene
Dihydroxybenzol

Solid | White or off white | Faint odor

Sinks and mixes with water

Fire

Combustible
CONTAINERS MAY EXPLODE IN FIRE

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
If swallowed will cause nausea or loss of consciousness

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1,3 Benzenediol m-Dihydroxybenzene, 1,3 Dihydroxybenzene Dihydroxybenzol Resorcin

3 2 **Coast Guard Compatibility Classification.** Not listed

3 3 **Chemical Formula:** $C_6H_4(OH)_2$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White or nearly white

4 3 **Odor:** Faint characteristic aromatic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** U.S. Bu. Mines approved respirator, rubber gloves, safety glasses with side shields or chemical goggles, coveralls or rubber apron

5 2 **Symptoms Following Exposure:** Inhalation of vapors or dust causes irritation of respiratory tract. Ingestion causes burns of mucous membranes, severe diarrhea, pallor, sweating, weakness, headache, dizziness, tinnitus, shock, and severe convulsions; may also cause siderosis of the spleen and tubular injury to the kidneys. Contact with eyes causes irritation. Can be absorbed from wounds or through unbroken skin, producing severe dermatitis, methemoglobinemia, cyanosis, convulsions, tachycardia, dyspnea, and death.

5 3 **Treatment for Exposure.** INHALATION: remove victim to fresh air; if he is not breathing, give artificial respiration, preferably mouth-to-mouth; if breathing is difficult, give oxygen; call a physician. INGESTION: give activated charcoal slurry in water; gastric lavage with water; consult physician. EYES: flush with water for 15 min. SKIN: flush with water.

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2 LD$_{50}$ 0.5 - 5 g/kg

5 7 **Late Toxicity:** Produces gonadal effects in rats

NOTES

SLD	# SELENIUM DIOXIDE

Common Synonyms			
Selenium oxide Selenious anhydride	Solid	White	Sour odor
	Sinks and mixes with water		

Fire	Not flammable POISONOUS GASES MAY BE PRODUCED WHEN HEATED
Exposure	DUST POISONOUS IF INHALED OR IF SKIN IS EXPOSED If inhaled will cause coughing or difficult breathing SOLID Irritating to skin and eyes. If swallowed will cause coughing nausea or vomiting
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-2)

Issue warning. Isolate water contaminant
Restrict access
Disperse and flush

2 LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Selenious anhydride
Selenium oxide

3 2 **Coast Guard Compatibility Classification.** Not listed

3 3 **Chemical Formula:** SeO_2

3 4 **IMCO/United Nations Numerical Designation:** Not assigned

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White

4 3 **Odor:** Pungent sour

5 HEALTH HAZARDS

The compound is highly toxic if inhaled or ingested

5 1 **Personal Protective Equipment:** Dust mask, rubber gloves, protective clothing

5 2 **Symptoms Following Exposure:** Absorption of selenium may be demonstrated by presence of the element in the urine and by a garlic like odor of the breath. Inhalation of dust can cause bronchial spasms, symptoms of asphyxiation and pneumonitis. Acute symptoms of exposure include sternal pain, cough, nausea, pallor, coated tongue, gastrointestinal disorders, pneumonia and convulsions. Contact with eyes causes irritation.

5 3 **Treatment for Exposure:** Consult physician after all exposures to this compound. INHALATION remove victim to fresh air, give oxygen if needed. INGESTION induce vomiting, follow with gastric lavage and saline cathartics. EYES flush immediately and thoroughly with water. SKIN flush with water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.2 mg m^3 (as selenium)

5 5 **Short-Term Inhalation Limits:** 0.3 mg m^3 (30 min) (as selenium)

5 6 **Toxicity by Ingestion.** Data not available

NOTES

STO

SELENIUM TRIOXIDE

Selenium anhydride

Solid White

Fire

Not flammable

Exposure

DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
If swallowed will cause coughing nausea and vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - corrosive water system hazard
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Selenic anhydride
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** SeO_3
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White
4 3 **Odor:** Data not available

5 HEALTH HAZARDS

The compound is a gas from decomposition heated

5 1 **Personal Protective Equipment:** Dust mask goggles or face shield rubber gloves
5 2 **Symptoms Following Exposure:** Absorption of selenium may be detected by presence of the element in the urine and by a garlic breath odor. Inhalation can cause bronchial spasms symptoms of gas poisoning and pneumonitis. Acute symptoms of ingestion include sternal pain cough nausea pallor coated tongue gastrointestinal disorders nervousness and convulsions. Contact with eyes can cause irritation.
5 3 **Treatment for Exposure:** INHALATION remove victim to fresh air give oxygen if necessary. INGESTION induce vomiting follow with gastric lavage and saline cathartic. EYES flush immediately and thoroughly with water. SKIN flush with water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.2 mg/m³ (as selenium)
5 5 **Short-Term Inhalation Limits.** 0.3 mg/m³ (5 min) (as selenium)
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics.** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents.** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products**
6 6 **Behavior in Fire:**
6 7 **Ignition Temperature:** Not pertinent
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts vigorously with water to form selenic acid H_2SeO_4
7 2 **Reactivity with Common Materials:** Corrodes all metals when moisture is present
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Flush with water rinse with dilute solution of sodium bicarbonate soda ash
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD).** None
8 4 **Food Chain Concentration Potential.** None

9. SELECTED MANUFACTURERS

Gallard Schlesinger Chemical Mfg Co
and Mercer Ave
Carle Place N Y

Continued on page 1 and 5

NOTES

STC SILICON TETRACHLORIDE

Common Synonyms			
Silicon chloride	Liquid	Colorless to light yellow	Suffocating odor
	Reacts violently with water. Irritating gas is produced on contact with water.		

Fire

Not flammable

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause difficult breathing

LIQUID
POISONOUS IF SWALLOWED
Will burn skin and eyes

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-4

Issue warning. Corrosive air contaminant.
Restrict access.
Evacuate area.
Disperse and flush with water.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Silicon chloride
3.2 **Coast Guard Compatibility Classification:** To be developed
3.3 **Chemical Formula:** $SiCl_4$
3.4 **IMCO/United Nations Numerical Designation:** 1818

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless to pale yellow
4.3 **Odor:** Suffocating acid

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Acid canister type gas mask or self-contained breathing apparatus; goggles or face shield; rubber gloves; other protective clothing to prevent contact with skin.

5.2 **Symptoms Following Exposure:** Inhalation causes severe irritation of upper respiratory tract resulting in gasping, choking and a feeling of suffocation; continued inhalation may produce ulceration of the nose, throat and larynx; of inhaled deeply, edema of the lungs may occur. Contact of liquid with eyes causes severe irritation and possible burns may cause permanent visual impairment. Liquid may cause severe burns. Skin. Repeated skin contact with dilute solutions or gaseous fuming concentrated vapors may cause dermatitis. Ingestion causes severe internal burns with pain, shock, vomiting and collapse. Inhalation causes severe burning pain in throat, chest and abdomen, chest difficulties in swallowing, nausea, vomiting and diarrhea. In severe cases, collapse and unconsciousness may result.

5.3 **Treatment for Exposure:** Get medical attention. Take immediate steps to avoid contamination. INHALATION: remove victim from contaminated atmosphere. If breathing has ceased, start mouth-to-mouth resuscitation. Oxygen should only be administered by an experienced person when authorized by a physician. Keep patient warm and comfortable. EYES: immediately flush with large quantities of running water for a minimum of 5 min, continue irrigation for an additional 15 min if physician is not available. SKIN: immediately flush affected area with water. Severe or extensive burns may be caused by silicon tetrachloride, producing shock. Symptoms include rapid pulse, sweating and collapse; keep patient comfortable, warm. INGESTION: If patient is conscious, give large amounts of lime water or milk. Magnesia, plain water should be given. If neither of these is available, do NOT give soda, carbonate or make an attempt to induce vomiting. If patient is unconscious, do not give anything but ensure there is no obstruction to breathing; tongue should be kept forward and false teeth removed; he will be less likely to aspirate vomit if placed in a face-down position.

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used:** Water or foam on adjacent fires
6.5 **Special Hazards of Combustion Products:** Not pertinent
6.6 **Behavior in Fire:** Contact with water or foam applied to adjacent fires will produce irritating fumes of hydrogen chloride
6.7 **Ignition Temperature:** Not pertinent
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts violently with water to evolve hydrogen chloride (hydrochloric acid)
7.2 **Reactivity with Common Materials:** In presence of moisture attacks most metals; the reaction is not violent
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Flood with water; rinse with sodium bicarbonate or lime solution
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** None
8.4 **Food Chain Concentration Potential:** None

NOTES

SVN — SILVER NITRATE

Common Synonyms
Lunar caustic

Solid crystals | Colorless to grayish black | Odorless

Sinks and mixes with water

Fire

Not flammable

Exposure

SOLIDS
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Issue warning — water contaminant
Should be removed

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Lunar caustic
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula** $AgNO_3$
3 4 **IMCO United Nations Numerical Designation:** UN 1493

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Solid
4 2 **Color** Colorless
4 3 **Odor** Odorless

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Goggles or face shield rubber gloves
5 2 **Symptoms Following Exposure** Concentrated solutions will produce irritation ulceration and discoloration of the skin also causes severe irritation of the eyes Ingestion will produce violent abdominal pain and other gastrointestinal symptoms
5 3 **Treatment for Exposure** INGESTION Gastric lavage with dilute solution of sodium chloride followed by cathartics and demulcents Other treatment is symptomatic SKIN wash promptly
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent
5 5 **Short-Term Inhalation Limits** Not pertinent
5 6 **Toxicity by Ingestion** Grade 3 LD_{50}: 500 mg/kg
5 7 **Late Toxicity** Data not available
5 8 **Vapor (Gas) Irritant Characteristics** Not available
5 9 **Liquid or Solid Irritant Characteristics.** Burns skin on prolonged contact
5 10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

NOTES

SDU	SODIUM

Common Synonyms

Soft solid under kerosene Silver to grayish white Odorless

Floats and reacts violently with water. Flammable gas is produced.

AVOID CONTACT WITH SOLID. Keep upwind. Call fire department. Notify local health and pollution control agencies. Prevent runoff into drains, sewers or waterways.

Fire

FLAMMABLE
FIRE MAY START ON CONTACT WITH AIR
Flammable gas formed on contact with water or moisture.
Will explode spontaneously in air. Use no water. Use dry chemical, soda ash, lime or sand. Do not use water. Extinguish with dry powder, graphite, salt or other approved dry powder such as dry limestone.

Exposure

AVOID ANY PERSONAL CONTACT.
SOLID
Will burn skin and eyes.
Avoid contact with solid and dust. Wear protective clothing. Stay upwind.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials. Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

See Section 4 of Manual's Handbook, CG-446-4

Issue warning. High flammability.
Restrict access.
Evacuate area.
Chemical and physical treatment.

2 LABELS

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms.
3 2 **Coast Guard Compatibility Classification** Not applicable.
3 3 **Chemical Formula:** Na
3 4 **IMCO United Nations Numerical Designation:** 4 3 1428

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Soft solid or liquid.
4 2 **Color.** Silvery white, changing to gray on exposure to air.
4 3 **Odor:** Odorless.

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Maximum protective clothing, gloves and face shield.
5 2 **Symptoms Following Exposure** Severe burns caused by burning metallic base and caustic soda formed by reaction with moisture on skin.
5 3 **Treatment for Exposure** SKIN: Flush with water. Remove contaminated clothing. Treat as for heat and caustic burns. EYES: Flush with water. Call a doctor.
5 4 **Toxicity by Inhalation (Threshold Limit Value)** No pertinent.
5 5 **Short-Term Inhalation Limits:** No pertinent.
5 6 **Toxicity by Ingestion** No pertinent.
5 7 **Late Toxicity:** None.
5 8 **Vapor (Gas) Irritant Characteristics** None known.
5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second and third degree burns on short contact and severe injuries to the eyes.
5 10 **Odor Threshold:** Not pertinent.

6 FIRE HAZARDS

6 1 **Flash Point** Not pertinent.
6 2 **Flammable Limits in Air** No pertinent.
6 3 **Fire Extinguishing Agents** Dry soda ash, graphite, salt or other approved dry powder such as dry limestone.
6 4 **Fire Extinguishing Agents Not to be Used** Water, carbon dioxide or halogenated extinguishing agents.
6 5 **Special Hazards of Combustion Products:** Fumes of burning Na are highly irritating to eyes, eyes and mucous membranes.
6 6 ***Behavior in Fire*** Not pertinent.
6 7 **Ignition Temperature** 250 F
6 8 **Electrical Hazard** Not pertinent.
6 9 **Burning Rate** Not pertinent.

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts violently with formation of flammable hydrogen gas and caustic soda solution. A fire often occurs.
7 2 **Reactivity with Common Materials** No reaction.
7 3 **Stability During Transport:** Stable.
7 4 **Neutralizing Agents for Acids and Caustics:** After reaction with water, caustic soda for mid-ranges diluted with water and then neutralized with acetic acid.
7 5 **Polymerization** Not pertinent.
7 6 **Inhibitor of Polymerization.** Not pertinent.

8 WATER POLLUTION

8 1 **Aquatic Toxicity** No pertinent.
8 2 **Waterfowl Toxicity.** Not pertinent.
8 3 **Biological Oxygen Demand (BOD)** None.
8 4 **Food Chain Concentration Potential** None.

NOTES

REVISED 1978

SAB — SODIUM ALKYLBENZENESULFONATES

Common Synonyms
Sulfonated alkylbenzene sodium salt
Alkylbenzenesulfonic acid, sodium salt

Thick liquid or solid. Pale yellow. Faint detergent odor.

Mixes with water. Soap bubbles may be produced.

Fire

Not flammable.

Exposure

LIQUID
Irritating to skin and eyes.
If swallowed will cause nausea or vomiting.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: water contaminant.
Should be removed.
Chemical and physical treatment.

2. LABELS

No hazard label required by Code of Federal Regulations.

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Alkylbenzenesulfonic acid, sodium salt; Sulfonated alkylbenzene, sodium salt

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** $C_nH_{n+1}C_6H_4SO_3Na$

3 4 **IMCO/United Nations Numerical Designation.** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Powder or thick liquid

4 2 **Color:** Pale yellow

4 3 **Odor:** Faint detergent

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Goggles or face shield; rubber gloves.

5 2 **Symptoms Following Exposure:** In general, these chemicals have a moderate order of toxicity. Repeated skin contact with concentrated solutions may cause dermatitis. Ingestion may cause gastrointestinal irritation, vomiting, and diarrhea.

5 3 **Treatment for Exposure:** INGESTION: induce vomiting and call a doctor. EYES OR SKIN: flush with copious amounts of water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent

5 5 **Short-Term Inhalation Limits.** Not pertinent

5 6 **Toxicity by Ingestion:** Grade 2. LD_{50} 0.5 to 5 g/kg

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics:** Non volatile

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5 10 **Odor Threshold:** Not pertinent

6. FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air:** Not flammable

6 3 **Fire Extinguishing Agents.** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products.** Not pertinent

6 6 **Behavior in Fire:** Irritating vapors may be generated

6 7 **Ignition Temperature:** Not flammable

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not flammable

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 5.6 p.m (100% SAB)/96 hr/bluegill/TL_m/fresh water
8.2 ppm/96 hr/winter flounder/TL_m/salt water

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** 4%, 5 days

8 4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

1 Colgate Palmolive Co
300 Park Ave
New York, N Y 10022

2 Lever Bros Co
390 Park Ave
New York, N Y 10022

3 Witco Chemical Corp
Organic Division
1914 S Kilbourn Ave
Chicago Ill 60623

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Vary with each manufacturer and with intended use. Some is shipped as a thick, concentrated water solution; some as a solid often mixed with other solids such as sodium phosphate. Ordinary household detergents are good examples of this substance.

10 2 **Storage Temperature:** Ambient

10 3 **Inert Atmosphere:** Not required

10 4 **Venting:** Open

(Continued on pages 5 and 6)

NOTES

SAS — SODIUM ALKYL SULFATES

Common Synonyms
Sodium hydrogen alkyl sulfate

Solid or thick liquid Pale yellow Faint detergent odor

Mixes with water. Soap bubbles may be produced

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID
LIQUID OR SOLID
Irritating to skin and eyes
If swallowed will cause nausea or vomiting

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446 4)

Issue warning - water contaminant
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Sodium hydrogen alkyl sulfate
3 2 **Coast Guard Compatibility Classification** Not applicable
3 3 **Chemical Formula.** $C_nH_{2n+1}OSO_3Na$
3 4 **IMCO United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid or solid
4 2 **Color:** Colorless to pale yellow
4 3 **Odor:** Weak detergent

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves
5 2 **Symptoms Following Exposure:** In general these chemicals have a mild acute toxicity. Repeated skin contact with concentrated solutions may cause dermatitis. Ingestion may cause gastrointestinal irritation, vomiting and diarrhea
5 3 **Treatment for Exposure:** INGESTION: induce vomiting and follow with gastric lavage. SKIN: wash with water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent
5 5 **Short-Term Inhalation Limits.** Not pertinent
5 6 **Toxicity by Ingestion.** Grade 2 LD50 0 to 5 g/kg
5 7 **Late Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics.** Non-volatile
5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. Expelled by salivation, and if swallowed remain may cause smarting and reddening of the skin
5 10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point.** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent
6 5 **Special Hazards of Combustion Products** Not pertinent
6 6 **Behavior in Fire:** May give off irritating vapors
6 7 **Ignition Temperature** Not flammable
6 8 **Electrical Hazard** Not pertinent
6 9 **Burning Rate:** Not flammable

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water.** No reaction
7 2 **Reactivity with Common Materials** No reaction
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity**
96 ppm/24 hr/goldfish/fresh water/Tap water/Experimental conditions
8 2 **Waterfowl Toxicity** Data not available
8 3 **Biological Oxygen Demand (BOD)** Theoretical 1.5 lbs
8 4 **Food Chain Concentration Potential** None

9 SELECTED MANUFACTURERS

1. E I duPont de Nemours & Co Inc
Petrochemical Division
Wilmington DE 19898
2. Matheson Gas Co
Gas Chemical Division
166 Walnut St
Kansas City MO 64116
3. Union Carbide Corp
Chemicals and Plastics Div
270 Park Ave
New York NY 10017

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Varies with each manufacturer and with intended use. Some are shipped as a thick concentrated water solution, some as a solid mixed with basic solids such as sodium phosphate. Ordinary household detergents are good examples of this substance.
10 2 **Storage Temperature:** Ambient
10 3 **Inert Atmosphere** No requirement
10 4 **Venting:** Open

11 HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook CG 446 3)

SS

12 HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations:** Not listed
12 2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed
12 3 **NFPA Hazard Classifications** Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm.** Liquid or solid
13 2 **Molecular Weight.** Not pertinent
13 3 **Boiling Point at 1 atm.** Decomposes
13 4 **Freezing Point** Not pertinent
13 5 **Critical Temperature.** Not pertinent

13 15 **Heat of Solution** Not pertinent
13 16 **Heat of Polymerization:** Not pertinent

Condensed from Sweet

NOTES

SAM SODIUM AMIDE

Common Synonyms
Sodamide

Solid | Colorless | Odorless

Sinks and reacts violently with water

Fire

FLAMMABLE
POISONOUS GAS IS PRODUCED IN FIRE

Exposure

SOLID
Will burn skin and eyes

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Issue warning
Restrict access
Should be removed
Dispersed flush

2. LABELS

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Sodamide
3 2 **Coast Guard Compatibility Classification** Not applicable
3 3 **Chemical Formula.** $NaNH_2$
3 4 **IMCO/United Nations Numerical Designation:** 4 3 1425

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Solid
4 2 **Color:** Gray
4 3 **Odor** Like ammonia

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Gas approved shield dust and vapor proof goggles and shoes
5 2 **Symptoms Following Exposure:** Ammonia gas released by reaction of solid with moisture irritates eyes and skin. Solid causes caustic burns of eyes and skin. Ingestion of small amount of material may cause death. Inhalation of gas may cause death.
5 3 **Treatment for Exposure:** INGESTION give water to drink to dilute material in stomach. Induce vomiting. Call physician immediately. DO NOT induce vomiting. Call physician. SKIN OR EYES Flood affected area with copious amounts of water
5 4 **Toxicity by Inhalation (Threshold Limit Value)** Not pertinent
5 5 **Short-Term Inhalation Limits:** Not pertinent
5 6 **Toxicity by Ingestion** Data not available
5 7 **Irritant Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics:** Only that of ammonia formed by reaction of solid with moisture in air
5 9 **Liquid or Solid Irritant Characteristics** Solid causes caustic burns similar to lye
5 10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point.** Flammable solid
6 2 **Flammable Limits in Air** Not pertinent
6 3 **Fire Extinguishing Agents** Dry sand, graphite, salt or other recommended dry powder. Do not use water
6 4 **Fire Extinguishing Agents Not to be Used** Water
6 5 **Special Hazards of Combustion Products** Toxic and irritating gases are liberated when heated
6 6 **Behavior in Fire** Data not available
6 7 **Ignition Temperature** Not pertinent
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts violently and progressively to evolve flammable and caustic ammonia gas
7 2 **Reactivity with Common Materials.** Data not available
7 3 **Stability During Transport.** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Caustic solution formed by reaction with water can be diluted with water and then neutralized by acetic acid
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD)** None
8 4 **Food Chain Concentration Potential.** None

9 SELECTED MANUFACTURERS

NOTES

REVISED 1978

SDA

SODIUM ARSENATE

Common Synonyms
Sodium arsenate, dibasic
Disodium arsenate heptahydrate

Solid | White | Odorless

Sinks and mixes with water

Fire

Not flammable

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause difficult breathing

SOLID
Irritating to skin and eyes
If swallowed will cause coughing, nausea, vomiting or loss of consciousness

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison, water contaminant
Restrict access
Disperse and flush

2. LABEL

POISON

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Disodium arsenate heptahydrate, Sodium arsenate, dibasic
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $Na_2HAsO_4 \cdot 7H_2O$
3 4 **IMCO/United Nations Numerical Designation:** 6.1 1685

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White
4 3 **Odor:** None

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles or face shield, protective gloves
5 2 **Symptoms Following Exposure:** Inhalation of massive doses can cause laryngitis, bronchitis. Ingestion causes constriction in throat and difficulty in swallowing, also causes burning and pain, vomiting, profuse diarrhea, dehydration, cyanosis, coma, convulsions, and death. Contact with eyes causes irritation. Contact with skin causes various skin eruptions, more often as a late manifestation or chronic poisoning
5 3 **Treatment for Exposure:** INHALATION: remove victim from exposure, support respiration. INGESTION: gastric lavage with water, followed by 1 glass of milk, consult physician. EYES: flush with water for at least 15 min. SKIN: flush with water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.5 mg/m³ (as arsenic)
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 4, LD_{50} < 50 mg/kg
5 7 **Late Toxicity:** Possible carcinogenic effects on skin and lungs
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

NOTES

REVISED 1978

SDB

SODIUM BORATE

Common Synonyms
Sodium tetraborate anhydrous
Borax anhydrous
Sodium biborate
Sodium pyroborate

Solid | White | Odorless

Sinks and mixes slowly with water

Fire

Not flammable

Exposure

DUST
Irritating to eyes, nose and throat

SOLID
Irritating to skin and eyes
If swallowed will cause headache, dizziness, nausea or vomiting

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-1)

Disperse and flush

2. LABELS

No hazard label required by Coast Guard Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Borax anhydrous, Sodium biborate, Sodium pyroborate, Sodium tetraborate anhydrous

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** $Na_2B_4O_7$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White

4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust mask and goggles or face shield

5.2 **Symptoms Following Exposure:** No adverse effects from inhaling borax have been reported. Ingestion may cause acute or chronic effects. Initial symptoms are nausea, vomiting and diarrhea; these may be followed by weakness, depression, headaches, skin rashes, drying skin, cracked lips and loss of hair; shock may follow ingestion of large doses and may interfere with breathing. Eye contact with powder or solution may cause irritation; no chronic effects have been documented, but continued contact should be assumed. Dermal irritation may result from contact with powder or dissolving components. The latter may cause chronic dermatitis on prolonged contact, and skin is known enough borax may be absorbed to cause boric acid poisoning (symptoms are similar to those for ingestion).

5.3 **Treatment for Exposure:** INHALATION: move victim to fresh air; call physician immediately; give mouth-to-mouth resuscitation if breathing has stopped, give oxygen if available and keep victim warm. INGESTION: get medical attention quickly; if victim is conscious, give warm salts or soapy water to induce vomiting; repeat until vomit is clear; additional water may be given to wash out stomach. EYES: get medical attention quickly; flush with copious amounts of water for at least 15 minutes. If physician is not available, another victim may be used. SKIN: flush with water; remove contaminated clothing under shower; do not use chemical neutralizer; get medical attention, gauze burn if minor.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2 LD$_{50}$ = 5 g/kg

(Continued on page 2)

NOTES

SOC

SODIUM CHLORATE

Common Synonyms
Chlorate of soda

Solid crystals or powder Colorless to pale yellow Odorless

Sinks and mixes with water

Fire

Not flammable
CONTAINERS MAY EXPLODE IN FIRE
May cause fire on contact with combustibles

Exposure

SOLID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See E 200-series Methods Handbook CG-446-4)

Isolate water of high flammability
Should be removed
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms** Chlorate of soda
3 2 **Coast Guard Compatibility Classification** Not applicable
3 3 **Chemical Formula:** $NaClO_3$
3 4 **IMCO/United Nations Numerical Designation** 1495

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Pale yellow to white
4 3 **Odor** Odorless

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Clean work clothing (must be washed well with water after each exposure) rubber gloves and shoes where dusty goggles and in approved dust respirator Do NOT use oils greases or protective creams on skin

5 2 **Symptoms Following Exposure:** Ingestion of a toxic dose (1/2 oz) tends to cause gastroenteritis pain vomiting and diarrhea Possible respiratory difficulties including failure of respiration Kidney and liver injury may also be produced Lethal oral dose for an adult is approximately 15 gm Contact with eyes causes irritation

5 3 **Treatment for Exposure** INGESTION induce vomiting and follow with gastric lavage saline cathartics fluids therapy and oxygen EYES wash thoroughly with water

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Not pertinent

5 5 **Short-Term Inhalation Limits** Not pertinent

5 6 **Toxicity by Ingestion** Grade 4 LD50 to 500 mg/kg

5 7 **Late Toxicity** Data not available

5 8 **Vapor (Gas) Irritant Characteristics** Not volatile

5 9 **Liquid or Solid Irritant Characteristics** Prolonged exposure to solid or dust causes irritation

5 10 **Odor Threshold** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point** Not flammable but supports combustion

6 2 **Flammable Limits in Air.** Not pertinent

6 3 **Fire Extinguishing Agents.** Water

6 4 **Fire Extinguishing Agents Not to be Used.** Fire blankets

6 5 **Special Hazards of Combustion Products** In fire situations oxygen may be liberated and increase the intensity of the fire

6 6 **Behavior in Fire:** Melts then decomposes to give oxygen gas that increases the intensity of fire Reacts explosively either as a solid or a liquid with all organic matter and some metals

6 7 **Ignition Temperature** Not pertinent

6 8 **Electrical Hazard** Not pertinent

6 9 **Burning Rate** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials** Chlorates are powerful oxidizing agents Can cause explosions when heated or rubbed with wood organic matter sulfur and many metals Even water solutions react in this way if stronger than 30% especially when warm

7 3 **Stability During Transport:** Starts at 572°F with evolution of oxygen gas Decomposition may be self sustaining Oxygen increases intensity of fires

7 4 **Neutralizing Agents for Acids and Caustics** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity**
11 000 ppm perch threshold toxicity fresh water
6 ppm sunfish threshold toxicity fresh water

8 2 **Waterfowl Toxicity.** Data not available

NOTES

REVISED 1978

SCH

SODIUM CHROMATE

Common Synonyms
Sodium chromate (VI)
Neutral sodium chromate
anhydrous

Solid | Yellow | Odorless

Sinks and mixes with water

[illegible]

Fire

Not flammable
Will increase the intensity of a fire
May cause fire on contact with combustibles
[illegible]

Exposure

[illegible]

DUST
Irritating to eyes nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
If swallowed will cause nausea or loss of consciousness

[illegible]

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

NOTES

SCN SODIUM CYANIDE

Common Synonyms	Solid granules, flakes or lumps White Almond odor Sinks and mixes with water

Fire

Not flammable

Exposure

DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED

SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn eyes

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Issue warning - poison
Restrict access
Evacuate area
Chemical and physical treatment

2. LABEL

POISON

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Hydrocyanic acid sodium salt
3 2 **Coast Guard Compatibility Classification** Not applicable
3 3 **Chemical Formula** NaCN
3 4 **IMCO United Nations Numerical Designation** 1689

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Solid
4 2 **Color:** White
4 3 **Odor:** Odorless when dry. When moist it has a slight odor of hydrocyanic acid

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Protective gloves when handling solid sodium cyanide rubber gloves when handling cyanide solutions wash hands and rubber gloves thoroughly with running water after handling cyanides) U S Bureau of Mines approved dust respirator approved chemical safety goggles

5 2 **Symptoms Following Exposure** As little as 150 milligrams is a rapidly fatal poison if ingested Non lethal doses may cause toxic symptoms Strong water solutions or the solid itself can be absorbed by the skin and cause deep ulcers which heal slowly

5 3 **Treatment for Exposure.** INGESTION Treatment immediately call a physician Carry victim to fresh air have victim lie down keep him quiet and warm until physician arrives

- If victim is conscious and breathing induce vomiting by giving emetic or warm salt water (1 tablespoon salt per cup water) repeat until vomit fluid is clear Then have victim drink one pint of 1% solution of sodium thiosulfate to be repeated in 1 hour
- If victim has stopped breathing give artificial respiration until breathing starts
- If victim is unconscious but breathing give oxygen from an inhalator

For all of the conditions above victim breathe an Amyl nitrite Break nitrite pearls in a cloth and hold lightly under victim's nose for 15 seconds repeating 3 times at about 15 second intervals If necessary repeat this procedure every 5 min with fresh pearls until 3 or 4 have been given (Pearls must not be over 2 years old Avoid breathing amyl nitrite while administering to victim)

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Not pertinent
5 5 **Short-Term Inhalation Limits** Not pertinent
5 6 **Toxicity by Ingestion** Grade 4 Below 50 mg/kg

6. FIRE HAZARDS

6 1 **Flash Point** Not flammable
6 2 **Flammable Limits in Air.** Not flammable
6 3 **Fire Extinguishing Agents** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent
6 5 **Special Hazards of Combustion Products** Not pertinent
6 6 **Behavior in Fire.** Not pertinent
6 7 **Ignition Temperature.** Not flammable
6 8 **Electrical Hazard** Not pertinent
6 9 **Burning Rate** Not flammable

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water** When sodium cyanide dissolves in water, a mild reaction occurs and some poisonous hydrogen cyanide gas is released This gas is not hazardous except in an enclosed space If the water is acidic however, toxic amounts of the gas will form at once.
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport.** Stable
7 4 **Neutralizing Agents for Acids and Caustics** Not pertinent
7 5 **Polymerization.** Not pertinent
7 6 **Inhibitor of Polymerization.** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:**
0.13 ppm/96 hr bluegill 11 m fresh water
0.28 ppm/48 hr prawn LC50 salt water
8 2 **Waterfowl Toxicity** Data not available
8 3 **Biological Oxygen Demand (BOD).**
Theoretical 7 days
8 4 **Food Chain Concentration Potential**
None

NOTES

SCR SODIUM DICHROMATE

Common Synonyms			
Sodium bichromate	Solid crystals	Red to orange	Odorless
	Sinks and mixes with water		

Fire	Not flammable May cause fire on contact with combustibles
Exposure	DUST Irritating to eyes, nose, and throat If inhaled will cause difficult breathing SOLID Will burn skin and eyes If swallowed will cause nausea and vomiting
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Hazardous Materials Handbook, CG 446-4)

Issue warning - water contaminant
Disperse and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** No common synonyms

3 2 **Coast Guard Compatibility Classification**
Not applicable

3 3 **Chemical Formula.** $Na_2Cr_2O_7$

3 4 **IMCO-United Nations Numerical Designation:** 9[illegible]

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Solid

4 2 **Color:** Bright orange-red

4 3 **Odor:** Odorless

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Approved dust mask, protective gloves, goggles or face shield

5 2 **Symptoms Following Exposure:** Inhalation of dust or mist causes respiratory irritation sometimes resembling asthma, nasal septal perforation may occur. Ingestion causes vomiting, diarrhea, and ulcers in stomach and intestines; complications. Contact with eyes or skin produces local irritation; repeated exposure causes dermatitis.

5 3 **Treatment for Exposure:** INGESTION: have victim drink water or milk; do NOT induce vomiting; call a doctor. SKIN OR EYE CONTACT: treat like acid burns; flush eyes with water for at least 15 min; external lesions can be scrubbed with a 2% solution of sodium thiosulfate.

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Not pertinent

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion:** Grade 3; LD_{50} = 50-500 mg/kg

5 7 **Late Toxicity:** Some suggestion of lung cancer

5 8 **Vapor (Gas) Irritant Characteristics:** Dust or mist causes severe irritation of eyes and throat and can cause ulcers and lung injury. Effects cannot be tolerated at acute concentrations.

5 9 **Liquid or Solid Irritant Characteristics.** Severe corrosive irritant. Causes second and third degree burns. Short contact and/or very injurious to the eyes.

5 10 **Odor Threshold:** Odorless

6. FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air:** Not flammable

NOTES

SDH	SODIUM HYDRIDE

Common Synonyms

Powder gray to tan Gray Kerosene odor

Reacts violently with water. Flammable gas is produced.

Fire

FLAMMABLE
MAY EXPLODE ON CONTACT WITH WATER

Exposure

SOLID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.

NOTES

REVISED 1978

SHS	SODIUM HYDROSULFIDE SOLUTION

Common Synonyms			
Sodium bisulfide Sodium sulfhydrate Sodium monohydrogen sulfide	Liquid Mixes with water	Light yellow to red	Rotten egg odor

Fire	Not flammable
Exposure	LIQUID Irritating to skin and eyes If swallowed will cause nausea vomiting or loss of consciousness
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-1

Issue warning - water upstream of spill corrosive
Restrict access
Dike as needed
Dispose as directed

2. LABELS

No label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Sodium bisulfide
Sodium hydrogen sulfide Sodium sulfhydrate

3.2 **Coast Guard Compatibility Classification:** To be developed

3.3 **Chemical Formula:** $NaSH \cdot H_2O$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid water solution

4.2 **Color:** Light lemon pale yellow amber to dark red

4.3 **Odor:** Rotten eggs

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber protective equipment such as apron boots splash proof goggles gloves rainwear face respirator hose mask and breathing apparatus

5.2 **Symptoms Following Exposure:** Inhalation of mist causes irritation of respiratory tract and sensitive systems producing bad rotten egg sulfide gas which breaks down nerves of smell causes headache dizziness nausea vomiting continued exposure can result in convulsions nervous respiratory failure and death
Liquid causes marked eye irritation itching soreness or swelling and inflammation causing burning of eyes are the most common effects exposure to skin may increase the potential effects Contact of liquid with skin causes irritation and sometimes tissue destruction repeated exposure may cause dermatitis Ingestion causes severe burning and corrosion of all portions of the gastrointestinal tract pain in the throat and abdomen nausea and vomiting followed by diarrhea In severe cases collapse unconsciousness and paralysis of respiration may be expected

5.3 **Treatment for Exposure:** INHALATION move victim from contaminated atmosphere at first sign of breathing has ceased start mouth to mouth resuscitation EYES immediately flush with large quantities of running water for at least 15 minutes obtain medical attention as soon as possible while awaiting instructions from physician patient may be kept in a dark room and ice compresses applied to the eyes and forehead SKIN immediately flush affected areas with water obtain medical attention if irritation persists INGESTION obtain medical attention as soon as possible if patient is conscious induce vomiting by giving large amounts of water of warm salty water (2 tablespoons of table salt to a pint of water) if this measure is unsuccessful vomiting may be induced by touching back of patient's throat with a finger Vomiting should be encouraged until the vomitus is clear

6 FIRE HAZARDS

6.1 **Flash Point.** Not flammable

6.2 **Flammable Limits in Air** Not flammable

6.3 **Fire Extinguishing Agents** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used.** Not pertinent

6.5 **Special Hazards of Combustion Products** Not pertinent

6.6 **Behavior in Fire** Not pertinent

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water** No reaction

7.2 **Reactivity with Common Materials:** Corrodes most metals but reaction is not hazardous

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics** Treat with water

*7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity** 206 mg/l 96 hr TL$_m$ aquatic fish (Bluegill) fresh water

8.2 **Waterfowl Toxicity** Data not available

8.3 **Biological Oxygen Demand (BOD)** Data not available

8.4 **Food Chain Concentration Potential** None

9 SELECTED MANUFACTURERS

1. Stauffer Chemical Company
Industrial Chemical Division
Westport, Conn. 06880

2. PPG Industries Incorporated

13 PHYSICAL AND CHEMICAL PROPERTIES

*13.1 **Physical State at 15°C and 1 atm:** Liquid

*13.2 **Molecular Weight** Not pertinent

13.3 **Boiling Point at 1 atm.** Approx 215°F = 101°C = 375°K

13.4 **Freezing Point:** Approx 45°F = 7°C = 280°K

13.5 **Critical Temperature:** Not pertinent

*13.6 **Critical Pressure** Not pertinent

13.7 **Specific Gravity:** 1.19 at 60 Degrees

13.8 **Liquid Surface Tension:** Data not available

*13.9 **Liquid-Water Interfacial Tension** Not pertinent

*13.10 **Vapor (Gas) Specific Gravity** Not pertinent

*13.11 **Ratio of Specific Heats of Vapor (Gas)** Not pertinent

*13.12 **Latent Heat of Vaporization** Not pertinent

13.13 **Heat of Combustion:** Not pertinent

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization.** Not pertinent

Continued on page 4

5 HEALTH HAZARDS (Con't)

If patient is unconscious do not give anything but ensure there is no obstruction to his breathing chin forward and false teeth removed He will be less likely to aspirate vomit if he is placed in a face down position

5.4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion:** Grade 2 LD$_{50}$ 0.5 to 5 g/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant The effect is temporary

5.9 **Liquid or Solid Irritant Characteristics:** Fairly severe skin irritant. May cause pain and second degree burn after a few minutes contact

5.10 **Odor Threshold:** [illegible] ppm

SHD

SODIUM HYDROXIDE

Common Synonyms

Caustic soda
Lye

Solid flakes or pellets | White | Odorless

Sinks and mixes with water

Fire

Not flammable
May cause fire on contact with combustibles
Flammable gas may be produced on contact with metals

Exposure

DUST
Irritating to eyes, nose and throat

SOLID
will burn skin and eyes
Harmful if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

SODIUM HYPOCHLORITE

Common Synonyms
Chlorox
Liquid Bleach

Watery liquid Green to yellow Bleaching liquid odor

Sinks and mixes with water

Fire

Not flammable

Exposure

LIQUID
Irritating to skin and eyes.
Harmful if swallowed

Water Pollution

Harmful to aquatic life in very low concentrations
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, 1978, 4

Isolate spilling containers
Dilute and flush

2 LABELS

Not a Hazardous Material
49 CFR Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 Synonyms: Chlorox
Liquid Bleach
3.2 Coast Guard Compatibility Classification: Not applicable
3.3 Chemical Formula: NaOCl + H2O
3.4 IMCO United Nations Numerical Designation: Not Listed

4 OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped): Liquid
4.2 Color: Green to yellow
4.3 Odor: Bleaching odor

5 HEALTH HAZARDS

5.1 Personal Protective Equipment: Rubber gloves, goggles
5.2 Symptoms Following Exposure: Liquid irritates skin and eyes. Ingestion causes burning of mouth and throat, pain in the chest and abdomen, vomiting and diarrhea.
5.3 Treatment of Exposure: INGESTION: induce vomiting by giving large quantities of water. SKIN and EYES: flush with water for 15 minutes. Get medical attention.
5.4 Toxicity by Inhalation (Threshold Limit Value): Not established
5.5 Short-Term Inhalation Limits: Not established
5.6 Toxicity by Ingestion: Grade 1, oral rat LD50 = 8.91 g/kg
5.7 Late Toxicity: Not known
5.8 Vapor (Gas) Irritant Characteristics: Not applicable
5.9 Liquid or Solid Irritant Characteristics: Irritating to skin and eyes
5.10 Odor Threshold: Data not available

NOTES

SML	SODIUM METHYLATE

Common Synonyms Sodium methoxide	Solid	White	Odorless
	Mixes with water		

Fire	FLAMMABLE
Exposure	DUST Irritating to eyes, nose and throat SOLID Irritating to skin and eyes Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-2

Issue warning: high fire hazard
Isolate area
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

- 3.1 **Synonyms:** Sodium methoxide
- 3.2 **Coast Guard Compatibility Classification:** Not applicable
- 3.3 **Chemical Formula:** CH_3ONa
- 3.4 **IMCO/United Nations Numerical Designation:** 3.1/1431

4 OBSERVABLE CHARACTERISTICS

- 4.1 **Physical State (as shipped):** Solid
- 4.2 **Color:** White
- 4.3 **Odor:** None

5 HEALTH HAZARDS

- 5.1 **Personal Protective Equipment:** Self-contained breathing apparatus, rubber gloves and splash goggles or face shield
- 5.2 **Symptoms Following Exposure:** Inhalation of dust causes severe irritation and burning of nose and throat. Contact with eyes or skin causes severe irritation and burns. Ingestion causes burning of mouth and stomach
- 5.3 **Treatment for Exposure:** Get medical attention as soon as possible. Do not induce vomiting. INHALATION remove victim to fresh air. If not breathing, give artificial respiration. Keep warm and quiet. Get medical attention as soon as possible. EYES flush with plenty of water for at least 15 minutes. Get medical attention. SKIN wash with plenty of water. Then wash with dilute vinegar. INGESTION induce vomiting by administering a tablespoonful of mustard in a glass of warm water. Repeat until vomit fluid is clear. Then give milk of magnesia, beaten egg whites, or vegetable oil. Get medical attention. Keep victim warm and quiet. Do not give anything by mouth to an unconscious person. Loosen tight clothing such as collar, belt, or shoes
- 5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
- 5.5 **Short-Term Inhalation Limits:** Data not available
- 5.6 **Toxicity by Ingestion:** Data not available
- 5.7 **Late Toxicity:** Data not available
- 5.8 **Vapor (Gas) Irritant Characteristics:** Not pertinent
- 5.9 **Liquid or Solid Irritant Characteristics:** Data not available
- 5.10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

- 6.1 **Flash Point:** Not pertinent (combustible solid)
- 6.2 **Flammable Limits in Air:** Not pertinent
- 6.3 **Fire Extinguishing Agents:** Dry chemical, soda ash, lime or sand. Do not use water, foam, carbon dioxide or halogenated hydrocarbons
- 6.4 **Fire Extinguishing Agents Not to be Used:** Water, foam
- 6.5 **Special Hazards of Combustion Products:** Not pertinent
- 6.6 **Behavior in Fire:** Container may explode in fire. Sodium methoxide ignites spontaneously in contact with chlorinated hydrocarbons
- 6.7 **Ignition Temperature:** Not pertinent
- 6.8 **Electrical Hazard:** Not pertinent
- 6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** Reacts violently with water and moist air to form sodium hydroxide and methanol. The reaction is exothermic
- 7.2 **Reactivity with Common Materials:** Causes corrosion of aluminum, tin and zinc. Attacks rubber and plastics
- 7.3 **Stability During Transport:** Stable
- 7.4 **Neutralizing Agents for Acids and Caustics:** Water followed by dilute acetic acid or vinegar
- 7.5 **Polymerization:** Not pertinent
- 7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

- 8.1 **Aquatic Toxicity:** Data not available
- 8.2 **Waterfowl Toxicity:** Data not available
- 8.3 **Biological Oxygen Demand (BOD):** Data not available
- 8.4 **Food Chain Concentration Potential:** None

Continued on next page

NOTES

SNT	# SODIUM NITRITE

Common Synonyms	Solid	White	Odorless
Erinitrit Filmerin	Sinks and mixes with water		

[illegible]

Fire

Not flammable
Will increase the intensity of a fire
May cause fire on contact with combustibles
POISONOUS GASES MAY BE PRODUCED IN FIRE
[illegible]

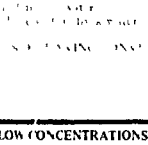
Exposure

CALL PHYSICIAN AT ONCE

DUST
Irritating to eyes, nose and throat
If inhaled will cause headache, difficult breathing, or loss of consciousness
[illegible]

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
If swallowed will cause headache, nausea, vomiting or loss of consciousness
[illegible]

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: oxidizing material
Restrict access
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Erinitrit, Filmerin
3 2 **Coast Guard Compatibility Classification** Not listed
3 3 **Chemical Formula** $NaNO_2$
3 4 **IMCO/United Nations Numerical Designation.** 5 1, 1500

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Dust mask, goggles or face shield, protective gloves
5 2 **Symptoms Following Exposure:** Ingestion (or inhalation of excessive amounts of dust) causes rapid drop in blood pressure, persistent and throbbing headache, vertigo, palpitations and visual disturbances, skin becomes flushed and sweaty, later cold and cyanotic, other symptoms include, nausea, vomiting, diarrhea (sometimes), fainting, methemoglobinemia. Contact with eyes causes irritation
5 3 **Treatment for Exposure:** INHALATION: move to fresh air, if exposure is severe, get medical attention. INGESTION: keep patient recumbent in a shock position and comfortable, warm, administer gastric lavage, consult a physician. EYES or SKIN: flush with water
5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion.** Grade 3, LD_{50} 50 - 500 mg/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable, but may intensify fire
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents.** Apply plenty of water to adjacent fires. Cool exposed containers with water
6 4 **Fire Extinguishing Agents Not to be Used**
6 5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fires
6 6 **Behavior in Fire:** May increase intensity of fire if in contact with combustible material. May melt and flow at elevated temperatures
6 7 **Ignition Temperature.** Not pertinent
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate.** Not pertinent

NOTES

SOX	# SODIUM OXALATE

Common Synonyms			
Ethanedioic acid disodium salt	Solid	White	Odorless
	Sinks and mixes slowly with water		

Fire

Not flammable

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause difficult breathing or loss of consciousness

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
If swallowed will cause nausea, vomiting or loss of consciousness

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning. Water contaminant
Dispersed and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Ethanedioic acid disodium salt
3 2 **Coast Guard Compatibility Classification.** Not listed
3 3 **Chemical Formula.** $Na_2C_2O_4$
3 4 **IMCO/United Nations Numerical Designation.** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Solid
4 2 **Color.** White
4 3 **Odor.** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Dust mask, goggles or face shield, rubber gloves
5 2 **Symptoms Following Exposure.** Inhalation or ingestion causes pain in throat, esophagus and stomach, mucous membranes turn white, other symptoms include vomiting, severe pureing, weak pulse, cardiovascular collapse, neuromuscular symptoms and kidney damage. Contact with eyes or skin causes irritation.
5 3 **Treatment for Exposure.** In prompt: INHALATION move to fresh air, if exposure to dust is severe get medical attention. INGESTION give dilute calcium lactate, lime water or milk, administer gastric lavage, consult physician, watch for edema of the glottis and delayed constriction of esophagus. EYES or SKIN flush with water.
5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available
5 5 **Short-Term Inhalation Limits.** Data not available
5 6 **Toxicity by Ingestion.** Grade 3 LD$_{50}$ 500 mg/kg

NOTES

SPP SODIUM PHOSPHATE

Common Synonyms	Solid (powder or granules)	White	Odorless
	Sinks and mixes with water		

Fire	Not flammable
Exposure	DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing SOLID Irritating to skin and eyes. If swallowed will cause nausea and vomiting
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446 4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** "Sodium phosphate" is generic term and includes the following (1) monosodium phosphate (MSP sodium phosphate monobasic) (2) disodium phosphate (DSP sodium phosphate dibasic) (3) trisodium phosphate (TSP sodium phosphate tribasic) (4) sodium acid pyrophosphate (ASPP SAPP disodium dihydrogen pyrophosphate) (5) tetrasodium pyrophosphate (TSPP)

Continued on page 4

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Granular or powdered solid some may appear glassy

4 2 **Color** White

4 3 **Odor** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** U S Bu Mines toxic dust mask protective gloves chemical type goggles full cover clothing

5 2 **Symptoms Following Exposure** Inhalation of heavy dust may irritate nose and throat Ingestion may injure mouth throat and gastrointestinal tract resulting in nausea vomiting cramps and diarrhea pain and burning in mouth may occur Contact with eyes produces local irritation can lead to chronic damage Contact with skin produces local irritation repeated or prolonged contact can lead to dermatitis

5 3 **Treatment for Exposure** If the following measures do not eliminate the symptoms see a physician INHALATION give large amounts of water or warm salty water to induce vomiting repeat until vomitus is clear milk eggs or olive oil may then be given to soothe stomach EYES immediately flush with large amounts of water for at least 15 min holding eyelids apart to ensure flushing of entire surface avoid chemical neutralizers SKIN flush with water avoid chemical neutralizers

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity** Data not available

5 8 **Vapor (Gas) Irritant Characteristics** Data not available

5 9 **Liquid or Solid Irritant Characteristics** Data not available

5 10 **Odor Threshold.** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air** Not flammable

6 3 **Fire Extinguishing Agents** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6 5 **Special Hazards of Combustion Products** Not pertinent

6 6 **Behavior in Fire** May melt with loss of steam

6 7 **Ignition Temperature** Not pertinent

6 8 **Electrical Hazard** Not pertinent

6 9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** All dissolve readily MSP and ASPP form weakly acidic solutions TSP forms strongly caustic solution similar to soda ive TSPP forms weakly alkaline solution

7 2 **Reactivity with Common Materials** When wet mild steel or brass may be corroded by MSP ASPP and DSP The others are not considered corrosive

7 3 **Stability During Transport:** All forms of sodium phosphate are stable TSP tends to pick up moisture from air and form a hard cake

7 4 **Neutralizing Agents for Acids and Caustics:** For those sodium phosphates that form acidic or basic solutions dilution with water removes hazard

7 5 **Polymerization** Not pertinent

7 6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity** 126 ppm 72 hr daphnia magna TLm fresh water

8 2 **Waterfowl Toxicity** Data not available

8 3 **Biological Oxygen Demand (BOD)** None

8 4 **Food Chain Concentration Potential.** None

4.2 **Color:** White

4.3 **Odor.** Odorless

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Dust respirator, goggles, rubber gloves

5.2 **Symptoms Following Exposure:** When heated to decomposition it emits toxic fumes of sulfur oxides. Because it rapidly decomposes in the presence of acids, it should not be used in the presence of acids. Exposure to the dust may cause irritation of the eyes, skin, and respiratory tract. Ingestion may cause gastrointestinal disturbances.

5.3 **Treatment for Exposure:** INGESTION: Induce vomiting. Get medical attention immediately. INHALATION: Remove victim to fresh air. Get medical attention immediately. EYES: Flush with water for 15 minutes. Get medical attention. SKIN: Wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** No information found.

5.5 **Short-Term Inhalation Limits.** No information found.

5.6 **Toxicity by Ingestion** GRAS 1 (Generally Recognized as Safe)

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** White
4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber or plastic gloves, standard goggles, rubber or plastic apron
5.2 **Symptoms Following Exposure:** Inhalation of dust causes irritation of nose and throat. Ingestion of large doses causes vomiting, extreme cerebral excitement, convulsions, and death in 10–48 hrs; short poisoning can cause flu like symptoms, skin rashes, weakness, fatigue, vertigo, nausea, vomiting, diarrhea, confusion. Contact with eyes causes irritation. Prolonged contact with skin may produce various skin eruptions, dizziness, cramps, nausea, and mild cases of disturbance of the nervous system.
5.3 **Treatment for Exposure:** INHALATION: move to fresh air; if exposure has been great, get medical attention. INGESTION: consult physician; hemodialysis is recommended as the treatment of choice. EYE OR SKIN: flush with water for 15 min.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2. LD$_{50}$: 0.5 g/kg
5.7 **Late Toxicity:** Causes birth defects in lab animal embryos
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Non-flammable
6.2 **Flammable Limits in Air:** Non-flammable
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Irritating oxides of sulfur and nitrogen may form in fire
6.6 **Behavior in Fire:**
6.7 **Ignition Temperature:** Not pertinent
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:**
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 1,240 ppm 24 hr fish killed fresh water
>300 ppm 48 hr green crab TL$_m$ aerated salt water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** None

NOTES

SBT	SORBITOL

Common Synonyms
Sorbol
Sorbit
1,2,3,4,5,6-Hexanehexol
D-Glucitol

Liquid | Colorless | Odorless

Sinks and mixes with water

Fire

Not flammable

Exposure

LIQUID
Will burn skin and eyes

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

NOTES

REVISED 1978

SRA

STEARIC ACID

Common Synonyms
Octadecanoic acid
n-Octadecylic acid
Stearophanic acid
1-Heptadecanecarboxylic acid

Solid. White Mild odor

Floats on water

Fire

Combustible

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** 1-Heptadecanecarboxylic acid; Octadecanoic acid; n-Octadecylic acid; Stearophanic acid

3.2 **Coast Guard Compatibility Classification** Not listed

3.3 **Chemical Formula:** $CH_3(CH_2)_{16}COOH$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White

4.3 **Odor:** Faint

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** For prolonged exposure: respirator with dust, fume and mist cartridge; impervious gloves; safety goggles; impervious clothing

5.2 **Symptoms Following Exposure:** Compound is generally considered non-irritating to the skin. Inhalation of dust may cause irritation of the nose and throat. Dust causes mild irritation to eyes.

5.3 **Treatment for Exposure:** INGESTION: do not induce vomiting; dilute with water or milk; get medical attention. SKIN: wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion:** Grade 1 LD50 > 5 g/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** 20 ppm

6 FIRE HAZARDS

6.1 **Flash Point.** (Powdered solid) 410°-435°F (OC); 365°F (CC)

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents.** Foam, dry chemical or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water or foam may cause frothing

6.5 **Special Hazards of Combustion Products:**

6.6 **Behavior in Fire:**

6.7 **Ignition Temperature:** 750°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

NOTES

STY	STYRENE

Styrol
Vinylbenzene
Phenylethylene

Water: liquid Colorless to light yellow Sweet pleasant odor

Floats on water. Flammable. Irritating gas is produced.

Exposure

FLAMMABLE
CONTAINERS MAY EXPLODE IN FIRE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

VAPOR
Irritating to eyes, nose and throat
If inhaled, will cause dizziness or loss of consciousness.

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Floating to shoreline
May be dangerous if it enters water intakes.

NOTES

REVISED 1978

SFA

SULFURIC ACID

Common Synonyms
Oil of vitriol
Battery acid
Fertilizer acid

Oily liquid — Colorless — Odorless

Sinks and mixes violently with water. Irritating fumes produced

Fire

Not flammable
May cause fire on contact with combustibles
Flammable gas may be produced on contact with metals
POISONOUS GAS MAY BE PRODUCED IN FIRE

Exposure

MIST
Irritating to eyes, nose and throat
If inhaled, will cause coughing, difficult breathing, or loss of consciousness

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

HARMFUL TO AQUA LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: corrosive
Restrict access
Disperse and flush with care

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Battery acid
Chamber acid
Fertilizer acid
Oil of vitriol

3.2 **Coast Guard Compatibility Classification** Sulfuric acid

3.3 **Chemical Formula:** H_2SO_4

3.4 **IMCO/United Nations Numerical Designation** NO/1830

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless (pure) to dark brown

4.3 **Odor:** Odorless unless hot. Then choking

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment** Safety shower, eyewash fountain, safety goggles, face shield, approved respirator (self-contained or air-line), rubber safety shoes, rubber apron

5.2 **Symptoms Following Exposure** Inhalation of vapor from hot concentrated acid may injure lungs. Swallowing may cause severe internal burns and death. Contact with skin or eyes causes severe burns.

5.3 **Treatment for Exposure** Call a doctor. INHALATION: oxygen, set to for delayed pulmonary reaction. INGESTION: have victim drink water if possible, do NOT induce vomiting. EYES AND SKIN: wash with large amounts of water for at least 15 min., do not use oils or ointments in eyes, treat skin burns.

5.4 **Toxicity by Inhalation, (Threshold Limit Value):** 1 mg/m³

5.5 **Short-Term Inhalation Limits** 10 mg/m³ for 5 min.; 5 mg/m³ for 10 min.; 2 mg/m³ for 30 min.; 1 mg/m³ for 60 min.

5.6 **Toxicity by Ingestion** No effects except those associated with tissue damage.

5.7 **Late Toxicity** None

5.8 **Vapor (Gas) Irritant Characteristics** Vapors from hot acid (77-98%) cause moderate irritation of eyes and respiratory system. Effects temporary.

5.9 **Liquid or Solid Irritant Characteristics** 77-98% acid causes severe second and third degree burns of skin on short contact and is very injurious to the eyes.

5.10 **Odor Threshold** Greater than 1 mg/m³

6 FIRE HAZARDS

6.1 **Flash Point** Not flammable

6.2 **Flammable Limits in Air** Not flammable

6.3 **Fire Extinguishing Agents.** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used** Water used on adjacent fires should be carefully handled

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire** Not flammable

6.7 **Ignition Temperature** Not flammable

6.8 **Electrical Hazard** None

6.9 **Burning Rate** Not flammable

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water.** Reacts violently with evolution of heat. Spattering occurs when water is added to the compound.

7.2 **Reactivity with Common Materials** Extremely hazardous in contact with many materials, particularly metals and combustibles. Dilute acid reacts with most metals releasing hydrogen which can form explosive mixtures with air in confined spaces.

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics** Dilute with water, then neutralize with lime, limestone, or soda ash.

7.5 **Polymerization.** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity** 24 ppm/24 hr, bluegill, lethal, fresh water
42.5 ppm/48 hr, prawn, lethal, salt water

8.2 **Waterfowl Toxicity** Data not available

8.3 **Biological Oxygen Demand (BOD):** None

8.4 **Food Chain Concentration Potential.** None

9. SELECTED MANUFACTURERS

NOTES

REVISED 1978

SAC SULFURIC ACID, SPENT

Common Synonyms
Dilute sulfuric acid

Oily liquid | Colorless to dark brown | Odorless

Sinks and mixes with water

Fire

Not flammable
Poisonous gas may be produced in fire
Flammable gas may be produced on contact with metals

Exposure

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: corrosive
Restrict access
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** No common synonyms
3 2 **Coast Guard Compatibility Classification** *Sulfuric acid*
3 3 **Chemical Formula.** H_2SO_4 H_2O
3 4 **IMCO/United Nations Numerical Designation:** NO 1832

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color.** Colorless to dark brown
4 3 **Odor.** Odorless

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Chemical safety goggles and face shield; rubber gloves, boots, and apron
5 2 **Symptoms Following Exposure.** Contact with eyes or skin causes severe burns; blindness depending on the strength of the acid. Ingestion causes severe irritation of mouth and stomach
5 3 **Treatment for Exposure.** Call a doctor. INGESTION: do NOT induce vomiting. SKIN OR EYES: flush affected parts with large amounts of water for at least 15 min; do NOT use oils or ointments in eyes. Treat burns
5 4 **Toxicity by Inhalation (Threshold Limit Value).** Not pertinent
5 5 **Short-Term Inhalation Limits.** Not pertinent
5 6 **Toxicity by Ingestion.** No effects except those stemming from acidic damage
5 7 **Late Toxicity.** None
5 8 **Vapor (Gas) Irritant Characteristics.** Non volatile
5 9 **Liquid or Solid Irritant Characteristics.** Severe skin irritant. Can cause second and third degree burns on short contact and is very injurious to the eye
5 10 **Odor Threshold.** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point.** Not flammable
6 2 **Flammable Limits in Air.** Not flammable
6 3 **Fire Extinguishing Agents.** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used.** Not pertinent
6 5 **Special Hazards of Combustion Products.** Not pertinent
6 6 **Behavior in Fire.** Not pertinent
6 7 **Ignition Temperature:** Not flammable
6 8 **Electrical Hazard.** Not pertinent
6 9 **Burning Rate:** Not flammable

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** None unless strength is above 80–90% in which case heat is liberated
7 2 **Reactivity with Common Materials:** Attacks many metals releasing flammable hydrogen gas
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics.** Limestone, lime or soda ash
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization.** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity.**
24 Sppm/24 hr bluegill lethal/fresh water
42 Sppm/48 hr prawn LC50/salt water
8 2 **Waterfowl Toxicity.** Data not available
8 3 **Biological Oxygen Demand (BOD).** None
8 4 **Food Chain Concentration Potential.** None

9 SELECTED MANUFACTURERS

Not manufactured. Dilute or spent sulfuric acid is formed as a result of various uses of the concentrated acid.

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Purity depends on the process in which the original acid is used. The strength (in water) is probably below 80% and the solution may contain a wide variety of metals and organic compounds in solution
10 2 **Storage Temperature:** Ambient
10 3 **Inert Atmosphere:** No requirement
10 4 **Venting.** Open

NOTES

REVISED 1978

SXX SULFUR (LIQUID)

Common Synonyms		
Brimstone	Liquid (molten solid) Yellow, orange, tan, brown or gray Thickens and sinks in water	Faint rotten eggs odor

Fire

Combustible.
POISONOUS GAS IS PRODUCED IN FIRE.

Exposure

CAUTION: MOLTEN SULFUR
LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Sulphur (liquid), Brimstone (liquid)

3 2 **Coast Guard Compatibility Classification:** Sulfur, molten

3 3 **Chemical Formula** S

3 4 **IMCO/United Nations Numerical Designation** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid

4 2 **Color:** Bright yellow, orange, tan, brown, gray, depending upon amount and type of hydrocarbon impurity

4 3 **Odor:** Pure sulfur is odorless, but traces of hydrocarbon impurity may impart an oily and/or rotten egg odor. Recovered sulfur usually has a strong rotten egg odor.

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Safety goggles with side shields, approved respirator, heat resistant gloves, rubber boots, and rubber coat. For molten sulfur, refer to hydrogen sulfide.

5 2 **Symptoms Following Exposure:** Can cause severe irritation of eyes. Irritates skin. If recovered sulfur, refer to hydrogen sulfide.*

5 3 **Treatment for Exposure.** EYES: wash excess quickly with cool water for at least 15 min. SKIN: Treat molten sulfur burns with petroleum jelly or mineral oil. If recovered sulfur, treat as for hydrogen sulfide.*

5 4 **Toxicity by Inhalation (Threshold Limit Value).** If recovered sulfur, see hydrogen sulfide.*

5 5 **Short-Term Inhalation Limits.** If recovered sulfur, see hydrogen sulfide.*

5 6 **Toxicity by Ingestion.** Grade 3 FDA Code of Safety

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics.** None reported

5 9 **Liquid or Solid Irritant Characteristics.** Minimum hazard. If soaked on clothing and allowed to remain in contact, smarting and reddening of the skin.

5 10 **Odor Threshold.** If recovered sulfur, see hydrogen sulfide.*

*Significant amounts of hydrogen sulfide, a very poisonous gas, may collect in poorly ventilated containers of liquid sulfur that has been recovered from hydrogen sulfide.

6 FIRE HAZARDS

6 1 **Flash Point.** 405°F C.C. for recovered sulfur, see hydrogen sulfide.

6 2 **Flammable Limits in Air:** Not pertinent

6 3 **Fire Extinguishing Agents:** Water

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products.** Produces toxic sulfur dioxide gas.

6 6 **Behavior in Fire.** Burns with a pale blue flame that may be difficult to see in daylight.

6 7 **Ignition Temperature.** 450°F for recovered sulfur, see hydrogen sulfide.

6 8 **Electrical Hazard.** Not pertinent

6 9 **Burning Rate.** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water.** No reaction

7 2 **Reactivity with Common Materials:** No hazardous reactions

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7 5 **Polymerization.** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity.** 10,000 ppm, 96 hr, mosquito fish, TL$_m$, fresh water

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD).** Data not available

8 4 **Food Chain Concentration Potential.** None

9. SELECTED MANUFACTURERS

1. Freeport Minerals Co.
   Freeport Sulphur Co. Division
   521 Grayson St.
   New Orleans, La. 70112
2. Pennzoil United, Inc.
   Duval Corp.
   19 & First City Nat'l Bank Bldg.
   Houston, Tex. 77002
3. Texas Gulf Sulfur
   200 Park Ave.
   New York, N.Y. 10017

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Trasch liquid sulfur 98.8+%; solid sulfur is sold in many varieties and grades; these are not presently covered in this manual.

10 2 **Storage Temperature:** 270°F

10 3 **Inert Atmosphere.** Ventilated (natural)

10 4 **Venting:** Open

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 446-3)

NOTES

SFM

SULFUR MONOCHLORIDE

Common Synonyms

Oily liquid | Yellow to red | Irritating sharp odor

Mixes and reacts with water. Poisonous vapor is produced

Fire

Combustible

Exposure

VAPOR
Irritating to eyes.
Poisonous if inhaled

LIQUID
Will burn skin and eyes
Poisonous if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - corrosive air contaminant, water contaminant
Restrict access
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification** Not applicable
3 3 **Chemical Formula:** S_2Cl_2
3 4 **IMCO United Nations Numerical Designation.** NO 1828

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid
4 2 **Color** Yellowish red
4 3 **Odor:** Suffocating pungent nauseating irritating

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Chemical safety goggles and face shield; canister type gas mask (high concentrations) or self contained breathing apparatus (heavy concentrations); chemically resistant shoes or boots, apron, and long sleeve gloves

5 2 **Symptoms Following Exposure** Vapor irritates eyes and respiratory system; pulmonary edema may result. Liquid burns and damages eyes. Unless removed at once, it burns the skin. Ingestion causes severe irritation to mouth and stomach

5 3 **Treatment for Exposure:** INHALATION: remove to fresh air; use artificial respiration and oxygen if required; call doctor. INGESTION: give water; do NOT induce vomiting; call a doctor. EYES: flush with water for at least 15 min; obtain medical attention if any. SKIN: flush with water; remove contaminated clothing and shower

5 4 **Toxicity by Inhalation (Threshold Limit Value).** 1 ppm

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion** Data not available

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat; in severe cases, edema and lung injury. They cannot be tolerated even at low concentrations

5 9 **Liquid or Solid Irritant Characteristics** Severe skin irritant. Causes second and third degree burns on short contact and is very irritating to the eyes

5 10 **Odor Threshold** Data not available

6. FIRE HAZARDS

6 1 **Flash Point** 245°F C.C. = 266°F O.C.
6 2 **Flammable Limits in Air** Data not available
6 3 **Fire Extinguishing Agents:** Dry chemical, carbon dioxide, water spray
6 4 **Fire Extinguishing Agents Not to be Used** Water reacts violently with compound
6 5 **Special Hazards of Combustion Products** Toxic and corrosive fumes are evolved when heated
6 6 **Behavior in Fire** Not pertinent
6 7 **Ignition Temperature.** 453°F
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate** Data not available

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water** Reacts violently with water to produce heat and hydrogen chloride fumes. The solution is strongly acid
7 2 **Reactivity with Common Materials.** The liquid dissolves rubber and plastics. After reaction with water, the strong acid formed attacks metals, generating flammable hydrogen gas
7 3 **Stability During Transport** Stable
7 4 **Neutralizing Agents for Acids and Caustics** After reaction with water, the acid formed can be neutralized with lime or soda ash
7 5 **Polymerization** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity** Data not available
8 2 **Waterfowl Toxicity.** Data not available
8 3 **Biological Oxygen Demand (BOD)** Data not available
8 4 **Food Chain Concentration Potential.** None

NOTES

REVISED 1978

SCL

SULFURYL CHLORIDE

Common Synonyms

Waters liquid Colourless to pale yellow [illegible] and odor

Mixes and reacts violently with water. Poisonous gas is produced.

Fire

Not flammable.
Flammable gas may be produced on contact with metals.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause coughing, difficult breathing or loss of consciousness.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-4

Issue warning. Isolate. Remove all contaminant.
Restrict access.
Evacuate area.
Disperse and flush with care.

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** None common synonyms.
3.2 **Coast Guard Compatibility Classification:** Not applicable.
3.3 **Chemical Formula:** SO_2Cl_2
3.4 **IMCO United Nations Numerical Designation:** NA 1834

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless to light yellow
4.3 **Odor:** Acrid choking.

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical goggles and face shield. Mask with acid vapor canister, rubber gloves and boots.
5.2 **Symptoms Following Exposure:** Vapor causes severe inflammation of eyes and respiratory system. Liquid burns eyes and skin. Ingested can cause severe chemical burns and death.
5.3 **Treatment for Exposure:** Call a doctor. INHALATION: remove victim to fresh air and maintain artificial respiration if required. INGESTION: give water to drink. DO NOT induce vomiting. EYES: flush with water for at least 5 min. SKIN: wash with large amounts of water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available.
5.5 **Short-Term Inhalation Limits:** Data not available.
5.6 **Toxicity by Ingestion:** Data not available.
5.7 **Late Toxicity:** None.
5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes severe irritation to eyes and throat and can cause eye and lung injury. Low amounts tolerated even at low concentrations.
5.9 **Liquid or Solid Irritant Characteristics:** Liquid severely irritating; may cause pain and second degree burns after a few minutes of contact.
5.10 **Odor Threshold:** Data not available.

6 FIRE HAZARDS

6.1 **Flash Point.** Not flammable.
6.2 **Flammable Limits in Air:** Not flammable.
6.3 **Fire Extinguishing Agents:** Not pertinent.
6.4 **Fire Extinguishing Agents Not to be Used:** Water applied to adjacent fire should be handled carefully.
6.5 **Special Hazards of Combustion Products:** Not pertinent.
6.6 **Behavior in Fire:** Toxic and irritating gases are generated.
6.7 **Ignition Temperature:** Not flammable.
6.8 **Electrical Hazard:** Not pertinent.
6.9 **Burning Rate:** Not flammable.

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts vigorously with water releasing hydrochloric fumes and forming sulfuric acid.
7.2 **Reactivity with Common Materials:** Acids formed by reaction with moisture attack most metals and liberate flammable hydrogen gas.
7.3 **Stability During Transport:** Stable.
7.4 **Neutralizing Agents for Acids and Caustics:** Acid formed by reaction with water can be neutralized by caustic, lime, soda ash.
7.5 **Polymerization:** Not pertinent.
7.6 **Inhibitor of Polymerization:** Not pertinent.

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available.
8.2 **Waterfowl Toxicity:** Data not available.
8.3 **Biological Oxygen Demand (BOD):** None.
8.4 **Food Chain Concentration Potential:** None.

9 SELECTED MANUFACTURERS

NOTES

REVISED 1978

TLO	# TALLOW

Common Synonyms
Edible tallow
Inedible tallow

Oily liquid | Dark yellow | Waxy odor

Floats on water. Freezing point is 35°F - 45°F

Fire

Combustible

Exposure

Not harmful

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms** Edible tallow
Inedible tallow
Tallow oil

3 2 **Coast Guard Compatibility Classification:** Ester

3 3 **Chemical Formula:** Not pertinent

3 4 **IMCO/United Nations Numerical Designation.** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Dark yellow

4 3 **Odor:** Waxy

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, protective clothing if exposure to hot liquid is possible

5 2 **Symptoms Following Exposure** Hot liquid can burn eyes and skin

5 3 **Treatment for Exposure:** Treat burns caused by hot liquid

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Not pertinent

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion:** Grade 0 [Deadline] g/kg

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics.** Non-volatile

5 9 **Liquid or Solid Irritant Characteristics:** None

5 10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point:** 509°F C.C.

6 2 **Flammable Limits in Air:** Not pertinent

6 3 **Fire Extinguishing Agents** Foam, water, carbon dioxide, or dry chemical

6 4 **Fire Extinguishing Agents Not to be Used:** Water or foam may cause frothing

TFA — TALLOW FATTY ALCOHOL

Common Synonyms			
Higher fatty alcohol Stearyl alcohol crude	Waxy solid	White	Mild soapy odor
	Floats on water		

Fire	Combustible
Exposure	SOLID Not harmful
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Higher fatty alcohol; Stearyl alcohol crude
3 2 **Coast Guard Compatibility Classification:** Alcohol
3 3 **Chemical Formula** $C_{16}H_{33}OH$ (approx.)
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Waxy white
4 3 **Odor:** Mild soapy

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield; rubber gloves
5 2 **Symptoms Following Exposure:** Material is practically non-toxic. Contact with eyes or prolonged contact with skin can cause mild irritation
5 3 **Treatment for Exposure:** EYES: flush with water; if irritation persists, see a doctor. SKIN: wipe off; wash with soap and water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Not pertinent
5 6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 1,900 mg/kg (rat)

NOTES

TNA — TANNIC ACID

Common Synonyms
Tannin
Chinese tannin
Gallotannic acid
Gallotannin
Glycerite

Solid — Light yellow to tan — Faint odor

Sinks and mixes with water

Fire

Combustible

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing

SOLID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Chinese tannin
Gallotannic acid, Gr Botannin
Glycerite Tannin

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $C_{76}H_{52}O_{46}$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Solid

4 2 **Color:** Light tan to yellow

4 3 **Odor** Faint characteristic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles or face shield, protective gloves

5 2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat, coughing and sneezing. Ingestion may cause gastric disturbance. Contact with eyes causes irritation.

5 3 **Treatment for Exposure:** INHALATION: move to fresh air. INGESTION: give large amount of water, induce vomiting. EYES or SKIN: flush with water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2, oral LD_{50} = 2 300 mg/kg (rats)

5 7 **Late Toxicity:** Causes cancer of liver in rats

5 8 **Vapor (Gas) Irritant Characteristics.** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

NOTES

TES

2,4,5-T (ESTERS)

Common Synonyms

Butyl 2,4,5-trichlorophenoxyacetate
Butoxypropyl 2,4,5-trichlorophenoxyacetate
Isooctyl 2,4,5-trichlorophenoxyacetate
2-Ethylhexyl 2,4,5-trichlorophenoxyacetate

Liquid | Yellowish brown | Mild odor

Sinks in water

Fire

Combustible
Irritating gases may be produced when heated

Exposure

LIQUID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-6)

Issue warning - water contaminant
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Butyl 2,4,5-trichlorophenoxyacetate; Butoxypropyl trichlorophenoxyacetate; Isooctyl trichlorophenoxy acetate; 2-Ethylhexyl trichlorophenoxy acetate

3 2 **Coast Guard Compatibility Classification:** Not listed

(continued on page 4)

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Amber dark amber

4 3 **Odor:** Very weak mixtures with kerosene or diesel oil have odor of the solvent

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield and rubber gloves

5 2 **Symptoms Following Exposure:** Ingestion causes intestinal disturbances. Contact with eyes or skin causes mild irritation; transient corneal injury may occur

5 3 **Treatment for Exposure:** INGESTION: promptly induce vomiting and get medical attention. EYES: flush with flowing water and get medical attention. SKIN: wash with soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 3; LD50 - 500 mg/kg

5 7 **Late Toxicity:** Data not available

TBT — TETRABUTYL TITANATE

Common Synonyms

Titanium butoxide
Butyl titanate
Titanium tetrabutoxide
Butyl titanate monomer

Liquid | Colorless to light yellow | Weak alcohol-like odor

May float or sink in water. Reacts with water.

Fire

Combustible
Containers may explode in fire

Exposure

LIQUID
Irritating to skin and eyes.
If swallowed will cause nausea and vomiting.

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fowling to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning - water contaminant
Restrict access
Mechanical containment
Disperse and flush

2. LABELS

No label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Butyl titanate, Butyl titanate monomer, Orthotitanic acid tetrabutyl ester, Titanium butoxide, Titanium tetrabutoxide

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** $Ti(OC_4H_9)_4$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless to pale yellow

4 3 **Odor:** Weak alcoholic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self-contained breathing apparatus or organic canister mask, goggles or face shield, rubber gloves

5 2 **Symptoms Following Exposure:** Inhalation causes nonspecific irritation of the upper respiratory tract. Contact with liquid may cause corneal damage in eyes and local irritation of skin. Ingestion causes nonspecific irritation of gastrointestinal tract, nausea, vomiting, cramps and diarrhea. In severe cases, central nervous system depression may result.

5 3 **Treatment for Exposure:** INHALATION: move from contaminated atmosphere. If symptoms of respiratory discomfort persist, see a physician. EYES: immediately flush with large amounts of running water for a minimum of 15 min., obtain medical attention if irritation persists. SKIN: immediately flush affected areas with water, obtain medical attention if irritation persists. INGESTION: give large amounts of water or warm salts water to induce vomiting; if this measure is unsuccessful, vomiting may be induced by tickling the back of the patient's throat with a finger, vomiting should be encouraged until vomitus is clear, obtain medical attention if abdominal discomfort persists.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Data not available

13 13 **Heat of Combustion:** (est.) -14,600 Btu/lb = -8,100 cal/g = -340 × 10⁵ J/kg

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution:** Not pertinent

13 16 **Heat of Polymerization:** Not pertinent

(Continued on next page)

NOTES

TEC — TETRACHLOROETHANE

Common Synonyms 1,1,2,2-Tetrachloroethane Acetylene tetrachloride	Liquid	Colorless to pale yellow	Sweet odor
	Sinks in water		

Fire

Not flammable
Poisonous gases may be produced when heated

Exposure

VAPOR
Irritating to eyes, nose and throat
Harmful if inhaled

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Irritating to skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison at contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Acetylene tetrachloride; 1,1,2,2-Tetrachloroethane

3.2 **Coast Guard Compatibility Classification:** Halogenated hydrocarbon

3.3 **Chemical Formula:** $CHCl_2CHCl_2$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless; slightly yellow; light yellowish green

4.3 **Odor:** Chloroform-like, pleasant like carbon tetrachloride; mild sweetish; similar to several other chlorinated hydrocarbons

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical safety goggles; plastic face shield; air or oxygen supplied mask; safety hat with brim; solvent proof apron; synthetic rubber gloves

5.2 **Symptoms Following Exposure:** Compound is a powerful narcotic and liver poison; may also cause changes in blood composition and neurological disturbances. Repeated exposure by inhalation can be fatal. Ingestion causes vomiting, diarrhea, severe mucosal injury, liver necrosis, cyanosis, unconsciousness, loss of reflexes, and death. Contact with eyes causes irritation and lachrymation. Can be absorbed through the skin and may produce severe skin lesions.

5.3 **Treatment for Exposure:** INHALATION: remove victim from exposure, begin artificial respiration if breathing has ceased. INGESTION: induce vomiting, call a physician. EYES: irrigate with water for 15 min. SKIN: remove clothing, wash skin thoroughly with warm water and soap.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm

5.5 **Short-Term Inhalation Limits:** 10 ppm/30 min

5.6 **Toxicity by Ingestion:** Grade 3; oral LD_{50} = 200 mg/kg (rat)

5.7 **Late Toxicity:** Liver poisoning; nervous disorders

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin

5.10 **Odor Threshold:** 0.5 ppm

6 FIRE HAZARDS

6.1 **Flash Point.** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products.** Irritating hydrogen chloride vapor may form in fire

6.6 **Behavior in Fire:**

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** May attack some forms of plastics

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** Data not available

NOTES

TTE

TETRACHLOROETHYLENE

Common Synonyms
Tetrasap
Perclene
Perchlorethylene

Water: liquid Color: clear Sweet odor

Stress in water: Irritating vapor is produced

Fire

Not flammable
Poisonous gases are produced when heated

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause difficult breathing or loss of consciousness

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

NOTES

TTP	# TETRAETHYLENEPENTAMINE

Common Synonyms 1,11-Diamino-3,6,9-triazaundecane	Liquid Yellow Ammonia odor May float or sink in water
Fire	Combustible POISONOUS GASES MAY BE PRODUCED IN FIRE
Exposure	LIQUID Will burn skin and eyes If swallowed will cause nausea
Water Pollution	Effect of low concentrations on aquatic life is unknown May be fouling to shoreline May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning water contaminant
Restrict access
Disperse and flash

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1,11 Diamino-3,6,9 triazaundecane

3 2 **Coast Guard Compatibility Classification:** Amphatic amine

3 3 **Chemical Formula:** $H_2NCH_2CH_2NHCH_2CH_2NHCH_2CH_2NH_2$

3 4 **IMCO/United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Yellow

4 3 **Odor:** Ammoniacal disagreeable penetrating

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Air supplied respirator rubber gloves complete eye protection impervious apron

5 2 **Symptoms Following Exposure:** Inhalation may cause nausea and slight irritation, compound is a sensitizer and prolonged contact may cause asthma Ingestion can cause burns of mouth esophagus and possibly stomach Contact with eyes or skin may cause burns Repeated skin contact may cause dermatitis

5 3 **Treatment for Exposure.** INHALATION remove victim to fresh air give oxygen if breathing is difficult treat allergic manifestations by usual methods INGESTION do NOT induce vomiting give large quantities of water give at least one ounce of vinegar in an equal amount of water get medical attention EYES immediately flush with plenty of water get medical care SKIN flush with plenty of water

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion** Grade 2 oral LD_{50} = 3,990 mg/kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations The effect is temporary

5 9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure may cause second degree burns on long exposure

5 10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6 1 **Flash Point.** 340°F O C

6 2 **Flammable Limits in Air:** (est) 0 8% 4 6%

6 3 **Fire Extinguishing Agents.** Alcohol foam dry chemical or carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used** Water or foam may cause frothing

6 5 **Special Hazards of Combustion Products:** Ammonia and toxic oxides of nitrogen may form in fires

6 6 **Behavior in Fire.**

6 7 **Ignition Temperature:** 572°F

6 8 **Electrical Hazard.** Data not available

6 9 **Burning Rate** Data not available

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials** May attack some forms of plastics

Continued on page 2 of 5

NOTES

TEL	# TETRAETHYL LEAD

Common Synonyms
TEL
Lead tetraethyl

Oily liquid Colorless but generally dyed red Fruity odor

Sinks in water Poisonous flammable vapor is produced

AVOID CONTACT WITH LIQUID AND VAPOR

Fire

Combustible
POISONOUS GASES ARE PRODUCED IN FIRE
Containers may explode in fire
Vapor may explode if ignited in an enclosed area

Exposure

CALL FOR MEDICAL AID

VAPOR
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
Irritating to eyes

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
May burn eyes

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning poison
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

POISON

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms** Lead tetraethyl
3 2 **Coast Guard Compatibility Classification** Special class
3 3 **Chemical Formula.** $Pb(C_2H_5)_4$
3 4 **IMCO United Nations Numerical Designation** 1649

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid
4 2 **Color:** Dyed red or other distinctive color
4 3 **Odor** Sweet

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Organic vapor type canister face mask for short periods of time; type for longer periods; neoprene coated liquid proof gloves; protective clothing; face shield; white or light colored clothing; rubber shoes or boots

5 2 **Symptoms Following Exposure** Increased urinary output of lead. If large degree of absorption by inhalation, vapors initially may cause insomnia, excitability, delirium, coma and death. Direct contact with eyes, Lead

5 3 **Treatment for Exposure** Remove victim from contaminated area and consult physician immediately. INGESTION induce vomiting. SKIN wash immediately with kerosene or similar type petroleum distillate followed by soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value)** 0.1 mg/m³

5 5 **Short-Term Inhalation Limit:** 0.15 mg Pb/m³ for 30 min

5 6 **Toxicity by Ingestion** Oral rat LD_{50} = 17 mg/kg

5 7 **Late Toxicity:** Lead poisoning

5 8 **Vapor (Gas) Irritant Characteristics** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure; may cause secondary burns on long exposure

5 10 **Odor Threshold.** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** 200°F C.C. [93.3°C O.C.]
6 2 **Flammable Limits in Air:** Data not available
6 3 **Fire Extinguishing Agents:** Water, foam, dry chemical or carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products.** Toxic gases are generated in fires
6 6 **Behavior in Fire** May explode in fires
6 7 **Ignition Temperature** Decomposes above 230°F
6 8 **Electrical Hazard** Not pertinent
6 9 **Burning Rate** Data not available

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water** No reaction
7 2 **Reactivity with Common Materials:** Rust and some metals cause decomposition
7 3 **Stability During Transport** Stable below 230°F. At higher temperatures may detonate or explode when confined
7 4 **Neutralizing Agents for Acids and Caustics** Not pertinent
7 5 **Polymerization.** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 0.20 mg/l 96-hr bluegill TL_m fresh water
8 2 **Waterfowl Toxicity** Data not available
8 3 **Biological Oxygen Demand (BOD)** Data not available
8 4 **Food Chain Concentration Potential** Data not available

(Continued on page 5)

NOTES

REVISED 1978

TEP — TETRAETHYL PYROPHOSPHATE

Common Synonyms
Ethylpyrophosphate
Nitos
TEP
TEPP

Liquid | Colorless to yellow | Faint fruity odor

Mixes with water

Fire

Not flammable
POISONOUS GASES ARE PRODUCED WHEN HEATED

Exposure

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison, water contaminant
Restrict access
Shoals: be removed
Chemical and physical treatment
Disperse and flush small discharges

2. LABEL

POISON

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Bladan, Ethyl pyrophosphate, Killax, Mortopal, Nitos, TEP, TEPP, Tetron, Vapotone

3 2 **Coast Guard Compatibility Classification** Not applicable

3 3 **Chemical Formula** $(C_2H_5O)_4P_2O_5$ or $C_8H_{20}O_7P_2$

3 4 **IMCO/United Nations Numerical Designation.** 6 1 1705

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Water white to amber

4 3 **Odor** Aromatic, faint fruity

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Mask with canister approved for organic phosphate pesticides, goggles or face shield, rubber gloves and other protective clothing to prevent contact with skin

5 2 **Symptoms Following Exposure** Contact with liquid causes irritation of eyes and skin. Compound can be absorbed through skin. Ingestion of liquid or inhalation of mist causes nausea, vomiting, mental confusion, abdominal pain, sweating, giddiness, apprehension, and restlessness; later, muscular twitching of eyelids and tongue, begin; then other muscles of face and neck become involved, pulmonary edema, atonia, tremor, and convulsions may advance to coma

5 3 **Treatment for Exposure** *Call physician for all exposures to this compound.* INHALATION: support respiration, keep airway clear, use artificial respiration if breathing is difficult or has stopped. EYES: flush with water immediately after contact for at least 15 min. SKIN: remove victim's clothing and shoes immediately, using rubber gloves; quickly wipe off affected area with cotton cloths, immediately follow with a shower using plenty of soap; if complete shower is impossible, wash affected skin, hair, and fingernails repeatedly with soap and water using clean cloths each time to prevent spreading the contamination. INGESTION: induce vomiting by putting a finger down the throat or by giving warm salt water (one tablespoon salt per glass). Repeat until vomit fluid is clear (save fluid for physician's examination); if vomiting cannot be induced within five minutes, have victim drink plenty of milk or water, have him lie down and keep him warm; if there is difficulty in breathing due to increased secretions, chest may be cleared by propping patient up; if he stops breathing, use artificial or mouth-to-mouth respiration preferably through an airway, wash victim's mouth of contamination; mechanical resuscitator should be used if available; oxygen may be necessary; keep patient under observation for 24 hrs.

5 4 **Toxicity by Inhalation (Threshold Limit Value).** 0.05 mg/m³

(continued)

6 FIRE HAZARDS

6 1 **Flash Point** Not flammable

6 2 **Flammable Limits in Air** Not flammable

6 3 **Fire Extinguishing Agents** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6 5 **Special Hazards of Combustion Products** Highly toxic gases and vapors of unburned material and phosphoric acid are formed in fires

6 6 **Behavior in Fire** Water streams applied to adjacent fires will spread contamination of pesticide over wide area

6 7 **Ignition Temperature.** Not pertinent

6 8 **Electrical Hazard** Not pertinent

6 9 **Burning Rate.** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water** Reacts slowly to form phosphoric acid

7 2 **Reactivity with Common Materials** Corrosive to aluminum; slowly corrosive to copper, brass, zinc, and tin

7 3 **Stability During Transport** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Flush with water, rinse with sodium bicarbonate or lime solution

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity**
1.0 ppm 96-hr fathead LL in fresh water
500 ppm * marine plankton, no growth of lethal salt water
*Time period not specified

8 2 **Waterfowl Toxicity** LD_{50} = 4.5 mg/kg

8 3 **Biological Oxygen Demand (BOD).** Data not available

8 4 **Food Chain Concentration Potential** None

TFE — TETRAFLUOROETHYLENE, INHIBITED

Common Synonyms			
Teflon monomer	Compressed Gas	Colorless	Odorless or faint odor
	Visible vapor cloud is produced		

Fire

FLAMMABLE
POISONOUS GASES ARE PRODUCED IN FIRE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat

Water Pollution

Not harmful to aquatic life

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
Restrict access

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Teflon monomer
3 2 **Coast Guard Compatibility Classification.** Not applicable
3 3 **Chemical Formula** $F_2C=CF_2$
3 4 **IMCO/United Nations Numerical Designation.** 2 [illegible]61

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Compressed gas
4 2 **Color:** Colorless
4 3 **Odor:** None or faint

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained breathing apparatus for high gas concentrations
5 2 **Symptoms Following Exposure:** Inhalation causes irritation of respiratory system. Contact with eyes causes slight irritation
5 3 **Treatment for Exposure:** INHALATION: remove victim from exposure; if breathing is difficult give artificial respiration and call physician
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Lab Toxicity:** Causes possible impairment of immunological and defense systems in rats
5 8 **Vapor (Gas) Irritant Characteristics.** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not pertinent (gas)
6 2 **Flammable Limits in Air:** 10% [illegible]
6 3 **Fire Extinguishing Agents:** Let fire burn; stop flow of gas; cool containers with water
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** When burned in air, gas forms toxic carbonyl fluoride and hydrogen fluoride
6 6 **Behavior in Fire:** Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back. Containers may explode
6 7 **Ignition Temperature:** 470 F
6 8 **Electrical Hazard:** Class [illegible]. Air mixtures produced explosions which propagated through the smallest clearance in a standard test conducted by Underwriters Laboratories. It does not meet any group classification.

6 9 **Burning Rate:** Not pertinent

THF — TETRAHYDROFURAN

Common Synonyms
Oxtrahexene oxide
Tetramethylene oxide
THF

Liquid | Colorless | Faint fruity odor

Floats and mixes with water. Flammable, irritating vapor is produced.

Fire

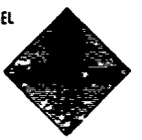
FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause nausea, headache or loss of consciousness.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution



Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning. High flammability.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Tetramethylene oxide; THF
3.2 **Coast Guard Compatibility Classification** Ether
3.3 **Chemical Formula** C_4H_8O
3.4 **IMCO United Nations Numerical Designation.** 3.1 2056

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Ether-like; similar to acetone

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Self-contained breathing apparatus; protective clothing of rubber or plastic gloves.

5.2 **Symptoms Following Exposure.** Vapor causes nausea, dizziness, headache, irritation of eyes, nose and throat; loss of consciousness. Liquid is irritating to the skin and eyes; harmful if swallowed.

5.3 **Treatment for Exposure:** INHALATION: remove victim to uncontaminated area; if breathing has stopped, give artificial respiration and oxygen. Do not use mouth-to-mouth method. INGESTION: give large quantities of water; induce vomiting; call physician immediately. Do not give anything by mouth to an unconscious person. Keep victim warm and quiet. SKIN OR EYE CONTACT: flush with plenty of water for at least 15 minutes. Get medical attention.

5.4 **Toxicity by Inhalation (Threshold Limit Value).** 200 ppm

5.5 **Short-Term Inhalation Limits.** [illegible] 300 ppm

5.6 **Toxicity by Ingestion.** Grade 1 LD50 = 1.0 g/kg

5.7 **Late Toxicity:** Data not available.

5.8 **Vapor (Gas) Irritant Characteristics.** Vapor causes slight smarting of eyes and respiratory tract at 200 ppm; severe irritation at high concentrations. Effects are temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum irritant. Repeated or prolonged contact may cause smarting and reddening of the skin.

5.10 **Odor Threshold.** 50 ppm

6 FIRE HAZARDS

6.1 **Flash Point.** -14°F (C.C.) = -4°F (O.C.)
6.2 **Flammable Limits in Air.** 1.8% - 11.8%
6.3 **Fire Extinguishing Agents:** Dry chemical or carbon dioxide.
6.4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective.
6.5 **Special Hazards of Combustion Products.** Irritating vapor is generated when heated.
6.6 **Behavior in Fire.** May explode. Vapor is heavier than air and may travel considerable distance to source of ignition and flash back.
6.7 **Ignition Temperature.** 610°F
6.8 **Electrical Hazard.** Not pertinent.
6.9 **Burning Rate.** 4.7 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials.** No reaction
7.3 **Stability During Transport.** Stable unless 0.1% of peroxides has accumulated because of prolonged storage in presence of air. When concentrated by evaporation of solution, may explode.
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent.
7.5 **Polymerization:** Not pertinent.
7.6 **Inhibitor of Polymerization:** 0.02% butylated hydroxytoluene (BHT) prevents peroxide formation.

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available.
8.2 **Waterfowl Toxicity:** Data not available.
8.3 **Biological Oxygen Demand (BOD).** Data not available.
8.4 **Food Chain Concentration Potential.** None.

NOTES

REVISED 1978

THN — TETRAHYDRONAPHTHALENE

Common Synonyms
1,2,3,4-tetrahydronaphthalene
Tetralin
tetrasap

Water-white liquid. Colorless. Mothballs/turpentine odor.

Floats on water.

Fire

Combustible

Exposure

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-1

Mechanical containment
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1,2,3,4-Tetrahydronaphthalene; Tetralin; Tetrasap

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $C_{10}H_{12}$

3.4 **IMCO United Nations Numerical Designation:** Not assigned

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild characteristic odor resembling that of naphthalene or turpentine

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** A supplied-air respirator with full facepiece, chemical-resistant gloves, and chemical-resistant clothing

5.2 **Symptoms Following Exposure:** Liquid irritates eyes and skin. Inhalation may cause irritation of respiratory tract and narcosis at high concentrations

5.3 **Treatment for Exposure:** INGESTION: Induce vomiting immediately as directed by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention. SKIN: Wash with soap and water. EYES: Flush with water for 15 minutes and get medical attention

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not established

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2. Dose not given

5.7 **Late Toxicity:** Liver and kidney damage in animals

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is irritating to eyes, nose, and respiratory system at high concentrations. Headache, confusion

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. Repeated contact with skin may cause irritation and dermatitis. Prolonged contact may cause a burning sensation and blistering. Irritating to eyes

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 160°F (71°C) TOC, 154°F (68°C) PMCC

6.2 **Flammable Limits in Air:** 0.8% - 5.0%

6.3 **Fire Extinguishing Agents:** Foam, dry chemical, or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 385°F (196°C)

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 78 ppm/24 hr/brine shrimp/21°C

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** 0.0% in 5 days

8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

TML	TETRAMETHYL LEAD

Common Synonyms
Lead tetramethyl

Oily liquid | Colorless | Fruity odor

Sinks in water. Poisonous flammable vapor is produced

Fire

Combustible
Containers may explode in fire
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
POISONOUS IF INHALED
Irritating to eyes

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn eyes

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-4

Evacuate downwind
Restrict access
Notify fire control
Chemical/physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 Synonyms: Lead tetramethyl
3.2 Coast Guard Compatibility Classification: Specific class
3.3 Chemical Formula: $Pb(CH_3)_4$
3.4 IMCO United Nations Numerical Designation: 6.1/1649

4 OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped): Liquid
4.2 Color: Practically colorless
4.3 Odor: Fairly strong odor

5 HEALTH HAZARDS

5.1 Personal Protective Equipment: Organic vapor cartridge respirator with full facepiece. Impervious clothing. Safety shoes. Eye protection. Avoid skin contact.

5.2 Symptoms Following Exposure: Causes central nervous system disorders. Symptoms may include headache, dizziness, nausea, vomiting, abdominal pain, diarrhea, and bloody urine. Damage to liver and kidneys.

5.3 Treatment for Exposure: Remove victim from area. Remove contaminated clothing. Wash skin with soap and water. Keep victim warm and quiet. Get medical attention.

5.4 Toxicity by Inhalation (Threshold Limit Value): 0.075 mg/m³

5.5 Short-Term Inhalation Limits: Data not available

5.6 Toxicity by Ingestion: Grade 3, oral rat LD_{50} = 109 mg/kg

5.7 Late Toxicity: Teratogenic

5.8 Vapor (Gas) Irritant Characteristics: Vapor causes slight smarting of eyes. Liquid splashed in eyes causes severe pain which may cause temporary blindness.

5.9 Liquid or Solid Irritant Characteristics: Causes smarting of eyes and skin. Liquid on skin causes severe pain and dries skin by defatting action.

5.10 Odor Threshold: Data not available

6 FIRE HAZARDS

6.1 Flash Point: 80 F OC
6.2 Flammable Limits in Air: Data not available
6.3 Fire Extinguishing Agents: Water fog. Alcohol foam. Carbon dioxide. Dry chemical.
6.4 Fire Extinguishing Agents Not to be Used: Not applicable
6.5 Special Hazards of Combustion Products: Poisonous fumes of lead oxides
6.6 Behavior in Fire: Not applicable
6.7 Ignition Temperature: Data not available
6.8 Electrical Hazard: Not applicable
6.9 Burning Rate: Data not available

7 CHEMICAL REACTIVITY

7.1 Reactivity with Water: No reaction
7.2 Reactivity with Common Materials: No reaction
7.3 Stability During Transport: Stable. Polymerization may occur if exposed to sunlight or ultraviolet light.
7.4 Neutralizing Agents for Acids and Caustics: Not applicable
7.5 Polymerization: Not applicable
7.6 Inhibitor of Polymerization: Not applicable

8 WATER POLLUTION

8.1 Aquatic Toxicity: Data not available
8.2 Waterfowl Toxicity: Data not available
8.3 Biological Oxygen Demand (BOD): Data not available
8.4 Food Chain Concentration Potential: Data not available

NOTES

REVISED 1978

TPG THIOPHOSGENE

Common Synonyms			
Thiocarbonyl chloride	Liquid	Red	Sharp choking odor

Sinks in water. Reacts slowly with water and produces poisonous vapor.

Fire

Combustible
POISONOUS GASES ARE PRODUCED IN FIRE

Exposure

VAPOR
POISONOUS IF INHALED
Irritating to eyes, nose and throat.

LIQUID
POISONOUS IF SWALLOWED
Irritating to skin and eyes

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

See Hazardous Materials Handbook, CG-446-4

Issue warning. Poison if contaminates water contaminated.
Restrict access.
Evacuate area.
Disperse and flush.

2. LABEL

POISON

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Thiocarbonyl chloride
3.2 **Coast Guard Compatibility Classification.** Not applicable
3.3 **Chemical Formula:** $CSCl_2$
3.4 **IMCO/United Nations Numerical Designation:** 6.1

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Red
4.3 **Odor:** Choking very irritating sharp

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus; organic vapor canister; goggles or face shield; rubber gloves.
5.2 **Symptoms Following Exposure:** Inhalation causes irritation of respiratory system; delayed pulmonary edema. Vapor irritates eyes. Liquid dehydrates and irritates skin. Ingestion causes irritation of mouth and stomach.
5.3 **Treatment for Exposure:** *Get medical attention at once after any exposure to this compound.* INHALATION: remove victim from exposure, support respiration, watch for pulmonary edema. EYES: irrigate with large quantities of water for 15 min. SKIN: flush with water. INGESTION: do NOT induce vomiting; give large amounts of water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 3; oral LD_{50} [illegible]
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics.** Data not available
5.9 **Liquid or Solid Irritant Characteristics.** Data not available
5.10 **Odor Threshold:** Data not available

NOTES

THR THIRAM

Common Synonyms
Bis(dimethylthiocarbamoyl) disulfide
Bis(dimethylthiocarbamoyl) disulfide
Tetramethylthiuram disulfide

Solid — White to light yellow

Sinks in water

Fire

Combustible
POISONOUS GASES ARE PRODUCED IN FIRE

Exposure

DUST
POISONOUS IF INHALED
Irritating to eyes, nose and throat

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes

Water Poilution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-6

Issue warning - water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABELS

Hazard and [illegible] Coast Guard Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Arasan, Bis(dimethylthio carbamoyl) disulfide, Bis(dimethylthiocarbamoyl) disulfide, Methylthiram, Methylthiuram, Tetramethylthiuram disulfide, Thiuram

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:**
$(CH_3)_2NCSSSCSN(CH_3)_2$
$C_6H_{12}N_2S_4$

(continued on page 2)

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** White to slight yellow
4.3 **Odor:** Data not available

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber gloves, goggles, dust mask

5.2 **Symptoms Following Exposure:** Inhalation of dust may cause respiratory irritation. Liquid irritates eyes and skin and may cause allergic eczema in sensitive individuals. Ingestion causes nausea, vomiting and diarrhea, all of which may be persistent; paralysis may develop.

5.3 **Treatment for Exposure:** INHALATION: remove victim from exposure. If breathing has stopped or is difficult, give artificial respiration and call physician. EYE or SKIN: wash with water for 15 minutes; if irritation persists, consult a physician. INGESTION: call physician; induce vomiting and follow with gastric lavage. Treatment thereafter is symptomatic and supportive. As sulfasuxidic and lipid solvents which enhance absorption, liquor should be prohibited. Observation for at least 10 days is recommended. Caution has used as short as 48 hrs.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 mg/m³

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Rat oral LD_{50} [illegible] mg/kg; mouse oral [illegible] mg/kg

5.7 **Late Toxicity:** Carcinogenic data: none reported; mutagenic data: none reported

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

3 CHEMICAL DESIGNATIONS (Cont'd)

3.4 **IMCO/United Nations Numerical Designation:** 2771/1709

TRN	# THORIUM NITRATE

Common Synonyms			
Thorium nitrate tetrahydrate	Solid	White	Odorless
	Mixes with water		

Fire	Not flammable May cause fire on contact with combustibles POISONOUS GASES ARE PRODUCED IN FIRE
Exposure	DUST Irritating to eyes, nose and throat Harmful if inhaled SOLID Irritating to skin and eyes Harmful if swallowed
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-6)

Issue warning. Isolate or ventilate area. Keep material out of water. Contain runoff. Restrict access. Should be removed. Chemical and physical treatment.

2. LABELS

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Thorium nitrate tetrahydrate

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** $Th(NO_3)_4 \cdot 4H_2O$ (approx.)

3.4 **IMCO/United Nations Numerical Designation:** Data not available

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White

4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust respirator, gloves, rubber shoes, rubber apron.

5.2 **Symptoms Following Exposure:** Compound has low chemical toxicity. Not alpha emitter expected to constitute a hazard. Contains large amount is absorbed or ingested. Dust may irritate eyes and cause diffuse dermatitis. Beta and gamma emission is small.

5.3 **Treatment for Exposure:** EYES: flush with water and consult physician. SKIN: wash thoroughly with soap and water. INGESTION: get medical attention.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** Genetic effects of radionuclides involved are suspected to be harmful.

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable. Reacts violently with combustibles.

6.2 **Flammable Limits in Air:** Not flammable.

6.3 **Fire Extinguishing Agents:** Water.

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent.

6.5 **Special Hazards of Combustion Products:** Yields toxic gases under fire conditions.

6.6 **Behavior in Fire:** When heated, may decrease in weight. Fire in area may cause material to decompose, releasing toxic gases. Water used to extinguish fire may result in contaminated runoff.

6.7 **Ignition Temperature:** Not pertinent.

6.8 **Electrical Hazard:** Not pertinent.

6.9 **Burning Rate:** Not pertinent.

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Forms a weak solution. Reaction with water is not hazardous.

7.2 **Reactivity with Common Materials:** In contact with easily oxidizable substances may react vigorously enough to cause ignition under certain conditions. Explosive mixtures may be formed with powdered metals.

7.3 **Stability During Transport:** Stable.

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent.

7.5 **Polymerization:** Not pertinent.

7.6 **Inhibitor of Polymerization:** Not pertinent.

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 1000 ppm/24 hr/fish/fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** None

8.4 **Food Chain Concentration Potential:** Data not available

9 SELECTED MANUFACTURERS

W. R. Grace & Co.
Davison Chemical Division
P.O. Box 191
Pompton Plains, N.J. 07444

American Potash & Chemical Corp.

Health Hazard (Blue)	1
Flammability (Red)	0
Reactivity (Yellow)	0
	W

*Extreme = 4; Slight = 0

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Solid

13.2 **Molecular Weight:** 552.12

13.3 **Boiling Point at 1 atm:** Not pertinent (decomposes)

13.4 **Freezing Point:** Not pertinent.

13.5 **Critical Temperature:** Not pertinent.

13.6 **Critical Pressure:** Not pertinent.

13.7 **Specific Gravity:** 2.8 at 20°C/4°C

13.8 **Liquid Surface Tension:** Not pertinent.

13.9 **Liquid-Water Interfacial Tension:** Not pertinent.

13.10 **Vapor (Gas) Specific Gravity:** Not pertinent.

13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent.

13.12 **Latent Heat of Vaporization:** Not pertinent.

13.13 **Heat of Combustion:** Not pertinent.

13.14 **Heat of Decomposition:** Not pertinent.

13.15 **Heat of Solution:** Not pertinent.

13.16 **Heat of Polymerization:** Not pertinent.

(continued on next page)

NOTES

TTT	# TITANIUM TETRACHLORIDE

Common Synonyms	Watery liquid Colorless to light yellow Irritating odor Reacts violently with water. Produces dense fumes in air
Fire	Not flammable
Exposure	VAPOR Irritating to eyes, nose and throat If inhaled will cause coughing or headache LIQUID Will burn skin and eyes If swallowed will cause nausea and vomiting
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes

NOTES

REVISED 1978

TOL	# TOLUENE

Common Synonyms
Toluol
Methylbenzene
Methylbenzol

Watery liquid | Colorless | Pleasant odor

Floats on water. Flammable. Irritating vapor is produced

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

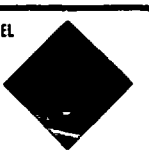
CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause nausea, vomiting, headache, dizziness, difficult breathing, or loss of consciousness.

LIQUID
Irritating to skin and eyes.
If swallowed, will cause nausea, vomiting or loss of consciousness.

DO NOT INDUCE VOMITING

Water Pollution



Dangerous to aquatic life in high concentrations.
Fouling to shoreline.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See *Response Methods Handbook*, CG-446-4)

Issue warning: high flammability.
Evacuate area.

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Methylbenzene, Methylbenzol, Toluol
3 2 **Coast Guard Compatibility Classification:** Aromatic hydrocarbon
3 3 **Chemical Formula:** C_7H_8
3 4 **IMCC/United Nations Numerical Designation:** 3 2 1294

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Pungent aromatic benzene-like, distinct, pleasant

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Air-supplied mask, goggles or face shield, plastic gloves
5 2 **Symptoms Following Exposure:** Vapors irritate eyes and upper respiratory tract, cause dizziness, headache, anesthesia, respiratory arrest. Liquid irritates eyes and causes drying of skin. If aspirated, causes coughing, gagging, distress, and rapidly developing pulmonary edema. If ingested, causes vomiting, griping, diarrhea, depressed respiration.
5 3 **Treatment for Exposure:** INHALATION: remove to fresh air, give artificial respiration and oxygen if needed, call a doctor. INGESTION: do NOT induce vomiting, call a doctor. EYES: flush with water for at least 15 min. SKIN: wipe off, wash with soap and water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm
5 5 **Short-Term Inhalation Limits:** 600 ppm for 30 min
5 6 **Toxicity by Ingestion:** Grade 2, LD_{50} 0.5 to 5 g/kg
5 7 **Late Toxicity:** Kidney and liver damage may follow ingestion
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.
5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.
5 10 **Odor Threshold:** 0.17 ppm

6 FIRE HAZARDS

6 1 **Flash Point:** 40°F (C.C.) 4.5°C
6 2 **Flammable Limits in Air:** 1.27 - 7.0%
6 3 **Fire Extinguishing Agents:** Carbon dioxide or dry chemical for small fires, ordinary foam for large fires
6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6 5 **Special Hazards of Combustion Products:** Not pertinent
6 6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back
6 7 **Ignition Temperature:** 997°F
6 8 **Electrical Hazard:** Class I, Group D
6 9 **Burning Rate:** 3.7 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 1180 mg/l 96-hr sunfish/TL_m fresh water
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** 0.7, 3 days, 35% (theor.), 8 days
8 4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

1 Exxon Chemical Co
Houston, Tex. 77001

2 Shell Chemical Co
Petrochemicals Division
Houston, Tex. 77001

3 Sun Oil Co
St. Davids, Pa. 19087

10. SHIPPING INFORMATION

10 1 **Grades or Purity:** Research reagent, nitration, all 99.8+%; industrial contains 94+% with 5% xylene and small amounts of benzene and nonaromatic hydrocarbons; 90-120° less pure than industrial
10 2 **Storage Temperature:** Ambient
10 3 **Inert Atmosphere:** No requirement
10 4 **Venting:** Open flame arrester or pressure vacuum

11. HAZARD ASSESSMENT CODE

(See *Hazard Assessment Handbook*, CG-446-3)

A-T-U

12 HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations:** Flammable liquid
12 2 **NAS Hazard Rating for Bulk Water Transportation:**

NOTES

REVISED 1978

TDI — TOLUENE 2,4-DIISOCYANATE

Common Synonyms
TDI
Hylene T
Mondur TDS
Naccanate 100

Liquid — Colorless to light yellow — Sharp, sweet fruity odor

Sinks and reacts with water. Freezing point is 68°F = 72°F

AVOID CONTACT WITH LIQUID AND VAPOR. Keep upwind. Keep away
Wear goggles, self-contained breathing apparatus and chemical protective clothing, including gloves.
Stay away from low areas.
Call for assistance.
Isolate and deny entry to unprotected personnel.
Notify local health and pollution control agencies.

Fire

Combustible
POISONOUS GAS IS PRODUCED IN FIRE
Wear goggles, self-contained breathing apparatus and chemical protective clothing, including gloves.
Extinguish with dry chemical, CO2, sand or earth.
Water and foam may be ineffective on fire.
Dike exposed containers with earth.

Exposure

CALL FOR MEDICAL AID
LIQUID
POISONOUS IF SWALLOWED
Will burn skin and eyes
Remove contaminated clothing at once.
Flush affected areas with plenty of water.
IF IN EYES hold eyelids apart and flush eyes with water.
IF SWALLOWED, induce VOMITING by touching back of throat with finger.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Hylene T, Mondur TDS, Naccanate 100, 2,4-Tolylene diisocyanate, TDI
3 2 **Coast Guard Compatibility Classification:** Isocyanate
3 3 **Chemical Formula:** $C_6H_3(CH_3)(NCO)_2$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless to light yellow
4 3 **Odor:** Sweet, fruity, pungent

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Organic vapor canister, goggles or face shield, rubber gloves, boots and apron
5 2 **Symptoms Following Exposure:** Irritates eyes and skin. Potent sensitizer and lung irritant if inhaled. May produce bronchospasm (asthma), pneumonitis, bronchitis, and pulmonary edema. Nocturnal cough and shortness of breath are common. Repeated low level exposure may produce chronic lung disease. Oral toxicity is low.
5 3 **Treatment for Exposure:** INHALATION: remove victim to fresh air, administer artificial respiration and oxygen if needed, call a doctor at once. INGESTION: do NOT induce vomiting, call a doctor. EYES: flush with water for at least 15 min., call doctor at once. SKIN: flush with water, wipe off, wipe with rubbing alcohol, wash with soap and water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.02 ppm
5 5 **Short-Term Inhalation Limits:** 0.02 ppm for 5 min
5 6 **Toxicity by Ingestion:** Grade 2, LD_{50} 0.5 to 5 g/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations.
5 9 **Liquid or Solid Irritant Characteristics:** Fairly severe skin irritant, may cause pain and second degree burns after a few minutes' contact.
5 10 **Odor Threshold:** 0.4 - 2.14 ppm

6 FIRE HAZARDS

6 1 **Flash Point:** 270°F O.C.
6 2 **Flammable Limits in Air:** 0.9% - 9.5%
6 3 **Fire Extinguishing Agents:** Water, foam, dry chemical or carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used:** Water or foam may cause frothing
6 5 **Special Hazards of Combustion Products:** Irritating vapors are generated when heated
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature:** >800°F
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Forms carbon dioxide gas and an organic base; the reaction is not violent
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Slow, not hazardous above 113°F
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** Data not available
8 4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

1 BASF Wyandotte Corp.
Industrial Chemicals Group
1609 Biddle Ave.
Wyandotte, Mich. 48192

2 Bayhem Corp.
Mobay Chemical Co. Division
Penn-Lincoln Pkwy. West
Pittsburgh, Pa. 15205

3 E. I. duPont de Nemours & Co., Inc.
Elastomer Chemicals Dept.
Wilmington, Del. 19898

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Commercial, distilled, 99% total diisocyanate. The following isomer ratios are shipped: (a) 100% 2,4; (b) 80% 2,4 - 20% 2,6- (most common); (c) 65% 2,4 - 35% 2,6- All mixtures have about the same hazard characteristics.
10 2 **Storage Temperature:** 75° - 100°F
10 3 **Inert Atmosphere:** Inerted
10 4 **Venting:** Pressure-vacuum

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 446-3)

A-X-Y

12. HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations:** Poison, Class B

NOTES

REVISED 1978

TAP — p-TOLUENESULFONIC ACID

Common Synonyms			
Methylbenzenesulfonic acid Tosic acid p-TSA	Solid	Colorless to black	Odorless or slight odor
	Mixes with water		

Fire

Combustible
Irritating gases may be produced when heated

Exposure

SOLID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - corrosive
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Methylbenzenesulfonic acid, Tosic acid, p-TSA
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** $CH_3C_6H_4SO_3H$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White to brown to black, yellow or amber
4 3 **Odor:** None when pure, technical grade has slight aromatic odor

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Chemical goggles or face shield, rubber gloves
5 2 **Symptoms Following Exposure:** Contact with eyes or skin causes severe irritation. Ingestion causes irritation of mouth and stomach
5 3 **Treatment for Exposure:** EYES: wash thoroughly with copious amounts of water for at least 15 min., call physician if irritation persists. SKIN: wash thoroughly with large amounts of water for at least 15 min. INGESTION: give large amount of water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Not pertinent
5 6 **Toxicity by Ingestion:** Grade 3, oral LD_{50} = 400 mg/kg (rat)

(Continued on pages 5 and 6)

NOTES

TLI

o-TOLUIDINE

Common Synonyms
2-Amino-1-methylbenzene
2-Aminotoluene
2-Methylaniline
o-Methylaniline

Liquid | Colorless to yellow brown | Chemical odor

May float or sink in water

[illegible]

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE

[illegible]

Exposure

• AIHA ERG Medical Alert
LIQUID
Irritating to skin and eyes
If swallowed will cause nausea, vomiting or loss of consciousness

[illegible]

Water Pollution

Effect of low concentrations on aquatic life unknown
Fouling to shoreline
May be dangerous if it enters water intake

[illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Restrict access
Mechanical containment
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by Coast Guard Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 2-Amino-1-methylbenzene, 2-Aminotoluene, 2-Methylaniline, o-Methylaniline

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $1,2\ CH_3C_6H_4NH_2$

3 4 **IMCO/United Nations Numerical Designation:** 6 1 1708

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Clear to light yellow, turns yellow, brown or deep red on exposure to air and light

4 3 **Odor:** Aromatic, aniline like

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Chemical safety goggles, face shield, Bu Mines approved respirator, leather or rubber safety shoes, butyl rubber gloves

5 2 **Symptoms Following Exposure:** Absorption of toxic quantities by any route causes cyanosis (blue discoloration of lips, nails, skin), nausea, vomiting, and coma may follow. Repeated inhalation of low concentrations may cause pallor, low grade secondary anemia, fatigability, and loss of appetite. Contact with eyes causes irritation.

5 3 **Treatment for Exposure:** Get medical attention following all exposures to this compound. INHALATION: move to fresh air. INGESTION: if victim is conscious, promptly induce vomiting by giving luke warm soapy water or mustard and water. EYES: flush with copious amounts of water for at least 15 min, holding lids apart. SKIN: remove all contaminated clothing, wash affected areas immediately and thoroughly with plenty of warm water and soap.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2; rat LD_{50} = 800 mg/kg (rat)

5 7 **Late Toxicity:** Causes tumors of urinary bladder of rats

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 107°F (CC), 85°F (CC)

6 2 **Flammable Limits in Air:** Data not available

6 3 **Fire Extinguishing Agents:** Foam, dry chemical or carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen and flammable vapors may form in fire

6 6 **Behavior in Fire:**

6 7 **Ignition Temperature:** 900°F

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** 3.62 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:**

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 30 ppm/* fresh lethal/fresh water
* Time period not specified

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** 143% 5 days

8 4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

Reactivity (Yellow)	0

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Liquid

13 2 **Molecular Weight:** 107.2

13 3 **Boiling Point at 1 atm:** 392°F = 200°C = 473°K

13 4 **Freezing Point:** −11°F = −24°C = 249°K

13 5 **Critical Temperature:** 790°F = 421°C = 694°K

13 6 **Critical Pressure:** 544 psia = 37.0 atm = 3.75 MN/m²

13 7 **Specific Gravity:** 0.998 at 20°C (liquid)

13 8 **Liquid Surface Tension:** 43.55 dynes/cm = 0.04355 N/m at 20°C

13 9 **Liquid-Water Interfacial Tension:** Data not available

13 10 **Vapor (Gas) Specific Gravity:** Not pertinent

13 11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent

13 12 **Latent Heat of Vaporization:** 179.1 Btu/lb = 99.5 cal/g = 4.16 × 10⁵ J/kg

13 13 **Heat of Combustion:** −16 180 Btu/lb = −9 990 cal/g = −376 × 10³ J/kg

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution:** Not pertinent

13 16 **Heat of Polymerization:** Not pertinent

Continued on pages 5 and 6

NOTES

TXP	# TOXAPHENE

Common Synonyms
Octachlorocamphene

Waxy solid or in solution — Amber

Solid sinks in water; solution floats on water

[illegible]

Fire

Solid not flammable, but usually dissolved in combustible liquid.
POISONOUS GASES ARE PRODUCED IN FIRE
[illegible]

Exposure

CALL FOR MEDICAL AID
SOLID OR SOLUTION
POISONOUS IF SWALLOWED
Irritating to skin and eyes.
[illegible]
IF SWALLOWED [illegible] INDUCE VOMITING OR HAVE VICTIM DRINK LARGE AMOUNTS OF WATER and warm

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Solution is fouling to shoreline
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Issue warning: poison, water contaminant
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Octachlorocamphene
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** $C_{10}H_{10}Cl_8$
3 4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Waxy solid
4 2 **Color:** Amber
4 3 **Odor:** Mild turpentine odor

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Chemical type respirator, rubber gloves, chemical goggles or face shield

5 2 **Symptoms Following Exposure:** May be absorbed through skin. Lungs or intestinal tract. Symptoms include salivation, leg and back muscle spasms, nausea, vomiting, hyperexcitability, tremors, shivering, clonic convulsions, then tetanic contractions of all skeletal muscles. Lethal doses cause respiratory failure. Respiration affected as a result of the exertion from vomiting or convulsions is not affected because of tetanic muscular contractions; then increased in both amplitude and rate as the muscles relax.

5 3 **Treatment for Exposure:** If symptoms of poisoning appear, promptly remove the unabsorbed pesticide from the stomach by induced vomiting with warm salts or soapy water (if the patient is conscious) or from the skin with soap and water. Keep patient warm and quiet. Call a physician.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion:** Grade 4. 1 Dr. below 50 mg/kg (dog)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** The solid is non-volatile. For solutions, see metaxylene

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on skin, wipe and allowed to remain, may cause smarting and reddening of the skin.

5 10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point:** 54°F C.C. (solution)
6 2 **Flammable Limits in Air:** 1.1 - 6.4 % (by vol.)
6 3 **Fire Extinguishing Agents:** Foam, dry chemical or carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6 5 **Special Hazards of Combustion Products:** Toxic vapors are generated when heated
6 6 **Behavior in Fire:** Solution in xylene may produce corrosive products when heated
6 7 **Ignition Temperature:** 990°F (solution)
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** [illegible]

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** Not reactive
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:**
0.05 ppm, 20 days, goldfish/100% kill, fresh water
0.02 ppm * bluegill/100% kill, fresh water
0.0032 ppm, 24 hr spot/100% kill, salt water
* Time period not specified

8 2 **Waterfowl Toxicity:** 30 mg/kg
8 3 **Biological Oxygen Demand (BOD):** Data not available
8 4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

TCE | TRICHLOROETHANE

Common Synonyms
1 1 1 Trichloroethane
Methylchloroform

Watery liquid | Colorless | Sweet odor

Sinks in water. Irritating vapor is produced.

Fire

Combustible
POISONOUS GASES ARE PRODUCED IN FIRE

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause dizziness or difficult breathing.

LIQUID
Irritating to skin and eyes.
If swallowed may produce nausea.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Hazardous Materials Spill Guide, CG 446-4)

Should be removed.
Chemical and physical treatment.

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Acetylene Chlorothene
Methyl chloroform
1 1 1 Trichloroethane

3 2 **Coast Guard Compatibility Classification:** Halogenated hydrocarbon

3 3 **Chemical Formula:** CH_3CCl_3

3 4 **IMCO United Nations Numerical Designation.** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Chloroform like, sweetish

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Organic vapor acid gas canister self-contained breathing apparatus for emergencies neoprene or polyvinyl alcohol tight gloves chemical safety goggle and face shield, neoprene safety boots leather safety shoes plus neoprene footwear neoprene or polyvinyl alcohol suit or apron for splash protection

5 2 **Symptoms Following Exposure:** INHALATION symptoms range from loss of equilibrium and incoordination to loss of consciousness high concentrations can be fatal due to simple asphyxiation combined with loss of consciousness INGESTION produces effects similar to inhalation and may cause some feeling of nausea EYES sight is irritating and lachrymatory SKIN defatting action may cause dermatitis

5 3 **Treatment for Exposure:** Get medical attention for all eye exposures and any other serious over exposures Do NOT administer adrenalin or epinephrine otherwise, treatment is symptomatic INHALATION remove victim to fresh air if necessary, apply artificial respiration and or administer oxygen INGESTION have victim drink water and induce vomiting EYES flush thoroughly with water SKIN remove contaminated clothing and wash exposed area thoroughly with soap and warm water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 350 ppm

5 5 **Short-Term Inhalation Limits:** 1000 ppm for 60 min in man

5 6 **Toxicity by Ingestion:** Grade 1 LD$_{50}$ 5 to 15 g/kg (rat, mouse, rabbit, guinea pig)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

(Continued on page 4)

6. FIRE HAZARDS

6 1 **Flash Point:** Data not available

6 2 **Flammable Limits in Air:** ? %

6 3 **Fire Extinguishing Agents:** Dry chemical foam or carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products.** Toxic and irritating gases are generated in fires

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature:** 932°F

6 8 **Electrical Hazard:** Not pertinent

TPH	TRICHLOROPHENOL

Common Synonyms
2,4,5-Trichlorophenol
Dowicide 2
Preventol

Solid crystals or flakes — Yellow — Strong disinfectant odor

Sinks in water

Fire

Not flammable

Exposure

DUST OR SOLID
Irritating to eyes, nose, and throat

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Evaporation
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Dowicide 2
Ortho
Preventol
2,4,5-Trichlorophenol

3.2 **Coast Guard Compatibility Classification:**
Not applicable

3.3 **Chemical Formula:** $HOC_6H(Cl)_3$

3.4 **IMCO United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** Colorless to gray

4.3 **Odor:** Strong disinfectant

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Approved dust respirator, chemical safety goggles, protective clothing to prevent contact with skin

5.2 **Symptoms Following Exposure:** Dust may cause swelling of eyes and eyelids, mucous membrane irritation of nose and throat. Solid irritates skin and prolonged contact

5.3 **Treatment for Exposure:** INHALATION: remove to fresh air, get medical attention. EYES: flush with water for at least 15 minutes, get medical attention. SKIN: wash with soap and water, remove contaminated clothing, get medical attention

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Moderately toxic to humans. Oral dose 2 LD50 = 820 mg/kg (rats)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Exposure to vapor outside of eyes at room temperature is

5.9 **Liquid or Solid Irritant Characteristics:** May cause irritation of eyes. Prolonged contact with skin may cause slight burn. Dust irritates nose and throat

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** Not flammable

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not flammable

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Not reactive

7.2 **Reactivity with Common Materials:** None

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
1.2 ppm 24 hr TLm Humpback salmon fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):**
Data not available

8.4 **Food Chain Concentration Potential:**
None

9 SELECTED MANUFACTURERS

1. Dow Chemical
Midland, Michigan
2. Hooker Chemical Corp
Niagara Falls, N.Y. 14302

10 SHIPPING INFORMATION

10.1 **Grades of Purity:** Technical 95%

10.2 **Storage Temperature:** Ambient

10.3 **Inert Atmosphere:** No requirement

10.4 **Venting:** Open

11. HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook CG 446-3

II

12. HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:**
Not listed

12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

12.3 **NFPA Hazard Classifications:**
Solid form not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Solid

13.2 **Molecular Weight:** 197.5

13.3 **Boiling Point at 1 atm:**
365°F = 252°C = 525°K

13.4 **Freezing Point:** 154°F = 68°C = 330°K

13.5 **Critical Temperature:** Not pertinent

13.6 **Critical Pressure:** Not pertinent

13.7 **Specific Gravity:** 1.7 at 24°C (solid)

13.8 **Liquid Surface Tension:** Not pertinent

13.9 **Liquid-Water Interfacial Tension:**
Not pertinent

13.10 **Vapor (Gas) Specific Gravity:**
Not pertinent

13.11 **Ratio of Specific Heats of Vapor (Gas):**
Not pertinent

13.12 **Latent Heat of Vaporization:**
Not pertinent

13.13 **Heat of Combustion:** Not pertinent

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

Continued on page 5 and 6

NOTES

TCA	2,4,5-TRICHLOROPHENOXYACETIC ACID

Common Synonyms

2,4,5-T

Solid White Odorless

Sinks in water

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: person, water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 2,4,5-T

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $2,4,5\text{-}Cl_3C_6H_2OCH_2COOH$

3.4 **IMCO/United Nations Numerical Designation:** 6.1 1609

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White

4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust mask and rubber gloves

5.2 **Symptoms Following Exposure:** Overexposure to dust by inhalation or ingestion may cause fatigue, nausea, vomiting, lowered blood pressure, convulsions, coma. Dust may irritate eyes and skin

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air, if required, give artificial respiration. EYES: flush with water until irritating dust is removed. SKIN: wash with soap and water. INGESTION: call physician at once; induce vomiting and administer gastric lavage

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 10 mg/m³

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 3, oral LD_{50} = 500 mg/kg (rat)

5.7 **Late Toxicity:** Both defects in rats and mice. Causes an acne-like skin eruption among human workers

5.8 **Vapor (Gas) Irritant Characteristics:** Not pertinent

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Not pertinent

6. FIRE HAZARDS

6.1 **Flash Point:** Not pertinent (solid)

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Water fog, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Toxic hydrogen chloride and phosgene gases may be formed

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** Can be corrosive to common metals

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:**
1.0 ppm 24 hr Bluegill 12 cm fresh water
0.32 ppm/48 hr spot 30 cm salt water

8.2 **Waterfowl Toxicity:** 21 days, ppm LD_{50}

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** Will not bioconcentrate

9. SELECTED MANUFACTURERS

13.12 **Latent Heat of Vaporization:** Not pertinent

13.13 **Heat of Combustion:** (est.) = 6,500 Btu/lb = = 3,600 cal/g = = 150 x 10^3 J/kg

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

Continued on page 5 and 6

NOTES

TCS

TRICHLOROSILANE

Common Synonyms
Trichlorosilane
Silicochloroform

Liquid | Colorless | Sharp choking odor

Reacts violently with water. Irritating gas is produced on contact with water. Boiling point is 90° F.

Fire

FLAMMABLE.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
Harmful if inhaled.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability, corrosive, air contaminant.
Restrict access.
Evacuate area.
Disperse and flush.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Silicochloroform, Trichlorosilicomonane
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** $SiHCl_3$
3.4 **NIOC/United Nations Numerical Designation:** 1295

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Sharp, choking, like hydrochloric acid

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Acid vapor type respirator, protective rubber gloves, chemical worker's goggles, other protective equipment as necessary to protect skin and eyes.
5.2 **Symptoms Following Exposure:** Inhalation causes severe irritation of respiratory system. Liquid causes severe burns of eyes and skin. Ingestion causes severe burns of mouth and stomach.
5.3 **Treatment for Exposure:** INHALATION: remove victim from exposure. If breathing is difficult or stopped, give artificial respiration, call physician. EYES or SKIN: Flush with plenty of water immediately for at least 15 min. and get medical attention. INGESTION: do NOT induce vomiting, give large amount of water, get medical attention.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 1,000 mg/kg (rats)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.
5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and severe injury to the eyes.
5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** -18°F (O.C.) = -28°F (C.C.)
6.2 **Flammable Limits in Air:** 1.2% - 90.5%
6.3 **Fire Extinguishing Agents:** Dry chemical, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water, foam
6.5 **Special Hazards of Combustion Products:** Toxic hydrogen chloride and chlorine gases may form in fires.
6.6 **Behavior in Fire:** Difficult to extinguish; re-ignition may occur. Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back.
6.7 **Ignition Temperature:** 120°F
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts violently to form hydrogen chloride fumes (hydrochloric acid).
7.2 **Reactivity with Common Materials:** Reacts with surface moisture to form hydrochloric acid, which corrodes common metals and forms flammable hydrogen gas.
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water, rinse with sodium bicarbonate or lime solution.
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** None
8.4 **Food Chain Concentration Potential:** None

(Continued on page 7 and 8)

NOTES

TCT	TRICHLORO-s-TRIAZINETRIONE

Common Synonyms

Trichlorocyanuric acid
(DICHLOR)
Trichloroisocyanuric acid
Trichloro-s-triazinetrione
Trichloromelamine
Trichloroisocyanuric acid
Trichlorotriazinetrione

Solid — White — Bleach-like odor

Sinks and mixes slowly with water

Fire

Not flammable
May cause fire on contact with combustibles
POISONOUS GASES ARE PRODUCED IN FIRE
Containers may explode in fire

Exposure

INHALED
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Isolate warning endangering material
water contaminant
Restrict access
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Trichlorocyanuric acid, Trichloroisocyanuric acid, Trichlorotriazinetrione, Trichloromelamine, 1,3,5-Trichloro-2,4,6-triazinetrione, 1,3,5-Trichloro-2,4,6-triazinetrione

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $C_3N_3Cl_3O_3$

3.4 **IMCO/United Nations Numerical Designations:** 9.1

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White

4.3 **Odor:** Like chlorine

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust mask or chlorine canister mask, goggles, rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation causes sneezing and coughing. Contact with dust causes moderate irritation of eyes and itching and redness of skin. Ingestion causes burns of mouth and stomach

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air. EYES: irrigate with running water for 15 min., call physician. SKIN: flush with water. INGESTION: induce vomiting and call physician

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2, oral LD_{50} = 750 mg/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable, but may cause fire on contact with ordinary combustibles

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Water in large amounts

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Toxic chlorine or hydrogen chloride may be formed in fires

6.6 **Behavior in Fire:** Containers may explode when heated

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts to form bleach solution. The reaction is not hazardous

7.2 **Reactivity with Common Materials:** Contact with most foreign material organic matter or easily chlorinated or oxidized materials may result in fire. Wood, oil, grease, sawdust, flour, sugar, other easily oxidized organic compounds

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)**
Data not available

8.4 **Food Chain Concentration Potential**
None

9 SELECTED MANUFACTURERS

1. FMC Corporation
Industrial Chemical Division
633 Third Avenue
New York, N.Y. 10017

2. Monsanto Co.
800 N. Lindbergh Boulevard
St. Louis, Mo. 63166

3. Eastman Kodak Co.
Eastman Organic Chemicals
Rochester, N.Y. 14650

10. SHIPPING INFORMATION

10.1 **Grades or Purity:** 39 - 40% available chlorine

10.2 **Storage Temperature:** Ambient
Avoid elevated temperatures

10.3 **Inert Atmosphere:** No requirement of this

10.4 **Venting:** Pressure vacuum

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG-446-3)

II-SN

12. HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:**
Oxidizing material

12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

12.3 **NFPA Hazard Classifications:**

Category	Classification
Health Hazard (Blue)	1
Flammability (Red)	0
Reactivity (Yellow)	2
	OXY

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Solid

13.2 **Molecular Weight:** 232.5

13.3 **Boiling Point at 1 atm:** Not pertinent (decomposes)

13.4 **Freezing Point:** Not pertinent

13.5 **Critical Temperature:** Not pertinent

13.6 **Critical Pressure:** Not pertinent

13.7 **Specific Gravity:** (est.) >1 at 20°C (solid)

13.8 **Liquid Surface Tension:** Not pertinent

13.9 **Liquid-Water Interfacial Tension:** Not pertinent

13.10 **Vapor (Gas) Specific Gravity:** Not pertinent

13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent

13.12 **Latent Heat of Vaporization:** Not pertinent

13.13 **Heat of Combustion:** Not pertinent

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

(Continued on page 5-643)

NOTES

TCP — TRICRESYL PHOSPHATE

Common Synonyms
TCP
Tri-p-cresyl phosphate

Liquid | Colorless | Odorless

Sinks in water

Soluble in
Colorless
Insoluble in
Soluble in

Fire

Combustible

Extinguish with dry chemical, CO2, water spray or foam
Water may be ineffective
Cool exposed containers with water

Exposure

LIQUID
Harmful if swallowed

If WATER is added to ASH, foam will form

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

Notify authorities if wildlife affected
Notify authorities if liquid enters sewers or waterways

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by
Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** TCP
Tri-p-tolyl phosphate
Tri-p-cresyl phosphate

3.2 **Coast Guard Compatibility Classification.** Not applicable

3.3 **Chemical Formula:** $(p\text{-}CH_3C_6H_4O)_3PO$

3.4 **IMCO/United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid

4.2 **Color:** Colorless

4.3 **Odor** Odorless

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Goggles or face shield

5.2 **Symptoms Following Exposure.** Vapors may irritate eyes but only at high temperatures Ingestion of liquid may cause severe damage to central nervous system and death if significant amounts of the toxic ortho isomer are present

5.3 **Treatment for Exposure** INGESTION induce vomiting and call a doctor EYES flush with water for at least 15 min SKIN wipe off wash with soap and water

5.4 **Toxicity by Inhalation (Threshold Limit Value).** Not pertinent

5.5 **Short-Term Inhalation Limits** Not pertinent

5.6 **Toxicity by Ingestion** Grade 2 LD_{50} 0.5 to 5 g/kg (chicken LD_{50} > 2 g/kg)

5.7 **Late Toxicity** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations The effect is temporary The compound is non volatile for all practical purposes

5.9 **Liquid or Solid Irritant Characteristics.** No appreciable hazard Practically harmless to the skin

5.10 **Odor Threshold** Not pertinent

6. FIRE HAZARDS

6.1 **Flash Point** 410°F C C

6.2 **Flammable Limits in Air** Data not available

6.3 **Fire Extinguishing Agents** Foam dry chemical or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used** Water or foam may cause frothing

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire** Not pertinent

6.7 **Ignition Temperature** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate.** Data not available

TRIDECANOL

Common Synonyms
1-Tridecanol
Oxotridecyl alcohol

Oily liquid | Colorless | Mild, pleasant odor

Floats on water

Fire	Combustible
Exposure	Not harmful
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1-tridecanol
Isotridecyl alcohol
1-Tridecanol

3 2 **Coast Guard Compatibility Classification.** Alcohol

3 3 **Chemical Formula.** $C_{12}H_{25}CH_2OH$

3 4 **IMCO/United Nations Numerical Designation.** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Mild alcoholic

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Synthetic rubber gloves, chemical goggles

5 2 **Symptoms Following Exposure** Inhalation hazard slight. Skin contact results in moderate irritation. Liquid contact with eyes causes severe irritation and possible eye damage

5 3 **Treatment for Exposure:** EYES promptly flush with clean water for at least 15 min and see a physician. SKIN wash exposed area with soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are nonirritating to the eyes and throat

5 9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point.** 280°F O C

NOTES

REVISED 1978

TAL — TRIETHYLALUMINUM

Common Synonyms

TEA
Aluminum triethyl
ATE

Liquid Colorless

IGNITES WHEN EXPOSED TO AIR Flammable gas is produced on contact with water

Fire

IGNITES WHEN EXPOSED TO AIR

POISONOUS GASES MAY BE PRODUCED IN FIRE

DO NOT USE WATER

Exposure

LIQUID

Will burn skin and eyes
Harmful if swallowed

DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446 4)

Issue warning high flammability
Restrict access
Evacuate area
Disperse and flush with care

2 LABELS

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** ATE Aluminum triethyl TEA

3 2 **Coast Guard Compatibility Classification** Not applicable

3 3 **Chemical Formula.** $(C_2H_5)_3Al$

3 4 **IMCO/United Nations Numerical Designation** 9 2 1102

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid

4 2 **Color:** Colorless

4 3 **Odor** Not pertinent

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment** Full protective clothing preferably of aluminized glass cloth goggles face shield gloves In case of fire all purpose canister or self contained breathing apparatus

5 2 **Symptoms Following Exposure:** Exposure to smoke from fire causes metal fume fever (flu like symptoms) Since liquid ignites spontaneously contact with eyes or skin causes severe burns

5 3 **Treatment for Exposure:** INHALATION only fume from fire need be considered metal fume fever is not critical Lasting less than 36 hrs EYES flush gently with copious quantities of water for 15 min with lids held open Treat burns if fire occurred get medical attention SKIN wash with water, treat burns caused by fire get medical attention

5 4 **Toxicity by Inhalation (Threshold Limit Value,** Not pertinent

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion** Not pertinent Ignites instantly in air reacts vigorously with water

5 7 **Late Toxicity** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Not pertinent

5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant Causes second and third degree burns on short contact and is very injurious to the eyes

5 10 **Odor Threshold:** Not pertinent

6. FIRE HAZARDS

6 1 **Flash Point** Ignites spontaneously in air at all temperatures

6 2 **Flammable Limits in Air** Not pertinent

6 3 **Fire Extinguishing Agents** Inert powders (sand, limestone) dry chemical

6 4 **Fire Extinguishing Agents Not to be Used:** Water foam halogenated extinguishing agents

6 5 **Special Hazards of Combustion Products** Irritative smoke may cause metal fume fever

6 6 **Behavior in Fire:** Dense smoke of aluminum oxide forms Contact with water applied to adjacent fires causes violent reaction producing toxic and flammable gases

6 7 **Ignition Temperature** Not pertinent (self ignites at ambient temperature)

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate** Not pertinent

(Continued on page 5 and 6)

NOTES

TEN — TRIETHYLAMINE

Common Synonyms
TEN

Watery liquid | Colorless | Fishy odor

Floats on water. Flammable, irritating vapor is produced

Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

CALL FOR MEDICAL AID
VAPOR
Irritating to eyes, nose and throat
If inhaled, will cause coughing, difficult breathing, or loss of consciousness.

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Foam to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
Evacuate area
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** TEN
3.2 **Coast Guard Compatibility Classification:** Aliphatic amine
3.3 **Chemical Formula:** $(C_2H_5)_3N$
3.4 **IMCO/United Nations Numerical Designation:** 3.2/1296

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Fishy

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air supplied mask, goggles or face shield, rubber gloves
5.2 **Symptoms Following Exposure:** Vapor irritates nose, throat and lungs causing coughing, choking and difficult breathing. Contact with eyes causes severe burns. Clothing wet with chemical causes skin burns.
5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air, give artificial respiration if needed, call a doctor. INGESTION: induce vomiting if patient is conscious. EYES: flush with water for at least 30 min., call a doctor. SKIN: flush with water for at least 30 min.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 25 ppm
5.5 **Short-Term Inhalation Limits:** 100 ppm for 30 min
5.6 **Toxicity by Ingestion:** Grade 3; LD_{50} 50 to 500 mg/kg (rat); LD_{50} 460 mg/kg)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.
5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure; may cause severe burns on prolonged exposure.
5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** 20°F (C.C.)
6.2 **Flammable Limits in Air:** 1.2% - 8.0%
6.3 **Fire Extinguishing Agents:** Carbon dioxide or dry chemical for small fires, alcohol foam for large fires
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Not pertinent
6.6 **Behavior in Fire:** Not pertinent
6.7 **Ignition Temperature:** 542°F
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** 0.2 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Dilute with water
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 80 ppm/24 hr/Fish/Lethal/Fresh water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** None

13.16 **Heat of Polymerization:** Not pertinent

Continued on page 5 and 6

NOTES

REVISED 1978

TEB — TRIETHYLBENZENE

Common Synonyms: 1,3,5-Triethylbenzene; sym-Triethylbenzene

Liquid | Colorless | Weak chemical odor

Floats on water

Fire

Combustible

Exposure

LIQUID
Irritating to skin and eyes

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-4:

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1,3,5-Triethylbenzene; sym-Triethylbenzene
3 2 **Coast Guard Compatibility Classification.** Aromatic hydrocarbon
3 3 **Chemical Formula:** $C_{12}H_{18}$; $C_6H_3(C_2H_5)_3$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Weak aromatic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Goggles or face shield; rubber gloves
5 2 **Symptoms Following Exposure:** Eye irritation by vapors or liquid. Central nervous system depression. Prolonged skin contact with liquid may cause dermatitis
5 3 **Treatment for Exposure:** EYES: flush with water for at least 15 min; call a doctor. SKIN: wipe off; wash with soap and water
5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes and respiratory system if present in high concentrations. The effect is temporary
5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point.** 181°F (C.C.)
6 2 **Flammable Limits in Air:** Data not available

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** N,N' Bis(2-aminoethyl)-ethylenediamine
TETA
Trien

3 2 **Coast Guard Compatibility Classification.** Aliphatic amine

3 3 **Chemical Formula:** $NH_2CH_2CH_2NHCH_2CH_2NHCH_2CH_2NH_2$

3 4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color** Light straw to amber

4 3 **Odor** Ammoniacal

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Amine type canister, goggles or face shield, rubber gloves

5 2 **Symptoms Following Exposure:** Vapors from hot liquid can irritate eyes and upper respiratory system. Liquid burns eyes and skin. May cause sensitization of skin.

5 3 **Treatment for Exposure:** INHALATION: remove victim to fresh air. INGESTION: do NOT induce vomiting; give large quantities of water; give at least one ounce of vinegar in equal amount of water; get medical attention. SKIN: flush with plenty of water. EYES: flush with plenty of water for at least 15 min. and get medical attention.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion.** Grade 2 LD$_{50}$ 2.0 to 5.0 g/kg (rat)

5 7 **Late Toxicity:** May cause dermatitis, asthma and other allergic reactions in man

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate ocular discomfort at concentrations that permit adequate breathing. Irritation concentrations not pleasant. Effects temporary.

5 9 **Liquid or Solid Irritant Characteristics.** Causes smarting of the skin and first degree burns on short exposure; may cause second and third degree burns on prolonged exposure.

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 275°F (C.C.) 290°F (O.C.)

NOTES

REVISED 1978

TFC — TRIFLUOROCHLOROETHYLENE

Common Synonyms Chlorotrifluoroethylene Trifluorovinyl chloride CTFE Genetron 1113 Trifluoromonochloroethylene Kel F monomer Plaskon monomer	Liquefied compressed gas Colorless Odorless or faint odor Sinks and boils in water Flammable visible vapor cloud is produced
Fire	FLAMMABLE. POISONOUS GASES ARE PRODUCED IN FIRE Containers may explode in fire Flashback along vapor trail may occur Vapor may explode if ignited in an enclosed area
Exposure	VAPOR If inhaled will cause dizziness nausea or vomiting LIQUID Will cause frostbite
Water Pollution	Not harmful to aquatic life

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning high flammability, air contaminant
Restrict access
Evacuate area

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Chlorotrifluoroethylene, Kel F monomer, Plaskon monomer, Trifluoromonochloroethylene, Trifluorovinyl chloride

3 2 **Coast Guard Compatibility Classification:** Halogenated compounds (5)

3 3 **Chemical Formula:** $F_2C=CFCl$

3 4 **IMCO/United Nations Numerical Designation.** 2 1082

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Compressed liquefied gas

4 2 **Color:** Colorless

4 3 **Odor:** None faint ethereal

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self-contained breathing apparatus goggles rubber gloves

5 2 **Symptoms Following Exposure:** Inhalation causes dizziness nausea vomiting liver and kidney injury may develop after several hours and cause jaundice and necrosis of the kidney Contact with liquid causes frostbite of eyes and possibly of skin

5 3 **Treatment for Exposure:** *Call a physician after all exposures to this compound it is more toxic than most of the closely related propellant gases* INHALATION remove victim to fresh air enforce bed rest, administer oxygen for 30 min of every hour for 6 hours even if no symptoms appear SKIN if frostbite has occurred apply warm water and treat burn

5 4 **Toxicity by Inhalation (Threshold Limit Value).** 20 ppm (suggested)

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Not pertinent (TFC is a gas at normal temperatures)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point.** Not pertinent (gas)

6 2 **Flammable Limits in Air:** 16% 34

6 3 **Fire Extinguishing Agents:** Let fire burn stop gas flow cool containers with water

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products.** Toxic hydrogen chloride and hydrogen fluoride gases are formed

6 6 **Behavior in Fire:** Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back Containers may explode in a fire

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Can occur

7 6 **Inhibitor of Polymerization.** Terpenes, Tributylamine (1%)

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** None

8 2 **Waterfowl Toxicity:** None

8 3 **Biological Oxygen Demand (BOD):** None

8 4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

1 FMC Company
FMC Center

East Rutherford, N J 07073

3 Allied Chemical Corporation
Plastics Division
Morristown N J 07960

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Polymerization grade 99 0+%

10 2 **Storage Temperature.** Ambient (no less than 150°F)

10 3 **Inert Atmosphere:** Air must be excluded

10 4 **Venting.** Safety relief

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-3)

A B C H I J

12. HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations:** Flammable compressed gas

12 2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

12 3 **NFPA Hazard Classifications:**

Category	Classification
Health Hazard (Blue)	
Flammability (Red)	4
Reactivity (Yellow)	0

13. PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Gas

13 2 **Molecular Weight.** 116 5

13 3 **Boiling Point at 1 atm:** −18°F = −28°C = 245°K

13 4 **Freezing Point:** Not pertinent

13 5 **Critical Temperature:** (est.) 223 2°F = 106 2°C = 379 4°K

13 6 **Critical Pressure:** (est.) 592 psia = 40 2 atm = 4 08 MN/m

13 7 **Specific Gravity:** 1 50 at 20°C (liquid)

13 8 **Liquid Surface Tension:** (est.) 12 dynes/cm = 0 012 N/m at 20°C

13 9 **Liquid-Water Interfacial Tension:** Not pertinent

13 10 **Vapor (Gas) Specific Gravity:** 4 02

13 11 **Ratio of Specific Heats of Vapor (Gas)** Data not available

13 12 **Latent Heat of Vaporization:** 83 Btu/lb = 46 cal/g = 1 92 × 10⁵ J/kg

13 13 **Heat of Combustion:** Data not available

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution:** Not pertinent

13 16 **Heat of Polymerization:** Data not available

(Continued on page 5 of 6)

NOTES

TFR	# TRIFLURALIN

Common Synonyms

alpha, alpha, alpha-trifluoro-2, 6-dinitro-N, N-dipropyl-p-toluidine
Treflan

Solid — Yellow-orange

Sinks in water

Fire

Combustible
POISONOUS GASES ARE PRODUCED IN FIRE

Exposure

DUST
POISONOUS IF INHALED

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Hazardous Materials Handbook, CG-446-4)

Issue warning, poison, water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 2,6-Dinitro-N,N-dipropyl-4-trifluoromethylaniline; 2,6-Dinitro-N,N-dipropyl-alpha,alpha,alpha-trifluoro-p-toluidine; N,N-Dipropyl-2,6-dinitro-4-trifluoro methylaniline; Treflan; alpha, alpha, alpha-Trifluoro-2,6-dinitro-N,N-dipropyl-p-toluidine

3.2 **Coast Guard Compatibility Classification:** Not applicable

Continued on page 4

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** Yellow-orange
4.3 **Odor:** Data not available

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective gloves, goggles, dust mask
5.2 **Symptoms Following Exposure:** Dust may irritate eyes. No toxic symptoms have been observed during the manufacture and use of this compound
5.3 **Treatment for Exposure:** INHALATION: move to fresh air. EYES: wash with running water until physician's examination permits. SKIN: wash with soap and running water. INGESTION: induce vomiting, call physician
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 3, oral LD_{50} = 500 mg/kg (rat)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** >165°F (O.C.)
6.2 **Flammable Limits in Air:** Not pertinent
6.3 **Fire Extinguishing Agents:** Water, foam, dry chemical, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Toxic and irritating hydrogen fluoride gas may be formed in fire.
6.6 **Behavior in Fire:** Not pertinent
6.7 **Ignition Temperature:** Not pertinent
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:**
0.1 mg/l 48-hr TL$_m$ rainbow trout/distilled water
0.35 ppm 48-hr TL$_m$ bluegill/Lake Michigan fresh water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** Data not available

13.13 **Heat of Combustion:** (est.) 9,040 Btu/lb = −5,020 cal/g = −210 × 10^3 J/kg
13.14 **Heat of Decomposition:** Not pertinent
13.15 **Heat of Solution:** Not pertinent
13.16 **Heat of Polymerization:** Not pertinent

Continued on page 4 and 5

3. CHEMICAL DESIGNATIONS (Cont'd)

3.3 **Chemical Formula:** $C_{13}H_{16}F_3N_3O_4$
3.4 **IMCO/United Nations Numerical Designation:** 6.1 1GN

TIA — TRIISOBUTYLALUMINUM

Common Synonyms

TIBA
TIBAL
Aluminum tri(isobutyl)

Liquid — Colorless

IGNITES WHEN EXPOSED TO AIR. Flammable gas is produced on contact with water.

Fire

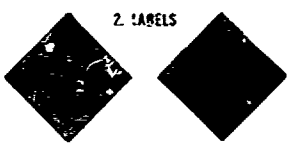
IGNITES WHEN EXPOSED TO AIR

POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability
Restrict access
Evacuate area
Disperse and flush with care

2. LABELS

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Aluminum triisobutyl
TIBA, TIBAL

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $(i\text{-}C_4H_9)_3Al$

3.4 **IMCO/United Nations Numerical Designation:** 4.2, 1930

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Not pertinent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Full protective clothing, preferably of aluminized glass cloth; goggles; face shield; gloves. In case of fire, all purpose canister or self-contained breathing apparatus.

5.2 **Symptoms Following Exposure:** Inhalation of vapors from fire causes metal fume fever (flu-like symptoms). Contact with liquid can cause severe burns of eyes and skin because of spontaneous ignition.

5.3 **Treatment for Exposure:** INHALATION: only fumes from fire need be considered. Metal fume fever lasts less than 36 hrs. and is not critical. EYES: flush gently with copious quantities of water for 15 min. with lids open; treat burns. If fire occurred, get medical attention. SKIN: wash with water; treat burns caused by fire; get medical attention. INGESTION: not pertinent.

5.4 **Toxicity by Inhalation, (Threshold Limit Value):** Not pertinent

5.5 **Short-Term Inhalation Limits:** Not pertinent

5.6 **Toxicity by Ingestion:** Not pertinent

5.7 **Late Toxicity:** Metal fume fever may develop following exposure to smoke from fire.

5.8 **Vapor (Gas) Irritant Characteristics:** Not pertinent

5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second and third-degree burns on short contact and is very injurious to the eyes.

5.10 **Odor Threshold:** Not pertinent

6. FIRE HAZARDS

6.1 **Flash Point:** Not pertinent
(Ignites spontaneously)

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Inert powder (e.g. sand, limestone) dry chemical

6.4 **Fire Extinguishing Agents Not to be Used:** Water, foam, halogenated extinguishing agents

6.5 **Special Hazards of Combustion Products:** Dense smoke may cause metal fume fever

6.6 **Behavior in Fire:** Dense white aluminum oxide forms

6.7 **Ignition Temperature:** Ignites spontaneously under ambient conditions

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts violently to form flammable hydrocarbon gases

7.2 **Reactivity with Common Materials:** Not compatible with silicone rubber & urethane rubber

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Not pertinent

8.2 **Waterfowl Toxicity:** Not pertinent

8.3 **Biological Oxygen Demand (BOD):** None

8.4 **Food Chain Concentration Potential:** None

Continued on page 7 and 8

NOTES

TMA	TRIMETHYLAMINE

Liquefied compressed gas. Colorless. Fish or ammonia odor.

Heats and ignites spontaneously on contact with water. Poisonous. Flammable vapor cloud is produced.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
POISONOUS IF INHALED
Irritating to eyes, nose and throat.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4:

1.1 Initial Isolation and Warning: Keep unnecessary people away, isolate hazard area and deny entry.
Reference:
Evacuation Area:

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms.
3.2 **Coast Guard Compatibility Classification:** Aliphatic amine
3.3 **Chemical Formula:** $(CH_3)_3N$
3.4 **IMCO United Nations Numerical Designation:** 2083

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquefied compressed gas
4.2 **Color:** Colorless
4.3 **Odor:** Ammonia

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Vapor protective clothing and self-contained breathing apparatus.
5.2 **Symptoms Following Exposure:** Vapor irritating to eyes, nose and throat. Liquid irritating to eyes and skin.
5.3 **Treatment for Exposure.** INHALATION: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, trained personnel may administer oxygen. SKIN: Flush with water. EYES: Flush with plenty of water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available.
5.5 **Short-Term Inhalation Limits.** Data not available.
5.6 **Toxicity by Ingestion:** Data not available.
5.7 **Late Toxicity:** Data not available.
5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is irritating to eyes, nose and throat. Irritation is mild at concentrations of 100 ppm and moderate at 1000 ppm.
5.9 **Liquid or Solid Irritant Characteristics:** Liquid irritating to eyes and skin. Prolonged or repeated skin exposure may cause severe dermatitis.
5.10 **Odor Threshold:** 0.1 ppm (by volume)

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent (gas)
6.2 **Flammable Limits in Air:** 2.0% - 11.6%
6.3 **Fire Extinguishing Agents:** Stop flow of gas. Use water (carbon dioxide or dry chemical if gas ignited). Use water spray to cool containers.
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent.
6.5 **Special Hazards of Combustion Products:** Not pertinent.
6.6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to source of ignition and flash back.
6.7 **Ignition Temperature:** 478°C
6.8 **Electrical Hazard:** Not pertinent.
6.9 **Burning Rate:** Not available.

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction.
7.2 **Reactivity with Common Materials:** No reaction.
7.3 **Stability During Transport:** Stable.
7.4 **Neutralizing Agents for Acids and Caustics:** Although water solutions may be neutralized with acids and, after evaporation, will remove all of the compound.
7.5 **Polymerization:** Not pertinent.
7.6 **Inhibitor of Polymerization:** Not pertinent.

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available.
8.2 **Waterfowl Toxicity:** Data not available.
8.3 **Biological Oxygen Demand (BOD):** Data not available.
8.4 **Food Chain Concentration Potential:** None.

*Physical properties apply to anhydrous material.

(continued on page 7 and 8)

NOTES

TMC — TRIMETHYLCHLOROSILANE

Common Synonyms

Chlorotrimethylsilane
Trimethylsilyl chloride

Liquid | Colorless | Sharp irritating odor

Reacts violently with water. Irritating gas is produced on contact with water.

Fire

FLAMMABLE.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR

Irritating to eyes, nose and throat.
Harmful if inhaled.

LIQUID

Will burn skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Issue warning. Isolate flammables. Restrict access. Evacuate area. Disperse and flush with water.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Chlorotrimethylsilane, Trimethylsilyl chloride

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** C_3H_9SiCl

3.4 **IMCO/United Nations Numerical Designation:** 1298

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Sharp hydrochloric acid like odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus, rubber gloves, chemical worker's goggles, other protective equipment as necessary to protect skin and eyes.

5.2 **Symptoms Following Exposure:** Inhalation of vapor may be irritating to mucous membranes. Contact of liquid with eyes or skin may cause burns. Ingestion may cause irritation and burns of mouth and stomach.

5.3 **Treatment for Exposure:** Get medical attention immediately for all exposures to this compound.
INHALATION: If breathing is difficult, give oxygen. If not breathing, give artificial respiration.
EYES: Flush with water for 15 min.
SKIN: Wash with water.
INGESTION: do NOT induce vomiting. Give large amount of water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 1 LD$_{50}$ (oral, rat) 5 g/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second and third degree burns on short contact and is a dangerous irritant to the eyes.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 0°F O.C.

6.2 **Flammable Limits in Air:** 1.8% - 11.1%

6.3 **Fire Extinguishing Agents:** Dry chemical

6.4 **Fire Extinguishing Agents Not to be Used:** Water, foam

6.5 **Special Hazards of Combustion Products:** Toxic oxides of silicon, hydrogen chloride and phosgene may be formed in fire.

6.6 **Behavior in Fire:** Dry chemical, carbon dioxide, or foam extinguishers are recommended. Cool containers with water applied to unburned vapor sources. Vapor may travel to source of ignition and flash back.

6.7 **Ignition Temperature:** 415°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 4.1 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts violently with water, producing hydrogen chloride, trimethylsilanol and hexamethyldisiloxane.

7.2 **Reactivity with Common Materials:** Reacts with surfaces moisture to release hydrogen chloride which in turn reacts with metals to release hydrogen gas.

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water. Neutralize with mild alkaline materials.

7.5 **Polymerization:** Will not occur

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

13.16 **Heat of Polymerization:** Not pertinent

Continued on page 1-4

NOTES

TGC TRIPROPYLENE GLYCOL

Common Synonyms

Liquid | Colorless | Characteristic odor

May float or sink and mix with water

Stop discharge if possible
Dike for containment
Isolate and deny entry
Notify local authorities and pollution control agencies

Fire

Combustible

Extinguish with dry chemical, CO2, water spray or foam
Water may be ineffective
Cool exposed containers with water

Exposure

LIQUID
Not harmful

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446 4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms

3 2 **Coast Guard Compatibility Classification:** Glycol ether

3 3 **Chemical Formula:** HO(C3H6O)3CH3OH

3 4 **IMCO/United Nations Numerical Designation** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color.** Colorless

4 3 **Odor.** Characteristic

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Plastic gloves, safety glasses or face shield

5 2 **Symptoms Following Exposure** Non irritating, no symptoms observed by any exposure route

5 3 **Treatment for Exposure:** INGESTION if large amounts are swallowed induce vomiting, treat symptomatically EYES or SKIN flush with water, get medical attention if ill effects develop

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion:** Grade 2, oral LD_{50} = 3000 mg/kg (rat)

5 7 **Late Toxicity** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors are nonirritating to eyes and throat

5 9 **Liquid or Solid Irritant Characteristics** No appreciable hazard. Practically harmless to the skin

5 10 **Odor Threshold** Colorless

6 FIRE HAZARDS

6 1 **Flash Point** 288°F O.C.

6 2 **Flammable Limits in Air.** Data not available

6 3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** Acrid fumes of acids and aldehydes may form in fires

6 6 **Behavior in Fire**

6 7 **Ignition Temperature** Data not available

6 8 **Electrical Hazard** Data not available

6 9 **Burning Rate** Data not available

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials.** May attack some forms of plastics

7 3 **Stability During Transport** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7 5 **Polymerization.** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity** Data not available

8 2 **Waterfowl Toxicity.** Data not available

8 3 **Biological Oxygen Demand (BOD)** Data not available

8 4 **Food Chain Concentration Potential** None

NOTES

TPO — TRIS(AZIRIDINYL)PHOSPHINE OXIDE

Common Synonyms

APO
Tris(1-aziridinyl)phosphine oxide
Phosphoric acid triethylene amide
Triethylenephosphoramide

Solid — White

Mixes with water

[illegible]

Fire

Not flammable.
POISONOUS GASES MAY BE PRODUCED WHEN HEATED.

Exposure

[illegible]
SOLID
Irritating to skin and eyes
Harmful if swallowed
[illegible]
IF INHALED [illegible]
IF SWALLOWED [illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
[illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 445 4)

Issue warning
corrosive water contaminant
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms.** APO Phosphoric acid triethylenemide Triethylenephosphoramide Tris(1-aziridinyl) phosphine oxide

3 2 **Coast Guard Compatibility Classification** Not applicable

3 3 **Chemical Formula.** $(CH_2CH_2N)_3PO$ or $C_6H_{12}N_3PO$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White

4 3 **Odor:** Data not available

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Protective clothing and gloves to prevent contact with skin goggles

5 2 **Symptoms Following Exposure** Inhalation (unlikely unless a heavy mist is formed) causes symptoms similar to those observed after ingestion Contact with liquid or powder causes irritation of eyes and (on prolonged contact) irritation and burns of skin Burns are slow to develop and slow to heal May sensitize on repeated contact Ingestion causes depression anorexia and diarrhea appearing 2-3 days before death followed by terminal dyspnea incoordination epistaxis salivation, prostration and exanosis

5 3 **Treatment for Exposure** INHALATION remove victim to fresh air EYES flush with water at once for at least 15 min get medical attention SKIN Flush with water at once followed by vinegar and dilute hydrogen peroxide INGESTION only symptomatic and supportive measures are available

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion** Grade 4 oral rat LD_{50} = 37 mg/kg

5 7 **Late Toxicity:** None observed

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air.** Not flammable

6 3 **Fire Extinguishing Agents.** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6 5 **Special Hazards of Combustion Products:** Phosphoric acid mist may form in fire Toxic oxides of nitrogen may form

6 6 **Behavior in Fire.** Data not available

6 7 **Ignition Temperature:** Not pertinent

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water.** No reaction unless in presence of acids or strong caustics

7 2 **Reactivity with Common Materials:** Slow decomposition not considered hazardous

7 3 **Stability During Transport:** Stable if cool

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization** Violent polymerization occurs at about 25°F Acid fumes also cause polymerization at ordinary temperatures

7 6 **Inhibitor of Polymerization:** None used

8 WATER POLLUTION

8 1 **Aquatic Toxicity** Data not available

8 2 **Waterfowl Toxicity** 5 13 mg/kg LD_{50}

8 3 **Biological Oxygen Demand (BOD)** Data not available

8 4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

Chemirad Corporation

(Continued on page 5 and 6)

NOTES

TPT TURPENTINE

Common Synonyms
Spirits of turpentine
Turps
Gum turpentine
Wood turpentine

Waterlike liquid Colorless Penetrating unpleasant odor

Floats on water Irritating vapor is produced

Fire

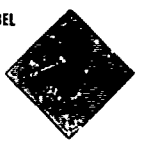
FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes nose and throat
If inhaled will cause nausea, vomiting headache, difficult breathing, or loss of consciousness

LIQUID
POISONOUS IF SWALLOWED
Irritating to skin and eyes

Water Pollution



Dangerous to aquatic life in high concentrations
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.**
DD turpentine; Sulfate turpentine; Gum turpentine; Turps; Spirits of turpentine; Wood turpentine

3.2 **Coast Guard Compatibility Classification:** Olefin

3.3 **Chemical Formula:** $C_{10}H_{16}$

3.4 **IMCO/United Nations Numerical Designation:** 3.3/1299

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color** Colorless

4.3 **Odor:** Aromatic, rather unpleasant penetrating

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Organic canister or supplied-air respirator. Face shield, rubber gloves.

5.2 **Symptoms Following Exposure.** Vapor is irritating and causes headache, confusion, respiratory distress. Liquid irritates skin. If ingested, can irritate the entire digestive system and may cause kidney ailments. If liquid is taken into lungs, it causes severe pneumonia.

5.3 **Treatment for Exposure** INHALATION: remove victim into fresh air and doctor; administer artificial respiration and oxygen if required. INGESTION: give water and induce vomiting; call a doctor. EYES: flush with water for at least 15 min. SKIN: wipe off; wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm

5.5 **Short-Term Inhalation Limits:** 700 ppm for 30 min

5.6 **Toxicity by Ingestion:** Grade 2 LD$_{50}$ 0.5 to 5 g/kg

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics** Vapor causes slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 95°F (C.C.)

6.2 **Flammable Limits in Air** 0.8% (LEL)

6.3 **Fire Extinguishing Agents** Foam, dry chemical or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used** Water may be ineffective

6.5 **Special Hazards of Combustion Products** Not pertinent

6.6 **Behavior in Fire** Burns heavy black smoke and soot

6.7 **Ignition Temperature** 488°F

6.8 **Electrical Hazard** Not pertinent

6.9 **Burning Rate:** 2.4 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport.** Stable

7.4 **Neutralizing Agents for Acids and Caustics** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:**
100 ppm */fish toxic/fresh water
*Time period not specified

8.2 **Waterfowl Toxicity** Data not available

8.3 **Biological Oxygen Demand (BOD)** Data not available

8.4 **Food Chain Concentration Potential:** None

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1-Phenylundecane
3 2 **Coast Guard Compatibility Classification:** Not Listed
3 3 **Chemical Formula:** $C_6H_5(CH_2)_{10}CH_3$
3 4 **IMCO/United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Mild

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield and rubber gloves
5 2 **Symptoms Following Exposure:** Ingestion may cause intestinal disturbances. Contact with eyes causes mild irritation
5 3 **Treatment for Exposure:** INGESTION induce vomiting if large amount has been swallowed. EYES flush with water. SKIN remove spills on skin or clothing by washing with soap and water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits.** Data not available
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics.** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 285°F C C
6 2 **Flammable Limits in Air:** Data not available
6 3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used** Water may be ineffective
6 5 **Special Hazards of Combustion Products:**
6 6 **Behavior in Fire:**
6 7 **Ignition Temperature:** Data not available
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** May attack some forms of plastics
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization.** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** Data not available
8 4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

1 The Humphrey Chemical Co
Devine Street
North Haven Conn 06473

2 Conoco Chemicals
Park 80 Plaza Two
Saddle Brook N J 07662

3 Fisher Scientific Co
711 Forbes Ave
Pittsburgh Pa 15219

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Mixture with decylbenzene and dodecylbenzene, all of which have same general properties
10 2 **Storage Temperature:** Ambient
10 3 **Inert Atmosphere:** No requirement
10 4 **Venting:** Open (flame arrester)

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-3)

A-T U

12 HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations:** Not listed
12 2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed
12 3 **NFPA Hazard Classifications:** Not listed

13. PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Liquid
13 2 **Molecular Weight:** 232.4
13 3 **Boiling Point at 1 atm:** 601°F = 316°C = 589°K
13 4 **Freezing Point:** 23°F = −5°C = 268°K
13 5 **Critical Temperature:** 918.1°F = 492.3°C = 765.5°K
13 6 **Critical Pressure:** 234 psia = 15.9 atm = 1.61 MN/m²
13 7 **Specific Gravity:** 0.855 at 20°C (liquid)
13 8 **Liquid Surface Tension.** Data not available
13 9 **Liquid-Water Interfacial Tension.** Data not available
13 10 **Vapor (Gas) Specific Gravity:** Not pertinent
13 11 **Ratio of Specific Heats of Vapor (Gas)** Not pertinent
13 12 **Latent Heat of Vaporization:** 101.77 Btu/lb = 56.26 cal/g = 2.354 × 10⁵ J/kg
13 13 **Heat of Combustion.** −19,490 Btu/lb = −10,830 cal/g = −453.1 × 10³ J/kg
13 14 **Heat of Decomposition.** Not pertinent
13 15 **Heat of Solution:** Not pertinent
13 16 **Heat of Polymerization:** Not pertinent

Continued on page 5a-65

NOTES

URA	# URANYL ACETATE

Common Synonyms
Uranyl acetate dihydrate
Uranium acetate
Uranium oxyacetate dihydrate
Bis (acetate) dioxouranium
Uranium acetate dihydrate

Solid | Yellow | Slight vinegar odor

Sinks and mixes slowly with water

Fire

Not flammable

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Restrict access
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Bis(acetato-)dioxouranium, Uranium acetate, Uranium acetate dihydrate, Uranium oxyacetate dihydrate, Uranyl acetate dihydrate

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $UO_2(CH_3COO)_2 \cdot 2H_2O$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Yellow
4 3 **Odor:** Slight vinegar

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Approved dust respirator, goggles or face shield, protective clothing

5 2 **Symptoms Following Exposure:** Inhalation of dust may irritate nose and throat. Contact with eyes can cause irritation.

5 3 **Treatment for Exposure:** *Get medical attention after all exposures to this compound.* INHALATION: move to fresh air. INGESTION: give large amount of water, induce vomiting. EYES: flush with water for at least 15 min. SKIN: flush with water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.2 mg/m³ (as uranium)

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 1 LD$_{50}$: 1 g/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available.

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents:** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:**
6 6 **Behavior in Fire:**
6 7 **Ignition Temperature:** Not pertinent
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Dissolves and reacts to give a milky solution. The reaction is not hazardous

7 2 **Reactivity with Common Materials:**

7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** 37 ppm/96 hr fathead minnow TL$_m$ soft water

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** Data not available

NOTES

UAN — URANYL NITRATE

Common Synonyms

Uranium nitrate

Solid | Light yellow | Odorless

Mixes with water

[illegible]

Fire

Not flammable
May cause fire on contact with combustibles.
POISONOUS GASES MAY BE PRODUCED IN FIRE
[illegible]

Exposure

[illegible]

DUST

Irritating to eyes, nose and throat
Harmful if inhaled
[illegible]

SOLID

Irritating to skin and eyes
Harmful if swallowed
[illegible]

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: radioactive oxidizing material, water contaminant
Restrict access
Disperse and flush

2. LABELS

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Uranium nitrate
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** $UO_2(NO_3)_2 \cdot 6H_2O$
3.4 **IMCO/United Nations Numerical Designation:** 7/[illegible]

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** Pale yellow
4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust mask, gloves, goggles

5.2 **Symptoms Following Exposure:** Excessive inhalation of dust may cause irritation of lungs and delayed symptoms similar to those observed after ingestion. Dust irritates eyes and skin and may be absorbed through skin on prolonged exposure. Ingestion causes irritation of mouth and stomach, inflammation of kidneys and liver develops 1 to 4 days after exposure.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air. EYES: flush with water for at least 15 min., see physician if irritation persists. SKIN: wash thoroughly with soap and water. INGESTION: administer large doses of sodium bicarbonate (This will convert the uranium salt to the bicarbonate which is much less toxic.) Additional treatment is symptomatic, get medical attention.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.05 mg/m³

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 3, LD_{50} 50 to 500 mg/kg

5.7 **Late Toxicity:** Delayed inflammation of kidneys. Airborne radioactive particles have apparently been responsible for a significantly increased death rate from lung cancer among long term uranium miners.

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6.1 **Flash Point.** Not flammable, but may cause fire on contact with combustibles.
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Flooding amounts of water
6.4 **Fire Extinguishing Agents Not to be Used.** Not pertinent
6.5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen formed in fires
6.6 **Behavior in Fire:** Intensifies fires. When large quantities are involved, nitrate may fuse or melt; application of water may then cause excessive scattering of molten material.
6.7 **Ignition Temperature:** Not pertinent
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Dissolves forming weak solution of nitric acid the reaction is not hazardous
7.2 **Reactivity with Common Materials:** In contact with easily oxidizable substances may react rapidly enough to cause ignition, violent combustion or explosion. Water solutions are acidic and can corrode metals.
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Wash with water
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 3.1 mg L/96 hr, fathead minnow TL_m, fresh water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** None
8.4 **Food Chain Concentration Potential:** Data not available

13.15 **Heat of Solution:** Not pertinent
13.16 **Heat of Polymerization:** Not pertinent

(Continued on page 4 and 6)

NOTES

URS

URANYL SULFATE

Common Synonyms
Uranyl sulfate trihydrate
Uranium sulfate
Uranium sulfate trihydrate

Solid | Yellow | Odorless

Sinks and mixes with water

Avoid contact with solid or dust. Keep upwind.
Stop discharge if possible.
Isolate or retrieve discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

If on skin, flush with plenty of water
If in eyes, flush with plenty of water
If swallowed, induce vomiting

SOLID
Irritating to skin and eyes
Harmful if swallowed

Remove contaminated clothing.
Flush skin with plenty of water
IF IN EYES hold eyelids apart and flush with plenty of water
IF SWALLOWED and victim CONSCIOUS, give two glasses of water
and induce vomiting
IF SWALLOWED and victim UNCONSCIOUS, OR HAVING CONVULSIONS
do not induce vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

Notify local health and pollution control agencies.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Restrict access
Disperse and flush

Continued on page Card 6

NOTES

VAL	# VALERALDEHYDE

Common Synonyms
Amyl aldehyde
Valeric aldehyde
Pentanal
Valeral

Waters liquid Colorless Fruity odor

Floats on water. Flammable. Irritating vapor is produced.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.

LIQUID
Irritating to skin and eyes.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Floating to shoreline.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4.

Isolate area. Keep unnecessary people away.
Evacuate area.
Disperse vapor.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Amyl aldehyde
Pentanal
Valeral
Valeric aldehyde

3.2 **Coast Guard Compatibility Classification:** Validity

3.3 **Chemical Formula:** $C_5H_{10}O$

3.4 **IMCO United Nations Numerical Designation.** 1.2.N.x

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Fruity

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles. Self-contained breathing apparatus.

5.2 **Symptoms Following Exposure:** Vapor irritating to eyes, nose and throat. Liquid irritating to skin and eyes.

5.3 **Treatment for Exposure:** EYES: Flush with water for 15 minutes. SKIN: Wash with soap and water. INHALATION: Remove to fresh air. Apply artificial respiration if not breathing.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available.

5.5 **Short-Term Inhalation Limits:** Data not available.

5.6 **Toxicity by Ingestion.** Grade 1. Data not available.

5.7 **Late Toxicity:** Data not available.

5.8 **Vapor (Gas) Irritant Characteristics** Vapor irritating to eyes, nose and throat. Irritation is slight at 100 ppm. Severe irritation at 200 ppm. Dangerous at 500 ppm.

5.9 **Liquid or Solid Irritant Characteristics** Minimum Standard Irritant. Liquid irritating to skin and eyes. Irritation is slight at 100 ppm. Severe irritation at 200 ppm. Dangerous at 500 ppm.

5.10 **Odor Threshold:** Data not available.

6 FIRE HAZARDS

6.1 **Flash Point:** 54°F CC

6.2 **Flammable Limits in Air:** Data not available.

6.3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide.

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective.

6.5 **Special Hazards of Combustion Products:** Not pertinent.

6.6 **Behavior in Fire:** Not pertinent.

6.7 **Ignition Temperature:** Data not available.

6.8 **Electrical Hazard:** Not pertinent.

6.9 **Burning Rate:** 1.9 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction.

7.2 **Reactivity with Common Materials:** No reaction.

7.3 **Stability During Transport:** Stable.

7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent.

NOTES

REVISED 1978

VOT — VANADIUM OXYTRICHLORIDE

Common Synonyms
Vanadyl trichloride
Trichlorovanadium
Vanadyl chloride

Liquid | Lemon yellow | Sharp unpleasant odor

Sticks and fumes violently with water

Fire

Not flammable

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Isolate hazard area and deny entry
Restrict access
Dispose and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Trichlorooxovanadium
Vanadium(V) oxide trichloride
Vanadyl trichloride

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $VOCl_3$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Lemon yellow

4 3 **Odor:** Acrid

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Acid vapor mask, rubber gloves, face shield, acid resistant clothing

5 2 **Symptoms Following Exposure:** Inhalation of vapor causes irritation of nose and throat. Ingestion causes irritation of mouth and stomach. Contact with eyes or skin causes severe irritation

5 3 **Treatment for Exposure:** Call a physician after all exposures to this compound. INHALATION: move to fresh air, give artificial respiration if not breathing, call physician. INGESTION: give large amounts of water. EYES: flush with water for 15 minutes. SKIN: wash exposed areas free of the chemical with a dry cloth, then flush thoroughly with water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Exposure to burning area is hazardous due to fact that compound decomposes in moist air into vanadic acid and HCl

5 6 **Toxicity by Ingestion:** Grade 3 Minimal LD_{50} = 2 mg/kg

5 7 **Late Toxicity:** Repeated exposures may cause discoloration of tongue, loss of appetite, anemia, kidney disorders, and blindness

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** 10 ppm (HCl found on decomposition of compound in moist air)

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air:** Not flammable

6 3 **Fire Extinguishing Agents:** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used:** Water unless in flooding amounts should not be used on adjacent fires

6 5 **Special Hazards of Combustion Products:** Evolution of hydrogen chloride may accompany fires

6 6 **Behavior in Fire:**

6 7 **Ignition Temperature:** Not pertinent

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts to form a mixture of hydrochloric acid

7 2 **Reactivity with Common Materials:** In presence of moisture will corrode most metals

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Flush with water and neutralize with powdered limestone or rinse with dilute solution of sodium bicarbonate or soda ash

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** See remarks section

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** None

NOTES

REVISED 1978

VCM — VINYL CHLORIDE

Common Synonyms
Chloroethylene
VCL
Vinyl Chloride Monomer

Liquefied compressed gas Colorless Sweet odor

Liquid floats and boils on water. Flammable. Irritating vapor cloud is produced.

Fire

FLAMMABLE.
POISONOUS GAS IS PRODUCED IN FIRE.
Flashback along vapor trail may occur.
May explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness or difficult breathing.

LIQUID
Will cause frostbite.

Water Pollution

Not harmful to aquatic life.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning. High flammability.
Evacuate area.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Chloroethene
Chloroethylene
Vinyl Chloride Monomer
VCE
VCM

3.2 **Coast Guard Compatibility Classification:** Vinyl halides

3.3 **Chemical Formula:** $CH_2=CHCl$

3.4 **IMCO/United Nations Numerical Designation:** 2.0 1086

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquefied gas

4.2 **Color:** Colorless

4.3 **Odor:** Pleasant, sweet

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Rubber gloves and shoes, gas tight goggles, organic vapor canister or self-contained breathing apparatus.

5.2 **Symptoms Following Exposure:** INHALATION: high concentrations caused dizziness, anesthetic, lung irritation. SKIN: may cause frostbite; phenol inhibitor may be absorbed through skin. If large amounts of liquid evaporate.

5.3 **Treatment for Exposure.** INHALATION: remove patient to fresh air and keep him quiet and warm; call a doctor; give artificial respiration if breathing stops. EYES AND SKIN: flush with plenty of water for at least 15 min.; for eyes get medical attention; remove contaminated clothing.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 200 ppm

5.5 **Short-Term Inhalation Limits:** 500 ppm for 5 min.

5.6 **Toxicity by Ingestion.** Not pertinent.

5.7 **Late Toxicity:** Chronic exposure may cause liver damage.

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of skin. May cause frostbite.

5.10 **Odor Threshold:** 260 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** −110°F (O.C.)

6.2 **Flammable Limits in Air:** 4% - 26%

6.3 **Fire Extinguishing Agents:** For small fire, use dry chemical or carbon dioxide. For large fires, stop flow of gas. Cool exposed containers with water.

6.4 **Fire Extinguishing Agents Not to be Used.** Not pertinent.

6.5 **Special Hazards of Combustion Products.** Forms highly toxic combustion products such as hydrogen chloride, phosgene and carbon monoxide.

6.6 **Behavior in Fire.** Container may explode in fire. Gas is heavier than air and may travel considerable distance to a source of ignition and flash back.

6.7 **Ignition Temperature:** 882°F

6.8 **Electrical Hazard:** Class I, Group D

6.9 **Burning Rate:** 4.3 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials.** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization.** Polymerizes in presence of air, sunlight or heat unless stabilized by inhibitors.

7.6 **Inhibitor of Polymerization.** Not normally used except when high temperatures are expected. Then 40-100 ppm of phenol used.

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** None

8.2 **Waterfowl Toxicity:** None

8.3 **Biological Oxygen Demand (BOD):** None

8.4 **Food Chain Concentration Potential.** None

9 SELECTED MANUFACTURERS

NOTES

VCI — VINYLIDENE CHLORIDE, INHIBITED

Common Synonyms
1,1-Dichloroethylene
unsym-Dichloroethylene

Watery liquid | Colorless | Sweet odor

Sinks in water. Flammable, irritating vapor is produced.
Boiling point is 99°F.

[illegible]

Fire

FLAMMABLE.
POISONOUS GASES PRODUCED IN FIRE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
[illegible]

Exposure

CALL FOR MEDICAL AID.

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness or difficult breathing.
[illegible]

LIQUID
Will burn eyes and skin.
Harmful if swallowed.
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
[illegible]

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4)

Issue warning: high flammability.
Evacuate area.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1,1-Dichloroethylene; unsym-Dichloroethylene

3.2 **Coast Guard Compatibility Classification:** Vinyl halides

3.3 **Chemical Formula:** $C_2H_2Cl_2$

3.4 **IMCO United Nations Numerical Designation:** 3.1 1303

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Sweet; like carbon tetrachloride or chloroform

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Approved canister or air supplied mask; rubber gloves; butyl rubber gloves and boots.

5.2 **Symptoms Following Exposure:** Vapor can cause dizziness, irritation, narcosis, pulmonary edema. Liquid irritating to eyes and skin.

5.3 **Treatment for Exposure:** INHALATION: if any illness develops, remove person to fresh air, prompt; keep warm and quiet, and get medical attention. If breathing stops, start artificial respiration. INGESTION: not likely a problem; no known antidote; treat symptomatically. EYE OR SKIN: flush with plenty of water for at least 15 minutes; get medical attention for eyes. Remove contaminated clothing and wash before reuse.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 20 ppm (recommended)

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 3, Oral LD_{50} adult = 84 mg/kg (adrenalectomized rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes moderate irritation of eyes, nose, throat; will lead to headache, excitation, unpleasant. The odor is imperceptible.

5.9 **Liquid or Solid Irritant Characteristics:** Causes burning sensation; skin will first degrease, later on short exposure may cause secondary burns; severe burning on exposure.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 0°F (O.C.)

6.2 **Flammable Limits in Air:** 7.3% - 16.0%

6.3 **Fire Extinguishing Agents:** Foam, carbon dioxide, dry chemical

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Toxic hydrogen chloride and phosgene are generated in fires.

6.6 **Behavior in Fire:** May explode in fire due to polymerization. Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back.

NOTES

REVISED 1978

VME	VINYL METHYL ETHER, INHIBITED

Common Synonyms

Methyl vinyl ether
Methoxyethylene

Liquefied compressed gas Colorless Sweet pleasant odor

Floats and may boil on water. Boiling point is 54° F.

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache, dizziness, or loss of consciousness

LIQUID
Irritating to eyes
Will cause frostbite
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4)

Issue warning: high flammability
air contaminant
Restrict access
Evacuate area

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Methoxyethylene
Methyl vinyl ether

3 2 **Coast Guard Compatibility Classification:** Not applicable

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm.** Gas

13 2 **Molecular Weight:** 58.1

13 3 **Boiling Point at 1 atm:** 41.9°F = 5.5°C = 278.7°K

13 4 **Freezing Point.** −218°F = −122°C = 151°K

13 5 **Critical Temperature:** Not pertinent

13 6 **Critical Pressure:** Not pertinent

13 7 **Specific Gravity:** 0.777 at 0°C (liquid)

13 8 **Liquid Surface Tension.** (est.) 10 dynes/cm = 0.010 N/m at 0°C

13 9 **Liquid-Water Interfacial Tension.** (est.) 25 dynes/cm = 0.025 N/m at 0°C

13 10 **Vapor (Gas) Specific Gravity:** 2.0

13 11 **Ratio of Specific Heats of Vapor (Gas)** (est.) 1.143

13 12 **Latent Heat of Vaporization:** (est.) 180 Btu/lb = 100 cal/g = 4.2×10^5 J/kg

13 13 **Heat of Combustion:** (est.) −14,200 Btu/lb = −7900 cal/g = -33×10^6 J/kg

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution:** Not pertinent

13 16 **Heat of Polymerization:** Data not available

Continued on page 1-65A

NOTES

VNT	# VINYLTOLUENE

Common Synonyms
p-Methylstyrene

Watery liquid | Colorless | Unpleasant odor

Floats on water

[illegible]

Fire

Combustible
Containers may explode in fire
[illegible]

Exposure

CAUTION [illegible]

LIQUID
Irritating to skin and eyes
Harmful if swallowed
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes
[illegible]

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-447

Mechanical containment
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Methylstyrene
3 2 **Coast Guard Compatibility Classification** Olefin
3 3 **Chemical Formula** $CH_3C_6H_4CH{=}CH_2$
3 4 **IMCO United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid
4 2 **Color** Colorless
4 3 **Odor:** Disagreeable

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** [illegible]
5 2 **Symptoms Following Exposure.** Vapor [illegible] drowsiness and anesthetic. Liquid [illegible]
5 3 **Treatment for Exposure:** INHALATION [illegible] and oxygen if needed. [illegible] INGESTION: DO NOT induce vomiting because of danger of aspiration. EYES: [illegible] SKIN: [illegible]
5 4 **Toxicity by Inhalation (Threshold Limit Value).** [illegible]
5 5 **Short-Term Inhalation Limits.** [illegible]
5 6 **Toxicity by Ingestion:** Grade 2 [illegible]
5 7 **Late Toxicity:** [illegible]
5 8 **Vapor (Gas) Irritant Characteristics:** [illegible]
5 9 **Liquid or Solid Irritant Characteristics.** [illegible]
5 10 **Odor Threshold** 50 ppm

6 FIRE HAZARDS

6 1 **Flash Point.** 135°F TOC (57°C TOC)
6 2 **Flammable Limits in Air** 0.9% - 11%
6 3 **Fire Extinguishing Agents** Water fog, foam, carbon dioxide or dry chemical
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products.** Not pertinent
6 6 **Behavior in Fire:** [illegible]
6 7 **Ignition Temperature:** [illegible]
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** [illegible]

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport.** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization** Slowly [illegible] temperature rises above [illegible] Also polymerized by metallic salts such as those of aluminum
7 6 **Inhibitor of Polymerization** [illegible]

8 WATER POLLUTION

8 1 **Aquatic Toxicity** Data not available
8 2 **Waterfowl Toxicity** Data not available
8 3 **Biological Oxygen Demand (BOD)** Data not available
8 4 **Food Chain Concentration Potential** None

NOTES

REVISED 1978

VTS

VINYLTRICHLOROSILANE

Common Synonyms

Trichlorovinylsilane
Trichlorovinylsilicane
Vinylsilicon trichloride

Liquid | Colorless to light yellow | Sharp choking odor

Reacts violently with water. Irritating gas is produced on contact with water.

Fire

FLAMMABLE.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR

Irritating to eyes, nose and throat.
Harmful if inhaled.

LIQUID

Will burn skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Issue warning. High flammability, corrosive air contaminant.
Restrict access.
Disperse any flash with care.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Trichlorovinylsilane, Trichlorovinylsilicane, Vinylsilicon trichloride

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $CH_2=CHSiCl_3$

3.4 **IMCO/United Nations Numerical Designation:** 1305

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless to pale yellow

4.3 **Odor:** Sharp choking like hydrochloric acid

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Avoid vapor. Use respiratory protection, rubber gloves, chemical worker's goggles, other protective equipment as necessary to prevent skin and eye contact.

5.2 **Symptoms Following Exposure:** Inhalation causes irritation of mucous membranes. Vapor irritates eyes. Contact with liquid causes severe burns of eyes and skin. Ingestion causes burns of mouth and stomach.

5.3 **Treatment for Exposure:** *Get medical attention following all exposures to this compound.* INHALATION: remove victim from exposure, give artificial respiration if required. EYES: flush with water for 15 min. SKIN: flush with water. INGESTION: do NOT induce vomiting, give large amounts of water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} [illegible] mg/kg rats

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and severe injury to the eyes.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 60°F (O.C.), 92°F (C.C.)

6.2 **Flammable Limits in Air:** % (LEL)

6.3 **Fire Extinguishing Agents:** Dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used.** Water, foam

6.5 **Special Hazards of Combustion Products:** Toxic chlorine and phosgene gases may be released in fire.

6.6 **Behavior in Fire:** Difficult to extinguish; reignition may occur. Contact with water applied to adjacent fires produces irritating hydrogen chloride gas.

6.7 **Ignition Temperature:** [illegible]°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** [illegible] mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts vigorously, evolving hydrogen chloride (hydrochloric acid)

7.2 **Reactivity with Common Materials:** Reacts with surface moisture to evolve hydrogen chloride which will corrode most metals and form flammable hydrogen gas.

7.3 **Stability During Transport:** Stable if protected from moisture

7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water, rinse with sodium bicarbonate or lime solution

7.5 **Polymerization:** May occur in absence of inhibitor

7.6 **Inhibitor of Polymerization:** Diphenylamine, Hydroquinone

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

NOTES

XLM — m-XYLENE

Common Synonyms
1,3-Dimethylbenzene
Xylol

Waterlike liquid | Colorless | Sweet odor

Floats on water. Flammable, irritating vapor is produced.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose, and throat.
If inhaled, will cause headache, difficult breathing, or loss of consciousness.

LIQUID
Irritating to skin and eyes.
If swallowed, will cause nausea, vomiting, or loss of consciousness.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
Floating to shoreline.
May be dangerous if it enters water intakes.

NOTES

REVISED 1978

XLO	o-XYLENE

Common Synonyms
1,2-Dimethylbenzene
Xylol

Water: liquid | Colorless | Sweet odor

Floats on water. Flammable, irritating vapor is produced.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause headache, difficult breathing, or loss of consciousness.

LIQUID
Irritating to skin and eyes.
If swallowed, will cause nausea, vomiting, or loss of consciousness.

Water Pollution

Dangerous to aquatic life in high concentrations.
Floating to shoreline.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Personnel Safety Precautions, CG 446-6)

Isolate area for high flammability.
Evacuate area.
Should be removed.
Chemical and physical treatment.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1,2-Dimethylbenzene
3.2 **Coast Guard Compatibility Classification:** Aromatic hydrocarbon
3.3 **Chemical Formula:** o-$C_6H_4(CH_3)_2$
3.4 **IMCO/United Nations Numerical Designation:** 1307

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Benzene-like characteristic aromatic

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Approved canister or air supplied mask, goggles or face shield, plastic gloves and boots.

5.2 **Symptoms Following Exposure:** Vapors cause headache and dizziness. Liquid irritates eyes and skin. If taken into lungs, causes severe coughing, distress, and rapidly developing pulmonary edema. If ingested, causes nausea, vomiting, cramps, headache, and coma. Can be fatal. Kidney and liver damage can occur.

5.3 **Treatment for Exposure:** INHALATION: remove to fresh air, administer artificial respiration and oxygen if required, call a doctor. INGESTION: do NOT induce vomiting, call a doctor. EYES: flush with water. SKIN: wipe off, wash with plenty of water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm

5.5 **Short-Term Inhalation Limits:** 300 ppm for 30 min

5.6 **Toxicity by Ingestion:** Grade 3; LD$_{50}$: 5000 mg/kg

5.7 **Late Toxicity:** Kidney and liver damage

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes slight smarting of eyes and respiratory system if present in high concentrations. Effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Moderate hazard. If splashed on clothing and allowed to remain, may cause burning and reddening of the skin.

5.10 **Odor Threshold:** 0

NOTES

REVISED 1978

XLP	p-XYLENE

Common Synonyms
1,4-Dimethylbenzene
Xylol

Water: liquid Color: clear Sweet odor

Floats on water. Flammable, irritating vapor is produced.
Freezing point is 56° F.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness, difficult breathing or loss of consciousness.

LIQUID
Irritating to skin and eyes.
If swallowed, will cause nausea, vomiting, loss of consciousness.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
Fouling to shoreline.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-2.

Evacuate area. Keep flammables away.
Evacuate area.
Shut off ignition.
Use water spray to reduce vapors.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1,4-Dimethylbenzene
3.2 **Coast Guard Compatibility Classification:** Xylenes (Hydrocarbons)
3.3 **Chemical Formula:** $C_6H_4(CH_3)_2$
3.4 **IMCO United Nations Numerical Designation:** 1307

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Characteristic aromatic odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Approved canister-type respirator; rubber boots; safety goggles; rubber gloves and boots.

5.2 **Symptoms Following Exposure:** Vapor causes headache, dizziness, loss of consciousness and coma. Irritates eyes, causes watering of eyes, and vapor decomposition products. If ingested, causes nausea, vomiting, diarrhea, abdominal pain, loss of consciousness, and coma.

5.3 **Treatment of Exposure:** INHALATION: remove victim to fresh air; if not breathing, give artificial respiration; if breathing is difficult, give oxygen. INGESTION: DO NOT induce vomiting; call a physician immediately. EYES: flush with plenty of water for at least 15 minutes. SKIN: wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm

5.5 **Short-Term Inhalation Limits:** 200 ppm for 30 min

5.6 **Toxicity by Ingestion:** Grade 3; LD50 not established

5.7 **Late Toxicity:** Kidney, liver damage

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes a slight smarting of the eyes and respiratory tract (nose and throat) in concentrations of 200 ppm or more.

5.9 **Liquid or Solid Irritant Characteristics:** Liquid causes irritation to skin with prolonged or repeated contact. Can be absorbed through intact skin in harmful amounts.

5.10 **Odor Threshold:** 0.08 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 81°F (27°C)
6.2 **Flammable Limits in Air:** 1.1% - 7.0%
6.3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Not pertinent
6.6 **Behavior in Fire:** Vapor may travel to source of ignition and flash back; containers may explode in heat of fire
6.7 **Ignition Temperature:** 867°F (464°C)
6.8 **Electrical Hazard:** Class I, Group D
6.9 **Burning Rate:** Moderate

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Grade 3 by Standard Test Procedure
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** 0 lb/lb in 5 days
8.4 **Food Chain Concentration Potential:** Data not available

NOTES

REVISED 1978

XYL

XYLENOL

Common Synonyms
Dimethylphenol
2-Hydroxytoluene
Cresylic acid
2,6-Dimethylphenol

Solid or liquid | Light yellowish brown | Sweet tarry odor

May float or sink in water

Fire

Combustible
POISONOUS GASES ARE PRODUCED IN FIRE

Exposure

DUST
Irritating to eyes, nose and throat
Harmful if inhaled

LIQUID OR SOLID
Irritating to skin and eyes
If swallowed or vapor is exposed will cause nausea and vomiting

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Foaming in shoreline
May be dangerous if it enters water intakes

NOTES

ZDP — ZINC DIALKYLDITHIOPHOSPHATE

Common Synonyms		
Zinc dialkyldithiophosphate Zinc dialkylphosphorodithioate	Solid or liquid Sinks in water	Straw yellow to green Sweet, alcohol like odor

Fire	Combustible Irritating gases may be produced when heated
Exposure	DUST Irritating to eyes, nose and throat If inhaled will cause coughing or difficult breathing LIQUID OR SOLID Irritating to skin and eyes If swallowed will cause nausea and vomiting
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: Water contaminant
Recreational uses
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Zinc O,O-di-n-butylphosphorodithioate; Zinc di-sec-butylphosphorodithioate; Zinc di-sec-butyl-O,O-dithiophosphate

3 2 **Coast Guard Compatibility Classification:** Not Listed

3 3 **Chemical Formula:** $[(RO)_2PSS]_2Zn$ where R=Cyclohexyl

3 4 **IMCO/United Nations Numerical Designation:** 6.1 PG I

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid or liquid

4 2 **Color:** Straw yellow to yellow green

4 3 **Odor:** Sweet, alcohol like

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves, safety glasses or face shield, dust respirator for solid form

5 2 **Symptoms Following Exposure:** (All commercially available members of this class have about the same health hazards.) Inhalation of dust can cause respiratory disorder. Ingestion causes irritation of mouth and stomach. Contact with eyes can cause moderate to severe irritation. Contact with skin causes mild irritation.

5 3 **Treatment for Exposure:** INHALATION: move from exposure. INGESTION: if large amounts have been ingested, induce vomiting. EYES: flush with clean, warm water for at least 15 minutes, consult a physician. SKIN: wash affected areas with soap and water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2 LD$_{50}$ 0.5 - 5 g/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** 360°F C.C.

6 2 **Flammable Limits in Air:** Data not available

6 3 **Fire Extinguishing Agents:** Water, dry chemical, foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:**

6 5 **Special Hazards of Combustion Products:** Irritating oxides of sulfur and phosphorus may form in fires

6 6 **Behavior in Fire:**

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction at ordinary temperatures

7 2 **Reactivity with Common Materials:**

7 3 **Stability During Transport:** Stable

NOTES

ZNT	# ZINC NITRATE

Common Synonyms
Zinc nitrate hexahydrate

Solid White Odorless

Sinks and mixes with water

Fire

Not flammable
Will increase the intensity of a fire
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Zinc nitrate hexahydrate

3.2 **Coast Guard Commodity Classification:** Not listed

3.3 **Chemical Formula:** $Zn(NO_3)_2 \cdot 6H_2O$

3.4 **IMCO/United Nations Numerical Designation:** NA 1514

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White crystals

4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust mask, goggles or face shield, protective gloves

5.2 **Symptoms Following Exposure:** Inhalation of dust may irritate nose and throat. Ingestion can cause irritation or corrosion of the alimentary tract. Contact with eyes causes irritation which may be delayed. Contact with skin causes irritation.

5.3 **Treatment for Exposure:** INHALATION move to fresh air. INGESTION induce vomiting followed by prompt and complete gastric lavage, cathartics and demulcents. EYES flush with water, consult a physician. SKIN wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2. Oral LD_{50} 1.7 g/kg (rats)

5.7 **Late Toxicity:** Causes enlarged liver, spleen, and bone marrow in rabbits

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Odorless

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fire

6.6 **Behavior in Fire:** May increase intensity of fire when in contact with combustible material

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

NOTES

ZPP	# ZINC PHOSPHIDE

Common Synonyms	Solid	Grey to black	Faint odor
	Sinks in water		

Fire

Not flammable
Irritating gases may be produced when heated

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause dizziness, difficult breathing, or loss of consciousness.

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
If swallowed will cause dizziness, nausea, vomiting or loss of consciousness

Water Pollution

Toxic at low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Isolate hazard, prevent water contamination
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** Zn_3P_2
3.4 **IMCO/United Nations Numerical Designation:** No. 1714

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** Grey to grey-black
4.3 **Odor:** Faint phosphine

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust mask or self-contained breathing apparatus, goggles, face shield, protective gloves

5.2 **Symptoms Following Exposure:** When inhaled or ingested, compound releases phosphine which causes faintness, weakness, nausea, vomiting, dizziness, pulse, blood pressure changes, pulse rate disturbed, intense thirst, convulsions, paralysis, and coma. Contact with eyes or skin causes irritation.

5.3 **Treatment for Exposure:** INHALATION: move to fresh air, give artificial respiration if required, get medical attention for phosphine poisoning. INGESTION: give one tablespoonful of mustard in a glass of warm water, repeat until vomit fluid is clear, avoid use of alcohol, call physician immediately, have patient lie down and keep warm. EYES: flush with water for at least 15 min. SKIN: flush with water, wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 4, oral LD_{50} = 40 mg/kg rat
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Use water. Use in dry chemical or adjacent fires.
6.4 **Fire Extinguishing Agents Not to be Used.** Not applicable. Avoid carbon dioxide or halogenated agents as will liberate phosphine gas and spontaneously flammable gas.
6.5 **Special Hazards of Combustion Products.** Irritating oxides of phosphorus may be formed in fires.
6.6 **Behavior in Fire:**
6.7 **Ignition Temperature:** Not pertinent
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts slowly with water, more rapidly with dilute acid to form phosphine gas, which is toxic and spontaneously flammable.
7.2 **Reactivity with Common Materials:**
7.3 **Stability During Transport:** Stable unless exposed to moisture, form phosphine gas may then be released and collect in closed spaces.
7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** [illegible]
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** Zinc is accumulated by some organisms but is not considered to be biologically [illegible]

NOTES

ZSL	# ZINC SILICOFLUORIDE

Common Synonyms
Zinc hexafluorosilicate
Zinc fluosilicate
Zinc silicofluoride hexahydrate

Solid | White | Odorless

Sinks and mixes with water

Fire

Not Flammable
Irritating gases may be produced when heated

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
If swallowed will cause injury, vomiting or loss of consciousness

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Issue warning - water contaminant
Disperse and flush

2. LABELS

No Hazard Label required by U.S. DOT
Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Zinc fluosilicate
Zinc hexafluorosilicate; Zinc silicofluoride hexahydrate

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** $ZnSiF_6 \cdot 6H_2O$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White, transparent

4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust respirator, chemical goggles or face shield, neoprene gloves

5.2 **Symptoms Following Exposure:** Inhalation of dust irritates nose and throat; eye vapor inhalation may cause severe pneumonitis and edema. Ingestion causes nausea, vomiting, shock, convulsions, weakness, and other symptoms. Prolonged or repeated contact with eyes, nose, or mouth causes irritation, or rashes may develop.

5.3 **Treatment for Exposure:** INHALATION: Get victim to fresh air. INGESTION: Induce vomiting by giving soapy water or mustard in water. Have patient drink large quantities of water. If necessary, give stimulant such as strong coffee. EYES: flush with water. Call physician as necessary. SKIN: wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 1 mg/m³ as fluoride

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Oral LD [illegible] strong acid

5.7 **Late Toxicity:** Data not available

NOTES

ZCA

ZIRCONIUM ACETATE

Common Synonyms	Liquid	White	Weak vinegar odor
	Sinks and mixes with water		

[illegible]

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin and eyes
Harmful if swallowed
[illegible]
[illegible]
IF IN EYES [illegible]
IF SWALLOWED [illegible]
IF SWALLOWED [illegible]
[illegible]

Water Pollution

Effect of low concentrations on aquatic life Unknown
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms** Zirconium acetate solution
3 2 **Coast Guard Compatibility Classification** Not listed
3 3 **Chemical Formula:** $Zr(C_2H_3O_2)_4$–HOH
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid
4 2 **Color.** Colorless
4 3 **Odor** Weak vinegar

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves chemical goggles or face shield
5 2 **Symptoms Following Exposure:** Has only a mild pharmacologic reaction Contact with eyes or skin may cause irritation
5 3 **Treatment for Exposure** INGESTION give large amount of water EYES flush with water for at least 15 min consult a physician if irritation persists SKIN flush with water
5 4 **Toxicity by Inhalation (Threshold Limit Value).** 5 mg m³ (as Zirconium)
5 5 **Short-Term Inhalation Limits.** Data not available
5 6 **Toxicity by Ingestion** Grade 2 LD_{50} 5 g/kg (rat)
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics.** Data not available
5 9 **Liquid or Solid Irritant Characteristics** Data not available
5 10 **Odor Threshold.** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** Not flammable
6 2 **Flammable Limits in Air.** Not flammable
6 3 **Fire Extinguishing Agents.** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent
6 5 **Special Hazards of Combustion Products** Not pertinent
6 6 **Behavior in Fire**
6 7 **Ignition Temperature** Not pertinent
6 8 **Electrical Hazard** Not pertinent
6 9 **Burning Rate** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:**
7 3 **Stability During Transport** Stable
7 4 **Neutralizing Agents for Acids and Caustics** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD)** Data not available.
8 4 **Food Chain Concentration Potential.** Data not available.

9. SELECTED MANUFACTURERS

1 The Harshaw Chemical Co
1945 E 97 St
Cleveland Ohio 44106

2 Gallard Schlesinger Chemical Mfg Co
584 Mineola Ave
Carle Place N Y 11514

3 Pfaltz and Bauer Inc
375 Fairfield Ave
Stamford Conn 06902

10 SHIPPING INFORMATION

10 1 **Grades of Purity** 25% solution in water
10 2 **Storage Temperature:** Ambient
10 3 **Inert Atmosphere** No requirement
10 4 **Venting** Open

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 448-3)

A P

Continued on next Card

NOTES

ZIR — ZIRCONIUM NITRATE

Common Synonyms
Zirconium nitrate pentahydrate

Solid | White | Odorless

Sinks and mixes with water

Fire

Not flammable
Will increase the intensity of a fire
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
If swallowed will cause nausea and purging

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning. Water contaminant
Disperse and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Zirconium nitrate pentahydrate
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $Zr(NO_3)_4 \cdot 5H_2O$
3 4 **IMCO/United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Solid
4 2 **Color:** White
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles or face shield, protective gloves
5 2 **Symptoms Following Exposure:** Has only a mild pharmacological action. Inhalation of dust may irritate nose and throat. Contact with eyes or skin causes irritation
5 3 **Treatment for Exposure.** INHALATION: move to fresh air. INGESTION: give large amount of water. EYES or SKIN: flush with water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** [illegible] (as zirconium)
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion** Grade 2; oral LD_{50} = 2.5 g/kg (rat)
5 7 **Lute Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** Not flammable but may intensify fire
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents:** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products.** Toxic oxides of nitrogen may form in fire
6 6 **Behavior in Fire.** May increase intensity of fire when in contact with combustible materials
6 7 **Ignition Temperature.** Not pertinent
6 8 **Electrical Hazard** Not pertinent
6 9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Dissolves to give an acid solution
7 2 **Reactivity with Common Materials** Will corrode most metals
7 3 **Stability During Transport.** Stable
7 4 **Neutralizing Agents for Acids and Caustics** Flush with water
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity** Data not available
8 3 **Biological Oxygen Demand (BOD)** None
8 4 **Food Chain Concentration Potential** Data not available

NOTES

ZCS

ZIRCONIUM SULFATE

Common Synonyms
Disulfatozirconic acid
Zirconium sulfate tetrahydrate

Solid | White | Odorless

Sinks and mixes with water

Avoid contact with solid and dust. Keep away from water supplies and sewers. Isolate and remove discharge. Control runoff. Notify local health and pollution control agencies.

Fire

Not flammable

Exposure

SEE FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
Do not get water directly on material. Do not get material in eyes, on skin, or on clothing. Avoid breathing dust.

SOLID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting
Keep upwind. Avoid breathing dust. Wash skin with soap and water.
IF IN EYES, wash with plenty of water for at least 15 minutes.
IF SWALLOWED, do NOT induce vomiting. Give plenty of water to drink.
IF SWALLOWED and victim is CONSCIOUS, GIVE SEVERAL GLASSES OF WATER TO DRINK.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous to water intakes
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS
